Special for [illegible]n-winners in ⅝ and 1 mile ces.	

Entry blanks a conditions for running races furnished application to the Secretary.

CONDITIONS.

Member National Trotting Association. Entries close Aust 1st.

Horses to be named with entry and be eligible when entes close.

All matinee entries will be classed by a classification committee prior to the opening day of the races.

All races (except matinees), three heats, every heat a rac money to be divided as follows: Twenty-five per cent of the purse to be paid on eacheat, and twenty-five per cent to the winner of the race according to his rank in e summary. Should two or more horses be tied for the first place at the completion the third heat, such horses only shall contest in a fourth heat and money divided acrding to rank in the summary at the termination of this heat. (Under this arrangent, according to the rules adopted by the National Trotting Association, of which his Association is a member, only the horse winning the race would take a mark.)

Heat purses will be divided 50, 25, 15 and 10 per cent.

Any race not filling satisfactorily to the Association may b declared off.

In case class in which horse is entered does not fill, entry ay be transferred to any race to which it is eligible, subject to the approval of the minator.

Entrance fee five per cent to start. Three per cent due and ayable when entries close, and two per cent before starting.

An additional five per cent of the division will be deducted fm money winners.

Nominators have the right of entering two or more horses n one ownership in any race by the payment of two per cent additional, but only e horse so entered shall be started in the race; the starter to be named by 4 o'clock m. the day before the race is to take place.

A horse may be entered in two classes and be held for but ne entry fee (entry fee in larger purse will be charged), provided only one start is nde.

A distanced horse in any heat will be entitled to money alrely won. There will be no more money than there are starters.

Entries not declared out by 4 o'clock p. m. on the day preceng the race shall be required to start and declarations must be made in writing at the office of the Secretary on the grounds.

The Association reserves the right to change the order of t program; also to start any heat after the fourth score regardless of the position othe horses; also to reject any and all entries and declare off or postpone any or all aces on account of the weather or other sufficient cause.

Address all communications to

O. P. SANDERS, Secretary, Box 533, Riverside, California.

12th ANNUAL FAIR

Hanford, Cal.

October 2nd to 7th, 1916

ENTRIES TO RACES TO CLOSE JULY FIRST, 1916

ALL RACES LIMITED TO THREE HEATS

PROGRAM

WEDNESDAY, OCTOBER 4th		FRIDAY, OCTOBER 6th	
2:12 Class Trotting	$400	2:16 Class Trotting	$400
2:25 Class Pacing	400	2:20 Class Pacing	400
THURSDAY, OCTOBER 5th		SATURDAY, OCTOBER 7th	
2:14 Class Pacing	$400	2:10 Class Pacing	$400
2:24 Class Trotting	400	2:20 Class Trotting	400

Half Mile Track.

GENERAL CONDITIONS.

ALL RACES THREE HEATS—Money divided 25% to the irst heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank i the summary at the termination of that heat. A horse having won the first two hets and drawn or distanced in the third heat shall not lose position in the summar.

Nominators have the right of entering two or more horses i any race by the payment of 2% additional on each horse, but only one of the hoses so entered to be started in the race, and the starter is to be named by 5 o'clock P.M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters awalkover. When only two start they may contest for the entrance money paid in, divid 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and dy of any race, except when it becomes necessary to antedate a race, in which instane the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

GEN. FUNSTON is said to think a good deal more of the Texas cow pony for mounting troops in the Mexican deserts than of the horses the army gets from the western corn belt. The best horses the United States army has been supplied with for many years have come from the ranges of California, Oregon, Nevada, Colorado, Wyoming and adjoining states and were bred and raised on the ranges where they ran out from the time they were foaled until taken up and broken for sale to the Government. They were generally out of good sized grade mares and sired by trotting bred and thoroughbred stallions. Some were by small, blocky stallions of Percheron blood, crossed on ordinary range mares of mixed breeding. Many of these range horses were small but had wonderful feet and legs, were tough as pine knots and weighing not over 800 or 900 pounds, would carry a trooper weighing 160 pounds with his accoutrements all day over deserts or mountain trails and be ready to repeat the performance day after day. The Texas cow ponies are of the same type, although a smaller horse, and their toughness is also due to their environment as much as anything. It is said much of the Texas pony stock resulted from using stallions of quarter horse breeding on Texas range mares which were very much of the same type as the California mustangs so common in this State when gold was discovered, and which ran in bands of hundreds on the estates of the Mexican and Spanish dons who owned the greater part of this State at that time. The old quarter horse was nearly if not quite thoroughbred, had great speed and weight carrying ability for that distance, and for light draft and "buggy" use were excellent animals. This blood crossed with the mustang, that had for generations been accustomed to picking up its own living at all seasons of the year, produced the Texas cow pony that Gen. Funston is reported to place so much value on as a cavalry animal suitable for a campaign in Mexico. It is probably environment, more than heredity, that has made the range horse, the mustang and the Texas cow pony so suitable to use in a country where water and food are scarce and long marches necessary. These animals, while growing to maturity, are generally in constant training in an effort to secure enough food to live on. If given the best of food and shelter and put to breeding, and their produce also treated in like manner, the wonderful reputation of these horses for endurance would decrease sadly in a few generations. All breeds of horses that are in use today have the ability to perform the things they have been bred to do, under the same conditions which have surrounded their breeding and development, but a change in the conditions will work a change in them, and those who would discard all but their favorite breed for the army are permitting prejudice instead of reason to shape their opinions.

The Breeder and Sportsman had a pleasant call from Payne J. Shafter ,of Olema, one day last week. While, as Mr. Shafter's host of friends in California know, his eyesight is so impaired that he is not able to read ordinary print any longer, the affliction has not altered his genial good humor one particle and he is still an ardent lover of all that is beautiful in nature and good and true in horse and man. Mr. Shafter lives a rather retired life on his estate in Marin county but finds time occasionally to woo the muse, and the following from his pen has, we think, a true poetic touch:

To My Fire Place.

After the tasks of day are done
And I come home at set of sun
To meet the love of my desire,
To feel the glow of my wood fire,
There in my warm and cosy seat,
My cares forgot, my rest complete,
I look content with smiling face
Into the heart of my fire place.

Oh, heart of friend, so kind and true,
When tired at night I come to you.
I see the lofty pine laid low
In flame and smoke up chimney go.
See flames and sparks with shadows play;
They glance and dance, then waltz away.
I hear the pine knots blaze and roar
Like breakers sound on rockbound shore.
I hear the rain on windows beat,
But what care I in my retreat?
When sturdy oak and red madrone
Together burn on my hearth stone,
They burn not fast like pine away
But burn to glowing coals and stay.

I see faces when fire light gleams,
Faces that come to me in dreams.
I hear voices calling the years,
Coming to me through drowsy ears.
The air is chill, 'tis growing cold,
The night it wanes, 'tis growing old.
The fire burns low, the shadows creep,
The fire and I have gone to sleep.

Oakland Club to Give Racing Independence Day.

The Oakland Stadium Riding and Driving Club is one of the most enthusiastic organizations in California, even though the half mile track they have at Eighteenth and Peralta streets, near the Sixteenth-St. station in Oakland, is not fitted up with a stand that can be called grand or stables where horses can be kept. The club however is behind a movement to have the city of Oakland build a first-class half mile track on land to be purchased and reclaimed for park purposes just south of that city's $1,000,000 auditorium which was built last year, and if the club succeeds in this enterprise the new track will be the scene of frequent matinees and horse shows.

The club has arranged a program of six harness races for July Fourth at the half mile track. One race with four entries is at mile heats, the others being half mile heat races as many of the horses entered are not in training and are therefore short of work.

The committee that has Oakland's Fourth of July celebration in charge has donated $150 for prizes, and there will be a first, second and third prize in each race. The city has also provided a band and the prospect is excellent for a great crowd and a fine afternoon of sport. Secretary Shaw says this will be a sort of starter for a stadium where the members of the club will not be ashamed to meet their San Francisco friends and race with them in the near future.

Following are the entries—all Oakland horses:

First race, 2:25 mixed, 2 in 3, half mile heats—Horses and owners: Teddy B., H. Buckley; Tom Wilkes, H. Olsen; Just Mac, A. P. Stott; Savannah, R. A. Reisman.

Second race, 2:18 pace, 2 in 3, half mile heats—Sleepy Dick, W. Rutherford; Hallie's Star, A. Edstrom; Lena Lee, T. Le Ballister; King, G. Lanzer.

Third race, free-for-all pace, 2 in 3, half mile heats—Little Dick ,A. P. Scott; Burbank, R. Seale; Allegro, G. Schreiber; Francisca, J. V. Galindo.

Fourth race, 2:20 mixed, 2 in 3, mile heats—Elsa Page, P. W. Bellingall; Oakland Boy, F. Hahn; Baby, Mrs. Carlisle; Grand W., A. L. Hinds.

Fifth race, 2:30 mixed, 2 in 3, half mile heats—Molly, H. Medan; Dinty Murphy, J. V. Galindo; Rhoda, G. Meader; Teddy, W. Collins; Bell Sawyer, A. Hanks.

Sixth race, 2:35 mixed, 2 in 3, half mile heats—Ida May, A. Neubaumer; Babe, C. Pitts; Andy O., W. M. Ray; Willis Baldwin, W. D. Willis; Dorca's Boy, R. Seal.

Matinee Races July 4th in Golden Gate Park.

Big fields of well-matched horses will furnish a program of light harness races at the track in Golden Gate Park on Tuesday next, July 4th, that should result in the best and fastest racing seen at this track since the San Francisco-California club opened its summer racing season. The races will begin at one o'clock p. m. The program is as follows:

First race, 2:20 trot, three-quarters of a mile—Direct Rome, Dr. E. Fallon; Derby Mc, Joe McTigue; Belle de Lopez, Jack Villard; Minequa, M. Ford; Bird Eye, A. Combatalade; Matawan, J. McNamara.

Second race, 2:20 pace, one mile—Black Jack, T. A. Geilow; Silver Logan, Dan Healey; Sis Hopkins, William Hopkins; Rosa O., J. J. Ryan; Cookey, Joe Vermet; Dibble Wilkes, S. Benson.

Third race, free-for-all pace, one mile—Bold Harry Aerolite, George J. Giannini; Little Bernice, J. C. Welsh; Vera Hal, H. Cohen; Mabel Dillon, B. Cohen; W. J. K., W. J. Kenney.

Fourth race, free-for-all trot, one mile—Yoncalla, A. Giovannetti; Brutus, M. Sanders; Ella M. R., Geo. J. Giannini; Merrylina, J. A. Wilkins; Harold C., H. Cohen.

Fifth race, 2:12 pace, one mile—Lottie P., P. S. Vaughn; Emma M., William Malough; Frank N., M. Ford; Senator H., J. M. Kidd; King Pointer, D. M. Keating; Pointer Belle, Kidd & Luce; J. C. Simpson, Frank Goulart; Little Jack, George Conlan.

Officers of the day: Judges—Bert Edwards, Luke Marisch and J. C. Welsh. Timers—Joseph McTigue, Fred Lauterwasser and Charles Becker. Starter—J. J. Ryan. Marshal—Dr. Ira B. Dalziel. Secretary—W. J. Kenney.

Ed A. Tipton, for many years a resident of New York, and president of the Fasig-Tipton Company, will from now on be a permanent resident of his native state, Kentucky. Recently Mr. Tipton bought the handsome home of Dr. Charles A. Vance at Lexington and will reside in that city for the future.

The Kern County Fair at Bakersfield will be one of the big fairs on the California Circuit this year. It will be held from October 24th to 28th, both dates inclusive, and there will be an effort made to exhibit the products of the rich county of Kern in a most lavish manner. There is no county in California that has more diversified or greater resources, from fruits to grain or from gold to oil. Bakersfield is a thriving city with fine hotels, while the fair grounds contain every modern improvement and furnish an ideal place to show stock. The race track is a regulation half mile, with turns well thrown up and safe and fast. Besides an excellent program of harness races, two running races will be given each day. See the advertisement for particulars.

Three purses of $500 each for the 2:09 and 2:12 class trotters and 2:10 class pacers to race at the Breeders' meeting at Santa Rosa in August, will close for entry on Monday next, July 3d. The fact that all the other events at the Breeders' meeting which have already closed have large lists of entries and that the Santa Rosa Forest Festival during which these races are to be held will be one of the biggest events of the year should induce every owner who has a horse eligible to either of these classes to enter him on Monday next. The Santa Rosa fair will open the California Circuit this year and every effort is being made to hold the best and the biggest show ever held in Sonoma county. Applications for space are already so numerous that a very large exhibit of the products of Sonoma, Marin, Mendocino and Humboldt counties is assured, while the famous Santa Rosa track is to be in such condition that it will be a delight to the horsemen to race over it, and one of the best harness racing programs ever offered in California will be given. Entry for the 2:09 trot, the 2:12 trot and the 2:10 pace close Monday next. Make your entry in time.

Harness Horses and Horsemen

Vera Hal Is Too Fast for Bradmont.

A good day and good track with a large and appreciative crowd made the good racing put up by the matinee horses at Golden Gate Park last Sunday enjoyable to owners, trainers, drivers and spectators alike.

The feature race of the day was of course the free-for-all pace in which Harold Cohen's mare Vera Hal was to make her first start for the season in a meeting with Geo. Giannini's Bradmont and W. J. Kenney's W. J. K. The last named was not figured to come better than third in any heat, but there was a decided difference of opinion as to whether the Expressive Mac mare or the little Alto Leyburn gelding had the most speed. Many of the matinee regulars took into consideration the fact that Bradmont had won every one of his four starts this season, while Vera Hal had not started since last year, and on that made President Giannini's horse their favorite. The race went to three heats and Bradmont won the second of these in the fastest time of the race, but in that heat Cohen took his horse out in front, while in the other two he let Machado take the lead with Bradmont ,and made his race in the stretch. Bradmont is a dead game little horse and when in the final heat he drove Vera Hal to a break just as the wire was reached, many of his friends in the grand stand thought the heat should have been awarded to him and expressed their disapproval of the judges' decision in loud tones when the heat was awarded to Vera Hal. In the first heat Vera Hal paced the last half of the mile in 1:02½ and beat Bradmont by a length. It was a good race and should the two meet again soon there will be just as much division of opinion as to the merits of the two pacers as there was last Sunday.

The 2:20 trot won by Yoncalla, the 2:20 pace won by Rosa O. and the 2:18 pace won by Pointer Belle, were all at three-quarter mile heats and finished in straight order.

The 2:15 pace was quite a contest. It was at mile heats with four starters. After King Pointer had annexed the first heat in 2:14, Joe Kidd brought his horse Senator H. to the front and won the next two heats in 2:12 and 2:15. The summary:

First race—2:2 0trot:

Yoncalla	(A. Giovannetti)	1	1
Birdeye	(A. Combatalade)	3	2
Minequa	(M. Ford)	2	4
Darby Mac	(Joe McTigue)	5	3
Matawan	(J. McNamara)	4	5

Time—1:43¾, 1:44½.

Second race—2:15 pace:

Senator H.	J. M. Kidd)	4	1
King Pointer	(H. Campodonico)	1	3
Victor Pointer	(Dan Keating)	3	2
Emma M.	(William Malough)	2	4

Time—2:14, 2:12, 2:15.

Third race—Free-for-all pace:

Vera Hal	(H. Cohen)	1	2
Bradmont	(G. J. Giannini)	2	1
W. J. K.	(W. J. Kenney)	3	3

Time—2:10½, 2:09, 2:10½.

Fourth race—2:20 pace:

Rosa O.	(J. J. Ryan)	1	1
Dibble Wilkes	(S. Benson)	4	2
Sis Hopkins	(William Hopkins)	2	4
Silver Logan	(D. Healy)	3	3

Time—1:46, 1:47½.

Fifth race—2:18 pace:

Pointer Belle	(J. M. Kidd)	1	1
J. C. Simpson	(Frank Goulart)	2	2
Little Jack	(G. Conlan)	3	3

Time—1:41½, 1:41.

Good Racing at Santa Rosa.

There was no very fast time made in any of the matinee events carded at Santa Rosa last Sunday by the Sonoma Driving Club, but there was good, clean sport and several close finishes which gave those who attended a very enjoyable afternoon. Three of the four events were won in straight heats.

In the 2:10 trot there were three entries, Vallejo King 2:10½, Nuristo 2:10¼ and Pfeister's Lynwood 2:20½. The first heat of this race resulted in a driving finish with the Lynwood horse a neck in front of Vallejo King at the wire in 2:14½. The second heat of the 2:10 pace was also very close, The Potreress winning by a short margin from Linnie C. These were the only really close finishes of the day but the weather was pleasant and the track in good shape and it was a pleasure to see the horses in action.

William Higginbottom acted as starter and got his fields away promptly and in good order. Jos. Ryan of Sonoma and John Lawler were the judges, and Dick Ables and C. M. Oliver caught the time. The results were as follows:

First race—2:12 trot:

Pfeister's Lynwood	(J. Compton)	1	1
Vallejo King	(Tom Smith)	2	2
Nuristo	(Alex Brown)	3	3

Time—2:14¼, 2:14½.

Second race—2:15 pace:

Memento	(N. Haverland)	1	1
Jessie Dillon	(Frank McGregor)	2	2
Bonnie Quinn	(W. Stewart)	3	3

Time—2:17, 2:16.

Third race—2:10 pace:

The Protreress	(W. Stewart)	2	1
Linnie C.	(L. Cannon)	1	2
Sarah C.	(L. Morris)	3	3

Time—2:13, 2:17, 2:15.

Fourth race—2:30, mixed:

Guy Carlton	(H. Whiting)	1	1
Don Remo	(W. Stewart)	2	2

Time—2:23, 2:23½.

Greatness of George Wilkes 2:22.

It is only when the student of the trotting horse compares the breeding on figures relating to the great sires that the overwhelming greatness of George Wilkes looms up. There are twenty-three stallions whose son have sired more than 350 standard performers each, and George Wilkes heads the list with 3,204 sired by his sons. Although with just one exception every one of these twenty-three sires are direct descendants of Rysdyk's Hambletonian in the male line, only three others are sons of that horse, Electioneer, whose sons have sired 1,878, Happy Medium, whose sons have sired 462, and Dictator, whose sons have sired 366 standard performers. The list of these sires—family builders they may well be called—whose sons have sired more than 350 standard performers, is as follows:

George Wilkes 2:22, by Hambletonian	3,204
Electioneer, by Hambletonian	1,878
Hambletonian (Rysdyk's), by Abdallah	1,717
Nutwood 2:18¾, by Belmont	1,338
Onward 2:25¼, by George Wilkes	1,039
Red Wilkes, by George Wilkes	1,037
Baron Wilkes 2:18, by George Wilkes	982
Alcyone 2:27, by George Wilkes	728
Belmont, by Abdallah (Alexander's)	718
Jay Bird, by George Wilkes	626
Bingen 2:06¼, by May King	617
Almont, by Abdallah ,Alexander's)	610
Alcantara 2:23, by George Wilkes	512
Wilkes Boy 2:24½, by George Wilkes	496
Happy Medium, by Hambletonian	426
McKinney 2:11¼, by Alcyone	438
Allerton 2:09¼, by Jay Bird	394
Mambrino King, by Mambrino Patchen	394
Axtell 2:12, by William L	391
Gambetta Wilkes 2:19¼, by George Wilkes	389
Dictator, by Hambletonian	366
Director 2:17, by Dictator	359
Pilot Medium, by Happy Medium	353

The one sire in this list not a descendant of Hambletonian is Mambrino King, a grandson of Mambrino Chief, a stallion contemporary with Hambletonian. To go a step farther and total the number of performers which the sons of George Wilkes' sons and grandsons in this table have sired, it will be seen that of the total number of 18,049 standard performers sired by sons of these twenty-three stallions, 10,236 are descendants in the male line of George Wilkes.

2:10 Mares in the Breeding Ranks.

The returns for the Kentucky Futurity for mares bred in 1915, or for foals of this spring, show that nearly four-score of mares named in the leading colt stake belong to the 2:10 speed list, and a greater percentage of them are mated with stallions in the same list.

The Kentucky Futurity nomination list shows that no less than fourteen mares with records of 2:09¼ or faster were mated with Peter the Great last year, and a majority are reported as having live foals. The general speed average of these fourteen matrons is a shade faster than 2:07¾. Five of the fourteen have pacing records with an average speed of a shade faster than 2:06.

The same list shows that just nine mares with fast trotting records were bred each to Peter the Great and The Harvester last season, those mated with the former having a trotting speed average of a shade faster than 2:07¼, while the average of the nine bred to The Harvester is about 2:07¾. The general average of the total of eighteen therefore is a shade faster than 2:07½, a breeding record of speed to speed that perhaps was never equaled in light harness breeding history.

How many mares with fast records were bred last year that were not entered in the Kentucky Stake is not known, yet even with those recorded show a great progress made in breeding operations and more in succeeding years as the number of fast trotting and pacing mares increases each season.

Making Arrangements for Alameda County Fair.

The Alameda County Fair Association is making arrangements for many new features in its long list of premiums and awards to be given at its annual fair, which will be held this year the week following the State Fair, commencing September 13th and closing on the 18th.

One new feature will be the horse show, which will be arranged for the special benefit of local horsemen in Alameda and Contra Costa counties. It will be so arranged that the owners will be allowed to bring their stallions and have them judged the same day, the following day will be mares and colts day, and the third day will be for draft horses, mares and geldings with team contests for pulling. A silver cup will be offered for the best pulling team under 3,000 pounds in weight and another for teams over that weight.

The full program of harness races to be given at the Kern County Fair at Bakersfield in October appears in our advertising columns. There are six purses of $400 each, all races to be limited to three heats unless there is a tie at the end of the third heat. The Kern County Fair will be one of the best county fairs held in California this year. Entries close August 1st.

◆◆◆

All McKinney paced a nice mile in 2:05 at Santa Rosa last week. It is too bad this son of Nearest McKinney is not named at the Breeders or the State Fair meetings.

Death of Randolph Huntington.

Randolph Huntington, one of the most noted of American horse breeders, passed away at Rochester, New York, two weeks ago, at the ripe age of 88 years.

During the Civil War Mr. Huntington was in the United States Government service collecting cavalry and artillery mounts, almost during the entire war and his experience naturally made him afterward one of the greatest authorities on the kind, type and variety of the horse that would answer that particular purpose the best.

After leaving the service of the Government he went into the horse breeding business with that view and soon decided that the Clay family, at that time considered a fashionable and useful strain, was the best suited. He selected some of the choicest for breeding purposes and soon attracted the attention of breeders of his time all over the country.

His long study and experiments convinced him that the Clay family, with the noted stallion Henry Clay, as the choicest representative, was best qualified for the position judged by its progeny, of which there were many in this state, the horse being then owned by General Wadsworth of Livingston county, who purchased him from his breeder at a long price after the stallion had made a great reputation for speed on Long Island and produced fine stock.

As Henry Clay traced directly to the imported Arabian stallion Grand Bashaw, the grandsire of Andrew Jackson, the sire of Henry Clay, Mr. Huntington argued and advocated the infusion of further Arabian blood for the production of a fixed type, but did not have an opportunity to carry on his ideas until 1881, when two pure-bred Arabian stallions arrived in this country direct from the stables of the Sultan of Turkey. These were Leopard and Linden Tree, presented to General Grant when he was on his tour of the world. Mr. Huntington, being a personal friend of the General, immediately selected six young Clay mares of good breeding, took them to Washington and mated them with what were known as General Grant's Arabians.

Other Clay mares were later bred to these stallions and the progeny became known as Americo-Arab. About twenty-five years ago Mr. Huntington moved his entire stock from Rochester, N. Y., to Oyster Bay and continued breeding operations, adding to his stock pure-bred Anglo-Arabs which he secured from reliable breeders in England, where many imported Arabians were used for breeding purposes.

The Huntington Americo-Arab stock attracted wide attention from horsemen and breeders as the handsomest type of horses. Ten years ago he sold his stock to a corporation after many had gone to other states, as far as California, and permanently retired from breeding.

Long before he retired Mr. Huntington had the satisfaction of seeing the prominence the descendants of his favorite stallion, Henry Clay, gained, not only as great trotters of their day, but also progenitors of high-class trotters, this blood being extensively infused among present-day trotters.

Although he found strong antagonism at the time, was severely criticised and attacked for his enthusiasm, yet his opinion about the merits of the stallion was so promptly verified that after the stallion was dead and buried his bones were dug up, the skeleton mounted, set up and presented to the United States National Museum at Washington, with the following inscription on the pedestal: "The Progenitor of the Entire Family of Clay Horses and the Foundation of the American Trotting Horse."

Although retired from active breeding, Mr. Huntington kept direct interest in the Americo-Arab horses that were distributed all over the country and did much for the organization of the Arab Horse Breeders' Club which now is quite a well organized association and aims to bring the merits of the desert bred horse and its American progeny to public notice, as its members still adhere to the Huntington idea that a better and more useful type of general utility horse can be produced through this breed than any other now available for the use of farmers and small breeders.

Although the efforts of Arabian horse breeders to attract attention to their produce has been slow, yet evidences are not lacking to prove that the breed as a fixed type is of great value for many purposes, especially as saddle and cavalry mounts, and will in time be recognized by breeders as of great value.

At his death Mr. Huntington owned one of the finest collections of old paintings, engravings and photographs of noted horses, besides a fine library pertaining to the scientific breeding and the general history of the horse. He was the author of numerous papers pertaining to the American trotter, Arabian horses and the best methods of breeding, besides a souvenir book handsomely engraved entitled "The General Grant Arabians."—A. F. Asdikian in N. Y. Telegraph.

If Bingen Silk Had Died.

If Gould's great colt had died a few weeks ago it would have meant that all the futurity events would have had at least 25 per cent more starters named, as he and at least two others are conceded to have a cinch on the first, second and third money. His owner, however, has provided for at least one futurity event. He is insured in the Hartford for $25,000. This is a futurity that every horse owner should enter. For rates and blanks address Magnus Flaws, special representative Hartford Insurance Co., 542 South Dearborn street, Chicago. Special rates for the racing season only.

Thoroughbred Matters

Reno Races Begin Today.

The Reno Fair and Racing Association will open a nineteen days' meeting this afternoon at the well-appointed Reno track and it is expected there will be a large attendance of horsemen from California and elsewhere. The feature race for today is the Opening Handicap for three-year-olds and upwards for which a purse of $1,000 is offered. During the meeting there will be four $1000 purses, one of $2,000, and one of $2,500. Owing to the fact that a majority of the horses on the coast are still at Tiajuana, where the racing will not close for several weeks, it is not expected the fields at Reno will be large, but there will be enough horses to make good racing and a number of high class runners will start in the principal events. The officers of the association are J. B. Duncan, President and J. A. Schas, Secretary-Manager. The racing officials are: Robert F. Leighton, presiding judge, S. Christenson and L. O. Henderson, associates; Ralph H. Tozer, racing secretary. Richard Dwyer will probably act as starter. Reno is a thriving city with first class hotels, theatres, etc., and is itself worth visiting. It is the metropolis of Nevada, and though in the extreme western portion, in the foothills of the Sierra Nevada Mountains, it is also the commercial, industrial, social and educational center of the state. Through it flows the beautiful Truckee river, that has its birth in Lake Tahoe, high up in the Sierra Nevadas, which dashes down into the valley, impregnates thousands of fertile acres, and empties into Pyramid and Winnemucca lakes.

Viewed from afar, from some mountain elevation, Reno presents the appearance of a green oasis in a brown desert. Perhaps this color contrast accentuates its beauty; certain it is that none have looked upon the town and failed to recognize its physical attractions.

Those who are lovers of the angling sport will find a great field to satisfy their ambition upon those lines, with Lake Tahoe bounding the western portion of the county, Washoe Lake in the south, Pyramid Lake in the north, and the Truckee river, all of which bodies of water furnish the very best of good fishing.

To those who love the sports of racing or fishing, a visit to Reno during the next three weeks will give the opportunity of an outing during which both can be fully enjoyed.

Racing at Chicago Will Begin July 15.

Racing at the famous Hawthorne track, Chicago, will be revived July 15th when the Illinois Jockey Club will open a thirteen day meeting. A revival of the American Derby is the star feature offered by the new jockey club. To show that they mean business and intend to make this event attractive for the stars among the three-year-old division, the club is offering a purse of $10,000. The distance will be a mile and a quarter.

In addition to the Derby, there is a $2,000 purse offered in the Illinois Jockey Club Gold Cup Handicap, at a mile and a sixteenth. This race will be for three-year-olds and upward.

The club announces that there will be overnight events for which $600 and over will be added and there will be no purse of less than $500 on any day's card.

The money for the purses has already been deposited in the Fort Dearborn Bank of Chicago. The headquarters of the new club are in the Hotel Sherman, Chicago, and Martin Nathanson is the racing secretary, Captain Thomas J. Clay has agreed to act as presiding judge and James Milton will do the starting.

The promoters of the meeting are spending several thousand dollars putting the track in first-class shape.

August Belmont's Friar Rock Wins Brooklyn Derby.

New York, June 25.—Friar Rock, bearing the colors of August Belmont, Chairman of the Jockey Club, yesterday added the Brooklyn Handicap to the other valuable races which this son of Rock Sand has won this spring.

Not only did Friar Rock win the event, but he clipped three-quarters of a second off the track figures, and at the same time demonstrated that he is one of the best three-year-olds which has looked through a bridle in many years. While thoroughbreds of this age have won the Brooklyn Handicap before, it is the first time that a horse in this division has had the double honor of winning the Suburban and the Brooklyn in the same season.

The occasion of Friar Rock's victory was the opening of racing at the Queens County Jockey Club course at Aqueduct. Twenty thousand persons crowded the grandstand and overflowed onto the lawns and into the paddock. Long before the last trains from Brooklyn and New York had unloaded every available seat had been taken, and the late arrivals were forced to stand or to take such points of vantage as remained.

With such horses as Roamer, Pennant, Short Grass, Slumber II., Friar Rock, and Churchill starting, the twenty-seventh anniversary of the Brooklyn Handicap will long be remembered as one of the greatest contest between thoroughbreds since the inception of this important turf event in 1887, when 25,000 persons were thrilled by a nose-and-nose battle between Dry Monopole, Blue Wing, and Hidalgo, which finished in the order named.

Eight horses faced the starter. Andrew Miller's four-year-old champion Roamer carried top weight with 131 pounds and had his old rider, Butwell, in the saddle. Pennant, winner of the Futurity in 1913, who was starting for the first time this season, carried the Whitney colors, with Joe Notter up. The son of Peter Pan had an impost of 123 pounds and carried it like a veteran. Friar Rock was in light, with 108 pounds, and was ridden by young Haynes in masterly fashion. Roamer was the favorite, being heavily played at 11 to 5, while the winner was a fairly long shot, at 5 to 1.

The race started from a chute to the extreme right of the paddock, out of sight of the grand stand. While Friar Rock broke well, he was taken off the pace for the first seven furlongs. Schuttinger, with the imported Sand Marsh, was the first to show as they came out of the chute, with Slumber II. following closely behind, although there was never daylight between them. Pennant was third, half a length in the rear. Notter had the Whitney horse well in hand, with the winner behind Roamer and Achievement. The positions were maintained with very little change until the horses came into the stretch. The straight-away home at Aqueduct is three-eighths of a mile long.

It was just after making the turn that Haynes, with Friar Rock, started his run. Sand Marsh was still in the lead, but his early effort had been too much for him and the bearer of the white and pink silks was tiring rapidly, with the result that he fell behind and Pennant took the lead. Meanwhile Haynes started to urge Friar Rock, and the youngster responded with a will and came up alongside of the Whitney horse.

Then the real horse race began. For almost a minute they came along stride for stride down the centre of the track. Haynes was working like a Trojan and Friar Rock seemed to be reveling in the contest. The youngster was on his mettle and gave as fine an exhibition of courage as has been seen in a thoroughbred in many a long day.

Step by step he started to draw away as they neared the finish. Horse and rider were straining every muscle. The crowd was wild with enthusiasm and shouted and yelled to Haynes to come on. Fifty yards from the finish Friar Rock showed in front for the first time during the race. At first only a nose, the next few strides a head; finally he had a length on Pennant, to finish the race more than that distance ahead of the son of Peter Pan.

Pennant, although beaten, was by no means disgraced, and ran a splendid race considering it was his first time out this season. Slumber II., always well up in the van, finished strongly. Roamer was not seen to advantage. Butwell never seemed to be able to get into a position where he could place his mount up with the leaders, and consequently the son of Knight Errant was never better than fourth or fifth.

The spectators had another opportunity to get enthusiastic when the time of 1:50 flat was placed upon the board and it was seen that Friar Rock had clipped nearly a second off the track record. Few horses and their riders have received such a reception as the Belmont entry and Haynes found waiting them when they returned to the judges' stand to report. The crowd stood up, and for a minute pandemonius reigned. Those acquainted with the Chairman of the Jockey Club rushed to congratulate him. Meanwhile the spectators cheered themselves hoarse.

It was a race long to be remembered, and Friar Rock's victory in the Brooklyn Handicap of 1916 will go down in the annals of the turf as one of the greatest contests which has ever been won by a three-year-old, who has clearly demonstrated that he is without a peer in his division. Summary:

The Brooklyn Handicap, for three-year-olds and upward; guaranteed cash value, $5,000; one mile and a furlong:

Friar Rock, A. Belmont's ch. c., 3 years, 108 pounds, by Rock Sand—Fairy Gold, 5 to 1, 2 to 1, and 4 to 5, (E. Haynes) 1½

Pennant, H. P. Whitney's ch. h., 5, 123, 7 to 1, 2½ to 1, and 7 to 5, (J. Notter) 2½

Slumber II., J. O. Talbott's b. g., 5, 111, 8 to 1, 3 to 1, and 8 to 5, (J. McTaggart) 3½

Short Grass (imp.), Roamer, Achievement, Churchill, and Sand Marsh also ran. Old Koenig scratched.

—o—

Harry L., chestnut horse by Sir Huron—Watoma, carrying 124 pounds, won a five and a half furlong race at Tijuana on Wednesday of last week in the good time of 1:06 1-5. The track record of 1:05 4-5 was made by Orange Blossom with only 106 pounds on his back.

◆◆◆

"Eddie" Dugan is going to Russia to ride for the Countess Eugenie Lazareff. He has signed a long-term contract with the countess and may never be seen in the saddle again on an American race track. "Eddie" was riding in Russia when the war broke out. He had been abroad during the dark days of racing in this country, riding with great success in Germany and Austria, as well as in the realm of the Czar.

◆◆◆

Alvin Untermeyer of New York, who has one of the finest strings of polo ponies in Southern California, has recently purchased, through Robert Lee Bettner, the well known poloist, a twenty acre farm near Riverside and will convert it into a breeding farm for thoroughbred horses and polo ponies.

Praises American Horses in English Artillery.

Close observers of the heavy army horses that have been brought over to England from the U. S. A. must surely have been struck with their tremendous bone and scale, blended with a quality, at times, that appears quite startling in such massive animals. We particularly refer to gun teams, big, wide, heavy, intelligent, docile horses, with the unmistakable stamp of quality marked on their contour, both over their tops and below the knee. Inquiry elicits the fact that the American preference for the Percheron and the cross of that breed is responsible for the big proportion of all the draft horses imported being of the stamp we speak of—a foreign and unfamiliar look about the heavy frame, but a thoroughbred, or, say, a blood-like appearance ever and anon peeping out of the horse at some point of its makeup. We now have it on authority that this preference for the Percheron horse is largely due to the "freeness" of hair on the limbs. The American breeder, especially in his rainy season, cannot be bothered with a lot of hair, conducive to a great deal of trouble in the way of scratches or grease.

Whence comes this "breedy" look about the Percheron stock now in this country on war duty? The answer is quite easy. It emanates from a thoroughbred stallion fatefully named Gallipoli, who, when crossed on the French draft mares of his day and generation, impressed himself to a remarkable degree on his progeny, and on that progeny the Percheron breed of horses was founded. After he had served his refining process the French breeders established the heavy weight that the Percheron now boasts of by continually selecting horses with weight to breed from. The premier Percheron stallions at the moment in the U. S. A. weigh practically as much as the Shires and the Clydesdales over there, and their limbs are much more free from feather or hair.

The cross of the Percheron stallions imported from France and bred in the U. S. A. on the native mares has undoubtedly produced a very useful general-purpose horse, which gives every satisfaction to the English Government buyer where the animal has sufficient weight for heavy draft work. The medium-sized horses, weighing from 1,250 to 1,500 pounds, have been the most useful gneral-purpose horses. They are very tractable, active, and maintain themselves on less food than any other types or breeds of horses. This class of animal has supplied our Government with some of the best gunners they have had from any source. In short, quite 60 per cent of the gun teams that we possess today are bred on Percheron lines, and the thoroughbred cross in the French breed has been wonderfully potent, and has produced a horse with very much the same breeding as the heavy gunner that at one time came from Ireland. The stallion Gallipoli, therefore, possesses the key to the secret which puzzled us not a little when we first saw a string of R. F. A. horses marching through London, boasting weight, clean limbs and heels, the intelligent lookout, the well-set-on head and neck of the thoroughbred, but the limbs of a Herold, a Premier or a Vulcan.—London Live Stock Journal.

—o—

The Chicago Breeders Gazette of June 22d says: "Horse trade is on an army basis. The United States government is taking cavalry horses. The French, British and Italians are running inspections, but are exacting. Rejects from these inspections are hard to move. Army trade is being done at $135@200 and most of the commercial business at $175@225. Italy is taking four-year-olds, but the specification calls for a certain type of thick chunks, straight and sound. For the French inspection stock must be up to the 15.1 mark and of full age. To pass the French inspection cavalry stock must have strong bone and size. The British government is taking 1,400-pound chunks, 15.2 hands, solid colors and six years old or more. The commission interest advises country shippers to confine operations to army stock, as the commercial outlet is not reliable at this season.

◆◆◆

Nasturtium, son of imported Watercress and Margerique by imported Order, died at the stables of his owner, Geo. J. Stoll, at Lexington, June 26th. Nasturtium was foaled in 1899, at Rancho del Paso, near Sacramento, was sold as a two-year-old for $50,000, and as a three-year-old won the Double Event, and the Flatbush Stakes at Sheepshead Bay, besides many other races. He was a high class race horse and since being placed in the stud has sired a large number of winners.

◆◆◆

John E. Madden is the owner of more thoroughbred foals of 1916 than any other American breeder. At his Hamburg place there are eighty-seven colts and fillies, foals of this year, the majority being by the English bred stallions Star Shoot and Ogden. There are forty-five colts and forty-two fillies. Fifteen of these foals are by Ormondale.

◆◆◆

There was great excitement at Tia Juana the other night. A trainer who had charge of a valuable string of horses heard in San Diego that war had been declared and rushed over to the racing town and sounded an alarm of preparedness, advising every trainer to get his horses out while the getting out was good. It is said there was close to a panic for an hour or so and several strings of horses were taken across the line into California, but finally the excitement died out and the horses were taken back to their stalls.

Notes and News

See here!

◈◈◈

Have you a 2:09 class trotter?

◈◈◈

Or a trotter eligible to the 2:12 class?

◈◈◈

Or a pacer that can start in the 2:10 class?

◈◈◈

If you have either remember that entries close Monday, July 3d, for these classes at the Breeders' Santa Rosa meeting. The purses are $500 each.

◈◈◈

Chas. Silva and H. S. Cowell have sent their horses in training from the Sacramento track to Woodland.

◈◈◈

A train load of Jastro cattle from Wasco, California, sold in Kansas City last week for $9 per hundred after a ride of 1,792 miles.

◈◈◈

Lon Daniels started Kid Cupid at Rockport half mile track, the week after his start at Cranwood, and again won fourth money. This time he took the first heat in 2:15¼.

◈◈◈

Geers worked the trotter Saint Frisco 2:07¼ a mile in 2:09 last week and the son of San Francisco came the last half a shade under 1:02. It is thought 2:04 will not stop him this year.

◈◈◈

There seems to be a pretty general opinion among the eastern turf scribes that Lee Axworthy 2:03¼ will come very near being the world's fourth 2:00 trotter before this year is ended.

◈◈◈

Hanford entries close today, July 1st. There are eight harness races, each for a purse of $400. The Hanford half mile track is one of the best in the State, and the fair there is always largely attended.

◈◈◈

Miss Loula Long has purchased of Thomas A. Crow, Toronto, Ontario, the English hackney mare Countess Seaton, by Polonius, out of Seaton Queen, the dam of William H. Moore's champion harness mare, Lady Seaton.

◈◈◈

It is said that one hundred mares will be sent to the court of J. Malcolm Forbes 2:08 this year. As his fee is $200 his owner is not among those who say there is no money in keeping a trotting stallion for public service these days.

◈◈◈

On Monday of last week Will DeRyder worked Spriggan a mile in 2:08½ at North Randall and Lon Daniels gave John Malcolm a mile in 2:07. Spriggan is said to be in better shape than ever and trots his miles as if he had plenty of reserve speed.

◈◈◈

There were but two days of racing at the Rockport meeting, near Cleveland, last week. Rain compelled the program to be cancelled on three days. Horsemen experienced difficulty in getting cars to ship away as the government had commandeered so many cars.

◈◈◈

Pittsburg amateurs have put the taboo on pacers for their harness racing matinees, in the same way that the sidewheelers are barred in nearly all horse shows where there are classes for light harness horses. This year, for the first time, there will be no races for pacers at Pittsburg.

◈◈◈

The Suisun Stock Farm annual auction sale will be held at Suisun this afternoon. Twelve highly bred two-year-olds by Demonio 2:11¼ and the Moko stallion Montbaine, are to be offered. They are out of the farm's best producing mares and are unbroken. There will be bargains to be had at this sale.

◈◈◈

Guy Carlton 54846, son of Guy Dillon, that was given a breeder's record of 2:30 at San Jose in 1911, when he was four years old, is a greatly improved horse. He won a matinee race at Santa Rosa last Sunday in 2:23 and 2:23½ and seemed to have reserve speed. He is a royally bred trotter, being out of the great brood mare Carlotta Wilkes.

◈◈◈

California's oldest trotting horse trainer and driver who is still actively engaged in road driving and occasional matinee racing, Mr. A. L. Hinds, of Oakland, will be seen in the sulky at the matinee on July 4th at the half mile track at Eighteenth and Peralta streets, near the Sixteenth-St. station of the Southern Pacific.

◈◈◈

The free-for-all pace and the free-for-all trot at the stadium track July 4th should be good races. In the pace are entered Little Bernice 2:06¼, Vera Hal 2:05, Bradmont 2:13¼, W. J. K. 2:12¼, Bold Harry Aerolite and Mabel Dillon. In the free-for-all trot are Harold C. 2:11¾, Brutus 2:15¼, Ella M. R. 2:16¾, Merrylina 2:23 and Yoncalla. Both these races will be at mile heats. 2:10 should be beaten in the pace and a mile close to 2:12 may be seen in the trot. These with three other well filled races will make excellent sport.

Eight half mile tracks in New York State have announced purses and stakes totaling $100,000.

◈◈◈

Fifteen mutual machines are being installed at Detroit for the Grand Circuit meeting there next month.

◈◈◈

A match race between the only two Chinese cowpunchers in captivity will be one of the features of the San Jose Round-Up on July 3rd. George Wong, the challenger, has found a competitor in Hay Bow, a Siskiyou China boy, and they will race for a special prize offered by Sheriff Langford.

◈◈◈

Hugo Schmidt, of Tacoma, Washington, has sold his fast pacer Uncle H. 2:14½ by Garvin Wilkes, to Al. J. Boyle of Tacoma.

◈◈◈

The lack of ships to take them to Europe is keeping the price of army horses down. Were ships plentiful and freight rates lower army horses could be disposed of at a much higher figure.

◈◈◈

Riverside County Fair's race meeting, to be held October 10th to 14th, offers a splendid program of trotting, pacing and running events. The purses for harness horses range from $300 to $1000 each. The free-for-all events have purses of $500 with $50 added for each starter over four. This is a liberal concession and should attract a full entry in those classes where small fields are generally the rule.

◈◈◈

Red Seal 2:10, bay horse foaled in 1899, is dead at Ellensburgh, Washington, where he has been owned for some time. Red Seal was bred by T. H. and H. E. Ball at Aurora, Illinois, and made his record at Terre Haute, Indiana in 1899, when he was five years old. He was by Red Heart, son of Red Wilkes. Red Seal sired King Seal 2:09 and a few more standard performers.

◈◈◈

The 2:13 trot at Rockport, Ohio, last week had five starters and it took five heats for a decision. The summary was: Harry Hamilton 4-2-1-1-2, Border Scout 3-4-2-2-1, Todd Temple 2-1-3-4-4, Kid Cupid 1-3-4-3-3, Dowie B. 5-5-5. Time, 2:15¼, 2:15¼, 2:14¼, 2:18½, 2:19¼. This was the second day of the meeting and Kid Cupid was the only California horse that started during the two days.

◈◈◈

The following is the list of entries for the $2,500 free-for-all pace at Rutland, Vt., which is to take place in September: Frank Bogash, Jr. 1:59¼, Earl, Jr. 2:01½, Hal Boy 2:01½, Aconite 2:04¼ Baron A. 2:04½, Grand Opera 2:05¼, Camelia 2:04¼, San Jacinto 2:05¼, It Will Tell 2:05¾, Greatest Line 2:06¼, Ruth R. 2:06¼, Fred W. 2:07¼, Baron Hal 2:07¼, B. M. 2:09¼ and Red Norton 2:14¼. The sixteen nominations makes the rich half-mile track event the best-filled fast pacing class of the year.

◈◈◈

$1200 is to be expended on new stalls and other improvements at the Dixon track before the fair and race meeting is held in August. There is no more beautiful fair ground anywhere, a magnificent grove of trees being one of its attractions. It has excellent rail facilities, good water and is located in a thickly settled community and in the midst of one of the most productive farming sections of the State.

◈◈◈

Billy Durfee says there are too kinds of trotters that he does not care to train; one is a knee banger, and the other a "strutter," and he says the latter is the worst because there is practically no remedy for him as the fault is due to a nervous condition. A horse so constituted will in a tight place, no matter if perfectly balanced, lost control of his limbs and resort to strutting, then go into a break nine times out of ten.

◈◈◈

Fred Ward has entered the Hemet Stock Farm horses in the races to be given by the Omaha Driving Club August 22d to 26th. The purses range from $500 to $2000. Ward has quite a string of horses, including Allie Lou 2:12½, Bon Courage 2:08¼, Dr. Wayo 2:12¼, Great Northern 2:12½. Don de Lopez (2) 2:25, now a three-year-old, Louise de Lopez (2), all trotters, the three-year-old pacer Fiesta Lou (2) 2:22½, and several others.

◈◈◈

E. R. Dunn, owner of Virginia Humbug 2:16¾ by Cochato, winner of the two-year-old trotting division of the Pacific Breeders' Futurity last year at the P. P. I. E. races, has sent the filly as a three-year-old to Walnut Hall Farm, Kentucky, to be mated with Manrico 2:07¼. Mr. Dunn is training his own horses at North Randall, among them the three-year-old The Puzzler by Cochato that divided fourth money with Fiesta Lou in the two-year-old pacing division of the Pacific Breeders' Futurity last year.

◈◈◈

H. G. Angevine of San Jose writes: "In the last number of your valued journal you announced the arrival at Santa Rosa of T. W. Barstow's sensational pacer All McKinney, but you failed to mention that H. G. Angevine of San Jose shipped with All McKinney his good trotting mare Loma Logan by Prince McKinney, and his three-year-old Jake Logan by Nearest McKinney 2:13¼. While Jake is not all McKinney, he will demonstrate to your satisfaction that he is all trotter when he starts in the Breeders' Futurity and under the able guidance of William Cecil will try to keep the fast ones in sight."

The estate of the late Frederick Dietz, the lantern manufacturer and well-known horseman of New York City, was recently appraised at over a million dollars.

◈◈◈

M. Henry, who raised, trained and worked Will Guthrie a trial mile in 2:07¾ and is now training the Lanark Park stable owned by R. S. Irvine, worked the filly Boretta Dee a mile in 2:10 flat over the Stockton track. The first half of this mile was in 1:05¾, the last half in 1:04¼ and the last quarter in 31½ seconds. Boretta Dee wears nothing but a light pair of quarter boots for protection. Boretta Dee is by Charley D. 2:06¼. Mr. Henry has nine head and all are going along well so far, quarters being paced in 31 and eighths in 14 seconds by some of them.

DIXON'S PROGRAM IS PUBLISHED.

The first annual fair of the Solano County Fair Association will be held at the Dixon Fair Grounds where one of the fastest half mile tracks in the country is located, and the list of purses offered for harness races is in the advertising columns of the Breeder and Sportsman today.

There are eight purses of $300 each, every race being limited to three heats unless there should be a tie at the end of the third heat and then only the horses tieing for first money will start in another heat.

On the first day there will be the 2:20 trot and the free-for-all pace, and the start of the four days' relay race for saddle horses.

The second day will have the 2:10 pace and the 2:15 trot on the program and the second race of the relay event.

On the third day the 2:20 pace and the 2:30 trot will be decided, and the third lap in the relay race.

Saturday, August 19th, the fourth and last day will be given over to the 2:13 pace and the 2:09 trot, and then will come the final of the relay race. The latter is expected to furnish the greatest excitement of the meeting as some of the best relay riders in California will compete and the rivalry is already great.

This fair at Dixon will follow the Breeders' meeting at Santa Rosa and as the next will be the State Fair horsemen should know that Dixon is on the direct rail route between Santa Rosa and Sacramento, making it a most convenient point to drop off at for a few days' racing.

Entries to the Dixon purses will close Monday, July 10th. A. C. Madden is the Secretary. Read the purses and full conditions in this number of the Breeder and Sportsman.

FRESNO FILLS EVERY RACE.

Just as we go to press the welcome news comes from Secretary Eberhart at Fresno that every harness race advertised for the big Fresno Fair in September has been declared filled. The entries are as follows:

TUESDAY, SEPTEMBER 26th.

2:14 Pacing—$600.

Best Direct, s s by Best Policy, J. A. Garner
McVerde, b g by Zolock, A. J. Donnely.
Babe, b m by H. M. Stanley, J. Cuccotto.
Silver Tips, b g by Morris A., C. A. Short.
Irene O., b m by Charley O., J. N. Jones.
Breezy Marie, b m by Athasham, Bert Meigs.
Verna McKinney, b f by Vernon McKinney, J. W. Marshall.
Dixon Boy, b g by Patchen Boy, C. F. Silva.
Julia M., b f by El Angelo, D. W. Wallis.

2:30 Trotting—600.

Future Tramp, b g by Trampfast, T. D. Sexton.
Peter McKlyo, b s by Peter the Great, L. H. Todhunter.
Trigione, b g by Skidoo Wilkes, E. S. Wate.
Miss San Francisco, b m by San Francisco, Al. Schwartz.
Ola Mack, b g by Expressive Mack, E. Manger.
Tom Murphy, b g by Red McK., A. S. Murphy.
Martina Dillon, s m by Sidney Dillon, J. W. Zibbell.
Dr. S., b g by Carlokin, H. J. Stevens.
Rubell, b m by Del Coronado, S. C. Walton.
El Angelo, b s by The Angelus, D. W. Wallis.
Alice W., b f by El Angelo, D. W. Wallis.

WEDNESDAY, SEPTEMBER 27th.

2:09 Trotting—$600.

Bon Cres, b h by Bon Voyage, J. J. Campbell.
Bert Kelly, b g by McAdrian, W. W. Gallup.
Harold C., b g by Bon Voyage, Harold Cohen.
Columbia T., b m by Bon Guy, Chas. F. Silva.
Pavana, b h by Stanford McKinney, M. L. Woy.

2:10 Pacing—$600.

Best Direct, s s by Best Policy, J. A. Garner.
A. B. C., b g by Young Monterey, Wm. B. Alford.
Zomar, ch s by Zolock, Doulon Bros.
McVerde, b g by Zolock, A. J. Donnelly.
Hal J., br g by Hal B., O. M. Katz.
Soumise, b m by Billy Dunlap, R. Friend.
Pointer's Daughter, b m by Star Pointer, Blosser & Finley.
Stanley Quinn, b g by Dan Logan, C. F. Silva.
Julia M., b f by El Angelo, D. W. Wallis.

THURSDAY, SEPTEMBER 28th.

2:20 Pacing—$600.

Santa Paula, b m by Silver Coin, Jas. Gill.
Silver Tips, b g by Morris A., C. A. Short.
Lauritz, b g by The Bondsman, Mrs. M. McDonald.
Hanover, b g by Hannibal, J. N. Jones.
Harry Mack, b s by Expressive Mac, Russell Gray.
Mono Ansel, b s by Monicrat, Blosser & Finley.
Dixon Boy, b g by Patchen Boy, C. F. Silva.
Villa, b g by Nearest McKinney, D. W. Wallis.
Path C., b f by El Angelo, D. W. Wallis.

2:15 Trotting—$600.

Camelia, b m by Altavcalia, M. D. Cole.
Future Tramp, b g by Trampfast, T. D. Sexton.
Sweet Bow, b m by Bon Voyage, L. H. Todhunter.
Brutus, b g by Strathway, S. Christenson.
Hanford Mack, b g by Expressive Mack, Geo. Russell.
Dick W., b g by Walter Barker.
Dr. S., b g by Carlokin, H. J. Stevens.
Eloise Dell, b m by Alconda Jay, C. F. Silva.
El Angelo, b s by The Angelus, D. W. Wallis.
Alice W., b f by El Angelo, D. W. Wallis.
Lulu B., br m by The Bondsman, M. L. Woy.

Stock Breeders' Page

A Fifty Thousand Dollar Bull.

At LaGrangeville, N. Y., there is a bull that is so valuable that his owners have never exhibited him at a public exhibition, fearing to take any chances of accident or injury to him.

He is of the Holstein breed and goes by the name of King Segis Pontiac Alcartra 79602. When he was a calf John Arfman, of Middletown, N. Y., paid $25,000 cash for a one-half interest in him. Because of this fact he is known as "the $50,000 bull." His original owner and breeder, the Lawson holding company of LaGrangeville, still owns one-half of him.

King Segis Pontiac Alcartra was born November 16, 1910. For the first time in his career he will make a trip away from his two homes, the Lawson farm and Fairmount farm at Middletown, next October, when he will be taken to the National dairy show, Springfield, Mass.

His lineage is of the most distinguished character; in fact, it was his lineage that influenced Mr. Arfman to pay so great a price for his half of him before he had any record of performance whatever. The sire of this great bull was King Segis Pontiac 44444, one of the most famous Holsteins that ever lived, the father of 42 A. R. O. daughters. The dam of the $50,000 bull was King Pontiac's Alcartra 99163, who at the age of 3½ years made a butterfat record of 30.87 pounds in seven days.

The judgment of the man who paid $25,000 for half of this chap when he was still a calf has been justified. Though less than 6 years old, he already has nine 20-pound two-year-old daughters; one is a 27-pound cow and one has a record of more than 27 pounds of butterfat in seven days. As head of the herds of Mr. Arfman and the Lawson company he has more than 160 living daughters. Since these two herds contain 50 30-pound cows, it is the firm belief of his owners that King Segis Pontiac Alcartra will in a few years have a record that no other Holstein has ever approached. Only one of his daughters thus far tested has failed to produce at least 20 pounds of butterfat in seven days, and that one met with an accident, in spite of which she made 16 pounds.

Record Year for Jerseys.

The American Jersey cattle club held its annual meeting in New York last month and it was announce as the most successful year in the history of the breed in America. Secretary R. M. Gow reported that during the past year 32,882 individuals had been registered, consisting of 9,560 bulls and 23,322 cows. During the year 30,331 animals had been transferred. The income of the club had increased $6,466 from entries, and $8,555 from transfers. Fees on imported animals brought in $10,365. During the year 5,227 new accounts were opened, showing an increase of that number of Jersey breeders. These are new men in the Jersey business and the increase indicates an average of 17 new breeders each day that have gone into breeding Jersey cows. At the present time there are 26,199 breeders registering cattle of this kind.

Will Experiment With New Range Grasses.

Up in Humboldt county A. H. Christiansen, the farm advisor, will assist stock men in the work of planting and experimenting with new range grasses for cattle and sheep. It is stated by the Humboldt Standard that the natural range grass of the coast range is gradually running out and cattlemen are somewhat concerned about the situation.

"The range grasses are undoubtedly running out," states Farm Advisor Christiansen, "and the time is not far distant when conditions will demand that something radical be done. The time is now ripe for making extensive experiments. I believe that Canadian blue grass and red top clover would make a nice combination. It should take hold quickly and supersede the other grasses."

The experiments will be conducted in the vicinity of Kneeland Prairie, where some extensive work is being done already with alfalfa demonstrations. These are working out splendidly.

Will Soon Have an All Registered Herd.

A. J. Morrey of Orland, Colusa county, California, is operating a successful dairy on twenty acres, and his method of handling cows is worthy of note. Mr. Morrey at first purchased ordinary grade Jersey cows. Later. he sold these cows and purchased a similar number of high grade cows, and with them a fine bull. From this herd he is keeping all the heifers and is replacing the old cows with the heifers that stand the required butterfat test. The money received from sales of bull calves he places in what he calls a "purebred fund," and when enough is accumulated to purchase a registered cow he goes and gets one and starts another fund for another purebred.

He feeds his cows all the alfalfa hay they will eat, together with a pound of barley for each four or five pounds of milk. This, he says, keeps up the milk flow, saves hay and makes stronger calves.

The main point in Mr. Morrey's system is his calf fund for registered milkers. He claims the bull calves cost him nothing, except the feed for a few weeks, and that coming from this source the money that goes into registered stock is not missed from his business.

Animal Diseases.

The report of the general committee of the National Conservation Congress, Washington, D. C., gives some very stubborn facts with reference to our annual losses in preventable livestock diseases. The fact that we could prevent much if not all of this loss should spur us up to better sanitation, which can be had by a knowledge of some of the principles of animal husbandry.

In his report for 1915 the secretary of agriculture estimated, on the basis of data for 30 years, that the annual direct losses from animal diseases are approximately $212,000,000. This represents an annual tax of almost five per cent on the total valuation of all farm animals in the United States. The secretary of agriculture ascribes the loss from each disease as follows:

Hog cholera, $75,000,000; Texas fever and cattle ticks, $40,000,000; tuberculosis, $25,000,000; contagious abortion, $20,000,000; blackleg, $6,000,000; anthrax, $1,500,000; scabies of sheep and cattle, $4,600,000; glanders, $5,000,000; other livestock diseases, $22,000,000; parasites, $5,000,000; poultry diseases $8,750,000. It is not an extravagance to claim that most, if not all, of these diseases can be eliminated. Texas fever has for 25 years been under strict control and for 10 years past has been steadily declining. Hog cholera is now a controllable disease; who knows that it may not be entirely eliminated?

Clean Milk Saves Lives of Children.

During the summer months more young children die of intestinal diseases, most of which are caused by drinking dirty milk, than during all the rest of the year. The records of the California State Board of Health show that in June, July, August and September of 1915, three hundred and fifty children under two years of age died of diarrhœa and enteritis, while three hundred and forty-five died during the other eight months. Had the new milk law been in operation last year, it is probable that a large number of these deaths would have been prevented. Since this law does not go into effect until October, the California State Board of Health issues a warning to all parents, particularly to those having children under two years of age, to exercise the greatest care in making certain that milk used during the summer months is pasteurized or is produced under conditions of scrupulous cleanliness.

Infant mortality is showing a decrease in California; in fact, the death rate for young children is much lower in California than in most other states. By properly safeguarding milk supplies, this rate can be reduced still further.

Shorthorn Sales.

At Milan, Mo., June 15th, Mr. S. S. Spangler held a very successful sale. Forty-four females sold for $13,260—average, $301. Nine males sold for $2,220—average, $224. Fifty-three head sold for $15,480—average, $292.22.

At Granger, Mo., the annual draft sale of Cumberland Shorthorns from the Oakdale Farm by Joseph Miller & Sons was a success from start to finish. Thirty-five females, $15,765—average, $450.43. Eight bulls, $3,510—average, $438.88. Forty-three head sold for $19,275—average, $448.25.

J. W. Eral, Pocahontas Center, Iowa, made a clean-up of his herd, selling thirty-nine head in a downpour of rain. Thirty-one cows and heifers averaged $167.60, eight bulls $144.35, and the thirty-nine head sold, $162.80.

At Jasper Hill Farm, near Jasper, Minn., Alex Mitchell held a successful sale of Shorthorns. Twenty-seven females averaged $256.67; seven bulls, $235.70, and the thirty-four head, $252.05.

How Hunters Are Bred in England.

James C. Cooley of the Meadow Brook Hunt, who recently returned to New York from England, where he purchased the thoroughbred stallion Iron Grey for a syndicate with a farm near Warrenton, Virginia, where breeding of high class hunters is to be attempted, says that the Hunter Stallion Show in England is a rare treat to any horseman who admires that type of horse. In the production of the hunter type success is due in a great measure to the National Hunter Stallion Association which has made the keeping of a good sire a lucrative enterprise. This association has perfected a premium system which works admirably. England, Scotland and Wales are divided into breeding districts in which fairs are held. The owner of a thoroughbred stallion anywhere in the Kingdom may elect to show his horse at any fair, but if he wins a King's Premium, which is the gift of the government and worth the equivalent of $750 in our money, he is compelled to keep the sire for service in the particular district in which he was exhibited for the ensuing breeding season.

In each division a certain number of King's Premius are awarded, and on the afternoon of the last day of the show all King's Premium winners are judged for the super premium of one hundred pounds additional. At the recent show seven of these were awarded.

"The services of these horses," continued Mr. Cooley, "may be had by the farmers for one pound, and the maximum is placed at ninety mares. The National Association adds to this a fee of two pounds for each mare served and an additional sum for each mare foaling to one of these horses. So that it is possible to earn a profit of $2,500 or more with a good sire.

"The mares that these stallions serve," resumed Mr. Cooley, "are in a few cases thoroughbreds, but they are of distinctly good breeding, and the results of these matings are seen throughout the Kingdom, which still contains many fine horses despite the demands of the army.

"Of course, all this breeding is distinct from the thoroughbred industry, but there is nothing to prevent anybody racing the produce of one of these unions if the animal has merit and is clean-bred and eligible for registration. It is the aim, however, to produce hunters of the type for which Great Britain and Ireland are famous and which are a source of inestimable economic value."

A sale of 64 Angus cattle was held at St. Louis last week. Secretary Charles E. Gray of the American Aberdeen-Angus Association considered that with so large a number of bulls so late in the season, it was a good sale. The 42 bulls averaged $166; the 22 females averaged $138.45, and 64 head averaged $151. A large share of these cattle were yearlings.

◈ ◈ ◈

General Manager O. M. Plummer of the Pacific International Live Stock Exposition, to be held at North Portland, Ore., Dec. 4-9, announces that at a meeting on Thursday last of the Oregon State Bankers' Association Convention resolutions were adopted appropriating $10,000 for the show.

◈ ◈ ◈

Dr. W. J. Young of Stockton has recently purchased 3,000 acres of the Round Timber ranch, formerly known as the Sargent ranch, fourteen miles east of Lodi, California. Dr. Young already owns land adjoining and will devote the entire tract to cattle raising.

◈ ◈ ◈

Six trainloads of beef cattle have been shipped to Kansas City from Roseville, California, during the past two months. Roseville is a convenient assembling point for the buyers, who purchase horses or cattle for the Kansas City and Chicago markets.

◈ ◈ ◈

At Williams, Colusa county, last week a buyer was weighing cattle he had purchased for shipment to Kansas City. One five-year-old steer weighed 2,000 pounds which, at 6½ cents live weight, meant $130 for that steer. The market for beef cattle in carload lots that day at Kansas City ranged from 9 to 11 cents, or $180 for the steer at the low price and $220 at the high price.

◈ ◈ ◈

Three creameries in Tulare county paid out $73,737.81 to the dairymen of that locality for their butterfat during May.

◈ ◈ ◈

History shows that wool has always remained high in price for a long time after the termination of every war and if precedent is worth anything materially lower prices are not likely for several years to come, no matter how production may be stimulated. The clothing needs of a vast population which will be increased by the return to active civil life by millions now engaged in military service must be provided for and but few sheep will be left in Europe. We must reckon with lessened wool production in most countries, consequently the use of substitutes will exert little influence on prices. In this country stocks of raw wool are low, mills are running to full capacity and both purchasing power and consumption needs are improving right along.

◈ ◈ ◈

Under the auspices of the University of California, the Kern County Testing Association is ready to begin operations around Bakersfield. With scientific devices the dairymen will keep accurate tab on the cows and ascertain exactly what each one is doing in the milk line.

◈ ◈ ◈

Hog raisers differ widely regarding the quantity of grain that should be fed to hogs while on pasture. Some feeders give them all they will consume. Others feed a ration equal to about 2 to 3 per cent of the live weight of the hog. Still others will allow pigs to run on pasture and feed them a 1 per cent grain ration. There is no fixed rule governing the supplemental grain ration which should be fed in combination with forage. The amount of grain fed depends upon the kind of pasture used, the price of grain, and the market.

◈ ◈ ◈

A London milkman has just been prosecuted for selling milk that was mostly water. He protested his innocence of watering the milk and offered to demonstrate to the inspectors that he sold the lacteal just as it flowed from his kine. Tests were made and the man was vindicated of the first charge, but rearrested for "diluting his cows." It seems that he had discovered a food-mixture, which he describes as "greasy tea," that caused a marvelous, but natural, secretion of very watery milk in the cows' lacteal reservoirs. Weak tea-water mixed with curdled grease skimmed off the sloughs and backwaters of the Thames near London, where the dairy is situated, and bran sweepings from the flour mills with "a dash of sweet spirits of nitre," formed the recipe for this cunning process of cheating the public. The dairyman was found guilty of "diluting his cows," but as the law mentions no such act, he was liberated with a warning.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

ANGLING EXPERT GOES ON TRIP.

Doc. Royer, the veteran angler whose contribution to sport is the justly celebrated "South Coast Minnow," ranked as one of the best artificial lures ever designed, has been scarce hereabouts since he sold his launch five years back after as thorough a study of the sporting nature of sea fish as any man yet has made. But he did not quit fishing, merely changed from study of the salt species to investigating the nature of trout and bass. Within the last month Royer has covered the eastern and western Sierra slopes wherever he could drive his car within striking distance, and he has volunteered a few words of advice very valuable to those planning vacation trips in the uplands.

Royer says the Kern River is running like a mill race and will provide its best fishing in September. He had trouble in getting anything more than enough fish for camp use, and advises those who try it later on not to attempt to go as far as they can, but work the middle stretches. Last year he went to the "head of navigation," was disappointed, came back nine miles and could not have asked better sport.

The Kern is full of truly enormous trout, and any angler, however expert, is simply "whipped" with an ordinary outfit. The big, savage brutes rip off ninety feet of line in that fierce water at the first run, and like as not take the spindle out of the reel to boot; Royer recommends a regular surf-casting outfit for them, long cane rod, and not less than 150 yards of nine-thread linen line; a cork float a yard above the hook. This is baited and chucked out to float over the rapids, maybe a couple of hundred feet down; sooner or later one will be hooked and then the tug-of-war is on.

This is the prescription for getting the big ones; of course, no end of smaller fish offer the fly caster opportunity to display all his skill in covering the broad expanses of the stream; good pools are plentiful and the chance of interesting something too heavy to handle always presents itself. Anyone fortunate enough to possess a wood two-handed salmon fly rod and tackle to match might have a world of sport up on the Kern, as those big fellows undoubtedly could be interested in large flies, and some are big enough to keep the salmon caster comfortably occupied.

TRAP SHOOTER LOCATED ON FARM.

Trap shooters who have been wondering what has become of "Charlie" Hagerman now have their answer. C. D. H. has been fixing up a mountain ranch in San Diego county up De Luz way, twenty miles north of Oceanside and about eight northwest of Fallbrook, reached from Murietta over the Santa Rosa grade. He has 250 acres and a couple of trout creeks included with a few fish in them. Hagerman reports the place alive with quail and doves, breeding freely, and already has some shooting spotted for the coming season; but about the only powder he has been burning for some time is blasting powder, making a reservoir. He confirms the general reports about plenty of game in northern San Diego county.

The De Luz country always has borne a fine reputation for game ,and the Santa Rosa mountains are much frequented by deer hunters, although there is much brush any year and particularly dense this season. The hills are so steep and the cover so dense, however, that the quail shooters usually seek their fun elsewhere; yet there are places where good sport can be enjoyed by those who know the country.

INDIANS MUST RESPECT FISHING LAWS.

Seattle.—The contest between the State of Washington and the Indian residents of the State over the refusal of the Indians to observe the State fish laws has resulted in the defeat of the redmen, according to Leslie C. Darwin, State Fish Commissioner. Under the old treaties between the United States and the Indian tribes the latter have the exclusive rights in the streams of their own tribal lands, and this the State concedes. The treaties also provide that the Indians may take fish in "their usual and accustomed places, in common with the whites."

The Indians have ignored the latter provision. The State Supreme Court in three decisions has said that off the reservations the Indians have no fishing rights different from the whites. Cato Sells, United States Indian Commissioner, has notified the Indian superintendents in the State that the decision of the Supreme Court must govern the Indians. This also is the position of the United States Department of Justice.

Lately the agent of the Yakima Indians is alleged to have told the Indians they might take salmon at the Prosser dam regardless of the State laws, and not long ago the Lummi Indians asserted the right to exclude white fishermen from the waters which the Indians claim as tide-water land owners, and a claim which the State does not concede.

A. K. C. BARS CRABTREE AS JUDGE.

A notice has been received by the Southampton Kennel Club from the American Kennel Club, stating that the British judge Samuel Crabtree is ineligible to act as the dog show to be held on Saturday, July 8th. The ultimatus is based on the new rule that forbids a professional handler serving as a judge, except on the Pacific Coast, at American Kennel Club shows.

Crabtree, who lives at Failsworth, Manchester, England, has been an exhibitor and judge at the leading British and Continental shows for many years. He is now in California, under engagement to Mrs. Anita Baldwin, as adviser and temporary manager of a kennel of show dogs she is establishing on a large scale.

F. F. Dole, superintendent of the Southampton Kennel Club, states that he regarded the presence of Crabtree in the United States as an unrivaled opportunity to gain the opinion of a great international expert on the breeds he was asked to judge, that would be a real benefit to American dog breeders. He had understood in an interview with Secretary Vredenburgh of the American Kennel Club that there was no question of Crabtree's status as a judge.

The edict against him followed a meeting of the executive committee, and in Dole's opinion the American Kennel Club has made a blunder that may involve it in a legal action with Crabtree.

The American Kennel Club's definition of a professional handler is "a person who handles, boards, conditions o rshows dogs for money as a means of livelihood." Dole asserts that Crabtree is in no sense a professional handler, and that he is the type of efficient judge from whose placings the exhibitors and breeders whold derive instruction and satisfaction, as indicating whether or not they are conducting their dog breeding operations on wise methods.

Crabtree, who is on his way to New York, it is believed, will demand a vindication of his right to judge. With the possible exception of George Raper, the British breeder of fox terriers, who has often judged at New York, Crabtree is said to have made more trips about the world to act in that capacity at dog shows than any other international expert.

‡ ‡ ‡

George Steadman Thomas of Hamilton, Mass., known wherever dog shows are held as the richest man in the dog business and who is conceded to be the greatest authority on terriers in the world, made a very attractive offer for "Conjo Highbrow," a home-bred wire haired fox terrier owned by Mrs. Roy A. Rainey of New York. Mrs. Rainey refused, saying that Highbrow was the best terrier she had ever bred. Conjo Highbrow will be brought out for the first time at Southampton next week.

‡ ‡ ‡

Otto Pohl, the well-known Irish setter fancier, who is also treasurer of the Fremont (Neb.) Kennel Club and was mainly responsible for its formation and successful career, is enthusiastic over the prospects for this year's show. He states that he looks forward to one of the biggest shows in the middle west and would not be surprised if they benched at least 400 dogs. The specials secured to date number over 125 and of these there are over forty silver cups.

‡ ‡ ‡

Denver fanciers are preparing for the third annual bench show of the Denver Kennel Club, that will be held at Lakeside Park, Denver, Colo., July 2, and a large entry, including many well-known winners, will be benched. J. B. Benedict will judge the terriers, bulldogs and cocker spaniels; Frank Dulton, Boston terriers, and George Atkinson, the other breeds. Mr. Atkinson is president of the club and Dr. D. W. Van Gilder, the secretary, the arrangements being in their hands.

DOE FIGHTS TO SAVE FAWN.

While enjoying a week-end fishing trip last week Attorney D. R. Cole of Santa Rosa witnessed an incident which is best told in his own language, as follows:

"I was following the trail which leads along the mountain on the easterly side of Elk Range, and when near the 'Dipper Spring' I heard the plaintive cry of a fawn. Hastening my steps in the direction from which the cry came, I saw through the trees a large doe in a patch of short poison oak brush. She was endeavoring to shield the little one from danger by keeping herself between the fawn and what proved to be a wild cat. Evidently the doe had been fighting for the life of her young for several minutes, for I had repeatedly heard the cries of the fawn before I came in sight of her, the fight being a running one up the mountain side, and in the direction in which I was going. Finally I had reached a point within eighty yards of the last scene of the conflict, when the cat heard or saw me, and started down the mountain.

"Then began one of the swiftest and most determined charges down the mountain, the doe pursuing the cat, crashing through the brush and with that agility that cannot be described, striving to overtake and pinion her foe with those wonderfully effective weapons, her feet, and the cat dodging to escape her furious attack. Down they went to Little Soda creek, making a noise and confusion more like that of a small herd than that of two animals. I stood for a minute or two watching the little creature that the mother had left behind. The foe was gone. The little one was standing motionless at the place where she had left it. Shortly the mother returned, and with true signs of affection greeted the little creature. The struggle was over, and I went on my way, and when I last saw them they were standing like statues looking wonderingly down upon me."

Snow On Mountains.—There is more now on Kid Mountain and, generally speaking, on the passes of the Owens Valley than Deputy Fish and Game Commissioner Ed Ober ever saw in his years' experience there. This snow is bound to keep up water levels longer than usual. There is plenty of fishing to be had in the valley, but it will be better later on the east side of the range, just as on the other. Doc. Royer took a nice mess for supper one night out of Olancha Creek, eight and ten-inch fish. One can get a mess almost anywhere and any time, but the cream of the fishing is yet to come. The late campers in September will get all the best of it this year. They will have considerable shooting with deer, doves, squirrels, mountain quail, grouse and sage hens to draw on for camp meat. The fishing will be at its height in September and the trout everywhere will take the fly.

OREGON PLAN OF LIBERATING GAME BIRDS.

The Oregon plan of liberating game birds is one way of restocking a state with game. Farmers, ranchers and country estate owners are all taken into consideration and their co-operation enlisted in the work by the Oregon Fish and Game Commission. In every county game birds are being raised each year by landholders, and each year a report is made to the Commission by these landholders or a census is taken to ascertain the number liberated.

A report has just been published in the Commission's official publication, the Oregon Sportsman, of the number of different kinds of game birds liberated by individuals, under the plan cited, during the year from January 1, 1915, to December 31, 1915, and the total makes a gratifying showing ,the landholders of each county being given credit for the number they liberated individually. The different kinds of birds turned over to the state for the year mentioned follow: Chinese or ring-necked pheasants, 2,914; Bob White quails, 973; California valley quails, 959; mountain quails, 142. By this plan of individual co-operation the state of Oregon is richer by 4,988 game birds—a splendid showing from the viewpoint of conservation, not only in that they will multiply and increase, with another year's product soon to be liberated, but of equal, if not more importance, the educating of the public in the great value of this kind of co-operative work and an awakening of the public conscience to the necessity of obeying the game laws, one of the maxims of the Commission being, "More game protection sentiment means less money spent in patrol service," which means more money for propagating purposes. Such work is drawing closer the ties that bind the public and the Commission in a common cause, and the Commission is not slow in acknowledging this condition, as shown in the following statement it has published: "The state game department feels that it owes a debt of gratitude to the good people of Oregon who assisted so nobly in the work of feeding and caring for the wild game during the past winter. It will try to compensate them by an even mort faithful service and co-operation this coming season."

What a blessing it would be if this same spirit of effective co-operation and unity of purpose could be said of every state! And, why not?—American Field.

DUCKS FROM THE GREAT SALT LAKE TAKEN IN CALIFORNIA.

Last year there was recorded in our columns (California Fish and Game, Vol. 1, July, 1915, p. 191) an instance of the taking at Herndon, Fresno county, of a pintail duck bearing a band which led to the information that the bird had been banded on Great Salt Lake in September, 1914. A second instance of the same sort has come to light in the taking of a banded green-winged teal (Nettion carolinense) on the Heidzig ranch, twelve miles west of Delano, Kern county. Mr. Edward Richardson, of Porterville, secured this duck December 12, 1915. Word was received from Washington that this bird was labeled on September 16, 1914, at the mouth of Bear River, Great Salt Lake, Utah, after having recovered from the peculiar malady which attacks the ducks of this lake. Mr. F. W. Velie, of Porterville, also killed a green-winged teal at the same place the past winter which had been banded near the northern end of Great Salt Lake, September 26, 1915. These instances throw further light on routes of migration. It seems quite possible also that many of our ducks, and quite probably also many geese, arrive in California via the Great Basin. —H. C. Bryant.

Trap Shooters Will Celebrate the Fourth

TOURNAMENTS ARE SCHEDULED ON THE COAST FOR THE HOLIDAY

Pacific Coast trapshooters are going to appropriately celebrate July Fourth. Several registered tournaments are scheduled and other clubs will put on events so as to let the gunners blaze away for a noisy Fourth. At Los Angeles the Vernon Club will promote a tournament on July 3 and 4. The Eureka boys will get busy on the Fourth in a registered event and the Green Lake Club of Seattle will be in the fun. Quite a number of San Francisco shots are planning to take in the different shoots.

* * * *

Fresno Club.—A good shoot was held by the Fresno Blue Rock Club Sunday, Dr. J. L. Martin making a record of 95 breaks out of a possible 100. L. W. Slocum was second with 89, C. McNeil 87, and Grant Adams 83.

* * * *

Golden Gate Club.—The Golden Gate Club staged a tournament on the Alameda grounds Sunday, exclusively for novice shooters, and the scores set up surprised the old-time scatter gun artists. Eighteen faced the traps and of the number eight turned in percentages better than 80. The form displayed by the boys who have shot at less than 500 targets up to May 1st was a revelation.

H. Martine distinguished himself by missing only one out of the twenty-five targets shot at. J. Nelson was right behind with 23, and W. P. Smith, Al Durney, J. B. Nichols, G. W. Jeatit, A. Korn and W. H. L. Hynes scored 20 or better. The scores were as follows:

W. H. L. Hynes 20, W. L. Koch 13, A. M. Gearhart 14, Mrs. J. B. Hauer 8, A. Korn 20, La Montague 18, R. W. Ballard 17, J. B. Nichols 21, G. W. Jeatit 21, W. P. Van 17, W. P. Smith 22, Al Durney 21, J. Nelson 23, H. Fremont 19, F. J. Rainey 18, E. G. Nelson 14, H. Martine 24, S. G. Atwood 12.

* * * *

Seattle Association.—Breeder and Sportsman: Outdone in shooting numbers only by the recent State Tournament, the Beginners' and Ladies' Day program held by the club on June 18th was a big success. The day was forecasted by a rain which dampened the enthusiasm somewhat, but those who turned out had a very enjoyable time.

Tom Wilkes shot high amateur score while professional honors were tied between L. H. Reid and Geo. Garrison.

H. S. Gibson copped the DuPont Beginners' trophy and Mrs. J. E. Reid took away the DuPont Ladies' trophy. The other lady shooters also received prizes given by Ruth Alexander Pepple of the Outdoor Life. Visiting lady shooters with the regular squads were Miss Gladys Reid of Portland and Mrs. A. G. Wilkes of San Francisco.

Beginners' scores, 25 targets:—

	5	10	10	Total
H. S. Gibson	5	9	9	23
F. P. Wyandt	5	8	9	22

* * * *

Vernon Club.—Although the majority of the clay bird smashers experienced difficult shooting because of a strong cross-wind, twenty-seven contested Sunday morning at the Vernon Gun Club for the Wm. H. Hoegee trophy. C. W. Fish annexed a leg on the prize with his score of 49x50. Fred Kimble was runner-up with 48x50.

Mrs. C. E. Groat, champion woman shooter, started out in her first event by smashing the entire 25, but dropped three in the second 25, giving her a score of 47x50 and third place.

The 20-gauge trophies were also contested for at 25 birds for sixteen yards. Billy Wilshire and C. W. Fish tied, each with a score of 23x25. The results follow:

	Hdcp.	Hoegee trophy. 50	20-Ga.Practice trophy. 25	events
Dierdoff	16	44	..	.....
Dougherty	16	44	..	48x50

Los Angeles Club.—The first doubles target trap shooting contest staged on the Coast was held Sunday at the Los Angeles Gun Club and world's records for the five and ten-man teams were hung up. The record on five men stood at 207x250 and on ten men at 393x500.

Each shooter fired at 50 birds, released from the trap in doubles. Intermingled among the black spinners were two red ones, the shooter to break these getting his targets free of charge.

The first blond tarhawk to come out was potted by Frank H. Mellus. The second was chosen by R. O. Pool, but he missed.

The shooters also contested for the diamond scarfpin put up by Secretary Fred H. Teeple at 50 birds, distance handicaps. The shooting marvel of Southern California, Frank H. Mellus, won the diamond with a score of 47x50 from 21 yards. Twenty-one yards is back near the fence, and to break 47 birds is some shooting. The results:

Doubles event—H. E. Sargent 43, E. K. Mohler 42, H. Pfirrmann 41, F. H. Mellus 41, L. M. Packard 40, C. E. Groat 39, F. H. Nichols 38, L. R. Mellus 37, A. Pachmayr 37, C. H. Betz 35.

Diamond trophy handicap:—

C. H. Betz, handicap 16, broke 45; G. A. Cable 16—46, R. O. Pool 16—42, P. C. Carter 16—39, J. W. Meek 17—46, V. A. Rossbach 19—40, H. Cline 18—44, H. E. Sargent 19—41, F. H. Nichols 18—43, L. R. Mellus 18—44, E. K. Mohler 20—43, F. H. Mellus 21—47, C. F. Nichols 21—43, W. J. Rand 20—44, H. Pfirrmann 21—42, L. M. Packard 21—46, A. Pachmayr 16—46, Mrs. Pfirrmann 16—43, H. C. Aarup 16—44, H. N. Rand 16—43, J. E. Reid 16—44, J. Andrus 16—40.

* * * *

Western Handicap.—With the dial hovering around the hour of 6 o'clock, the curtain dropped on the big shooting tournament on the Omaha Gun Club's model grounds across the Big Bridge. This was the eleventh session of the great Western Handicap under the splendid auspices of The Interstate Association, with the Hon. Elmer E. Shaner, as usual, the master hand.

As is generally known, the Western Handicap is one of the five stellar Interstate shoots, and second only to the Grand American. This is the third time Omaha, and the Omaha Gun Club, has been honored with this event, and they are already laying their plans to outbid all competitors for the 1917 session, which it is hardly likely in opposition with so many enterprising and deserving cities, that they will be successful in their laudable ambition.

On the opening morning exactly 148 gallant knights of the scatter tube faced the traps, fully 60 short of the number sanguinely expected. Still that was an array of talent any tournament may feel proud of. The card, 150 targets, 16 yards, and 15 pairs, and Billy Hoon of Jewell, Iowa, spilled the beans with 100 straight, winning the Introductory trophy over the field, setting the record.

More than 200 shooters competed in the two 100-bird programs and sensational scores were the rules, despite the handicaps, imposed by the handicap committee and the high wind, which swept the traps from west to east, causing the targets to take difficult angles all afternoon.

Ninety-two out of 100 won the Western Handicap on the closing afternoon of the big shoot, and that, too, under as difficult and tantalizing conditions as ever afflicted this great event before. A fierce old wind blew transversely across the grounds with hurricane speed, causing the flying saucers to commite all sorts of depredations . A lad from Kansas, E. T. Gibbs by name, was sturdy and steady enough to outstrip 151 opponents with a score of 92, the lowest notch at which the event has ever been won during the eleven years of its existence.

Mr. Gibbs is from Cawker, Kansas, wherever that is, and he is a shot not without considerable former prestige, although this was his first essay in real, fast classy company.

Then along came J. Gilbert Fye of Ollie, Iowa, a wee bit of a village on the eastern side. Gilbert had an excellent chance to beat Gibbs, but cracked under the strain. He tied him, however, and after the balance of the fellows had completed the program, the big shoot-off was staged.

Gibbs ultimately won this, but it required two twenty-target events to settle he argument.

To Billy Hoon of Jewell, Iowa, and C. C. Tappan of Hoagland, Neb., went the honors for high average. Both broke 339 out of a possible 350 in the sixteen-yard events. Ed Varner of Adams, Neb., was third with 337 out of 350, and C. B. Eaton of Fayette, Mo., William Ridley of What Cheer, and John Gauer of Louisville, Neb., tied for fourth with 336 out of 350.

Western Handicap scores:—

E. T. Gibbs (17) 92, J. G. Fye (18) 92, R. Erickson (19) 91, O. C. Bottger (202) 91, W. S. Fritz (17) 90, B. F. Elbert (18) 90, C. Atkinson (17) 89, H. K. Mitton (18 89, J. W. Thompson (18) 89, Geo. Nicolai (22) 89, L. C. Larsen (19) 88, C. L. Waggoner (21) 88, C. C. Tappan (22) 88, F. A. Keister (17) 87, A. Koyen (19) 87, H. S. McDonald (18) 87, Wm. Ridley (22) 87, G. D. Hedges (16) 86, C. H. Larsan (18) 86, C. A. Sininger (18) 86, J. S. Frank (20) 86, F. U. Rosebery (20) 86.

Trophy Winners:—Western Introductory: W. S. Hoon first, 100; E. W. Varner second, 99; W. H. Fickel third, 99. Western Special: O. C. Bottger first, 99, Frank Card second, 99, John Gauer third, 98. Western Overture: C. H. Larson first, 97; C. C. Tappan second, 97; John Peterson third, 96. Preliminary Handicap: Geo. Nicolai first, 97; L. R. Conn second, 96; O. M. Coleman third, 96. Western Handicap: E. T. Gibbs first, 92; J. G. Fye second, 92; R. Erickson third, 91. Women's Trophies: Mrs. Edmonson first, 66; Mrs. Johnston second, 25.

Eugene E. Reed, former Mayor of Manchester, New Hampshire, and one of the best known trapshooters in New England, has been appointed a Federal Commissioner of the Philippine Islands and left for Manila on June 15. The office carries a four-year term.

Sportsmen's Row

Jack Livingston, well-known sportsman, is planning to organize a gun club among the movie stars on the Coast. His plan is to have both a mountain and a beach lodge, so that the screen players when seeking recreation could have an opportunity for the various kinds of hunting popular in Southern California. Livingston's associates at the Morosco studios are enthusiastic over the idea, and as soon as he completes the present picture in which he is working with Dustin Farnum and Winifred Kingston he will begin active organization work.

* * * *

One of the most improved of the many women trapshooters on the Pacific Coast is Miss Genevieve J. Meyers, of San Francisco. She is always to be found near the 85 mark.

* * * *

A row of giant cotton wood trees on the new grounds of the Los Angeles Gun Club prevents the sun from reaching the shooter at any time during the day.

* * * *

After a one-year lapse the Eastern Handicap Trapshooting Tournament is again on the sporting calendar. The "Great Eastern," as it is more commonly called by trapshooters, will be shot over the traps of the Keystone Shooting League, Holmesburg Junction, Philadelphia, Pa., beginning on July 17 and winding up on July 20. This will be the tenth running of the Eastern Handicap, the first tournament being staged in Philadelphia in 1906, so that it is only natural that Philadelphia should once more bring the tournament to life. The Eastern Handicap covers a wide area, being open to shooters who reside between Maine and Georgia, and the Atlantic Ocean and Michigan.

* * * *

Trapshooting is the one sport where luck doesn't figure. You have got to deliver the goods in shooting at the targets. Close doesn't count. Every break favors the shooter.

* * * *

In a recent shoot at the Portland (Ore.) Gun Club, Mrs. James Reed and Mrs. Carl J. Schilling tied for first honors and it was not until the ninth shoot-off that Mrs. Reed obtained a verdict.

* * * *

The Green Lake Club, of Seattle, Wash., will stage the 1917 Washington State tournament.

* * * *

The New York Athletic Club will add a George Lyon Memorial shoot to its annual spring tournament beginning in 1917.

* * * *

Trapshooting will be one of the features at the three-day carnival at Mill Valley. On Sunday a tournament will be staged on the old Millwood Gun Club's grounds. Frank Lockwood is interested in getting the bay shooters to come out and fire at the targets.

* * * *

O. N. Ford writes from Rochester, Minn., that he is enjoying success at the traps. At Aitkin, Minn., on June 12 he broke 146 out of 150 and was high and the following day he got 143 out of 150, making a total of 289 out of 300. At Minneapolis on June 17 and 18 he got 148 and 139, totalling 287 out of 300. He will go to the Grand American Handicap at St. Louis and return home in time for the Pacific Coast handicap at Portland and his own shoot at San Jose in September.

* * * *

Earl Downing of Pleasanton, the keen fish and game observer, reports that trout are numerous and quail more plentiful than in years in the Livermore Valley.

* * * *

Hunting licenses fall due on July 1st. The old issue will be checked up. Twelve counties are to be heard from and 150,846 were taken out, exclusive of the 17,000 out. It is probable that the number will be around 160,000. Fishing licenses numbering 146,410 are out, according to John Fisher of the Fish and Game Commission.

* * * *

Wild pigeons are on the increase. They are protected by the Federal law until September, 1918 and are coming into their own again. Deputies of Plumas county declare that there are about 2,000 doing well and a flock of 5,000 are doing well in Nevada county.

* * * *

The Breeder and Sportsman called the turn on H. P. Martine some time ago in regard to his shooting ability. Now the secret is out. We have discovered that he is the uncle of Foster Couts, the San Diego champion. So it must run in the family. He had a hard race Sunday. He arrived late and was informed that he would have to shoot 23 to tie and 24 to win. Well, he finished with 24 and that was going some even for an old-timer, much less a beginner.

* * * *

Floyd Spence, President of the California Anglers' Association, and seven or eight others will try the Feather river at Tobin. They have been informed that the river is down to normal and conditions ideal for fly-casting.

It looks like a Glorious Fourth for the sportsmen. Many parties are being made up for fishing trips.

* * * *

Benny Baum is going to be missed around the Copper Kettle Club. Accompanied by his wife, Benny is off for the Yosemite to try his hand at angling out the trout.

San Rafael Elks' Club.—Two teams participated in the gold spoon shoot at the Elks blue rock shoot at Santa Venetia Sunday morning. Owing to the number of different attractions during the day, the attendance was rathe rsmall. The first team consisted of R. Johnson Jr., District Attorney Ed. Butler, Sheriff J. J. Keating, Dr. R. Dufficy and Mr. Stadfelt. The second team consisted of Messrs. Cochrane, Ivancovich and Saunders.

Mr. Stadfelt presented the winners of the teams with a gold spoon. Rob Johnson won the first spoon with a score of 39 out of 50 and Mr. Cochrane the second with a score of 33. Following were the scores:

Butler 36, Cochrane 33, Dufficy 33, Keating 25, Johnson 39, Saunders 22, Ivancovich 25, Stadfelt 36.

Vallejo Club.—Vallejo Club held a merchandise shoot on Sunday. High scores were held down because of a trap that was not working in the best of shape. The feature was provided by some competition between Andy Flickinger and Dick Reed, the San Francisco professional. Andy wanted some practice from the 21-yard mark in anticipation of his visit to the Grand American Handicap at St. Louis. In a 15-bird race both of the crack shots tied with 13 apiece . In 25 birds Flickinger beat out Reed, 25 to 23. The local star did some shooting to run out his string straight from so far back. Eight participated in the merchandise prizes set up. The scores were as follows:—

Merchandise event, 25 targets—

	Bke.	Hdcp.	Total
Yocom	18	5	13
Mann	19	8	11
Wisecarver	19	8	11
Magistrin	20	6	14
King	21	7	14
De La Mater	7	3	4
Humphreys	14	4	10
Peet	22	9	13
Reed (21 yds.)	21	9	12
Flickinger (21 yds.)	22	9	13

Practice scores were: F. K. Burnham 63x75, Bud Havens 63x75, Herbert 17x50, Yocom 40x50, King 36x50, Magistrin 17x25, Peet 20x25, Mann 19x25, Herbert 1625, Truscott 15x25, Reed 24x25, Moore 1925.

Team shoot, 15 targets each—Truscott 8, Yocom 12, Peet 11, De la Mater 8, King 7, total 46; Humphreys 7, Magistrin 13, Mann 11, Wisecarver 10, Moore 10, total 51; Reed (21 yards) 13, Flickinger (20 yards), 13, total 26.

WOMAN IS A GAME KEEPER.

Miss Hilary Dent has been engaged as a gamekeeper by Lord Montagu of Beaulieu, and, we believe, is the first woman who has received such an appointment. As soon as the idea was suggested to Lord Montagu he recognized its feasibility and Miss Dent was forthwith engaged. We understand she does not go on night duty unaccompanied. She gets herself up in short velveteen jacket and wears baggy breeches with leggings and thick boots, and often rides her beats atside a New Forest pony. It must be said that Miss Dent has had some training for her new vocation, as she was brought up to a country life and could shoot and handle dogs and ferrets in quite praiseworthy style. She does not quite follow the old practices of the veteran gamekeeper, as she does not maintain a larder, but inters all the victims of her traps and gun.—London Sportsman.

REMINISCENCES OF TROUTING.

Have you ever awakened about 4 a. m. on a cold early morning in some little country hotel, pinched your bunkie in the ribs to wake him, and then hop out of bed to peer anxiously out in the semi-darkness to see what the weather is going to be? Oh, the anticipation of the long carefree day ahead! For you and your pal are on a week-end trouting trip and are bound for some little brook about five miles back in the mountains.

You hastily dress, for you are all anticipation and anxious to be off. Then down to the barnyard to load your stuff in the wagon, arranged for the night before. You find the hired man already hitching up, right on time. When he's finished and you're all ready to start a thought suddenly strikes you; you whisper in his ear, and then follow him into the cold dark little bar, where you hastily tuck away in your fishing coat a half pint, the necessity which you nearly forgot. Then out and into the rig with your pal and you are off. Oh, the joy of that early morning ride back over the hills to the brook! The cold bracing air fills you with happy thoughts of the day ahead; the beautiful hills and mist covered valleys with the brook winding through make you glad you're alive and privileged to live in such a grand old world.

You roll briskly along behind the snappy little mare that, no doubt, also feels the exhilarating effect of the cold spring morning. Finally you reach your destination away up the mountain, hop out with all your traps, and then all hands take a good pull at the half pint, for it's cold up there in the hills and the stuff hits the spot.

You say good-by to Old Bill, the hired man, and get his dead-sure promise that he'll meet you at 4 p. m. by the old bridge, three miles below. The rig disappears at the bend in the road and you and your pal are left alone with nature. How still the world seems to your city-throbbed ears. How beautiful the first gleam of sunlight through the budding trees. What merry music the little brook babbling through the woods.

You find a nice spot on the bank of the stream, unpack the cook kit, bacon and eggs, coffee and bread, and then you make your little fire and proceed to cook your breakfast. My, how good that coffee and bacon smells! You're so hungry you can hardly wait until things are ready. How good that breakfast tastes! How you enjoy it! The trout brook at your feet just waiting to be fished, a noisy little red squirrel in a big tree near by chattering squirrel cuss words at you for trespassing in his domain, the far-off thump, thump of some proud cock partridge; all are the voice of nature speaking to you.

Your breakfast over, you light up your old pipe and proceed to clean up. You carefully burn all rubbush so as not to desecrate the beautiful woods. Then you kill your fire with water from the brook.

It is now 6 a. m. and you feel splendid. You get out your little fly rod, swing on your traps, pull up your boots and head for the brook. Anticipation runs high. Your old pipe never tasted better. Your cares are behind and a long, long day is ahead. What greater pleasure could a man wish for than this?—Long Bill.

Peters Pointers.—At Norfolk, Nebr., June 4th, in a field of 64 shooters, Messrs. A. Koyen of Fremont and J. H. Sieverson of Wisner tied for High Amateur Average, 96 ex 100, both using Peters shells.

High Amateur Average at Warren, Minn., June 7, was won by Mr. A. W. Chapin, with Peters shells, score 167 ex 175.

At the Indiana State Shoot, Indianapolis, June 6-8, Mr. C. A. Edmonson tied for High Amateur Average, 480 ex 500, and Mr. C. A. Young won High General Average, 481 ex 500. In the Interstate Championship event Messrs. C. A. Edmonson, Walter Roach and Seth C. Klein won second, third and fourth places with scores of 289, 284 and 283 respectively. All these winners shot the "P" brand. In the Interstate Championship Mr. Edmonson tied for second score, 97 ex 100, and Messrs. Stutz and Klein tied for third, 96 ex 100.

Mr. J. H. Stair, shooting Peters "steel where steel belongs" shells, won High General Average at Thief River Falls, Minn., June 6, score 140 ex 150.

At the Beginners' Day Shoot at Seattle, Wash., June 18, Mr. Thos. Wilkes was High Amateur, 98 out of 100, and Mr. L. H. Reid High Professional, 98 out of 100, both using Peters shells.

Green Lake Club.—Owing to the fact that many of the Green Lake members were attending the special beginners' and ladies' day events at Harbor Island on June 18th, the attendance at the north end traps was comparatively small.

Don R. Baker proved to be the best target smasher on the ground, getting forty-five out of his fifty, while Dr. A. B. Kidd, J. W. Geltz and Dr. J. F. Hill divided second honors by breaking forty-three out of fifty.

Practically all arrangements have been completed for the big registered tournament at the Green Lake Club July 4th, and programs covering this event may be secured at any sporting goods house in the city.

The scores, 50 targets—Don R. Baker 45, Dr. A. B. Kidd 43, Dr. J. F. Hill 43, J. W. Geltz 43, George O. Olwell 42, George aEdling 42, George B. Baker 30, Dr. S. W. Case 32, E. Chantrell 25, M. G. Knight 25.

Portland Club.—Twenty-one beginners ventured out to the Everding Park traps of the Portland Gun Club June 18th to compete in the second annual "beginners' day shoot." A tie resulted in the first two shots, W. A. Leith and M. Turner each breaking 20, but in the shoot-off for the handsome DuPont watch fob Mr. Leith outgamed his opponent.

Threatening weather kept the attendance down, but President A. W. Strowger is confident that his club will be awarded a handsome silver trophy for having the largest shoot of its kind in Oregon. Two women beginners were out, Miss Regina Bitts breaking 15 clay rocks, one more than Miss Florence Wirfs. Miss Bitts won the spoon put up for first prize.

Among the "old timers" present, Frank Templeton went high with 96 per cent, despite the heavy rain and wind. Archie Parrott was second in line with 85 per cent.

Following are the scores made:—

Beginners—M. Winters 17, F. W. Wirfs 13, A. M. Crews 10, W. A. Leith 20, M. Turner 20, J. S. Harkins 15, R. T. Beeman 11, W. Reidt, Sr., 4, W. Reidt Jr. 1, T. Taber 12, W. J. Derthick 7, C. Wright 17, F. Softenberg 18, A. E. King 15, J. W. Jeter 16, G. L. Hoffman 16, C. Hawman 13, H. Hingley 1, H. Greeland 7, Miss Regina Bitts 15, Miss Florence Wirfs 14.

"Old-timers"—Charles Leith 67, H. A. Pollock 75, A. W. Strowger 85, J. S. Crane 71, Al Seguin 80, J. Morris 80, J. H. Broadhead 70, A. L. Zachrison 58, Archie Parrott 86, Frank Templeton 96, E. Hawman 78, and James W. Seavey 84.

Mighty hunter cruises in with trophies

DR. E. A. SALISBURG REACHES LOS ANGELES AFTER WONDERFUL HUNTING

Unheralded and unsung, one of the mighty hunters of the world cruised into Los Angeles harbor last week. This hunter is Dr. E. A. Salisbury, naturalist, born explorer and world rover. His face is weather beaten from eight months of tropical sun and the glare of 10,000 miles of ocean brine.

This trip, which took him from New York into the out-of-the-way places of Central and South America and up the coast of Mexico to this port, was made in a gasoline cruiser. Its name is the "Wisdom"—Salisbury's Wisdom.

It has traveled farther than any ohher gasoline propelled cruiser. The Wisdom has stuck its nose flush into the hurricane and rammed straight through with ocean slopping over from all sides.

Until one sees the cruiser with its long narrow greyhound lines and deck that sheds water like a duck's back, Dr. Salisbury's stories of its exploits might seem flighty. The wildest tales seem tame after seeing its revenue cutter lines and roaming over it, above deck and below.

As if 10,000 miles of cruising were not enough fame for any boat, the Wisdom, loaded down with gasoline, came straight from San Juan del Sur, Nicaragua, to San Diego, without once touching port. Just out of San Diego the last gasoline gave out. Dr. Salisbury drained a gasoline boat he had on board dry and made anchorage.

He didn't touch the Mexican coast because the officers of the Raleigh, lying off the coast of Nicaragua, told him that Gen. Scott and Obregon had fallen out and war with Mexico was only a matter of hours. Dr. Salisbury knew how the Mexican treats his enemy. The trip up the coast was made in twenty-six days, two of these being idled away at uninhabited islands hunting monkeys and parrots.

Only the briefest outline of Dr. Salisbury's trip is possible. His hunts in tropical forests, his nosing among queer Indians, his fighting through storms and cruising off lazy, fever-infested coasts must all be touched on the run.

After searching three months to find a boat capable of making the trip, the doctor picked up the Wisdom in one of the ports of the East. Originally the Wisdom had been built for the Havana race, but was finished too late. It was built to go outside of the reefs in the open ocean. It was made for all kinds of weather. That was why the doctor bought it.

Dr. Salisbury and Rex Beach, the author, sailed out of New York with a crew on board and the lagers full October 28, 1915. On the coast back of Cape Hatteras a month was spent hunting wild duck and studying the migratory birds. That is one of the few hunting grounds left on the Atlantic coast. The two sportsmen made the most of it.

At Jacksonville the crew departed in a body. The Atlantic was too rough for them. They escaped more than they thought, for the storms of the United States were mere tempests in a teapot to the boiling waters off the west end of Cuba.

A stop was made at Miami, Fla., and a hunting trip up the river was made. From here the yacht went between the reefs and the shore and from Key West to Havana across the Gulf Stream in a terrible blow.

The worst was still to come. Off the coast of Cuba the waves began to look like mountains. They were washing clean over the Wisdom's deck, hitting first one side and then the other. Everybody but the doctor was down below, sick as dogs. The doctor was at the wheel taking a rough shower bath.

The engineer came up and begged the doctor to turn back, claiming the engines would stop under the strain. He begged and whimpered like a whipped dog. The doctor knew that if he turned back he would again lose his crew. He ordered the engineer to turn the engines off. When the latter refused he beat him down into the engine room. For twenty-four hours the Wisdom drifted, the sea raged and the hurricane roared.

"We were 250 miles from land and could drift without any danger of shipwreck," explained the doctor. "Besides, the crew needed a lesson."

At the end of twenty-four hours the engineer begged to be allowed to start the engines. The storm had abated somewhat. The chuck, chuck of the motors began. The Wisdom headed across the Yucatan Channel and the Carribean Sea to Swan Island, off the coast of Honduras. From there the Wisdom made to Colon to find the canal closed and to pick up Dr. and Mrs. Mary Roberts Rinehart.

Here once more the crew deserted, with more reason than at Jacksonville.

Cruises were made up Costa Rica, where the hunters left the yachts, got in canoes and went inland to hunt, investigate the Indians and study the industries of Central America. San Jose, the capital of Costa Rica, has a climate much like Southern California, and is growing the vegetables for the Panama Canal. Previously they were shipped in cold storage from New York.

Specimens of all kinds of wild game and relics from the graves of Indians were shipped by the author and hunter to the museums of the East.

The best trip was still to come—the one south from Colon to the Gulf of San Blas, where lives the pigmy race of Indians, the cleanest and most exclusive of all the people of the world. They were the first and only mainland Indians seen by Columbus, and to this day they have kept the trader laying off their coast. They have never intermarried and nobody knows their land. Rex Beach and Dr. Salisbury went farther inland and saw more of them than any white men that have ever lived, not excepting the great Columbus, who sold them their first clothes.

The Gulf of San Blas is sixty-five miles south and east of Colon. It is 120 miles long and is studded with 365 small islands. On these live 10,000 San Blas Indians. Back in the jungle along the mountain ridges live other San Blas. They are reported to be fierce and savage. Nobody has seen them.

By treating the San Blas white, giving much and never taking without paying, Dr. Salisbury and Rex Beach won the friendship of the Indians. There was also a San Blas who had wandered and was returning home. He acted as interpreter and official introducer.

The palm huts of the San Blas Indians are over the water. The little children, two and three years of age, swim in the water like fish. The Indians have two villages—one for the living and another for the dead. They are identical—only one is silent and still, filled with the crumpling remains of their forefathers.

The San Blas Indians believe in suffrage. The wives have equal rights with the men. At 3 o'clock in the morning they all rise, eat a meager meal and go up the rivers in their mahogany dugout canoes to fish. The women wash clothes. The children play. They return at 3 o'clock for another meal. They all eat out of a common bowl, and the meal is stewed up at once in the same pot.

After the meal the councils meet. If a man wants a canoe, he states what kind and size he wishes. Men are assigned, and they fall to work. If he wants a house he does the same, and enough men and women to build the palm house start to work on it the next morning. When his fellow San Blas wants a house he is supposed to help also. The San Blas is communistic.

They fish with spears. For that reason sometimes they go hungry. Learning that fish were scarce, the doctor and Beach cruised down to the mouth of the river, threw over their lines, and the Wisdom came back loaded.

A San Blas who had traveled some went aboard the ship to learn the secret. He looked at the lines and hooks, then grinned knowingly.

"I know," he said, "electricity."

Then followed hunting trips deep into the jungles, where the tapir, jaguar and leopards live. These were wild, fierce days of hunting.

They were the first white men that had ever gone into those rivers. Traders have attempted to go inland, knowing the country is rich in gold. But their provisions have always mysteriously disappeared. Hunger and fear of the jungle have forced them back to the coast. There on the shore their provisions have mysteriously come back. The San Blas is honest.

Cocoanuts are his money. Gold is used only for ornaments. He did not know how to count even cocoanuts until he found the trader cheating him. If he bought a cloth for 200 cocoanuts he would throw cocoanuts aboard the trader's ship until the latter told him to stop. Usually the trader became tongue-tied when the 200 mark was reached. He would find his speech at the 200 again. This was too much even for a San Blas.

The tribe is extremely virtuous. Marriage is a bargain. Once made the bond can only be broken when the other proves lazy. Then he must remain single and chaste for five years. So must the wife. The least breaking from the narrow path and the infringer is canoed up the river to meet his death. If one San Blas cuts or injures another the injured one cuts the offender in the identical same manner. The San Blas never jokes.

Dr. Salisbury officiated over the first canoe race ever held in San Blas. The race was to be around an island and back in the little mahogany dugout canoes.

As the canoes were coming around the island on the home stretch all the canoes stopped. After everybody was abreast they raced on to the finishing line. When asked why they stopped they said simply so everybody could catch up and have an even chance for the prize.

Leaving the Gulf of San Blas, the Wisdom sailed along the fever-infested, palm-ornamented, coral reef-studded coast of Venezuela almost to the Brazilian coast and back to Colon.

Rex Beach and the doctor swam in all the waters famous for sharks and alligators ,and never were bothered.

"Once one of those alleged 'man-eating sharks' was following the cruiser," said the doctor. "We were all watching the monster. 'Watch him get me,' cried Rex Beach.

"Before anybody could stop him he was overboard and swimming directly at the shark. The latter turned like a coward and beat it for dear life."

From Colon followed other trips into the Mosquito Gulf, where Mary Roberts Rinehart caught her first tarpon.

Going through the canal Dr. Salisbury cruised down the Colombia coast to Ecuador. On the way down, at Buenaventura, the doctor had some sport cutting the heads off live alligators with a big bowie knife. That takes nerve, agility and science.

On returning to Panama the Wisdom began its long trip home. Rex Beach deserted and hurried up the Atlantic Coast to New York. With a new green crew made up of boys from the commissary department of the government at the canal, Dr. Salisbury started the long trip home . Afraid to touch at a Mexican port, the doctor sailed through stormy seas and bad weather, spending as many as fifty-two hours at a stretch at the wheel on watch.

Once they stopped to catch parrots and let the mighty hunter kill his last monkey for all time.

"I saw a beautiful specimen of monkey at the top of a palm tree," said the doctor. "I shot it. The animal dropped down about twenty feet. It caught a limb with one hand, reached over its shoulder and put a little monkey on the limb. Then it dropped to the ground dead. It was the most human act I ever saw. Never will I kill a monkey again."

Now the Wisdom is anchored at the motor-boat club being overhauled. The monkeys died. Parrots are flapping all over. Some time next winter Rex Beach will come to California and Dr. Salisbury and he will sail for the South Sea Islands. The famous naturalist will find new wonders for the American public. Depend upon him to find something that all the others have overlooked.

Rex Beach and Mary Roberts Rinehart will winter hereafter in Southern California near the doctor. He is the greatest Los Angeles booster.—By Howard Angus, Los Angeles Times.

ENCOURAGEMENT OF RIFLE PRACTICE.

The following is an extract from the Army Reorganization Bill. This bill is a report of the conferees. It has passed the Senate and House. With the President's signature it becomes effective July 1, 1916:

Sec. 133. Encouragement of Rifle Practice, H. R. 12766:

"The Secretary of War shall annually submit to Congress recommendations and estimates for the establishment and maintenance of indoor and outdoor rifle ranges, under such a comprehensive plan as will ultimately result in providing adequate facilities for rifle practice in all sections of the country. And that all ranges so established and all ranges which may have already been constructed, in whole or in part, with funds provided by Congress shall be open for use by those in any branch of the military or naval service of the United States and by all able-bodied males capable of bearing arms, under reasonable regulations to be prescribed by the controlling authorities and approved by the Secretary of War. That the President may detail capable officers and noncommissioned officers of the Regular Army and National Guard to duty at such ranges as instructors for the purpose of training the citizenry in the use of the military arm. Where rifle ranges shall have been so established and instructors assigned to duty thereat, the Secretary of War shall be authorized to provide for the issue of a reasonable number of standard military rifles and such quantities of ammunition as may be available for use in conducting such rifle practice."

It will take some time for the War Department to work out the provisions of this paragraph. You will be advised in future bulletins as to progress made. It is desired that questions be not asked at this time relative to the provision as efforts are being made to secure additional legislation which will be of advantage to rifle clubs.

FRED H. PHILLIPS, Ass't Recorder.

Whale Scares Anglers.—A score of anglers at Seal Beach were forced to seek cover when a large and apparently tame California gray whale of no small proportions appeared in the immediate vicinity recently for a neighborly visit. The big leviathan, in addition to spouting a welcome greeting to the surprised anglers by shooting a big spray of salt water up over them, startled the followers of Isaac Walton by rocking the staunch piling of the pier when he attempted to scratch a few annoying barnacles off his back. After basking in the sunlight for nearly half an hour within speaking distance of the pier, the big gray sea mammal swam slowly out towards the middle channel. Old anglers say they never before heard of a whale displaying such friendly traits in these waters.

Bass Waters Opened.—Now that Silver Lake has been opened to bass fishermen by the water board at request of the Fish and Game Commission, angling licensees, who have been itching for another chance at the "big mouths" ever since the taste they had in March, are in their element.

Owing to error, an oversight in the State law let down the bars upon the breeding of bass by opening the legal season March 2, but the Water Board and private parties controlling the bass waters promptly came to the rescue of the spawning fish by forbidding fishing at the advice of the fish and game authorities, who stated the short-sightedness of allowing artificially planted fish to be bothered when establishing themselves by breeding.

Chief Engineer William Mulholland of the Water Board has a fatherly interest in the city bass, having planted their progenitors many years ago.

A "365" Day Liniment

YOU ARE SAYING TO YOURSELF—"If I only knew of something to stop that Backache—help my Rheumatism—cure my Neuralgia, I would send and get it at once."

Get It. Gombault's Caustic Balsam will give you immediate *Relief.* A Marvelous Human Flesh Healer and a never failing remedy for every known pain that can be relieved or cured by external applications. Thousands testify to the wonderful healing and curing powers of this great French Remedy. A Liniment that will soothe, heal and cure your every day pains, wounds and bruises.

Gombault's Caustic Balsam
The Great French Remedy
Will Do It

It Helps Nature to Heal and Cure. Penetrates, acts quickly, yet is perfectly harmless. Kills all Germs and prevents Blood Poison. Nothing so good known as an application for Sores, Wounds, Felons, Exterior Cancers, Burns, Carbuncles and Swellings.

"I had a bad hand with four running sores on it. The more I doctored the worse it got. I used Caustic Balsam and never needed a doctor after that."—Ed. Rosenburg, St. Ansgat, Ia.

Mrs. James McKenzie, Edina, Mo., says: "Just ten applications of Caustic Balsam relieved me of goitre. My husband also cured eczema with it, and we use it for corns, bunions, colds, sore throat and pain in the chest."

A Safe, Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Rheumatism and Stiff Joints. Whenever and wherever a Liniment is needed Caustic Balsam has no Equal.

Dr. Higley, Whitewater, Wis., writes: "I have been using Caustic Balsam for ten years for different ailments. It has never failed me yet."

A liniment that not only heals and cures Human Flesh, but for years the accepted Standard veterinary remedy of the world.

Price, $1.50 per bottle at all Druggists or sent by us express prepaid. Write for Free Booklet and read what others say.

THE LAWRENCE WILLIAMS CO., Cleveland, Ohio

For Greatest Satisfaction Use
DOUBLE SERVICE Automobile Tires
Guaranteed 7,000 Miles Service
Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer:

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.85	3.10	35x4½ in.	21.20	5.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.50

All other sizes not included in above list also furnished. Non-skids at 10% additional. Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

FAMOUS TROUT STREAMS

Steelhead fishing in the Big Lagoon, Humboldt County, is now in full swing. The fish this year average from nine to twelve pounds.

Do not overlook the Eel River Fly Fishing for the Big Steelhead from July until October in the famous Greigs, Fortuna, Van Duzen and Weymouth pools—fresh run fish that weigh from nine to twenty-five pounds—light tackle—excellent resorts close by—only ten hours from San Francisco.

The fishing streams that are found so profusely in the new territory north of Willits embracing Humboldt, Trinity and Mendocino Counties offer the best of coast stream trout fishing. If you want to fish, go where the fish are.

LOW EXCURSION RATES

"Vacation-1916" gives list of hotels and resorts in this section, and our new "hunting and fishing" booklet will soon be ready for distribution. Call at 874 Market Street or write J. J. Geary, G. P. A., Room 808 Phelan Bldg., San Francisco, for copies.

GEORGE TOURNY, Manager.

FOR SALE.—A three-year-old thoroughbred colt by Johnny Lyons, out of Reina del Ceila. Registered 78538. For price and particulars address

J. D. PARKER, 42-1st St., Napa, Cal.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you.

MAGNUS FLAWS,

542 S. Dearborn St., Chicago, Ill.

RACE TRACK FOR SALE.

The Ukiah race track, located a little less than a mile from the Court House at Ukiah and bounded by the State Highway on the west, the county road on the south, and the Northwestern Pacific Railroad nearly the entire length on the east side of the track. The property consists of twenty acres. Fifty-nine good box stalls, good grandstand, fencing in good order, and one of the best half mile tracks in the state. An excellent winter track and an ideal place to work horses during that season. Plenty of adjoining drives for jogging horses. Two wells on the premises as well as water from the city water works, with tanks conveniently arranged for sprinkling.

This is the only race track in Mendocino county and the location of the county fairs. Ukiah is the county seat and has a population of about 3000, is in a most fertile valley in which all kinds of fruit, vegetables, hay, grain and hops are grown. Has excellent water; no malaria or mosquitos. It has paved streets, good sewerage, and splendid gas and electric light works. There are many standard and thoroughbred horses in this county and the people are a race loving lot. This property is offered for sale at a less price than adjoining property is held at. For terms and further particulars address

F. W. KELLEY,

Care of Breeder and Sportsman.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

PROGRAM

OCTOBER 25th		OCTOBER 26th	
2:20 Pace	$400	Free-For-All Pace	$400
2:15 Trot	400	2:12 Trot	400

OCTOBER 27th

2:13 Pace $400
2:30 Trot 400

HALF MILE TRACK

TWO RUNNING RACES EACH DAY.

CONDITIONS:

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

T. F. BURKE, Secretary,
Bakersfield, Cal.

STAKES REOPENED

PACIFIC COAST TROTTING HORSE BREEDERS ASS'N

to be given in conjunction with the District Agricultural Fair at

Santa Rosa, Cal.,

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

TRAINING DISTEMPER.

Ever hear of this? Yes of course you did, but under different name. You have seen it in cases where the horse was "overtrained," worked a little too fast and regular. The nervous system gets the shock, after the voluntary muscular system has been taxed too heavily. The trouble starts in the mucous surfaces and the digestive apparatus, too, must then be impaired. He begins to cough when the glands are materially affected.

"SPOHN'S" is your true salvation. It restores the appetite and normal functions of the whole system. The action in such cases is remarkably rapid and sure for recovery when you use this remedy according to instructions with each bottle. Only 50c and $1 a bottle; $5 and $10 a dozen. Sold by all druggists, horse goods houses, or express prepaid by manufacturers.

.22 CALIBER AUTOMATIC RIFLE

THE DOPE FOR PESTS

It's hard for anything to get away from the Winchester .22 Automatic Rifle, as, owing to its being loaded by the recoil, it can be fired rapidly with accuracy. This makes it exceedingly effective against pests of all kinds. It is a ten-shot repeater, light and well-balanced, strong in construction, and safe and sure in operation. It is at all times under control, as the trigger has to be pulled for each shot. It is readily taken down, and easy to keep clean and in good working order. A rifle that is a great sport maker, fascinating to shoot and sure to get the game or hit the target. It lists at $25.00 and is sold by all dealers for less.

NEW EDITION OF JOHN SPLAN'S BOOK

"LIFE WITH THE TROTTER"

PRICE $3.00 POSTPAID

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrines of kindness to the horse from start to finish."

Knows Now What To Do

Goble, Ore.

Troy Chemical Co., Binghamton, N. Y.

Dear Sirs: Last fall I wrote you about my mare's failure. She had ringbone, I bought a bottle of Save-The-Horse and now she is cured. I know what to do for my horses now. The same horse is having stomach trouble this summer. I ask your advice. We are grateful for Save-The-Horse.

M. A. JENNINGS.

Thanks Us for the Advice

Glenview, Ill.

Troy Chemical Co., Binghamton, N. Y.

Gentlemen: Your remedy is the greatest blessing imaginable for any horse owner. My horse acts like a colt. When I began treating him with your remedy he stood on three feet trying to ease that spavined leg. People round here say it must be that I am a veterinarian or something of that kind. Thanking you again for your advice, and with best wishes, I am,

Yours truly,

W. W. BEARLY, Carrier No. 1.

WE ORIGINATED the plan of treating horses under Signed Contract to Return Money if Remedy fails. You risk nothing by writing; it will cost you nothing for advice and there will be no string to it.

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere

$5 with a binding contract to refund money or cure any case of BONE AND BOG SPAVIN, THOROUGHPIN, RINGBONE, CURB, SPLINT, CAPPED HOCK, WINDPUFF, SHOE BOIL, INJURED AND BROKEN DOWN TENDONS. No scar or loss of hair. Horse works as usual.

SPECIAL HARNESS EVENTS

¾ Mile Run	$100.00
½ Mile Run	50.00

Special for non-winners in ⅝ and 1 mile races.

Entry blanks and conditions for running races furnished on application to the Secretary.

CONDITIONS.

Member National Trotting Association. Entries close August 1st.

Horses to be named with entry and be eligible when entries close.

All matinee entries will be classed by a classification committee prior to the opening day of the races.

All races (except matinees), three heats, every heat a race; money to be divided as follows: Twenty-five per cent of the purse to be paid on each heat, and twenty-five per cent to the winner of the race according to his rank in the summary. Should two or more horses be tied for the first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of this heat. (Under this arrangement, according to the rules adopted by the National Trotting Association, of which this Association is a member, only the horse winning the race would take a mark.)

Heat purses will be divided 50, 25, 15 and 10 per cent.

Any race not filling satisfactorily to the Association may be declared off.

In case class in which horse is entered does not fill, entry may be transferred to any race to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent to start. Three per cent due and payable when entries close, and two per cent before starting.

An additional five per cent of the division will be deducted from money winners.

Nominators have the right of entering two or more horses in one ownership in any race by the payment of two per cent additional, but only one horse so entered shall be started in the race; the starter to be named by 4 o'clock p. m. the day before the race is to take place.

A horse may be entered in two classes and be held for but one entry fee (entry fee in larger purse will be charged), provided only one start is made.

A distanced horse in any heat will be entitled to money already won. There will be no more money than there are starters.

Entries not declared out by 4 o'clock p. m. on the day preceding the race shall be required to start and declarations must be made in writing at the office of the Secretary on the grounds.

The Association reserves the right to change the order of the program; also to start any heat after the fourth score regardless of the position of the horses; also to reject any and all entries and declare off or postpone any or all races on account of the weather or other sufficient cause.

EVERY OWNER of a horse in training for harness racing should make it a point to enter in the $300 purses which have been hung up by the Solano County Fair Association for its first annual race meeting. It is true the purses are not large, but they are as large as this association, making its maiden effort at holding a fair and race meeting, feels it can afford to offer, and as there are no strings on them but an assurance that they will be paid in full, the association should have all the encouragement and assistance that a liberal entry list can give. We ask every horse owner to enter in these Dixon events who possibly can, and can assure them a most hearty welcome at the dairy town and four days of racing under a management that will play no favorites but give each and every horseman the very fairest of treatment. Entries for the eight events will close Monday next, July 10th. See that your entries are mailed in time. The entire program is in our advertising columns.

Will Durfee writes that Peter Mc, Captain Shaw's great trotting stallion by Peter the Great which he drove in 2:03½ at Lexington last fall, worked a mile at North Randall last week in 2:06¼ and "simply jogged."

THE RENO RACE MEETING.

[From our special correspondent.]

Reno, Nev., July 5.—It may be the war scare—or a scare of some other nature—but all the better class of horses which had been racing at Tijuana are stabled at Reno and performing in the greatest race meeting in the history of the sport in Nevada, or, as a matter of fact, in the West. There are blooded animals racing here that came from Kentucky and other Middle Western points, as well as from other states in the Union.

But to get to the present meeting, it must be said that opening day here proved a success beyond all expectations. The attendance was big, a large sum was wagered, weather conditions were agreeable and the horses performed well, while the officials must be lauded for their efforts to give the public the best game possible.

As an evidence of the determination of the officials to rid the sport of any unfair or shady methods, one Jockey Denny has been indefinitely suspended and probably will have his license revoked for "pulling" the most open foul ever attempted on a race track. It occurred in the fourth race, the Opening Handicap, the feature of the day's card, valued at $1000. Bank had been made the favorite by the public and looked the class of the race, although Ed Cudihee, out of the A. Neal stable, appeared to have a good chance. Loftus, also another contender for first money, had a good play and it looked like a three-horse race. Cudihee and Bank got off in front, racing like a team to the stretch turn, where, according to Jockey Thurber, the boy Denny grabbed his saddle and otherwise interfered with his mount. Not being satisfied with this style of riding, he threw his mount against Cudihee, who had the rail, thus causing the two horses to slow up and allow Rose Marian, a rank outsider and a long shot, to annex the purse and the honor that goes with winning the Opening Handicap.

The other six races were all interesting, as well as satisfactory to all concerned. The crowd was orderly and from indications the present meeting will eclipse anything ever attempted here.

Among the famous stables at the track are the horses owned by C. W. Clark, son of ex-Senator Clark, the Montana millionaire; those owned by George Wingfield, Nevada man of wealth; George Van Gordon, J. H. Rossiter, John Lowe and others.

Bronco Bill Anderson, the king of the movies, and who has taken over a string of thoroughbreds, is on the ground. He is on his way to New York from San Francisco regarding affairs of his picture enterprise.

J. J. Holtman, who is acting as presiding steward, expressed the opinion that "Reno will have the greatest race meeting in the history of the sport in the West."

Mont Blanc, an imported two-year-old ,the property of George Wingfield, died of pneumonia here yesterday. The baby was of English breeding, by Grey Leg out of Binina.

The horse Darkey which had been ruled off at Tijuana "for a strange race," has been blacklisted here. Likewise, Jockey Washer who had the mount at Tijuana must also seek other fields to reap his wealth. Jockey Warren also has been told that his presence is not wanted in Reno.

The low cost of feed and the absence of excessive duties on necessaries of life have impressed the horsemen that they are "free and equal" under the stars and stripes.

$16,000 in Purses at Phoenix.

The speed program for the Arizona State Fair, to be held November 13th to 18th, 1916, has been issued. There are five $1000 open purses for trotters and three of the same value for pacers. These are for the free-for-all, 2:09, 2:12, 2:18 and 2:27 trotters and for the free-for-all, 2:07, and 2:12 pacers. Besides these there are six events for Arizona horses, four of which are colt races. Entries to the open races need not be made until October 1st, but horses may be entered at any time and records made after entry is made, or prior to July 8th, will be no bar. It only costs three per cent to enter. Seven per cent additional will be taken from winners of first money, six per cent from winners of second money, five per cent from third and four per cent from fourth. All races on the three heat plan, $200 to first heat, $300 to second heat and $400 to third heat. Of the extra $100 $50 to horse standing best in the summary and $50 to his driver.

Four thousand dollars is to be given for running races. Entries for these will close the evening previous to the race, and the entry fee will be five per cent of the purse. Five entries are required to fill and three to start. Money divided 60, 25 and 15 per cent and no deduction from money winners.

The Arizona State Fair is located at Phoenix, Arizona. The grounds are almost within the city limits. Phoenix is the capital of the State and has a population of nearly 30,000. The grounds are only a few minutes' ride from the heart of the city by street car or auto stage .

There are two tracks—a mile track upon which all the harness races are held, and a half mile track upon which the running races, cowboy relay races, Indian races, and special programs are featured. The Derby races, however, are run on the mile track. Both are regulation tracks and rank among the best in the United States.

Will Durfee Reports from North Randall Track.

In a business letter written by W. G. Durfee to this office from Cleveland, Ohio, that popular California horseman says: "Our outfit arrived here in good shape June 10th, since which time we have had pretty much all rainy weather. Have had to work between showers and the horses are pretty near ready. As a matter of fact my outfit are not as far along in their work as the Eastern and Southern contingent.

"I figured on good weather to put the finishing touches on and this wise Eastern "bunch" took no chances, but seized every opportunity. I am now converted to their theory and will never again trust Jupiter Pluvius. (Good enough for any one who goes asleep at the post.)

"Will send you a clipping so you can get an idea of how they are going here. It seems that about every available express car has been commandeered for the use of transporting troops and supplies to the border, consequently some of the big Eastern stables will be compelled to ship by freight. Well! that beats walking! Tried my hand on the 'twice arounds" at Marion last Thursday but "wasn't there" so will probably make our next start at Cleveland. Lots of fast horses this year and whatever enthusiasm I enjoyed early in the year is gone. I expect to return to California some time in November, much wiser (and poorer).

"Please take good care of my friend 'Challie' Durfee and if you can pull him through in a few of those stakes by all means do so as that will help make my walk shorter."

The "clipping" referred to in the Durfee letter is from a Cleveland paper and is as follows:

"W. G. Durfee, the well known California trainer, stepped the sweet going pacing mare White Sox 2:05¼ a mile in 2:05 at North Randall yesterday morning. This performance indicates that White Sox will be extremely troublesome when the flyers meet at North Randall two weeks hence. Judging from her present form it will take a mighty fast pacer to beat the California mare in the 2:05 class at the Grand Circuit inaugural."

Will Race at Santa Rosa.

Following are the entries received for the three $500 purses to be contested at the Pacific Coast Trotting Horse Breeders' meeting at Santa Rosa in August. All three races were declared filled:

WEDNESDAY, AUGUST 9.

A Seven Heat Race at Bakersfield.

A race meeting was held at Bakersfield on the Fourth of July at which there was an attendance estimated at ten thousand. The races consisted of motorcycle contests, three running races and one harness event. The latter was half mile heats, best three in five and was for both trotters and pacers. First money was $200, second $100, third $50 and fourth $25. There were eight starters and by agreement all horses remained in until after the sixth heat. The race went to seven heats and was hotly contested throughout. The following summary of the race has been sent us by Secretary Claflin. The time was not given:

Babe	(Delaney)	6	2	1	2	1	4	1
Stick-in-the-Mud	(Townsend)	4	5	3	1	2	1	2
Zomar	(Donlin)	1	1	5	6	3	2	3
Mollie	(Taggett)	3	4	2	4	4	3	
Dolly Varden	(McCart)	2	7	7	7	6	5	
Santa Paula	(Gill)	7	3	4	5	7	7	
Honest John	(Hartman)	5	6	6	3	5	6	
Nan Patterson	(McVey)	8	8	8	8	8	8	

Germany is a little smaller than the states of Illinois, Indiana, Ohio, Michigan and Kentucky taken together. According to Prof. Henry G. Bell of the Soil Improvement Committee, these five states have some 91,000,000 acres of improved land; Germany has 82,000,000 acres. The five states maintain 18,000,000 people; Germany maintains 65,000,000. Of the population in the five states 2,000,000 are farmers; in Germany there are 13,000,000 farmers. The five central states produce wheat at the rate of 15 bushels per acre; Germany's average is 30 bushels. The five states produce 1,827,060 tons of potatoes, while Germany produces 44,220,213 tons.

Harness Horses and Horsemen

Sale of Suisun Stock Farm Two-Year-Olds.

The annual sale of colts and fillies bred by Rush & Haile, proprietors of the Suisun Stock Farm, which came off at Suisun last Saturday, was a "slaughter of the innocents." It was a day of bad luck for this well known breeding farm but should prove a lucky day for the buyers as they did not have to pay a third of what any colt or filly was worth, and there is not a buyer but can sell today at a profit if he so desires. As the twelve head of two-year-olds were being driven into Suisun from the farm, an automobile crashed in amongst them on the road, knocking three of them down and injuring two so they were sent back to the ranch and not offered at the sale. The colts then broke for the fields and it was nearly time for the sale to begin before all were rounded up and brought in. There were very few buyers present, and the bidding was slow and unspirited, but as Rush & Haile never have any by-bidding, no matter how highly they value the animals bred at Suisun Stock Farm, they are sold to the highest bidder, and every animal offered was disposed of. Of the ten head of of two-year-olds offered seven were by Montbaine and three by Demonio. The first one offered was a likely looking filly by Montbaine out of that great brood mare Minerva, dam of three with records below 2:11, by Guy Wilkes. The best bid that could be got by Auctioneer Martin was $42.50 and for that ridiculous price she went to D. S. Robinson of Solano county. Another filly was then sold for $32.50, another for $25, another for $32.50, and another for $30, until No. 6, a nice bay filly by Demonio out of Mamie Airlie by Prince Airlie was offered. She brought $50, the highest price paid for any of the ten two-year-olds, and the buyer was C. A. Harrison, who had never seen the filly, her sire or dam, but bought her because he had concluded he would like to own a filly by Demonio. A Suisun horseman who said on looking at the bunch that this filly, No. 6, was the best one in the consignment, started her at $30, and stopped at $47.50, so she was knocked down to the $50 bid of Mr. Harrison's representative.

After the Rush & Haile two-year-olds were disposed of a mare by Prince Ansel with a splendid suckling colt at foot by Demonio was sold for $100, and a big three-year-old gelding by Montbaine out of the Prince Ansel mare went for $52.50.

There were no buyers present from outside Solano county, except Mr. Harrison's representative. It was the poorest sale ever held by Suisun Stock Farm, but Mr. Rush stated that he had implicit faith in the future of the horse business and would keep on breeding and holding annual sales. Every buyer surely got a bargain as there was not a poor looking youngster in the bunch. The sales of the Suisun Stock Farm two-year-olds were as follows:

Bay filly, foaled 1914, by Montbaine, dam Minerva by Guy Wilkes, $42.50.

Bay filly, foaled 1914, by Montbaine, dam Edna Earle by Demonio, $32.50.

Brown gelding, foaled 1914, by Demonio, dam Corinne by California Nutwood, $25.

Black filly, foaled 1914, by Montbaine, dam Nellie T. by Dawn, $32.50.

Bay filly, foaled 1914, by Montbaine, dam Caromia by Demonio, $30.

Bay filly, foaled 1914, by Demonio, dam Mamie Airlie by Prince Airlie, $50.

Chestnut filly, foaled 1914, by Montbaine, dam Normonio by Demonio, $37.50.

Bay gelding, foaled 1914, by Demonio, dam Corasham by Athasham, $30.

Bay gelding, foaled 1914, by Montbaine, dam Laura Demonio by Demonio, $30.

Bay gelding, foaled 1914, by Montbaine, dam Eva Demonio by Demonio, $40.

Putting the Dixon Track in Shape.

Lou Mativia, who has charge of Dixon's half mile track, says he will have it in as fine shape as he knows how to put it in when the fair is held in the latter part of August. The world's record for a half mile on a half mile track is 1:00¾ and the Dixon track record is only a half second slower, or 1:01¼. Mativia is working three or four pacers and trotters at this track at the present time and says he has a two-year-old hoppled pacer by Del Dudley's good Nutwood Wilkes stallion Palite out of a mare by Dictatus that he thinks is about as good a prospect as Dixon track ever stabled and that is pretty strong language as such whirlwinds as Mona Wilkes 2:03¼, Del Rey 2:03¾ and a host of others in the 2:10 list got their early lessons over the Dixon "twice around." Mativia has worked this two-year-old a mile in 2:22, a half in 1:07 and an eighth in 15 seconds. This promising youngster is a chestnut gelding and is the property of Roy Mayes.

Bud Shouse, of Vallejo, is the owner of a four-year-old pacing mare that Mativia is giving a little work this spring that acts as if she would do to race. She is by The Iceman and her dam is by Ribbonwood. She is a nice looking bay mare with a world of natural speed.

The pride of Mativia's heart is the four-year-old trotting stallion Healani 56150 that is his own property. This fellow is 16½ hands and weighs 1250 pounds, is a beautiful black with white ankles and moves like a real trotter. He has shown a mile in 2:24, a half in 1:09 and trotted an eighth in 15 seconds, a two-minute gait. He was sired by Zolock 2:05¼ and his dam is Queen Derby 2:06¾ (registered as Doublea) by Chas. Derby, second Addie Ash, dam of three in the list, by Indianapolis, third dam a producing mare by Ashland Chief, fourth a dam of two, by Capt. Walker, fifth dam by Brown Pilot and sixth dam thoroughbred. There is a great speed inheritance in this stallion's veins and with the great speed he has he should make a great sire. While both his sire and dams took fast records as pacers, Healani is a square trotter and if given the opportunity will take a fast mark at that gait.

Others that Mativia has in his string are a three-year-old by Palite, dam by Don Marvin, and a yearling by Healani, out of a mare by Dictatus.

Splendid Racing in Golden Gate Park.

One of the largest crowds ever seen at San Francisco's three-quarter mile trotting track assembled on July 4th to witness a program of five races that furnished as good sport as is seen on any regulation circuit meeting. The contests were good and the times fast. Harold Cohen carried off the honors of the day by winning both the free-for-alls, the pace with Vera Hal and the trot with Harold C. In the pace Bold Harry Aerolite captured the first heat in the good time of 2:09½, although he was a lame horse. He forced Vera Hal to a break in the stretch and won rather handily, but in the next two heats Vera was not to be denied and won by a length each time, although it was a contest all the way. The time, 2:08 and 2:09, showed that there is class among these matinee horses.

George Giannini's Ella M. R. managed to win one heat of the free-for-all trot but Harold C. won the other heats with a different horse second each time. Results:

First race—2:20 trot; three-quarter mile heats:

Birdeye ..... (A. Combatalade)	1	2	1
Minequa ..... (M. Ford)	4	1	3
Darby Mac ..... (Joe McTigue)	3	3	2
Matawan ..... (J. McNamara)	2	4	4

Time—1:46, 1:44¾, 1:47.

Second race—2:20 pace; mile heats:

Silver Logan ..... (D. Healey)	1	1	
Dibble Wilkes ..... (S. Benson)	2	3	
Rosa O. ..... (J. J. Ryan)	5	2	
Black Mack ..... (L. A. Gielow)	4	4	

Time—2:20½, 2:21.

Third race—Free-for-all pace; mile heats:

Vera Hal ..... (H. Cohen)	2	1	1
Bold Harry Aerolite ..... (G. R. Machado)	1	2	2
Bradmont ..... (G. J. Giannini)	3	3	5
W. J. K. ..... (W. J. Kenney)	4	4	3
Pointer Belle ..... (J. M. Kidd)	5	5	4

Time—2:09½, 2:08, 2:09.

Fourth race—Free-for-all trot; mile heats:

Harold C. ..... (H. Cohen)	1	2	1
Ella M. R. ..... (G. J. Giannini)	4	1	3
Yoncalla ..... (A. Giovannetti)	3	3	2
Merrylina ..... (J. A. Wilkens)	2	4	4

Time—2:14, 2:15, 2:15¾.

Fifth race—2:12 pace; mile heats:

Emma M. ..... (Wm. Malough)	1	1	
J. C. Simpson ..... (Frank Goulart)	2	4	
Victor Pointer ..... (D. Keating)	5	2	
Senator H. ..... (J. M. Kidd)	4	3	
King Pointer ..... (H. Campodonico)	3	5	
Lottie D. ..... (P. S. Vaughn)	6	7	
Frank M. ..... (M. Ford)	7	6	

Time—2:14¼, 2:15.

Good Sport at Oakland.

Six races, in which nearly all the best roadsters in Oakland were participants, were witnessed by a large crowd at the half mile track near Peralta Park in that city on the afternoon of July 4th. The free-for-all pace, with three starters, was thought to be a sure thing for the old campaigner, Little Dick 2:09¾, but the Searchlight pacer Allegro, owned by Mr. G. Schreiber won the race in straight heats. There was but one race at mile heats and this was won by the trotter Grand W. owned by the veteran A. L. Hinds and was won in straight heats, the second in standard time. Results:

First race—2:15 mixed; half mile:

Teddy B. ..... (H. Buckley)	1	1	
Just Mac ..... (A. P. Stott)	3	2	
Savannah ..... (A. Reisman)	2	3	
Tom Wilkes ..... (H. Olsen)	4	4	

Time—1:19, 1:16.

Second race—2:18 pace, half mile:

Hallie's Star ..... (A. Edstrom)	2	1	1
Sleepy Dick ..... (W. Rutherford)	1	2	2
Lena Lee ..... (T. Le Ballister)	3	3	3

Time—1:15, 1:09, 1:12½.

Third race—Free-for-all; half mile:

Allegro ..... (G. Schreiber)	1	1	
Little Dick ..... (A. P. Stott)	2	2	
Burbank ..... (R. Seale)	3	3	

Time—1:07, 1:08.

Fourth race—2:20 mixed, one mile:

Grand W. ..... (A. L. Hinds)	1	1	
Baby ..... (Mrs. Carlisle)	2	2	
Elsa Page ..... (P. W. Bellingall)	3	3	

Time—2:32½, 2:30.

Fifth race—2:30 class, half mile:

Molly ..... (H. Medau)	2	1	1
Bell Sawyer ..... (Al Hanks)	1	2	2
Rhoda ..... (George Meader)	3	3	3
Teddy ..... (G. Collins)	4	5	4
Dinty Murphy ..... (J. V. Galindo)	5	4	5

Time—1:15, 1:15, 1:16.

Sixth race—2:35 class, half mile:

Babe ..... (C. Pitts)	1	1	
Dora's Boy ..... (R. Seale)	2	2	
Andy O. ..... (W. M. Ray)	3	3	
Ida May ..... (A. Newbaumer)	4	4	

Time—1:27, 1:24.

Judges—J. V. Mendenhall, Charles Miller; clerk, E. D. Williams; timers, Fred Weuscher, F. W. Perkins, J. W. Thomas; starters, Charley Durfee, Clair Woland.

Joe Markey picked Hollyrood Kate (3) 2:11¼ as the best trotter he saw at Lexington and says she is the only trotter he has ever seen whose gait is strikingly like that of Sonoma Girl 2:04¼.

Petaluma Driving Club Holds Races.

An excellent program of trotting, pacing and running races was enjoyed by a large crowd at Kenilworth Park, Petaluma, on Sunday last, the day's sport being under the auspices of the Petaluma Driving Club. The results were as follows:

First race, 2:30 trot—Mike M. (G. McGovern), first; Pacific (L. Brubeck), second; Ned M. (L. Seguin), third. Time—2:35, 2:31, 2:37.

Second race, 2:30 pace—Peaches (John McGovern), first; Billy P. (R. Healy), second; Glenwood Chief (E. Milwrick), third. Time—2:35, 2:24.

Third race, free-for-all-pace—Tom Murphy (George Sylvia), first; Hamburg Belle (J. Dupont), second; Sarah C. (Mrs. Morris), third. Time—2:22, 2:33.

Fourth race, half mile pacing—Billy Van (J. Navaroni), first; Grace McKinney (F. McGovern), second. Time—1:09, 1:09.

Fifth race, three-eighths mile, running—Baby Neil (Sam Pharis), first; Togo (Bugeia Bros.), second; Celia (Shultz), third. Time—:37.

Sixth race, half mile, running—Sir Victor (Bugeia Bros.) first; Alice M. (Shultz), second; King Abe (Bugeia Bros.), third. Time—:52.

The officers were: R. A. McDonald, starter; judges, G. P. Hall, K. V. McDonald, John Lawlor; timers, E. O. Voyer and John Moore.

Forty-Seven Eligibles to Kentucky Futurity.

The only California bred record colt that is eligible to start in the Kentucky Futurity this year is S. Christenson's Natal Day 2:13½, winner of two stakes in California last year as a two-year-old. This son of the ex-champion Wilbur Lou is in fine shape, but if he goes to Kentucky to start in the $14,000 event for three-year-old trotters he will have the fastest youngsters in the world to meet. While it is folly to predict just what a three-year-old will do it is a good betting proposition that Wilbur Lou will get some of the money if he starts. Of the 47 colts and fillies on which payments were made in June, there are 36 with records as follows:

Name.	Sire.	Record.
Volga, Peter the Great		2:07¾
Bingen Silk, Bingen		2:08¾
Walnut Tree, Siliko		2:10¾
Gen. Yorke, Gen. Watts		2:11½
Suldine, Worthy McKinney		2:12
Natal Day, Wilbur Lou		2:13½
Harrod's Creek, Gen. Watts		2:14½
Adele Block, J. M. Forbes		2:15
Expressive Lou, Atlantic Express		2:15
Nelly the Great, Caduceus the Great		2:15¼
David Rankin, Bingen		2:16¼
Meja, Peter the Great		2:17¾
Sis Bing, Bingen		2:18
Jack Mooney, J. M. Forbes		2:18¾
Sister Susan, Moko		2:19¼
Peter Bing, Peter the Great		2:19½
Peter Mount, Peter the Great		2:19¾
Emily Axworthy, Morgan Axworthy		2:20
Worthy Morgan, Morgan Axworthy		2:20
Atlantika, Atlantic Express		2:20½
Maple Tree, Siliko		2:21¼
Anvilite, Anvil		2:22¼
Bintara, Binjolla		2:22¼
Lady South, Gen. Watts		2:22½
Bertron, Bertini		2:23
Stellamaris, Atlantic Express		2:23½
Lightsome Watts, Gen. Watts		2:23¾
Native Judge, Justice Brooks		2:24½
Leading Spirit, San Francisco		2:25¼
Balmacaan, Northern Man		2:25½
Ida DeForest, The DeForest		2:26¼
Barna, Bingara		2:26½
O' Mistis, Peter Wood		2:27½
Virginia Watts, Gen. Watts		2:27½
Sangaree, Peter the Great		2:28
Harvest Note, San Francisco		2:28½

Incidental to this list it may be said that the member with the slowest record—Harvest Note 2:28½—is a son of San Francisco (which sired the champion three-year-old filly Mary Putney 2:05½), while his dam is the dam of The Harvester 2:01, champion trotting stallion.

Another one with a famous dam is Expressive Lou, daughter of Lou Dillon 1:58½, champion trotting mare. Native Judge is by Justice Brooke, the first two-year-old stallion to beat 2:10 on the trot, and his dam is Native Belle, the first filly to do the same trick, her 2:07¾ mile at that age being a championship performance. Leading Spirit's dam is Great Spirit (2:20 pacing, 2:11¼ trotting), which is a famous producer of early speed, among her foals being Sweet Spirit 2:09½ at three, Native Spirit 2:09¾ at two, and Worthy Spirit 2:14¼ at two.

As Native Spirit and Sweet Spirit figured largely in futurities their half sister may be "in the money," although her present record is slow. But Walter Cox, who trains her, also had Mary Putney, to which he gave a two-year-old record of but 2:24¼, while at three she was a champion with a 2:05½ mark.

The Winnipeg Driving Club held a matinee June 10th, and among the winners was the four-year-old filly Little Express, which was bred, raised, trained and driven to a two-year-old record of 2:20 by H. S. Hogoboom when she won the trotting division of the Breeders' Futurity at Salinas in 1914. Hiram sold her at auction with several of his horses at the DeRyder sale in this city last November and she was slaughtered with the others, bringing but $145. She won her race over the Winnipeg half mile track in 2:19¾ and 2:17¾. The track was heavy from a rain the previous night.

◈ ◈ ◈

Will DeRyder drove the Dunne-Lowery pacer Dicto a mile in 2:10 at North Randall last week, the last half in 1:04¾.

Thoroughbred Matters

Chicle Wins the Brooklyn Derby.

Harry Payne Whitney's Chicle led his field from flag fall to finish at Acqueduct on June 28th, and won the 27th running of the Brooklyn Derby. Chicle, with a ten-pound advantage in weight over Mr. Belmont's Friar Rock, who packed the full impost of 126 pounds, sped over the new Derby distance of a mile and an eighth in 1:51 3-5, considered good time for three-year-olds carrying these weights. His win was an easy one by three good lengths, but driven to a hard finish behind the winner came Star Hawk, who had come from fourth place in the field of six at the head of the stretch to take second money from Churchill by a scant half length. A length back of the third horse Spur and Friar Rock were racing neck and neck, with Whimsy last, ten lengths to the rear.

There was a feeling of disappointment throughout the crowd of more than 12,000 racing enthusiasts who had gone to the Aqueduct course to see Friar Rock and Star Hawk and Spur and Chicle and Churchill and Whimsey contest for honors in the classic event for three-year-olds.

The win was so easy for Chicle that there was disappointment because so many had thought that there would be a whirlwind finish for first honors. And again there was disappointment over the showing made by Friar Rock, who had been called king of this year's racers since his Brooklyn Handicap win of Saturday previous. Others were disappointed because they felt that with a better boy in the saddle A. K. Macomber's Star Hawk might have made a better race of it and been close enough to the first horse to bring the thrilling finish that all hoped to see.

The excuse for Star Hawk was Jockey Garner, and at that the colt, himself, seemed to run a bit sourly at one stage. However, he was coming like the good horse he is when the final running was being done. It was at the turn into the stretch that Star Hawk's chance for first place was lost, when he was given several lengths the worst of it by a turn far wider than a stronger and better boy than Garner would have allowed.

As for Friar Rock, it may be said that while the Brooklyn Handicap was run in a way to his own peculiar liking, the Derby was one of another kind.

After showing his temper in the paddock before they went to the post, Chicle tamed down when he reached the barrier and Jockey Tommy McTaggart kept him on his toes and ready for the word. Star Hawk, another bad actor in the paddock enclosure, continued his fretfulness at the post, and in one of his repeated lunges he broke through the webbing. When Mars Cassidy said the word the field was in perfect order and they went away on even terms, with Chicle, always a quick one to break, taking the lead before they came in sight from out of the chute.

Friar Rock was in motion when the barrier went up, but despite this slight advantage he immediately began to fall back until when first seen by the crowd in the stand he was well to the rear. Through the backstretch they raced, with Chicle going easily under wraps, and Tommy McTaggart simply jollying him along. Loftus had Spur in second place, with Star Hawk a close third and Whimsy also showing lapped on these two. They were in these same positions as they raced around the turn for home.

Chicle was running so steadily and so well in front that even at this stage it was shouted about the stand that the race was all his own. Some still were crying for Friar Rock to come on up, and others held their breaths expectantly awaiting the move of Star Hawk. As they came into the stretch Star Hawk was taken to the outside, and the taking of this overland route lost him some distance of ground, and in all probability accounted for his not being alongside the leader when they came to the finish.

As they thundered down the stretch Chicle opened a further distance of a length, still being jollied along by his rider and without one to challenge his courage. Churchill had made a good turn and raced into second position ahead of Spur and Star Hawk.

At this point Friar Rock was making his move—but it was too late. Straightened out for home, Star Hawk began to come on with that stretch-running quality that made him talked about after the Kentucky Derby, but it was not with the same great burst of speed he showed at Louisville when he came far from behind to second place.

Friar Rock was coming fast, but there were some in front to keep him from cutting his way through. The slashing part of the race was behind the winner and not with him. It was Star Hawk fighting it out for second place with Churchill and it was Star Hawk who won that position.

Chicle is an imported colt, but is largely American bred on the side of his dam. He is by the English Derby winner Spearmint (son of the great Carbine). His dam was Lady Hamburg II., by Hamburg out of Lady Frijoles by St. Simon.

———o———

Mr. A. J. Joyner of New York has imported a brown yearling from England that is said to be a particularly attractive individual and combines the blood of Isonomy, St. Simon and Minting. He is by Phaleron, a good son of Gallinule.

Successful Opening at Reno.

There has been splendid racing and a large attendance at the meeting of the Reno Fair and Racing Association which opened last Saturday and is to continue for 19 days. The fields have not been large, but the horses are of good class and the pari mutuals are heavily patronized. About $40,000 passed through the machines on the Fourth of July when at least 6000 were in attendance. The Independence handicap, purse $1000, was won by Loftus, carrying 116 pounds ,top weight, with C. W. Clark's Rose Marian second and George Wingfield's Bank third. The distance was one mile and the time 1:40.

On Wednesday, the 5th, H. Phillips, an apprentice under contract to Les Galbraith, won every race on the card, the winners being Fancy Feathers, Gertrude B., Make Good, Milton Barber, Mary J. and Cordie F. The odds paid on the winners by the machines are much better than could be obtained were the wagering done in books. The longest odds were on Wednesday when the mutuals paid $86 on Make Good, owned by Mr. J. H. Rossiter of San Francisco, and trained by Al Farrell. Many San Franciscans are in attendance at the races, and everything points to one of the best meetings ever held at Reno.

George Wingfield has lost his good two-year-old imported Mont Blanc. The colt died soon after being taken from the car in which he was shipped to Reno from Tiajuana. He was a high class colt and very fast.

Salinas Has an Outlaw Burro.

Salinas, June 27.—"Curly" Smith, champion wild bull and outlaw bronco rider, was handed the surprise of his life at the race track here this morning, when he attempted to ride a diminutive burro, brought in from the Tularcitos country last week and christened "Pancho Villa."

"Pancho" was picked up with a band of outlaw horses that are to be used here during the Original California Rodeo, July 12 to 16. He was brought into the corral at the race track as a joke, but when Smith mounted him for the amusement of his fellow vaqueros, the little burro proved himselv even more formidable than the worst of the herd of outlaw horses and bulls now pastured at the track.

Smith managed to stick to the burro's back for just three seconds and then landed on the top of his head with such force that his companions thought for a moment that he had broken his neck. A second attempt to ride the burro also proved disastrous for the vaquero, who after being thrown the second time, offered to wager any cow-puncher present that he could not stay on the animal's back.

There were no takers and now "Pancho" will be kept to test the mettle of visiting cowboys during Rodeo week. A purse will be offered by the Rodeo committee to any vaquero who can master the little animal and as he looks anything but formidable, it is probable that visitors at the Rodeo will be given the opportunity to witness many a rider meet his Waterloo.

———o———

When the country is at peace and horses are being purchased for the army, great care is taken to secure animals that are uniform in color, size and conformation, the consequence being that a very large proportion of the horses offered to the army by contractors are rejected. But when a state of war exists, a good sound horse is not turned down just because he is not as handsome as a soldier's horse should be and the contractors find that the inspectors are glad to take some of the same animals that they rejected a few months before. Three years ago a prominent United States army official made the public statement that there were not 30,000 horses suitable for army purposes to be found in the United States and was urging the Government to purchase thoroughbred stallions and place them at service throughout the country that suitable army horses might be raised. Then a year later came the European war and since then nearly one million horses have been purchased in the United States and shipped to Europe for use by the armies of England, France and Italy, and an army officer who was recently in California buying horses for the Government said that horses were in good supply and prices were not unreasonable. During the past few years breeders have been compelled to accept less for their horses than they were worth, consequently there has been a great falling off in breeding, but the supply is yet far in excess of the demand and breeding will be resumed on as large a scale as ever whenever the price paid for any description of horse will bring the breeder a fair profit.

◈◈◈

Among the entries for the $10,000 derby to be run at the Chicago meeting which opens next Saturday are Friar Rock, Malachite, Chicle, Star Hawk, Achievement, Churchill, Indian Chant, Celandria and George Smith.

◈◈◈

Before bringing Short Grass to America, Emil Herz was offered $12,000 for the son of Laveno—Outburst, by the Prussian government. The horse was wanted for the government stud at Graditz to sire cavalry horses.

◈◈◈

The bill to legalize mutual betting and place racing under the management of a commission appointed by the Governor has been defeated in the Louisiana legislature.

Kitchener Rode an American Thoroughbred.

Frank Gray Griswold has made another notable contribution to American sporting literature in the third volume of his recollections, entitled "Sport on Land and Water," one of the timely chapters of which concerns the late General Kitchener and the race horse Democrat, characterized by the author as the most brilliant and successful American two-year-old that ever ran in England.

Though Democrat was foaled less than twenty years ago, there are doubtless a good many horsemen of today who never heard of him, and a good many more who are not familiar with his interesting career, on and off the race course, as told by Mr. Griswold. Democrat was bred by Pierre Lorillard at the celebrated Rancocas stud in New Jersey, and was sent to England with other yearlings belonging to Mr. Lorillard in 1898. Trained by John Huggins and ridden by Tod Sloan, he won seven consecutive races as a two-year-old, twice defeating Diamond Jubilee, the Derby winner of the following year, and placing to his credit such important fixed events as the Coventry Stakes, the National Breeders' Produce Stakes, the Champagne Stakes, the Rous Memorial and the Middle Park and Dewhurst Plates. His earnings were more than $65,000, and he became the winter favorite for the Derby, but as a three-year-old he completely lost his form and won only one unimportant race.

Got by Sensation out of Equality, the dam of seven winners, and herself a daughter of Rayon d'Or, the beautiful chestnut might have been retired to the stud if he had not been a gelding, but when it was discovered that he no longer had the ability to win races he was presented to General Kitchener for a charger, and was later ridden by the hero of Khartoum at the head of the British army in India at the Durbar of King Edward in Delhi.

When the equestrian statue of Kitchener was made to ornament the Maidan, in Calcutta, this American thoroughbred was used as a model, and there you may see Democrat as well as Britain's great soldier cast in bronze, like our own Washington astride the old-time trotting stallion Cassius M. Clay, in Union Square, New York.

———o———

Since its first running in 1890 there have only been three horses that have won the Toboggan Handicap twice. High Noon, from the stable of James Butler, was the latest to add his name to the list. When High Noon won last year he took up 109 pounds, while for the running last week he was top weight under 124 pounds, and his score was a remarkably easy one, and one to pronounce him right at the front of the sprinting division. Incidentally, his mark of 1:09 3-5 ,hung out last year, stands as a mark for this stake.

◈◈◈

The rich Kentucky Handicap, worth $11,650 to the winner, was run at Douglass Park, Louisville, Ky., June 3rd, and won by John W. Schorr's Ed Crump, carrying 121 pounds, and ridden by Jockey Guy Garner in a desperate drive, beating Roamer (132 pounds) by a length and a half. The distance, one mile and a quarter, was run in 2:04 3-5. Water Witch was third and Hodge fourth. Ed Crump is a chestnut colt four years old, by Peep o' Day—Evaline, and was trained by Geo. Land.

◈◈◈

Mrs. Charles F. Hubbs' champion saddle mare Fantasy, absent from the show ring for the first time since she made her debut, 1909, is nursing a beautiful chestnut filly at Sequatogue Farm, near West Islip, L. I. Golden Gleam, the sire of the foal, was exhibited at the last Brooklyn Horse Show. He is a son of Golden King, one of the well known saddle stallions of Kentucky. Fantasy in her seven campaigns won thirty-eight first prizes at the leading Eastern horse shows.

◈◈◈

The National Horse Show will be held one week later than last year, to avoid election day, which falls on November 7. The exhibition at Madison Square Garden is billed to open on Saturday, November 11, continuing six days and closing on Friday, November 17th.

◈◈◈

At a meeting of the Kentucky State Racing Commission, held a week ago, an amendment was offered for the adoption of the sealed bid plan used with such success at New Orleans last winter. The amendment, which will doubtless be adopted, reads: "In all selling races the winner will not be sold at public auction. At any time within fifteen minutes after the official board has been displayed any person in good standing may put in a sealed bid for the winner, with the racing secretary. Money must accompany the bid unless the person bidding has sufficient funds in the office to cover the amount. Bids may be made only in units of $100. Failure to place the proper amount in the envelope will not vacate the bid, but it will consider in force to the amount if the even $100 under the fraction of the $100 that might be placed in the envelope. Thus for example, if there should be $725 in the envelope the bid will be accepted as $700. When the envelopes are opened the owner of the horse will be notified and will have the option of protecting the horse for the customary $5 or letting it go to the highest bidder, to whom an order for the horse will be given. Should there be two bids for the same amount, those bidding will draw lots for the horse. The owner must protect his horse within five minutes after the bids are opened or the horse will go by default to the bidder."

Notes and News

Helen Stiles 2:06¼, by Sidney Dillon, has a foal at her side by Manrico 2:07¼.

◈◈◈

Sutherland & Chadbourne will ship five head of their horses in training to Santa Rosa next Tuesday.

◈◈◈

The Santa Rosa Driving Club will give a breeders' meeting today, at which several horses will be sent to earn records.

◈◈◈

Trotting and pacing team racing will again be a feature of some of the Great Western Circuit meetings this year.

◈◈◈

Will Bing, a two-year-old by Binjolla, recently worked a mile at the trot in 2:21 over the Springfield, Ohio, half mile track.

◈◈◈

Wilkesbrewer, by Nutwood Wilkes 2:16½, out of the dam of Zombrewer 2:04¼, won a good race at Rockport, putting in two heats in 2:15¼ each.

◈◈◈

The Grand Circuit races open at North Randall one week from Monday next. Big fields and fast time is expected if the weather is favorable.

◈◈◈

Eighty-three and one-half per cent of the transportation of our country is still done by our horses. The statement is true that but for our horses we should soon starve to death. Yet in road-building it is the automobile and not the horse that is considered.

◈◈◈

The Star Pointer pacer Star Tilden 2:15¾, owned by A. W. Longley, had his speed clothes on at his workout last week and came the last quarter of the Pleasanton track in a shade better than 29 seconds.

◈◈◈

S. S. Bailey's O. U. C. 2:07¼, Al McDonald's three-year-old Surety by The Bondsman and A. W. Longley's Pedlar Direct worked together at Pleasanton last week in 2:15 and 2:13¼.

◈◈◈

John Ray, H. K. Devereux and Jack McDonough have made a $2,000 colt sweepstake, to come off during the North Randall Grand Circuit meeting. They name as starters Cord Axworthy, Miss Shank and Peter Duffy, all two-year-olds.

◈◈◈

Johnny Ray, actor and horseman, has written a movie scenario which plots a trotting race at the North Randall track. Many of the pictures will be taken during the Grand Circuit meeting and all the star reinsmen will appear in them.

◈◈◈

Earl Foote, the Ottawa trainer, is getting Andy McKinney 2:13¼, Don Wilkes 2:12, Lena Moko 2:17¼, Adelaide Benson 2:14¼ and a number of others ready for the races. Andy McKinney was laid up for a year with leg trouble, but is now training sound.

◈◈◈

Foster Child, by Siliko 2:08¼ and out of the famous race mare Margaret Parrish 2:06¼, is reported to be one of the most sensational two-year-olds now at the Lexington track. Recently she showed a mile in 2:22, with a last half in 1:07, and can cover a quarter in 32 seconds. This youngsters, which is owned by John E. Madden, will soon join the Murphy stable to be prepared for her stake engagements.

◈◈◈

It is currently reported that Secretary Kline of the North Randall track has abandoned his proposed weight race for a 2:06 trot in which every driver would have been required to carry weight enough to equal that of the heaviest driver in the race, the same event to become a feature also at Grand Rapids, which is also said to have discarded it. The intention was to demonstrate the effect of weight in the sulky with fast horses in the race.

◈◈◈

Unless changes are announced later, it seems now almost certain that North Randall and Detroit are the only members of the Grand Circuit that will confine their speculation feature this season to auction pools and pari-mutuels, so that three events each day and all on the three-heat plan, will be the only method to serve that purpose. This means nine dashes for each afternoon and every dash a race, unless there happen to be three heat winners, when a fourth dash will be required to decide the winner of the event.

◈◈◈

"Pop" Durfee is still at Los Angeles getting a few colts ready for their stake engagements this year. A two-year-old by Carlokin trotted a mile in 2:26½ for him the other day, and he worked the two-year-old Kinsman Lou by Wilbur Lou a mile in 2:24½. On Thursday of last week Mr. Durfee worked Chas. W. Winter's stallion Alhambra Prince 2:14½ a nice mile in 2:11½. The first quarter was in 34 seconds, the half in 1:07, the last half in 1:04¼ with the last eighth in :15¼. Two weeks before he worked Alhambra Prince a mile in 2:13¼, and he seems to be improving right along. Durfee is expected at Santa Rosa within the next two weeks with the colts he will start in the Breeders' Futurities.

In a pacing race at Monroe, Michigan, week before last, there were eleven starters, ten of which wore the hopples and the other had a pair of knee-spreaders. This was certainly a harness race.

◈◈◈

Bon Courage 2:08¼ is winning frequently for Fred Ward on the Nebraska tracks. Harry R., the son of Armond Lou, he by Kinney Lou, has also been a frequent winner for the trainer of the Hemet Stock Farm horses.

◈◈◈

Fleming worked Joe Patchen 2d a mile in 2:09¼ at North Randall last week and followed it with a heat in 2:07¾, with the last quarter in 30 seconds. The same day Will DeRyder worked Spriggan three heats in 2:14¾, 2:08¼ and 2:12. San Felipe worked in 2:14¾, and Potrero Boy worked two heats in 2:14½ and 2:13¾.

◈◈◈

Fred Ward had a fair week with the Hemet horses at Auburn, Nebraska. Harry R. won the 2:20 pace in straight heats, best time 2:13¾, Bon Courage won the 2:18 trot with the fastest heat in 2:16½, Oro Lou got third money in the 2:11 pace and Dr. Wayo was 4-4-5 in the race in which he started. The track was heavy from rain just before the meeting.

◈◈◈

At the coming session of the Trotting Conference in New Zealand a new rule will be proposed by which it will be obligatory for all clubs giving harness races to put on their programs at least one race for three-year-old trotters in which hopples will be barred. The Forbury Park club has already decided to give one such race and will make it a dash of a mile and a half in harness for a stake of $1250.

◈◈◈

A horse that shows real class can be sold for a good price. After Grand Chimes, a son of Kentucky Chimes, had won the 2:20 trot at Monroe, Michigan, June 20th, the three heats over the half mile track being in 2:14½, 2:13¼ and 2:14¼, J. E. Goldberg, of Detroit, offered Edman $5000 cash for the horse, but the offer was declined. Grand Chimes will be seen on the Grand Circuit.

◈◈◈

C. H. McCarthy, the veteran Californian who is now at North Randall with George Hammett (3) 2:15¼, certainly has reasons to be proud of the appearance of his son of Nutwood Wilkes 2:16½, as he is an extremely handsome individual and from all accounts a very fast and game trotter. Miles around 2:20 are all that have been asked of George Hammett to date, but if the old gentleman would hurry him, we are satisfied that he would be beating quite a number hereabouts.—American Sportsman.

◈◈◈

Amateur harness racing will be more prominent than ever among the horse owners of the eastern states this year. The first important meeting for amateurs will be at Newark, New Jersey, on July 20, 21 and 22, with fifteen races on the program. During the three days, gold and silver cups for a total value of $5,200 will be awarded to the winners of the fifteen events. This means more valuable trophies than ever offered in any inter-city or inter-club amateur races in the history of the sport. The thirteen silver cups will be valued at $300 each, while the two gold cups will be worth $1,300.

◈◈◈

Henry Ten Eyck White says that to his notion the most meritorious performance ever made by a trotter, except on the rare occasions when two minutes has been equaled or beaten, was Peter Mac's mile in 2:03½ to cart with an amateur driver 76 years old, doing the teaming. And his reason is because the first half of that mile was done in 59 seconds and the three-quarers in 1:29¾. To go that far at better than a two-minute rate and then finish in 2:03½ with a driver not able to give the horse the slightest assistance—especially when the feat is performed by a trotter that never had been a mile in 2:05—borders on the miraculous in trotting, and of many shrewd horsemen interviewed on that point not one but has pronounced the feat, circumstances considered, incomparable.

◈◈◈

"Volunteer" writes the following interesting reminiscence in the Horse Review of June 21st: The famous picture, "The Spirit of '76," was painted by A. M. Willard, of Cleveland, Ohio, who is still living at the advanced age of 82, and who stated in a recent interview that he conceived the idea for the picture at the Centennial Exhibition, at Philadelphia, held in 1876, and, after a number of preliminary sketches, some of which were published as chromo-lithographs, the now-so-celebrated painting was made a couple of years later. The picture should be of especial interest to horsemen from the fact that the model for the drummer boy, the left-hand figure of the trio that are marching to glory through a storm of shot and shell, to the martial music which they themselves are making, was Mr. Harry K. Devereux of Cleveland, the present president of the Grand Circuit, and for years past one of America's leading trotting enthusiasts as owner, breeder, amateur reinsman and racing promoter. At the time "1776" was painted, Mr. Devereux was a lad of about fifteen, and the drummer boy immortalized upon Willard's canvas is a good portrait of him as then appeared. The model for the old drummer, in the centre of the group, was the Rev. Samuel R. Willard, the father of the painter; while the fifer, at the right, was studied from Hugh Mosher, an army fifer in the Civil War, who formerly lived at Wellington, Ohio.

There was some speed shown at the North Randall track last Saturday. Geers drove his pacer Napoleon Direct a mile in 2:03¾, and Ben White sent the two-year-old trotting filly Mary Coburn a mile in 2:13½. This is the fastest mile a two-year-old has shown this year.

◈◈◈

The duties of L. G. Baker, California trainer, who was recently engaged by Andrew Albright, Jr., owner of Prospect Farm, Hilton, N. J., will be confined to educating the young stock, and possibly driving one or two that Mr. Albright may race over the half mile tracks. Nathan Axworthy 2:09¼, and Baby Doll 2:10¼, will not be raced by Mr. Baker.

◈◈◈

The roan pacer Graustark by Aerolite, owned by Dr. E. J. Weldon, of Sacramento, that was shipped east in charge of Lon Daniels, has been turned over to Ben Whitehead who will race him on the half mile tracks this season. Graustark had a sick spell after reaching Cleveland, but is rounding to and should more than earn his keep during the next few months.

◈◈◈

Matt S. Cohen, once prominent as a shipper of saddle horses to the New York market and now Commissioner of Agriculture of the State of Kentucky, will manage the horse show to be held at Louisville in September in connection with the State Fair. He has opened six stakes for saddle and harness horses, the estimated value of which is $5,000.

◈◈◈

Owing to wrong addresses and delay in the mails the following entries made at Fresno were omitted from the list of entries printed last week: Lindsay Bell, bay mare by Bon Voyage in the 2:15 trot; Jake Logan, brown gelding by Nearest McKinney in the 2:15 trot; Loma Logan, bay mare by Prince McKinney in the 2:30 trot; Ella Mac, bay mare by Tom Smith in the 2:09 trot.

◈◈◈

Walter Moore of the Horse Review says: "About the best appearing of the California horses at North Randall at this time is Spriggan 2:08¼, with which Will DeRyder won the first $20,000 stakes at the Panama-Pacific Exposition a year ago. I saw him race a number of times last year, but he did not seem to have the snap and rapidity of stroke that is marked in his gait now."

◈◈◈

W. E. Detels' two-year-old filly by Graham Bellini out of Daphne McKinney is improving right along and will probably make her only start this year in the Breeders' Futurity at Santa Rosa. Her fastest mile to date has been in 2:29 and her fastest quarter in 33½ seconds, but her action is so faultless and she finishes her miles so handily that the Pleasanton trainers all speak very highly of her.

◈◈◈

Miss Loula Long gave a horse show recently at Longview Farm which resulted in raising $21,000 for the new children's hospital in Kansas City. It seems that a group of men offered to donate to the hospital three times the amount of the net profits of Miss Long's show in aid of the institution, and when the proceeds of the exhibition reached the tidy sum of $5,250 they had to write their checks for a total of $15,750.

◈◈◈

Howard's Comet, the bay gelding by Teddy Ray owned by P. J. Howard of Alameda, is traveling through space at a rate that makes his name seem very appropriate to the onlookers when Millard Sanders brushes him at the end of a workout at Pleasanton. One day last week Sanders drove this trotter a mile in 2:12, and the last half was in 1:02½, which is the fastest half we have heard of any trotter doing this year, east or west.

◈◈◈

According to the Animal Welfare Association of Detroit there are 60,000 horses in that city. In fourteen years, in spite of the auto truck, and the 40,000 automobiles in the same city, the horses have increased from less than 13,000 to 60,000. The Horseshoer's Journal states that there are, in round numbers, in New York 128,000 horses; in Chicago, 86,000; in Philadelphia, 50,000; in St. Louis, 27,000; in Boston, 23,000; in Cleveland, 17,000, and in Pittsburgh, 13,000.

◈◈◈

Don't miss the Dixon races. There are purses of $300 each, equally divided between the trotters and pacers, to be decided at the August meeting at Dixon and entries for the same will close next Monday, July 10th. Dixon has one of the best half mile tracks in the State and as this is the first regular meeting to be given there by the Solano County Fair Association horsemen should patronize it liberally, as a successful fair and race meeting this year will be followed by more and larger purses next year. Don't forget that entries close next Monday, July 10th. See advertisement.

◈◈◈

The American Sportsman, of Cleveland, said in its issue of June 29th: "Lon Daniels moved a number of his stable along more glibly during the past week, the fastest mile being credited to John Malcolm 2:09¼, he pacing in 2:07; Potrero Boy 2:06¼ stepped in 2:09; Bondalean (3) 2:06¼, now four, in 2:10, last half in 1:04; Kid Cupid 2:08¾ trotted in 2:10¼, and San Felipe 2:09¼ in 2:12. The California contingent has improved noticeably the past week, having recovered from their long trip, and they will be ready to go much faster by the middle of the month."

Stock Breeders' Page

Cow Testing Association at Orland.

Farm Adviser Heileman, assisted by P. L. Dougherty of the State University, are taking up the preliminary work of forming a cow-testing association, with headquarters at Orland, Glenn county. They report that 908 cows have already been signed up, and more will be signed as soon as the owners return.

The Orland association unit has the largest number of herds of any unit in the state, 58 in all, and the area covered is the smallest. The 58 herds are embraced within a radius of four miles.

The association may name B. Koehler of Mendocino as the official tester for the members. Koehler was for years the tester for Mendocino associations, and is a capable man.

A second unit will be formed soon with a list of over 1000 cows. The rate for testing will be $1.25 per head, but this charge is expected to be lowered as conditions warrant.

A New Fly Repellant.

J. F. Grass, assistant farm adviser for Humboldt county, has invented a fly repellant which he has experimented with among the dairies of Humboldt and which is giving satisfaction. He has recommended the following spray:

Resin (pulverized) two parts, soap shavings one part, water one-half part, fish oil one part, oil of tar one part, kerosene one part, water three parts.

The resin, soap and fish oil and one-half water part are boiled together until the resin is dissolved, add the three parts of water and finally the kerosene and oil of tar. Mix and boil for fifteen minutes. When this is cooled it is ready for use as a spray. Spraying may be done by means of a knapsack spray or hand sprayer. One application lasts about three days and is both effective and efficient.

Almost any oil or greasy substance is useful. However, their use will make a dirty looking animal if they are kept in dusty pastures or near dusty roads. Fish oil or train oil seems to be the fundamental ingredient of all mixtures. However, the above may be put up either at home or by the local druggist and will prove satisfactory. In some cases all the ingredients may not be available, but by proper adjusting of the remainder a very good spray may be made.

State Fair Grounds Will Be Ready.

Sacramento, June 30.—Just at a time when preparations for the coming state fair were in full swing, with many artisans busy on the grounds, the call to arms brought the militia of the state to Sacramento for mobilization on the Fair grounds. This put an end, temporarily, to some of the work of the Fair. Some of the activities were kept under way, however, and the others will be rushed when the militia has departed, so there will be no delay in starting the state's big exposition in September.

There was the greatest freedom in the manner in which the State Agricultural Department turned over to the state's military department the grounds and buildings. The whole equipment of the Fair was placed at the disposal of the troops, and they in turn took pains to prevent any more damage or inconvenience than was absolutely necessary.

The drives and walks were cut up by the cannon and heavy hauling, the grounds were dug up to lay water and sewer pipes ,the large exhibit buildings were stuffed full of ammunition, rifles and other equipment and supplies, but the whole will be restored to the usual good condition within a few days.

The Fair will be ready to open ,and will be completed on the opening day.

Quarters occupied by prize winning dairy cows in the milking barn seemed just made to order for the use of the mobilization camp. The stanchions in which the cows are stalled for milking and feeding were occupied by officers of the regular army, state militia and civilian state officers and employees while the militia members were mustered into the regular service. No better quarters could have been devised. All that was necessary to provide was a long table down between the rows of stanchions, with seats for those engaged in the work. Officers of high rank occupied some of the stalls.

Just across the way, the Dairy Products building was pronounced ideal by the commissary department. Its big glass refrigerator was full of meats and other food supplies of the soldier boys, and was a great convenience. Other buildings were filled with stores of ammunitions and equipment, keeping them safe from harm.

Sonoma County Wool Brings 31 Cents.

At the wool sale in Cloverdale last week, thirty-one cents was paid for wool, and this is admittedly the highest price that has been paid for over twenty years; in fact, some of the growers insist it is the highest paid there. Some of the wool men held for a still further advance. The sheep men all over the country are greatly pleased with the splendid prices they are receiving and many are enlarging their flocks in anticipation that wool and mutton are to demand high prices for years to come.

COLOR IN HORSES.

There is an old saying that "color is only skin deep," and most horsemen, I suspect, really give little weight to the color of a horse, provided it meets the other points desired. When color does enter into their calculations it is apt to be from esthetic considerations only; a well-matched team is the most which is looked for. Except in horses for funeral purposes, where black is conventional, color in a horse is not an economic consideration. Yet the breeder who carefully studies the laws and the transformations of biology, and likewise knows aught of the history of the horse, will discover that there is a philosophy and a principle in the color of a horse, and that color is, in a certain degree, an index to be regarded. Certain colors in the horse are primary and fundamental, like bay and white. Others, like black and gray, are the result of cross-breeding, and do not occur in the original horse of antiquity from which our species are derived. The researches of Upton have shown that nearly 87 per cent of genuine Arab horses are dark in color, and that there is an Arab proverb to the effect that "the kings of horse-kind are dark." The tradition that the ideal Arab horse must be gray is a myth. Whites and grays are to be found among them, but the color preferred is bay. When the Arab prefers a white horse he is influenced by religious and sentimental reasons. He knows that bay is the color of real horse efficiency.

Dun is a sign of primitive, wild ancestry in a horse; mouse-color, gray, chestnut and black, of crossbreeding between those of wild ancestry and Arab stock. These colors are not known among the purer strains of either the Arab or the Spanish horse, but occur in inferior strains. The black Turcoman horse is the issue of Turcoman (Central Asian) mares and Arab sires. Chestnut is evidence of a cross between the wild, dun-colored horse of northern Europe and western Asia with Arab stock. The description of the famous charger of Muhammed Ibn Rashid shows this, for it was a chestnut mare, "very powerfully built with much hair at the heel, and showed more bone than breeding."

Chestnut was a common color of horses among the ancient Greeks when sires imported from Africa were beginning to be crossed on the native northern European and Asiatic horse. The notoriously bad tempers of chestnut horses are ascribed by some to the persistence of an influence derived from the wild in them. As one writer puts it: "A cross temper should be a concomitant of chestnut color." On the other hand the annals of the English turf show that no other color excepting bay has such a reputation for speed and hardihood. An oriental saying sums up the wisdom of experience as to chestnut horses: "One should be slow to buy a chestnut horse, and still slower to sell one that has proved to be a good one."

The predominance of bays among Arab horses, and the universal preference of the Arab for a bay when he is consulting his head and not his heart, shows that bay is the color of horse efficiency. It is the color inherent in the best race of horses in the world; for example, the famous Kehelian breed, and is not the result of artificial breeding. The Darley Arabian, which was bought at Aleppo in 1710, was of this strain, being from the Anazah breed. Bay is a universal index of Libyan stock, whence the Arab was derived.

The testimony of history gives evidence that even in antiquity horse fanciers detected the superiority likely to be attached to a bay horse. The swiftest horse in Homer is a bay. A bay horse was a favorite in the betting ring of the Roman circus. The picked cavalry of the Roman Empire was mounted on bay horses. We know this from the story of the famous charger of Belesarius, the great general of Justinian in the sixth century.

"He happened to be riding," says the chronicler, "at that moment a horse well tried in war, and which knew how to carry his rider through in safety. His whole body was dark-colored, but his face from the forehead to the muzzle was white. Evidently the typical war horse was becoming a dark-colored animal, and one must think of a bay, or at least a horse without sign of barbarian origin—in a other words, a crossbred Libyan or Arab horse. The data which we have as to the mediaeval warhorse confirm this conclusion, for here again the preference for bays predominates. King Edward I of England, who had been in both Tunis and the Holy Land, set great store upon good horses. In the battle of Falkirk in 1298 against the Scotch, some of his prized horses were killed, and Edward required a minute statement as to the losses. As a result of this demand we have an exceedingly valuable and illuminating record. The bays were less than half the whole number of horses lost, but they furnished nearly one-half the mounts of the knights.

English racing records demonstrate that bay is predominantly a color of speed and bottom. It is a winning color. "In the thirty years preceding 1866 it was estimated that the Derby had been won by 7 chestnuts, 8 browns, and 17 bays; and the Oaks in like proportion." Prof. Ridgeway has analyzed the colors of the winners of the great English courses since 1870 with even more positive results. Gray disappears entirely as a winning color; black has almost vanished; chestnut and brown have markedly declined.

Bay and white are the original Arab colors, with the former much predominating and preferred when effciency is a factor. The Arab's occasional preference for white is due to religious traditions. White from remote times and in many lands has been a color of sanctity. The sacred white elephants of Siam are an example. The chariot of Zeus, the greatest god of the ancient Greeks, was drawn by white horses. The old Persians sacrificed white horses before a battle in order to secure victory. Caesar was drawn by white horses at his triumph; white horses were used for divination by the ancient Germans. Most striking of all religious symbolism in the colors of horses is the vision of the writer of the book of Revelation:

"I saw and beheld a white horse; and he that sat on him had a bow; and a crown was given unto him, and he went forth conquering and to conquer. And there went out another horse that was red [bay], and power was given to him that sat thereon to take peace from the earth, and that they should kill one another; and there was given unto him a great sword. And when he had opened the third seal, I beheld, and lo, a black horse, and he that sat on him had a pair of balances in his hand.—And when he had opened the fourth seal, I looked, and behild, a pale [yellow] horse, and his name that sat on him was Death."

Here the white horse, because of the sanctity attached to white, is the steed of victory. The bay is the horse of war, and we have already seen that the Roman cavalry preferred bay horses. What the particular symbolism of the black horse is I can not say. But it is significant that the charger on which Death rides is a yellow, or dun horse. For dun, as we have seen, is the prevailing color of the wild, barbarian horse.

There is another remarkable vision of horses in the prophecy of Zechariah, written nearly 600 years before Revelation, in the reign of Darius, the great Persian king. "I saw by night and behold, a man riding upon a red[bay] horse, . . . and behind him were there red horses speckled and white." Again Zechariah saw and beheld four chariots: "In the first chariot were red[bay] horses; and in the second chariot black horses; and in the third chariot white horses; and in the fourth chariot grisled [dapple-gray] and iron-gray horses."

The interesting thing in this reference is the evidence of crossbreds in ancient Persia, as the allusion to black, gray and dappled horses shows. It is noticeable, too, that sanctity is not here attached to the color white, and that bays—the best and speediest horses—are harnessed to the first chariot.

As a phenomenon of breeding it may be observed, in closing, that color is usually transmitted from the sire, and not the dam, to the colt.—James Westfall Thompson in Breeders' Gazette, May 11, 1916.

Welch Holsteins Bring Good Prices.

One of the biggest sales of registered Holstein-Friesian cattle held in central California recently took place at Los Banos Wednesday of last week, when the famous Charles J. Welch herd of 105 animals were auctioned off. Mr. Welch, who owned the Copa De Oro farm three miles from Los Banos, died three years ago and the stock was sold off by the widow.

Unweaned calves sold as high as $125 and $130, and yearling heifers brought prices ranging up to $380. Cows and two-year-old heifers ran from $150 up to $475 and $500, while a few cows sold at still higher figures, the record being set by La Polka Pietertje Spotfoot De Kol, who sold for $675.

The herd bull sold for $1500 and several other bulls brought fancy prices. One yearling heifer that sold early in the morning for $180, was resold in the afternoon for $210.

James W. Marshall and Wilbur Eibe of Solano county have leased the 5000 acre Muzzi ranch near Elmira and have gone into the sheep business on a large scale. There were 2500 head of sheep on the ranch owned by the former lessors, and the new firm has purchased these. Marshall has been very successful in the past as a stock breeder. He bred a number of very fast pacers and trotters which he sold at big prices, among them Mona Wilkes 2:03¼, Aerolite 2:06¾, Moortrix 2:07½, and many others, and for years has been a heavy dealer in pure bred Shropshire sheep. There is no better stockman in California than Mr. Marshall and that he will succeed in his new venture is beyond question. While the prices of sheep and wool are the highest they have been for years, the most astute breeders are confident that there will be but little falling off in prices for years to come.

◈◈◈

California ,once an important wheat state and noted for large bonanza wheat farms, is no longer classed as a wheat-producing state. Twenty years ago it produced 45,000,000 bushels of wheat, shipping much of it to Europe. This year its production will probably be not much more than 4,000,000 bushels, and it will need to ship in from other states 10,000,000 bushels or more to meet its own food requirements.

◈◈◈

About 200 head of fine beef cattle were shipped from the Hollister yards last week by C. N. Hawkins, manager of the Pacheco cattle company. There were seven carloads of the stock, which went to a Seattle market. The average weight of the steers is reported between 1260 and 1265 pounds.

◈◈◈

The Western Meat Company recently renewed its lease to 40,000 acres of the Chowchilla ranch for cattle range.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

SCIENTISTS ON SPEED OF BIRDS.

Science is now coming out of its laboratories and with meter stick and co-ordinate paper is knocking some of the old favorites clean out of the English language. That good, trite phrase, "fast as a bird" will, according to the savants at the University of California, have to be discarded.

And even the venerable "swooped like an eagle" might just as well have a vacation. The professors show that "swoop like a linnet" has just as much claim for a place along with the old jokes and ready-to-spout language.

The whole trouble is that the professors have found that birds are not nearly such rapid fliers as had been supposed. To be honest about it, almost any one of the flivvers that chase pedestrians on Market street could probably go much faster than a bird. That is about the conclusion reached by Professor Joseph Grinnell and Upton Matthews, who recently timed the flight of birds with an automobile.

In company with Upton Matthews, a California deputy game warden, Wetmore, who is of the United States Biological Survey, made daily trips from Lemoore to the shore line of Tulare lake and trips also from Bakersfield to the region of Buena Vista lake. When birds were found flying in a straight line close to the automobile the speed of the machine was gradually changed until the observers were traveling at a rate equal to that of the bird. The two scientists found that the little horned lark, only eight inches in spread of wings, traveled at a rate of twenty-two to twenty-eight miles an hour and that the latter rate was not exceeded by the great blue heron ,despite the heron's six-foot spread of wings. The red-tailed chicken-hawk was found to be traveling twenty-two miles an hour, two sparraw hawks twenty-two and twenty-five miles, respectively; a red-shafted flicker twenty-five miles, a raven twenty-four miles and a shrike at the rate of twenty-eight miles an hour. All these rates are said by Wetmore to be much slower than accepted theory as to the speed of birds. Wetmore concludes that these birds could have flown more rapidly if frightened, but he is convinced that the figures represent approximately the normal rate of flight.

So, when the figures are considered, it seems pretty clear that the reliable "fast as a bird" has no more "punch" than "fast as a flivver," and that an "eagle swoop" might just as well give way to a "jitney swoop."

Well, the old ones were about worn out, anyway, so why object?

SMALL FISHING AROUND CATALINA.

To the average angler, fishing in the waters about Catalina island, off the southern California coast, is synonymous with landing a tuna or some other giant fish as big as the average man. It is the ambition of every fisherman to match his strength, skill and staying powers against one of these monster game fish, so that those who make the trip to the island quite overlook the fact that its waters abound with smaller fish which, for their size, are endowed with all the necessary qualifications of gameness and fighting ability.

In this connection the following interview, coming from Captain K. S. Walker, an old-time angler, who is thoroughly familiar with every fishing ground in the locality, is of particular interest to fishermen:

"One thing that merits more attention than has been paid to it is the small fishing about Catalina. The fish now despised will one day be sought and appreciated at their true value once men are taught how to go about getting from them all the sport there is to be had by fine tackle and delicate methods.

"For example, the blue perch, so plentiful about the island around the reefs and up Ship Rock way particularly, can be coaxed into taking a fly, and they are strong, lusty little beggars, which not all the fun is done with when they are dead, for they are very choice in flavor as well as handsome to look upon.

"The rock bass will eat up most of the 'plugs' used by fresh water bass casters and are not a bit inferior as game fish pound for pound, when given a chance upon light gear, allowing them to use their strength to some advantage without fighting a great sinker.

"On the Silver canyon shore big yellowfins are plentiful, and as good surf bathing is to be had there as anyone desires.

"All these things will be developed and brought out in time. They will add much to the diversifying of the sporting attractions. Not all men care to go out and wrestle all day with big, scaly brutes that come one or two a week; some like a little more action as they go along. The development of the small fishing about Catalina will be of great value, because it is to be depended upon: the fish always being there, and this is a work that seems to be up to the boatmen to undertake, as the Tuna Club stands pretty much committed, even by name, to the bigger and more sensational game fish. Few men are disappointed when they come in with a good catch of even small fish, knowing some one has the good of them.

"The time will come when an angler will take across the channel all the tackle he has, instead of leaving his casting fly rods at home."

RAISING WILD GAME IN WASHINGTON.

It was announced some weeks ago that Spokane county, in the state of Washington, would make an attempt to restock that section of the country with various species of wild game birds, and the statement has borne fruit quickly, and the pens and runways in which the birds will be cared for are being built.

Game Warden J. Anderson and A. F. Weiseman of Spokane county Game and Fish Commission have undertaken the experiment of trying to raise blue and ruffled grouse, Hngarian partridges, China, silver and golden pheasants and prairie chickens, of which latter the country was well supplied until some years ago, when a war of extermination on squirrels also resulted in the poisoning of the birds.

It is said that the experiment of raising grouse in captivity never has been tried before in this country, and that the present effort will be watched with much interest by game bird authorities throughout the country. A bonus of $3 has been offered by the Commission to the person locating a setting of grouse eggs. The finder is asked to communicate at once with Mr. Weiseman for instructions as to its disposal.

The new game farm is located just outside of the city of Spokane, and, in the event that the experiment proves a success, it is planned to increase the scope of operations and obtain a tract of fifteen to twenty acres, where breeding can be carried out on an extended scale.

The Commissio n has been actively engaged in stocking the adjacent streams with silver trout, of which 75,000 were planted last week. It is possible that a trout fry plant will be located at Badger lake in the event conditions prove favorable.

EFFECT OF MOON ON FISHING.

The effect of the moon upon all fishing is partly mechanical and partly indirect. In the sea it is reflex through the changes produced in tides, which are highest at full and new moon, lowest at the quarters.

Extreme high tides are not always bad tides, depending upon how much wind, swell and current come with them, but they are more likely to be unfishably rough.

In the mountain lakes, full moon, and moonlit nights are likely to be followed by poorer fishing than the dark of the moon simply for mechanical reasons. The fish can see to feed, and do take more or less food through the hours usually dark. They are fine and fat; sleek as seals always after bright nights; and a first-class fisherman who knows their ways always can get a good mess of them.

The effect of tides and tidal currents upon the movements of deep sea fish is well understood by commercial fishermen who make a living out of taking them.

HIGH PRICES FO RFAMOUS DOGS.

Reports of prices for famous dogs are just about what you like to make them. A few thousands here and there make little difference these days when we think of men being killed in millions to satisfy Greed, but we presume that a pointer of John Proctor's accomplishments might almost aspire to a record and as we have heard of the wild offers for the late Fishell's Frank, it is not too much to worry over when we hear that the owner of the winner of the Kentucky Derby this year offers $5000 for this clever field performer. A big offer indeed for a dog that may be bowled over any time, for he is not a chicken by any means.—American Fancier.

§ § §

As one of her several contributions to "Preparedness" Miss Alice Thorp, of Plymouth, one of, if not the most. successful woman breeder of French bulls, winner of the last Produce Stakes of the French Bull Dog Club of America and French Bull Dog Club of N. E., has offered to the United States Government her services for the propagation of the several "Kaiser's War Dogs" that were given to the War Department some two years ago. These dogs should not be confounded with the German Police or the German Shepherd dogs, as they are, we are informed, a distinct variety, much larger and stronger and it is understaad more desirable and are very scarce.

‡ ‡ ‡

Mr. Leach of Pasco, Wash., has breed his fine young bitch, Belle, to Cermer Westaire Terror. She is due to whelp about this time.

‡ ‡ ‡

Jack Babb of Seattle says he believes in the truth of the old adage: "The good die young," for he had a three-month-old puppy that looked the "best ever" die of pneumonia last month.

‡ ‡ ‡

Among the pathetic incidents connected with the death of Edward VII., few were more touching than the presence in the funeral procession of the dog on whose collar was engraved the words, "My name is Caesar, and I belong to the king." His master had abandoned him, he knew not why, and although he had a palace for his home, he refused food. Schopenhauer cited with approval the words of the Spanish author Larra, "He who has never had a dog knows not what it is to love and be loved."

WHERE CONFISCATED GAME GOES.

Some who wonder what becomes of confiscated game taken by deputies will be glad to learn that some one else than the officer eats it. The clams taken by Deputy Abels were given to the Santa Barbara County Hospital. It is the practice of the Fish and Game Commission to distribute this game among the charitable institutions and a register is kept of the disposition of every piece of it. Sometimes people, poor unfortunates, get fish or game in that manner that they never could get to taste in any other way.

During its existence the Fish and Game Commission has donated tons of fish and game to charity in this State. The figures will be compiled some day and given. They will be astounding.

Fish Drowns Angler.—A fish drowned Halvar Balkan of Dallas, Wis., when he was fishing for muskellunge near Haugen, Wis., in Bear lake. His companion, who was with him when the boat capsized, John Lystie, managed to save himself by hanging to the overturned boat.

It is thought that Balkan was dragged to the bottom by his fish, which entangled its line about his body, for after the boat capsized the fisherman did not come to the surface again.

Lystie was rowing and Balkan casting when the muskie struck. The pair fought the fish for half an hour before the line was tangled, and in the struggle the boat was capsized.

$1500 DOG KILLED IN SHOW.

A tiny Brussels Griffon, Cedar Bambino of Sunnyside, priced at $1,500 on the catalogue, and presumably worth as much, as it had previously won honors in the breed, took it into its befurred little head to take a scamper through a bunch of Great Danes, in the Westchester Kennel Club open-air show on June 24. These giants of the species must have taken the streak of gray fur for some new sort of a rat, for two or three of the msprang at it, and one, a big white and black dog, caught the skull of the pet between its sharp fangs and crushed it like an eggshell. It was done so quickly that no one could pick out the culprit, for each and every Great Dane began wagging his tail and presenting itself in the proud manner of a cat that has just swallowed a canary.

HERMOSA BEACH ROD AND REEL CLUB.

Hermosa Beach, Cal.—The Hermosa Beach Rod and Reel Club officially opened the season with a celebration, Saturday, July 1. Instead of giving the usual casting tournament, the club held a carnival and confetti battle. A six-piece orchestra played all afternoon and evening and a block of main street at the entrance to the fine pier was roped off for dancing. As the street is paved with asphalt it made a splendid dancing floor. The club, in conjunction with the Chamber of Commerce, continued the exercises until July 5th. A band concert was arranged for Sunday afternoon, an orchestra played on Monday afternoon and evening, and on Tuesday afternoon and evening there was a grand carnival, with dancing and sports, followed by a nexhibition of fireworks on the pier in the evening.

The club is growing rapidly and now numbers among its members practically all the business men of the town. The secretary, W. L. Donohugh, has resigned ,owing to his election to the office of city trustee, and Wright Conklin has been chosen to fill out the unexpired term.

Large catches of yellowfin, corbina, yellowtail, mackerel and halibut are being made daily from the pier and beach. One record catch of twenty-eight yellowfin was made in the surf this week in one hour. The smallest fish weighed two and three-fourths pounds.

W. L. DONOHUGH.

Ranger Reports on Deer.—S. B. Clifton, forest ranger in San Dimas Canyon, says he has seen fewer deer this season than for the past four or five years. He attributes their scarcity to the fact that mountain lions are preying upon them. A few days ago he came upon the carcass of a freshly-killed buck which had evidently been slaughtered by a lion. Bobcats are numerous in the canyon now.

The impression of forest rangers in the San Antonio range reserve seems to be that there would be more deer if hunters were allowed to go gunning for a short time each year. They figure that hunters frighten the lions away, and that a few rifles would not kill as many deer in a short hunting season as mountain lions kill the year round.

Biff! Bang! Go Scatter Guns on the Fourth

TRAP-SHOOTERS APPROPRIATELY CELEBRATE INDEPENDENCE DAY WITH HIGH SCORES

Vernon Club.—Heine Pfirrmann Jr., the "shootin' Dutchman," bombarded his way to victory in the first contest of 100 targets at optional sweepstakes in the first day of the initial registered trapshooting tournament, held Sunday at the Vernon Gun Club. He rolled up a score of 99x100. He missed the last bird in the first event of twenty, but succeeded in breaking the next eighty straight.

R. C. "Dick" Reed, the Remington UMC professional from San Francisco, scored high professional average, breaking ninety-seven targets out of the century.

Andy Flickinger of Martinez and L. D. Blanchard, a local blackbird buster, tied up in the centennial affair for the Vernon Gun Club handicap trophy, each with 94 dead clays out of 100. Flickinger fired from twenty yards and Blanchard from the same distance. They shot off the tie from their respective handicaps, Blanchard winning with a 23x25 result, which netted him the trophy and first money.

The results in the 10 0target optional sweepstakes contest in five events of 20 targets each follow:—

Bob Bole 89, *Harry Hoyt 86, *George Oliver 83, Fred Grewell 90, *Al Cook 94, Lee Slocum 86, Martin 97, Walter Comelius 89, Lou Mellus 87, *Ed Mitchell 92, Frank Mellus 96, Heine Pfirrmann 99, N. A. Howard 88, *Guy Holohan 95, *Dick Reed 97, Wm. Mullen 87, L. D. Blanchard 96, Flickinger 94, Harry Ogilvie 97, Dr. Packard 96, C. P. Manderville 87, *L. S. Hawxhurst 96, Mohler 92, Stan Bruner 96, C. W. Fish 96, Frank Free 86, Mrs. Groat 86, C. E. Groat 86, D. Llew-82, ellyn 81, Meek 88, V. A. Rossbach 82, J. D. Dierdoff 94, Owen Council 91, O. Evans 94, Wilson 71, Van Nest 83, Raney 49, Ross 34, Haesse 90, Arnold 95, Sargent 94, Bill Dougherty 93, Miller 69, Jackson 89, *C. H. Knight 90, C. D. Hagerman 91, Frank Nichols 54.

Summary: *Professional shooters, shot for targets only. Heine Pfirrmann Jr., high amateur with 99x100. Won first money. Dick Reed, high "pro" with 97x100. Adams second high amateur with 97x100. Harry Ogilvie third high amateur with 97x100. L. S. Hawxhurst, Peters professional, and Charles Knight, Winchester representative, tied for second high professional average with 90x100. The moneys were figured out by A. P. Henderson and W. J. Davison.

The results in the 100 target Vernon Gun Club handica ptrophy tourney in four events of 25 birds each follow:—

*C. H. Knight, handicap 22—broke 90; *L. S. Hawxhurst 22—89; *Dick Reed 22—96, *Ed Mitchell 22—88, *Guy Holohan 22—94, Harry Ogilvie 22—83, Arnold 22—89, Dr. L. M. Packard 22—92, Heine Pfirrmann 22—88, Frank H. Mellus 22—92, Mohler 21—91, Stan Bruner 21—89, O. Evans 21—93, Martin 20—91, Blanchard 20—94, 94, Andy Flickinger 20—94, *Al Cook 20—88, Fred Grewell 20—87, W. A. Cornelius 19—93, Haesse 19—92, *George Oliver 19—78, Jackson 19—80, N. A. Howard 18—91 Wm. Mullen 18—92, Meek 18—86, Harry Cline 18—93, Owen Council 18—88, Harry Hoyt 18—88, Lou Mellus 16—91, Wilson 16—61, Manderville 16—91, Frank Free 16—88, Bob Bole 16—86, Mrs. C. E. Groat 16—92, C. E. Groat 16—90, V. A. Rossbach 16—91.

Summary: Flickinger and Blanchard tied for high amateur and trophy, with 94x100 apiece. Shot off at 25 targets; Blanchard won with 23x25. Flickinger broke 22x25. Dick Reed, Remington UMC representative, scored high professional with 96x100 from 22 yards. Guy Holohan, DuPont Powder Co. representative, was second high professional with 94x100, from 22 yards.

Elks to Have a Trapshooting Tournament.—At the present time, conventions other than those meeting at Atlantic City are interested in trapshooting. The B. P. O. E. (Hello Bills) hold their national convention in Baltimore during the week of July 10th, and they intend to have a trapshooting tournament. Wilmington Lodge No. 307 is the instigator and has challenged the other Elk lodges to get a squad together that can break more targets than they can. They urge that each state enter as many shooters, attending the convention, as they can, and the five high men from each state be counted a team.

The shoot will take place Friday, July 14th, at 10:30 a. m., at the Oriole Gun Club. This contest will no doubt be watched with a great deal of interest, for if it proves a success, other fraternal bodies will very likely consider one.

Trapshooting a Convention Feature.—The twelfth annual convention of the Associated Advertising Clubs of the World which just came to a close in Philadelphia was one of the most interesting the city of William Penn has ever had. From the start early Monday morning until the close Thursday night, everything was a "hustle and bustle." The convention taxed the nerve systems of the delegates and while highly pleased with the results and the entertainments given them by the Poor Richards of Philadelphia, they were glad when the Philadelphians advised them that the next move was to Atlantic City. Here they were highly entertained, most of the entertainment being "out of doors." In fact, some went to the shore in automobiles.

Golf, trapshooting and sea bathing were the outdoor sports. Many of the delegates had played golf before, but trapshooting was new and proved interesting.

The trapshooting events were held at the DuPont Trapshooting School on Young's Million Dollar Pier, and many participated. This school is fully equipped with traps, guns and targets. Trapshooting under ordinary trap house conditions is a restful change to the busy business man, but the Ad. men found shooting at targets with the Atlantic ocean as a background a real nerve bracer.

Judging from the interest taken in the Ad. men's trapshooting event, other conventions visiting Atlantic City will put such an event on their programs.

Alameda Elks' Club.—The Alameda Elks' Gun Club has a big shoot scheduled for Sunday on the Alameda grounds. Special events will be programmed for the ladies and it is hoped to attract a number of fair shots. Prizes will be set up and the Elks will shoot their usual program.

Shoot at Mill Valley.—A blue rock shoot featured the three-day Fourth of July carnival in Mill Valley. On Sunday some of the scatter-gun artists were out at the traps and enjoyed some good sport. Frank E. Lockwood and J. W. Moore directed affairs. Robert Johnson Jr. achieved the honor of being high gun with a score of 39. W. H. Price was second. The scores follow:—

	25	25	Total
Robert Johnson Jr.	22	17	39
W. H. Price	20	14	34
M. F. Cochrane	14	15	29
J. J. Keating	13	15	28
Dr. R. D. Dufficy	19	10	29
E. I. Butler	13	16	29
Special 16-gauge Event—			
F. E. Lockwood	16	17	33
Richard McCloud	9	14	23
Thomas Deffenbach	15	5	20
Professional Class—			
J. W. Moore	18	17	35
Larry Middleton	15	15	30

Green Lake Club.—With the stage all set to handle a big crowd on July 2 at the Green Lake Club, the weather man stepped in and dished up nothing but water. In spite of his worst efforts nineteen shooters lined up for the regular Sunday shoot.

L. S. Barnes with 48 out of 50 captured first place, while Dr. King and W. C. Smith divided second honors with 47. H. S. Gibson, Frank Ulvestad and Geo. H. Young also shot well, getting 45 out of 50.

A special feature of the program was the shoot-off at twenty-five targets between Dr. A. B. Kidd and G. A. Conklin for possession of the June silver cup. Mr. Conklin won this event, getting 23 to Dr. Kidd's 20. The scores:—

L. S. Barnes 48, Dr. King 47, W. C. Smith 47, H. S. Gibson 45, George H. Young 45, Frank Ulvestad 45, G. A. Conklin 44, Fred Call 44, Dr. J. F. Hill 44, Matt Grossman 43, Dr. A. B. Kidd 43, George Scripture 43, Hi Follrich 42, W. H. Carsten 38, George O. Colwell 35, J. Morris 35, Dr. S. W. Giffin 32, George D. Horst 28, M. A. Brown 20.

Trade Notes.—The annual tournament and pow-wow of the "Indians" was held at Cedar Point, Ohio, June 27-30, and was one of the biggest successes of many that have been conducted by the Scatter-Shoot Tribe. Upwards of 130 shooters were on the firing line duringt he tournament.

Clayton Deck of Plymouth, Ohio, shooting Nitro Clubs, captured the Indian Championship by breaking 99x100 and 19x20 twice in the shoot-off.

And now along comes the Montana State Shoot, held at Deer Lodge this year. C. P. Tilzey of Moore, with a splendid score of ninety-eight and twenty straight in the shoot-off, shooting Remington Autoloading Shotgun and Nitro Clubs, carried off the State Championship. F. A. Weatherhead of Billings, another veteran whose name is usually among the winners, captured the Montana State Handicap with ninety-four from twenty-two yards, shooting a Remington Pump and Nitro Clubs.

Rush Razee acquitted himself honorably, among the professionals, taking the professional average and making a long run of 232. Mr. Razee also went away bedecked with the professional diamond trophy which he attached with a score of ninety-nine. In the individual State Championship, Mr. Razee broke fifty straight.

COMING REGISTERED TOURNAMENTS.

Oregon.

Portland, July 10—Portland Club, Frank Templeton, Secretary.

Portland, Sept. 12, 13, 14—Pacific Coast Handicap.

Washington.

Tacoma, July 18, 19, 20, 21—Pacific Indians, F. C. Riehl, Secretary.

Seattle Association.—Four shooters divided the honors among themselves with a score of 46 each, they being Tom Wilkes, Fred Landwehr, Matt Grossman among the amateurs and Hugh Poston, professional. Poston was the high man in the hundred-bird event with 95 to his credit and C. E. McKelvey high amateur with a 94 out of the bunch. Mrs. A. G. Wilkes of San Francisco was the visiting shooter. The scores of June 25th:

	15	15	20	Total
Matt Grossman	14	15	17	46
Tom Wilkes	15	15	16	46
Hugh Poston*	14	14	18	46
Fred Landwehr	13	15	16	46
R. S. Searle	14	13	18	45
C. E. McKelvey	13	14	18	45
Hugh Fleming	14	13	17	44
A. J. Gerrard	12	12	20	44
J. W. Considine	13	14	15	42
C. W. Bandy	14	13	15	42
Mrs. A. G. Wilkes	14	10	16	40
Ralph Kinzer	11	13	14	38
V. M. Woodaman	12	10	13	35
At 100 targets:—				
	25	25	50	Total
*Hugh Poston	25	24	46	95
C. E. McKelvey	24	25	45	94
Tom Wilkes	22	25	46	93
Hugh Fleming	22	25	44	91
Matt Grossman	20	23	46	89
Fred Landwehr	20	20	46	86
J. W. Considine	19	24	42	85
Mrs. A. G. Wilkes	20	22	40	82
Ralph Kinzer	22	22	38	82
Douglas Huntington	8	13	..	21

*Professional.

Yours,

E. A. FRY.

INTERNATIONAL TRAP SHOOT.

The Canadian National Exhibition has decided to hold a trapshooting tournament in connection with the annual exhibition in Toronto, beginning August 24 and running to September 11, and the dates set aside for such are August 29, 30, 31, September 1, 2.

The traps will be set overlooking Lake Ontario and will occupy practicall ythe centre of the southern boundary of Exhibition Park, a part of the grounds largely used by the public.

This exhibition is the largest annual affair of its kind held in Canada, and as such is advertised very extensively.

The attendance last year was nearly 1,000,000 people, and this should be materially increased this year.

Reduced railway fares will be available from all points in Canada and United States. From the exhibition standpoint, of course, the tournament is being "staged" as an attraction both for the general public and the shooter, and as such a five days' program has been thought advisable.

While the program has not been definitely decided upon, it will comprise a "Canadian National Exhibition Handicap" and "International Championships" at single and double targets, as well as regular regular events, and it is expected that at least $2,000 in trophies and cash will be added.

The holding of a tournament before thousands of people who are not to be entertained and interested means a great "boost" for trapshooting.

Interstate Trophies.—Editor Breeder and Sportsman: Please announce to the readers of Breeder and Sportsman that winners of The Interstate Association trophies at registered tournaments will receive their trophies in from four to six weeks after the trophy blanks are received at Pittsburg.

Some blanks are not filled out by the respective winners at the tournament and this causes further delay in making shipments, as the trophies for each tournament are ordered at the same time and it takes about two weeks to have them properly engraved. Yours very truly,

THE INTERSTATE ASS'N.,
E. REED SHANER, Sec'y.

Interest in Beginners' Day Shoots.—Beginners' Day Shoots were held in all parts of the country during June. Keen interest was shown in the shoots and many persons were added to the army of trapshooters. In many cases women participated. A complete record has not as yet been made, but reports received up to June 28th show that 116 clubs held Beginners' Day Shoots, and that exactly 2,008 persons shot at the targets. Shoots were held in cities of 30 states.

The Clay Bird Shooting Association of England has decided not to hold a championship meeting this year, but in 1917—if the war is then over—the event will probably be revived.

* * *

The lakes of Lewis county, Washington, have been replenished by County Game Warden Norton Flynn with about 234,000 silver trout fry. The fry were hatched at the Morton hatchery.

Fishing Places Nearby Pointed Out

NORTHWESTERN PACIFIC ACQUAINTS SPORTSMEN WITH NORTH COAST COUNTRY

The Northwestern Pacific Railroad has published an interesting pamphlet on fishing throughout the North Coast country. The publication has been well edited and written and undoubtedly contains a number of points for fishermen looking for a place to fish. It contains the following information for the angler, which will likely be of interest:—

The angler, who is so fortunate as to reside in the San Francisco Bay region, may well be envied by his brothers of other American cities. This is not only because of the piscatorial delights that await him in the many streams and waters of the coast country north of San Francisco; but also because of the unusual accessibility to such unrivaled fishing grounds, for in many instances excellent sport may be enjoyed in a single day's outing.

Steelhead Trout.

Of all game fish, the incomparable Steelhead undoubtedly holds the greatest charm for the sportsman; and of all steelhead fishing grounds the Eel River is unquestionably without a peer—the reason is an obvious one—steelhead, averaging from six to fifteen pounds and many weighing as high as twenty-five pounds, are taken in these waters every season—and with the fly. These, the gamest of all the finny tribe, arrive from the ocean, in finest fettle, each year during July, August, September and October, and congregate in large numbers in the expansive pools of the lower courses of the river, while awaiting the winter rains which enable them to continue their journey to the spawning grounds at the headwaters of the smaller streams. During the same period smaller steelhead, always referred to as "half-pounders" on the Eel, find their way in from the ocean along with the larger fish; they are almost uniform in size, averaging a little over a half pound in weight and are most in evidence in August, at which time the pools seem literally full of them.

The height of the season is usually in the latter part of September, but at almost any time during the summer and into the late autumn the favorite pools in the vicinity of Fernbridge, Fortuna and Alton are found dotted with the boats of enthusiasts who come from near and far to enjoy this unexcelled sport.

A private club is located on Greig's Pool near Fernbridge station, but no portion of the river is preserved, and there is ample room for all.

The conditions found here may well be likened to those prevalent with "lake fishing," for there is no strong current to be hampered with; and once hooked the fight is all fish. The "sunk fly" is invariably employed for the "big fellows," it being allowed to sink rather deep, while the "half pounders" are hooked close to the surface. A word of advice to the uninitiated—Do not strike a steelhead too soon after the "swirl," but allow him five full seconds at least at least to take the fly in his mouth, and once hooked get to shore as soon as possible, for he is more than apt to display an uncanny delight in getting under the boat and snagging the line on the rugger, keel, or anything else that might offer a lending hand, if played in midstream; and—Do not waste a fraction of a second in striking a "half pounder" for he must be hooked as he flashes or not hooked at all. The steelhead usually fights for twenty minutes or more before being subdued while the "half pounder" puts up the gamest fight of any fish of his size; both jump high out of water many times, the fight is fast and furious, and there is action aplenty until safely landed.

The proper tackle for this fishing consists of a fly rod weighing from seven to nine ounces, single action fly reel, at least one hundred yards of line, six-foot single-gut leaders and Nos. 8 to 12 flies of Eel River pattern. The "Carson" is probably the most effective for the steelhead, while the "Coachman," "Goxernor" and "Soule" are great killers for the "half pounders."

There are many, however, who prefer to troll with the spoon, which is a very effective manner of taking these game fish, and especially so early in the morning when the surface of the water is still and mirror-like. For this method Nos. 3 or 4 spoon-hooks are used, rigged with a light lead so as to keep the lure six or seven feet below the surface. It is very important to keep the reel clear at all times, for when a steelhead strikes something has to give, and in the past more than one rod resting peacefully has disappeared over the end of a boat, due to a clogged reel

Greig's Fish Tavern, at Fernbridge station on "Greig's Pool," and Weymouth Inn, some two miles from Alton station, close by "Welmouth Pool," and within walking distance of "Van Duzen Pool," are the widest known and most popular resorts in this locality that cater particularly to the angler. They maintain enough boats to supply all their guests, and afford every comfort and convenience that the sportsman may require.

Of the many smaller pools which are also fished, "Fortuna Pool," close by the town of Fortuna, is the most popular.

Big Lagoon, eleven miles north of Trinidad, which can easily be reached via auto-stage service, also affords this same type of fishing, only that the season is somewhat earlier, the best time being May and June. As compared with the Eel River fishing, it is noticeable that the seeelhead is more in evidence than the "half pounder." Boats will be found right on the lagoon and a typical hunting and fishing resort built upon its shores invites the sportsman.

The Russian River in the vicinity of Duncan Mills is famous for the big steelhead which are taken there with hook and line in midwinter, for the runs that come in from the ocean at that time are always composed of large fish, averaging fifteen to twenty-five pounds apiece.

The season is very short, lasting only during the latter part of December, and into January, but while the fish are in, a large representation of San Francisco anglers is to be found upon the river at all times, rain or shine. There are many sunshiny days to be enjoyed at this season of the year, but it is well to have your slicker and boots along, for showers are not allowed to interfere with the sport. Fresh steelhead roe is used as bait by the majority, although quite a number of fish are taken with No. 3 spoons. A light casting rod, a double multiplying reel and one hundred yards of steelhead line are the tackle requirements. Boats can be procured without any difficulty on the river, and very comfortable accommodations are to be found close by at the Orchard Hotel, which is a typical sportsman's resort. Duncan Mills is only four hours from San Francisco and week-end trips ca neasily be made, but if one is not pressed for time, the better way is to spend several days, for the fishing is worthy of any sportsman.

Salmon Fishing.

During the months of September and October and even into November there is great salmon fishing in the Mad River near Arcata, and in the Eel River near its mouth. Trolling with rod and reel is the mode for taking these big fish that weigh as high as fifty pounds each. Considerable of this exciting sport may also be enjoyed at Trinidad and Humboldt bays when the migration is on at those places.

Trout Streams.

Trout are native in all the streams in Mendocino, Trinity and Humboldt counties, while Sonoma and Marin, also, contain a number of streams in which excellent fishing is had during the early part of the season. The recently constructed portion of the Northwestern Pacific north from Willits, parallel the Eel River for more than one hundred miles through a country that is more or less mountainous. The entire region is traversed by innumerable streams of the purest water, and it would be very hard to state which of them affords the best fishing. Besides the Eel River and it many forks and feeders, there are the Mad River, Redwood Creek, Mattole River and Bear River, with their many tributaries. The streams of these northern counties have never been fished to any considerable extent, but such of them as have been heard from are reported as yielding splendid baskets of highly colored trout, ranging up to a foot in length; there are numerous stretches where Rainbows weighing as high as three pounds await the angler and his flies. Mad River and the North Fork of the Eel, both some little distance from Fort Seward, stand foremost, while other streams worthy of mention are Outlet and Longvalley creeks, at Longvale, Berger creek, near Dos Rios, Blue Rock and Shell Rock creeks, Spyrock, Kekawaka creek at Kekawaka station, Dobbins, Fort Seward and Connelly creeks, in the vicinity of Fort Seward, Bull creek, near Dyerville, Larabee creek, near Bryan, and Redwood creek, near Orick, north of Eureka.

The conditions throughout the region are so ideal for trout that the State is now completing a large fish hatchery on Fort Seward creek where steelhead and quinnat salmon will be propagated by the hundred thousands to stock the streams of the North Coast counties.

There are numerous trout streams in southern Mendocino, Sonoma and Marin counties within easy access of San Francisco, that are stocked each year. Robertson Creek, near El Roble; Pieta Creek, in the vicinity of Hopland; Little Sulphur Creek and the headwaters of the Rancheria and Garcia creeks, which may be reached from Cloverdale; the headwaters of the Gualala River, but ten miles north of Cazadero; the numerous trout streams in the vicinity of Duncan Mills, including Austin and Kidd creeks; Mark West Creek, reached from Santa Rosa, and the famous Paper Mill and Sonoma creeks are always bound to attract the attention of the angler.

Striped Bass.

There is a large following who make weekly excursions for striped bass fishing to the various sloughs, estuaries and points about San Francisco bay, which are now becoming famous for this excellent sport; and of all these fishing grounds, San Antonio Slough, near Petaluma, and the sloughs in the vicinity of Wingo, yield the largest as well as the greatest number of these grand fish that so justly deserve their reputation for gameness as well as food. They travel in large schools between the ocean and their feeding grounds in these more shallow waters, and may be taken with hook and line at any time throughout the year, although the best fishing is to be enjoyed during the months of August, September, October, November and December, especially for the larger fish. Striped bass attain great size, the record for San Antonio Slough being a sixty-two pounder,, and it is not unusual to land them weighing from thirty to forty pounds apiece. They fight very doggedly and are worthy of any sportsman's attention.

The tackle usually consists of eight- or nine-foot rods, weighing in the neighborhood of twelve ounces, and double multiplying reels with from two hundred and fifty to three hundred yards of No. 12 cuttyhunk line, for the "striped bass enthusiasts" are great sticklers for light tackle. The "bull head," "Monterey sardine" and clams are used as bait, while the spoon is very effective at times when the water is unusually clear. At San Antonio one must have his own boat; but at Wingo boats can be rented for $1.00 per day, although many fish regularly in this latter locality from the banks of the various sloughs.

These points are but two hours' ride from San Francisco, which places this fishing within easy reach of all, as the train schedules are so arranged that one may leave San Francisco in the morning, enjoy a full day's fishing and return in the evening.

Striped bass fishing is also coming into prominence on the stretches of the Russian River just below Duncan Mills where some splendid specimens have been taken of late. The surroundings here are ideal, and should prove very inviting to all who love this sport.

Black Bass.

Clear Lake, the largest fresh water lake in California, surrounded by many delightful resorts, amidst wonderful scenic grandeur, offers excellent black bass fishing from June until November. These gamey fish are caught by fly fishing, trolling or still fishing with live minnows, and average about two pounds, although a four-pounder is by no means uncommon.

Regular automobile stage service meets the trains of the Northwestern Pacific at Hopland and conveys the visitor to Lakeport, which is the center for reaching all points on the lake. The scenic wonders of Lake county are widely heralded and a trip to these fishing grounds may be enjoyed for its scenic attractions as well.

Black bass are also caught in the many pools, shady places and eddies of the Russian river, that furnish hiding places for these gamey fish; and particularly in the inviting stretches that are found along the river from Hilton to Guerneville.

ACTIVE IN PROPAGATION OF FISH AND GAME.

Everett, Wash.—In the fall of 1914 the game commission of Snohomish county erected a trout hatchery with a capacity of 1,500,000 eggs. At present we have approximately 700,000 eggs hatching. Five hundred thousand of these are silver trout and 200,000 eastern brook trout. The silver trout eggs are secured from Lake Whatcom, located in Whatcom county, and the eastern brook trout eggs from the government hatchery. Our hatchery is located on a small creek and we expect to take spawn, principally of rainbow trout, to the full capacity of the hatchery this spring.

In addition to the trout hatchery we have constructed a pheasantry at the same place. Although the pheasantry as yet is in its infancy, we hatched, during the summer of 1915, something over 300 Chinese pheasants. A great number of these birds were held as stock for this year and the balance liberated. Our energies will be devoted principally to the raising of the Chinese pheasant, although we have quite a number of silver and golden pheasants and hatched and raised a good many last year. This year we have added to our stock of Chinese pheasants a number of California mountain and California valley quail, of which we expect to raise a goodly number this coming year.

Seven years ago a number of Chinese pheasants were liberated in Snohomish county and the shooting of same was prohibited for a period of sixty days each year, which unfortunately was too long and resulted in a great decrease. This necessitated making an effort to propagate and restock the county, and, with the good results accomplished the last year, I see no reason why we cannot enjoy as good hunting in the future as we have in the past, although it will take some time to replace as many birds as there were when the season first opened.

GEO. W. WHITE, Game Warden.

GAME VIOLATORS CONVICTED.

Attorney Robert D. Duke, counsel for the Fish and Game Commission, dropped casually a remark with much meat in it for sportsmen interested in the commission's conservation work when he said:

"Taking all classes of offenses from rape through murder, arson to robbery, and not to exceed 10 per cent of those arrested pay the penalty. Of fish and game offenders, 75 per cent of those arrested are convicted. Enforcement is a step toward education of the people to the need of game laws and the benefit of obeying them. The percentages indicate the care and judgment used by the men in the field in bringing no trivial or doubtful cases, and only to arrest when certain."

Alien offenders against the fish laws were out of luck last week in the South. Deputy Gyger added a couple more for taking bass out of Escondido Reservoir without angling license, for which they forfeited $25 bail Tuesday, each. The offenders were Japenese, S. Tosci and Y. Aruza, and they had five bass and three sunfish, which were confiscated and donated to the indigent sick of Escondido.

Sportsmen's Row

Robert Price, the young son of W. H. Price, proved himself some fisherman on July Fourth. Accompanied by his dad he went after smelt off Fort Baker and the youngster showed skill and patience with his rod to make Charley Urfer and the other wizards of the rod jealous.

* * * *

Manager Pete Ashcroft is being flooded out at the Alameda grounds. There is some work going on of filling in from the creek and the traps have been visited by much water. Leave it to Pete, however, to get affairs in ship-shape so that the boys will be able to sight the rocks.

* * * *

Mr. C. Cobb, Kalispell, Mont., has but recently returned from a hunting trip of two hundred miles made on snowshoes and with dog team. Mr. Cobb drives a mixed team of Airedales and Hounds on his hunting trips through the Montana snow drifts and is one of the most successful big game hunters in the West. On the last trip Mr. Cobb writes that he saw at least one thousand deer and counted 163 in one day. One day he counted fourteen dead deer, which had been killed by coyotes.

* * * *

H. C. Deck of Plymouth, Ohio, shooting off a tie score of 99 in the 100-target championship of the National Indian Shooting Association tournament at Cedar Point, O., on June 29, won from F. Harlow of Newark. It was the feature event of the day. Among the best scores made by women was a 77 by Mrs. F. A. Johnson of Los Angeles.

* * * *

L. G. May of Spokane, Wash., returned recently from a fishing trip to Williams Lake, where he landed eight bass with an aggregate weight of twenty-four pounds. Volney Shepard and Lloyd Callighan ,of the same city, returned from a three days' fishing trip on the Little Spokane, near Newport, with ninety eastern brook trout averaging one-half pound each. Reports from Clear Lake say that the perch are biting fine. Many of those taken from the lake weigh over the one and one-half pound mark.

* * * *

High water in the Columbia River has put the grounds of the Stevenson Rod and Gun Club under cover and James K., "Our Jim" Simpson, president of the club, has been unable to announce the date for the first annual registered trap-shooting tournament to be staged by the Stevenson club. This is the first time in several years that the traps have been covered by the overflow at this time of the year, and it was impossible for the club members to hold a practice shoot as an attraction to the Fourth of July celebration.

* * * *

L. E. Parker, of Long Beach, Cal., drilled east in time to shoot with the old gang and copped out 100 straight the first thing in the tourney at Ft. Snelling, Minn.

* * * *

Don Morrison, now of Portland, Ore., formerly of St. Paul, was also a welcome visitor for a few minutes on Saturday.

* * * *

Sportsmen-anglers are informed that the trustees of Redondo have passed an ordinance forbidding overhead casting from their wharves as dangerous to bystanders, following the precedent established several years ago at Long Beach. Those fishing at Redondo will be compelled to abide by it. From the beach one still can shy out any old way that gets the lead farthest away from him.

* * * *

Between 7000 and 8000 one-year-old trout have been planted in the McKenzie river under the direction of the fish and game bureau of the Eugene Chamber of Commerce. The fish were from the state hatchery above Poujade and were liberated by Y. D. Hensil at McKenzie Bridge. Mr. Hensill plans to take, within a few days, another shipment of between 15,000 and 20,000 trout to the McKenzie for planting.

* * * *

Mrs. E. F. Brown of Redwood City, owner of the famous Browndale collie kennels, had three puppies on exhibition at the recent Oakland show. The puppies won everything offered the breed in the classes they were entered in. Mrs. Brown plans to enter a string of blue-merle collie pups in the next dog show.

* * * *

Mrs. Ad. Topperwein of San Antonio, Tex., set a wonderful example to the women shooters of our country when she broke 100 straight on a practice day previous to the Southern Handicap, Memphis, Tenn. And she faced quite a difficulty at the last trap when, with but two more to go, the machine suddenly refused to work. Immediately everybody crowded up close and talk was somewhat loud in speculation as to whether or not she would finish the 100 without a miss. Some five minutes, delay was followed, however, by the Texan's shattering the final clays. The interruption did not disturb her in the least.

* * * *

Windy weather up in the high Sierras interfered somewhat with fishing during the past week but the trout are in the streams and the sport is on the improve.

Six members of the Olympic team that went to the International Games in London in 1901, completely vanquished the British shots, and at their own style of shooting, were on the traps at Omaha on the opening day of the Western Handicap, for the first time since they returned from abroad, covered with glory and lots of medals. There were ten members of the Olympic team. The six were Tom Marshall, the Chicago authority; Frank Parmlee, Omaha's veteran; Fred Gilbert, of Spirit Lake, Iowa; William Crosby, the O'Fallon, Ill., professional; Ed. Banks, the popular Hercules Powder man, of Wilmington, Del., and Chan Powers, another eastern scattergun shark, and one of the old coterie that never again, we fear, will see a replica.

* * * *

Mrs. Leonard W. Ely of Palo Alto is mourning the loss of a pedigreed English bulldog, Stanford Girl, which died last week of heart failure. Mrs. Ely recently refused $2,000 for it. Stanford Girl was by the famous English bulldog, Silver Magnet—Wardenette, both prize winners.

CONDITIONS OF CIVILIAN RIFLE CLUB MATCH.

Eligibility: Each civilian rifle club affiliated with the N. R. A. in good standing may enter one team, to consist of ten to twelve members of the club who have been such members for three months preceding the match; ten high scores to count. Restricted to civilian members of said club. Members of the Army, Navy, Marine Corps, National Guard, Naval Militia or other military organizations are not eligible to compete.

Distances and Number of Shots: Each competitor will fire 10 shots each at 300, 500 and 600 yards slow fire and 200 and 300 yards rapid fire. Target A for 300 yards slow fire. Target B for 500 and 600 yards slow fire; Target D for 200 and 300 yards rapid fire. At 200 yards the position will be kneeling from standing, time limit 1½ minutes. At 300 yards the position will be prone from standing, time limit 2 minutes. An additional ½ minute time allowance for each range if Krag model 1898 is used. Two sighting shots are allowed at 300, 500 and 600 yards slow fire. Sand bag may be used at 600 yards; it is not required

Sights: Battle sight for rapid fire and peep or open for slow fire.

Rapid fire will be in accordance with the U. S. Army Small Arms Firing Regulations, provided that if time cannot be regulated at the target it may be taken at the firing point, in which case shooting position will not be assumed before the word of command.

Rifle and Ammunition: The service rifle, model 1898 or 1903, any any ammunition may be used. Reloaded ammunition may be used, provided the bullet is so seated that it can be worked through the magazine.

Prizes: To the team making the highest aggregate score will go the "National Trophy," presented by the War Department, to be held for one year or until the next competition, and ten silver medals for the team members. To members of the second team, the winners of Class B, C, D, etc., the 11th team, the 21st team, the 31st team, 41st team, etc., will be given bronze medals. The standing of clubs will be determined by aggregate score, ties to be determined by N. R. A. rules.

Entrance Fee: $10 per team.

Entries Close: July 10th.

When Shot: On home ranges between July 15 and 31.

Report: Scores to be certified on blanks furnished by N. R. A. not later than July 31 in order that they may be of record on or before August 10th.

A special car loaded with tanks filled with young trout arrived at Hayward Monday morning for planting in streams in Alameda county under the direction of the California Fish and Game Commission. Residents donated their automobiles to convey the fish to the points where they were placed in the water under direction of William Dirks, superintendent of the State Game Farm.

"DON'T" FOR THE DOG OWNER.

Don't keep two dogs when you need only one.

Don't feed sweet stuff to a dog of any breed.

Don't breed to an inferior stud dog. Breed to the greatest winner, other points being equal. Winning doesn't make him any better as a sire, but it gives value to the offspring and status to your kennel if you keep it up.

Don't be afraid to destroy inferior puppies. If you raise but three to a litter they will do better.

Don't keep a dog for which you must apologize. Remember that one first-rate specimen is worth fifty third-rate ones.

Don't let yourself brag about a cheap dog. You'll get to believing your own tales, and the knowing will cut you out.

Don't feed a dog just because he seems hungry. It means eczema. Every dog, like every Indian, is a born mendicant ,and will beg pathetically on a full stomach.

Don't issue an order unless you intend to have it obeyed. If you are consistent your dog will find you out.

Don't buy a champion expecting him to still beat everything. Dogs go off badly sometimes. Our English cousins are specially fond of selling us "has beens."

Don't let children fool with a dog, unless you are chiefly bent on giving the kids experience. As far as the dog is concerned, the less he deals with the young idea, the better.

Don't let a dog lie by the fire in winter when he is to be thrust out into the kennel to sleep. Of such is rheumatism.

Don't shoot near a young bird dog, or punish him, until you understand him and he understands you. Don't be surprised if some old country half-breed beats your fancy setter or hound. Experience teaches much; and hustling is sometimes the best training.—Rrom "All Outdoors."

Pfirrmann Wins in Vernon Shoot.—The final block of 200 targets of the 400 target registered trap shoot held at the Vernon Gun Club July Fourth brought to a successful close one of the most business-like and well-run shoots ever staged on the Pacific Coast, with the scoring of marvelous tallies, on both the last 200 birds and for the entire shoot of 400 targets.

Heine Pfirrmann Jr. carted away the huge and magnificent Interstate Association trophy put up for the high score on the 400 targets.

Pfirrmann squelched a total of 394 birds and dropped only 7 out of 500 shot at. He broke 197x200 each day of the tournament. The "Shootin' Dutchman" finished a high run of 216 straight brought from an unfinished high mark on July 3.

J. D. Dierdoff, the shooting railroader, and Walter A. Cornelius, tied for second high, each with 195 out of 200. Andy Flickinger of Vallejo was third high with 194x200.

Ed Mitchell broke high professional with 199x200. Dick Reed, professional from the Remington UMC Company, broke second high pro. with 198x200. Len Hawxhurst of the Peters Company was third high professional with 196x200.

These same three professional cracks were the high guns on the 400 targets, Mitchell with 394 dead, Reed with 393 kills and Hawxhurst with 390x400.

The Interstate Association for the encouragement of trapshooting awarded eight trophies for the eight high marks on the 400 targets. In addition to Pfirrmann's mark and trophy, Andy Flickinger was second with 389x400 and won second choice of the trophies. Frank H. Mellus was third in line with 387x400. Dr. L. M. Packard with 385x400 was fourth and Stanton Bruner with 384x400 was fifth. Sixth in line on high marks and the choice of trophies was Walter Cornelius with 383x400. Ralph M. Arnold was seventh with 383x400 and Harry Ogilvie eighth with 382x400.

The results in the final block of 200 targets of the 400-target registered shoot in 10 events of 20 targets each:—

*Mitchell 199, F. Mellus 193, Pfirrmann 197, Howard 192, *Holohan 188, *Reed 198, Mullen 179, Blanchard 188, Flickinger 194, Ogilvie 190, Council 183, Free 176, Sloan 171, Wilshire 180, Adams 187, Slocum 183, Martin 187, Cornelius 195, 6Knight 186, Packard 181, Manderville 180, *Hawxhurst 195, Mohler 188, Bruner 190, Fish 189, Wickham 172, Mrs. Groat 184, C. E. Groat 190, Haesse 178, *Oliver 173, *Cook 191, *Hoyt 191, Rossbach 184, Evans 188, Bole 190, Mills 193, Arnold 190, C. F. Nichols 185, F. H. Nichols 181, L. R. Mellus 185, Meek 184, Van Nest 155, Sargent 176, Grewell 185, H. Cline 188, Hagerman 182, Dierdoff 195, Forrest 192, Melford 174.

Portland Dog Dies.—Champion Willamette Defender, one of the best known bull terriers on the Pacific Coast, died Sunday night in Portland. Defender, more familiarly known to his many friends as "Nibs," was owned by Mrs. George B. Story, and for many years was a popular winner at the various dog shows. He was bred by Frank E. Watkins, of Portland, and was whelped August 15, 1906. His sire was Champion Edgecote Peer, dam General Custer's Belle, and is without a doubt the last bull terrier containing blood from the two wonderful champions, Woodcote Wonder, for ten years the leading winner in both this country and England, and of Edgecote Peer, a winner at various shows throughout the United States for several seasons.

Washington Field Trial.—The Washington Field Trial Club announces that it has secured one of the finest trial grounds in the whole Northwest, located at Yelm, Wash., and comprising several thousand acres of the finest trial grounds out-of-doors. It also has set the date of its trials to open on September 11, which will give the sportsmen an opportunity to attend the trials and then get home or to such other place as they desire on time to begin the shooting season. Entry fees in the open classes are $5 forfeit and $2.50 starting fee. All purses paid at the close of the trials. No dogs trained on the trial grounds shall be eligible to enter and no entry will be accepted for such dogs. Entries positively close on August 15 and entry blanks for the meet may be had by applying to F. E. King, secretary, Box 63, Tacoma, Wash. The secretary would like to hear from any and all dog fanciers with regard to the trials and will be pleased to furnish them with all the information in his possession regarding the trials or places for training their dogs if they anticipate coming from a distance and desire to work their dogs after arriving. Good training grounds may be had near the city and of the same character of ground over which the trials will be run.

Bones a Good Investment.—A good investment is 100 pounds of bones bought at the market price in town. They sell for a cent or a cent and a half a pound. They can be chopped so that the hens can get hold of the pieces, and they will do the rest. Blood meal could be fed in small quantities to satisfy the chicken appetite.

GOMBAULT'S
CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeny, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is Warranted to give satisfaction. Price $1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

For Greatest Satisfaction Use
DOUBLE SERVICE
Automobile Tires
Guaranteed 7,000 Miles Service
Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer:

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.50	36x4 in.	$17.45	$4.85
30x3½ in.	10.85	3.10	35x4½ in.	21.20	5.00
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

FAMOUS TROUT STREAMS

Steelhead fishing in the Big Lagoon, Humboldt County, is now in full swing. The fish this year average from nine to twelve pounds.

Do not overlook the Eel River Fly Fishing for the Big Steelhead from July until October in the famous Greigs, Fortuna, Van Duzen and Weymouth pools—fresh run fish that weigh from nine to twenty-five pounds—light tackle—excellent resorts close by—only ten hours from San Francisco.

The fishing streams that are found so profusely in the new territory north of Willits embracing Humboldt, Trinity and Mendocino Counties offer the best of coast stream trout fishing. If you want to fish, go where the fish are.

LOW EXCURSION RATES

"Vacation-1916" gives list of hotels and resorts in this section, and our new "hunting and fishing" booklet will soon be ready for distribution. Call at 874 Market Street or write J. J. Geary, G. P. A., Room 808 Phelan Bldg., San Francisco, for copies.

For the half year ending June 30, 1916, a dividend has been declared at the rate of four (4) per cent per annum on all deposits, payable on and after Saturday, July 1, 1916. Dividends not called for are added to the deposit account and earn dividends from July 1, 1916.

GEORGE TOURNY, Manager.

FOR SALE.—A three-year-old thoroughbred colt by Johnny Lyons, out of Reina del Ceila. Registered 78538. For price and particulars address

J. D. PARKER, 42-1st St., Napa, Cal.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you.

MAGNUS FLAWS,
542 S. Dearborn St., Chicago, Ill.

RACE TRACK FOR SALE.

The Ukiah race track, located a little less than a mile from the Court House at Ukiah and bounded by the State Highway on the west, the county road on the south, and the Northwestern Pacific Railroad nearly the entire length on the east side of the track. The property consists of twenty acres. Fifty-nine good box stalls, good grandstand, fencing in good order, and one of the best half mile tracks in the state. An excellent winter track and an ideal place to work horses during that season. Plenty of adjoining drives for jogging horses. Two wells on the premises as well as water from the city water works, with tanks conveniently arranged for sprinkling.

This is the only race track in Mendocino county and the location of the county fairs. Ukiah is the county seat and has a population of about 3000, is in a most fertile valley in which all kinds of fruit, vegetables, hay, grain and hops are grown. Has excellent water; no malaria or mosquitos. It has paved streets, good sewerage, and splendid gas and electric light works. There are many standard and thoroughbred horses in this county and the people are a race loving lot. This property is offered for sale at a less price than adjoining property is held at. For terms and further particulars address

F. W. KELLEY,
Care of Breeder and Sportsman.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house. 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

FIRST ANNUAL FAIR

BAKERSFIELD, CAL.

October 24 to 28, 1916

Entries to Races to Close August 1st, 1916

All Races Limited to Three Heats

PROGRAM

OCTOBER 25th		OCTOBER 26th	
2:20 Pace	$400	Free-For-All Pace	$400
2:15 Trot	400	2:12 Trot	400

OCTOBER 27th

2:13 Pace	$400
2:30 Trot	400

HALF MILE TRACK

TWO RUNNING RACES EACH DAY.

CONDITIONS:

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

.22 CALIBER AUTOMATIC RIFLE

THE DOPE FOR PESTS

It's hard for anything to get away from the Winchester .22 Automatic Rifle, as, owing to its being loaded by the recoil, it can be fired rapidly with accuracy. This makes it exceedingly effective against pests of all kinds. It is a ten-shot repeater, light and well-balanced, strong in construction, and safe and sure in operation. It is at all times under control, as the trigger has to be pulled for each shot. It is readily taken down, and easy to keep clean and in good working order. A rifle that is a great sport maker, fascinating to shoot and sure to get the game or hit the target. It lists at $25.00 and is sold by all dealers for less.

Tuesday, August 1st, 1916

Pacific Breeders Futurity Stakes No. 16—$3,000

—GIVEN BY THE—

Pacific Coast Trotting Horse Breeders Association

For Foals of Mares Bred in 1915 to Trot or Pace at Two and Three Years Old

$1600 For Trotting Foals — $1100 For Pacing Foals

$150 to Nominators of Dams of Winners — $100 to Owners of Stallions

MONEY DIVIDED AS FOLLOWS:

$1000 for Three-Year-Old Trotters.
50 to the Nominator of the Dam on whose Original Entry is named the Winner of the Three-Year-Old Trot.
600 for Two-Year-Old Trotters.
25 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Trot.
50 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

$700 for Three-Year-Old Pacers.
50 to the Nominator of the Dam on whose Original Entry is named the Winner of the Three-Year-Old Pace.
400 for Two-Year-Old Pacers.
25 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Pace.
50 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace when mare was bred.

$50 in Special Prizes was paid to Stallion Owners in February, 1916.

ENTRANCE AND PAYMENTS—$2 to nominate mare on February 1, 1916, when name, color, description of mare and stallion bred to must be given; $5 August 1, 1916; $10 on Yearlings January 1, 1917; $10 on Two-Year-Olds January 1, 1918; $10 on Three-Year-Olds January 1, 1919.

STARTING PAYMENTS—$25 to start in the Two-Year-Old Pace; $35 to start in the Two-Year-Old Trot; $35 to start in the Three-Year-Old Pace; $50 to start in the Three-Year-Old Trot. All starting payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse entered is a Trotter or Pacer.

Colts that start as Two-Year-Olds are not barred from starting again in the Three-Year-Old divisions.

SUBSTITUTIONS.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1917, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment nor will any entry be liable for more than amount paid in or contracted for.

THE DAY following the announcement that the world's champion pacer Dan Patch had died, came the sad news of the death of his owner, Mr. M. W. Savage of Minneapolis. Mr. Savage's death occurred in a Minneapolis hospital after a brief illness, the cause not being stated in the despatches. Mr. Savage was 55 years old and a remarkable business man. He was the proprietor of the International Stock Food Company and becoming interested in light harness horses purchased Dan Patch for $60,000, and after breaking all world's records with him placed him at the head of a breeding farm which was called the International Stock Food Farm, consisting of 700 acres. Mr. Savage also purchased the stallions Geo. Gano 2:02 and Minor Heir 1:58½, and the performances that were made by these three pacers at the fairs drew thousands to see them. Mr. Savage sent a string of young pacers to California during the Exposition but only two or three of them started, Agnes Patch winning a $3,000 purse for three-year-olds and Judith Patch getting second money in a two-year-old race. Mr. Savage attended both the spring and fall meetings at the P.-P. I. E. and made many friends among the California horsemen. His exhibit and stables in the live stock section were visited by crowds daily and it seemed as if half the people who visited wanted to know something about Dan Patch, why he was not brought to California, what his record was, etc. The sudden death of Mr. Savage, the day following the death of his great horse, is a strange and pathetic coincidence, and the memory of both man and horse will live long among horsemen.

STARTING PAYMENTS in the Pacific Breeders' Futurities for two and three-year-olds to race at Santa Rosa this year must be made by Monday, July 31st. There are four races to be decided, one for two-year-old pacers, one for two-year-old trotters, one for three-year-old pacers and one for three-year-old trotters. There is $7250 in all. At the time the last payments were made, March 1st on two-year-olds and April 1st on three-year-olds, there were 62 of the former and 34 of the latter kept eligible to these races. When the starting payments are made on July 31st, the owner must designate whether his colt or filly is a trotter or pacer. Look over the advertisement in this issue of the Breeder and Sportsman and see just what your payment will amount to, and MAKE IT IN TIME.

There is a mare called Vera Hal entered on the Inter-Mountain circuit. She is by Hal B. and should not be confounded with Vera Hal by Expressive Mac., owned by Harold Cohen of San Francisco.

◈◈◈

Dr. Calmes of Berkeley says he has the greatest pacing filly foal in California or anywhere else. She was foaled last April and is by Dazzle Patch 2:09¾, son of Dan Patch 1:55, out of Carmen, the dam of Vera Hal 2:05 and Roan Hal 2:18¼, by Newsboy, second dam Sky Blue by Tom Hal Jr.

◈◈◈

Four hundred dollar purses at Bakersfield. Entries close August 1st. Look over the advertisement in this issue and before closing date decide which races you will enter in. There is a good track at Bakersfield and the fair there this year will be a big one.

◈◈◈

Riverside County Fair will be a hummer this year. The program of races is the most liberal of any of the county fairs as there are more days of racing and bigger purses. Entries close August 1st.

◈◈◈

King Alfonso, a keen advocate of horse racing, is taking advantage of the European war to popularize the sport in Spain. Spanish bull fighting, like American baseball, now the national pastime, will have a rival within a few years if the people take kindly to the king's efforts. He has purchased three English two-year-olds and has entered into competition with the Duke of Toledo, Spain's leading horse fancier. The first official race for the king's golden cup was held at San Sebastian, the historic town, which may eventually become the Spanish Newmarket.

◈◈◈

Black Hawk Stock Ranch of Burlingame will exhibit many of its fine Shire stallions, mares and colts at the Santa Rosa fair next month.

◈◈◈

Among the exhibitors at the Santa Rosa fair next month will be the famous author Jack London, who has applied for stalls for his Shire horses and also made application for room to exhibit his cattle and hogs. His farm at Glen Ellen is getting to be a great show place.

◈◈◈

There will be plenty of racing for running horses at the big Santa Rosa fair which is to open on Monday, August 7th. Purses of $100 each are offered and entries will be overnight. On Monday and Tuesday there will be three running races each day and on the remaining days of the week two running races will be given each day in conjunction with the high-class harness races that are to be given by the Pacific Coast Trotting Horse Breeders' Association. There is no race that thrills like a good contest between running horses and the public will appreciate the fact that the Sonoma, Marin and Mendocino Fair Association has decided to include running events in the race program for fair week. The running program will be announced next week and will be certain to attract many of the best thoroughbreds now in training in California.

◈◈◈

The Codd Hereford sale at Sioux City, Iowa, June 27, made an average of $506 on 67 head. The top was $2500 for Lot 4, Nellie Fairfax and heifer calf by Crusader Fairfax, and bred again to imp. Farmer. The top bull at $1775 was Lot 61, Lord Thomas Fairfax by Perfection Fairfax and dam Armour Quiet. South Dakota, Colorado, Iowa, Nebraska, Minnesota and Indiana buyers took the offering.

◈◈◈

A noteworthy feature of the government's latest specifications for horses is the small size of those wanted for both cavalry and artillery. At the last National Horse Show in New York the army officers who judged military classes selected animals exceeding 16 hands as cavalry mounts, but when it comes to real "business" on the Mexican border 14.2 hands is the specified minimum for cavalry horses, while the specified height for light artillery horses is only 15.1 hands.

DEATH OF THE CHAMPION PACER.

Minneapolis, Minn., July 12, 1916.

Breeder and Sportsman, San Francisco: Dan Patch, the speed king of all harness horse creation, died today of enlargement of the heart. Dan died apparently in the midst of one of his great races as he was peacefully stretched out in his big stall and he died with all four legs pacing true and strong.

M. W. SAVAGE.

The above dispatch announces the death of the world's greatest pacing horse, the fastest harness horse that ever lived. Dan Patch was bred by Dan A. Messer, Oxford, Indiana, and was foaled in 1896, consequently lived twenty years. His sire, Joe Patchen 2:01¼, was himself a great race horse and one of the most popular horses ever seen in harness racing. Dan Patch's dam was Zelica by Wilkesberry and she produced no other standard performer. Wilkesberry was a son of Young Jim. The second dam of Dan Patch was a producing mare by Pacing Abdallah 6038, and third dam by Well's Yellow Jacket, a son of thoroughbred Yellow Jacket.

It was on Saturday, October 7th, 1905, when Dan Patch was nine years old, that he lowered all his previous records by pacing a mile at Lexington in 1:55¼, which is the record allowed him in the Year Book. In this mile he was driven by Harry Hersey and was preceded by a runner driven by Scott Hudson. The quarters were as follows: 0:29½, 0:57½, 1:26¼, 1:55¼. The next winter the rule was adopted which prevented horses being preceded by a runner when racing against time, and although Mr. Savage's great horse paced a mile in 1:55 flat at Hamline, Sept. 8th, 1906, the record was never allowed by the publishers of the Year Book and the horse's record stands at 1:55¼ in that publication.

We have not the record of all Dan Patch's miles at hand, but he beat two minutes time and again and for years was the greatest attraction at the fairs on the other side of the Rocky mountains. Mr. M. W. Savage, whose property the horse died, paid $60,000 for him and it was after Mr. Savage owned him that he made his two-minute miles. As a sire Dan Patch was a great success, and he had to his credit at the end of 1915, no less than 26 standard trotters and 76 standard pacers, while eight of his sons and four of his daughters are producers of standard speed. The fastest of his get is Power Patch 2:03½, and then come Dana Patch 2:05¼, Junior Dan Patch 2:05½ and a number of others. For years Dan Patch has been retired from racing and has been in the stud at the International Stock Farm, owned by Mr. M. W. Savage of Minneapolis. No other harness horse ever possessed the speed he had at the pace and no horse ever finished his miles with such bull dog energy and gameness. He was easily the greatest of light harness horses.

Dan Patch's Record.

1 mile in	1:55	30 miles averaging	1:57½
1 mile in	1:55¼	45 miles averaging	1:58
2 miles in	1:56	Unpaced record	1:58
3 miles in	1:56¼	73 miles averaging	1:59½
14 miles averaging	1:56½	120 miles averaging	2:02¾

Will Race at Hollister July 23d.

The Hollister Driving Club has arranged for three harness and two running races at the Riverside track near Hollister, Sunday afternoon, July 23rd, with entries as follows:

First race, half mile heats, 3 in 5—Jerry Wright's Stanford White, A. H. Fredson Jr.'s Tanglefoot, and George Cagney's Dan Patch.

Second race, half mile heats, 3 in 5—Bert Hatton's Happy, Gordon Campbell's Lady Guy, Geo. E. Shaw's Judge D., and Jim Cannon's Jim D.

Third race, half mile heats, 3 in 5—Ramelli Bros.' Monte, Jack Kydd's Ben Alto, Jerry Wright's Oro Guy, and Wm. McLeod's Benito B.

There will also be two running races, one-quarter and one-half mile dashes.

Everybody is invited to come out and enjoy an afternoon with the speed burners.

San Francisco-California Club Will Race Tomorrow.

A program of four races has been arranged for tomorrow afternoon at the stadium track in Golden Gate Park with the following entries:

First race, pacing, three-quarter mile heats, for the Roberts trophy—L. Benson's Dibble Wilkes, L. A. Gielow's Black Mack and William Hopkins' Sis Hopkins.

Second race, trotting, mile heats, for Club trophy—A. Combatalade's Bird Eye, A. Giavonnetti's Yoncalla, J. A. Wilkins' Merrylina, Geo. Giannini's Ella M. R.

Third race, pacing, mile heats, for Hopsburger Beer trophy—Geo. Giannini's Bradmont, J. M. Kidd's Senator H., W. J. Kenney's W. J. K., William Malough's Emma M., J. J. Ryan's Directress Mac.

Fourth race, pacing, mile heats—Goulart's J. C. Simpson, Dan Keating's Victor Pointer, J. M. Kidd's Pointer Belle, H. Campodonico's King Pointer, J. J. Ryan's Rosy O., G. Conlan's Little Jack.

Officers of the day—Judges, Dan Keating, A. Ottinger, Fred Lauterwasser; timers, J. A. Wilkins, J. M. Kidd and Fred Clotere; starter, J. J. Ryan.

Beeswing, the novice saddle mare that defeated champion Sceptre the first time shown, at Stamford, Conn., two weeks ago, was sold to John McE. Bowman by L. M. Newgass, who is said to have picked her up among the war horses at the Union Stock Yards at Chicago.

Harness Horses and Horsemen

Fast Miles at Santa Rosa Track.

The fastest mile ever paced by a horse in his first public trial was put on record at Santa Rosa last Saturday when Frank L. Barstow's brown gelding All McKinney paced a mile in 2:04, and did it so handily that every horseman present believed he could have knocked a second or more off the time had he been called upon for a supreme effort. No pacer that California has produced in recent years has anything on this son of Nearest McKinney by McKinney and Mrs. Weller by McKinney. He is an open gaited, level headed, clean limbed horse with more speed than he has ever been asked to show, and so much power and endurance that his mile in 2:04 did not distress him a particle and in fact he jogged back to the stand after the heat like a horse that had not been a mile better than 2:40. Every person at the track pronounced him the best pacer seen in California in years. The quarters of this mile were :32, 1:02½, 1:34, 2:04, a mile nicely rated with the last part of it the fastest. All McKinney was not touched with a whip during the entire mile and not "lifted" or "hiked" as so many horses have to be when making a time performance. He paced on his courage all the way and was pacing as though he liked it at the end of the mile. He is a two-minute pacer with any sort of luck beyond all question, and though he has never been tried at racing, he looks and acts like a race horse. He has an intelligent head of fair size without any meat on it. His neck is long and lean ,his shoulders clean and powerful, he has a good middle and hips, and his legs and feet are about perfect. Each of his four shoes weighs six ounces and they are plain shoes and are evenly worn. He wears no hopples, his only boots being a light pair of heel boots which he never touches. There is no rigging of any kind worn by All McKinney but an ordinary track harness and he is only checked moderately high. He is fearless of everything on the road or track and could be driven by a child. He is now five years old. As a three-year-old he was used some as a buggy horse by a lady who would hitch him to a post on San Jose's busiest streets and let him stand for an hour at a time, as he was even then perfectly gentle. He was put in training last winter and always driven to a cart until a few weeks ago. The second time he ever pulled a bike he paced a mile in 2:05, the first half in 1:03 and the last quarter in 29 seconds, and the fastest mile he had ever been driven previous to this was one in 2:11¾. All McKinney was sired by Nearest McKinney 2:13¼ (son of McKinney and Maud Jay C. by Nearest 2:22). Nearest was by Nutwood Wilkes and sired High Fly 2:04¼, etc. The dam of All McKinney is Mrs. Weller by McKinney 2:11¼, second dam Much Better 2:07¼, dam of One Better 2:24¼, by Chas Derby 2:20; third dam None Better 2:23¾, dam of 2 in the list, by Allandorf 2:19½ (son of Onward and Alma Mater and sire of 34 in the list); fourth dam Bashaw Belle(dam of 3 ,including Strong Boy 2:12, and grandam of Manager 2:06¾), by Green's Bashaw 50; fifth dam Gray Mary by St. Louis; sixth dam by Clay Trustee; seventh dam thoroughbred by Tom Watson, son of imported Leviathan. There is no flaw in his breeding as his lines are producing lines as far back as the fifth generation. All McKinney has been shipped east and may be raced a few times, but the owner desires to sell him and the trip has been made for that purpose. The horse was shipped to Omaha in the car with Chas. A. Spencer's horses and the writer will be pleased to read what the eastern horsemen will say of him when they have seen him at work.

All McKinney was not the only horse to pace a fast mile at Santa Rosa last Saturday. The Sonoma Driving Club had arranged a "breeder's meeting" to give horsemen an opportunity to mark their horses prior to the opening of the racing season. When the National Trotting Association amended its rules so as to allow horses to be given time records which would not bar them from class races, a long step in advance was made and it has been a real benefit to the breeding interests. There were fourteen horses carded to start against time at Santa Rosa on Saturday and 12 of them defeated the scythe bearer and reduced their old or were given new records.

The next fastest mile of the day to All McKinney's mile in 2:04 was paced by the Guy Dillon mare Emeline Dillon, owned by A. F. Connors and in the stable of William Stuart, the Humboldt county horseman and trainer. Emeline Dillon's former record was 2:12¾ ,and she knocked five and a half seconds off it by pacing a nice mile in 2:07¼. Stuart then drove the pacer The Potreress, a daughter of Potrero Boy 2:06¼, to a record of 2:09, and gave Bonnie Quinn by Bonnie Steinway a record of 2:12 pacing. Mr. Stuart has taken these three pacers to the Inter-Mountain circuit to race and they are leaving Santa Rosa in the best of condition. As will be seen by the entry lists of La Grande, Baker and Ontario, the three meetings on that circuit whose purses are already closed, Stuart will have to race his horses in big fields and will meet some fast horses. If he returns home a winner it will be all the more to his credit.

Sam Norris drove Tobe Mitchell's The Potrero, a full brother to Potrero Boy 2:06¼ and Airlie Demonio 2:05½, to a pacing record of 2:14½.

Frank McGregor reduced the record of his trotting mare Jessie Dillon by Guy Dillon from 2:21¼ to 2:17.

Nick Haabersland brought out his big pacer Memento by Alcona Wilkes and marked him in 2:16, and the horse looks as if he will go faster later on.

The Expense, three-year-old filly by The Proof out of a mare by Nushagak, was brought out for a mile against time. She is a trotter and started two or three times as a two-year-old, getting fourth money in her two futurity engagements last year, but did not win a heat. Charley Spencer took her to the half in 1:07 and she came the second half in almost the same notch, making the mile in 2:13½, a good mile for a three-year-old this early in the season. The Expense is entered in the Pacific Breeders' Futurity to be trotted at the Santa Rosa meeting.

William Cecil was up behind H .G. Angevine's trotting filly Loma Logan by Prince McKinney in an effort to beat 2:30¼. This mare is a nice looker and has a very pleasing gait. She trotted the mile in 2:28 and should be able to knock a good many seconds from that mark before the summer is over.

John Compton has had Mr. L. L. Cannon's handsome old trotter Stamboul Jr. by L. W. Russell at Santa Rosa a few days, and Mr. Cannon had about decided to put the 16-year-old fellow in training and mark him in standard time at the fair in August. Mr. Cannon has been using Stamboul Jr. as a road horse to bring him up to Santa Rosa from Penn Grove on workout days and that is all the training he has had. Compton concluded he would enter him for Saturday as the old stallion was feeling good and drove him a mile in 2:28 very handily, and consequently Mr. Cannon was much pleased. Compton then gave Mr. Cannon's pacing mare Linnie C. by Lynwood W. out of the dam of Stamboul Jr. a record of 2:12, with the last quarter in 31½ seconds. Linnie C. and Pfeister's Lynwood left Santa Rosa this week in the same car with William Stuart's horses, and will be raced on the Inter-Mountain circuit by Compton.

Guy Carlton, driven by the veteran Harry Whiting, was sent a mile to beat his trotting record of 2:30. The trappy gaited son of Guy Dillon trotted the mile in 2:24¾, but Whiting was not satisfied with the time and asked the privilege of giving him a second heat. It was granted him and after the usual 25 minutes interval the little black fellow marched around the track in 2:21¼, much to the satisfaction of his trainer. Guy Carlton should trot in 2:10 if put in actual training.

Frank Turner was almost sick a-bed with a severe cold and asked Charley Spencer to drive his old favorite pacer Dr. William S. Jennings a mile to lower his record. The Doctor rushed away at the start a little too fast and the mile was exactly in the notch of his record of 2:11.

Spencer also drove the two-year-old filly Ella O. by Moko Hall, dam by Kinney Lou, a mile to beat 2:30¼. Ella O. is a nice moving trotter, and has only had a little over two months' work. A week previous she had trotted a mile in 2:34 and back in 2:31¼, so it was thought she would trot a mile in standard time and have a record should anything happen to prevent her training in the future. She made a break just after getting the word and but for that would have beaten 2:30. Her mile was in 2:35 and was very creditable for a two-year-old trotter that has had scarcely any training to speak of. Ella O. is a good looking filly and will be heard from later on.

Sam Norris had the track in good order and while there was quite a breeze blowing during the afternoon it was not sufficient to retard the speed of the horses to any extent. We doubt if a more successful breeders' meeting has ever been held in California.

Peter the Great and Gen. Watts Blood.

James Thompson, recognized among California horsemen as one of the most careful trainers and best conditioners that ever got a pacer or trotter ready for the races, has the racing string of L. H. Todhunter, the Sacramento horse breeder, at the Santa Rosa track. Of course the horse that California horsemen want to see first is Peter McKlyo (3) 2:12¼, son of Peter the Great that Mr. Thompson purchased for Mr. Todhunter while on an eastern trip a few years ago. After bringing Peter to Sacramento Thompson started him as a three-year-old for a standard record. In his first attempt to beat 2:30 Peter McKlyo trotted a nice mile in 2:15, and two days later he started to lower that mark and made the mile in 2:12½. He is a royally bred stallion, his dam being a daughter of the great Jay McGregor 2:07¼. Peter McKlyo has worked several miles below 2:15 this year, one in 2:13½, and will probably be started at the State Fair in one or two races. There are now two two-year-olds by him in the Thompson string that are worthy of mention. One is McKlyo Boy, a colt out of Sweet Bow 2:17½ by Bon Voyage. This colt has trotted a mile in 2:20 and, as he is named in the Breeders' Futurity for two-year-olds at the Santa Rosa meeting and at the State Fair the public will have an opportunity to see what sort of a trotter he is.

The two-year-old filly by Peter McKlyo is also staked. She has been a mile in 2:31½ at the trot and gives every promise of being a credit to her sire.

Sweet Bow, whose record of 2:17½ was made when she won the two-year-old trotting division of the Breeders' Futurity at Salinas in 1909, has been put in training again and looks well after a few years in the broodmare ranks. She trotted a mile at Santa Rosa this month in 2:13¼ and moves like a trotter that will shade 2:10 before summer is over.

Probably the pride of Thompson's heart, though he did not say so, is a two-year-old colt that he himself bred that is by Gen. Watts 2:06¾, and that horsemen who have seen this son of Axworthy say is a Watts all over in shape, color and markings. A mile in 2:27¼, with a quarter in 33 seconds, is this fellow's best work to date. He is one of the best bred two-year-olds living. His dam was by Bon Voyage 2:08, his second dam Perza by Allie Wilkes, third dam Anglia by Geo. Wilkes, fourth dam by Mambrino Patchen, fifth dam also by Mambrino Patchen, sixth dam by Mambrino Chief, seventh dam by Brown's Bellfounder, and eighth dam by Grey Eagle, thoroughbred. There is no more intensely trotting bred two-year-old in America than this two-year-old and he gives every promise of living up to his pedigree.

Purses for Two-Year-Olds at the State Fair.

The California State Agricultural Society offered two purses of $500 each, to close July 1st, 1916, for two-year-old trotters and pacers to race at the State Fair in September, and they have closed with the following entries:

Two-Year-Old Pace—Purse $500.

The Orphan, b c by Royal McKinney—Lilly Ash by Derby Ash; J. Aker, Stockton.
Alfredo, b c by Copa de Oro, dam by Del Coronado; C. J. Berry, Los Angeles.
Oro Fino, b c by Copa de Oro, dam by McKinney; William G. Durfee, Los Angeles.
Napoleon de Oro, b c by Copa de Oro, dam by McKinney; Wm. Loftus, Whittier.
Tommy Atkins, b g by Tom Smith;—Carrie B. by Alex. Button; I. L. Borden, San Francisco.
Galen Logan, b c by Jim Logan—Palo Maid by Palo King; H. A. Hershey, Woodland.
Nelly McCarty, b f by Vernon McKinney—Zaalam by Searchlight; J. Doran, Pleasanton.
El Paso, b g by True Kinney—Ella J. by Bob Mason; Roy D. Mayes, Dixon.
Marshall Logan, b g by Jim Logan—Leota by Diablo; J. E. Montgomery, Davis.

Two-Year-Old Trot—Purse $500.

Kewpie, b g by Carlokin—The Blonde by Strathway; Alex Wilson, Fontana.
Lily of the Valley, b f by Palo King—by Iran Alto; H. S. Hogoboom, Woodland.
Skyrocket, b g by Albaloma—Hester McKinney by McKinney; I. L. Borden, San Francisco.
McKlyo Boy, b c by Peter McKlyo—Sweet Bow by Bon Voyage; L. H. Todhunter, Sacramento.
Kinsman Lou, b c by Wilbur Lou—Sona by McKinney; A. Grant, Los Angeles.
Rhyolite, b c by F. S. Whitney—Rubell by Del Coronado; Sutherland & McKenzie, Orosi.

First payment of $10 was made on each of the two-year-olds named in the above named events and on Tuesday, August 1st, another payment of $5 is due on each entry.

C. A. Harrison Attends Meeting at Burlington, Wash.

Breeder and Sportsman: The Skagit County Fair Association opened the new race track and fair ground at Burlington, Washington, on July 4th, and if the attendance is a sign of success the fair association should be happy, for the attendance was about twenty-five thousand, and nearly every man present was a farmer or belonged in either Skagit or Snohomish county. They came by train, by boat, by electric car, by Ford perambulators, on horseback and "in chaises," but they were there, and grass lunch parties prevailed with a-plenty to eat and everybody happy.

As to the racing, the first race on the card was a free-for-all pace with three starters, half mile heats, three in five. The seventeen-year-old mare LaConner Maid, by Cehalis, was driven by trainer Evans; Dewey Ann by Pathmark, dam La Conner Maid, was driven by trainer Chas. Chambers; Robert H., a black gelding aged 16 years, sired by Coeur d'Alene, driven by Sam Ball. After a few scores these three pacers got away to a good start. Ball kept Robert H. in front all the way and finished the first heat in 1:08, with Dewey Ann second.

In the second heat Robert H. broke his hopples and finished last with La Conner Maid first in 1:13.

La Conner Maid paced the first quarter of the third heat in 31 seconds and got so far in front that neither her daughter nor Robert H. could reach her and she jogged home in 1:07 with Robert H. second and Dewey Ann last.

The next harness race was a free-for-all trot, and brought out Mr. Ball behind his black stallion Van Winkle by Gambetta Wilkes. Charles Chambers had the mount behind a bay gelding whose name nobody knew, so the writer named him Oregon Jim as it was said he came from Oregon. Trainer Evans came out behind another bay gelding whose name is Culpper, but whose breeding is unknown. After a few scores they got away to a fair start. Oregon Jim had all the foot and got so far in front that it was easy for him to get home in 1:12. In the second heat Ball got Van Winkle away first and won, pulling up, in 1:10, Oregon Jim second. Van Winkle showed his gameness by winning the third heat in 1:11 with Oregon Jim second. Van Winkle was lame on three legs in this race.

This concluded the day's harness racing program,

after which there were five running races that for general effect were hair-raisers.

Then there was foot racing by boys and girls, and men and women, by fat people and lean persons, and all were pulled off in good order and everyone seemed happy.

The writer, after looking over the plant, the crowd, the interest taken, desires to express the opinion that harness racing if properly conducted can and will flourish in any town or city in America. The people love the horses and love the contests, and when any man or set of men says that racing and the holding of fairs are failures and back numbers, I want to go on record as saying that racing can be made financially successful either in a big city or a small town, but it wants live men and good management, with amusements for the boys and girls, and also contests for men, as well as real racing by both harness and running horses. I have taken too much space so I will apologize and quit.

C. A. HARRISON.

Breeders Make $9,000 Colt Stake.

Common among breeders and owners of a century ago, the good old American fashion of pitting horse against horse in matches and sweepstakes appears to be in process of revival on the trotting turf. Three of the tracks composing the Grand Circuit have lately announced a series of sweepstakes for two-year-olds and three-year-olds in which the colts are to race for $30,000 or more, while nine prominent breeders recently posted $1,000 each for a private sweepstake which has about it more of the true sporting character than almost any horse race on record. Six of the nine breeders represented are Eastern horsemen interested in making the Poughkeepsie meeting a fixtur in the big league, and there is a possibility that the contest may take place at the Hudson River Driving Park in the week of August 28-September 2.

By the terms and conditions agreed upon, each subscriber named not more than five two-year-olds of his own rearing on January 1, and has since then contributed $1,000 to the stake, so that the money is now all up, and the race is play or pay for the tidy sum of $9,000. Just when and where the contest shall take place will be decided by vote, with Poughkeepsie and Lexington alone contending for the race.

The nominators are David M. Look, W. B. Dickerman, A. H. Cosden and Andrew W. Smith, all of New York; J. O. Winston of Richmond, Va., and Saugerties, N. Y.; A. B. Coxe, of Philadelphia; Chester W. Lasell, of Whitinsville, Mass.; H. J. Schlesinger, of Milwaukee, and Paul Wilson, of Menomonee, Wis. The first six of these horse fanciers are among the promoters of the Poughkeepsie meeting.

Amateurs Race at Vancouver.

The Vancouver, B. C., Amateur Driving Association held an afternoon of harness racing on Saturday, July 1st, at the Hastings Park track and four races were carded. The judges were A. R. Miller, W. C. Marshall and G. Hardy. Timers, Messrs. Grassie, Lloyd and S. Brown. R. W. Gordon, clerk of the course, and J. A. Fullerton, official starter. The races resulted as follows:

Class C. Trot—Mile Heats:

Blue Bells ..... (J. Jordan)	1	2	2
Chromo ..... (Geo. Bell)	2	3	1
Susie G. ..... (W. H. Mason)	3	1	1

Time—2:39¼, 2:30, 2:38.

Class C. Pace—Mile Heats:

Myrtha Pointer ..... (Geo. Bell)	1	1	1
Lady Patrick ..... (J. McCullough)	2	2	2

Time—2:36½, 2:38½, 2:39½.

Class D. Trot or Pace—Half Mile Heats:

Bonladi ..... (A. Tupper)	1	1	
Johnny Moko ..... (J. A. Nicholson)	4	2	
Mac Seal ..... (T. G. Hodgins)	2	5	
Sweet Nut ..... (Dr. Milloy)	3	3	
Joe Strathway ..... (R. L. Hanford)	6	4	
Maybells ..... (A. McCullough)	5	6	

Time—1:24½, 1:24.

Class B. Pace—Mile Heats:

Prince Malone ..... (Pastime Stables)	1	2	1
Nic Nac ..... (W. B. Russell)	2	1	2
Nellie Wilkes ..... (J. McCullough)	3	3	3

Time—2:22¼, 2:22¼, 2:21¼.

Fresno County is After First Prize.

The Fresno County Chamber of Commerce plans a big exhibit at the State Fair in Sacramento this year and the board of supervisors of that county has allowed $1000 for the installation of the exhibit material.

"We are going after first prize this year," said William Robertson, secretary of the Fresno County Chamber of Commerce.

For the past ten years Fresno County has exhibited at the State Fair and has always captured a prize. In 1912 and 1914, Fresno county was awarded first prize and in 1913 took second prize. In other years this county has been awarded third and fourth prizes.

"We have not definitely decided on our exhibit for this year," said Robertson, "but it will be a general one. We will make a big oil exhibit as well as fruit and will have all of the industries of the county represented.

"The State Fair this year will be held the first of September and one day will be designated as 'Fresno Day.' In August, plans will be started to run an excursion train to Sacramento for 'Fresno Day.' Sacramento residents and business men came to Fresno for Raisin Day and now it is up to us to return the visit. In connection with the excursion train we will also urge all automobile owners to make a run up the San Joaquin Valley to Sacramento."

Large Entry Lists on Inter-Mountain Circuit.

Entries for the first three meetings of the Inter-Mountain Circuit, those at La Grande, Baker and Ontario, Oregon, closed with large entry lists, and every purse was declared closed. The largest list for any one race was 34, which is the number entered in the 2:25 pace at Baker, the purse being $400. The horses named for these three meetings are as follows:

La Grande, Oregon, Sept. 6 to 9.

2:14 Pace, $400—Harold Welcome, Helen Zedo, Silver Slivers, Elizabeth Hal, Armadillo, J. C. B., Parkwood, Linnie C., Jennie Fitzsimmons.

2:17 Trot, $400—Amy McKinney, Eramay K., Song Sparrow, Sis Meridian, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, D. J. Burk, The Corsair, Linwood Mack, Baby Tally, Pfeister's Lynwood, Golden State, Allie Lou, Sea Maid, Anita H.

2:30 Pace, $400—Cecil C., Harry Black, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Tempest, Ed. Lewis, Miss Eileen, Valentine Jr., Bob Miner, Daisy Direct, Daisy D., Wallace Hal, Magnita, Chiquita, Royal Express, Miss Spokane, Potreress, Jim Donnelly, Oro Lou, Bob Fitzsimmons Jr., George Patch, Dolly Patch, Nampa Maid, Ginger, Fern Lad.

2:18 Pace, $400—Nogey, Helen Zedo, Sonoma Maid, Silver Slivers, Jim Stewart, Vera Hal, Toffee, Tillamook Maid, Linnie C., Bonnie Quinn, Sister Norte, Oregon Hal, George Patch, Dolly Patch.

2:10 Pace, $500—Delmas, Harold Welcome, May Davis, Haltamont, Maurice S., Elizabeth Hal, J. C. B., Emmaline Dillon, King Bond, Josie Knight, Van Syckle, Bell W.

2:24 Trot, $400—Amy McKinney, Ben T., Del Hastings, Eramay K., Song Sparrow, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, The Corsair, Linwood Mack, Al McK., Pfeister's Lynwood, Golden State, B & H, The Jester, Sea Maid, Anita H.

2:25 Pace, $400—Cecil C., Harry Black, Nogey, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Sonoma Maid, Montpelier, Ed. Lewis, Miss Eileen, Bob Miner, Daisy Direct, Valentine Junior, Daisy D., Wallace Hal, Magnita, Chiquita, Royal Express, Miss Spokane, Oro Lou, Bob Fitzsimmons Jr., Hi Hoo, Jim Donnelly, Nampa Maid, Ginger, Fern Lad.

2:18 Pace, $400—Nogey, Helen Zedo, George Patch, Dolley Patch, Sonoma Maid, Silver Slivers, Jim Stewart, Vera Hal, Tillamook Maid, Oregon Hal, Linnie C., Bonnie Quinn, Sister Norte, Lady Goo Goo.

2:10 Pace, $500—Delmas, Harold Welcome, May Davis, Haltamont, Maurice S., Toffee, Elizabeth Hal, J. C. B., Josie Knight, Van Sickle, Emmaline Dillon, Bell W., King Bond.

2:24 Trot, $400—Amy McKinney, Ben T., Del Hastings, The Jester, Eramay K., Song Sparrow, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, The Corsair, Linwood Mack, Al McK., Pfeister's Lynwood, Golden State, B & H, Sea Maid, Anita H.

2:25 Pace, $400—Cecil C., Harry Black, Nogey, Tex O., Miss Electrite, Teddy McGregor, The Boodler, Payette Girl, Sonoma Maid, Montpelier, Ed. Lewis, Miss Eileen, Bob Miner, Daisy Direct, Valentine Junior, Vera Hal, Daisy D., Wallace Hal, Magnita, Chiquita, Tillamook Maid, Royal Express, Mattie McK., Oro Lou, Bob Fitzsimmons, Jr., Sunny Jim, Linnie C., Potreress, Jim Donnelly, Nampa Maid, Ginger, King Hal, Billy Patch, Fern Lad.

2:14 Trot, $500—Amy McKinney, Sis Meridian, Mountain Boy, D. J. Burk, The Corsair, Dr. Wayo, Pfeister's Lynwood.

Ontario, Oregon, Sept. 19 to 21.

2:14 Pace, $400—Harold Welcome, Helen Zedo, Silver Slivers, General Hertus, Elizabeth Hal, Armadillo, J. C. B., Linnie C., Jennie Fitzsimmons.

2:17 Trot, $400—Amy McKinney, Eramay K., Song Sparrow, Sis Meridian, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, D. J. Burk, The Corsair, Linwood Mack, Baby Tally, Pfeister's Lynwood, Allie Lou, Golden State, Sea Maid, Anita H.

2:30 Pace, $400—Cecil C., Harry Black, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Ed. Lewis, Miss Eileen, Valentine, Jr., Bob Miner, George Patch, Dolly Patch, Rosemary, Daisy Direct, Daisy D., Wallace Hal, Magnita, Chiquita, Mattie McK., Potreress, Bob Fitzsimmons, Jr., Oro Lou, Jim Donnelly, Nampa Maid, Ginger, Hazel Aubry, Fern Lad.

2:18 Pace, $400—Nogey, Helen Zedo, Silver Slivers, George Patch, Dolly Patch, Jim Stewart, Vera Hal, Tillamook Maid, Bonnie Quinn, Oregon Hal, Sister Norte, Lady Goo Goo.

2:10 Pace, $500—Delmas, May Davis, Haltamont, Maurice S., eneral Hertus, Elizabeth Hal, J. C. B., Emmaline Dillon, Josie Knight, Van Sickle, King Bond, Bell W.

2:24 Trot, $400—Amy McKinney, Ben T., Del Hastings, Eramay K., Song Sparrow, Lady Garland, Mountain Boy, The Jester, Joan d'Arc, Marie Fitzsimmons, Burt Wood, Bonniola, The Corsair, Al McK., Pfeister's Lynwood, Golden State, B & H, Linwood Mack, Sea Maid, Anita H.

2:25 Pace, $400—Cecil C., Harry Black, Nogey, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Montpelier, Ed. Lewis, Miss Eileen, Valentine Jr., Bob Miner, The Boodler, Daisy Direct, Vera Hal, Daisy D., Wallace Hal, Magnita, Chiquita, Tillamook Maid, Miss Spokane, Linnie C., Bob Fitzsimmons Jr., Potreress, Oro Lou, Jim Donnelly, King Hal, Billy Patch, Nampa Maid, Ginger, Fern Lad.

2:14 Trot, $500—Amy McKinney, Sis Meridian, Mountain Boy, D. J. Burk, The Corsair, Dr. Wayo.

Baker, Oregon, Sept. 13 to 16.

2:14 Pace, $400—Harold Welcome, Helen Zedo, Silver Slivers, Toffee, Elizabeth Hal, Armadilla, J. C. B., Parkwood, Jennie Fitzsimmons, Potreress.

2:17 Trot, $400—Amy McKinney, The Jester, Eramay K., Song Sparrow, Sis Meridian, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burnt Wood, Bonniola, D. J. Burk, The Corsair, Linwood Mack, Baby Tally, Allie Lou, Pfeister's Lynwood, Golden State, Sea Maid, Anita H.

2:30 Pace, $400—Cecil C., Harry Black, Tex O., Miss Electrite, Teddy McGregor, George Patch, Dolly Patch, Payette Girl, Tempest, Ed. Lewis, Miss Eileen, Bob Miner, Daisy Direct, Valentine Junior, Daisy D., Wallace Hal, Magnita, Chiquita, Royal Express, Miss Spokane, Oro Lou, Bob Fitzsimmons Jr., Hi Hoo, Jim Donnelly, Nampa Maid, Ginger, Fern Lad.

2:18 Pace, $400—Nogey, Helen Zedo, George Patch, Dolley Patch, Sonoma Maid, Silver Slivers, Jim Stewart, Vera Hal, Tillamook Maid, Oregon Hal, Linnie C., Bonnie Quinn, Sister Norte, Lady Goo Goo.

2:10 Pace, $500—Delmas, Harold Welcome, May Davis, Haltamont, Maurice S., Toffee, Elizabeth Hal, J. C. B., Josie Knight, Van Sickle, Emmaline Dillon, Bell W., King Bond.

2:24 Trot, $400—Amy McKinney, Ben T., Del Hastings, The Jester, Eramay K., Song Sparrow, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, The Corsair, Linwood Mack, Al McK., Pfeister's Lynwood, Golden State, B & H, Sea Maid, Anita H.

2:25 Pace, $400—Cecil C., Harry Black, Nogey, Tex O., Miss Electrite, Teddy McGregor, The Boodler, Payette Girl, Sonoma Maid, Montpelier, Ed. Lewis, Miss Eileen, Bob Miner, Daisy Direct, Valentine Junior, Vera Hal, Daisy D., Wallace Hal, Magnita, Chiquita, Tillamook Maid, Royal Express, Mattie McK., Oro Lou, Bob Fitzsimmons, Jr., Sunny Jim, Linnie C., Potreress, Jim Donnelly, Nampa Maid, Ginger, King Hal, Billy Patch, Fern Lad.

2:14 Trot, $500—Amy McKinney, Sis Meridian, Mountain Boy, D. J. Burk, The Corsair, Dr. Wayo, Pfeister's Lynwood.

Ontario, Oregon, Sept. 19 to 21.

2:14 Pace, $400—Harold Welcome, Helen Zedo, Silver Slivers, General Hertus, Elizabeth Hal, Armadillo, J. C. B., Linnie C., Jennie Fitzsimmons.

2:17 Trot, $400—Amy McKinney, Eramay K., Song Sparrow, Sis Meridian, Lady Garland, Mountain Boy, Marie Fitzsimmons, Burt Wood, Bonniola, D. J. Burk, The Corsair, Linwood Mack, Baby Tally, Pfeister's Lynwood, Allie Lou, Golden State, Sea Maid, Anita H.

2:30 Pace, $400—Cecil C., Harry Black, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Ed. Lewis, Miss Eileen, Valentine, Jr., Bob Miner, George Patch, Dolly Patch, Rosemary, Daisy Direct, Daisy D., Wallace Hal, Magnita, Chiquita, Mattie McK., Potreress, Bob Fitzsimmons, Jr., Oro Lou, Jim Donnelly, Nampa Maid, Ginger, Hazel Aubry, Fern Lad.

2:18 Pace, $400—Nogey, Helen Zedo, Silver Slivers, George Patch, Dolly Patch, Jim Stewart, Vera Hal, Tillamook Maid, Bonnie Quinn, Oregon Hal, Sister Norte, Lady Goo Goo.

2:10 Pace, $500—Delmas, May Davis, Haltamont, Maurice S., eneral Hertus, Elizabeth Hal, J. C. B., Emmaline Dillon, Josie Knight, Van Sickle, King Bond, Bell W.

2:24 Trot, $400—Amy McKinney, Ben T., Del Hastings, Eramay K., Song Sparrow, Lady Garland, Mountain Boy, The Jester, Joan d'Arc, Marie Fitzsimmons, Burt Wood, Bonniola, The Corsair, Al McK., Pfeister's Lynwood, Golden State, B & H, Linwood Mack, Sea Maid, Anita H.

2:25 Pace, $400—Cecil C., Harry Black, Nogey, Tex O., Miss Electrite, Teddy McGregor, Payette Girl, Montpelier, Ed. Lewis, Miss Eileen, Valentine Jr., Bob Miner, The Boodler, Daisy Direct, Vera Hal, Daisy D., Wallace Hal, Magnita, Chiquita, Tillamook Maid, Miss Spokane, Linnie C., Bob Fitzsimmons Jr., Potreress, Oro Lou, Jim Donnelly, King Hal, Billy Patch, Nampa Maid, Ginger, Fern Lad.

2:14 Trot, $500—Amy McKinney, Sis Meridian, Mountain Boy, D. J. Burk, The Corsair, Dr. Wayo.

Grand Chimes, the son of Kentucky Chimes that has won each of his five starts this season and is looked upon as one of the real race trotters eligible to start in the slow classes this year, was foaled in 1910. His sire Kentucky Chimes is by Chimes out of a mare by Mambrino King and was bred at Village Farm, East Aurora, New York. The dam of Grand Chimes is M. Pearl Wood by Grand Baron (son of Baron Wilkes and Nathalie by Nutwood); his second dam is Casindra by Black Wilkes, a son of George Wilkes, and his third dam was by Nutwood, fourth dam by Cuyler and fifth dam by Norman 25. Grand Chimes is bred in the old-fashioned Electioneer-Wilkes-Nutwood lines, that were so popular a few years ago.

Two Days' Racing at Myrtle Point, Oregon.

We are indebted to Mr. J. O. Stemmler, secretary of the Coos & Curry County Fair Association, for the following summaries of two days' racing held at Myrtle Point, Oregon, July 3rd and 4th, 1916. Secretary Stemmler says that there were 2800 paid admissions during the two days, but that during the county fair to be held from Sept. 6th to 9th, the fields will be larger and the attendance greater:

2:30 class, mixed:
Comet C. (Burkhalter 1-1-1, Wahke (Yoakum) 2-2-3, John S. (Swisher) 3-3-2. Time—1:13, 1:09, 1:11½.

2:25 class, mixed:
McAdrian (Diggs), 1-2-2, Jean N. (Norton) 2-3-1, Nellie Mac (Wright) 3-1-3. Time—1:11, 1:09½, 1:14.

Free-for-all, mixed:
Maud McAtie (R. Stock) 1-1-1, Harry N. (Norton) 2-2-2, Johnnie Green (Nelson) 3-3-3, Mallie B. (Mrs. Watts) 4-4-4. Time—1:07, 1:06½, 1:05.

Running, three-eighths mile—Sir Ashton won, Rogue River second, Red Fly third. Time—:36.

Running, one mile—Gift won, Greenlow second, Veloski third. Time—1:46.

Match Race, one-fourth mile—Dick Braden won, J. Caldwell second. Time—:25.

Free-for-all, mixed:
Maud McAtie (Stock) 1-1-1, Harry N. (Norton) 2-3-2, Johnnie Green (Nelson) 4-2-3, Comet (Burkhalter) 3-4-4. Time—1:04, 1:05½, 1:04 4-5.

Special—Mixed; mile heats:
Jean N. (Norton) 3-2-1, McAdrian (Stock) 1-4-2, Nellie Mac (Wright) 3-1-4, John S. (Swisher) 4-2-3. Time—2:29, 2:23, 2:30.

Running, six furlongs—Chas. Foster won, Rogue River second. Time—1:19.

Special, five furlongs—Crippon won, Una second. Time—:52.

Running, mile and a furlong—Greenlow won, Gift second.

Running—two furlongs—Red Fly won, Braden second. Time—:25.

Fast Work at North Randall.

They were working in racing time at North Randall last Saturday. R. H. Brett 2:03¼ paced a mile in 2:01½ and another back in 2:03¾, pacing the last half of the last mile in 1:01 and the last quarter in 29¼ seconds. Then the pacing mare Anna Bradford 2:00¾ paced two heats in 2:02¾ and 2:03¾, making the last half of the second mile in 59 seconds. The next sensational mile was by the trotter Lee Axworthy that has a breeder's record of 2:03¼. Ben White started to give him a fast mile. He let him jog to the first quarter in 33½ seconds. He was at the half in 1:05, at the three-quarters in 1:35¼ and then trotted the last quarter in 28¾ seconds, making the mile in 2:04. Lee Axworthy was worked alone, and had there been a pacemaker the mile might have been faster. Trusty Nell, the two-year-old filly that has been credited with a disposition that belies her name, had her trotting togs on and worked a mile in 2:16 and then another in 2:13¼. Lon Daniels gave Kid Cupid a mile in 2:09, and Bondalean one in 2:09½ and Will Durfee stepped Virginia Barnette miles in 2:09 and 2:08¾. Rayo de Oro worked in 2:08¼. The horses seem to be all ready for the meeting at North Randall Monday next, which opens both the Grand and the Great Western Circuits.

The Money Was in the Discard.

At Marion, Ohio, June 27th, All Wilkes won the 2:10 pace and Pat Logan dropped dead in the same race. In this connection Guy Rockwell of the Cleveland Plaindealer, tells the following:

All Wilkes was bred by B. O. Shank, who trained for the late W. B. Chisholm. Because All Wilkes had two suspicious legs she was sold for $50. Shortly after that Mr. Chisholm paid $17,500 for Blacklock and later traded him for the pacer Pat Logan. With incidental expenses that entered into the deal, Pat Logan really represented $18,000. He was an unfortunate horse, and barring a race at Chagrin Falls, which he won, and a few contests on the ice, the race at Marion last Tuesday was the first real event in which he had ever started. On that day All Wilkes, the $50 pacer, won the fastest four-heat race of the season and Pat Logan dropped dead.

Something You Will Want.

If your horse has anything wrong with him you are naturally looking for something to get him going sound. Have you tried "Absorbine"? This remedy has been on the market for a good many years and is constantly winning more favor among horsemen.

Mr. J. L. Huye, 552 West James St., Lancaster, Pa., writes under date of April 26, 1913: "I have been using your ABSORBINE for some time. I have taken lots of bunches away on sore legs on horses and mules. I had a mule on my farm, and he had a bunch on his front ankle as large as a hen's egg and they all laughed at me when I told them that I could take it away in four weeks with Young's ABSORBINE. In four weeks the bunch had entirely disappeared and I sold the mule for $300."

Mr. Young will be glad to mail you free pamphlet giving detailed information with regard to ABSORBINE and what it will do for your horse. ABSORBINE is sold by leading druggists at $2.00 per bottle, or sent direct, charges prepaid, upon receipt of price.

W. F. Young, P.D.F., 54 Temple St., Springfield, Mass.

W. E. Carroll of the Utah Agricultural College never said a truer thing than when he stated that "the prices of inferior horses are never far above the cost of production." If farmers and horse breeders would only remember this there would be fewer of them to lament their investments in the horse line. Farmers are prone to patronize a stallion that stands at a low price, even though they know he is an inferior horse. Breeding a mare to a poor stallion is time and money wasted.

Notes and News

White Sox worked a mile in 2:04 for Will Durfee last Saturday, The Lark in 2:06½ and Esperanza in 2:06¾.

◈◈◈

The little town of Kankakee, Illinois, will distribute $8,000 in prizes at the horse show to be held there Sept. 4-7.

◈◈◈

Sutherland & Chadbourne moved from Pleasanton to Santa Rosa this week with their string of five horses.

◈◈◈

Chas. A. Durfee is expected at the Santa Rosa track the latter part of this week with some youngsters entered in the Pacific Breeders' Futurity stakes.

◈◈◈

Including the $14,000 Kentucky Futurity for three-year-old trotters, there will be purses amounting to $64,000 trotted and paced for at Lexington, Kentucky, at the October meeting of the K. T. H. B. A.

◈◈◈

It is not likely that William 1:58½ will be asked to lower his record before late in the fall. The son of Abe J. has been sent back to Mr. Billings' Virginia farm by Doc Tanner.

◈◈◈

It has been decided by the sponsors of the $9000 colt stake mentioned elsewhere in this paper that the stake will be trotted at Lexington during the Kentucky Trotting Horse Breeders' Association.

◈◈◈

If you are interested in destroying ants, chicken lice, roaches, bed bugs, or flies, read the advertisement of Watch-It-Get-'Em Destroyer which appears in the advertising columns. It is non-poisonous and odorless and is sold with a guarantee.

◈◈◈

Starting payments must be made on or before Monday, July 31st, on the colt or filly you expect to start in either of the four divisions of the Pacific Breeders' Futurity at Santa Rosa this year. This is a good item to paste in your hat.

◈◈◈

Fred Jamison, the Washington, Pa., trainer and driver, set the season's record for winning when, at the Lake Erie meeting on Rockport track June 23d, he won three of the four races on the card and annexed second money in the fourth.

◈◈◈

Thos. W. Murphy has 26 horses in his stable now at North Randall, and it is said to be the most notable collection of trotters and pacers ever gathered for a campaign on the Grand Circuit. Of the 26 there is only one, Helen Worthy, that has no mark.

◈◈◈

William Boyd, who was at one time the horseshoer for the late Monroe Salisbury, is now located at North Yakima, Washington, and is training several head of trotters and pacers. He has Baby Light by River Light, a son of Searchlight, Sandy Hal by Hal B., Hollis Allerton Train by Allerton, and two or three others.

◈◈◈

Besides Peter Mac and several others which railbirds at North Randall have been picking up as the season's best candidates for the rich stake events, they discovered last Friday the Louisville trotter The Eno as the latest. He was known last season as the "Choking Horse," but the report is that his driver, "Kentuck" Floyd, has discovered some changes in the horse's rigging and made him a coming champion.

◈◈◈

A new face on the California circuit this year will be Mr. C. E. Berry, who a few weeks ago came here to take charge of the string of trotters and pacers owned by Mr. I. L. Borden, prominent business man of San Francisco and director of the Pacific Coast Trotting Horse Breeders' Association. Mr. Berry has five horses now at the Santa Rosa track that he is getting ready for the races in which they are entered and will make his first start at the Breeders' meeting which opens at Stnta Rosa Agust 9th. A very promising member of this stable is the bay gelding Alesandro by Barney Barnato, dam Ramona by Prince Robert. This gelding did not do well last year but is giving every promise of being quite a three-year-old trotter this season and Mr. Berry thinks well of him. He is engaged in the Breeders and other three-year-old events for this year. The two-year-old trotter Skyrocket by Albaloma is another youngster that is acting like one that will do to race. He is out of the mare Hester McKinney by McKinney and has been doing nicely so far. The trotter Major By By, by Major Dillon, is taking his work pleasantly and is showing well so far. The pacer Alto Barnato by Barney Barnato, dam La Belle Altamont by Altamont, is entered at the Santa Rosa meeting and is expected to give a good account of himself. He is six years old. Mr. Berry says as he has only been in charge of these horses a few weeks he is not willing to make any predictions, but so far as he has become acquainted with them he is very pleased and thinks they will make a fair showing when started.

Five hundred dollars did not tempt John Ray, of Cleveland, Ohio, the other day, when it was offered him for his Robert Bingen yearling colt.

◈◈◈

Hamilton Busbey, one of the founders of the Turf, Field and Farm fifty years ago, exhibited several trotting horses at the recent Springfield Horse Show, winning second prize in the class for stallions with Black Peter 2:15¼, son of Peter the Great 2:07¼.

◈◈◈

Five Dollars must be paid on each nomination on or before August 1st, 1916, if you would keep those nominations eligible to Pacific Breeders' Futurity No. 16 for foals of mares bred last year, to trot and pace as two and three-year-olds. The official notice will be found elsewhere.

◈◈◈

Silent Brigade 2:09 is the first new 2:10 trotter of the year. He is by Silent Brook, and his dam is Carrietta 2:18 by Directman, therefore Silent Brigade is a half brother to the Peter the Great colt Senator O'Brien that C. A. Harrison sold at the Indianapolis auction last May for $2,000.

◈◈◈

Geers worked Napoleon Direct 2:00¾ two miles in 2:03½ and 2:03¼ at North Randall last week, and the half of one of the miles was covered in less than a minute and one quarter in less than 30 seconds. Geers also worked the trotter Saint Frisco 2:07¼ a mile in 2:05¼ with the last quarter in 30 seconds.

◈◈◈

Col. Cornelius Vanderbilt, now on the border with the New York National Guard, has purchased through an agent in Kentucky two registered saddle horses, Red McDonald Jr. and John T., both prize winners at Kentucky shows. Col. Vanderbilt has ordered them shipped to the frontier and will give them a test as officers' chargers in work on the border.

◈◈◈

Charley Spencer shipped The Proof 2:10¾ and Vallejo King 2:10½ from Santa Rosa to Omaha this week and expects to race them over the Wisconsin and Michigan circuits. Both horses are in good shape and should be able to earn money in their class. Frank L. Barstow shipped the pacer All McKinney in the same car with Spencer's horses.

◈◈◈

The late closing events of the North Pacific Circuit are announced in our issue of this week. Some of the entries (those at Vancouver, B. C.) close today. Others close August 1st, August 6th, August 14th, August 23rd, and September 4th and 11th. There are six good meetings with purses ranging from $200 to $2000. Read over the programs.

◈◈◈

Don't let the want of a boot, a good strong pair of hopples or a check rein prevent you from winning a race this year. See David West, 1018 Fillmore street, San Francisco, or write to him if you can't find time to call, and he will see that your wants are supplied. He has everything in the way of boots, harness or horse medicine that anyone wants. And his prices are right.

◈◈◈

The entries in The Ohio, the $3,000 race for 2:08 class trotters which is up for decision next Wednesday, are Bacelli 2:09¼, Guy Nella 2:07¼, Laramie Lad 2:08¼, Mabel Trask 2:14¾, Peter Mac 2:03½ (breeder's record), Rusticoat 2:08¼, St. Frisco 2:07¼, Spriggan 2:08¼, The Eno 2:08¼, Trampright 2:08¼, Vanco 2:06¼, Virginia Barnette 2:08¼, and Worthy Prince 2:11¼. It is expected there will be seven or eight starters.

◈◈◈

◈◈◈

W. H. Strang, of New York, operates a fleet of motor vans for moving runners and show horses and the New York Herald says he has been over-run with work since the shortage of railroad cars developed. Horsemen find the specially fitted vans more convenient, expeditious and economical, as well as safer, than the express cars, and their use is growing by leaps and bounds. The possibilities of the service were demonstrated recently when Mr. Strang took two of E. B. Cassatt's thoroughbreds from Belmont Park to Philadelphia, where they ran and won and were back at their Long Island quarters all within twenty-four hours.

◈◈◈

North Randall opens both the Grand and the Great Western Circuits on Monday next, with a big program of purses. On the opening day Daniels has Potrero entered in the 2:07 pace. The ex-Californian Del Rey is also in this race by the time allowance rule. On Tuesday Will DeRyder has The Lark entered in the 2:18 trot, Rayo de Oro in the 2:12 pace, and White Sox in the 2:05 pace. Lon Daniels has John Malcolm in the 2:12 pace the same day. Wednesday, Durfee's Esperanza, and Overland Stable's Kid Cupid and San Felipe are in the 2:11 trot, and Durfee's Contention B. and Rayo de Oro in the 2:15 pace. On the same day The Ohio 2:08 trot, $3000, will be decided. Dunne & Lowery's Spriggan, and Durfee's Esperanza are entered and will have to meet such horses as Peter Mac, Rusticoat, St. Frisco and others. Bondalean is named in the 2:09 pace on Wednesday, as is Dicto, the Dunne & Lowery horse. Thursday Contention B. and Rayo de Oro are in the 2:18 pace, and The Lark in the 2:16 trot. Friday, the last day, has Esperanza and Virginia Barnette in the 2:13 trot. All the races are well filled and with good weather there should be great racing at this famous track.

Tommy Murphy is training Russell Boy 2:02¼ in hopples this year.

◈◈◈

William Stuart, the Humboldt county horseman, has shipped his string of pacers from Santa Rosa to Baker City, Oregon, where he will start racing over the Inter-Mountain circuit. He has Emeline Dillon 2:07¼ by Guy Dillon, The Potreress 2:09 by Potrero Boy, and Bonnie Quinn 2:12 by Bonnie Steinway. The records which are here given are breeder's records made at Santa Rosa last Saturday. In the car with Stuart, Johnny Compton will ship the pacer Linnie C. and the trotter Pfeister's Lynwood 2:20½, both of which will be campaigned on the Inter-Mountain circuit. Linnie C. was given a breeder's record of 2:12 last Saturday.

◈◈◈

A number of California stables will be raced through the Inter-Mountain Circuit this year. Among those making entries at La Grande, Baker and Ontario, Oregon, the entry lists for which meetings will be found in this week's issue of the Breeder and Sportsman, are Cannon & Compton of Penn Grove, H. E. Blackwell, Rocklin, Fred Ward, Los Angeles, C. H. Williams, Eureka, William Stuart, Eureka, J. P. McConnell, Santa Rosa, Owen Quinn, Loleta, A. F. Connors, Santa Rosa. J. D. Springer, of Boise, Ida., who trained in this state several different seasons and who purchased, raced and sold Sonoma Girl, will also have a string of horses on the Inter-Mountain Circuit.

◈◈◈

Rusticoat 2:08½ by Axworthy took his record as a three-year-old last year, but won only one race out of five starts. He is a very fast horse this year and will probably start in the Ohio stake at North Randall next week. He worked a mile at that track on Thursday of last week in 2:06, coming the last half in 1:01¼ with the final quarter in just 30 seconds. He then repeated in 2:07, the last half in 1:02½ and the last quarter in 29¾ seconds. Although Geers worked Saint Frisco a mile in 2:05¼ the same day the horsemen said Rusticoat's miles were more impressive as he finished so strong in both heats. The California trotter Spriggan will have to meet these horses in the Ohio stake. Spriggan's best mile to date over the North Randall track was in 2:07¼ but he finished at a two-minute gait.

◈◈◈

Just now the real sensation from the half mile track meetings in the Middle West is the four-year-old filly Allie Watts, that, after winning three straight races, was taken to Toledo, where on Tuesday of last week she won the 2:13 trot in straight heats in 2:11¼, 2:10½ and 2:11¾, the fastest heat trotted this year over a half mile track and the fastest three-heat race of the year. When a four-year-old can trot that fast on a half mile track in early July, she is setting a pace that the aged and tried campaigners will have to go some to equal. Last year Allie Watts started twenty-two times as a three-year-old and always against aged horses. She won brackets in thirteen races. She is by Gen. Watts 2:06¾ and her dam is by Allerton. Her record last year was 2:10¾.

◈◈◈

M. Thompson's little brown trotting gelding Zolock Zar that is entered in the 2:15 and 2:20 class trotting events at the Santa Rosa fair in August,, is causing considerable talk among the horsemen who have seen him taking his work at that track. They say he has a world of speed and that none of the trotters in training there are able to outbrush him when he is given his head. He is by Zolock and his dam is by Alcazar, hence his name. He started twice at Riverside last October, getting third money in the first race, and second money in his other start. Virginia Barnette and Allie Lou beat him in the first race, the time being from 2:14¼ to 2:15¾. In the second race he was 2-3-2, Virginia Barnette again winning, and the time was from 2:13 to 2:16. He has trotted an eighth in 16 seconds since reaching Santa Rosa but has not been let down for any fast miles, though he looks fit for a five heat race. Mr. Thompson states that Zolock Zar was not broken to harness until he was three years old. He is now six.

◈◈◈

Nine of the two-year-old trotters entered for the Vassar Purse of $2,000 at the Poughkeepsie Grand Circuit meeting next month earned records against time at the Hudson River Driving Park. The fastest performance was made by A. H. Cosden's brown filly The Real Lady, by Moko, out of Fruity Worthy 2:25¼, by Axworthy 2:15½. After breaking in each of her first two trials she squared away and trotted a mile in 2:19½, with the last half in 1:08 and the last quarter at a 2:17 gait. Mr. Cosden's brown colt Harvest Lad, by The Harvester 2:01, out of June 2:11½, by Bellini 2:13¼, showed more speed than the filly, trotting his mile in 2:20, with the last half in 1:07½. Another one that will have to be reckoned with on the day of the race is Leo Oettinger's bloodlike filly Ante Guy, by the great young sire Guy Axworthy 2:08, out of Anteas, by Ashland Wilkes 2:17½. She reeled off a mile in 2:21 after trotting the first half in 1:13¼, the last half having been covered in 1:07¾ with seeming ease. W. B. Dickerman's Tacita 2:22½, and Cranmer 2:26¾, by Atlantic Express 2:07¾, and Toniatta 2:23¼, by Axworthy 2:15¼; W. R. Allen's Brielle 2:26¼, by Belgrade 2:24¼, and Burr 2:28½, by Bengara, and Murphy's The Patriot 2:24½, by The Harvester, out of Belvasia 2:06¼, were others that earned records.

Stock Breeders' Page

High Class Stock for Brighton Herd.

Harry L. Murphy, member of the firm of H. L. and E. H. Murphy, registered hog and cattle breeders of Perkins, Sacramento county, is now in the East purchasing more shorthorns to add to the firm's herd. Mr. Murphy attended Saunders & Son's sale of registered shorthorns, recently held at Manilla, Ia., and purchased an eight-months-old bull calf, paying $700 for the animal. Mr. Murphy is expected home about the 22d, bringing with him the addition to the Brighton herd.

These men, with their father, are the pioneer shorthorn breeders of Sacramento valley. It might be well to say here that the sire of the calf which is now on the way from the East to join the Brighton herd is valued at $12,500.

Sacramento county is foremost among the valley counties in the matter of thoroughbred stock and the past two years many fine animals from noted Eastern breeders have been added to many of the registered herds, but no firm has been more active along this line than Murphy Brothers.—Sacramento Union.

A New Way of Killing Gophers.

At Dallas, Ore., a new way of exterminating gophers was tried, and pronounced a success. It consists of using the exhaust from a motor car. A hose is attached to the exhaust pipe of a light car and the apparatus is complete. The other end of the hose is inserted in the mouth of a fresh hole and the hole is then plugged up around the hose with an old rag and a little fine dirt, taking care not to plug up the end of the hose by pushing it into the hole. In a few minutes the gas will begin to come out through other holes a few feet away, and as these holes are plugged up and other ones opened farther away, the gas keeps spreading through the gopher settlement. Then the hose is removed and all holes plugged up and the work is done. The gophers are suffocated right in the holes and never live long enough to come to the surface of the ground, or to even open a hole.

Recently a badly infested patch, which contained nearly three acres, was thoroughly treated at the total expenditure of the price of one gallon of gasoline, used in the engine.

National Dairy Show News.

Perhaps some people have wondered why the National Dairy Show is to be held at Springfield, Mass., October 12-21, this year, instead of being held at Chicago as usual or some other point that is more nearly the center of the dairy industries of the country. The change of location does not mean that the management of the show has passed to other hands, for W. E. Skinner, general manager, says: "The National Dairy Show Association with headquarters at Chicago, will hold its own show this year under its own management, at Springfield, Mass."

It was because of the strong presentations of the Eastern States Agricultural and Industrial Exposition with headquarters at Springfield, that the dairy show management agreed to hold the show there this fall. "Each year hereafter," says Mr. Skinner, "the New England men will go forward with a big exposition of their own under their own management, on their own grounds." The show is to be held there this year to boost agriculture and particularly dairying in the East.

Democrats Have a Horseman for Treasurer.

Wilbur W. Marsh, the new treasurer of the Democratic National Comuittee, is an old-time horseman, who lived in New York twenty years ago, and owned and drove trotters at Fleetwood Park, says the New York Herald. The bay stallion Bayreuth 2:20¼, that won two races a week through the spring circuit in 1895, and the black pacer Lady Lee 2:20, were among his good ones. Always deeply interested in breeding, he bought Sir Walkill, one of the youngest sons of Rysdyk's Hambletonian, and took him to Iowa, Mr. Marsh's native state. When a mere boy Mr. Marsh and his older brother, C. A. Marsh, campaigned Josephus 2:19½, one of the fastest trotters of his day, selling him for a long price after winning some memorable races in the Grand Circuit in 1881.

About ten years ago Mr. Marsh began breeding Guernsey dairy cattle on the principles which had guided him in breeding trotters, by making performance the test of pedigree, and combining the blood of cows that had made the greatest records at producing cream. His progressive and scientific methods quickly made him one of the most successful breeders in the country, several of his cows and heifers having beaten all records and won the championship prizes at the National Dairy Show. When the foot and mouth disease broke out at this show, in Chicago, a few years ago, and the professors were going to kill all the animals that had been exposed to the disease, it was the man who will raise Mr. Wilson's campaign fund that instantly organized the owners, enjoined the professors and saved for future breeding purposes the most valuable herds of dairy cattle in the United States, if not in the world.

Dixon Fair Has Big Boosting Committee.

The Solano County Fair Association, whose first annual fair is to be held at Dixon during the four days of August 16, 17, 18 and 19, has a committee composed of forty-five of the leading citizens of the county already at work boosting for the fair. According to the Dixon Tribune, the president of the Association, Harry McFadyen, has given out the names of the committeemen who are to enter upon the work. They are: Finance, W. R. Madden; Transportation, Stuart Grady; Reception, I. F. Beckley; Entertainment, W. H. Garnett; Decoration, Milton Conklin; Music, Julius L. Weyland; Installation, John L. Killkenny; Illumination, C. E. Sedgwick; Live Stock, James Mills; Produce, Chas. F. Weyer; Queen, J. H. Rice; Races, L. A. Morris; Awards, J. R. Bloom; Concessions, J. L. Mix; Fancy Work, Women's Ispmovement Club; Farm Machinery and Demonstrations, Chas. Kirby; Admissions, W. N. Baker; Publicity, Wm. J. Weyand.

An advisory committee consisting of five members was appointed from the county at large and two from adjoining counties, namely: Senator B. F. Rush, Suisun; Supervisor H. J. Fediman, Vallejo; F. W. Atkinson, editor Benicia Herald, Benicia; Ed. Westgate, Rio Vista; H. C. Blake, Vacaville; Dean Van Norman, University Farm, Davis; Judge Peter J. Shields, Sacramento.

Mr. Harry Perkins, who has handled so successfully the National Orange Show at San Bernardino and the Watsonville Apple Show, both for a period of approximately five years, making them the most noted of their kind in the United States, has been engaged as general manager of the Solano County Fair, and has the enthusiasm, ability and fixed determination to make this in reality the prize county fair of the state.

High Meat Prices Will Stay.

High meat prices probably will continue indefinitely. This is the conclusion of the Department of Agriculture as set forth in an exhaustive report on the situation just made public.

High meat prices prevail throughout the world. One reason is the fact that production has failed to keep pace with the increase in population. Contributory causes given are the increased cost of production and diminished purchasing power of the money unit.

An interesting feature of the situation in the United States is that while the production of meat is on the increase it is not proportionate to the growth of population.

The available supply of meat in this country would be much greater, the report says, were it not for the enormous losses caused by disease and exposure. In the last seventeen years it is estimated that about 1,475,000 cattle have died annually from disease and approximately 1,500,000 from exposure. In 1914 at least 7,000,000 hogs died of cholera.

The report points out that the United States still is not only the greatest meat eating nation, but the greatest producer. Approximately twice as much meat is consumed as in Germany before the war and the total normal consumption of Russia, Great Britain and France is less than that in Germany.

In the fiscal years of 1914 and 1915 the United States imported more fresh chilled and frozen beef and mutton than it exported.

Delbert Reiff Bringing Yearlings From France.

Twenty-one royally bred yearlings, selected from the best breeding establishments of France and intended for sale in this country, left London on the Atlantic Transport Line's steamship Mongolian, July 8th. These young thoroughbreds were selected and are being brought over by Delbert Reiff, one-time trainer for Richard Croker in England. He is a brother of Johnnie and Lester Reiff, the latter now a real estate dealer of Oakland, California, and has had considerable success as a trainer in England, France and Italy. As these yearlings have been carefully selected, and as existing conditions in France are particularly favorable for obtaining that country's best thoroughbred products, this importation should mean much to the horse interests in this country. Reiff will also bring over ten thoroughbreds belonging to T. P. Thorne, who will race them in this country. It is also anticipated Fred Burlew sailed on the same boat, assumably with the yearlings bred in France by Clarence H. Mackay.

Klamath Falls Horse Market is Lively.

Klamath Falls (Ore.), July 7.—Shipments of horses from Klamath county to the buyers have materially increased, and since the establishment of a daily freight service from Klamath Falls there is a shipment practically every day. Owing to their stocky build, the Klamath horses are in demand for artillery service. They are also purchased extensively by the Wells Fargo Express Company for delivery purposes.

J. Frank Adams of Merrill recently purchased 1000 head from the Brown ranch at Wagontire mountain. He has sold these, and many others ,to representatives of the E. Clemens Horst Company, a California concern.

In addition, Tillson & Treaster, Hollis & Platt and other Denver firms are buying extensively here, 11 carloads having been shipped from Klamath this week to the last mentioned firm.

A Profitable Cow to Own.

According to a report in the Breeder's Gazette, Woodcrest Dora deKol, a Holstein-Friesian cow owned by E. LeRoy Pelletier, Detroit, Michigan, at five and a half years of age made a seven-day record of 648.80 pounds of milk and 35.89 pounds of butter, with an average of 4.43 per cent fat. She has three advanced registry daughters, and is said to be the only cow having five calves at 5½ years old. With her fifth calf she made 35.89 pounds of butter in 7 days, and this record was made in May, during hot weather. Since then she has dropped her sixth calf. Woodcrest Dora DeKol is a daughter of Maud DeKol Woodcrest Lad, a son of Homestead Girl DeKol Sarcastic Lad. Her dam was Dora Mink DeKol, and her great-grandam Crystal Mind 2d. She was bought at a Syracuse, N. Y., sale several years ago for $75 and later on was sold for $250. After her five tests were made Mr. Pelletier bought her at auction for $2,805.

The British government buyers are now paying $185 for field and $200 for heavy artillery stock in the Chicago market.

The 18th annual American Royal Live Stock Show will be held at Kansas City, Mo., Oct. 2 to 7. The Hereford, Shorthorn, Aberdeen-Angus and Galloway breeds will be represented. More than $12,000 will be offered in prize money in the breed classes and there will be more prizes than usual in the range classes. There will be three auctions, on Wednesday Galloways, on Thursday Shorthorns and on Friday Herefords.

On June 21st Walker H. Hurdle, Marshall county, Miss., sold on the National Stock Yards, Ill., market a load of 1,106-pound Mississippi-bred steers at $10 per cwt. This is said to be the highest-priced lot of grade beef cattle that has been sold from the south. The steers were out of common Mississippi cows, and sired by purebred Aberdeen-Angus bulls.

Where winter feeding is practiced in the States of Oregon, Washington, California and other localities this side of the Rocky mountains, it is figured by the U. S. Government experts that a yearling steer will cost approximately $30, and a "long" two-year-old steer $45. Where winter feeding does not have to be done a yearling can be raised for from $15 to $19, and a two-year-old at from $20 to $25. In California the cost of producing a lamb for the market is placed at $1.55, which leaves a good margin of profit for lambs at present prices.

Mr. Walter Dupee of Coronado Beach will exhibit more than thirty head of Holsteins at the California State Fair this year.

W. R. Madden, of Dixon, Solano county, has purchased a number of young registered Herefords to be delivered at Dixon from Montana in the fall. The animals will then be about seven or eight months old.

The American Jersey Club is advertising the many good qualities of the Jersey breed by a film that it is showing in the "movies" entitled "Love and the Jersey."

More horses have been counted into the stock yards at Chicago during the first six months of 1916 than were landed there during the same period of 1915. This is true of the regular horse market, in which, says the Live Stock World, "arrivals surpass by twelve or thirteen thousand head the run for the same months of last season, whereas in the section of the yards where horses are fed in transit, the count is even larger, proportionaly speaking. This simply means that the foreign army demand has enabled the country buyers and other dealers to dispose of a lot of stock greater by just so many thousands of head than they would have been able to sell but for the war abroad. The number fed in transit proves that the same is true of the markets farther west.

The main precautions to be observed in feeding alfalfa and other kinds of legume hay to horses are: It should be fed in only limited amounts; for work horses not over 12 to 15 pounds per 1000 pounds of body weight. It must be bright and clean, and as free from dust as possible. Alfalfa intended for feeding horses should not be cut until quite mature. Such hay is lower in protein and higher in fiber than early cut alfalfa, but comes nearer to timothy and is a better horse feed than the latter. Alfalfa hay was found more valuable than timothy hay for hard-working farm horses in trials at the Illinois station, as shown by the fact that less grain was necessary to prevent them from losing weight than when timothy was fed.

The domesticated buffalo is the milk cow for India, Burma, Siam, Indo China and in the Philippine islands. The milk yield of the best type is from 30 to 40 pounds per day, or from four to five gallons. The butter fat averages 3 per cent or better. Under similar care the buffalo in India gives double the quantity of milk of the ordinary cow. One item of great interest to our American dairymen is that the buffalo does not know how to kick and seldom attacks people with her horns.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

ENCOURAGE BIRDS IN CITIES.

Over the signature of President Hugh J. Baldwin, the State Humane Association has sent out a circular calling on members of humane societies and the public generally to feed and encourage the birds of the cities. We are gradually driving the birds from our cities, the circular states, by failure to provide them with sustenance and by lack of interest in their welfare.

Through garbage ordinances and similar necessary measures of sanitation, the birds are driven from the cities and forced to find new localities for food. It is vitally necessary therefore for people living in cities to provide food for the birds.

For a year President Baldwin has been studying the birds and comparing present conditions with those which prevailed twenty years or more ago. Then, the humane societies with the co-operation of the school teachers, were engaged in stopping the vicious custom of robbing birds' nests of eggs and young by persuading children to abandon the practice. The situation today, with respect to the life of the birds, is every bit as important as existed then.

After each meal, requests the circular, separate from the food remaining that which will serve the birds, and place it in a quiet protected place where they can get it. The birds will soon discover that a good Samaritan is residing in your home. In addition, each day put out a little water in a basin for the birds to quench their thirst and in which to take their needed bath.

"Lazarus asked for the crumbs that fell from the rich man's table, and was denied. The birds are now appealing to you for the crumbs from your table. Please grant them their request."

17,000,000 Trout Fry Planted.—The State Fish and Game Commission has started the annual work of restocking the waters of California. With W. H. Shebley of the hatchery department in charge, 17,000,000 trout fry will be liberated in the streams and lakes all over California. Two cars are at present running from the Sisson hatchery in Siskiyou county to distribute the fry.

Egg-collecting operations this season were not quite as extensive as last, when 19,000,000 trout fry were planted. The severe winter and adverse weather conditions hampered the efforts of the fish and game officials. Shebley is confident, however, that the restocking of the streams will prove successful. Observations have shown that a percentage of the fry mature and provide sport for the anglers. A good case is the new species in the Truckee river, where only about 10 per cent of the native trout are taken, the rest being those that were transplanted.

Shebley declares that the fishing season so far has been uniformly good all over the State. In Northern California and the Sierras excellent sport has been provided, with trout in abundance. The fact that there was no rain in April affected the coast streams, where the water was rather low.

A new egg-collection station will be opened on Rae Lake below Mount Whitney, in charge of F. A. Shebley. The Inyo county hatchery ,the largest in the world, will be ready for business in October.

Angling Interest Increasing.—Resumption of hostilities against flies and bait by the fish of mountain lakes and streams as well as the myriad gamy species of the sea has sent up the mercury of angling interest this week at a rapid rate, just as most anglers had rather expected it to slow down. The truth is, the sport has been so good in all branches this last week since the moon turned that it has made very little difference what form of fishing a man's fancy preferred; he was reasonably certain of sport by going to the right spot after it. Sporting license sales, the most accurate guide to hunting and angling interest, instead of slowing down are speeding up all the time. The race these are running is one of the most interesting sidelights upon fish and game work shed this season. It is a record particularly gratifying to sportsmen as indicating that the means of efficient propagation and protection are forthcoming to back up the Fish and Game Commission's vast plans for bettering the hunting and fishing attractions of California as a whole.

Surf Fishermen in Glory.—Surf fishermen are in their glory again, although their corbina and coaker game is eclipsed by the opportunity to catch bigger and better fish in the mountain lakes with more fun in the performance. But so long as the boiling surf offers the fun it now does there will be plenty to play with the heavy-headed, hard-fighting fish that frequent it. Reports of good catches about Oceanside continue to come in.

Mining at Trap Grounds.—Did you ever stop to consider what becomes of all the lead fired from the shells of trapshooters' guns? Of course you know trapshooters have the same hunting grounds week in and week out, that is they don't have to wade through marshes, climb hills, go through forests or otherwise travel the country for their "game." They go out to the club and shoot from Number One trap this week, and perhaps Number Four next week, and yet the targets they tried to kill at Trap Number Four will not be two hundred yards from those they shot at from Trap Number One.

Therefore, the constant shooting over practically the same territory makes lead mines, for whether the aim is good or bad, the lead finally falls to the ground for it is not like gunning for wild game, where a load is sometimes shot into your "target" and it keeps on running.

Farsighted contractors have seen the business possibilities in "getting after" this mining business. At prominent clubs, where many squads shoot every week, it is only a matter of a few years when it is profitable for the mining business.

About three years ago, the ground in front of the traps at the DuPont Gun Club was "mined" and a pile of lead of twenty-three tons was the result. A portion of the grounds of a club at Columbus, Ohio, was put through the "sieve" and twenty-six tons resulted.

A year ago a second trip was made to the DuPont Club at Wilmington, Delaware and results equal to the first attempt were obtained. Other club grounds are undergoing mining treatments.

The method of securing this lead is simple. Plots of ground about thirty feet by five are skinned about one and a half inches deep. This top soil is then put in piles and allowed to stand for two or three days until it dries. It is then put into a large, coarse cylinder seive that is operated by a gasoline engine, which gets rid of the earth containing no lead. Then it is put through a fine sieve and more dirt is removed. If the earth sticks several screenings are necessary until the lead remains. Then the remainder of the shooting territory is handled in the same manner. While the task may be a little slow, it requires only a few laboring men to do the job and the price realized is worth the attempt. On grounds like the DuPont club, it takes about sixty pounds of earth to give off one pound of shot.

Thus clubs that have three or four traps, and where the members shoot frequently, and no attention has ever been paid to the mining business, a chance for some money awaits the originator in his locality.

Fishing in Sierras.—A recent party at Huntington Lake Lodge on Huntington Lake, Fresno county, consisting of F. S. Judah and wife of San Francisco, G. C. Ward and wife, R. C. Starr and wife, D. A. Munger and S. L. Slinger of Los Angeles, F. M. Thebo and wife of Salt Lake and G. G. Watson and H. L. Jone of Fresno, made a trip from the lodge to Big Creek, the largest of the many fine trout streams feeding Huntington lake. Good fishing was enjoyed by the party and some beautiful rainbows weighing one and two pounds were caught on Big Creek near its mouth. Judah writes of conditions as follows:

"There are many fine streams flowing into Huntington lake and among them are the following named creeks: Home Camp, Fir, Billy, Huckleberry, Line, Bear, Deer, Potter, Big, North Fork and Coon. Most of these streams will be in prime condition for fly-fishing after July 15th and by that time trolling in the lake will also be productive of good results and fish as high as five pounds in weight have been taken in this way. The lake is a comparatively new one, having been formed by the damming up of three streams, and its waters are now used to generate power for the extensive system of the Pacific Light and Power Company of Los Angeles."

F. S. Judah and wife also visited Miami Lodge, where some good fishing with fly can now be had on Miami creek, also at Fish Camp.

Particularly good fishing with fly was also enjoyed at Wawona. At this point the south fork of the Merced river flows through the hotel grounds and offers some of the finest fly fishing to be found in California ,the fish ranging to over three pounds in weight and the stream is easy of access. There are several lakes near Wawona which have been stocked with Eastern brook trout and some fine catches have recently been made. The flies used were the gray and brown hackle, also Royal Coachman.

Report on Trout Streams.—Conditions on trout streams along the Northwestern Pacific are reported as follows:

Agent at Healdsburg wires that fishing is good in the vicinity of the Geysers.

Agent Willits advises that fishing on Noyo River is very fair at present.

Agent Spyrock reports plenty of trout in the smaller streams that empty into the Eel in that vicinity, but states that fish are averaging rather small.

Agent Fort Seward advises that trout fishing in main Eel river on the riffle near Ft. Seward is better than it has been for some time. He adds that Mr. La Madhieu of Oakland caught the limit on one riffle.

Excellent fishing is still being enjoyed on the north fork of the Eel near Zenia and the fish being caught are reported as generally above the average in size.

Agent South Fork wires, "Fishing conditions improving here. Good catches being made, fish six to ten inches long—flies and spinners being used."

Rifle Record Broken.—Prof. Edward Long, a member of the Swiss Rifle Club of Portland, Ore., recently broke the state record for the German ring target at 200 yards, scoring a total of 229 points out of a possible 250. The shooting was offhand, ten shots. Professor Long's record breaks the one held by Henry Hoecker, who was one of the witnesses at the Clackamas range. Hoecker's mark was 227. The world's record is 241. A Scheutzen rifle with telespocic sights was used by the record holder, who is a native-born son of Oregon, having lived in that state all his life. He has handled a rifle ever since he was a youngster, and believes in the preparedness idea. He joined the Swiss Rifle Club on account of the opportunity for rifle practice, as the organization shoots at the Clackamas range once a month.

Southern Rod and Reel Club.—At the Monday meeting of the Southern California Rod and Reel Club last week it was decided to celebrate the tenth anniversary of the club's organization by an outing at Mateo on Sunday, September 3.

August 29, 1906, was the date on which the first meeting of the club was held, in the old quarters of the Los Angeles Athletic Club, at that time on Spring between Fifth and Sixth streets, and on that occasion the following gentlemen signed the charter roll:

Edwin L. Hedderly, Tracy E. Shoults, Louis Breer (deceased), W. F. Weber, H. W. Coomber, W. A. Geft, L. W. Slocum, E. L. Mitchell, W. E. Kessler, R. F. B. Shaver, W. Robbins, Eugene Elliott, C. V. Barton, J. F. Jones (deceased), W. F. Stearns, A. M. Moses, Smith Warren, F. E. Knapp (deceased), E. R. Abbott, A. E. McKenzie, H. Slotterbeck, R. Campbell, C. B. Aumock, E. E. Salyer, W. A. Tufts.

Eight women joined the club as associate members and seven men as active members at the last meeting and a substantial increase in the club's treasury was reported.

Medals won in the winter casting tournament to the value of more than $100 were distributed to the winners and many signed the roster of the casting auxiliary which will handle the casting tourney next winter.

Exhibit of Fish.—After months of preparation San Francisco's aquarium in the Hawaiian Building at the exposition has been opened. The task was undertaken by the State Fish and Game Commission and the Exposition Preservation League. The aquarium is being jointly operated and maintained by these two organizations.

Ten tanks are being installed in the building and these are filled with California fresh water fish. It is hoped to make the exhibit one of the city's educational features. Lectures are to be given, telling the story of California's fish.

At present the exhibit includes a species of perch found only in California waters, the cat fish, carp, blue-gilled sun fish, shark-eared bass and the various varieties of trout found in the streams of the State.

An exhibit of salt water fish will soon be added.

Upholding Game Laws in California.—Several cases of recent occurrence indicate the vigilance with which the State and Federal authorities are upholding the laws affording protection to birds and game animals.

In the United States district court two men were fined $50 each by Judge Maurice T. Dooling for bringing into this country plumage of birds of paradise. The men pleaded guilty when they learned they would have to remain in jail three months awaiting trial otherwise. Deputy Game Commissioners arrested three men near Santa Rosa for killing robins and yellow hammers. One man was fined twenty-five dollars for killing a yellow hammer, another fifty dollars for killing a robin and a third eighty-five dollars for killing robins and hunting without a license.

Organization of the Hoquiam Bait and Fly Casting Club was recently effected at Hoquiam, Wash. Julius Augustin was elected president and Frank Thomas secretary-treasurer. A constitution and by-laws, modeled after those of the Tacoma club, will be submitted for adoption at a later meeting. The following are charter members of the new organization: F. G. Foster, S. P. Phillips, J. F. Koch, Chris Olson, Al LeClerc, Richard Behm, Ed Foster, G. C. Stickney, P. L. Tullus, F. P. Thomas, J. Augusin and Gaylord Adams. C. P. Burrows, G .T. Dutcher of Tacoma, and Game Warden L. J. Esses were elected honorary members.

* * * *

As was reported at the time of the capture of Antwerp by the Germans in 1914, practically all of the animals at the Zoo there were destroyed. Now negotiations are proceeding for restocking the gardens after the war by shipments of animals and birds from the New York Zoo, which has a large stock of superfluous exhibits.

Vernon Club Holds Successful Shoot

HEINE PFIRRMANN WINS HONORS AMONG LEADING SCATTER GUN ARTISTS OF THE STATE

One of the most successful trapshooting tournaments of the present season on the Pacific Coast was staged at the Vernon Club on July 2, 3 and 4. Leading shooters from all over California were in attendance to try for the honors and the events were run off in admirable style.

The winner turned up in the California-Nevada champion Heine Pfirrmann. He set up the proud record of breaking 394 of the 400 registered targets. During the tournament he dropped only seven birds out of 500. The "Shootin' Dutchman" finished a high run of 216.

The Interstate Association for the encouragement of trapshooting awarded eight trophies for the eight high marks on the 400 targets. In addition to Pfirrmann's mark and trophy, Andy Flickinger was second with 389x400 and won second choice of the trophies. Frank H. Mellus was third in line with 387x400. Dr. L. M. Packard with 385x400 was fourth and Stanton Bruner with 384x400 was fifth. Sixth in line on high marks and the choice of trophies was Walter Cornelius with 383x400. Ralph M. Arnold was seventh with 383x400 and Harry Ogilvie eighth with 382x400.

Ed Mitchell broke high professional with 199x200. Dick Reed, professional from the Remington UMC Company, broke second high pro. with 198x200. Len Hawxhurst of the Peters Company was third high professional with 195x200.

These same three professional cracks were the high guns on the 400 targets, Mitchell with 394 dead, Reed with 393 kills and Hawxhurst with 390x400.

Heine Pfirrmann bombarded his way to victory in the first contest of 100 targets at optional sweepstakes in the first day, Sunday, July 2. He rolled up a score of 99x100. He missed the last bird in the first event of twenty, but succeeded in breaking the next eighty straight.

R. C. "Dick" Reed, the professional from San Francisco, scored high pro. average, breaking ninety-seven targets out of the century.

Andy Flickinger of Vallejo and L. D. Blanchard, a Los Angeles blackbird buster, tied up in the centennial affair for the Vernon Gun Club handicap trophy, each with 94 dead clays out of 100. Flickinger fired from twenty yards and Blanchard from the same distance. They shot off the tie from their respective handicaps, Blanchard winning with a 23x 25 result, which netted him the trophy and first money.

Once more UMC Reed broke high in the professional ranks, shattering 96 birds from twenty-two yards. "DuPont" Guy Holohan broke second professional with 94 dead from twenty-one yards.

Following these events miss-and-out affairs were put on for both professional and amateur shooters. Guy Holohan was triumphant in the pro. class and Blanchard in the amateurs. Ninety-three shots were fired in the amateur contest, all from twenty-three yards.

The first block of 200 targets of a scheduled registered 400-target contest was held on Monday, July 3rd. Fred B. Mills, of Los Alamitos, made the best score in the event, 199x200. Mills made an unfinished long run of 160.

Heine Pfirrmann, Jr., took away second high amateur with a total of 197 kills. Several long records were made by Pfirrmann. He finished a run from Sunday, scoring 117 without a miss. He made two straight runs of 59 and 99.

Frank Mellus, the local shooting marvel and title holder on the Coast on 400 targets, hung up runs of 121 and 60. Ralph Arnold made a long run of 123.

Mrs. C. E. Groat, the national amateur champion woman shooter, scored 191 out of her 200 birds and made a long run of 64. Her score of 191x200 is the highest mark ever reached by a woman amateur in the world.

High professionals average on the 200 tarhawks was tied for by Dick Reed, Remington UMC professional, L. S. Hawxhurst, Peters professional, and Ed Mitchell, each with a score of 195x200. Charles Knight, a representative from the Winchester Arms Company, scored second high average in the professional class, it being 194x200.

Scores that several of the shooters who competed thought they never could make were made without half trying. The 80 per cent cracks of last week turned out to be 90 per cent shooters of this week. Bob Bole, who has been shooting since the first of the year only, and not very steady at that, scored 183 out of his double century of clays. Harry Cline broke 181, Cornelius of Newport broke 188, Fish 186 and C. E. Groat 186.

The final block of 200 targets of the shoot, on the Fourth, brought to a successful close one of the most business-like and well-run shoots ever staged on the Pacific Coast, with the scoring of marvelous tallies, both on the last 200 birds and for the entire shoot of 400 targets.

J. D. Dierdoff, the shooting railroader, and Walter A. Cornelius, the man who put the Port in Newport, tied for second high, each with 195 out of 200. Andy Flickinger, of Vallejo, was third high with 194x200.

The results:

Stockton Club.—Owing to the high wind that was blowing at their grounds ,the Blue Rock Club members failed to tally any high scores Sunday; even old war horses like Balkwill and Jonjers fell down on their shooting and some of the younger members are making them hustle. Scores:

Balkwill 37x50, Lloyd Woods 32x50, J. R. Ross 40x 50, C. E. Spencer 40x50, C. Hansford 30x50, H. Lonjers 35x50, Y. S. Johnson 32x50, Dr. Priestly 37x50, Ed Walker 33x50, H. C. Lockey 33x50, Pete Dentoni 10x25, George Ells Jr. 17x25, W. C. North 6x25, E. G. Graham 20x25.

Los Angeles Club.—The diamond scarfpin contested for at the Los Angeles Gun Club was tied for between P. O. Long and J. L. Brown, each with 46 birds dead out of the half century thrown. Both fired from 16 yards. They shot off at 25 birds, Long winning with 24x25.

Bob Bole and E. K. Mohler tied for second high score, each with 45x50. Fifteen contenders competed. The shooters also competed on the season trophies with the scoring of some good marks. The results of Sunday follow:—

Diamond Trophy Handicap—G. Holohan, handicap 20—broke 46x50; E. K. Mohler 20—44, O. Evans 20—45, O. Council 18—41, V. A. Rossboch 19—43, C. H. Betz 16—43, T. B. Sloan 16—44, A. L. Rowe 16—42, R. E. Bole 16—45, G. F. Barber 16—40, F. G. Shriner 16—43, H. Hoyt 16—43, P. O. Long 16—46, J. Andrus 16—38, J. L. Brown 16—46, J. W. Griffith 16—42, M. Steel 16—42.

Season Trophies—G. Holohan, 44x50; E. K. Mohler 45, V. A. Rossbach 44, O. Council 44, G. F. Barber 42, C. H. Betz 43, P. O. Long 49, A. L. Rowe 44, W. Jackson 40, H. V. Huber 41, L. Barber 26, J. C. Bendled 31, H. Adams 38, R. E. Bole 40, O. Evans 47, H. Hoyt 43, Miss A. Wheeler 42, A. C. Gould 35, Wm. Kennedy 47, D. G. Kinney 38, H. E. Sargent 42, N .W. Nelson 35, C. L. Saunders 38, C. W. Fish 43, C. E. Groat 43, C. W. Meek 41, R. C. Prettyman 36, J. C. Johnson 16, F. H. Teeple 44, L. Broadbent 34, J. W. Griffith 42, M. Steel 41.

Big Time Club.—J. B. Rickey of Folsom won a leg on the Gerber Causeway cup at the Big Time blue rock shoot Sunday by smashing 49 rocks out of 50. Harry Tharp and Dr. W. W. Goode have also won the cup once. Frank Ruhstaller, Harry Tharp and D. E. Newbert were tied for second with 45 birds each.

Harry Tharp, who was picked to win the cup again Sunday was under a handicap because he suffered from abscesses in his right shoulder. In shooting for the second string of 25 birds he shot left-handed with excellent results.

In the club shoot of 25 birds Rickey also was the high man with 23 hits. Others in this shoot were Tharp and A. E. Pearson 22, W. J. Higgins, Frank Ruhstaller and A. Newbert 20, A. Ruhstaller 19, F. Biewener 18, L. Gorman, Stadtfelt and F. Newman 17, W. L. Young 16, A. McDonald 15, J. Nelson and E. L. Braust 12, and H. F. Stober 9.

Mrs. D. E. Newbert won the women's shoot with eight out of ten. Miss Edna Baker and Mrs. Bulwar each hit seven out of ten. The scores for the Gerber cup follow:—

H. Tharp 45, D. E. Newbert 45, A. E. Pearson 42, J. B. Rickey (of Folsom) 49, W. L. Young 27, A. McDonald 37, L. Gorman 37, W. J. Higgins 41, F. Ruhstaller 45, F. Biewener 33, A. Ruhstaller 30, Cloman 25.

Vernon Club.—Only a handful of shooters turned out at the Vernon Gun Club Sunday to compete for the Wm. H. Hoegee handicap trophy, which is only natural, folliwing close on the heels of the registered tournament held on the Fourth, which was a tremendous success.

Stanton A. Bruner was the winner, breaking 99x100. Bruner squelched 50x50 from 19 yards and 49x50 from 20 yards. Billy Wilshire, famous gunsmith, shot in all events with a 20-gauge gun. The last 50 targets was the back event in the Hoegee competition. The results follow (at 50 targets):

	Hoegee Event.				Back Hoegee Event			
	Hdcp.		Bke.		Hdcp.		Bke.	
Wilshire	16	22	23	45	16	21	22	43

Sportsmen's Row

A number of local gunners are under the impression that the rabbit season opens next month. Well, the long and short of it is the season doesn't open next month, either in this section or any other section of the State. The season on rabbits this year opens on October 15 in all sections.

* * * *

The first crack at the fleet footed deer may be had by Southern California big game hunters next month when the season on deer in the western section, which includes Kern and San Luis Obispo counties, will open. Current reports coming in say that the hills are full of deer.

* * * *

Mrs. Milton Jones of San Francisco, who is spending a few weeks in the Adirondack Mountains, recently captured a six-pound trout while trolling in Upper St. Regis Lake. While lake trout are numerous in this body of water, they are rarely taken, as there is an abundance of natural food, which makes it difficult for the angler to find anything that will tempt their capricious appetites. Trout fishing has not been up to the average in some of the Adirondack streams as a result of the heavy rains this spring, but in the lakes the bottom fishing is excellent.—American Field.

* * * *

Mrs. C. E. Groat finished her long run from July 3rd, scoring 66 straight, and made a second run of 51, at the Vernon tourney. She broke 95x100 in the first century thrown.

* * * *

Long run trophies were awarded to the following by the Hercules Powder Company: W. A. Cornelius, 54 and 84; Ed Mitchell, 200; R. C. Reed, 61, 61 and 129; C. E. Groat, 83; N. W. Wickham, 51; C. P. Manderville, 50; L. S. Hawhurst, 95; F. B. Mills, 83; Mrs. C. E. Groat, 51; Harry Hoyt, 58; C. W. Fish, 74.

* * * *

The DuPont Company gave gold trophies to the following long run makers: Charles Knight, 79; R. M. Arnold, 128; L. C. Forrest, 53; Flickinger, 106 and 60; Packard, 124; Cline, 87; Martin, 51; Dierdoff, 71.

* * * *

Sam Crabtree, the international bench show judge and breeder, was in Chicago last week on his way East, whence he expects to leave for his English home, and during his stay in the Windy City was the guest of honor at the weekly luncheon of the Wednesday Club, which is composed of most of Chicago's leading fanciers, and on which occasion he was elected the first honorary member of the club. Mr. Crabtree took his disbarment as a judge in this country by the A. K. C. philosophically, merely emphasizing the fact that the club was mistaken in its assumption that he is a professional handler.

* * * *

The noted young American-bred Airedale terrier, Earlwood Hickory Limb, the sensational winner at the Western Airedale Terrier Club's specialty show last fall, owned by E. J. Woodward of Chicago, has met an untimely death, having been run over by one of the electric cars running through Highland Park, Ill., last Sunday while out for an exercise run. All fanciers, we are sure, will sympathize with his owner in his great loss.

* * * *

Thomas M. Aldrich, one of the best known Rhode Island veterans of the Civil War, and widely known throughout the country years ago as a dog fancier and trainer and handler of field dogs, died at the Rhode Island Hospital, Providence, R. I., on June 25. He had been in failing health for several months, but an attack of grippe about five weeks ago weakened him so perceptibly that he was removed to the hospital, where his death eventually occurred.

* * * *

Secretary-Treasurer Frank Templeton, of the Portland Gun Club, has sent the Imperial Hotel diamond medal to Miss Gladys Reid. The medal was put up by Phil Metschan in 1915, and it must be won three times before it becomes the permanent property of a contestant. Last year Lou Rayburn captured the trophy and this season Miss Reid was the lucky shot.

The performance of Miss Reid is remarkable when it is taken into consideration that all the crack shots of the Portland club were taking a hand in the events. The medal was up for ten weekly shoots and the one to win the most points was awarded possession of the diamond for one year. Miss Reid is the daughter of Mr. and Mrs. James Reid of Portland, but at present she is visiting her uncle, Les H. Reid, one of the best professionals in the country, at Seattle.

* * * *

Frank C. Riehl, the herald of the Pacific Indians, has sent the program of the annual conclave of the Pacific Indians at Tacoma, Wash., July 18, 19, 20 and 21. The ninth annual gathering and slaughter of clay birds at the Manitou grounds of the Tacoma Gun Club promises to eclipse any of the former events. For further information regarding the tourney, write to E. E. Young, secretary Tacoma Gun Club, Donnelly Hotel, Tacoma; or Frank C. Riehl, Herald-Custodian Pacific Indians, 4018 North Baltimore street, Tacoma, Wash.

From W. S. Pigeon, at Meadow Valley, near the Feather River, comes a letter telling of some excellent sport. Pigeon fished at Big Meadows Dam, on the north fork of the Feather River. Two fish made his limit, one weighing 8¾ pounds and the other 9¼. Live minnows proved the proper bait to attract the attention and tempt the appetites of the giant rainbows. On another day Pigeon took a basket of smaller trout from Meadow Valley Creek. In his creel he placed forty fish from eight to ten inches in length, two a foot long and three others of sixteen-inch length.

* * * *

The 1912 Grand American Handicap brought out 377 entries. In 1913 the entries totaled 501 and jumped to 515 in 1914, and mounted to 884 in 1915. How many will St. Louis have this year?

* * * *

San Francisco trapshooters have been extending a welcome to Joe Rice, former secretary of the Golden Gate Club. For the past couple of years Rice has been located in Arizona and his many friends are glad to see him around. If Joe turns out to the grounds there will be no question when he calls "Pull." They will hear him clear to the Oakland mole.

* * * *

A new record has been established for long distance salmon fly casting by C. J. McCarthy of Chicago, at the Garfield Park casting grounds. His record breaking score was 166 feet. The average for five longest casts was 157 feet. In the re-entry McCarthy made an average of 148.3 feet with 152 feet for the longest cast. In the light tackle distance fly, McCarthy made a new record with 120 feet as the longest cast and an average of 114 feet for five casts.

Striped Bass Club Outing.—The San Francisco Striped Bass Club is going to give its annual outing at Black Point on Sunday, July 16. Members have been cordially invited to attend and participate in the sport. There will be bass fishing in the forenoon, a chip-in feed at noon and a casting tournament in the afternoon. Suitable prizes will be presented to the winners.

The start will be made from the ferry on the 7:15 Northwestern Pacific boat. Transportation will be furnished members at the ferry. The committee in charge of arrangements consists of J. C. Wallace, William Augstein, F. E. Davis, N. Rothman and Al Rispaud.

Seattle Association.—Heavy rain prevented shooters from coming out July 2d, and only a small crowd was at the Harbor Island grounds.

A. J. Gerrard scored his second win on the C. E. McKelvey cup in class C, and C. W. Bandy stepped to the front by shooting 91 per cent, and took permanent possession of the cup in class D by winning it three times. In his last run he made twenty-five straight. The scores, 100 targets:—

J. Considine 86, T. Wilkes 97, C. W. Bandy 91, Van M. Woodaman 77, *A. J. Gerrard 41. (*Gerrard only shot at fifty targets.)

Peters' Pointers.—At Hartford, Conn., June 17, the New England Team Championship was won by the White Plains team, of whom three members, Messrs. Martin, Luckett and Ogden, shot Peters shells. In the Connecticut League Team Championship the victors were the New Haven team, of whom four members, Messrs. Chamberlin, Rice, Smith and Marsh, shot the "P" brand.

Mr. C. E. Robbins won high professional average at Eau Claire, Wis., June 18, 97x100, using Peters shells. This, together with his score on the previous day, made a total of 241x250, giving him high average for the entire shoot.

High General Average at Evansville, Ind., June 19x20, 393 ex 400, was won by Mr. C. A. Young, shooting the "P" brand shells. On the first day Mr. Young broke the last 167 straight, and on the second day the last 107. Mr. T. H. Fox, shooting Peters shells, made the only other high run, 152 straight.

At Jackson, Tenn., June 22, Mr. J. E. Buford, the Peters representative in western Tennessee, won high general average with the exceptionally fine score of 199x200. Including the previous day, he had a long run of 188 and another of 95 unfinished. He shot Peters Ideal shells, regular factory loads.

Victorious Parker Guns.—It seldom happens to any shooter to be able to keep himself in the limelight of the shooting world for any length of time, so keen and fast is the competition.

As a striking exception to this rule, mention should be made of Mr. Henry Pfirrmann, Jr., who won the Pacific Coast Handicap at San Diego in 1915, and this year landed the Championship of California at San Jose by the remarkable score of 100 straight targets, which, under the conditions, was a wonderful performance.

As further proof of his superior marksmanship, he won high general average over the entire field at the Vernon Gun Club of Los Angeles on July 2, 3 and 4, scoring 493x500 targets, making long runs of 117 and 216, the latter being the longest run of the tournament.

All of the above shooting was done with an "Old Reliable" 34 inch double barrel Parker gun.

"GAUCHO."

Green Lake Club.—The Green Lake Gun Club's first annual registered tournament July Fourth proved to be one of the most successful trapshooting events ever pulled off in the Northwest and one long to be remembered by the "gun bugs" in that section.

Seventy-eight shooters were in attendance, including entries from practically every city of importance in the Northwest. Frank Templeton, one of the best shots on the Coast, captured first prize and the high amateur score by smashing 144 out of 150, coming from Portland to turn the trick. Dr. E. W. Kerr, of Seattle, and J. E. Rice, of Bellingham, came in second and divided second and third prizes by breaking 140 out of their 150. Tom Wilkes, with 130, R. W. Kinzer with 138, and W. H. Carsten with 136 carried off the other prizes offered. Miss Gladys Reid, of Portland, turned in a score of 126, and but for a little tough luck in events seven and eight would have landed dangerously near the top.

L. H. Reid, of Seattle, headed the list of professionals with 144 broken targets out of 150, with F. C. Riehl of Tacoma second and P. J. Holohan of Portland third. George Garrison and Ike Fisher also turned in scores of 139. The scores:

Frank Templeton 144, *L. H. Reid 144, *Frank C. Riehl 142, *P. J. Holohan 141, Dr. E. W. Kerr 140, J. E. Rice 140, *George H. Garrison 139, *I. M. Fisher 139, Tom Wilkes 139, R. W. Kinzer 138, *H. E. Poston 136, W. H. Carsten 136, Fred Call 135, Jack Converse 135, Hugh Fleming 134, C. E. McKelvey 133, R. S. Searle 132, *D. Rhodes 131, L. S. Barnes 131, Deskin Reid 130, W. D. Praise For Bruner-Kimble Trap.—Attention is called to our business columns in which the worth of the Bruner-Kimble Black Bird Trap, a Pacific Coast product, is set forth. Shooters who have had the pleasure of sighting rocks thrown from those traps are loud and sincere in their praise. An indication of the smooth working of the traps is the high scores set at the July Fourth tournament at the Vernon Club. Practically everyone in attendance established percentages that created joy.

* * * *

The Wausau, Wis., Game and Gun Club—the club that has on its roster the oldest living trapshooter, Joe Heineman—has 125 members and is only one year old.

FIRST AID DOGS FOR ARMY.

It is a matter of general knowledge that dogs are being used to locate wounded soldiers who happen to fall in out of the way places by all the warring countries in the European conflict. Recently it became known that the United States War Department is arranging to buy and train dogs to be used for the same purpose.

The excellent work of the dogs in Europe only came to the notice of the army officials lately. In France the use of Belgian sheep dogs in seeking out the injured soldiers who were unable to walk or crawl to an open space where they could be discovered has resulted, according to army reports, in saving the lives of more than 2,000 men who might otherwise have died before they were found.

The dogs are trained not to bark when they find a disabled soldier. They are taught to disregard dead soldiers. Each dog has a box containing first aid medicine and appliance tied to its neck. Upon locating a helpless soldier the dog goes up close to him so that the box may be opened. The animal tears a piece of the uniform from the soldier and then returns to the kennel to which it it attached.

The better trained dogs return to the kennel, bark and turn back in the direction from which they came to indicate that they have found an injured soldier. A corps of surgeons are attached to the kennels and they follow the dogs to the injured men. Many times soldiers are found at the bottom of deep ravines and in other sequestered places where only dogs with a keen sense of smell could locate them. Sometimes it takes a whole day to get one soldier back to the base after he has been found because of the hazardous work of carrying him to a road.

Behind the German lines the dogs are similarly trained to go to the aid of the injured. And the same is done in Russia. England has trained airedales to hunt wounded soldiers. France has trained 2,000 sheep dogs for Red Cross work. Germany has many more. The Germans also use the larger dogs to haul light machine guns.

The Italian army has trained dogs to carry light munitions over conspicuous passes in the mountains where men would be subject to fire from the Austrians.—N. Y. Sun.

Eureka Club.—F. S. Bair and H. T. Hinman tied for high amateur honors of the Eureka registered shoot on July Fourth. They scored 137 out of 150. M. O. Feudner was high pro. with 139 and C. A. Haight was second with 134. The scores were as follows:—

Watsonville Club.—The shoot of the Watsonville Blue Rock Club, at its grounds near Freedom, on July Fourth, drew a large crowd of marksmen and spectators, and the entire "bunch" expressed themselves in glowing terms of satisfaction at their entertainment. Quite a number of Salinasites participated in the shoot which was for some thirty-four prizes, contributed by merchants of the city. The weather conditions were ideal and had much to do with the enjoyment. According to the scores, selections from the list of gifts were made, the highest (Frank Brewington) having first choice and the rest in the order named. Following are the results out of a score of targets:

F. Brewington 48, D. McFadden 46, C. McFadden 42, G. W. Jones 41, F. Tholcke 39, H. Schumaker 39, G. Earls 38, Earl Horrigan 38, Whitton 36, A. Horton 34, J. W. Baxter 34, Miller 33, Nelse Enemark 33, H. Brewington 33, H. Rodgers 31, E. Phillips 27, C. Palmtag 27, Geo. Silva 26, E. W. McSherry 25.

Portland Club.—A midweekly shoot was staged at the Portland Gun Club traps at Everding Park July 5th . This is the first of these events for some time and the guest of honor was H. R. Everding, ex-president of the organization, who has been visiting in Portland for several days. Mr. Everding has been recuperating at Carson, Wash., from a recent illness and returned there the day following the shoot. He expects to go to the Indian shoot at Tacoma, which is held during the middle of July, and will then return to Portland fully recuperated.

Frank Templeton was high gun at the traps July 5th with the fine average of 97 per cent. He broke three strings of 24 and went the last 25 "straight." Frank also finished high man at the registered shoot of the Green Lake Gun Club of Seattle over July Fourth, as he led the amateur field with 144 out of 150. L. H. Reid, the Seattle professional, tied this record.

In the shoot E. H. Keller finished second with 89 per cent. The scores:

Frank Templeton 97 per cent; K. C. Ollop 77, R. A. Cronin 70, W. C. Bristol (20-gauge) 47, R. Fawcett 52, R. E. Gworts 86, L. Kennedy 50, E. H. Keller 89, H. R. Everding 78, E. B. Morris 66.

Alameda Elks' Club.—N. A. Howard, a local scatter gun artist who has been coming ahead at the traps this season, achieved the honor of being high gun at the Alameda Elks' Club shoot on Sunday. He missed only one out of the fifty targets. C. A. Merrill was second with 48.

W. H. Price took the handsome trophy set up for members with a 45 out of 50 score. Thorning was second and M. S. Goodman third. The scores were as follows:—

Events—	25	25	Total
B. T. Bayo	16	20	36
William Knock	21	20	41
R. B. Vallean	17	21	38
E. B. Thorning	22	20	42
H. O. Alexander	13	19	22
A. A. Durney	20	19	39
H. Craig	16	11	27

Getting Ready For Opening Of Deer Season

BARS WILL BE LET DOWN IN SOME DISTRICTS ON AUGUST 1st AND 15th AND OTHERS IN SEPTEMBER

Although it is three weeks before a rifle can be leveled legally at any deer in California, already those having vacations to stage during August are planning their trips to take advantage of the districting law which allows the annual two-buck limit to be killed in the coastal counties between the first of next month and the middle of September; and in the mountain district comprising the Sierra section and Northern and Eastern California generally, fixes an open season beginning August 15 and lasting two months.

In Southern California no deer can be killed lawfully until September.

The earliest opportunity and nearest chance at a buck deer to be enjoyed by a Southern Californian will be Frazier Mountain, August 1. Hunt, the ranger at Gorman Station, has a guard on top of the mountain who knows just where the dividing line between the closed Ventura and Los Angeles counties, and the open portion of Kern county extends.

If anyone had the time and wished to put in that much getting his two bucks with forked horns or bigger as required by the fish and game laws, he would find this famous deer country about Frazier Mountain the ideal place to make his headquarters. All three districts come together there. Thus he would have a season beginning August 1 and going until the opening of the quail season. He could shoot mountain quail in Kern county east of the district line September 1, when the deer hunters were busy on the Los Angeles side, taking advantage of the bucks chased south by the two weeks' hunting they had sustained in Kern county after August 15. All through the Sierra section the mountain quail and grouse season is open from September on to December.

Because of the difference in the breeding time of the deer, in making the districts, the dividing line was taken through the counties in the western slope of the San Joaquin Valley, following the State Highway over Tejon range north from the Los Angeles county boundary, taking a northwesterly course until due east of the lake, thence west ,skirting the shores of Buena Vista Lake, and north to the Kings county line.

This leaves the seasons, roughly speaking, open on deer in the Coast counties from and including Mendocino, inland as far as the Sacramento river, and the San Joaquin river down to the middle of Fresno county, from August 1 to the night of September 14, and everything in the State east of that not in distrist No. 4, open August 15 for two months, and on mountain quail and grouse from September 1 to December 1.

The season on mountain quail and grouse in the coastal district No. 3, west of this line, is not open until October 15, so hunters had better familiarize themselves with it, as the mountain game birds suffered so from snows last winter that they will not only be scarce, but will require extra efforts to maintain a breeding stock against even the small amount of shooting allowed by law.

The Fish and Game Commission's field deputies are keeping close watch on patrol for "sooners" in the deer country, and report more bucks in sight in the coastal district than last year. The Sierra section still carries the heaviest snows in many years. It is too late to speak intelligently of the deer conditions there other than to say that a great number of deer were fed in the Owens Valley and brought safely through the winter notwithstanding the 100-inch snowfall. The Cottonwood Lakes still are frozen, and it will be hard to do much above the 10,000 foot level for some time yet. The snow is staying on Mt. San Bernardino (Grayback) and San Gorgonio later than usual this year even in the comparatively low near-by ranges.

Trips up the coast by boat during August will be unusually popular this summer, and many will motor up the coast highway to places from which deer can be reached ,and shot before the law permits in Southern California.

Deer conditions have been very favorable in San Luis Obispo, Monterey and Santa Cruz counties. The mountain ranges in the eastern part of the coastal district are unusually well stocked with deer this season, following the curtailing of the season and protecting bucks "in the velvet,' 'as backed by the general scheme of protecting fish and game by patrol which pops up in the most unexpected places. The day of the political game warden is forever past in California, the State men being out in the field except when attending to the necessary clerical routine of their work comprising reports, proseeutions and gathering information.

STANDARD WEIGHT FOR AIREDALES.

Mr. Offerman has written a letter to "Our Dogs" relative to the changing of the standard of weight limit for the Airedale for the reason that so many Airedales are now shown nearer 50 pounds than the standard of 46. Airedale weight has always been one of the pet arguments of the gentleman of York, but at the same time and especially out West, where the Airedale has a great hold, there seems to be a feeling that it is better to leave well enough alone, the argument being that if one reduces the limit to the actual weight most desirable in the mind of those who do not like big dogs or sturdy dogs as the Airedale should be, the tendency will be to still further feminize, so to speak, a dog that has no business to be pretty but should show strength and vigor in every outline.—American Fancier.

The well-known and popular contributor, T. F. Drummond ("Billy Bowlegs"), of San Diego, Cal., writes as follows regarding the death of his hunting dog, Glenn: "Poor old Glenn departed this life more than a year ago, and without the slightest tinge of prejudice I can say that he was a real dog among many, many canines. Glenn's nose was superb, and his hunting instinct even better, so that the combination made a field pal of rare ability. In spite of my crude handling, the dog refused to be spoiled, and in his later years made good as a crackerjack quail dog. Glenn would retrieve ducks, but turned up his nose at mudhens, helldrivers and other riff-raff. Neither would he eat any of these fowl, but yaller-legged chicken and quail, properly cooked, he devoured with true canine gusto—which the same was principally bones with gravy and bread mixed in."

* * * *

Princeton University trapshooters by breaking 451 out of 500 targets, won the 1916 championship of the Intercollegiate Trapshooting League. Yale was second, with 448 breaks; Harvard third, with 390, and Dartmouth fourth with 352. Yale won the championship last year and Princeton the year before.

* * * *

An English correspondent writes: "While a Sheffield painter named Thos. Coxhead was removing a bird's nest last week from a spout on a dwelling-house at Sheffield he discovered a £20 Bank of England note embedded in the material of the nest in good condition." Now this is something like bird-nesting—combining business with pleasure. We shall not be now surprised to hear that the bird that lays the golden eggs has been discovered.

INCREASED LAND VALUES.

A communication recently received from the U. S. Department of Agriculture states that the value of farm lands in the United States, without improvements, is estimated at $45.55 per acre, as compared with $40.85 a short three years ago, and $36.23 four years ago. The census reported the value of farm lands in 1910 as $32.40, and in 1901 as $15.57 per acre. In recent years the value of farm lands has been increasing at the rate of about 5 per cent a year, or approximately $2 per acre per year. The exceptional increase of the past year may be explained partly by the reaction in the Southern cotton states following a temporary depression last year, and partly by the stimulus given by the war to prices—particularly of grain.

When Washing Windows.—When washing windows and mirrors a little turpeutine dissolved in warm water is thebest thing. A little alcohol will also do wonders in brightening the glass.

THE BEST LINIMENT

OR PAIN KILLER FOR THE HUMAN BODY

Gombault's

Caustic Balsam

IT HAS NO EQUAL

For the Human Body—It is penetrating, soothing and healing, and for all Old Sores, Bruises or Wounds, Felons, Exterior Cancers, Boils, Corns and Bunions. CAUSTIC BALSAM has no equal as a Liniment

A Perfectly Safe and Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Strains, Lumbago, Diphtheria, Sore Lungs, Rheumatism and all Stiff Joints

We would say to all who buy it that it does not contain a particle of poisonous substance and therefore no harm can result from its external use. Persistent, thorough use will cure many old or chronic ailments and it can be used on any case that requires an outward application with perfect safety.

REMOVES THE SORENESS—STRENGTHENS MUSCLES

FAMOUS TROUT STREAMS

Steelhead fishing in the Big Lagoon, Humboldt County, is now in full swing. The fish this year average from nine to twelve pounds.

Do not overlook the Eel River Fly Fishing for the Big Steelhead from July until October in the famous Greigs, Fortuna, Van Duzen and Weymouth pools—fresh run fish that weigh from nine to twenty-five pounds—light tackle—excellent resorts close by—only ten hours from San Francisco.

The fishing streams that are found so profusely in the new territory north of Willits embracing Humboldt, Trinity and Mendocino Counties offer the best of coast stream trout fishing. If you want to fish, go where the fish are.

LOW EXCURSION RATES

"Vacation-1916" gives list of hotels and resorts in this section, and our new "hunting and fishing" booklet will soon be ready for distribution. Call at 874 Market Street or write J. J. Geary, G. P. A., Room 808 Phelan Bldg., San Francisco, for copies.

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Puncturepoof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely puncturepoof*.

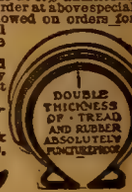
These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer:

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.55	3.10	35x4½ in.	21.20	5.60
32x3½ in.	12.75	3.20	36x4½ in.	22.60	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.30
34x4 in.	15.70	4.35	31x5 in.	26.20	6.60



All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

2:15 Trot	400	2:12 Trot	400

OCTOBER 27th

2:13 Pace $400
2:30 Trot 400

HALF MILE TRACK
TWO RUNNING RACES EACH DAY.

CONDITIONS:

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

T. F. BURKE, Secretary,
Bakersfield, Cal.

RIVERSIDE COUNTY FAIR and RACE MEETING

RIVERSIDE, CAL.

Fair Dates: October 10th to 14th, Inclusive

($50.00 added money for each starter over four)

SPECIAL HARNESS EVENTS

¾ Mile Run $100.00
½ Mile Run 50.00
Special for non-winners in ⅝ and 1 mile races.

Entry blanks and conditions for running races furnished on application to the Secretary.

CONDITIONS.

Member National Trotting Association. Entries close August 1st.

Horses to be named with entry and be eligible when entries close.

All matinee entries will be classed by a classification committee prior to the opening day of the races.

All races (except matinees), three heats, every heat a race; money to be divided as follows: Twenty-five per cent of the purse to be paid on each heat, and twenty-five per cent to the winner of the race according to his rank in the summary. Should two or more horses be tied for the first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of this heat. (Under this arrangement, according to the rules adopted by the National Trotting Association, of which this Association is a member, only the horse winning the race would take a mark.)

Heat purses will be divided 50, 25, 15 and 10 per cent.

Any race not filling satisfactorily to the Association may be declared off.

In case class in which horse is entered does not fill, entry may be transferred to any race to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent to start. Three per cent due and payable when entries close, and two per cent before starting.

An additional five per cent of the division will be deducted from money winners.

Nominators have the right of entering two or more horses in one ownership in any race by the payment of two per cent additional, but only one horse so entered shall be started in the race; the starter to be named by 4 o'clock p. m. the day before the race is to take place.

A horse may be entered in two classes and be held for but one entry fee (entry fee in larger purse will be charged), provided only one start is made.

A distanced horse in any heat will be entitled to money already won. There will be no more money than there are starters.

Entries not declared out by 4 o'clock p. m. on the day preceding the race shall be required to start and declarations must be made in writing at the office of the Secretary on the grounds.

The Association reserves the right to change the order of the program; also to start any heat after the fourth score regardless of the position of the horses; also to reject any and all entries and declare off or postpone any or all races on account of the weather or other sufficient cause.

Address all communications to

O. P. SANDERS, Secretary, Box 533, Riverside, California.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

Learn to Shoot

AN HOUR each week at the traps is an investment that pays big dividends in increased vim and efficiency.

Trapshooting

is a pleasant tonic for every tired-out, brain-fagged, business man. The whir of the clay birds—their subtle challenge to your gun skill—makes an alluring sport that eases and benefits both your mind and body. Costs less per year, club membership included, than any other popular sport.

THE PETERS CARTRIDGE CO., PACIFIC COAST BRANCH . . . . 585-587 Howard Street, SAN FRANCISCO, CAL.

WINCHESTER

REPEATING RIFLES FOR HUNTING

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

SOME INSIDE GUN FACTS

HERE are two interesting views of the action of the Remington UMC Autoloading Shotgun.

The larger view shows the hammer falling.

In the smaller, the barrel and breech block have recoiled all the way. Note that the shell is still locked in the chamber.

This feature guarantees full power to the shot charge.

Every ounce of force in the powder is held to its work.

Because the cartridge is solidly locked in the chamber, it cannot get out until the back pressure stops.

All guns recoil. In this gun, part of the recoil is made to work the action.

At the traps — in the field — maximum results always.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

Henry Fairfax, whose death was reported from Aldie, Va., last week, following an operation for appendicitis, was one of the best known Americans identified with the breeding and showing of harness horses. He imported Matchless of Londesborough, the first high priced English hackney stallion brought to the United States; was one of the organizers of the American Hackney Horse Society, of which he was once the president, and was at the time of his death a director of the National Horse Show Association, in which he had been prominent as exhibitor and judge almost from its organization, in 1883. His home in Virginia was the old homestead of President James Monroe, and there Mr. Fairfax bred harness horses with marked success for many years. In the old days of the American Horse Exchange he used to market his young high steppers at auction each year in the sales held by W. D. Grand. On several occasions his consignments made an average of $800 or a little more for harness horses by Matchless out of trotting bred mares. As a breeder Mr. Fairfax scored another triumph when harness horses reared at his Oak Hill stud won the Waldorf-Astoria Cup three times in Madison Square Garden.

The New Mexico State Fair will be held at Albuquerque from Sept. 25th to 30th. The purses for harness horses range from $600 to $800 and it only costs 1 per cent to enter and 2 per cent to start, with 7 per cent from money winners.

GRAND CIRCUIT OPENS AT CLEVELAND.

California Trainers are Getting a Fair Share of the Money So Far.

The North Randall track at Cleveland, Ohio, where the Grand Circuit opened last Monday, has had a large attendance and excellent racing. None of the California horses were among the starters on the opening day. On Tuesday Daniels got fourth money in the 2:12 pace with John Malcolm by Dan Logan, Will Durfee being outside the money in this race with Contention B. by Copa de Oro. Rain prevented all the races being finished on Tuesday.

Durfee was not outside the money in all three starts that he made Wednesday. He was fourth in the summary of the 2:05 pace with White Sox, won the 2:11 trot with that good daughter of Carlokin, Esperanza, and got third money with Virginia Barnette in The Ohio, the $3000 purse for 2:08 trotters.

Lon Daniels made two starts Wednesday. He won two heats and first money with the four-year-old pacer Bondalin by The Bondsman in the $1200 2:09 pace, and fourth money in the 2:11 trot, which was also for a purse of $1200, with the "big train" San Felipe.

Will DeRyder was last in the summary of The Ohio with Spriggan, but in the race won by Bondalin he got third money in the second heat and second money in the third heat with Dicto.

The big event of the week, The Ohio, $3000 for 2:08 class trotters, had only seven starters. The greatly touted Peter Mac did not appear. St. Frisco, son of San Francisco, was driven by his owner, Mr. Frank G. Jones, as Geers is still in the hospital, and he took the first heat in the fastest mile of the year in a race, 2:04¼. The next two heats went to Walter Cox's mare Mabel Trask by Peter the Great in 2:06¼ for each heat, and Jones was second with St. Frisco both times, and Will Durfee third with Virginia Barnette.

Lou Dillon's three-year-old daughter Expressive Lou won the sweepstake for three-year-old trotters on Wednesday and took a record of 2:09¾, thus making Lou Dillon the dam of two 2:10 trotters, the other being Lou Billings 2:08¾, having also taken her record as a three-year-old.

On Thursday Durfee started Rayo de Oro in the 2:18 pace, and got some of the money in the heats but was fifth in the final summary. In the 2:16 trot however he was second with The Lark a daughter of Carlokin, being fourth the first heat and second in each of the other two in the fast time of 2:07¾, 2:09¼ and 2:06¾. The Louisiana trotter Grand Chimes that has been racing on the half mile tracks, won the Tavern "Steak" and lowered his record to 2:06¾ in the second heat.

The summaries:

Monday, July 17.

2:09 trotting (three heats); purse $1200:

Tramright, b h by Trampfast....(Murphy) 1 1 1
Miss Perfection, b m by Gen. Watts.(McMahon) 2 2 3
McClosker, br b by Theodosius....(McDonald) 4 3 2
Omar, br b by Noblesse....(Floyd) 3 5 5
Hazel Laing, ch m by John A. McKerron....(McDonough) 5 4 4
Time—2:07½, 2:06½, 2:08¾.

2:07 class, pacing; purse $1200:

Goldie C., b m by Wiltranby....(Valentine) 6 5 1 1
Roan Hal, ro g by Hal De Facto....(Ering) 1 4 5 2
Miss Harris M., b m by Peter the Great....
The Savoy, blk g by Charlie Hayt....(Floyd) 5 1 3 3
....(McDonald) 2 2 2 *
Other starters were Lillian T., blk m by Roy Patchen (L. Wilson); Harry the Ghost, gr g by Manager (Hedrick); Bingen Pointer, b g by King Bingen (Snow).
Time—2:04, 2:02¼, 2:04¼, 2:11¾.

The Edwards stake, 2:10 class, pacing; purse $300 (three heats):

Ben Earl, b g by The Earl....(Childs) 1 4 1
Baby Bertha, b m by Silk Cord....(Garrison) 4 1 2
Baymar, b h by Amar McKinney....(McDonald) 2 2 6
The Problem, blk h by Cochato....(Murphy) 3 3 5
Spring Maid, ch m by The Abbe....(White) 7 6 3
Billy Dale, b g by Dale Patchen....(Cox) 5 5 4
Bird B., ro m by Nicol B....(Brooks) 6 7 7
Time—2:04½, 2:07¼, 2:04¾.

Forest City Sweepstakes (two heats), open to all two-year-old trotters, value $1250:

Mary Coburn, ch f by Manrico....(White) 1 1
Harvest Gale, br f by The Harvester....(McDonald) 2 2
The Prattler, ch c by Cochato....(Cox) d
Will Bing, b g by Binjolla....(Albin) d
Time—2:10¼, 2:13.

Tuesday, July 18.

2:18 class trotting; purse $1200:

The Exposer, br h by The Exponent (Donahue) 1 4 5 1
Briscia, br m by Bingara....(Rodney) 2 5 1 3
Royal Hall, blk h by Royal Reaper (J. Fleming) 4 1 4 2
Truesada, b m by Moko....(Cox) 3 2 3 ro
Helen Worthy, b m by Barongale (Murphy), Miss Warbun, g m by Warbun (Rosemire) also started.
Time—2:08½, 2:10¼, 2:10¾, 2:13¼.

Money division: The Exposer $360, Briscia $262.50, Royal Hall $295, Truesda $192.50, Helen Worthy $140.

2:12 class pacing; purse $1200:

Kate McKinney, g m by Wallace McKinney....(Mallow) 1 3 2 1
Box R., b g by Box Elder Jr....(Hedrick) 3 2 1 2
Jayell Mack, b h by E. G. Murphy....2 1 6 3
John Malcolm, b g by Dan Logan....(Daniels) 4 5 2 ro
Hoosier Boy, b g by Slumber Jr. (Marvin); Diameter, b g by Dium (Lindsay); Red Mike, ch g by Ananias (McAllister); Contention B., b m by Copa de Oro (Durfee); Allen B., b h by October (Cox)! Maud Colby, ch m by Don Cole (Valentine) also started.
Time—2:04½, 2:04¾, 2:07½, 2:11.

Randall sweepstakes, 3-year-olds, 2:18 class trotting, value $1770—One heat; unfinished on account of rain.

2:05 class pacing, purse $1200—One heat; unfinished on account of rain.

Wednesday, July 19.

Three-year-old trot—Two in three, sweepstakes, value $1,770 (one heat July 18):

Expressive Lou, b f by Atlantic Express (Murphy) 1 1
Harrod's Creek, ch c....(Engleman) 2 2
Brownie Watts, br f....(Rodney) 4 2
Jack Mooney, br c....(McDonald) 5 4
Time—2:09¾, 2:11¼.

2:05 pace—Three heats; purse $1,200 (one heat July 18):

The Beaver, b h by Searchlight....(W. Fleming) 2 1 1
Carmelia, br m....(Cox) 1 2 4
Lelia Patchen, br m....(Snow) 3 5 2
White Sox, b m....(Durfee) 5 4 3
Fred Russell and General Todd also started.
Time—2:05¼, 2:03¾, 2:04.

2:11 trot—Three heats, purse $1,200:

Esperanza, b m by Carlokin....(Durfee) 2 1 1
Director Todd, b h....(Cox) 1 3 2
Bonington, ch h....(Jones) 3 2 3
San Felipe, b g....(Daniels) 4 4 5
Vanko and Caroline also started.
Time—2:07¼, 2:09¼, 2:10½.

2:15 pace—Three heats, purse $1,200:

Gilbert Patch, br h by Dan Patch....(Shively) 1 1 2
Thomas Earl, b h....(Marvin) 3 2 1
Derby Ouster, ch h....(Murphy) 2 3 5
La Belle Online, ch m....(Schuler) 5 4 3
Prestolite, Harold T., Black Wreath and Frank K. also started.
Time—2:06¼, :08¼, 2:09¾.

The Ohio—2:08 trot—Three heats, purse $3000:

Mabel Trask, ch m by Peter the Great....(Cox) 2 1 1
St. Frisco, b h....(Jones) 1 2 2
Virginia Barnette, b m....(Durfee) 6 3 3
The Eno, ch h....(Floyd) 4 6 4
Rusticoat, Laramie Lad and Spriggan also started.
Time—2:04¼, 2:06¼, 2:06¼.

2:09 pace—Three heats, purse $1,200:

Bondalin, b c by The Bondsman....(Daniels) 6 1 1
Dean, b m....(Murphy) 2 2 3
Dicto, b g....(DeRyder) 5 3 2
Pat Carmody, br h....(Walker) 3 4 4
Hazel Armstrong, Douglas and May Fern also started.
Time—2:06¾, 2:06½, 2:12½.

Thursday, July 20.

2:18 pace, two in three heats, purse $1200:

Hal Plex E., b h by Empire Hal....(McMahon) 1 6 1
Admiral Dewey II, blk h by Admiral Dewey ....Wilson) 5 1 3
Trampquick, b h by Trampfast....(Shiveley) 6 2 4
Sad Thoughts, b m by Bingen....(Childs) 2 5 7
Rayo de Oro, ch c by Copa de Oro (Durfee), Rose Direct, br m by Crown Direct (Walker), Billy Direct, br g by Rural King (Valentine), also started.
Time—2:06½, 2:08¼, 2:08¼.

The Fasig sweepstakes, two heats in three, open to all three-year-old trotters, value $930:

Maple Tree, b c by Siliko....(Murphy) 1 3 1
Adele Block, br f by J. Malcolm Forbes....((McDonald) 2 2 2
Peter Mount, ch h by Peter the Great (Nuckolls) 3 1 3
Time—2:11¾, 2:14¾, 2:16¾.

The Tavern stake, 2:14 trotting, value $3000:

Grand Chimes, b h by Kentucky Chimes (Edman) 1 1 4
Busy Lassie, b m by Peter the Great....(Cox) 3 2 1
Early Don, ch g by Don Cale....(Valentine) 2 3 5
Brisac, br h by Bingara....(Murphy) 6 4 3
Leonore McKinney, b m by McKinney (White), Col. Riser, b h by Early Riser (Brenner), Regardless, b h by Locanda (Hedrick), Widower Peter, b h by Peter the Great (Shively), also started.
Time—2:09¾, 2:06¼, 2:06¾.

2:16 class trotting, purse $1200:

Azora Axworthy, b m by Dale Axworthy (Murphy)1 1 1
The Lark, b m by Carlokin....(Durfee) 4 2 2
Aulsbrook, br h by Bingara....(Valentine) 2 5 3
Sandy, ch g by Waltz....(Donahue) 3 3 5.
Coastess Mobel, b m by Mobel (Cox), Indian Hill, b h by Bingen (Brennan), also started.
Time—2:07¾, 2:09¼, 2:06¾.

Additional Entries on Inter-Mountain Circuit.

Baker, Oregon, July 16, 1916.

The Breeder and Sportsman:

I wish to thank you for the attention given the Inter-Mountain Fair & Racing Circuit and the nice things said with reference thereto. Owing to wrong addresses and delays in the mails the following entries—made through the entire circuit—were omitted from the lists of entries sent you last week:

Sweet Bow, b m by Bon Voyage, in the 2:17 and 2:14 trots.

Midnight Oro, bl s by Oro Wilkes, in the 2:17 and 2:14 trots.

Axcybetta, ch m by Axcyone, in the 2:10 paces.

Sir Archibald, bl s by Ashbud, in the 2:30, 2:25 and 2:18 paces.

Mabel C., b m by Captain Brino, in the 2:14 and 2:10 paces.

Red Direct, ch s by Walter Direct, in the 2:25 and 2:18 paces.

Our circuit looks like a "Baby Grand" and may grow into a real "Western Grand Circuit." The list of entries through the entire circuit averages as good as they do at Baker, LaGrande and Ontario. Every class in the circuit filled.

Yours truly,

JOSEPH WADDELL, Sec'y.

Matinee Program for Sunday.

Four races with the following horses carded will be the program offered by the San Francisco-California Driving Club at the stadium in Golden Gate Park tomorrow:

First race, 2:12 pace—J. C. Simpson (J. F. Goularte); Pointer Belle (J. M. Kidd); King Pointer (H. Campodonico), and Victor Pointer (Dan Keating).

Second race, 2:20 trot—Jack (G. Conlan), Dibble Wilkes (S. Benson), Rosie O. (J. J. Ryan), and Black Mack (L. A. Gielow).

Third race, free-for-all pace—Mabel Dillon (E. Cerciat), Senator H. (J. M. Kidd), Bradmont (George J. Giannini), Emma M. (William Malough), and W. J. K. (W. J. Kenney).

Fourth race—Minequa (M. Ford), Merrylina (J. A. Wilkens), and Ella M. R. (George J. Giannini).

Harness Horses and Horsemen

Adioo Guy's Record is Now 2:05¼.

Frank S. Turner, the genial Santa Rosa horse breeder, has another fast horse to his credit. Adioo Guy, a pacer that he bred, raised and sold, took a a mark of 2:05¼ on the half mile track at Toledo, Ohio, July 7th, lowering the track record and pacing the fastest mile of the year on a half mile track. It was the second heat of the 2:10 pace in which All Wilkes, the favorite, had won the first heat in 2:07½. Adioo Guy and All Wilkes set out together after the second heat with four others behind them. The two leaders went to the quarter in :30½, to the half in 1:01¾, with All Wilkes in the lead by a short length. At the three-quarters in 1:33½ Adioo Guy moved up on All Wilkes and had her beaten at the seven-eighths, winning without a finish drive in 2:05¼. Kate McKinney came up and beat All Wilkes for the place. In the next heat Adioo Dillon and Solomon Boy went out in front and were at the half in 1:04, but the Guy Dillon horse made a bad break and was distanced. The following week at Youngstown, Adioo Guy beat All Wilkes, Kate McKinney and several of the same horses in straight heats, two of which were below 2:10, on a half mile track that was not fast. Adioo Guy is six years old and was bred by Frank Turner at Santa Rosa. She is by his stallion Guy Dillon and her dam is the great brood mare Adioo (dam of Harry Dillon 2:10 and three others, also grandam of Dillon Axworthy (2) 2:10¾ and others), by Guy Wilkes. Adioo Dillon is owned by John Heyman of Sandusky, Ohio.

Veteran Geers Badly Hurt.

Mainly through the power of a horse to sense danger, Edward F. Geers escaped with a few painful bruises in an accident that might have proven fatal at North Randall track Thursday, July 13.

Just as he was leaving the wire with the trotting mare Guy Nella, in company with three other horses, Mr. Geers, directly in the path of a harrow, managed, as he heard shouts of warning from at least twenty-five horsemen, to pull to the left just far enough for his horse to miss the track implement, but not enough so that one of the wheels of the sulky struck it. As the sulky struck the harrow Mr. Geers bounced into the air and was thrown under the trotter Zombro Clay that Charley Valentine was driving at the pole position. There was no chance for Valentine to stop his horse and Mr. Geers became entangled with the feet of Valentine's trotter.

Had Zombro Clay not stood perfectly still after Valentine had been able to stop him, the chances are Mr. Geers would have been killed by a kick or from being trampled upon. As it was, the horse, once he stopped, never made a move until the veteran trainer had been dragged from under its feet by horsemen who rushed from all directions to his assistance.

The trotter Mr. Geers was driving ran around the track and as she slowed up at the wire was caught by Mike McDevitt.

Mr. Geers was unconscious when picked up and was suffering from a triangular cut over his left ear that extended forward just above the temple. He was placed on a cot where he quickly revived, his recognition of Mike McDevitt relieving the many anxious horsemen who had gathered about him.

The veteran trainer still on the cot was hoisted into Walter Cox's big machine and assisted by Walter Cox, Doc Tanner, Dr. Sprengle, E. R. Dunn and John Fleming was taken to Lakeside Hospital.

At the hospital three stitches were taken in the scalp wound and it was found that Mr. Geers was suffering from a bruised hip and a sore side which probably was caused from being struck by the horse as he rolled under his feet. X-ray pictures however proved no bones were broken.

Mr. Geers has been in many smash-ups on race tracks in which both legs have been broken and many other bones in his body fractured, but he has never lost his nerve. The thick of the fray never bothers him and he will drive through as small an opening as any trainer in the business if he thinks he has a chance of gaining by such a move.

His last accident prior to this one occurred at Grand Rapids five years ago when a horse stumbled and he was thrown out. Frank G. Jones, the wealthy Memphis horseman and one of the cleverest amateur reinsmen in the country, was called upon to drive all of the horses in Mr. Geers' stable then and it looks as if Mr. Jones would have to pinch drive for the veteran at the opening meeting of the Grand Circuit which starts at North Randall Monday.

Mr. Geers is 65 years old and has been trotting horses up north since 1881. That was the first time he crossed the Mason and Dixie line to race a horse. He opened his campaign at Dayton.

Ventura County Fair's Race Program.

The Ventura County Fair Association has announced its racing program for the fair to be held from September 13th to 16th inclusive. On the opening day there will be a Wild West race for a purse of $300. The second day there is a free-for-all pace for Ventura county horses for $500, a 2:18 trot for $250, and a half mile and repeat running race for $100. The third day a hurdle race for a purse of $300 and a chariot race for $300. On the fourth and last day there will be a free-for-all pace for $600, a 2:20 trot or pace for $250, and a half mile and repeat run for $100. Write to Secretary A. L. Hobson, Ventura, for any further particulars and conditions of these races. The advertisement will appear later.

Entries For the Dixon Races.

There will be great racing at the Solano County Fair to be held at Dixon next month. Of the eight races advertised all but one have filled and nearly all the best trotters and pacers that are in training in California this year are named. It will be a great week at Dixon when the fair is open. The display of farming implements and of beef and dairy cattle as well as draft horses, sheep and swine promises to be very high class. Many of the leading live stock breeders of the State have already applied for space and applications are coming in on every mail. The list of entries for the harness races follows:

2:20 Trot—Purse $300.

Eloise Dell, C. F. Silva, Sacramento.
El Angelo, D. W. Wallis, Los Banos.
Doctor S., H. J. Stevens, Santa Ana.
Trigione, C. A. Short, Santa Maria.
Major's By Guy, I. L. Borden, San Francisco.
Ella M. R., G. J. Giannini, San Francisco.
Hanford Mac, Geo. Russell, Corcoran.
Brutus, S. Christenson, Pleasanton.
Dick W., F. W. Faucett, Santa Ana.

Free-For-All Pace—Purse $300.

Teddy Bear, C. F. Silva, Sacramento.
Vera Hal, H. Cohen, San Francisco.
Jim Logan, J. E. Montgomery, Davis.
Leata J., J. N. Jones, Stockton.

2:10 Pace—Purse $300.

Teddy Bear, C. F. Silva, Sacramento.
Soumise, R. L. Friend, Porterville.
Silver Tips, C. A. Short, Santa Maria.
Maxine, Miss Maxine Montgomery, Davis.
Pointer's Daughter, Blosser & Finley, Santa Maria.
Della H., H. G. Smith, Pleasanton.
Directess Mac, A. Ottinger, San Francisco.
Hal Paxton, Fred Woodcock, Forest Grove, Ore.

2:15 Trot—Purse $300.

Columbia T., C. F. Silva, Sacramento.
Harold C., H. Cohen, San Francisco.
Bon Cres, J. J. Campbell, Pasadena.
Dr. S., H. J. Stevens, Santa Ana.
Dick W., F. W. Faucett, Santa Ana.

2:20 Pace—Purse $300.

Patti C., D. W. Wallis, Los Banos.
Lock Logan, J. E. Montgomery, Davis.
Irene D., J. N. Jones, Stockton.
Alta Barnato, I. L. Borden, San Francisco.
Bold Harry Aerolite, G. J. Giannini, San Francisco.
Harry Mac, Russell Gray, Hanford.
Mono Ansel, Blosser & Finley, Santa Maria.
Best Direct, J. Brollier, Fresno.

2:30 Trot—Purse $300.

Eloise Dell, C. F. Silva, Sacramento.
El Angelo, D. W. Wallis, Los Banos.
Dr. S., H. J. Stevens, Santa Ana.
Trigione, C. A. Short, Santa Maria.
Major's By Guy, I. L. Borden, San Francisco.
Ira Mac, Edw. Erlanger, Lemoore.
Miss San Francisco, Al Schwartz, Pleasanton.

2:13 Pace—Purse $300.

Julia M., D. W. Wallis, Los Banos.
A. B. C., Jas. Sutherland, Pleasanton.
Soumise, R. L. Friend, Porterville.
Breezy Marie, A. H. Meigs, Fresno.
Silver Tips, C. A. Short, Santa Maria.
Lock Logan, J. E. Montgomery, Davis.
Maxine, J. E. Montgomery, Davis.
Hanover Boy, J. N. Jones, Stockton.
Alta Barnato, I. L. Borden, San Francisco.
Bradmont, G. J. Giannini, San Francisco.
Directess Mac, A. Ottinger, San Francisco.
Ben Corbett, Jr., Blosser & Finley, Santa Maria.
Hal Paxton, Fred Woodcock, Forest Grove, Ore.

Horse Racing as a Fair Attraction.

During the convention of the American Association of Fairs and Expositions in Chicago last winter, C. E. Cameron, of the Iowa State Fair Association, speaking of the importance of racing in connection with a fair directly after Professor J. W. Kennedy of the Iowa State College had read a paper in which he advocated educational features almost exclusively for fairs said: "To demonstrate that racing is a drawing card for a fair from my experience, you take it down in Des Moines, let a rain come up, say at 12:30 o'clock, so that it is liable to eliminate racing in the afternoon, the first thing the people, the crowd around your grandstand, will want to know if there is going to be any racing that afternoon. They won't buy any tickets to the grandstand unless there is going to be racing. We will put on that afternoon attractions that will probably cost us during the fair, $5,000 or $10,000. If the public, general public, knows that they are not going to have any racing we will not get a corporal's guard in that grandstand that afternoon. But if they find we are going to race, 15,000 to 18,000 people come there and pay their entrance fee to the grandstand. Those are things that we ought to take into consideration in this racing proposition. When you go to work and say you can run a fair without a race program, without an entertainment feature, that is dead wrong. I do not agree with Professor Kennedy. I know Professor Kennedy well. He is doing good work and all that, but you can't run a fair strictly on an educational basis. I will tell you what you will do if you undertake that. We have people come to our fair in Des Moines and camp out and stay for a whole week; people camp outside, and stay three or four days. If those people come down and we don't have amusements that appeal to them over at the grandstand, they could continue to travel around all day. They go around in the morning until noon, and we have no entertainment feature, only the educational feature of our fair up until noon. At noon we open our grandstand for these people to come in. At noon those people are tired. They have gone around to the different buildings. They have walked from one building to another and they are tired. They want something else, want amusement, and they want to sit down. Then they get their dinner and go over to the grandstand and sit down in the afternoon. If we didn't have any grandstand feature for the afternoon, they would go around as they did in the morning, and they would get all they wanted of the fair and would go home. You have to have those things to keep your people satisfied. If you go to work and simply have the educational exhibits you might just as well have a one-day fair."

Riverside County Fair Races.

One of the best racing programs arranged by any of the county fair associations in California is that advertised by the Riverside County Fair, of which Mr. O. P. Sanders is secretary. There are good purses provided for trotters, pacers and runners and this is as it should be. The leading purses offered are the $1000 for 2:18 class pacers and the same amount for 2:20 class trotters. Then there is $300 for 2:30 trotters, $400 for 2:14 trotters, $500 for free-for-all trotters, $300 for 2:23 pacers, $300 for 2:14 pacers and $500 for free-for-all pacers. In the free-for-all pace and free-for-all trot, $50 will be added for each starter over four. This is very liberal on the part of the association and should result in good entry lists in both events.

The running horses will have many chances to race and the purses offered are nine in number, with $500 for the mile events, $200 for five furlongs, and $50 for the quarter-mile dashes.

Riverside should receive the patronage of every California horseman who can possibly arrange to race there. The enterprising directors of the Riverside association are doing everything in their power to build up a permanent institution that will give a high class fair every year, and it is the duty of those engaged in breeding or racing to assist such an organization in every way they possibly can. With such liberal purses the Riverside County Fair should receive one of the largest of entry lists. The fair will be held October 16th to 14th and the entries will close Tuesday, August 1st.

San Francisco-California Club's Matinee.

One of the best day's racing of the season was given by the San Francisco-California Driving Club at the stadium in Golden Gate Park last Sunday. The starting by J. J. Ryan was very good and there were few scores before the starts were made in any heat. In the free-for-all pace President Giannini's little horse Bradmont was not himself and was defeated by horses that he had himself beaten time and again. The winner of this event was W. J. K., one of the gamest old fellows that races at the stadium, and he annexed first prize in straight heats. He was the only horse to keep his feet in the first heat and won as he pleased in 2:21¼, but in the second heat W. J. K. had to pace in 2:11½ to win.

Mr. Giannini's mare Ella M. R. took the 2:20 trot after dropping the first heat to Merrylina. Yoncalla trotted a good race and was second in every heat.

The 2:25 pace went to Sis Hopkins, and the 2:18 pace was won by J. C. Simpson. The weather was excellent and the track in fine shape. The summaries:

First race—2:25 pace:

Sis Hopkins	(W. Hopkins)	1	1
Dibble Wilkes	(S. Benson)	2	2
Black Mack	(L. A. Gielow)	3	3

Time—1:45½, 1:45.

Second race—2:20 trot:

Ella M. R.	(G. J. Giannini)	4	1	1
Merrylina	(J. A. Wilkens)	1	4	3
Yoncalla	(A. Giovannetti)	2	2	2
Bird Eye	(A. Combatalade)	3	3	4

Time—2:15, 2:17, 2:15.

Third race—2:12 pace:

W. J. K.	(W. J. Kenney)	1	1
Senator H.	(J. M. Kidd)	2	2
Bradmont	(G. J. Giannini)	4	3
Emma M.	(W. Malough)	3	4

Time—2:21½, 2:11½.

Fourth race—2:18 pace:

J. C. Simpson	(F. Goulart)	1	1
Victor Pointer	(D. Keating)	2	2
King Pointer	(H. Campodonico)	3	3
Pointer Belle	(J. M. Kidd)	4	4
Rosa O.	(J. J. Ryan)	5	5
Little Jack	(G. Conlan)	6	6

Time—2:16½, 2:14¾.

In order to assist the Kings County Fair Association in arranging for the best fair ever held in this county, the Merchants Association has formed a guarantee fund. This fund will be for the purpose of guaranteeing the fair association against loss in case of some unforseen circumstance, such as rain. The merchants will not be called upon to pay their subscription unless some shortage occurs.

THE HERALD AND THE HORSE.

[Written for the Breeder and Sportsman by C. A. McCully.]

In the days of chivalry in Europe a herald cut quite a wide swath in the field of Knighthood. He was a sort of a ringmaster for those old time circuses where many crowns were cracked, and crowns of another sort often changed owners. His advent was always preceded by much blowing of trumpets and his raiment was gorgeous enough to make Solomon himself sit up and take notice.

On this side of the broad Atlantic ocean, the word herald came to have a different and yet a significant meaning. It was selected by a shrewd and far-seeing Scotch printer as the name for a daily paper that he launched in the merry month of May, 1835. James Gordon Bennett, the elder, who had discovered New York for himself in the early part of the nineteenth century, decided that the swagger chap who did the announcing for the old time tournaments or real battles, was good enough for a prototype, and proceeded in his energetic way to make his "herald" a prime factor in the life of the fast growing American metropolis. He was a pent-up steam-engine of a man and everything was fish that came into his journalistic net. When he died in 1872 at the ripe old age of 77 his newspaper was easily the biggest dividend payer of its kind in this country, and a worthy rival of the great "Thunderer," the "London Times," or "Le Petit Journal" of Paris.

So last month this same New York Herald had another birthday celebration, and its eighty-first anniversary was the occasion of a special mammoth Sunday edition, with such references to the story of the elder Bennett and the subsequent enterprises of the paper during the reign of James Gordon the Second, as the dear public would care to see recounted. But some of its business secrets which are known to those in touch with journalism as it obtains in New York were not mentioned, though they make interesting reading even outside of the members of "the fourth estate." For example, the earning capacity of the big presses that are on view in Herald Square was not stated, though as far back as twenty years ago the late "Jack" Henderson, then night editor, told the writer, and not in confidence either, that the balance sheet for 1895 showed the snug little total of net earnings as $1,200,000!

But the readers of the Breeder and Sportsman will be more interested to know how much of this vast income that has been rolling in on the tide of the Herald's success was paid by the dealers in horses. It has come to be a tradition that every man with a nag to sell either of the work-a-day sort or those used for pleasure or racing in and about Manhattan or Long Island, should use the columns of the Herald if he would attract customers. Here again the genius of the elder Bennett is in evidence, and the writer is able to speak by the card as to how the hard-headed canny Scotch editor managed to secure a practical monopoly of this line of advertising. The knowledge came as the result of a commission from the business office of an ambitious and fast growing rival, the New York World, to try and get for it the patronage of the dealers, chiefly those in the famous "Bull's Head" district, where most of the public and private sales stables were then located.

"We want you to go to the men in the big stables and propose to them that the World will advertise their sales for one year without charge, provided they will not patronize the Herald during that time" was the request made by the publisher and business manager of the younger paper, adding as an incentive to success, "if you can make this contract the work of exploiting the trade in our reading columns will be entrusted to you."

This seemed a sound scheme to those who planned it, but mark the sequel! Jacob Dahlman was then at the top in the Bull's Head district, and was naturally the first man to be approached. His reply to the proposition was, "My boy, I would like to do this for your sake but you might as well ask me to close my stable as to suggest my stopping my advertisement in the Herald. That's the paper my customers read and there is no getting away from it."

That was a poser to start with and the rest of the dealers around the blocks between Lexington and Third avenues just above Twenty-third street, echoed the sentiment of the older vendor. Further investigation of this evident right of eminent domain enjoyed by the Herald, revealed the secret of how this came about. Another veteran, the famous George Bishop, who was reputed to have been the pioneer in the art of making the teeth of an old horse look young (hence the term "bishoping") is responsible for the story. He told how some thirty years before, a bill was passed in the State Legislature at Albany, providing that all auction sales of horses in the County of New York should be held in a specified lot on Third avenue, in or near the district then called Yorkville. When this law came into force it was found that the stables and premises were owned by one James Gordon Bennett, and strange to relate, before the vendue could take place it must be announced in a paper that was published away down town on the corner of Broadway and Ann street! Later on, when the horse dealers began to centre about the Bull's Head tavern on Twenty-fourth street, this law was more honored in the breach than the observance, but it had secured a clientele for the Herald that has proved to be like a fee simple in real estate. No wonder that the offer of a free ride for a twelvemonth on the part of even so popular a contemporary as the World, was unavailing to stem the tidal wave of business that flowed over the counters of its senior competitor.

At that time, about twenty-five years ago, the revenue from this one line of exploitation was not less than $200,000 annually, but that high water mark has not been touched in recent times for obvious reasons. Electricity, harnessed to the street cars, and the horseless "benzine buggies" have freed the horse from much of his old time drudgery on the highways of the cities. Incidentally the solid foundation laid by the elder Bennett has been largely undermined, but his paper continues to thrive in the newer and vastly larger metropolis, the greatest monument to the genius of a printer that has ever been erected.

As for his son and successor to this colossal business, it may be of interest to note that he on one occasion at least aspired to be a patron of harness racing. Not in his native land, since he has been self-expatriated for many years, but among the ultra-fashionable set that make up the winter colony of the Riviera, on the "cote d'azur" of that favored strip on the Mediterranean which centres at Nice. There on a grass track in the early '90's were contests to sulky supported by the wealthy aristocrats of France, Russia, Italy, Austria and an occasional Britisher. Having been getting much grist from the horse-selling mill at home for many moons, James Gordon Bennett the Second decided to show a tardy appreciation by spending some of it in the land from which it came.

He instructed his business manager in the palace on Herald Square to honor a draft of some $20,000 and requested his old New York friend, Col. Lawrence Kip, son of Bishop Kip of California, to select three mares with records of 2:20 or better, and send them over to Nice in time for the spring meeting of 1895. This commission was duly executed by proxy, as the professional dealer E. de Cernea, who had previously brought several model roadsters to town for Col. Kip, blue ribbon winners at the National Horse Show, was entrusted with the business of finding the choice trio for the great editor. His selections were good enough from his point of view, and consisted of Helen Leyburn 2:14, by Onward that Crit Davis had campaigned successfully in the fall of 1894 at Lexington and Nashville; Autrain 2:19, a breedy looking daughter of Princeton with whom "Uncle" George Fuller had raked in the shekels at several meetings that same year; and Grace Simmons 2:19¼, a shapely youngster of lesser note whose name indicated her sire, the blind but magnificent looking son of George Wilkes whose court was held at Cynthiana in Kentucky in charge of that astute breeder W. H. Wilson.

This ostensibly model trio of well educated money-getters over here, with a special set of trappings worthy of the debut before the princes and potentates of the Riviera colony, were sent across the ocean in charge of Mr. de Cernea, and a trainer named Phelps, a young relative of his whom he had secured in Pennsylvania. Scarcely had they landed from the steamship when the new owner ordered his prizes to be got ready to race, though they were only in ordinary winter condition. Strange to say all of the mares, notably Autrain, did wonderfully well but naturally they were not in shape to go and race through the early season. So the high hopes that went with them from New York failed of fulfillment and the younger Bennett's career as a turfman was a brief one.

When de Cernea came back a somewhat disappointed manager of this short campaign he had an additional hard luck story that he told the writer, and has not before been published. While they were quartered at the track near Nice, a party of high-born and beautiful society buds were brought to see the new equine aristocrats by their expectant owner. Among them was a Miss May, one of the famous Baltimore family with whom the great editor had had experiences that were dramatic to a degree. This included the notorious duel in Maryland, when "Fred" fired at the tall journalist and missed and the latter discharged his pistol in the air. As the girl from America was shown the trotters just landed from her native country, she turned to her veteran escort and said, "Why, Mr. Bennett, I never heard of these mares at home . You should have chosen something with a reputation, I mean a champion like Alix."

Nothing more was said but the man who had footed the bills looked the chagrin he felt. Coming back later he called his manager and said abruptly, "Can you buy Alix for me?" The New York dealer rose to the occasion and assured his patron he would fill the order at once.

"I did not even ask for Mr. Bennett's frank over his cable line," he said of this bigger commission, "but rushed off a message to Monroe Salisbury at Pleasanton where Alix was resting after her great campaign of 1894. I asked a price on her, requested a quick reply and signed my name, which I thought Mr. Salisbury would recall, as I had sold him some brood mares at Goshen, New York, the year he came East and got Director in Kentucky. One of them was Sweetness by Volunteer, the dam of Sidney."

"Several days passed and no answer came to my cablegram, so I sent a longer one and mentioned my former deal with Mr. Salisbury in Orange county. This brought a reply which read, 'Price for Alix $30,000 with $15,000 worth of engagements.' I took this to mean that the two sums must be added to secure her, and told Mr. Bennett that the figure was $45,000. He turned that down at once, saying it was too much, but what a mistake I made! After I came back I wrote to Pleasanton and learned that the extra amount was what the mare could earn over here on the strength of having reduced the record of Nancy Hanks."

When the King maker of the trotting world came over the mountains that same year the writer spoke to him of the deal that failed to take his sweet little pupil to Europe. He laughed and said, "When I read that first message and saw that name 'de Cernea' at the bottom I thought it was some foreign fellow trying to get himself a reputation at my expense, and decided not to answer. When the second one came I knew better and sent what seemed to me a good plain offer, but luck was against both of us. And say, my son, I could have used that thirty thousand to help me get another world beater.

The ruddy cheeked old Californian turfman, discoverer of many champions, has gone; Col. Kip, his mare with the foreign name, Alix, and the other three mares have all passed into the limbo of the unknowable. But the perennial Herald still stands as the boss "announcer" of our biggest city and its owner continues to rake in more shekels from the horse business than all of its metropolitan contemporaries put together.

Oakland Driving Club's Matinee.

The success of the matinee given July 4th by the Oakland Driving Club, led to another afternoon of racing being arranged for last Sunday at the same place—the half mile track near the Sixteenth Street station. There were six races on the card and with a large crowd of spectators and several close contests, the afternoon's sport was highly enjoyable. Results:

First race—2:20 trot; half mile:

Teddy B.	(H. Buckley)	1	1
Bell Sawyer	(Al Shanks)	2	2
Elsie Page	(P. W. Bellingall)	4	3
Harold G.	(J. Williams)	3	4

Time—1:14, 1:16

Second race—2:25 pace; half mile:

Lena Lee	(T. Le Ballister)	2	1
Berkeley Girl	(A. Reisman)	1	2
Cleoverne	(Mrs. Carlisle)	3	3
Molly	(M. Medau)	4	4

Time—1:15, 1:13, 1:12½.

Third race—Free-for-all, mixed; half mile:

Little Dick	(Al Scott)	1	2
Allegro	(G. Schreiber)	2	1
Horse Shoe Boy	(W. H. Hall)	3	3

Time—:06¾, 1:07, 1:08.

Fourth race—2:18 pace; half mile:

Grand W.	(A. L. Hinds)	1	1
Hallie's Star	(A. Edstrom)	2	2

Time—1:09, 1:10½.

Fifth race—2:30, mixed; half mile:

Prince	(J. Pitts)	1	1
Tom Wilkes	(H. Olsen)	3	2
Oakland Boy	(G. Hahn)	2	3
Teddy	(W. Collins)	4	4

Time—1:19, 1:17.

Sixth race—2:35, mixed; half mile:

Rhoda	(George Meader)	1	1
Dora's Boy	(R. Searle)	2	2

Tremendous Crowd at Salem Races.

It is stated that there were 20,000 people at the lone tree track at the Oregon State Fair Grounds on July 4th when four harness races and one running event were carded for an afternoon's sport. The fastest heat of the day was in the free-for-all pace, won by John E. Kirkland with the big horse McAlpin. He took the second heat of this race in 2:13¼ in a jog and was beating some pretty fast ones when he did it. He looked as if he could have beaten 2:10. The summaries:

First race—2:20 pace:

Helen Hal	3	1	1
King Zolock	1	2	2
Savage Wright	2	3	5
Hi Ho	3	4	4
Chiquita	4	5	3
Helen Mistletoe	6	0	0

Time—2:14½, 2:14, 2:18.

Second race—2:25 trot:

Bert Wood	1	1	
Going Some	2	2	
B & M	3	4	
Edythe M.	4	3	

Time—2:19½, 2:20¾.

Third race—Free-for-all pace:

McAlpin	3	1	1
Sunny Jim	1	2	2
Hal Edo	2	3	3
Del Norte, Jr.	4	5	6
Wallace Hal	5	4	4

ime—2:15½, 2:13¾, 2:16½.

Fourth race—2:15 trot:

Complete	1	1	
Lottie Ansel	2	2	
Bonniola	3	3	

Time—2:19½, 2:21.

Fifth race—Five-eighths mile dash: Ella Robinson won; Sterling, second; Maxwell, third. Time—1:02.

Records Made at Los Angeles July 12, 1916.

At a breeders' meeting held at Exposition Park, Los Angeles, last Wednesday, the following horses were given breeder's records, all driven by Mr. C. A. Durfee:

To beat 2:26 trotting:
Kinsman Lou, b c two-year-old, by Wilbur Lou, dam Sona by McKinney, owned by Alex Grant..2:23½

To beat 2:30¼ trotting:
Kewpie, b c two-year-old, by Carlokin, dam The Blonde by Strathway, owned by Alex M. Wilson 2:24

To beat 2:14½ trotting:
Alhambra Prince, br h by Redlac, dam Pattie W. by Geo. W. McKinney, owned by Chas. W. Winters ..2:10¾

To beat 2:30¼ trotting:
Pegasus, b h by Zombro, dam La Belle by Sidney, owned by Mrs. A. W. Severance..2:08½

Pegasus also has a record of 2:07¾, pacing, made in a winning race at Woodland, California, in 1914.

Notes and News

A capable man that can train colts and aged horses is wanted. See advertisement in this issue.

The Grand Circuit horses will move to Detroit, Michigan, next week.

Hanford has re-opened its harness race purses to close Tuesday, July 25th. See advertisement.

Adioo Guy 2.05¼ became the first pacer to take a new record below 2:06, when he took his present record at Toledo, last week.

Remember the later closing purses of the North Pacific Fair Association circuit. See the advertisement.

John D. Rockefeller has recognized the Dixon Fair as one worth patronizing. The Standard Oil Company has applied for space for an exhibit there in August.

Graustark by Aerolite, the roan pacer that Lon Daniels took across the mountains and is now being raced by Ben Whitehead, was 4-2-2 to Hedgewood Patchen at Toledo half mile track in 2:14¼, 2:09¼ and 2:11.

At Kearney, Nebraska, July 3-5, Fred Ward won second money in the 2:20 pace with Harry R. by Armond Lou, fourth money in the 2:18 trot with Bon Courage and second money with Dr. Wayo in the 2:14 trot.

At Windsor, Conn., two weeks ago the two-year-old colt Labe Riddell by J. Malcolm Forbes trotted to a breeder's record of 2:20¼ over a half mile track and was immediately sold to Theo. Bassett of New York for $2500.

The races at Hanford did not fill and have been re-opened to close next Tuesday. This is rather short notice but horsemen will find the program in our advertising columns and should make their entries in time.

Starting payments in the Pacific Breeders' Futurities to be trotted and paced this year by two and three-year-olds at Santa Rosa, must be paid on or before August 1st, and the gait at which the colt or filly will race must be stated at the time payment is made.

Note the advertisement this week of the Inyo County Fair and Stock Show to be held at Bishop, Sept. 28th, 29th and 30th. Purses of $200 are offered for harness races and $100 for runners. Free stall rent, free hay and free transportation to and from the railroad depot to the fair grounds.

Among the horses given records at a breeders' meeting held at North Randall last week, was the three-year-old filly Sister Hattie III, that trotted to a mark of 2:14¾. This filly is by Peter the Great, dam Hattie Lynwood by Lynwood W., a mare that was bred by Sam B. Wright of Santa Rosa, who also bred Sonoma Girl 2:04¼.

A mile in 2:18 by a two-year-old trotter is not a world's record for a colt or filly of that age, but it is the fastest mile a two-year-old trotter was ever driven by a woman. Miss Helen Murray, daughter of Mr. W. P. Murray, the Cleveland, Ohio, millionaire horseman, drove her father's futurity colt Cord Axworthy a mile in that time at North Randall last Wednesday.

The opening day of the North Randall Grand Circuit meeting brought out what looks to be a mighty high class two-year-old in Mary Coburn, chestnut filly by Manrico 2:07¼, dam Alma Sedley by The Director General. Her win in straight heats in 2:10¼ and 2:13 is a good performance for a two-year-old in July and of the four starters in the race only one could keep up with her, as The Prattler and Will Bing were distanced the first heat.

Everything points to a highly successful fair and race meeting at Santa Rosa next month. A majority of the horses that will race have already arrived and there is a busy scene every morning when the trotters and pacers are getting their work. The track is in fine shape, the weather has been excellent and it looks as though some low records will be made during the meeting. In the live stock department there will be an excellent showing of draft horses and fine cattle of both the beef and dairy breeds.

Stanton, Nebraska, opened a meeting July 3d that promised to be a good one. The track is a half mile and on the opening day both races were won by California bred horses driven by trainer Carpenter, in straight heats. Lady Hoy by Strathway won the 2:25 pace, best time 2:16¼, and Zom Jud by Zombro took the 2:30 trot, best time 2:20¼. Rain began early the second day and there was nothing to do but call the meeting off as the track was flooded.

Don de Lopez (2) 2:25 by Kinney de Lopez 2:23 is working nicely for Fred Ward this year and has been stepping miles right around 2:15 on the Nebraska half mile tracks. Don de Lopez is now three years old and is eligible to the Pacific Breeders' Futurity to be trotted at Santa Rosa next month.

"Pop" Durfee has to his credit as a trainer and driver the first 2:10 trotter to be marked in California this year. On Wednesday of last week he drove the former pacer Pegasus 2:07¾, by Zombro 2:11, to a trotting record of 2:08½ at Los Angeles. Pegasus is owned by Mrs. A. C. Severance and his dam is her favorite old brood mare La Belle (2) 2:16 by Sidney, that is also the dam of Conqueror 2:09¾, Amado 2:16 and Don Amado 2:19¼.

Al McDonald worked his futurity candidate Surety, by The Bondsman, a mile in 2:11½ at Pleasanton last week. Surety made but two starts last year. At Pleasanton in the stake won by Rico, he was second the first heat in 2:12½ and won fourth money. At the P.-P. I. E. fall meeting he was outside the money in the stake won by Verna McKinney. Surety is working nicely this year and should be up among the money winners in the three-year-old pacing events.

At Beatrice, Nebraska, July 4th, the 2:17 trot for a purse of $500 had a decided California flavor. Great Northern by Wayland W. driven by Ward won the race, Luana by Kinney Lou, driven by Taylor won second money and Allie Lou by Kinney Lou, driven by Dennis got fourth money. Hal McKinney driven by Sebastian won the match pace, Frank Holloway by Geo. W. McKinney, driven by Sebastian got second money in the 2:22 pace.

C. A. Durfee was in town a day or two this week, but left for Santa Rosa on Tuesday evening, expecting his string of seven young trotters and pacers to arrive there that day from Los Angeles. He has Kewpie, two-year-old colt by Carlokin, that he gave a trotting record of 2:24 last week, and Kinsman Lou, two-year-old colt by Wilbur Lou, that he gave a record of 2:23½ the same day. He also has the three-year-old trotter Manuelito (2) 2:24½ by Manrico, the three-year-old trotter Hermes (2) 2:16¼ by Carlokin, the three-year-old pacer Rico (2) 2:12¼ by Manrico, and the two-year-old pacers Alfredo by Copa de Oro, and Oro Fino by Copa de Oro. Mr. Durfee says he has not given any of these youngsters any miles faster than 2:20 as yet, but they are all moving nicely and are in good shape to go faster if asked to. He expects to start some of them in the futurities at the Santa Rosa meeting.

The trotter Grand Chimes, that had four straight races to his credit and for which $5000 was refused, met his match at Toledo, Ohio, half mile track when he ran up against Wilkes Brewer in the 2:15 trot for a purse of $1000. Grand Chimes was favorite for the race and when Wilkes Brewer got off sixth and made a break in the first heat Grand Chimes won in 2:10¼. In the second heat Grand Chimes made a break and the mare won in 2:10¼. In the third and final heat Chimes went to the front at the word but trotted too fast and made a break and the Wilkes Brewer won in 2:10¾. This is the fastest three heat trotting race won by a mare on a half mile track. Wilkes Brewer is by our old California favorite Nutwood Wilkes and her dam is Mary Bales 2:26¼, the dam of Zombrewer, p. 2:04¼, by Montjoy. She was bred by Z. Brewer, of Columbus, Ohio, and looks like a coming 2:05 trotter.

Notes of Australasian Horses.

Ribbonwood has sired forty that have taken records of 2:25 or better.

The New Zealand pacer King Cole 2:08 3-5, ex-champion pacer of Australasia, has been sold by Mrs. Duncan of Christchurch to H. S. Cribb of Queensland for $3750. King Cole is a son of Ribbonwood and is 12 years old.

The champion pacer of Australasia at the present time is country Belle 2:07 1-5.

Mr. H. Cribb, who paid $3750 for King Cole 2:08 3-5 has also purchased a number of mares and fillies by him. He paid $1500 for Queen of Spades, a black filly by King Cole out of Norice, a mare purchased in California a number of years ago.

The success of the sons of the imported sire Harold Dillon on the concluding day of the New Brighton Derby fixture was nothing short of phenomenal, says the Australian Trotting Record. His stock won over all distances, namely: Antonio (Brighton Handicap, two miles, in 4:36 3-5), Harold D. (Stayers' Handicap, three miles, in 7:37 2-5), Author Dillon (New Brighton Derby Stakes, one mile and a half, in 3:29), and John Dillon (Telegraph Handicap, one mile, in 2:17 3-5).

The imported American stallion Great Audubon, by Peter the Great, defeated 11 opponents in the Brooklyn Handicap at New Brighton on May 20, covering the two miles in 4:53. Having run inconspicuously on the first day of the meeting, his success met with a rather mixed reception, some of the spectators expressing their disapproval by hooting, while a strong counter demonstration of applause was made by another section. R. McMillan, trainer and driver of the imported horse, was called upon to explain the difference on the two days, and his explanation proved satisfactory. Great Audubon has been converted from the pacing gait into a trotter.

NOTES OF THE THOROUGHBREDS.

Geo. Wingfield's $6000 horse Bank won the Nevada Derby last Saturday.

The Tiajuana meeting will come to a close tomorrow after a successful run of 100 days that has been very profitable to the management.

When Ed Cudihee won the Riverside Handicap, six furlongs, in 1:12 2-5 at Reno last Wednesday, he lowered the track record three-fifths of a second.

If you want to race your running sprinters ship them to Santa Rosa for the fair. There will be plenty of $100 overnight purses at all distances under a mile.

A dispatch from Reno says: "The Reno meeting is such a success that it is likely to be extended, at least two or three days per week, until the meeting in September, which is almost certain to be of twenty-five days instead of thirteen, as announced."

The three American jockeys who are now riding in Germany finished first, second, and third at Hoppegarten out of sixteen starters where the Logierhaus Handicap was recently run off. Archbald won the race on Herr Haniels's four-year-old Polymelus filly, Cresta; Sumter was second on Pares, and Kerb third, on Hercules.

O. A. Bianchi owns two of the four yearlings alive this season by the noted sire Jim Gaffney, that has already sent to the races a winner of two Derbys in Dodge, and such other brilliant performers as Emerson Cochran, Franklin, Sedam and Berlin. The youngsters Bianchi owns are both bay colts, one being out of Amie C., the dam of M. B. Thurman, and the other out of Viola B., the dam of Emerson Cochran. Yearlings by Jim Gaffney sonsist of a filly owned by John Carr and a colt that belongs to another Lexington breeder, Zack Connors. Bianchi has refused several flattering offers for the two colts he owns by this noted sire, and unless he secures his price he will train and race these youngsters himself as two-year-olds next season.

The first of a series of sales of thoroughbred yearlings the Powers-Hunter Company of New York have arranged for the summer meeting of the Saratoga Association at Saratoga will be held August 5th in the race track paddocks, when the produce of the studs of Walter O. Parmer, Parmer & Hendrie and John E. Madden are offered to the highest bidders. The youngsters to go under the hammer represent the best racing output of the leading breeding establishments of Tennessee and Kentucky.

The Edenwold youngsters are sons and daughters of Ballot, the imported Assagai, The Commoner (one of the most brilliant of the many famous sons of Hanover), Transvaal, Ivan the Terrible (sire of Hodge), Sain, Dr. Boots (full brother of Great Britain), and Star Shoot. The solitary Sain yearling in the lot is from Traditional, a daughter of Tradition; Ballot is represented by a half brother of Apple Toddy and Loftus, a half sister of Star Bird, and others; Star Shoot by a half sister of Bessie Latimer and a half brother of Tecumseh, and The Commoner by brothers and sisters of Bob Co, Simcoe, Miss Jonah, Superb, Marianao, etc. Ticket, Ballad, Bally, Capra and sundry clever two-year-olds have brought Ballot into unusual prominence this season ,and there will be a big demand for the produce of that sterling son of Voter and Cerito.

The Madden stud, which in the last twenty years has sent half a hundred first-class performers to the American and European races, was never more brilliantly represented than it is this year.

Dodge, winner of the Latonia Derby this year, was an easy winner of the American Derby at Hawthorne Park, Chicago, on Saturday last. The time, 2:04 3-5, is a new record for that once famous track. There was an attendance of 30,000. Churchill, the foxhall P. Keene entry, was outrun from the first jump and was disgracefully beaten at the end.

The betting was conducted on the oral system and things moved along nicely. Society was out in force and many of the business men in Chicago made the trip to the track. The automobiles were parked in the infield, below the paddock, and around the west end of the stand, and it was estimated that there were nearly 1,500 machines in the track, and when the horses paraded for the post for the Derby there was no vacant space in the grandstand or on the lawn.

The race was robbed of its chief interest when George Smith did not run. The track has been so hard that the Sanford horse became sore, and was forced to decline the issue.

Franklin cut out a very stiff pace for his stablemate and led his field for more than three-quarters of a mile, then Dodge moved into the lead and, gradually increasing his advantage to the finish, won pulling up by six lengths.

Faux made a determined bid to catch the flying leader, but of no avail, though he beat Franklin three lengths for the place. Only four horses started.

The race carried a value of $7,000 to the winner, with $1,750 to the second, $750 to the third and $500 to the fourth horse.

Stock Breeders' Page

University Advice in Hog Management.

The University is devoting much of its energies to induce hog raisers to replace their "scrubs" with thoroughbreds, pointing out the facts, often before stated, that more pork in less time and at less cost can be had from pure-breds than from grades or scrubs.

California devours three times as many pigs every year as it raises. The University of California is campaigning to stop this extravagance of shipping vast sums out of the state for pork products that ought to be raised at home, for more pigs means more prosperity and more fertile farms.

The university points out that there are twice as many people in California today as 28 years ago, but fewer hogs by one-fourth. To show the Californian farmer how to make money raising swine is the object of a circular on "The Feeding and Management of Hogs," written by Professor J. I. Thompson, and just published by the University of California. Copies may be obtained free by writing to the college of agriculture at Berkleley.

Most California farmers use up about twice as much feed getting a pig ready for market as is really necessary, the university points out. The prevailing system is to let pigs live exclusively on alfalfa pasture, the pickings of stubble fields, and orchard and vineyard waste. This means that it takes from 16 to 21 months to get a pig ready for market. The university has proved by experiments at the University Farm at Davis that it is much cheaper to add a medium grain ration and get the pig ready for market at about ten months of age by the consumption of only about half as much food.

A "cafeteria" or "free choice" system of self-feeders is recommended by the university for the rapid and economical raising of pigs for market. The different elements of a well-balanced ration may thus be kept before the pig, so that he may help himself. Instinct leads the animal to eat exactly what it needs for a scientifically balanced ration. Thus the pig will attain a weight of 200 pounds at from 7½ to eight months of age, and flesh will result of the best quality.

Here is some other counsel for the swine-grower, set forth in Professor Thompson's new university publication:

Swine-growing means profitable use of farm crops and maintenance of fertility.

Pure-bred pigs pay, for they put on gain in that part of the carcass most valuable to the butcher, and are ready for market long in advance of "scrubs," and at less cost, therefore, for food.

Sows should be at least a year old before producing the first litter.

Mature sows grown by the university have farrowed 12 per cent more pigs and 21 per cent heavier pigs than sows bred too young.

High condition is beneficial to the sow at breeding and farrowing time.

The best product and the greatest economy in bringing hogs up to a market weight of 200 pounds is by continued combination of grain and pasture.

In-breeding should be avoided, but even more harmful is the continuous use on a ranch, year after year, of immature sows and boars.

Hogs must have clean, dry, sleeping quarters, free from drafts.

A mud hole for hogs is worse than nothing, but a hog-wallow of concrete, with an outlet drain so that it can be kept clean, is very useful.

Hog cholera is the cause of nine out of ten of the deaths of hogs from disease in California. Pains should be taken to prevent its introduction. The university's work in producing serum for the treatment of hog cholera furnishes the means to put an end to epidemics once started.

The hog-raiser may become his own meat-producer if he will follow the directions the university gives in Professor Thompson's publication for making salt pork, bacon, lard, sugar-cured hams, and sausage delicately flavored with black pepper, cayenne and sage.

Exporting More Shorthorns.

South American countries are placing orders in this country for Shorthorns and judging from the great activity of Shorthorn breeders in California there is expected to be some of this southern trade come to the Pacific coast. South American breeders are not able to supply their demands in the British Isles, due to the war, hence their next most convenient market is the United States.

The largest individual order placed in this country for a decade from foreign breeders was the one recently filled by a Hillsborough, Texas, breeder, who shipped to Argentina 25 head of Shorthorn bulls, receiving $500 per head for the animals. Nicaragua, Guatemala and other southern countries are buying this breed of cattle in the United States, the most activity ever noted being during the last five months.

A Profitable Jersey.

The official announcement of the winners of the American Jersey Cattle club medal awards for 1915, just published, shows the most successful year the register of merit department has so far experienced, both in the number of records accepted and in the quality of them, and also shows the possibilities of dairying with the right kind of cows and the right king of management.

Among the 1448 cows competing for honors in 1915, there stands out with dazzling brilliancy a new star in the Jersey firmament, the great cow Dosoris Park Lily. Dosoris Park Lily started her year's work on December 3, 1914, and produced in the following 365 days 16,728 pounds of milk, containing 957.4 pounds of butter fat. This production was the highest record of the year, but on February 29, 1916, "Lily" earned the title of grand champion of 1915 when she dropped a live, vigorous heifer calf which had been carried 188 days of the test period.

Owned on an estate where sanitation is the paramount consideration and the highest grade of milk the object, "Lily" was obliged to stand in a stanchion with her stable mates throughout the greater portion of the year, and receive the regular routine treatment followed in an establishment of this kind.

"Lily's" milk, being certified Jersey milk, sold for 20 cents a quart and therefore the 16,728 pounds of 5.72 per cent milk was worth $1,558.08. Valuing her entire grain ration at $37 a ton, alfalfa hay at $26 a ton and silage at $5 a ton, "Lily" returned a profit of $1,357.16 over and above the cost of her feed, in spite of the high valuation placed on it. This return on her milk alone represents 5 per cent interest on $27,143.34. The heifer calf is valued by its owners at $2,000. The return on "Lily's" entire product for the lactation of 1914 to 1915 represents 5 per cent interest on $6,514.4.

More Blooded Stock for Sacramento Valley.

Sacramento valley capital continues to go East to purchase stock, indicating that the "better stock business" is being taken up by breeders all over the valley, says the Sacramento Union. The fact that nothing but the best satisfies the breeders is gratifying. The city moneyed man is just as enthusiastic as the experienced stockman and breeder in the rural sections, and not a few of Sacramento business and professional men are now counted among the fancy stock breeders. Messrs. Henderson, Gerber, Kiesel, Dr. Faris, McGilvray and others already have large registered herds, and have put many thousands of dollars into good land holdings and buildings, with educated and experienced managers in charge of the ranches.

W. M. Hammond of Chico recently purchased, through Murphy Brothers of Perkins, Sacramento county, a seven months' old Shorthorn bull calf, paying $700 for the animal, which was purchased by Mr. Murphy from Saunders & Son of Manilla, Ia. This fine-haired youngster was purchased by Mr. Hammond to head his band of fine Shorthorns. The sire of this calf is a three-year-old, and was 26 times grand champion in as many shows. His grandsire is valued by Mr. Saunders as $25,000.

Mr. Hammond's Shorthorn establishment will be second to none in the state or on the coast. He has an ideal farm of 2,000 acres located near Chico, capable of supporting several hundred head of cattle. Two large barns have recently been erected on the ranch, and a third is under construction.

A Novel Mule Show for Prizes.

The Boone County Fair, through the Columbia Retail Merchants' Association, announces a $1,000 Mule Colt Show to be held at the fair grounds at Columbia, Mo., on Friday, August 4, 1916, the last day of the fair, with premiums as follows:

1st premium, $300; 2nd premium, $250; 3rd premium, $200; 4th premium, $175, and six other cash prizes.

The first four mules will become the property of the Columbia Retail Merchants' Association, and must be delivered sound and in good condition to the said Association on September 18, 1916.

In the event that the winner of the third premium prefers to do so he has the option of taking $40 cash and retaining his mule. In the event that the winner of the fourth premium prefers to do so he has the option of taking $30 cash and retaining his mule. Fifth to tenth premiums inclusively will be paid in gold at the time of the judging of the mules.

Killing Cattle Wastefully in Mexico.

William Penn Anderson tells the Live Stock World that the Mexicans have killed and are killing large numbers of cattle in a most wasteful way. He says he has seen a bunch of a dozen or more steers that had been shot down and only one side of the loin cut out—the choice portion for each man—and all too lazy to turn a steer over and cut both loins.

However, notwithstanding the waste, Mr. Anderson says that he thinks there will be as many cattle in Mexico when peace comes as there was before the present long series of revolutions began. His argument is that comparatively few cattle have been sent out of the country and they have had a chance to breed and multiply. He says the peons have religious scruples against killing and eating mother cattle and thinks that fact will result in saving vast numbers of cattle that would otherwise have been destroyed.

Horseless Farms Long Way Off.

Some prophets and sons of prophets who predict that horses on the farms will soon be only a memory will have passed away, and pleasing epitaphs will be carved into the stones which mark their resting places, long before their prophecies become fact. The introduction of the farm tractor will not, as some believe, remove the horses from the fields and from their pastures, "Farm Machinery" asserts.

The one thing that the farm tractor will do is to supply the need of power on the farms which horses cannot give. Take away the farm tractors which are in use today and several hundred thousand horses would be required to replace them, or if horses could not be had the lands would have to go unplowed and untilled.

The number of tractors now in use will be multiplied many times within the next ten years, but there will be as many horses in this country as there are today, and prices will be even higher than now.

Farm tractors are becoming a necessity, just as electric street cars have become—the same as telephones have supplanted the telegraph in a way and have taken the place of messenger boys and quick delivery of mail. No one will agree that there are not more miles of telegraph wire in use today than ten years ago, nor can it be said that there are fewer messenger boys, yet the telephone is in almost every business house and in many households, doing work for which there was little demand a few years ago.

The farm tractors will simply fit into the greater needs of the country and will do the heavier chores and drudgery which horses are little fit for. They will not replace the horse, but will simply assist them and make life easier for them. They will also enable the farmers to breed better horses because their mares will be kept for that purpose instead of spending half or more of their time in doing heavy work. Let us not dream too long upon the practicability of the horseless farm. It is a long way off, as yet.

Chicago Horse Market.

The Chicago Live Stock World gives the following as to midsummer conditions of the horse market in that city.

Were it not for army inspections, horse dealers and commission men might as well take a prolonged vacation. A few commercial horses are being taken, but buyers show no avidity whatever and bargains have to be hung up to bait the consumer. While general trade is quiet it is no worse than in past summer seasons. Horses of quality can always be cashed, but this sort is particularly hard to find.

Pennsylvania dealers are taking a few decent quality feeders, but this sort is also scarce. Good blocky wagon horses are quotable at $180@225, but few offerings are required to meet demands. Common quality horses of all classes are almost unsalable and rejects from army inspectors are sold at ruinous sacrifice.

In the British inspections field artillery horses are bought at $185 and heavy artillery at $200. French artillery horses are still pegged at $160, but few riders are wanted now. The Swiss government is in the market buying at retail only. They are buying a better grade than the other foreigners and paying a bit more for them.

Experiment in Beet Feeding.

Kerman, July 15.—A great many of the dairymen of the Kerman district are watching with interest the results to be obtained from a test of feeding stock beets to dairy cows. Howard Dickson, agricultural instructor at the Kerman union high school, planted several varieties in December last, and has kept a careful record of their growth. The first ones were ready to feed in May and at the present time the beets weigh from ten to twenty pounds each. Dickson planted the seed on the poorest ground on the high school demonstration farm, and the exceptional growth shows that this kind of feed will grow without much attention.

A test is now being made feeding the beets to several of the dairy cows of the district and in most cases the milk flow has been greatly increased. Dickson is keeping a record of the increase and hopes to be able to offer the farmers some accurate figures within the next few months. He says that the beets can be grown at a cost of around $1.05 an acre.

Harry L. Murphy, member of the firm of Murphy Brothers, owners of the Brighton herd of Shorthorns, has returned from the East, bringing a carload of registered Shorthorns to add to the home farm. The $700 eight months' old bull calf which he purchased in Iowa is a beauty, and the firm is justly proud of this fine addition.

◈ ◈ ◈

August Belmont's catholicity of taste in horseflesh continues to excite admiration among the partisans of other breeds than race horses. Reports from Lexington state that the chairman of the Jockey Club has just purchased of John T. Hughes two Kentucky saddle bred horses to be used as officers' chargers by members of the New York National Guard. One of the animals is the bay gelding Shawnee, by Red McDonald. He was exhibited last year by Dr. V. T. Churchman, of Charlestown, W. Va.

◈ ◈ ◈

The Horse Show Blue Book for 1916 will be known as the National Horse Show number, for which A. H. Godfrey is writing a history of the Horse Show from its inception, in 1883, with an account of the leading winners.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

THE WHARF ANGLERS OF CALIFORNIA.

(Scene: Redondo Pier.)

I watched one old woman holding her rod point down, without moving for half an hour; then she pulled in to find she had no bait. Some men would have made remarks, and persons of delicate sensibilities would have noticed sulphur in the ozone, but the old woman smiled. She was not an "advanced woman," that was evident. She was still satisfied to allow the men to do the loud talking.

The colored contingent, in all probability, enjoyed the sport the most when an old mammy hooked a two-ounce smelt. The entire picnic drew about and made remarks:

"Fo' de Lord's sake! Luk at Mis' Johnson. What am she at? Why, Mis, Johnson, Jonah hisself couldn't have done better."

"Go way, boy," retorted the old woman, "I ain't a-countin' ma aigs befo' dey's laid."

Mis' Johnson was lifting up a four-teen foot pole with an overhand motion until she reached the line, which was rolled up, entangling it in a hundred knots. When the smelt came in she gave a jerk, tossed it into the air, and fell backward, a very black, very happy victor.

"A smelt! Fo' de Lord's sake! What do he smell like?"

"He doan' smell; he's smelt," explained a young high school colored angler.

"I don't care whether he has smell or hasn't," rejoined Mis' Johnson. "I doan' see you smellin' any fish."

All day the poles waved up and down under a clear, cloudless sky, and the fishermen and fisherwomen breathed in the pure, salt-laden air, sat and loafed the time away; illustrating the extreme possibilities of patience, as some of them did not catch anything, yet were satisfied, for they had been fishing.

These wharf anglers number thousands in California. They combine and have had laws passed to protect the fishes, preventing net fishing near the piers, and are an important and discriminating part of the community. The sport is eminently adapted to the man or woman of advanced years who cannot go along the sandy beaches and cast a heavy rod and bait out beyond the surf, or wade into it and play the five or six pound surf fish; hence the latter anglers constitute a different class, and are to be compared with the channel bass and striped bass anglers of the New Jersey beaches.

The coast of California abounds in fine beaches, which are frequented by hardy anglers from Point Conception to Coronado. They stand in the heavy surf or on the sands and cast as far as they can, finding rare sport in the surf fish, known to science as Seriphus politus, a fish that feeds in the surf on the little sand crabs which are washed out of the sandy beaches and swept out by the undertow.

When we come to the ports, as Los Angeles or Newport Landing, we find attractive launches, manned by Japanese or Italians, who take out anglers of another class—those who cannot go to the channel islands, so go off-shore, from five to ten miles, troll for barracuda, bass or yellowtail; or they may troll about such grounds as Point Firmin, where good sport is often found.

There are many fishermen and anglers, of many tastes and fancies, but they are all actuated by the same friendly and philosophical motive, and it is well to remember "they must be born so." C. F. H.

Pasadena, Cal.

Coast Bull Terriers Complimented.—The Pacific Coast breeders have turned out some cracking good bull terriers in their day and some of them, like Edgecote Peer and Sombrero, have come East and acted pretty well as they liked with our effetes. The general run of bull terriers on the Coast was always good for years though we believe from reports the breed is not going as strong as it might just now. One of the great examples that did not come East for show honors but which was said to have all the make-up for the venture was Williamette Defender, bred by that earnest terrier man, Frank Watkins of Portland, Oregon. Defender died June 25th, at the home of his long owner, Mrs. Storey. He came out in 1907 at Portland under Clayton, who gave him best in show any breed besides all his own breed specials. Though not pushed at all he became a champion in 1910 under Major Taylor, George Thomas, Ben Lewis, Clayton and other judges he invariably won leading honors, Thomas giving him his last veteran special at the Bungalow Theatre show in Portland, Ore., in 1913. He was never shown after but was a laster like most of these Pacific bred good ones and became a great favorite with the boys around his Nob Hill home, when he became the particular pal of young Storey. He was just ten years o'd and was by the great Ch. Edgecote Peer out of General Custer's Belle, thus being one of the very last to combine the great producing blood of the two famous terriers Woodcote Wonder, who resided for some time out there, and Edgecote Peer. His picture shows him a bull terrier fro mend to end.—H. W. Lacy, American Fancier.

Local Hunters Getting Ready.—The deer season will be ushered in on August 1 by scores of hunters in districts 2 and 3, lying north and south of San Francisco and west of the Sacramento and San Joaquin rivers. District 2 is north of the bay to the northern boundaries of Glenn and Mendocino counties. District 3, south of San Francisco, to the southern extremity of San Luis Obispo county. Collectively the districts embrace Mendocino, Glenn, Colusa, Yolo, Solano, Lake, Napa, Sonoma, Marin, San Mateo, Contra Costa, Alameda, Santa Clara, Santa Cruz, Monterey and San Benito counties, and those parts of San Joaquin, Stanislaus, Merced, Fresno and Kern counties lying west of the San Joaquin.

The season in these districts lasts slightly over a month, the closing date being September 14. Districts 1, 2 and 3 are the next to open the season for the bucks, August 15 being the date. In district 4 the season does not open until September 1 and closes again at the end of the month.

The law limits each hunter to two bucks during the season. It is illegal to take, kill or have in one's possession any doe, fawn or spike buck, or to remove the evidence of sex from any deer shot. The minimum fine for killing does or fawns is $50.

The coming season promises to be one of the best in years. Early reports indicate that deer are plentiful throughout the state. The Fort Bragg deputy of the Game Commission writes that more have been seen there than at any time in five years. The bucks are said to be fine specimens, though the horns are still in velvet.

While the deer hunting spots in Marin county are easy of access, and the animals suffer greatly as a consequence from the depredations of the hunters, the first few weeks at least in that section should produce good hunting. Reports from various small towns and adjacent farms state that numbers of deer have been invading the truck gardens and working havoc among the vegetation.

Hunting licenses issued prior to July 1 are invalid, as they expired on the first of this month. Before hunting, sportsmen should procure new licenses for the season of 1916-1917.

Other shooting seasons follow close on the opening of the deer hunting periods. The first of next month sees the legal bars raised on the shooting of mountain grouse or quail in districts 1 and 23, and on sage hens and doves in all districts.

Sea Gull Chums with Dog.—In this connection the following story is related in the British weekly:

At a small farm in the parish of Fyvie, Aberdeenshire, during the summer of 1910, a sea-gull took up its abode and made friends with the farmyard poultry . To vary the monotony of its life with its somewhat sedate feathered companions, the "sea-goo" struck up a weird platonic friendship with the "town" dog, which, with obliging good nature, was not slow to respond, and the strange pair might have been seen hobnobbing at almost any hour of the day. When surfeited with the tiresome company of mere cocks and hens, the "goo" slipped jauntily in behind Rover, and with its bill gave the tip of his tail a sharp tug. Then the fun began. Rover stood stock still and glanced around, first at one side and then the other, at his tormentor; then, with a terrible pretence at a bark, jumped round upon the gull. The gull, however, through frequent practice, had accurately measured the length of Rover's spring, and hopped nimbly out of reach, only to renew the trick again and again. There could be no doubt of the dog's enjoyment of the game. Many neighboring people visited the farm to watch the cantrips of the strange pair, and the comical manner in which Rover used to stand up and invite the gull's attentions was proof positive that he at least possessed no mean sense of humor. Many other curious instances of strange friendships in the animal world will doubtless occur to our readers.

Stray Dogs Catch Fish.—One thing to get full attention next year from the Fish and Game Commission is the predatory dogs which caught many big fish in the Bear Valley creeks last spring, apparently just for sport. These great "spawners" will work up a creek until stranded, and are easy game for dogs. Deputy Malone served notice upon their owners wherever found, and another year more drastic measures will be adopted. This is one form of loss hard to combat, but it can and will be stamped out, as every breeding fish is now coming to be accepted as worth far more money to the State if left in the water than used in any other manner.

EIGHTEEN STATES HAVE "BUCK" LAWS.

Governor Whitman of New York has vetoed the bill permitting the shooting of does. The bill by the amendments proposed gave protection only to fawns, for it provided that during the open season a person might take one deer not less than a year old, of either sex. In his memorandum Governor Whitman said:

"No person can conceive of a surer way of exterminating deer than that provided under the proposed bill which permits the killing of breeders. I believe that the genuine sportsmen of the state are in favor of the retention, without change, of the present so-called 'buck law.'

"In eighteen states, including New York, the killing of female deer is prohibited by law. For New York to step out of this column of states would, in my judgment, be a long step backward in the matter of conservation, and I believe that this state cannot afford to offer such an example as this to the world.

"The number of hunting fatalities in this state is considerably lower than in states without such a law as the present one, the theory being that a hunter has to look carefully enough to ascertain whether the animal at which he is about to fire has horns and therefore is not likely to mistake another hunter for a deer."

The Safe Sport.—During the ten years from 1905 to 1915 nearly 1,000 persons died from injury or over-exertion in some branch of sport, according to statistics cited by "All Outdoors."

Baseball heads this grim list, with 284 deaths; football claimed 2:15; automobile racing, 128; boxing, 105.

Every one of the outdoor sports, even such pastimes as tennis and golf, added their bit to the quota.

Trapshooting did not cost a single life.

Thousands of men fired millions of shots during this period. Each shot fired had sufficient destructive power to blot out a life instantly.

The record speaks volumes, not only for the soundness of the safety rules governing this sport and the strictness of their enforcement, but also for the superior mental poise of the men engaged in it.

Rifle shooting is not even mentioned in this list. Following the game closely during the past seven years, the writer has not noted a single fatal accident in any target competition with the rifle. Only one, so far as he knows, mars the record of pistol shooting. That was due to the careless handling of a hair-trigger pistol by an excited foreign competitor at the international pistol contest at Camp Perry, two years ago.

The "mistaken for game" accident is steadily decreasing in the hunting field. And for this we have chiefly to thank the funny men, the newspaper cartoonists and paragraphers who, year by year, have driven home the grim ridiculousness of mistaking a fellow human for an antlered quadruped.

The man to whom "safety first" appeals as a motto will do well to consider shooting mighty seriously when selecting an outdoor diversion for his leisure time.—C. L. Gilman.

Ty Cobb Tells Story.—In the land of Dixie, Ty Cobb is quite as celebrated as a nimrod as he is a swatter of the horsehide sphere on the American League Circuit, and in any prolonged conversation with the great player, the talk almost invariably turns to tales of field and wood.

Tyrus has a vast repertoire of hunting stories, but the following is Ty's best bet in shooting narratives.

"In one of our shooting parties," said Cobb, "there was a fellow who talked with a drawl that was the limit of slow speech. He was working well in advance of another gunner when a cover of quail got up and the man in the rear cut loose with his right barrel.

" 'H-e-y,' yelled the man in front, 'd-o-n-t s-h-o-o-t t-h-i-s w-a-y.'

"To which the shooter replied, 'I won't hit you.'

"In a few minutes more birds were flushed, and the gunner took another shot.

" 'H-e-y,' came the voice of the drawler, 'A-h t-o-l-d y-u-h n-o-t t-o s-h-o-o-t t-h-i-s w-a-y.'

"By this time the shooter had lost his patience and yelled, 'Shut up, I don't hit you.'

" 'W-a-l,' came the reply, 'y-u-h d-o-n-e h-i-t m-u-h t-w-i-c-e, n-o-w.' "

Big Catches in Bear Lake.—Henry Shay, one of the wise old fishermen of Bear Valley, feels pretty well satisfied with himself for the record he has made this year in fishing. His largest trout, which he will have mounted, tips the scales at eight pounds and eight ounces and it bids fair to take some of the trophies offered for the largest trout caught this year.

Wilson Spoor and Karle Morgan have been having excellent luck in fishing during the time they were not busy getting blisters and building an addition to their camp near the hotel. They brought in several messes of fine trout recently and it is believed that they have located a real "secret" pool where the fish are plentiful.

The fishermen are attempting to discover why it is that the fish bite good for several days on a stretch and then for a week or so will not rise for anything.

Grand American Handicap Drawing Near

TRAP SHOTS FROM ALL OVES COUNTRY WILL GO TO ST. LOUIS NEXT MONTH FOR THE BANNER EVENT

The Interstate Association's Seventeenth Grand American Handicap Tournament will be held at St. Louis, Mo., under the auspices of the St. Louis Trapshooters' Association, August 21 to 25, 1916.

St. Louis, "The Gate Way of the West," the metropolis of the Mississippi Valley,—a more favorable or centrally located place could not have been selected by the Interstate Association at which to conduct the classic event of the trapshooting world. Taking into consideration the importance of this event St. Louis offers every necessity to properly conduct a most successful Grand American Handicap. There are many reasons why you should attend the coming tournament. St. Louis is served by 26 railroads, midway between the country's geographical and population center and within a night's ride of thirty million people. Its ability to handle large crowds is tested constantly and not found wanting. In June this year St. Louis made a National political convention comfortable in every way. The hotel accommodations are of the very best and the visitors are assured that only regular rates will prevail.

St. Louis' slogan "To the Front" is shown by the many new and original ideas which have been worked out by the St. Louis Trapshooters' Association.

The selection of a permanent shooting grounds for this year's Grand American Handicap will appeal to every trapshooter. One of the distinct features will be the use of permanent buildings in place of tents. One can readily appreciate what this means for comfort and the handling of a large attendance. The locker building is 30x60 feet, in which the stock of loaded shells will also be stored. This will avoid the carrying of cases any distance. A large pavilion 60x100 feet will provide shelter for the shooters and also contain the bulletin board, gun racks, etc., and will be used as general rest room. The restaurant building, 40x80 feet, fully screened, and a ladies' rest room 20x30 feet, with all conveniences, are part of the regular equipment.

The location of the traps covers a firing line of 700 feet laid out on a level tract of land with every convenience for the shooters. The equipment is complete and modern in every respect.

From the standpoint of the spectator the view of the traps is perfect, the raised terrace behind the firing line gives a clear, unobstructed view of all the contestants competing at the traps. A grandstand located behind the professional trap, where all the special events will be held, will seat several hundred.

The entire grounds is covered with a beautiful lawn. A large space near the entrance of the grounds will be used for the parking of automobiles and with the features already mentioned St. Louis offers the finest shooting grounds in the country.

The St. Louis Trapshooters' Association needs no introduction to the trapshooting fraternity. Since its organization ten years ago it has been very active in promoting trapshooting and has staged some of the largest and most important events. The association is not operated for personal gain to anyone and is intended to be solely in the interest of the sport of trapshooting. Every gun club in the vicinity is a member of this association, having a membership of over 500 active trapshooters. It is the public shooting park of St. Louis and, in addition to many special events held during the year, it conducts weekly club shoots for the interest of its members. Identified with this shooting organization are some of the most prominent business men of St. Louis who have been very active in connection with various civic leagues, to make the Seventeenth Grand American Handicap the greatest Tournament ever held.

Trapshooters Are Prepared.—Thousands of trapshooters have answered the call to the colors, and many thousands more are prepared in every sense of the word to respond to any further summons from Our Uncle Sam to "clean up" Mexico. While others have been shouting preparedness from the housetops the trapshooters' brigade went right along and trained the eye and arm by firing at the inanimate clays—for being able to shoot accurately is the main idea of preparedness.

While war, or even the talk of war, will decrease the interest in many forms of sport, it will give trapshooting its greatest boom. The day is coing when it will be just as necessary to be able to handle a gun and shoot accurately as it will be to take other forms of exercise. As many persons took up the sport of trapshooting during the year 1915 as in the four years previous, and 1916 promises to outdo all other years.

As many persons participated in the beginners' day shoots in June—persons who had never before handled a gun—as entered through the novice ranks last year. Nearly every one desires to learn the proper method of shooting, and the easiest and quickest way to learn is to appear before the traps at some gun club. There are always men there who are willing to give instructions.

Furthering the project of teaching the idea of shooting, a trapshooting school was opened in Atlantic City in the spring, and on an average 100 novices each week have been given instruction there.

BRIEF HISTORY OF THE G. A. H.

1900 ..... 74 Entries
Held at Interstate Park, N. Y., June 14th.
R. O. Heikes (22 yards) winner, 91 ex 100.

1901 ..... 75 Entries
Held at Interstate Park, N. Y., June 18th.
E. C. Griffith (19 yards) winner, 95 ex 100.

1902 ..... 91 Entries
Held at Interstate Park, N. Y., May 8th.
C. W. Floyd (18 yards) winner, 94 ex 100.

1903 ..... 192 Entries
Held at Kansas City, Mo., April 16th.
M. Diefenderfer (16 yds.) winner, 94x100

1904 ..... 336 Entries
Held at Indianapolis, Ind., June 23rd.
R. D. Guptill (19 yds.) winner, 96 ex 100.

1905 ..... 352 Entries
Held at Indianapolis, Ind., June 29th.
R. R. Barber (16 yds.) winner, 99 ex 100.

1906 ..... 290 Entries
Held at Indianapolis, Ind., June 21st.
F. E. Rogers (17 yds.) winner, 94 ex 100.

1907 ..... 495 Entries
Held at Chicago, Ill., June 20th.
Jeff J. Blank (17 yards), winner, 96 ex 100.

1908 ..... 362 Entries
Held at Columbus, Ohio, June 25th.
Fred Harlow (16 yards) winner, 92 ex 100.

1909 ..... 457 Entries
Held at Chicago, Ill., June 24th.
Fred Shattuck (18 yards) winner, 96 ex 100.

1910 ..... 383 Entries
Held at Chicago, Ill., June 23d.
Riley Thompson (19 yards) winner, 100 ex 100

1911 ..... 418 Entries
Held at Columbus, Ohio, June 22d.
Harve Dixon (20 yards) winner, 99 ex 100.

1912 ..... 377 Entries
Held at Springfield, Ill., June 20th.
W. E. Phillips (19 yards) winner, 96 ex 100.

1913 ..... 501 Entries
Held at Dayton, Ohio, June 19th.
M. S. Hootman (17 yards) winner, 97 ex 100.

1914 ..... 515 Entries.
Held at Dayton, Ohio, September 10th.
Woolfolk Henderson (22 yds.) winner, 98 ex 100.

1915 ..... 884 Entries
Held at Chicago, Ill., August 19th.
L. B. Clarke (18 yards) winner, 96 ex 100.

Seattle Association.—R. W. Kinzer had a good day at the Harbor Island traps on July 9th. He led both amateurs and professionals in both the 50-bird and 100-bird events. The good weather favored the marksmen, and the general average of the scores was high. Kinzer got 48 out of 50 and 96 out of 100. McKelvey, D. Rhodes and Wilkes were close up to the leader in both events.

The Class C trophy was won by J. V. Hough, who defeated A. T. Gerrard. This was Hough's third victory and ends the competition for all four of the McKelvey cups.

McKelvey, Wilkes and Rhodes tied for second place in the 50-bird event with 47 to their credit, and Hambright took third with 46. The scores:—

50 targets—R. W. Kinzer 48, C. E. McKelvey 47, Tom Wilkes 47, D. Rhodes 47, George Hambright 46, Fred Landwehr 45, Hugh Fleming 44, Joe Bacher 44, R. S. Searles 43, H. J. Davidson 41, C. L. Templeton 40, J. V. Hough 39, J. H. Templeton 39, W. B. Cook 36, A. J. Gerrard 35, M. G. Sturgis 34, C. W. Bandy 33, A. E. Hall 30.

100 targets—R. W. Kinzer 96, D. Rhodes 96, C. E. McKelvey 95, Tom Wilkes 94, Hugh Fleming 90, Fred Landwehr 89, Joe Bacher 89, J. H. Templeton 85, C. L. Templeton 76, M. G. Sturgis 67, A. E. Hall 64.

Portland Club.—Frank Templeton topped the nimrods in Sunday's practice shoot of the Fourth Annual Registered Trapshooting Tournament of the Portland Gun Club on July 9th, with the score of 95 out of a possible 100. Frank C. Riehl of Tacoma was high professional with 96 per cent.

Close to 40 shooters, including a number of out-of-town trapmen, participated in the events.

Six shooters tried their hand at shooting doubles. Frank Templeton, Jim Seavey and Charles Leith tied with the score of 20 out of 24.

The score:—H. E. Poston* 89, G. Hawmage 79, Charles Veith 90, A. C. Fulton 76, *E. B. Morris 86, F. Riehl 96, E. Kelleo 84, P. H. O'Brien 94, F. Templeton 95, H. A. Pollock* 73, J. Reid* 88, J. Morris 82, F. O. Joy 64, A. L. Zichrosson 87, A. Parrot 87, Al Seguin 91, J. S. Crane 68, A. Woelm 81, Dr. O. D. Thornton 88, Mrs. Ada Schilling 86, *C. J. Schilling 92, *J. P. Bull 94, *E. B. Van Gorman 73, *P. J. Holohan 84, A. W. Stanops 82, G. W. Harvey 62, Con Hilger 86, C. C. Kelley 65, J. W. Seavey 94, M. McCormick 71, L. Holohan 40, E. L. Mathews 92.

*Professionals.

Those who witnessed the first of the registered shoot, on July 10, are still wondering how Frank M. Troeh, the sensational Vancouver, Wash., amateur and champion, managed to miss his 126th target.

The main event was a 200-bird race and, save for the one slip, Mr. Troeh broke 'em all. The nearest rival to the Washingtonian's 199 score was Peter H. O'Brien, of the Portland Gun Club, who dropped four clay pigeons, and Charles Leith, of Woodburn, Ore., captured third honors over all with 194.

All three leaders were amateurs, and the closest professional to count was P. J. Holohan, of Portland, and he was credited with 191 out of a possible 200.

The high run of the tourney, of course, went to Frank M. Troeh, when he scored that 125 straight, closely followed by a 74. Charley Leith, of Woodburn, Ore., was second high run king, with 83.

A. W. Strowger, president of the Portland Gun Club, acted as cashier of the shoot. The result showed that the affair will be repeated.

H. R. Everding, ex-president of the club, came down from Shipherd's Springs, Carson, Wash., to take in the gathering, but he did not shoot. He had Captain Benham, of Aberdeen, Wash., as his guest. Captain Benham is a member of the Grays Harbor Gun Club and, although practically a new one at the game, he is enthusiastic over the sport. The scores follow:—

*H. E. Poston, San Francisco, 190; E. G. Hawman, Woodburn, 170; Chas. Leith, Woodburn, 194; Peter Whitney, Woodburn, 166; *E. B. Morris, Portland, 180; *J. E. Reid, Portland, 182; Frank Templeton, Portland, 188; E. H. Keller, Portland, 179; P. H. O'Brien, Portland, 196; *F. C. Riehl, Tacoma, 189; *J. P. Bull, Portland, 185; W. W. McCornack, Eugene, 161; *C. J. Schilling, Portland, 190; Mard Siddall, Salem, 177; Dr. O. D. Thornton, Portland, 188; *P. J. Holohan, Portland, 191; Frank Van Atta, Vancouver, 185; Frank M. Troeh, Vancouver, 199; Archie Parrott, Portland, 172; J. W. Seavey, Portland, 183; A. Woelm, Portland, 161; Al Eeguin, Portland, 184; J. S. Crane, Portland, 149; P. P. Nelson, Yacolt, Wash., 185; Ben J. Bell, Yacolt, Wash., 166; Earl R. Goodwin, Portland, 156; Mrs. C. J. Schilling, Portland, 181; E. B. Benham, Aberdeen, Wash., 164; A. W. Strowger, Portland, 179; P. R. Knight, Portland, 55; Walter Honeyman, Portland, 64; A. L. Zichrisson, Portland, 79.

Long runs—F. C. Riehl, 55, 62, E. H. Keller 52, Frank Van Atta 52, P. H. O'Brien 63, 64, Frank Templeton 57, Frank Troeh 125, 74, Charles Leith 83, Al Seguin 50, J. P. Bull 54, P. J. Holohan 53, C. J. Schilling 67.

California Shooters Going East.—Judging from the number of crack shots who are planning to go to St. Louis next month, California is going to be well represented in the Grand American Handicap, the championship trapshooting event of the country. This tournament attracts the best trapshooters from all parts of the Union and to the winner goes the highest honors possible to win. It will be held at St. Louis, commencing August 12.

Californians who will likely go include Toney Prior, Andy Flickinger, N. A. Howard, Fred Bair, O. N. Ford, Frank Mellus, Ted Riley, Stanley Bruner, A. H. Dodds, W. S. Peace, C. H. Nash, Harry Ogilvie and others. The professionals will include Clarence A .Haight, P. J. Holohan, Guy E. Holohan, Charles Knight, Joe Price and, perhaps, R. C. Reed. In addition there will be Heine Pfirrmann, the California-Nevada champion. The "Shootin' Dutchman" has been going in great form and is carrying confidence to bring home the honors. He recently made a straight run of 216 without a miss and dropped only seven in 500. He will represent California and Nevada against the champions from every State in the Union.

International Game Park.—Breeder and Sportsman:

It is a pleasure to me to be able to announce, as the Supreme Secretary of the Order of Owls, that the organization, numbering three hundred thousand members, with twenty-one hundred lodges, the membership of which is well established in all States of the Union and in all the English speaking countries and provinces outside of the United States, a year since determined to establish an International Park, to be controlled by the Order, where recreation, angling and game shooting could be furnished to its members. The Park has now been established.

The Order has purchased a large tract of land in Central Vermont, one mile distant from the village of Gaysville. It is threaded by trout streams and lies in the center of the best deer shooting in North America. Grouse, rabbits, bear and other game are there in abundance. The organization will maintain this Park permanently. Within the present year the construction of buildings thereon will be begun.

Yours,
GEO. DO BEROTH, Supreme, Sec'y.

The members of the Lagunitas Gun Club are looking forward to a lively season. This club has some of the choicest grounds in Marin county and the deer are large and numerous. All this territory will be taken in by the Marin Municipal Water District, which means that in the future this will be the haven of rest for the deer in the county. In fact, it is just as well that the whole Municipal Water District be made a preserve, as it will have a tendency to make Marin county the deer country of California.

Sportsmen's Row

The oddest looking fish ever caught at Palm Beach, Fla., is that of the recent catch of Ambrous Monnell, Jr., president of the Midvale Steel Company. The fish while shaped somewhat like a sunfish, weighed close to a ton and had ears like an elephant that were folded close to the skin. The fish is estimated to be some four hundred years old and is reported to be a native of African waters.

* * * *

In Sedgwick, Col., the city authorities have hired a professional trapshooter to give exhibitions every Saturday afternoon during 1916. Surely the sport has flourished in that locality to make civic authorities take a hand. In most cases officials have to be begged into submitting to new ideas or the "people's" wishes.

* * * *

It may seem a small matter and some may be inclined to smile but you will find that if you have neglected to visit your barber or performed a usual function of toilet on the morning of your shoot the stock of your gun will slip very readily on your cheek. The back sight of any gun is the comb of the stock and your cheek must cling to it tenaciously or targets will slip by you.

* * * *

Mrs. E. M. Fleming of Denver, Col., has sent her Pomeranian Pompey Knight to St. Louis to be bred to Ch. Offley Kew Marco. This wee Pom has traveled over 6,000 miles in the course of her short live in the interest of posterity.

* * * *

Colonel "Barnes" Young has forsaken the Truckee river and is having some rare and unique sport fishing with fly for rock sod at Yellow Bluff, near Lime Point. The Colonel has long contended that rock cod can be caught with fly as well as bait, and the success he has been having has shut the mouths of the scoffers.

* * * *

Bob Murdock sends word from Middle River, near Stockton, that he has had fair luck in his quest for black bass, and that there is also an unusual run of "stripes." The fish of the last named species caught range in size from one to three pounds, and one of thirteen pounds has been caught.

* * * *

Several large steelhead, perhaps spent fish just dropping down from the headwaters of the receding coast streams, but full of fight nevertheless, fell victims to the luck and skill of local anglers Sunday a week ago. The trout were of such size as to create a sensation in angling circles, as most of the big ones have long ago dropped from the streams into the sea and the new runs have not started yet. Since early in the season no big fish have been caught in the vicinity of San Francisco bay. The largest of the steelhead weighed five pounds and was caught by Tony Prior at Alvarado. Prior also took a two-pounder.

* * * *

Charles Gibbs and Virgil C. Howe are planning an extensive hunting and fishing trip. They will start the first of the coming month, packing out of Eureka. The wilds of Humboldt county will claim them for a month, the first half of which will be spent fishing and the second half deer and bear hunting. The country in which they will hide themselves is about the Mad, Eel and Trinity rivers.

* * * *

Burt Upton, of South San Francisco, a rock cod fisherman, fishing off the shore at Angel Island last Wednesday in one of Sam McDonough's row boats, hooked a shark 8½ feet long. He succeeded in getting the monster to shallow water by the shore and killed him with an oar which he broke all to pieces in so doing. This shark was big enough to bite a man's leg off.

* * * *

Charles Redding is looking forward to a hunt with the Farley boys in Nicasio Valley. Pratt Inman, Dr. Sawyer and Jack Sims will hunt on the Bolinas ridge, while Hugh McCurdy will hit the trail for Bolinas. William McDermott and Dotty Redmond have a few deer staked out for the opening day, and James Redmond is delaying his hunting trip to go with Mr. Bean of Tomales some time in September.

* * * *

Mr. Mabry McMahon has stated that he will not permit hunting this year on the Santa Venetia property so this will cut out cold trail hunting for some of the local boys.

* * * *

Robert Trumbull and Robert Brown and the Petaluma aggregation, including the famous shot Jack McLaughlin, are going to hunt the DeLong ranches again this year. Charles Byrnes, Dr. Stanley and Emil Coret are going to Mendocino county on the 1st for a few weeks' hunt. Sheriff J. J. Keating, Robert Johnson, Edward Butler and a few other notable shots are going to take their annual pilgrimage into Mendocino county after the first of the month. If the Sheriff doesn't make any better showing shooting deer than he does blue rocks, it will be a wise move for him to appoint himself chief cook and remain in camp.

Anglers Go to Court Over Salmon.—A very interesting angling case, which had its comic side, was heard in the Scottish courts recently. The cause of the trouble was thus: One sunny day last May two anglers were busily engaged on Loch Lomond in trying to capture salmon. One angler, who was fly-fishing, hooked a salmon, which made for shallow water and ran along between boat and shore. Now, there happened to be another angler close by who was minnow-trolling with two rods out, and proceeding on a straight course. As the latter's lines passed the fly-fisher's boat the salmon made a sudden dash, and, boring down, was caught by the minnow-fisher's tackle. What happened was probably the trolling line ran down the fly-line and hooked the salmon, because the trolling hooks were later found in the salmon's back. Anyhow, the result was that the fly-cast broke and the salmon became connected with the minnow-angler. After about 40 minutes' play the troller succeeded in landing the salmon. The fly-fisher, who had meanwhile been biding his time, went alongside and claimed the fish, pointing at his fly, which was still in the salmon's mouth, as evidence, and remarking that the troller had, by foulhooking the fish, broken his fly-line attachment to the fish. Then a nice point arose—Whose was the fish? And this question had eventually to be decided in court. The fly-man's case was that the fish was firmly attached to his line, and the troller came along and broke his hold. The troller said he did not know how the thing happened; but, at any rate, he had hooked the fish and landed it. The fish, valued at £4, had, pending the result of the action, been placed in cold storage. After long arguments and much evidence for and against, the judge declared in favor of the fly-fisherman, and we think that most of our readers will agree with his decision. It is an unwritten rule, we believe, for boats to give every freedom, and, if need be, assistance to any angler who has hooked a fish. Such cases have, we understand, often arisen in whale-hunting, and the man who can prove that his harpoon first struck the whale and remains in the whale can claim possession. A somewhat similar rule exists in pig-sticking and big-game hunting, but we are not sure if it is generally recognized.

Fish Culturists Estimate.—The Fish and Game Commission's expert fish culturists have estimated that the average Bear Lake trout of the size entering the streams will cast about 3500 prime eggs. This year these fish were given a chance to lay their eggs in peace by the postponement of angling until May 1st. Now the upper end of the lake is so full of little fish that it is being shown as a curiosity by Gus Knight and other resort people.

In the favorable condition of Bear Lake a large percentage of eggs will mature, and thus it is easily possible that one fish taken in spawning season might produce two and a half tons of catchable trout in a few years. Probably the percentage is not far from that, as the increase of the fish in the lake has been phenomenal when the big annual widening of the waters is considered.

Wherever sportsmen familiar with it gather, Bear Lake is an ever popular and absorbing topic. It has done a great deal to familiarize fishermen with the practical value of the Fish and Game Commission's propagation and protection work, which never can supplant nature, but hopes to aid her.

Rod and Reel Outing.—On September 2, 3 and 4 the Southern California Rod and Reel Club will celebrate its tenth anniversary of founding with another special-car outing at Mateo Siding ,arrangements being in the hands of Secretary Smith and Oscar Lane. The founder and some of the brethren may be busy with a different kind of game those days—deer and doves—but all will be there in spirit at least. Already many have signified intention to go. The plan is to leave Saturday behind the San Diego "Owl" train and make a two days' outing of it, if the majority wish to do that; otherwise return sooner. Probably the cars will remain set out until Monday, as any who wish can return by regular trains.

Game Increases in Yosemite.—There are five times as many deer and bear in the Yosemite National Park this year as there were four years ago, according to the statement of Chief Ranger Townsley. The mals is due to the strict enforcement of the antimals is due to the strict enforcement o fthe anti-firearms rule and to the merciless war waged against coyotes, foxes, mountain lions and other destructive animals by the park rangers. The campaign against mountain lions will be conducted with all possible vigor next winter, and Townsley says that by next summer there will not be a lion in the park.

Deer are plentiful in the smaller canyons near Camp Curry, and parties seldom go out for the day without encountering half a dozen or more. One motorist counted fifteen deer along the automobile road between Camp Curry and Glacier Point.

Bear are likewise plentiful. Several come every night to feed at the bear pit near the lower end of the Yosemite Floor, and on moonlight nights many tourists from Camp Curry and other resorts go down the valley to witness the repast.

Most of the destructive bluejays in the park have been killed by the rangers, and pigeons and other small birds are multiplying rapidly. A wholesale poisoning campaign has resulted in clearing out most of the ground squirrels, but attractive gray squirrels are now more plentiful than ever.

Argument About Species of Trout.—Many an angler's camp has been split into discord over a discussion concerning steelhead and rainbow trout. Are they one and the same fish? Do steelhead become rainbows when they get into fresh water and lose their scales, or do rainbows glide down stream and, presto! when they inhale a gill full of salt water turn into steelheads? Fishermen without number have argued these questions, and even the ichthyologists, those lucky persons who just fish and then think about the fish, can't agree.

But N. B. Scofield, the man who knows all trout by their first name and directs the Commercial Fisheries Department for the Fish and Game Commission, has now come out and "spoke his mind" about rainbow and steelhead.

In response to a letter addressed to him by Phil B. Bekeart, Scofield replies:

"The steelhead is the adult sea-run form of this same species (the rainbow)." Thus, at one smash of the typewriter, the California expert ruins a lot of fine debating material.

Although Scofield feels sure that the steelhead and rainbow are of one and the same species, he admits that there is still room for argument. But he presents some facts which, if absorbed by the anticipatory fisherman, will enable him to utterly overwhelm his campfire elocutionists. A part of the letter to Bekeart follows:

"Trout of the short coast streams of California, especially those in the vicinity of San Francisco bay, are typical rainbow.

"When the fish culturists speak of rainbow they refer to the fish which mature in the stream and when they speak of steelhead they refer to the rainbow which matures in the sea. Strictly speaking, they are all rainbows.

"The trout of the short coast streams of California are of the species Salmo irideus. The steelhead is the adult sea-run form of this same species.

The word "rainbow" is a general term applied to a group of closely related varieties of trout inhabiting the streams on the west side of the Sierra Nevadas, and in speaking of rainbows we would avoid confusion if we would designate the particular stream or variety we mean.

Years ago, according to fishermen, "Professor" Lamotte, who had charge of the fisheries at Ukiah, and David Starr Jordan, entered into a violent newspaper controversy over this same question. After several years Lamotte finally downed Jordan, and now Bekeart possesses a letter from the famous Stanford scientist saying that, after all, rainbow are steelhead ,and vice versa. So there the argument ends.

Passing of the Moose.—A note of warning is sounded by the supervisor of the Superior National Forest, L. M. Brownell, to the effect that the moose, giant of the deer family, is rapidly following the buffalo along the sloping way that leads to obliteration. The big game animal of the Minnesota pineries has for years been the moose. In the heart of that region lies the Superior State Game Refuge with its 2,000,000 acres of land, and here in larger numbers than anywhere else in the land have beeen found these hermits of the animal kingdom, pacing, solitary, the forest aisles; browsing on maple, birch and willow, or, in summer, hock or shoulder deep in lake or stream, baffling the stinging flies and munching the tender shoots of lilies and wild rice. And now, says Mr. Brownell, they are moving on—some to the Canadian woods, but more from their unhappy hunting in Minnesota to the happy no-hunting grounds in oblivion. Their bodies are found often, scorned as regards meat or even the antlers, bullet-rent simply to gratify the idle caprice of a puerile-spirited hunter. For there is no possible glory attached to the slaying of the moose around the waterways. From the standpoint of sportsmanship it is only on a par with the shooting of a horse in pasture.

Hunting Dog Earns Master's Care.—The season of the year is now here when the setter and the pointer possessed of any commendable working abilities in the field come into their own. The indifference of the close season gives place to the most lively interest in the open season. Nor is this new interest manifest on the man's side only. The dog, observing the significant unearthing of sporting toggery, anticipates the pleasures of forthcoming field work and displays renewed affection toward the person of his master.

A time has come when in a way there is a certain community of interest between man and dog in the pleasures of shooting. However, few sportsmen consider that even if the pleasures of pursuit and capture be divided equally there is no equal division in the amount or fatigue of the work.

Galloping up and down hill through cover and open, over ground wet or dry, smooth or rough, with the interests of the gun to observe and ever keep in mind, the dog has a task which is laborious in its execution and varied in its requirements. He must skillfully beat out the ground as his master walks through it and when the birds are found he must take a subordinate yet earnest part in assisting his master to effect possession of them.

Yet after a day of such fatiguing labor the dog may be scantily fed or fed abundantly on food which he detests and then left to shift as best he can for his sleeping quarters. If he is ravenously hungry he may seem to enjoy a bad supper, but a good supper for a dog is easily provided if a little forethought is

exercised concerning it, and the best fed dog, all else being equal, will do by far the best work.

A thoroughly fatigued dog is liable to lie down anywhere, but the seeking for rest should not be construed as an expression of contentment. In the matter of comfort and healthfulness the tired dog has no judgment. The immediate needs of the moment are all that he considers. If he curls up by the side of a haystack in the early evening it may be a good selection for the time being. Later in the night, however, if a frost or rain sets in, no more uncomfortable place could be found.

There is no more pathetic sight in the incidents of field shooting than that of a dog which, muscle sore and wearied when he begins his outdoor rest, wakes trembling, stiff and unrefreshed in the damp chill of the morning and tries to wag his tail and look pleased in his effort to greet cheerfully his master who has slept comfortably. It is not a difficult task to provide some kind of comfortable sleeping quarters for one's dog. There generally is an abundance of hay everywhere and with it a most comfortable bed can be quickly made.

The neglect of a dog, so often an incident of hunting parties, is the result of thoughtlessness, not of intention. A little forethought and provision are not extravagant returns, however, for the services which the setter and pointer at work render their masters.

Some dog cakes, some lean beef and a place to sleep comfortably are humble requital in return for strenuous services, aside from the affection and devotion which the dog has for the master he loves. The merciful master should see that his dog suffers not from any neglect, first of all because he is an affectionate and devoted friend more than a servant, and secondly because in a day of effort afield he earns his keep a thousandfold.—Sporting Life.

Golden Gate Club—The interest in trapshooting around the bay was indicated on Sunday when fifty scatter-gun artists gathered for the monthly shoot of the Golden Gate Club. Although the Alameda grounds were not in the best of condition, due to some dredging work going on, the gunners were at the trap from early in the morning until well in the afternoon.

The scores established were very creditable. Henry Stelling came through high gun on the day with a score of 48 out of 50. He was closely pressed by W. J. Terry and W. E. Cooley ,who smashed 47 apiece. Andy Flickinger, N. A. Howard and L. Baird were there with 46 apiece. There were others close u pto the top.

L. S. Hawxhurst led the professional contingent with a 47x50 record. The scores were as follows:

Events—	20	20	10	Total
A. G. Flickinger	20	16	10	46
Dr. Topham	19	19	7	45
W. H. Price*	18	17	9	34
Captain Du Bray*	19	19	6	44
George Thomas	15	19	6	40
H .C. Peet	13	16	6	37
P. Swenson	14	14	9	37
T. W. Parsons	15	13	5	33
W. E. Cooley	19	18	10	47
W. Stadfeldt*	14	15	8	37
C. Stadfeldt	20	13	4	37
N. A. Howard	15	19	9	46

West Virginia	W. A. Weidebusch	99	R. Gerstell, Jr.	98

The above listed champions are only a few of those who will participate in the event to decide the amateur championship of America under the auspices of the Interstate Association for the Encouragement of Trapshooting in St. Louis late in August. Only the winners of State championships can participate in this event, which like the championship event in the States will be at 100 targets. This competition brings the best amateur shots in America together and the winner is unquestionably the best shot in the land—as far as the amateurs go. There is little difference, though, in the ability of the professional and amateur shot these days.

It will be noted that seven of the champions in the above list have perfect scores and that every championship has been won by a score of over 90. Thus far 30 State tournaments have been conducted and two more are at hand.

Exhibition of Casting.—The visiting colony of fishermen, composed largely of Los Angeles people, all of them members of the Southern California Rod and Reel Club, including Sherman Baker, vice-president of the club, entertained the people of Oceanside last week on a vacant block near the Santa Fe depot with a demonstration of casting, using the ordinary 2½-ounce sinker. The best averages of five throws were as follows:

A. E. Perkins	204 4-5
Oscar Lane	176 1-5
Sherman Baker	202 2-5
C. H. King	117 4-5
G. G. Harwood	110 3-5
Charles Creciat	153 1-2
C. H. Kling	136 2-5
Mrs. C. H. Kling	120 2-5

In an exhibition for the best average in five throws with a half-ounce sinker Mr. Baker made 125 3-5.

Most of the men were accompanied by their wives and have been passing several weeks here, where the fishing is fine and the conditions ideal for an outing. —W. M., Oceanside.

Lake Almanor Recommended.—Fish and Game Commissioner Frank Newbert has been looking over the splendid rainbow egg-taking possibility developing by the reclamation of Big Meadows to anglers in the north, Eugene W. Hunt, superintendent of the Tahoe hatchery and a world-famous fish culturist, having "discovered" this chance to add to California's resources in the sporting line. These experts describe the new "Lake Almanor" formed at Big Meadows as "another Bear Lake," which recommends it.

Good Reports of Game.—Roseate reports of quail, doves, and rabbits breeding freely continue to pile up as Fish and Game Commission deputies and other sportsmen cover the outlying country more closely. With deer hunting permissible in western Kern and the up-coast counties from San Luis Obispo to Mendocino, inclusive, after August 1, the gunners are beginning to smell nitro powder smoke every time they light a cigar, so are on the lookout for meat, whether cloaked in feathers or fur. And there seems to be plenty of it.

The Victor Gun Club and the Lucas Valley Gun Club are getting ready to hunt the fleet-footed animals on the opening day. Both clubs have their keepers on the ground and they predict a good season. The Big Rock Shooting Club, with Banker Von Luven as President, are also brightening up their shooting irons for the opening day. Rumor says that Dr. R. C. Dufficy is going to use his 16-bore shot gun this year to hunt deer instead of his 22 long range gun of last year. The Doctor is of the opinion that he may have better luck in case he encounters a herd of deer.

Groat High Gun at Vernon Club.—C. E. Groat was high gun for the Hoegee trophy at the Vernon Gun Club last Sunday with 48x50 smashes to his credit. A. W. Bruner was second with 47x50 and C. W. Fish took third with 46x50. Groat missed one bird in each event. Dr. Packard now leads for the trophy with only two more Sundays to go. Stanton Bruner is giving him a close race, as only one target separated the two cracks. Meek and Dierdoff are tied for third place.

In the 20-gauge event Ed Hedderly and Billy Wilshire tied with 22x25 smashes. Fish was second with 21. Mrs. Groat had a mark of 45x50 in the practice event. Four shooters are now tied for the 20-gauge trophy. The scores:

	Hdcp.	Hoegee Tr.		20-Ga.
S. A. Bruner	20	22	22—44	19
Meek	19	24	21—45	..
Wilshire	16	21	21—42	22
Wilson	16	19	24—43	..
A. W. Bruner	16	24	23—47	..
K. Wiley	16	13	18—31	..
E. Simmonson	16	12	18—26	..
C. W. Fish	17	21	25—46	21
Miller	16	15	19—34	..
Pugh	18	23	22—45	..
Peterson	16	16	18—34	18
C. P. Smith	16	15	15—30	..
I. Lacy	16	15	17—32	..
Packard	21	22	23—45	..
Kimble	16	19	24—43	..
C. E. Groat	18	24	24—48	19
Mrs. C. E. Groat	18	24	21—45	..
Hedderly	16	22	22—44	22
Dierdoff	18	22	25—45	..

Practice event—S. A. Bruner 24x25, Meek 24x25, Wilshire 20x25, Wilson 18x25, Miller 30x50, C. P. Smith 14x25, C. E. Groat 46x50, Mrs. C. E. Groat 45x50.

The annual Pacific Coast Handicap, slated for the Everding Park traps, at Portland, Ore., in September, already is creating interest. A. W. Strowger, president of the Portland Gun Club, has received inquiries from as far South as San Diego, Cal., and 25 shooters are expected from all parts of the Bear State. The shoot comes after the Grand American Handicap, at St. Louis.

Forest Notes.—According to the Forest Rangers on the Sierra National Forest, a large number of wood and metal trail signs placed by the Forest Service along the mountain trails last summer for the benefit of travelers were torn down early this spring by bears. The destruction was done apparently in a spirit of pure mischievousness. Rangers familiar with the habits of these animals offer no other explanation.

THE FARM

TO CONTROL CABBAGE PEST.

How to control cabbage and onion maggots is shown in a letter recently issued by the agricultural extension division, University farm, St. Paul:

'n experiments at the farm last year and the year before this mixture was used for cabbages:

Lead arsenate, ¾ ounce;
New Orleans molasses, ½ pint;
Water, 1 gallon.

This mixture was sprayed over the plants every week, or twice a week in rainy weather, from the time they were set out until May 20. For a second brood of the pests the spray was applied from July 1 to 20.

A spray that has been used to destroy the onion maggot at University farm is made of:

Sodium arsenate, 1-5 ounce;
New Orleans molasses, ½ pint;
Water, 1 gallon.

Such a solution, however, tends to burn the leaves of the cabbages. The barred-wing onion maggot is controlled by destroying all old, infested onions in the spring.

The first indication of the cabbage or onion maggots is the wilting of the plant after the pest has attacked the underground parts.

SHAPING TREES.

In shaping trees, the orchardist must use his own judgment largely. Where the trees are very small care should be exercised not to cut away any portion of the tree which may affect its appearance in the future. Beginners should not start on young or small trees, for mistakes on them are always costly. If you observe a serious fork in the young tree, it should be remedied at once by cutting away the one which you think will not make the best producer. If such a defect is remedied early in the life time of a tree it will scarcely be noticeable later, but to allow it to remain for any length of time is to injure and deform the tree permanently.

GOMBAULT'S
CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeny, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price $1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

HAY MAKING WITH LITTLE SUNSHINE.

Notwithstanding the old saying, "Make hay while the sun shines," the best quality of hay would result if the hay could be cured without the sunshine, according to Professor J. E. Larson of the Oregon Agricultural College. "It is easy to overdo the sunshine business, and the best green hay product is often ruined by too much sunshine in the curing. The quality of the hay depends very much upon the making, the best quality undergoing a certain degree of fermentation. Extreme light and sunshine prevent this and also destroy the natural green color, which should be kept in the cured hay as largely as possible. Good color and good quality are closely associated. Hay, especially grain and vetch, allowed to lie in small bunches until completely burned out, is low in value. It looks about like excelsior and is worth about as much for feed."

POTATO DISEASE CONTROL.

After an examination in 40 digerent places in Canyon county, Idaho, in the investigation of potatoes and their diseases, W. T. McCall, county agent of the United States Department of Agriculture, gives out the following statement in reference to the deduction consequent to his research:

"I have examined potatoes and discussed potato diseases in not less than 4 0different localities in Canyon county. In every place where potatoes were examined, two diseases, rhizoctonia and fusarium wilt, were generally found, while scab was also common; and in many instances 50 per cent of the tubers examined were infested.

"The only conclusion to be drawn from such a condition is that the yield of potatoes in Canyon county fields must have been reduced in 1915 anywhere from 10 to 30 per cent on account of diseases alone.

"Another fact brought out by the work in Canyon county this year is that but few of the people who grow potatoes know diseases when present, nor what control methods should be practiced in order to hold the diseases in check.

"In order to demonstrate the best known methods of potato disease control, and to find out how applicable they are to Canyon county conditions, potato disease control work will be done by the county agent and E. P. Taylor ,of the extension department of the University of Idaho, on the following Canyon county farms: Mr. Givens, Payette; Mr. Hinchliff, New Plymouth; Mr. Talbott, Notus; M. Frosig, Wilder; Charles Colliama, Deer Flat, and J. Salisbury, Melba.

"The first work taken up will be seed treatment for scab and rhizoctonia, and seed selection for fusarium wilt.

"This work has already been done at Notus, Payette and New Plymouth, and will be conducted on the remaining farms on dates to be announced later.

"One acre will be the average size of field chosen for planting of treated and untreated, and selected and unselected seed. During the summer months, on dates to be announced, rogueing of diseased plants from test plots will be practiced, and where the owner has reasonably pure seed, and so desires, the field will be gone over during blooming season and any plants that are not true to type will be removed.

"In the fall of the year the fields will be again gone over and seed for the work of 1917 will be selected from the high yielding and reasonably disfree hills. Accurate records of work done will be kept and the results accomplished will be published at the end of the season. Every man in Canyon county interested in growing potatoes on a commercial scale and at a profit should endeavor to be present at every field meeting on those demonstration farms, prepared to lend assistance, to watch results, and to cooperate in working out a method of potato disease control; for if the present methods of potato growing are not changed very soon, we will find that we can not grow and market potatoes at a profit, for the diseases will get worse every year, and the reduced yields we do secure will find a slow market."

INYO COUNTY
Fair and Stock Show
BISHOP, CAL.,
Sept. 28-29-30, 1916
RACE PROGRAM
Entries Close August 28th, 1916
(Running Races Close Overnight)

THURSDAY, SEPT. 28th
Valley View Hotel Purse, for 2:40 Trotters and 2:50 Pacers.....$200
Dusey's Purse, for ½ mile run and repeat 100
Breeders' Purse, for 2-year-olds and under, Inyo County owned Aug. 25 100

FRIDAY, SEPT. 29th
Chamber of Commerce Purse, for 2:20 Trotters and 2:25 Pacers.....$200
Italia Hotel Purse, for 2:12 Trotters and 2:19 Pacers 200

SATURDAY, SEPT. 30th
Red Front Purse, for 3-minute Trotters and 3-minute Pacers.....$200
Tungsten City Purse, for Free-for-All Trotters or Pacers 200
Clark Hotel Purse, for ½-mile run and repeat 100

CONDITIONS
FREE STALL RENT—FREE HAY—FREE TRANSPORTATION TO AND FROM DEPOT.

Harness races best three in five except for two-year-olds, which are two in three.

Entrance fee five per cent and usual five per cent from money winners.

One horse may be entered in two or more classes or two or more horses may be entered in one class and nominator held for but one entry, but full entrance fee will be demanded on every horse that starts.

Two horses or more may be started under same ownership or control. Five to enter and four to start. Two horses under one ownership or control when started in same race will be counted as one in arriving at number of starters.

Records made on August 25th will not constitute a bar.

Money divided 50, 25, 15 and 10 per cent in harness races and 60, 25, and 15 per cent in running races. A horse distancing the field entitled to but one money.

Right reserved to change order of program.

Member National Trotting Association. Write for concessions.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

FIRST ANNUAL FAIR

BAKERSFIELD, CAL.

October 24 to 28, 1916

Entries to Races to Close August 1st, 1916

All Races Limited to Three Heats

PROGRAM

OCTOBER 25th		OCTOBER 26th	
2:20 Pace	$400	Free-For-All Pace	$400
2:15 Trot	400	2:12 Trot	400

OCTOBER 27th

2:13 Pace $400
2:30 Trot 400

HALF MILE TRACK
TWO RUNNING RACES EACH DAY.

CONDITIONS:

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

T. F. BURKE, Secretary,
Bakersfield, Cal.

RIVERSIDE COUNTY FAIR and RACE MEETING

($50.00 added money for each starter over four)

SPECIAL HARNESS EVENTS

¾ Mile Run $100.00
½ Mile Run 50.00
Special for non-winners in ⅝ and 1 mile races.

Entry blanks and conditions for running races furnished on application to the Secretary.

CONDITIONS.

Member National Trotting Association. Entries close August 1st.

Horses to be named with entry and be eligible when entries close.

All matinee entries will be classed by a classification committee prior to the opening day of the races.

All races (except matinees), three heats, every heat a race; money to be divided as follows: Twenty-five per cent of the purse to be paid on each heat, and twenty-five per cent to the winner of the race according to his rank in the summary. Should two or more horses be tied for the first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of this heat. (Under this arrangement, according to the rules adopted by the National Trotting Association, of which this Association is a member, only the horse winning the race would take a mark.)

Heat purses will be divided 50, 25, 15 and 10 per cent.

Any race not filling satisfactorily to the Association may be declared off.

In case class in which horse is entered does not fill, entry may be transferred to any race to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent to start. Three per cent due and payable when entries close, and two per cent before starting.

An additional five per cent of the division will be deducted from money winners.

Nominators have the right of entering two or more horses in one ownership in any race by the payment of two per cent additional, but only one horse so entered shall be started in the race; the starter to be named by 4 o'clock p. m. the day before the race is to take place.

A horse may be entered in two classes and be held for but one entry fee (entry fee in larger purse will be charged), provided only one start is made.

A distanced horse in any heat will be entitled to money already won. There will be no more money than there are starters.

Entries not declared out by 4 o'clock p. m. on the day preceding the race shall be required to start and declarations must be made in writing at the office of the Secretary on the grounds.

The Association reserves the right to change the order of the program; also to start any heat after the fourth score regardless of the position of the horses; also to reject any and all entries and declare off or postpone any or all races on account of the weather or other sufficient cause.

Address all communications to

Half Mile Track.

GENERAL CONDITIONS.

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

For Greatest Satisfaction Use
DOUBLE SERVICE Automobile Tires
Guaranteed 7,000 Miles Service
Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

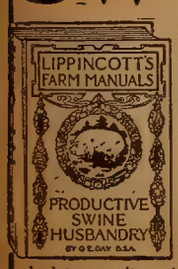
They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer**

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.85	3.10	35x4½ in.	21.20	5.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.



Terms: Payment with order at above special prices. a 10% discount allowed on orders for two or more tires. All personal checks must be [illegible].

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only. *Descriptive folder upon request. Write for it.*

DOUBLE THICKNESS OF TREAD AND RUBBER ABSOLUTELY PUNCTUREPROOF

SWINE

Big profit should come from your hogs. If you fail to make money something is wrong. Professor Day has an international reputation and his knowledge set forth in PRODUCTIVE SWINE HUSBANDRY gives you just the facts to make your pig pens money producers. Millions of dollars have been spent in experimenting and the author gives you the results. It is practical, not theoretical, of absolute necessity, not superfluous. You must learn the practical money-making science of raising hogs for the market.

There are 95 illustrations and 363 pages. Lg. 8vo. Handsome cloth. $1.50 net. Postage and express charges extra.

WINCHESTER

REPEATING RIFLES FOR HUNTING

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

Remington UMC

NITRO CLUB SPEED SHELLS TAKE "INDIAN" AND MONTANA STATE CHAMPIONSHIPS

THE famous Indian organization of trapshooters held its Annual Pow-Wow and shoot at Cedar Point, Ohio, June 27 to 30, inclusive. One hundred and forty-one of the country's foremost trapshooters were in the line-up. It is worthy of note that the principal events, in addition to the "Indian" Championship, were also won by shooters who used Remington UMC Speed Shells.

REMINGTON UMC WINNINGS

"INDIAN" CHAMPIONSHIP: Won by Clayton Deck, Plymouth, Ohio, shooting Nitro Club Speed Shells, score 99x100, after a thrilling shoot-off 19x20 and 19x20.

HIGH AMATEUR AVERAGE: First and second days Mark Aire, Thomson, Ill., shooting Nitro Club Speed Shells, 174x175 and 173x175, respectively.

MALLORY BROTHERS CUP: Won by F. M. Markham, 49x50, shooting Arrow Shells.

INDIAN HANDICAP: Won by A. C. Connor, Springfield, Ill., 96x100, shooting Arrow Shells.

MONTANA STATE SHOOT

STATE CHAMPIONSHIP: Won by C. P. Tilzey, Moore, 98x100 and 20x20 in shoot-off. Mr. Tilzey used a Remington Autoloading Shotgun and Nitro Club Speed Shells.

STATE HANDICAP MEDAL: Won by Mr. F. A. Weatherhead, Billings, 94x100 from 22 yards with Remington Pump Gun and Nitro Club Speed Shells.

HIGH AMATEUR AVERAGE: Tied for by C. P. Tilzey, 584x630, shooting Remington Autoloading Shotgun and Nitro Club Speed Shells.

HIGH PROFESSIONAL AVERAGE: Rush Razee, 606x630, Remington Pump and Nitro Club Speed Shells.

LONG RUN OF TOURNAMENT: Rush Razee, 230 straight.

SOUTH CAROLINA STATE SHOOT

FIRST AND SECOND AMATEUR AVERAGES: Won by John Livingston and J. D. Allen, respectively, each with 242x250. Both shot Nitro Club Speed Shells, Mr. Livingston taking first place in shoot-off.

LONG RUN OF TOURNAMENT: J. D. Allen, 84, shooting Remington UMC Speed Shells.

Thus do shooters of Remington UMC Guns and Shells take premier honors at Leading Trapshooting events.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

Second Payments — $5 Due

Tuesday, August 1st, 1916

Pacific Breeders Futurity Stakes No. 16—$3,000

—GIVEN BY THE—

Pacific Coast Trotting Horse Breeders Association

For Foals of Mares Bred in 1915 to Trot or Pace at Two and Three Years Old

$1600 For Trotting Foals — $1100 For Pacing Foals

$150 to Nominators of Dams of Winners — $100 to Owners of Stallions

MONEY DIVIDED AS FOLLOWS:

$1000 for Three-Year-Old Trotters.
50 to the Nominator of the Dam on whose Original Entry is named the Winner of the Three-Year-Old Trot.
600 for Two-Year-Old Trotters.
25 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Trot.
50 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

$700 for Three-Year-Old Pacers.
50 to the Nominator of the Dam on whose Original Entry is named the Winner of the Three-Year-Old Pace.
400 for Two-Year-Old Pacers.
25 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Pace.
50 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace when mare was bred.

$50 in Special Prizes was paid to Stallion Owners in February, 1916.

ENTRANCE AND PAYMENTS—$2 to nominate mare on February 1, 1916, when name, color, description of mare and stallion bred to must be given; $5 August 1, 1916; $10 on Yearlings January 1, 1917; $10 on Two-Year-Olds January 1, 1918; $10 on Three-Year-Olds January 1, 1919.

STARTING PAYMENTS—$25 to start in the Two-Year-Old Pace; $35 to start in the Two-Year-Old Trot; $35 to start in the Three-Year-Old Pace; $50 to start in the Three-Year-Old Trot. All starting payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse entered is a Trotter or Pacer.

Colts that start as Two-Year-Olds are not barred from starting again in the Three-Year-Old divisions.

SUBSTITUTIONS.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1917, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment nor will any entry be liable for more than amount paid in or contracted for.

Address all Communications to the Secretary

OAKLAND CLUB HAS GOOD PROGRAM.

The Oakland Driving Club comprises a very enthusiastic group of horsemen. Their matinee on July 4th drew about 3000 persons to the half mile track at Sixteenth and Peralto streets, Oakland, and the matinee July 16th was also very successful. Another program has been arranged for tomorrow, July 30th, and so many entries have been received that there will be seven races, all with good fields. The races will all be mile heats, best two in three. Secretary A. L. Hanks has arranged the following program:

2:20 Trot—A. L. Hanks' Bell Sawyer, P. M. Bellingall's Elsa Page, J. Williams' Harold G., J. M. Pitt's Babe.

Free-for-all Pace—G. Schreiber's Allegro, A. L. Hinds' Grand W., A. Edstrom's Hallie's Star, A. Scott's Little Dick.

2:30 Mixed—H. Olsen's Tom Wilkes, F. Hahn's Oakland Boy, ——, Clipper Jr., A. Stotts' Just Mac.

2:25 Pace—H. P. Garrison's Prince, H. O. Medau's Mollie, Mrs. Carlisle's Cleo Verne, H. J. Reisman's Berkeley Girl.

2:18 Mixed—W. Rutherford's Sleepy Dick, T. Le Ballister's Lena Lee, Henry Buckley's Teddy B., J. V. Galindo's Francisco, Robert Seale's Burbank.

2:35 Mixed—W. Collins' Teddy, G. W. Meader's Rhoda, J. V. Galindo's Dinty Murphy.

2:40 Mixed—Robert Seale's Dora's Boy, O. Neubaumer's Ida May, W. M. Ray's Andy O., W. D. Willis' Willis Baldwin.

The Board of Supervisors of Stanislaus county has appropriated $1000 to the Stanislaus Live Stock Fair and Exposition to be held at Modesto, September 20th to 23d, both dates inclusive.

GRAND CIRCUIT RACES AT DETROIT.

Detroit, which like Grand Rapids is a member of both the Grand and Great Western circuits, opened on Monday of this week with good weather and large fields and some excellent racing. The racing is under the three heat plan, every heat a race and ending with three heats. The 2:10 trot went to Director Todd that won the third heat after being second in the other two. La Belle Online won the first heat in 2:09¼ and then Frank G. Jones won the second with Bonington in 2:06¼, three seconds faster than any other heat in the race. Lon Daniels started Kid Cupid in this race and stood fifth in the summary, and Durfee was last with Esperanza. In the 2:17 pace Durfee started Rayo de Oro, but was not in the money. In the 2:18 trot Durfee won the third heat with Clarence Berry's The Lark in 2:08¼, the fastest heat of the race. The summaries:

Monday, July 24.

2:17 pace, first division—Purse $1200 (three heats):

Canute, b h by Great Heart	(Fleming)	1	1
Deputy Sheriff, b g	(Thomas)	2	2
Prestolite, blk m	(McDonald)	4	3
Joe B., b m	(Brown)	6	4
Rose Direct, b m	(Walker)	3	5
Medium Gazette, b h	(Hedrick)	5	6
Vanza, b m	(Marvin)	7	7
Billy Direct, b g	(Valentine)	8	8
Harold T., br h	(Snow)	9	9
Young Todd, b g	(Cox)	10	10

also started.

Time—2:07¼, 2:07¼, 2:08½.

2:10 trot—Purse $1200 (three heats):

Director Todd, b h by Todd	(Cox)	2	2
Bonington, ch h by Bellini	(Jones)	5	1
McCloskey, b g by Theodosius	(McDonald)	1	3
Glenwood B., b g	(Stokes)	3	6
Kid Cupid, ch g (Daniels), Grand Marshall, blk g (Hopkins), and Esperanza, b m (Durfee) also started.			

Time—2:09¼, 2:06¼, 2:09¼.

2:17 pace, second division—Purse $1200 (three heats):

Gilbert Patch, b h by Dan Patch	(Shively)	1	1
Miss Rejected, r m	(Valentine)	8	2
Le Belle Oline, ch m	(Shuler)	1	4
Black Wreath, blk g	(Mallow)	5	3
Hoosier Boy, b g (Marvin), Wandola, ch g (Powell), Rayo de Oro, ch g (Durfee), Arkancello, b h (Edman), Haley C., b m (Muma), Hal Plex E., br h (McMahon), and Castaway (Kane) also started.			

Time—2:08½, 2:08¾, 2:10.

2:18 trot—Purse $1200 (three heats):

Zombro Clay, br h by Zombro	(Valentine)	1	1
The Lark, b m by Carlokin	(Durfee)	8	3
Onward Allerton, b h	(Edman)	6	2
Truesada, b m	(Cox)	2	4
Blackburn Watts, b h (Milloy), Miss Denver, b m (Egan), Helen Worthy, b m (Murphy), Dr. Buckley, b h (Thomas), Dorris Watts, b m (Fleming), Banker Bingen, b g (Dempsey), and Josie B., b m (Calkins) also started.			

Time—2:09¾ 2:09¾,, 2:08¼.

Tuesday, July 25.

Record breaking seems to be the fashion on the Grand Circuit this year. North Randall started off with the fastest three heat race ever paced and Detroit immediately followed with the two fastest consecutive heats ever paced by a four-year-old mare. Miss Harris M., a daughter of Peter the Great that took a record of 2:07¼ as a three-year-old last year was the equine lady to put up this record, which she did in the Board of Commerce (formerly Chamber of Commerce) stake for 2:06 class pacers. Miss Harris M. won three straight heats in 2:01¼, 2:01¾ and 2:04½. The first heat set a new mark for the stake and the world's record was completed when Miss Harris M. won the second heat.

Miss Harris M. completely outclassed the field in the first two heats. In the first mile, McDonald held her back until the three-quarter pole. Here he let her out, and the bay mare, in fourth place, with a tremendous burst of speed, overcame the lead of Goldie C. and won by a length. The second heat was virtually a repetition of the first, McDonald driving his mare two lengths in front of Sadie Densmore. The third heat furnished the real fight of the race, Miss Harris M. winning in a grueling finish with Savoy, Sadie Densmore and Billy Dale. Billy Dale led to the three-quarters, Miss Harris M. in second place. At this point the field closed in and the finish was so close that many of the spectators were uncertain as to which had won.

The 2:12 trot for three-year-olds, with $600 added, was captured by Harrods Creek, which took the last two heats from Expressive Lou. The latter, which was picked to win the event on the strength of her showing last week at North Randall, took the first heat with little difficulty, but lost by a nose in the second, and was so far behind in the third that Murphy slowed down before reaching the finish. The last half of the second heat was stepped in 1:01¾.

The other event on the card was the 2:12 pace, which went to Patrick M., while Dexter Direct and Duimster also took a heat each, the decision going to Patrick M., under the placing system in effect.

The California horses that started during the afternoon were White Sox and Contention B., driven by Durfee, and John Malcolm, driven by Daniels. All were outside the money.

2:12 trot, Hotel Wayne, three-year-old sweepstakes, 2 in 3, $600 added:

Harrods Creek, ch c by Gen. Watts	(Engleman)	2	1
Expressive Lou, b m by Atlantic Express	(Murphy)	1	2
Brownie Watts, br f	(B. Fleming)	3	3
Lightsome Watts, br f	(B. Fleming)	dis.	
Peter Dixie, b c	(Rea)	dis.	

Time—2:08¼, 2:11¼, 2:10.

2:06 pace, Board of Commerce stake, purse $5000 (three heats):

Miss Harris M., b m by Peter the Great	(McDonald)	1	1
Sadie Densmore, ch m	(Thomas)	3	2
Savoy, blk g	(Floyd)	11	5
Goldie C., b m	(Valentine)	2	9
Billy Dale, b g (Cox), Ben Earl, b g (M. Childs), Lillian T., blk m (Wilson), Roan Hal, r g (Earing), White Sox, b m (Durfee), The Problem, blk h (Murphy), The Beaver, b h (B. Fleming), and Pat Carmody, br h (Walker) also started.			

Time—2:01¼, 2:01¾, 2:04½.

2:12 pace, purse $1200 (three heats):

Patrick M., blk g by Norbells	(Stokes)	1	3
Dexter Direct, br h by Baron Direct	(Egan)	7	6
Duimeter, b g by Duim	(Lindsay)	8	1
Derby Custer, ch g	(Murphy)	6	2
Allen B., b h (Cox), Red Mike, ch g (McAllister), Contention B., b h (Durfee), and John Malcolm, b g (Daniels) also started.			

Time—2:06¼, 2:05¼, 2:08¼.

To Beat 2:30¼ trotting:

Virginia Fox, br m by Peeler Dare (Colby) ..... Won

Time—2:16¼.

Wednesday, July 26.

Mabel Trask, driven by Walter Cox, won the historic Merchants & Manufacturers' $10,000 purse, defeating St. Frisco and the others a little more convincingly than she did when she won The Ohio at North Randall the week previous. In The Ohio St. Frisco won the first heat in the fastest time of the race and the fastest heat trotted this year—2:04¼. In the M. & M. however Mabel Trask made it three straight, starting out with a mile in 2:05¼, and as the heats got slower each time it looks from this distance as if Mabel Trask outclassed her field that day, as the dispatches say none of the contestants seemed able to give her an argument. There were eight starters, Will Durfee with Virginia Barnette being the only representative of California. Virginia was 6-3-3 at North Randall and third in the summary but she dropped back a peg to fourth place at Detroit in spite of a better showing, as she was 3-4-3. Miss Perfection was second in one heat which placed her ahead of the California mare in the final tabulation.

The only other Californian to start during the day was the Tom Smith mare Baby Doll, and she was outside the money.

The 2:14 pace was a great contest throughout. The mare Colleen got the decision by taking the first two heats, one in a whipping finish and the other by a neck in a hard drive. The third heat was the best mile of the race. In another whipping finish Thomas Earl nosed out Colleen for the decision. Summaries:

2:14 pace, purse $1200 (three heats):

Colleen, br m by Charlie O.	(T. Tomas)	1	1
Thomas Earl, b h by The Earl	(Marvin)	7	9
Daisy H., ch m	(Grapentein)	2	2
Baron Hart, b h	(Maxon)	3	4
Admiral Dewey H., Prestolite, Tramp Quick, Josie B., Sailor Redlac and Sir Anthony Carter also started.			

Time—2:06¼, 2:07¾, 2:07½.

Merchants and Manufacturers' Stake, 2:08 trot, purse $10,000 (three heats):

Mabel Trask, ch m by Peter the Great	(Cox)	1	1
St. Frisco, b h	(Jones)	2	3
Miss Perfection, b m	(McMahon)	4	2
Virginia Barnette, b m	(Durfee)	3	4
The Eno, Rusticoat, Tramp Right and Sadie S. also started.			

Time—2:05¼, 2:07¼, 2:09¼.

2:14 trot, purse $1200 (three heats):

Azora Axworthy, b m by Dale Axworthy	(Murphy)	1	1
Miss Densmore, b m by Byvamp	(H. Tomas)	2	2
Allie Watts, ch m	(Edman)	3	4
B. C. H., b g	(Childs)	9	3
Binland, Albrook, Teddy Brooks, Junior Watts, Baby Doll and Caroline also started.			

Time—2:07¼, 2:08, 2:09¼.

A New Deal for Montana.

The Montana State Fair Association has concluded that it will benefit that State to have more light harness horses bred there so it is to try the experiment of giving harness racing and asking horsemen no entrance fee. Secretary Skinner says: "Never before in the history of harness races in this country has a race meeting been sanctioned where no entrance fee was charged, but we believe that it can be done, and done successfully.

"While some of the purses offered for harness events this year are not as large as in previous years, the fact that entrants are required to pay no fee, and each entrant will be entitled to two entries, will give horsemen really larger purses than formerly.

"If the experiment proves a success this year, as we are certain that it will, and if horsemen show their appreciation by a larger number and better entries this year, it will mean larger purses next year.

"There is no reason why Montana should not breed just as fine racing animals as any state in the country, and the State Fair intends to do everything possible to encourage breeders who are trying to build up the best strain of harness animals. The abolition of the entrance fee in harness events is just the first step in the program, and it is now up to the breeders to show their appreciation by entering their best animals.

"Owners will have the privilege of naming and starting two horses in any one event, but will be counted as one entry only, while the horses still have the privilege of winning two moneys."

The Montana plan should certainly be popular with horsemen and should bring the biggest list of entries ever received by any State Fair for a harness race program. It is to be hoped that the plan will work so successfully as to lead to its adoption elsewhere.

Dr. H. P. Calmes of Berkeley writes that there was a slight error made in giving the breeding of his filly Dazzling Hallie Patch last week. He gives it correctly as follows: Her sire is Dazzle Patch 2:09¾ (trial 2:02½ at four years), by Dan Patch 1:55, first dam Hallie Ryan by Dave Ryan 2:13 (trial 2:07), second dam Carmen, dam of Vera Hal 2:05, Roan Hal 2:07¾, Expressive Hal (trial 2:14 on half mile track) by Newsboy, third dam Sky Blue by Tom Hal (Gibson's).

Harness Horses and Horsemen

Single G. 2:00¼ and His Breeding.

Away back in Volume 8 of the Year Book in the list of 2:25 pacers is this entry: Shoo Fly Gyp, gray horse, said to be by Shoo Fly, record made at Indianapolis in 1892, 2:15¾. Turning to the Great Table in the same volume we find, "Shoo Fly, brown horse by Kramer, son of McMeen's Traveler, dam Margaret by Brooks," and Shoo Fly is stated to be the sire of Henry H. 2:22½ and sire of the dam of Guy 2:06¾, both pacers. There were only six pacers at that time that had records lower than Guy 2:06¾, and they were Mascot 2:04, Hal Pointer 2:04½, Direct 2:05½, Flying Jib 2:05¾, Jay Eye See 2:06¼ and Johnston 2:06¼. So it is plain that the Shoo Fly blood, while not much talked about in fashionable speed circles in recent years, was probably mentioned as "among those present" whenever there was a gathering of horse royalty in the trotting horse papers of twenty-five years ago. Shoo Fly Gup 2:15¾ made his record in a race wherein he was distanced. Some fourteen years ago or so a mare called Goldie by Red Dick, son of Hiatoga Chief (not very fashionable these days) was bred to Shoo Fly Gyp and produced a filly that was called Little Gyp. Little Gyp had some speed as she trialed in 2:18¼ at the pacing gait before she was put to breeding. Little Gyp was a Hoosier mare, being owned in Indiana, the only State that has produced three two-minute pacers—Dan Patch 1:55¼, Prince Alert 1:59½ and William 1:58½. Her first foal to attract attention was Grace D. that paced to the world's record of 2:10¼ for a three-year-old filly on a half mile track in 1911, a mark she afterwards reduced to 2:06¼. The next world's record holder to be produced by Little Gyp was Single G. 2:00¼, winner of the free-for-all pace at North Randall last week, the fastest second and third heats ever won by one horse. Single G. and Grace D. are both by Anderson Wilkes, a son of Onward, whose dam is a mare by Strathmore, the progenitor of that wonderful family of pacers that have made California famous by such speed marvels as Jim Logan, Mona Wilkes, Sir Albert S., Klatawah, and such sires as Steinway, Chas. Derby, Diablo, Demonio, and many others. Anderson Wilkes is one of the great sires, having 41 standard trotters and 51 standard pacers to his credit, while his daughters have produced 40 in the list, and his sons have sired 52. Single G., whose four-year-old record was 2:07¼, five-year-old record 2:02¾, and six-year-old record 2:00¼, was bred and is still owned by W. B. Barefoot of Cambridge, Indiana, and has been driven in all his races this year by Curtis A. Gosnell of the same city. That his record will be below the 2:00 mark before the end of the season is a pretty safe prediction.

Thinks Adioo Guy Will Be a Star.

In the items which "Marque" sent the Horse Review from Youngstown, Ohio, is the following about Adioo Guy 2:05¼, the pacer that Frank Turner bred and raised at Santa Rosa: "The most discussed pacer that entertained the people here was Adioo Guy, in Harry Gray's stable. It will be recalled that he won the first heat of his race at Toledo, last week, in 2:05¼, and was distanced in the second. I didn't see him show any terrific speed, but saw enough of him to know that he has extreme speed. Once Kate McKinney tackled him, and he moved away from her so quickly that she seemed to have slowed down to a 2:30 clip; again, The Beaver 2:04¾, a fast and classy pacer, tackled him, and with another short flight he had opened up a couple of lengths. He wears hobbles with the grace that a girl graduate dons white clothes, and it's my belief that he will become a pacing star."

Matinee Racing at Petaluma.

The Petaluma Driving Club's matinee at Kenilworth Park, Petaluma, last Sunday was a very successful affair. Several San Francisco horsemen shipped their horses to the poultry centre and two of them, A. Combatalade and D. Keating, were rewarded by winning the races in which they were entered. Dan Keating was asked to do the starting in the races in which he had no entry and got the horses off in good shape. There were three harness races and one run on the program. The summaries:

Birdeye ..... (A. Combatalade)	3	1	1
Little Jack ..... (Conlon)	1	5	2
Silver Logan ..... (Healy)	2	2	3
Peaches ..... (McGovern)	4	4	4
Gracie S. ..... (Ramatici)	5	3	d

Time—2:24½, 2:25½, 2:24.

Second race—2:15 pace:

Victor Pointer ..... (Keating)	1	1	
Tom Murphy ..... (Silvia)	2	2	
Hamburg Belle ..... (Dupont)	3	3	
Sarah C. ..... (Ryan)	4	4	

Time—2:28, 2:22½.

Third race—2:30 pace:

Glenwood Chief ..... (Millerick)	1	1	
Grace McKinney ..... (McGovern)	2	2	
Billy T. Healy ..... (Mahoney)	3	3	

Time—2:27, 2:30.

Fourth race—Three-eighths mile, running: Togo (Bugeia) first, Sonoma Girl (Millerick) second, Sir Victor (Lily) third, Baby Nell (Earnshaw) fourth. Time, :38½.

Officials—Dan Keating, starter; Messrs. Voyer, Albee and McDonald, judges; John Lawlor Sr., timer; Charles Wyatt, marshal.

Last Sunday's Matinee at Golden Gate Park.

While the fields were smaller than usual at the matinee of the San Francisco-California Driving Club last Sunday in Golden Gate Park, the racing was excellent and in the free-for-all trot and free-for-all pace there were close contests and fast time. In the free-for-all pacing event Mr. Eugene Cerciat's mare Mabel Dillon made her first appearance this season, and after losing the first heat to Secretary Kenney's W. J. K. won two heats rather handily in 2:14 and 2:15.

In the free-for-all trot President Geo. Giannini's mare Ella M. R. won the first and third heats in 2:18 and 2:17, M. Ford's Minequa taking the second heat. In this race Mr. J. A. Wilkin's Merrylina was second in every heat and trotted a good race.

The 2:12 pace was won by H. Campodonico's King Pointer in straight heats, and Jas. Ryan's Rosie O. won the 2:20 pace in the same fashion. Results:

First race—2:25, mixed:
2:12 pace, one mile:

King Pointer ..... (H. Campodonico)	1	1	
J. C. Simpson ..... (Frank Goularte)	2	2	
Pointer Belle ..... (J. M. Kidd)	3	3	

Time—2:14, 2:14.

2:20 pace, one mile:

Rosie O. ..... (J. J. Ryan)	1	1	
Dibble Wilkes ..... (S. Benson)	2	2	
Black Mack ..... (L. A. Gielow)	3	3	

Time—2:18½, 2:22½.

Free-for-all pace, one mile:

Mabel Dillon ..... (E. Cerciat)	2	1	1
W. J. K. ..... (W. J. Kenney)	1	2	2
Emma M. ..... (William Malough)	3	3	
Senator H. ..... J. M. Kidd)	4	4	3

Time—2:13½, 2:14, 2:15.

Free-for-all trot, one mile:

Ella M. R. ..... (G. J. Giannini)	1	3	1
Minequa ..... (M. Ford)	3	1	3
Merrylina ..... (J. A. Wilkens)	2	2	2

Time—2:18, 2:18, 2:17.

Getting Ready at Baker, Oregon.

Secretary Joseph Waddell of the Inter-Mountain Fair and Racing Circuit writes the Breeder and Sportsman that trainers and horses are arriving at Baker for the "final prep" before the opening of the circuit August 15th. W. E. Marten has arrived from The Dalles, Oregon, with Song Sparrow, William Stuart from Santa Rosa with Emeline Dillon, The Potreress and Bonnie Quinn, Johnny Compton from Santa Rosa with Pfeister's Lynwood and Linnie C., and A. B. Kenny from North Yakima with Vevo Hal (not Vera Hal as published in the list of entries), and Daisy D. J. L. Crawford is in from Toppenish, Wash., with two runners—Leo. H. and Hyndla. W. H. Boyd is at the track with Hallis Allerton by Allerton 2:09¼ and Sandy Hal by Hal B. These two are not entered but are in training and are grand individuals. Mr. Boyd was at one time the horse shoer for the late Monroe Salisbury and shod and balanced that black whirlwind Directly 2:03¾ at Louisville, Kentucky in 1898. He also shod Prodigal and others for the late Marcus Daly of Montana. Mr. Boyd expects to go through the Inter-Mountain circuit and shoe some of the fleet-footed horses. All the horses at Baker are in fine condition. William Stuart says the altitude makes the horses blow a little but they seem to like it. The drivers, says Secretary Waddell, appear to be in about as good condition as their horses, are enjoying the cool mountain water and seem to be at peace with their fellow men and the world.

Jay Ell Mack Went On a Spree.

"Marque" tells this story about one of Tommy Murphy's string of racers: "Jay Ell Mack 2:04¾ celebrated his victory at Youngstown by an all-night spree after arriving here, thus disgracing the many members of Tommy Murphy's equine family. The little pacer broke the rope barrier which confined him to his stall, or was supposed to confine him, and leaping over the cot of his caretaker, Eddie Rooney, proceeded to make a night of it. He started west, presumably headed for his old home town, Galesburg, Ill., and had journeyed some six miles before he attracted the attention of a sleeping farmer. Meantime Eddie and another boy took the trail, and in the early morning hours discovered that Jay had been arrested by the farmer and locked up. He was charged with about every criminal act in the code, and the farmer backed up his desire for vengeance with several pitchforks and a shot gun. Word was sent to Tommy and he proceeded to the rescue in his auto. The farmer stated that Jay had destroyed from $75 to $125 worth of growing oats, that he would not have been rudely awakened and made to lose so much sleep for a like sum or sums; that his neighbor, Mr. Johnson, had agreed with everything he said, etc., etc. He wound up, however, by wanting $25, and when Tommy gave him $30, telling him to blow himself to some smokes, the gentle tiller of the soil came very nearly collapsing. That extra $5 got his goat. I'll bet that he was one of those sanctimonious old boys that puts rocks in his butter and feeds his "for sale" chickens on sand. At any rate, Tommy took Jay back to the track and worked him ten heats. Jay complained of having a very bad taste in his mouth, and called for an eye opener, but all that he got was work."

—o—

In the third heat of the champion three-heat-pace at North Randall, Single G., the winner, led at the three-quarters in 1:30 and there the others quit and he came on alone, pacing the last quarter in :31¼ and the mile in 2:01¼. Russell Boy, who was second, was eight lengths back when Single G. reached the wire.

Geers Saw St. Frisco Win First Heat of Ohio.

The first heat of the great Ohio stake race had just been finished and St. Frisco announced the winner of the heat. The race had been close, the finish closer. Mabel Trask had crowded the winner to the very wire. The time was the fastest ever trotted in the history of the Ohio.

A murmur ran through the crowd. One man's name was on all lips. In that minute of a horse's triumph a thousand minds turned to thoughts of one man, that man one of the most loved by men and beasts who love the racing game for itself. All expressed sorrow that E. F. "Pop" Geers could not be there to see his horse win.

But he was there. He did see that finish.

When Pop's horse won the first heat, the brown face was wrinkled more than it had been since his illness. And when the last heat was run and St. Frisco had lost the race his face was still a wrinkle of smiles. It was the sport of the race, the gameness of his losing horse, and the joy of living back in his world again.

A little before the bugle had blown to call the great trotters for the start of the Ohio, eyes of thousands were trained on the bluebloods as they trotted past the starting judges to take their places.

Almost unheeded an auto swung in at the gate, went carefully over the bumps, passed the rear of the grand stand and whirled back up toward the head of the home stretch. There it maneuvred back and forth until a little, hunched old man who sat stiffly in the rear seat was able, with binoculars, to see the whole course.

The injured leg which has kept the veteran driver in Lakeside hospital since he was trampled by a horse last week, rested on an improvised cushion.

A longing look passed over the wrinkled face as St. Frisco, his horse, came down to the fence and turned near him with Frank G. Jones in the sulky. The racing instinct which has made the veteran a favorite since that first year, 1881, when he first came north from his southern home to drive in the Grand Circuit, struggled with the pain in his leg and body for supremacy.

Pain won, and Pop Geers waved a blessing to his horse and its driver.

The horses went from him and down the stretch, received the word and were away to the back. Pop Geers never took his binoculars from that flying group.

He saw The Eno take the lead and set a terrific pace. By the expression on his face the veteran driver showed that he reckoned with The Eno, for the beautiful chestnut was also from the south.

A smile crossed his face as St. Frisco pulled up to the leader's sulky, the light purple of Jones' jacket almost blending with the darker purple worn by C. L. Floyd, who drove the leader.

He saw Walter Cox, shining like a yellow sunflower, as Cox also swung up near the front with Mabel Trask, the horse expected to beat St. Frisco, Geers' own. He saw them hold these positions until they reached the seven-eighths post and seemingly were thundering right down onto his auto.

At just the right second he saw Cox swing to the outside. Then he knew the race was on in earnest. Jones, too, swung out a little. Then the two horses began to creep up on the leader. As they passed the auto, Pop Geers tried to shout but the shout ended in a twitch of pain.

Going from him again, Pop Geers saw four horses leading, almost abreast. He smiled again. He knew his horse and believed in it. The Eno winded and broke. He had been expecting that break. St. Frisco was leading.

But as they neared the wire Mabel Trask spurted. Pop Geers saw Jones raise his whip and St. Frisco give his last. The smile gave way to a worried frown as the little old man settled back in his seat and trained his glasses toward the stable.

He saw a man running toward him waving his arms. His smile came back. The man was Jones, who couldn't wait until he had carried the glad news.—Cleveland Plain Dealer.

Studying European Ways.

Dr. C. J. Marshall, state veterinarian of Pennsylvania, recently returned from France, where he has been spending several weeks studying the methods of handling horses and mules in the British and French armies. The British have about 400,000 horses in service in France and the French are using about 300,000. Since the trench fighting set in the horses have been used chiefly for transportation purposes and Dr. Marshall says that as a rule the horses are in good condition and well cared for. Losses are comparatively small, owing to the up-to-date hospital service, where wounded or worn out animals are taken care of.

The American mule, according to Dr. Marshall, is the favorite army equine. Owing to the general satisfaction the mule is giving, Dr. Marshall says he was unable to make much of a collection of profanity used by the mule drivers, and he thinks that they could not equal the vocabulary developed by the mule drivers of the Civil War.

—o—

Zombro Clay, the "outsider," won two heats of the 2:18 trot at Detroit last Monday and on the first heat $2 mutuals paid $182.80. Zombro Clay was bred in Ohio and is a son of Zombro. He took a record of 2:29¼ in 1914, and started eight times in 1915 without winning a heat.

MR. HARRISON PLEASED WITH HIS PURCHASE.

Seattle, July 16, 1916.

Breeder and Sportsman:

While sitting by my fireside today nursing my lame back I have put in my time re-reading Helm's book on American Trotting Horses, also "The Horse of America" by Wallace and "The Life of W. B. Fasig" by W. H. Gocher, and near the end of this almost perfect day the postman brought me your paper.

The coming of your journel always brings me a lot of pleasure. Today I read the account of that mile in 2:04 by Mr. Barstow's good pacer All McKinney, and to know that Mr. Barstow, after all his years of tenacious effort has developed such a fast harness horse, is a pleasure to me, for I know that Mr. Barstow has done a lot of trying and now that he has taken this good pacing prospect East I hope that All McKinney will win in every heat he starts in, for Barstow is entitled to success.

I also hope that Messrs. Silva, Durfee, Spencer, and Marvin Childs each get a big share of the winnings over the Eastern tracks.

I note that I was the only buyer from an outside state at the recent Suisun Farm sale of horses. I had no idea that I would get that filly. However, she is mine and now I will tell the story on myself. I had for years wanted to own a Demonio; in fact, ever since the days of Mona Wilkes. I have known Airlie Demonio for years and drove him at Woodland. I at all times admired him and he proved himself a rarely good race horse. He will be a sire of early and extreme speed. I saw his full brother Potrero Boy being trained by Sam Norris at Santa Rosa. I liked the big bay pacer and said that he would be a fast one. Well, he made good, as did every Demonio that has been given any sort of chance. I read the advertisement of Rush and Haile's sale. I noted a two-year-old bay filly by Demonio, dam Mamie Airlie by Prince Airlie, whose dam was by Guy Wilkes, and that filly got into my mind and the thought of that filly stuck to me like a microbe. Finally one day I wrote a letter to F. W. Kelley and said that if that is a nice filly and is being sold for a song like all the Rush and Haile colts have sold at Suisun sales, buy her for me. I don't want her, but she has gotten a hold on me, so buy her. After I wrote and sealed the letter I tore it up and said: "What's the use?" Well, I went to sleep, woke up, and there was that filly gnawing away at me, so I got up, re-wrote the letter, took it out and mailed it, and said, "Dog-gone that filly; now I have gone and done it, and some rich California horseman like Borden, Silva, Ruhstaller or DeRyder, will bid her up to $500. But to my surprise on July 4th I got your wire saying that I owned the filly and that she is a nice one, price $50. Well, I was pleased, and I was on my way to a horse sale that day and I never enjoyed a day's sport so much. Possibly my new filly aided my digestion of the sport. Well, her dam is by Prince Airlie, a real speed siring son of Guy Wilkes, and even if Henry T. White does speak deprecatingly of Guy Wilkes, as compared with his full brother William L., yet the blood of Prince Airlie seems to blend well with that of Demonio, as Airlie Demonio and Potrero Boy are out of daughters of Prince Airlie, as is another full brother that took a record recently of 2:14 at Santa Rosa, and I know of another good pacer that I sold to a Mr. Millington of Victoria, B. C., but his name has slipped from my memory.

Mamie Comet, the second dam of my filly, was once owned by a real friend of mine, the late Isaac Ellis of Olympia, Washington. Mr. Ellis often told me about the good mare Mamie Comet by Nutwood that he sold to the man who owned Guy Wilkes, William Corbett. Mr. Ellis is dead and I now own a filly who is a granddaughter of Mamie Comet by Nutwood 600. I will try to give this filly an opportunity to make good and if she don't, why it will only be one more case of love's labor lost.

In conclusion I want to say, that the men who bought the fillies by Rush and Haile's elegantly bred trotting stallion Montbaine, will if they, the owners, give them any sort of a reasonable chance, be pleased, for Montbaine is not only a fast trotter but is just one of the best bred stallions ever in California, and every filly by him offered by Suisun Stock Farm was out of a well bred mare. I hope that the buyers who got those choicely bred two-year-olds for less than the cost of feeding them, will not get cold feet but will send them to good sensible trainers, for Montbaine will go down in the horse history of California as a first-class sire. Demonio will furnish additional glory to his illustrious dam Bertha and his great sire Charles Derby.

Yours truly,

C. A. HARRISON.

Wilton Hall, the Meridian (Conn.) manufacturer who always makes a tour of the Grand Circuit, says the harness horse game is getting better every year. He drove in races forty years ago when the game was young. And Mr. Hall didn't mean the betting game when he made the remark, as he never places a bet. He says the game is better because the horses are better and faster and the owners and trainers are better, bigger men.

◈◈◈

That good four-year-old trotter The Exposer 2:13¼, winner of the sweepstakes for his age, at Youngstown, last week, is a son of The Exponent 2:11¾, out of Emma Conductor, by Conductor 2:14¼.

A CASE OF SUCCESSFUL IN-BREEDING.

[By C. C. C.]

Since the good race horse pacer Adioo Guy 2:05¼ made his victorious campaign on the Eastern half mile tracks last year I have frequently seen mention of his performance, pedigree, etc., in the horse papers, and while his breeding has been correctly given I have never seen mention made of the fact that he is the most closely inbred harness race horse that has ever been produced, especially among the fast ones. As is well known he is by Guy Dillon 2:21¼, one of Sidney Dillon's best as well as best-bred sons, and his dam is the great brood mare Adioo, by Guy Wilkes. But I do not think it is generally known that his dam is a full sister to By Guy, the dam of his sire, Guy Dillon. That being the case, his bloodlines are exactly the same as though his sire had been bred back to his own dam, a thing which practically no sane breeder would for one moment consider doing. Frank Turner made a bold experiment when he bred Guy Dillon to a full sister to his own dam, and had Adioo Guy proven a weed instead of an extremely fast, consistent and game pacer he would have been adversely criticized by those who knew about the experiment. But it happens to be a fact that success in breeding as well as in other lines of business very often attends those who are bold in their operations and are not afraid to take an initiative and do the unusual thing. I know of no breeder of harness race horses who has bred as many 2:10 performers, compared with the number of animals bred, as Frank S. Turner of Santa Rosa, formerly of the Santa Rosa Stock Farm, who, before he became the proprietor of that establishment, and while superintendent for the Pierce Bros. was really, if not technically, the breeder of the first two-minute trotter, the dainty Lou Dillon.

As a matter of fact I do not know to which sex Adioo Dillon belongs. In the mention made of him (or her) in last week's B. and S. he is called "she" while I have been under the impression that she was a "he," and I shall still write of him (or her) as a "male of the species." [You are right—Adioo Guy is a he.—Ed. B. and S.]

And what a choicely bred one he is. Aside from the speed inherited from his grandsire Sidney Dillon his inheritance on his maternal side is choice enough to give him a right to be a sensational performer. Through his first three dams he carries the blood of Guy Wilkes, Nutwood and Dictator, and they are all producers of 2:10 speed. His second dam, the famous old By By, is a much greater producer of extreme speed than the records give her credit for being. "Pop" Geers trained her son, Marengo King 2:29½, a mile right at 2:10 before he died, at an early age, but not before he had sired the good trotter Marie N. 2:08¼. Another son, Major By By 2:19¼, trotted a trial mile in 2:08½ before he went hopelessly wrong. Her daughter, Rapidan Dillon 2:12½, was timed a mile in a race in 2:07¾. The above mentioned three were all 2:10 trotters. Emma Dillon got a record of 2:16¼. Her daughters Adioo, By Guy, and a couple of daughters by McKinney were only trained sufficiently by the Pierce Bros. to prove that they had speed enough to be worth retaining for brood mares and then placed in the stud. Adioo is a double 2:10 producer with several others with slower records, and her daughter, Adioo Dillon, produced the great colt trotter Dillon Axworthy (2) 2:10¾. By Guy is the dam of F. S. Whitney 2:09¾ and Sophia Dillon 2:11¾, that was timed in a race in 2:07½, Major's By Guy 2:19¾, that gives promise of becoming a 2:10 trotter, and Guy Dillon 2:21¼, a 2:10 sire. One daughter by McKinney is the dam of Sir Harvester (2) 2:24½, a colt that was almost a sensation as a two-year-old and for which a big price was refused. Another daughter by McKinney is the dam of Frank Turner's grand three-year-old, Exponent Mc. Her youngest daughter and best-bred one is the elegant six-year-old black mare by Guy Carlton 2:21¼, whose dam Carlotta Wilkes produced four with records below 2:08 and five others with slower records. She is the property of Mr. Turner and has been put to breeding with her speed undeveloped. This young mare is also inbred to her own dam but not so closely as Adioo Guy. By By, her dam, is also the grandam of Guy Dillon, her grandsire.

Another case where close inbreeding seems to have proven highly successful is in the case of Mr. Barstow's fast green pacer, All McKinney 2:04. When All McKinney was a baby only a few weeks old Mr. Barstow took me around to his stable at the San Jose track to show me the best-looking colt I ever saw and one that was going to be the fastest one he ever raised. I saw the colt and admitted to the enthusiastic Theodore that I never saw a better looking one. But when he told me how the colt was bred I gave him the laugh and told him that that was no way to breed horses. Now he has got the laugh on me and I hope he gets $20,000 for what may be the fastest and best pacing horse ever bred in the Golden West.

The cases of All McKinney and Adioo Guy seem to indicate that close inbreeding in harness race horses may be successfully done with proper selections of the individuals to be mated, as has been the case with other animals, cattle, sheep and swine. As is well known, the best strains have been produced by close inbreeding of selected stock.

The citizens of Sacramento are to raise $10,000 to be used in providing special features for the State Fair to be held there in September.

MAKE STARTING PAYMENTS BY MONDAY NEXT

The race meeting of the Pacific Coast Trotting Horse Breeders' Association is scheduled to take place this year at Santa Rosa August 9th to 12th inclusive. Starting payments in the Pacific Breeders' Futurity Stakes Nos. 13 and 14 must be paid ten days before the first day of the meeting. As that date falls on Sunday the 30th (tomorrow) Monday, July 31st, will be the last date on which payment must be made. So if you want to start your colt or filly in the two-year-old pace, two-year-old trot, three-year-old pace or three-year-old trot, remember that next Monday is the last opportunity you will have.

The dates on which these four divisions of the above mentioned stakes are to be raced ,and the amount of each starting payment, is as follows:

Pacific Breeders' Futurity Stake No. 13, foals of 1913, now three years old:

Trotting division, purse $3390, Friday, August 11—$50.

Pacing division, purse $1300, Wednesday, August 9—$35.

Pacific Breeders' Futurity Stake No. 14, foals of 1914, now two years old:

Trotting division, purse $1350, Thursday, August 10—$35.

Pacing division, purse $1100, Friday, August 11—$25.

Starting payments in the above must be made on or before Monday, July 31st.

LAST DAY AT CLEVELAND.

Friday, the closing day of the Grand Circuit meeting at North Randall track, saw a sensational race in the free-for-all pace with several records broken. Out of an entry list of eight, there were five starters, the scratches being Directum I., Napoleon Direct and Anna Bradford. The starters were Russell Boy, Single G., Judge Ormonde, R. H. Brett and Hal Boy. Tommy Murphy won the opening dash in 2:00¼ and was thought to have the race at his mercy, but Gosnell brought Single G. up with a rush in the second heat and won by a nose in the same time as the first heat. Single G. then won the third and final heat in 2:01¼. It was the greatest exhibition of speed ever seen on the Grand Circuit and the following records were made:

World's records: The fastest three heats ever paced, the three heats averaging 2:00 92-100. The fastest second and third heats ever paced by the same horse, averaging 2:01. The season's record: Fastest first heat, 2:00¼; fastest second heat, 2:00¼; fastest third heat, 2:01¼; fastest three-heat race, averaging 2:00 92-100.

In the 2:18 pace W. G. Durfee won first money in the second heat and second money in the first and third heats with Contention B., son of Copa de Oro. The meeting was one of the most successful ever held at the North Randall track, the attendance being large, the racing excellent, and the weather all that could be desired except for rain late Tuesday afternoon. The summaries:

2:13 class trotting, three heats, purse $1200:

Donna Clay, b m by Don Cale.....(Valentine)	1	1	4
Worthy Prince, b h by Prince McKinney..(Cox)	6	2	1
Binville, blk h by Binjolla.....(Tippling)	2	3	3
R. C. H., b g by Faul.....(Childs)	3	5	2

Humfast, b f by Trampfast (Murphy), Caroline, b m by John B. Donovan (Rodney), Silent Brigade, blg f by Silent Brook (Morrow), Ben Gregor, h h by Tommy Gregor (Floyd), King Mosa, b h by King Direct (Rosemire) also started.

Time—2:07½, 2:07½, 2:08¾.

2:18 pace, three heats, purse $1200:

Castaway, b g by Oro McKinney.....(Kane)	1	3	1
Contention B., b g by Copa de Oro.....(Durfee)	2	1	2
Sir Anthony Garter, br h by Silent Lightfoot.....(Jones)	4	2	4
Medium Gazette, b h by Gazette.....(Hedrick)	6	5	3

Arkancello, br h by Gen. Watts (Edman), and Young Tod, b g by Dictator Tod (Cox) also started.

Time—2:10¾, 2:11¼, 2:09¾.

Free-for-all class pacing, purse $1200:

Single G., br h by Anderson Wilkes.....(Gosnell)	2	1	1
Russell Boy, b h by Rustic Patenter....(Murphy)	1	2	2
Judge Ormonde, blk h by Ormonde....(Valentine)	5	3	3
R. H. Brett, b g by Waponee.....(Brady)	4	4	4
Hal Boy, b g by Hal B.....(McMahon)	3	d	

Time—2:00¼, 2:00¼, 2:01¼.

2:06 class trotting, purse $1200:

Joan, b m by Directum Spier.....(McDevitt)	1	1	1
Mirthful, b m by Star of Patchen.....(Murphy)	3	2	2
Lizzie Brown, b m by The Bondman..(Valentine)	2	3	3
Guy Nella, b m by Guy Axworthy.....(Jones)	4	4	4

Barney Coit, Mantua (Ohio) banker, who has enjoyed the races for many years, but who never has owned a race horse, has purchased the good trotter Grand Chimes 2:06¼, who won the Tavern "Steak" at North Randall last week. Prior to starting on the Grand Circuit there Grand Chimes had won four of five races. He is entered in the Devereux Limited stakes through the Grand Circuit, as well as the $10,000 Hoster-Columbus purses at Columbus. Grand Chimes is by Kentucky Chimes, while his third dam is the dam of the trotter Jack McKerron 2:07¼. The price for which Grand Chimes was sold is not given out, but his owners refused $5000 for him two weeks before he won the race at Cleveland. Grand Chimes was sold by the Black River Stock Farm Co., a corporation consisting of six men. Among these men are John T. Gibbons Jr., brother of Cardinal Gibbons; J. P. Barnes and J. A. Fain. This company owns 3,000 acres of land at Jonesville, La., where heavy horses, race horses, jacks and jennets, Hereford cattle, swine and various other cattle are bred.

◈◈◈

Canute, the son of Great Heart that won the first division of the 2:17 pace at Detroit last Monday, started eleven times last year and did not win a race.

Notes and News

Santa Rosa Fair opens a week from next Monday.

◈◈◈

Over 100 horses are now in training there for the races.

◈◈◈

Starting payments in the colt stakes will all be made by next Monday and then we can speculate on the probable winners.

◈◈◈

Good fields and close contests are expected at Santa Rosa. The track is in fine shape and was never faster than now.

◈◈◈

A well broken, stylish saddle horse is wanted by a gentleman who states the requirements in an advertisement which will be found on another page of this week's issue of the Breeder and Sportsman.

◈◈◈

El Dorado cocoanut oil meal is the thing to help fatten your stock and put them in condition. See advertisement.

◈◈◈

With Jim Logan 2:01¾, Leata J. 2:03, Vera Hal 2:05 and Teddy Bear 2:05 as the starters in the free-for-all pace at Dixon during the Solano county fair there will be a race worth going miles to see.

◈◈◈

When Marvin Childs won the Edwards Stake, $3000 for 2:10 pacers with Ben Earl, he won a big sum in the auction pools where Ben Earl sold for $25 in pools of $150.

◈◈◈

Prince Ingomar 2:12¼ is a new producing son of McKinney 2:12¼, the trotting mare, Carpathia 2:16¼, record taken at North Randall, being a daughter of that horse.

◈◈◈

Pedlar Direct, Mr. A. W. Longley's pacer by Baron Direct, worked a nice mile in 2:11¼ at Pleasanton this week. Star Dillon, Mr. Longley's pacer by Star Pointer, worked in 2:12½.

◈◈◈

In reply to a question by Bert Baker of Hill P. O., Sorrento, California, we will state that no horse, mare or gelding, trotter or pacer, has ever beaten or equaled the record of Dan Patch 1:55¼ for one mile.

◈◈◈

Everybody in Solano county is at work for the success of the big fair to be held at Dixon from August 16th to 19th. The live stock show will be large and the harness races have all the fastest horses in California named in them.

◈◈◈

The nine-year-old stallion, J. Malcolm Forbes 2:08, is now the grandsire of a standard performer, the two-year-old filly Nettie Forbes 2:28, by his son Todd Forbes 2:15, having obtained her record at North Randall recently.

◈◈◈

Martha Marshall 2:06¼, the only horse that ever won a heat from Dan Patch 1:55¼, when the champion was campaigned on the Grand Circuit, is the property of Henry Levy, of Detroit, and has at her side a foal by Lord Seymour 2:10¼.

◈◈◈

It is reported that James Coffroth, president and manager of the Southern California Jockey Club, will leave Tiajuana for the east in a few days and will try to arrange for a circuit of running meetings, with Tiajuana as the main racing point.

◈◈◈

No city of its size in California is blest with so many good hotels as Santa Rosa. They are all new and modern and those who attend the fair and races there week after next can be sure of excellent accommodations and fair treatment. Those who believe in preparedness, however, will make reservations ahead.

◈◈◈

The Western Horseman's' 'Fair Number" has much information about the leading State and other fairs held in the Middle West and South. The articles by the fair managers as to how they make fairs successful should be read by fair secretaries and managers everywhere.

◈◈◈

$100 purses with three races a day for the first two days of the fair and two races per day the remaining four days will draw quite a lot of runners to Santa Rosa. There are said to be between forty and fifty thoroughbreds already in training for the meeting.

◈◈◈

E. T. Barnette, of Los Angeles, Cal., has presented the noted brood mare Silurian 2:25½ (dam of Manrico 2:07¼ and four others), by Wilton 2:19¼, to Mrs. George Bowerman and her sister, Miss Laura Grammer, of Lexington, Ky. Silurian was bred to Native King 2:11¾ this spring.

◈◈◈

There were only three starters in the last heat of the 2:12 pace at North Randall, yet a $10 ticket in the mutuals paid $262. And one of the five men who held all the tickets on the winner also held a $2 ticket the Monday previous that paid $153.70. It is better to be born lucky than rich.

Last call, fair warning. Next Monday, July 31st, is the last date on which starting payments can be made for any of the four futurity events to be decided at the Pacific Coast Trotting Horse Breeders' meeting at Santa Rosa in August.

◈◈◈

The reason Will Durfee's horse Contention B.'s name did not appear in the summary of the 2:12 pace at North Randall after he was 8-4 in the first two heats, was because Durfee was a little late in getting on the track for the third heat and the field was sent away without him.

◈◈◈

The blood of Onward is to the front this year in the veins of the record breaking pacers. Single G. 2:00¼, winner of the fastest three-heat pacing race, is by Anderson Wilkes, a son of Onward, and Miss Harris M. 2:01¼, winner of the fastest two consecutive heats by a four-year-old mare, is out of a mare by Ondale, a son of Onward.

◈◈◈

The boarding and livery stable owned by H. O. Medau, East 11th street, Oakland, was burned to the ground one day this week and with its contents was a total loss. All the horses were out at the time which was fortunate. The loss was quite heavy for Mr. Medau, who is a popular member of the Oakland Driving Club.

◈◈◈

Miss Axworthy Dillon, three-year-old daughter of Axworthy and Cleo Dillon by Sidney Dillon, bred by Chas DeRyder and E. A. Gammon, and now owned by Thos. Pollock of Flagstaff, Arizona, is acting very much like one of the prospective money winners in the Pacific Breeders' Futurity for trotters that is to be decided at Santa Rosa next month. Miss Axworthy Dillon has worked a mile in 2:12½.

◈◈◈

Dr. Cecil Corwin has leased the half mile track at San Lorenzo, has begun to rebabilitate it and intends getting the track in order for training. The equable climate and close proximity to the centres of population should be drawing factors and make this track a popular one. A grove of eucalyptus trees protects the track from wind. Dr. Corwin intends opening a live stock exchange where horses can be bought and sold.

◈◈◈

Crit Davis, one of the best known Kentucky trainers and drivers, died at his home at Lexington recently . He had trained and driven many horses of note, among which was Prince Wilkes 2:14¾, a great trotter in his day, and Harrietta 2:09¾, winner of the Transylvania in 1893. He was sixty-eight years old and is survived by a widow and two children.

◈◈◈

As an aftermath of some queer driving during the Grand Circuit meeting at North Randall, it was announced from the judges' stand late on Friday afternoon that drivers A. S. Rodney and John Fleming, who started respectively Briscia and Royal Hall in the 2:18 trot Tuesday, and Mart Wilson, who raced Admiral Dewey II in the 2:18 pace Thursday, were suspended. Rodney was suspended for thirty days, Fleming for ten days and Wilson for sixty days.

◈◈◈

Neil Bowman of Hollister, a private in Troop C, N. G. C., now stationed at Nogales, Arizona, in an extremely interesting letter written home July 7th, states that the pick of Carranza's army, about 9,000 strong, are camped not three miles away and that they are in a most deplorable condition. Some have clothes, others very few, and none but the officers have shoes. "But," he adds, "there is one thiing they have and that is beautiful cavalry horses."

◈◈◈

Geo. Watson, whose knowledge of the New York horse market is second to none, says that if you can get horses of any kind good enough to win, whether it is on the trotting, running or show track, you can get as much money as you ever could. And in proof of his assertion he refers to the fact that on one of the hottest days in July last week there was sold at auction in New York a pair of carriage horses for $4250.

◈◈◈

Tommy Murphy headed the list of winning drivers at North Randall last week with $4769.50 to his credit. Others that won over a thousand were Cox $3525.50, Valentine $1665, Durfee $1627, White $1611, McDonald $1566, M. Childs $1555, Jones $1355, Edman $1347.50. Lon Daniels won $692 and Will DeRyder $140. Among the horses Mabel Trask led with winnings of $1375. The California horses that won money were credited as follows: Esperanza $587, Bondalin $500, Contention B. $385, Virginia Barnette $270, The Lark $210, Dicto $140, John Malcolm $122.50, White Sox $87.50, Rayo de Oro $87.50, San Felipe $70.

◈◈◈

Fred Ward is keeping up his record of riding in front in the most of his starts on the Nebraska half mile tracks. At Fremont July 11th he won the three-year-old trot with Don de Lopez by Kinney de Lopez, and the three-year-old pace with Fiesta Lou by Wilbur Lou. got third money in the 2:17 pace with Harry R., and was outside the money with Bon Courage. Mr. J. W. Sampsell's mare Lady Hoy by Strathway won second money in the 2:22 pace. California bred horses won first, second and third money in the 2:17 trot, Great Northern by Wayland W. winning first money, California B. by Athasham second, and Luana by Kinney Lou third.

In the account of the record meeting held at Los Angeles July 12th, at which several horses were given breeder's records, it was stated that C. A. Durfee drove Mrs. Severance's horse Pegasus to a record of 2:08½ trotting. This was an error. Pegasus was driven by Valencia Farm's trainer John L. Millar, and as Mr. Millar has been very successful in the handling of that farm's horses Mr. and Mrs. Severance are naturally anxious that he should have the credit of this fine performance, Pegasus being the first trotter on the Pacific Coast to be marked below 2:10 this year. As the other horses marked at Los Angeles July 12th were driven by Mr. Durfee it is easy to see how the error was made.

◈◈◈

Every horseman and stockman on the Pacific Coast who knows the Hon. Ben F. Rush, who has represented Solano and Napa counties in the California State Senate for many years and who has also for a long period been a Director of the California State Agricultural Society, will read the following news item with sincere regret and with the most heartfelt sympathy for the parents and grandparents of the unfortunate child:

Suisun, July 24.—Rush Gurnette, eight-year-old son of Mr. and Mrs. F. S. Gurnette, and grandson of Senator B. F. Rush, was run over by a hay wagon at 3 o'clock this afternoon. A wheel passed over the child's head and shoulder, fracturing his skull and crushing his arm and shoulder. He was carried to the office of Dr. A. R. Finan, where he died within three minutes.

NOTES OF THE THOROUGHBREDS.

The announcement that there will be $100 purses for runners at Santa Rosa during the fair has put a lot of thoroughbreds in training, and this portion of the race program will result in some good contests. The entries will be over-night.

◈◈◈

Now that racing at Tiajuana has closed it is said that many of the horses will remain there until the season opens again in November. One or two car loads will be sent to Reno for the September meeting in that city. It is estimated that at least two-thirds of the 400 horses racing at Tiajuana will be kept at that track until the November meeting opens.

◈◈◈

The bay gelding Longfellow, four years old, winner of eight straight races in England and imported to the United States by Jefferson Livingston, has been sold to Mrs. Edward Arlington of New York who will race him in this country. He is by Chaucer, a son of St. Simon, and is reckoned a very high class race horse.

◈◈◈

Spur, the three-year-old star of the James Butler establishment, continues to show improvement with each effort, and right now there are few racers his age master of the colt. Friar Rock defeated him decisively at Belmont Park, but of late Spur has been showing by far the better form.

◈◈◈

Sangallo, the three-year-old by Soltaire, bred by Mr. A. B. Spreckels and owned by "Bill" Carroll, won the Business Men's Handicap at Reno last Saturday, carrying 110 pounds and running the mile in 1:39. Ed Cudihee was second a length behind and Sangallo went into the lead at the half mile pole and was not headed thereafter.

◈◈◈

A dozen thoroughbred yearlings consigned by John H. Morris of Kentucky to auction sale in New York last week varied greatly in price. The yearlings were nearly all by Burgomaster, son of Hamburg and from good mares. The highest price of the sale was $5100 which was paid by Congressman Geo. W. Loft for a big brown colt by Burgomaster out of Antipathy. A filly by Burgomaster—Wild Thistle brought $2600 and went to M. L. Schwartz. No other yearling brought four figures and one sold for $75 and another for $125. The two high priced ones brought the average of the sale up to more than $900.

◈◈◈

At a recent meeting of The Jockey Club there was an amendment to the rules of racing adopted relating to handicap weights. Under the old rules in all handicaps where the added money exceeds $600 it was mandatory that the top weight should not be less than 126 pounds. Now the rule has been changed, fixing 126 pounds as the minimum top weight in all handicaps in excess of $800, except in selling handicaps. The original amendment did not make the exception for selling handicaps and it was introduced by Spalding L. Jenkins on behalf of the Maryland Jockey Club, which desired to increase purses without being forced to go to the handicap weight regulation.

◈◈◈

The thoroughbred stallion Buckhorn, R. J. McKenzie's celebrated stake horse, winner of a Brooklyn handicap and several big features in Kentucky, dropped dead at the Hawthorne track in Chicago the other day. He had just finished working half a mile in :49 and was being washed off in front of his stall when he suddenly made a dive for his feed box and then keeled over dead. He was the largest purse winner of the get of Broomstick in America. His total winnings were in excess of $37,000. His best time of his racing career was made at Douglas Park, a mile and seventy yards in 1:42, the first mile of the race being run in 1:37.

Stock Breeders' Page

THE FOOT AND LIMB OF A HORSE.

[By D. J. O'Keefe, Woodland, Cal.]

Every practical shoer knows that there are regular and irregular shaped feet and limbs, but how many shoers realize that the form of the horse's foot depends largely, if not wholly, upon the position of the limb above it? An irregular limb cannot by any means possess a regular or normal shaped foot; a regular or normal shaped limb of regular or normal position may possess an irregular shaped foot, but as a rule, the foot will be of normal shape. It is therefore of vital importance that the practical horse shoer first consider the limb above the foot to be shod.

An Animal with Limbs in Apparently Normal Positions—A line dropped from the shoulder to the ground divides the limb exactly in two to the fetlock; here the line drops to the ground immediately behind the heel. The axis of the foot forms an angle from fifty to fifty-three degrees. In the regular or normal position of the leg a line dropped in front from the shoulder passes down the centre of the limb and equally divides it and the foot.

The Knock-Kneed Positions of the Fore Limbs—Here the knees are in too close proximity. While the feet are apparently in normal position, the bend at the knees twists the foot so that the toes point outward and away from each other, instead of pointing directly forward. In others the limbs while apparently straight fall outward from the body, describing lines like the letter A instead of the straight limbed H.

The Toe-Narrow Condition of the Limbs—This position of the fore limbs is often encountered in wide-chested horses. The lines fall from the body just the reverse of the position illustrated at A. The foot position is also reversed, the toes pointing toward each other because of the twist in the limb. There are also other limb positions which produce the toe-narrow conditions.

Considering the Front Limb from the Side—The irregular position shows the limb inclined too far forward; the line from the shoulder touches the ground too far behind the heel of the foot. In the calf-knee conformation the knee is bent backward, which again throws the limb out of line. In the position known as knee-sprung the knee is bent forward throwing the foot backward and behind a plumb line.

To the man who has made a study of the anatomy of the horse's foot and leg it is easily understandable that there is always a reason, a cause, for an abnormally shaped foot, and in a future paper the abnormally shaped foot will be considered. It is true that a knowledge of anatomy is useful and valuable to the practical horse shoer in that it enables him to intelligently and practically shoe the horse. If after gaining a knowledge of horse anatomy the practical shoer can do his work so as to benefit the animal, he can consider himself extremely well paid for the time spent in study. It is the shoer's mission to shoe the horse practically and to the best interests and comfort of the animal.

[To be Continued.]

Make Your Entries for the State Fair.

As entries for all classes of livestock for the coming State Fair Sept. 2 to 9 close August 2, those expecting to exhibit should write for premium list and application blanks at once, addressing their letters to Chas. W. Paine, State Fair Grounds, Sacramento.

Indications are that the livestock exhibits will greatly surpass any previous exhibitions in the state, and the fact that the premium money has been increased is an additional inducement to exhibitors.

Many new breeders will make their first showing at Sacramento this year, especially swine breeders. The poultry show offers more inducement to exhibitors than heretofore—among other advantages there being twice the former capacity in the poultry building.

Dairy cattle will again take the lead in the cattle divisions, all of the prominent breeders having signified their intentions to come out with strong herd shows. That the show will draw breeders from the northwest is also certain, the impression gained by northern breeders at the P.-P. I. E. last year evidently having been good.

Several new beef breeders will exhibit show herds imported from the East since the 1914 state fair was held.

Horses and sheep promise to be equally as good a show as anything staged in recent years, and better in some classes.

The C. H. Widemann Goat Milk Company, Inc., at King City, is now milking 2600 goats daily and a modern condensery has been established there. A moving picture company recently visited King City and took 10,000 feet of film picturing the condensing process from the time the goats are milked until the milk is in the can.

Wells, Fargo & Co. Buy Klamath Horses.

Klamath Falls (Ore.), July 22.—Approximately sixty head of fine draft horses are now awaiting inspection and shipment by the Wells, Fargo Express Company buyer, George Manning. These animals, weighing from 1400 pounds up, are valued at from $185 to $200 per head.

Between 15 and 20 carloads of these fine animals have been shipped from Klamath Falls in the past few months in addition to thousands of cavalry horses and mules. Despite this tremendous exodus buyers representing the different interests still seem to locate fresh supplies.

It is reliably reported that more livestock has been shipped from this district since September 1, 1915, than along any 100 miles of the main line between San Francisco and Portland.

$4600 For a Holstein Cow.

In the great sale of Holsteins held at Detroit June 8th and 9th, the nine-year-old cow Jessie Fobes Bessie Homestead was consigned by the Munroe Company, Spokane, Washington and purchased for $4600 by the Cass Farms Company, of Sumner, Iowa. This cow was born March 14th, 1907, and has five 7-day records (3 under full age) averaging 29.54 pounds of butter. Her best record for seven days is 34.96 pounds of butter. This and her 30-day record of 142.16 pounds were world's records when made. She is bred to Finderne Pieterje Fayne 98104, who sold in the same sale for $3000, the purchaser being H. C. Davis of Granger, Wisconsin.

JESSIE FOBES BESSIE HOMESTEAD

Keep Cows Well Fed.

During the hot weather of July and August the milk flow of the average herd drops down nearly half. The heat and the condition of the pastures common at that time of the year are the main causes of this drop. The flies generally blamed are of much less importance than other conditions. The real cause is the failure of the animals to eat sufficient feed. Poor pastures, heat, and flies may all contribute to this result. It will be observed that during the hot weather the cows will graze but little and come to the barn at night evidently hungry. To produce three gallons of milk a day a cow has to gather at least 100 or 125 pounds of grass. If the pastures are short and the weather hot, generally this much grass will not be gathered and soon the milk flow goes down.

The influence of these summer conditions cannot be removed but may be improved. The main thing is to see that the cows do not lack food. They should be in the pasture at night and during the earliest, coolest part of the day. If the pasture is short feed silage or green crops. It is well known to all experienced with dairy cattle that when the milk flow goes down once for lack of feed it is impossible to bring it back to where it was before by better feeding later. To get a high production of milk during the year the cow must be kept at a high level of production all the time. For this reason do not neglect the cows during the hot weather and expect them to come back strong again when conditions become better in the fall. Keep them going all the time.—C. H. Eckles, Missouri Agricultural Experiment Station.

A pig should never be allowed to stop growing. In fact, that rule holds good during its entire life. A poor, runty pig is of no value. Close confinement to filth and dirt will check the growth, however generous the feed, but if starved at the same time, it will be a mercy to both pigs and owner to send them to the manure pile.

◈◈◈

The exhibition of live stock at fairs is done primarily for advertising purposes. Any stock breeder who breeds animals for sale knows that more sales are made through fair exhibits than by any other means. One lesson that is always learned at fairs is that it pays to have some attractive literature descriptive of the animals shown, to give away to visitors. While all who come to look at the stock are not buyers, there are many who may become buyers if they have some memorandum containing a few particulars about the animals shown and the name and address of the exhibitor.

THE CALIFORNIA STATE DAIRY COW COMPETITION, 1916-18.

[By F. W. Woll, Professor of Animal Nutrition in the University of California.]

The University of Califor-nia is about to inaugurate a state competition for dairy cows, for prizes of $4,700.

There are in California at the present time over onehalf million milch cows, valued at about $38,000,000—an amount of money which is but slightly larger than the total annual value of the dairy products of the state. The average yearly production per cow is not known with certainty, but is evidently below 150 pounds of butter fat. On the other hand, two cows in the state have produced more than 900 pounds of butter fat each in one year, and a considerable number more have each produced above 600 pounds during this period. There are also dairy herds that average over 400 pounds of butter fat per cow per year.

The average production of cows in the state is, therefore, not as much as one-sixth of that of exceptional cows, and is not much over one-third that of the average production of cows in a number of good dairy herds in the state. The high records mentioned were made by cows of exceptional capacity for feed consumption, whose ancestors were bred for high dairy production for many generations. They represent, therefore, the highest type yet reached by intelligent and consistent methods of breeding along dairy lines, and are not only the result of great skill in feeding and handling cows.

Experience teaches us, however, that production by dairy cows can be very appreciably increased by a better system of feeding and management than is now practiced by most farmers. There is considerable evidence indicating that a large proportion of the cows in this and other states do not produce sufficient milk to much more than pay for their keep, and many are kept at an actual loss when the feed they eat is figured at ordinary market prices. It becomes important, therefore, to demonstrate to our farmers the possibility of improvement in the production by dairy cows and to stimulate their interest in modern methods of dairying.

As a step in this direction, the College of Agriculture of the University of California will conduct a Dairy Cow competition during the period of November 1, 1916, to February 28, 1918, in connection with the official testing of dairy cows for production of butter fat in which the college has been engaged for a number of years past. The competition has been rendered possible through the hearty co-operation of breeders of pure-bred dairy cattle, feed dealers, creamery companies, and others interested in the advancement of the dairy industry, who have subscribed a fund of over $4700 for the award of prizes for records of production made by cows in the competition. A large number of special prizes of pure-bred bull calves, dairy apparatus, and feeds have likewise been donated in order to make the competition of general interest to dairy farmers and to insure general participation, Circular 153 of the College of Agriculture gives full information concerning the competition. A copy of it will be sent upon application to Dean Thomas F. Hunt, College of Agriculture, Berkeley, California.

New Rates for Transportating Live Stock.

Washington, July 20—New rates and regulations governing the transportation of pedigreed livestock were prescribed today by the interstate commerce commission in a decision on the complaint of the National Society of Record Association representing 100,000 fancy stock breeders against practically all of the railroads of the country.

Minimum weights were fixed for the computation of freight rates on cattle, sheep and swine and it was ordered that the liability of carriers should be on the following basis:

Horse or mule, $150; ox or bull, $75; cow, $50; calf, $20; hog, $15; sheep or goats, $5. In the case of shippers desiring to declare higher values the commission declared railroads are justified in charging an additional 2 per cent in rate for each 50 per cent or fraction above the standard value.

Higher charges for crated stock than for uncrated and rules requiring shippers to furnish crates were found unreasonable and ordered discontinued.

It is said that three San Francisco firms have about succeeded in cornering the hay crop in the counties whose market is San Francisco. Prices for good hay are now around $15 and will probably go to $20 before long.

◈◈◈

Prof. J. I. Thompson, of the State University Farm at Davis, California, has accepted the invitation to judge the live stock at the big fair and forest festival to be held at Santa Rosa next month.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Big Stick Stirs Up Dog Fancy.—Not without reason, the American Kennel Club has brought upon its head much popular indignation by its free handed use of the "professional handler" rule. The kennel public is easygoing and tractable as a general thing. When it displays resentment it is certain that something unusually serious has upset its equanimity.

Although indefensible and unconstitutional so far as freedom and justice are concerned, at the time it became law the kennel public apparently paid no attention to the "professional handler" question. More astonishing, however, was the fact that no attention was paid to incidents which marked its passage—incidents of such a grave character as to warrant a complete and far-reaching investigation.

The rule which is now being so liberally used was passed at the annual meeting in February, 1913, and was fostered with other oppressive and suppressive measures in contemplation by the kennel politicians. In fact, it was part of a scheme aimed to put the whole machinery of the American Kennel Club in the clenched fist of the kennel politicians.

The clubs on the Pacific Coast, or rather those beyond the Rockies, were strongly opposed to the passing of the "professional handler" measure. Representatives of these clubs attended a special meeting at San Francisco and passed a resolution that each delegate of a club represented should be instructed to vote against the rule when the latter was presented for adoption at the annual meeting in New York.

As the annual meeting of the American K. C. was to be held within a week after the resolution had been passed instructions to delegates by mail were out of the question, and telegrams to delegates might in some cases miscarry; there were twelve clubs involved. To simplify and condense things a telegram was sent the secretary of the American Kennel Club requesting that he act for the club and notify the delegates.

The delegates were not notified, and for all one knows they voted for instead of against the rule.

This failure to accede to the request of the Pacific clubs resulted in the resignation in a body of the Pacific Advisory Board, and as the amende honorable has never been made or even suggested there has not been a Pacific Advisory Board since.

It transpired at the next quarterly meeting of the American Kennel Club that the telegram had been handed to the chairman of the Rules Committee, who was closely identified with the "professional handler" rule.

No satisfactory explanation has ever been forthcoming as to why the telegram was handed to one other than those for whom it was intended.

At all events, if one will refer back to the time when the rule was introduced, it will be seen that its sponsors themselves never intended it should be applied except to those who make a practice of taking a string of dogs in different ownerships to the various shows. In fact, the alleged reason for the introduction was to prevent the growing "abuse" of handlers showing dogs at one show and judging them at another. When asked to cite "cases" it developed that only "one" case could be cited. Thus, because of one knavish trick a greater "abuse" has been fostered by the "un-American" Kennel Club, to use the common expression of today.

The writer is not deeply versed in the technicalities of the constitution and by-laws governing the "American" Kennel Club. He, however, knows that the "American" Kennel Club's principles as set forth in the constitution are essentially democratic. On this premise can such a rule as that which discriminates against a community be valid?

The late James Mortimer was quick to perceive the injustice of such a measure and offered a substitute to the effect "no person acting as judge should award a prize to a dog which he or she had owned, boarded, handled or prepared for show at any time during the three months preceding the date of the show at which the said person judged." This was a simple way of abolishing an offensive and oppressive act and at the same time hitting the nail on the head. In short, without discriminating against against any class, it effectually prevented the recurrence of many reprehensible practices not affected by the "handlers' rule."

The Mortimer substitution was lost, as was a similar motion submitted subsequently—facts which do not redound to the credit of those responsible.

Any motion to rescind the present rule which may be in contemplation had better be left until the quarterly meeting in December. September meetings are never representative and it is at these that the kennel politicians get in their work by taking advantage of the absence in the country of many delegates.

Whatever the broader minded, higher principled delegates may have in mind, the latter are confronted with the question as to whether the American Kennel Club is to continue as the "American" or "un-American" Kennel Club.—Fox Hills, in N. Y. Herald.

Woman 72 Catches Trout.—Just to show her daughters that despite her age she could still do some real fishing, Mrs. Kathryn Rapp celebrated her seventy-second birthday last week by catching several large trout in Lake Almanor.

Mrs. Rapp has been spending the summer at Chester with her two daughters, Mrs. Charles Gardella of Sacramento and Mrs. Charles Daly of Chico. On the day of her birthday she insisted on going fishing with her daughters, to demonstrate that although she was much older than they, she was almost as active as in her younger days.

She handled her rod and reel with considerable skill and hooked several trout with ease. The fish were served that evening as a portion of the birthday supper prepared for the occasion.

Fishing Popular at Klamath Falls.—Klamath Falls, Or.—A total of $1282 has been collected by County Clerk De Lap since the first of the year for hunting, fishing and combination licenses. Anglers' licenses are far in the lead in number, probably because of the good fishing for the past several months and also because the hunting season for deer and other big game has not yet opened. Since January 1, 1916, 720 anglers have bought licenses to try their luck in Klamath waters. One hundred and ninety-three more person have bought combination licenses which entitle them to both hunt and fish. Only 176 hunting licenses have thus far been secured.

Four veterans of the Civil War have taken advantage of the law which entitled them to combination licenses without cost. These gray-haired hunters and anglers are Henry Newnham, O. A. Stearns, G. F. Vose and G. M. Shippy.

Sharks Here Not Dangerous.—Since the "man-eating shark" scare on the east coast, some have wondered what local possibilities may develop on this coast, and every shark is being subjected to an unusual scrutiny . The truth is, sharks are scavengers, man-eating is a depraved taste with them, and only the very large ones are big enough to bother with "white meat." The idea of six or seven-footers bothering human beings is held only by those who think all serpents are venomous and toads make warts.

Any shark that can be killed on surf casting tackle is not likely to bother human beings. There are oil sharks in Alamitos Bay ten to twelve feet long, but so far as known they will not take human bait. Hammerheads, on the other hand, are not above suspicion. The truth is, any shark big enough and hungry enough to lose instinctive fear of man is potentially dangerous.

Egg Supply for New Hatchery.—That the world's biggest hatchery now being built in the Owens Valley to supply all Southern California with game fish will not have to go beyond a seven-hour packing trip to stock itself to capacity with the freshest of eggs is the final confirmation of Fish and Game Commissioner Connell's thorough preliminary investigation prior to picking out Oak Creek as the place most nearly combining the essentials of unlimited spring-fed water, abundant acreage for future expansion, permanent building materials, and proximity to egg sources equal to the vast demands already developing through annual record-breaking in license sales.

Deputy Ed H. Ober has just reported on the trip of final investigation as to egg-taking arrangements and possibilities about the Rae lakes, in which he piloted one of the Commission's fish-cultural experts, Frank A. Shebley, for years in charge of the Brookdale hatchery, up over the mountains into the snows where the "rainbows" and other trout still are spawning generally. The gist of their conclusion is that 20,000,000 eggs annually can be taken right in the immediate vicinity of the Rae lakes, only seven hours' pack-train trip down to the Oak Creek hatchery, thus making it possible to "eye" the eggs in the trough where they will be hatched, thus saving handling and making for more vigorous fry, as well as higher hatching percentages.

Ober's report is interesting reading for any sportsman. Tuesday, July 11, with pack outfit, Shebley and the deputy left for Rae Lake over the Oak Creek trail, camping at Baxter Lake, just over the summit, seeing en route twenty-two mountain sheep, four of which were young kids. Wednesday they pitched camp at the upper end of Rae Lake, seeing a doe and much deer signs along the trail, finding Baxter Lake and Slim Lake, just south of it, fairly alive with eastern brook trout from previous Fish and Game Commission experimental plantings. Thursday, they experted the egg-taking possibiilities; on one stream 100 feet long, Shebley reported 4,000,000 eggs could be taken. During Friday, ten trout of eleven-inch length were collected, and found ready to spawn, averaging the large amount of 450 eggs for such small fish. Saturday the spawning beds were examined by digging down into the sand about ten inches, uncovering many hundred fertile eggs, although the trout have not been spawning long in that altitude, where they are much later than below. Shebley estimated Rae Lakes alone will produce 10,000,000 eggs under ideal conditions, and with Bullfrog and Roadie lakes added, can easily double this annual output, making 20,000,000 eggs available for the as yet unnamed biggest hatchery in the world, right down the mountain, seven hours' pack away.

Deer Gets Stuck in Mud.—Wild animals of the Adirondacks are exceedingly shy at most seasons of the year and one may travel for days without getting a glimpse of them and then finally run upon a bunch of several. This was the experience, recently, of Hunt Dickson, who, with Lowell Brown, a guide, went to Regis Pond, and later to Grasse Pond, angling for trout. At Grasse Pond they saw seven deer in the water and one near the shore, where he had gone to feed on lily pads. The buck remained standing in the water, and as the anglers drew near they discovered that he was stuck fast in the mud. Mr. Brown hurried back to St. Regis Pond, where he found a member of the State Forest Fire Service and a helper, who returned with him, and together they constructed a bridge of young saplings and brush, with the aid of which they extricated the exhausted deer. Placing the deer, unharmed, on the bank, they left him and later he recovered sufficiently to disappear in the woods. Mr. Brown is one of the older set of woodsmen and he says he never before knew of a deer's getting into a place from which it couldn't get out.

Story of a Lost Sword Fish.—Only a few persons know that the waters of Point Loma abound at this season with the sword fish, the giants of all waters. These fish are from six feet to eighteen feet long and to an expert fisherman with the right tackle will furnish more thrills in less time, than anything that swims. That these giants, weighing from 300 to 600 pounds, can be caught with rod and reel seems almost incredible, but our modern tackle makers have solved the problem.

After tuna fishing for an hour, during which time we landed a dozen finned beauties, we sighted two fins standing a foot or more above the surface of the ocean. Baiting up the heavy line on the 9-ounce rod we circled in front of the fish, at a distance of about 100 feet. Probably fifteen minutes were passed this way before the sword fish sighted the bait. Suddenly he rushed up to within 30 feet of the bait, which was floating close to the surface. Down he dived and a slight tug was felt upon the hook.

The line was allowed to run freely to enable the swordfish to gorge the bait, and after he had run off 50 feet, the strike was given. He responded by a gigantic leap, coming clear of the water and showing his full length of more than 10 feet. Then he started off, fairly burning the water, and took 700 feet of line in his first rush.

At the end of the 700 feet he leaped, again clearing the water, and falling back with a crash that sounded like a "ton of bricks." A rush across enabled the captain of the Bonita to gain some of the line back, and then the fish sounded. Down, down 900 feet in the crystal blue waters of the Point Loma channel went the giant. He came up suddenly and leaping clear of the water some 300 feet away from the boat he sounded again. As the fish started up the line was rapidly reeled in, but so fast was the rise and following sounding, that scarcely 300 feet had been reeled in before that fish was again taking out line in his attempt to escape. Eighteen minutes and then the accident came. The line parted, where a 900-foot length was tied to a 600-foot length. The fish was gone.—Foster Kipp, San Diego Union.

More Land For Game Reserve.—The Glide range near Winters has been added to the preserved property of the Winters Fish and Game Protective Association, the body that was formed to prevent wholesale killing of game in the Putah canyon country. None but the members of the association may hunt on the ranges which it controls. The club has a range rider who will act as deputy sheriff to see that the state game laws are observed and that trespassers are kept from the ranges. Killing of does and other illegal hunting will be closely guarded against during the coming deer season.

The acquisition of the Glide range gives the association two of the largest ranges in the Putah country, the Pleasants range having been leased some months ago. The range owners find that their lands are better protected when leased to the club than if they were held by their owners.

Novel Idea For Dog Shows.—The dog show world is looking for novelties to bolster up the game and a suggestion was made recently which might be well worth looking into. At practically all the shows the same old faces are seen in the judging rings. One often wonders what will happen when these "regulars" go beyond. Little has been done to foster the newcomer in the judging ring. A suggestion has been made that a show be held at which no one but a novice shall judge. Naturally it would not be a point show. The idea is to get together fanciers who are supposed to know dogs and let them do the judging and then have a jury pass on their awards, giving prizes for the best, second best and third. There would probably be a lot of reversals, but it should furnish a day of real fun to the fancy.

DARK HORSE WINS EASTERN HANDICAP

C. B. Platt Surprises by Breaking 97 out of 100 in Tournament at Philadelphia.

Trapshooting fans who know claim that for producing dark horses the great Eastern Handicap has a presidenial convention backed off the boards. This was proved July 20 in the event which closed the 10th annual Eastern tournament contested over the Keystone League's traps at Holmesburg Junction, near Philadelphia, when Clarence B. Platt, of Bridgeton, N. J., bobbed up unexpectedly and captured the handicap by picking off 97 clays out of a possible 100. One hundred and sixty-four shooters were in the competition.

Platt, who fired from the 21-yard mark, did not take his stand until late in the day, and when he visited the stakes he threw a bomb into the midst of a trio of contestants who, tied for first place at 96, were hoping that no one could surpass this mark. They were C. B. Cutter, of Bridgeport, Conn., W. H. Lanier, of Augusta, Ga., and F. M. Ziegler, of Allentown.

Eighteen birds fell on Platt's first turn. He had a perfect average for his next two stops, but his aim failed on one shot at his fourth stake. With 20 needed to capture the event on his final time up the Jersey gunner blazed away without a miss, carrying off the bunting with a skill that evoked applause from the large gallery. In addition to the trophy for the first place Platt won the money prize of $137.15.

In the shoot-off to decide second place in the handicap Lanier shattered 19 birds in the first event, which earned him the berth and the trophy that went with it, while Cutter and Ziegler again tied. Shooting for third place Cutter broke 19 straight to Ziegler's 18. Second money was divided equally between the three men in the triple tie, each receiving $94.45.

Frank Huseman, a professional, who bore the totem of Washington, D. C., in the handicap, accomplished what no other shooter was successful in doing during the tournament, when he hung up a perfect shooting average, laying low a round 100 targets.

Charles Newcomb, interstate amateur champion, did not allow the tournament to fly by without collecting additional laurels. Newcomb won the Eastern Overture, sending to "smithereens" 99 of the tricky targets out of the century. Newcomb gave a splendid exhibition of control of muscle and nerve. He registered 20 the first time without a miss, and then let one get away from him before he could get into action on his second fire. Cool as Siberia, he called off the remaining 61 ,and brought them to earth with ease.

Seven tied for second place in this contest, namely, F. Billinger, Cumberland, Md.; S. G. Vance, Tillsonburg, Ontario; H. S. Sindle, Little Falls, N. Y.; J. G. Martin, Harrisburg; Fred Plum, Atlantic City; "Doll" Richardson, Dover, Del.; A. C. King, Toms River, N. J. The insurmountable obstacle for these men was 98.

Again, when the gunners were getting under way to shoot off the tie for second place in the Overture, the sportsmanship that exists between trapshooters asserted itself. Richardson and Plum, who both are crack shots, dropped out of the competition in order to give the lesser lights a chance.

Sindle, King and Billinger tied at 16 in the first event of the shoot-off ,and in the second race Billinger brought home the bacon, gathering 20 without a slip-up.

With cleverness that was the envy of many of the menfolk, Mrs. Albion Moulton, of Philadelphia, sent 87 discs flying in pieces, while Mrs. Harriet B. Hammond, of Wilmington, landed the second prize for women by hitting 86. Mrs. F. A. Johnson was also a prominent performer among the women shooters, and her score of 85 netted her third place.

Mrs. John L. De Veney, of Trenton; Miss Elizabeth L. Riley, of Wilmington, and Miss Amy Schofield completed the list of women competitors who helped to demonstrate that a woman's place in the warlike activities is no longer limited to nursing the wounded and such odd jobs.

Pacific Coast Indians.—Closing what is declared to be the best tournament in the history of the Pacific Coast Indians, the final events were shot off July 20th upon the range of the Tacoma Gun Club at Manitou grove. L. H. Reid of Seattle was awarded the best score and average of the tournament. He broke 390 out of 400 targets in the three days' shooting in the class A division. In the class B competition Adam Blair of Portland won with 372, while Mrs. Ada Schilling of Portland won in the C class.

The closing competition saw George W. Garrison of Seattle and Frank C. Riehl of Tacoma tied for high run with 51, Garrison winning in the shoot-off. Miss Gladys Reid of Portland won the women's trophy.

The individual results of each competition for each day's shooting during the tournament follow:

Vallejo Club.—Andy Flickinger, the Coast trap crack who is going to St. Louis next month to participate in the Grand American Handicap, scored high on Sunday in the Vallejo Club shoot. He was back on the 20-yard mark and busted 47 out of 50. The rest of the contestants shot from the regulation 16 yards. The results were as follows:—

A. G. Flickinger 47, H. J. Yocum 44, W. E. Mann 40, J. W. Pickham 38, D. Humphreys 35, P. G. Magistruni 36, W. King 35, R. Standish 35, J. Moore 34, Dr. Saxton 40, R. W. McPherson 29, P. G. Lynn 34, S. Magistrini 19.

Others who did not shoot through the entire program were: S. Magistrini 19x25, E. de La Metie 14x25, C. B. Shiveley 14x20, T. H. Phillips 12x20, J. McGlennan 12x20.

Still After Sparrows.—San Diego has been getting action upon the English sparrows, and it is now thought they are under control.

The first appropriation of $125 is exhausted, then 5 cents per bird was paid, and later 10 cents as they became scarcer. The first month the man to whom the work was delegated turned in 325.

Riverside and San Bernardino have a man's size job in this line, as the "rats in feathers" got a good head start ,and their unmelodious chirp and squeak is heard about the streets and parks everywhere in place of the native birds.

"Billy" Price and George Thomas will go after antlers in the vicinity of Inverness if Price is able to break away from work.

* * * *

There has been fair salmon fishing outside the heads for several days and the fish began coming into the bay on Thursday of this week, as many were seen jumping from the waters of the straits on that day.

Sportsmen's Row

Sportsmen start in young here in California. Wilcox Drake, the 16-year-old son of James C. Drake, came all the way from Hotchkiss School in Connecticut as soon as vacation arrived, to put in the time amongst the trout up on the Sespe and has just returned from the first of a series of outings he plans to take this summer. Being under the 18-year limit, and requiring no angling license, the young man wanted one, and Fish and Game Commissioner Connell issued it with his compliments, as the State could not take any money legally for it; but Drake Junior means to be a "regular fisherman."

* * * *

J. M. McLoughlin of New Rochelle, N. Y., on Friday, July 14, won the New England handicap event at the annual Connecticut state shoot, which was held at Danbury. His score was 92x100 from the 18-yard mark. E. J. Hamm Jr. of Norwalk was the runner-up, and C. B. Blandford of Ossining, N. Y., was third high man. Sixty-three shooters competed in the event. Jack Fanning was high professional with 87x100 from 21 yards rise.

* * * *

C. A. Young of Springfield, Ohio, a professional, established a new world's record at Peru, Ind., on July 13, when he broke 100 targets straight from the 23-yard mark. The previous record, we believe, was 98x100 from 22 yards rise. Mr. Young has been in the target-shooting game for years and is well known and very popular in every section of the United States . When called to the traps Mr. Young apparently forgets that there is anyone on the grounds except the members of his squad, and he attends as strictly to business as if his week's salary depended on his smashing every target possible; and that, permit us to remark, is the way to become a topnotch target shot.

* * * *

Ten traps will be in action at the Grand American Handicap in St. Louis the third week in August. Quite a number of trapshooters of the Far West are planning to visit the Mound City for the tournament —the blue ribbon event of trapdom.

* * * *

Southern trapshooters tell a good yarn on T. P. Fitzgerald, who won the Mississippi State title. Fitzgerald went up to the last trap all right. When he became aware that he led the field his knees wobbled a little bit. He was so nervous when the last bird was thrown that he shot as he called "pull." As fortune would have it, the thrown target was a broken one, and he got another chance, broke the target and scored 99 breaks—and carried off the title.

* * * *

Trapshooters who wish to engage in the competitions at the Grand American Handicap this year should get in their entries to E. R. Shaner, Pittsburg, Pa., by August 5th.

* * * *

More than 500 trapshooting tournaments were held by the trapshooting clubs of this country on July 4.

* * * *

E. C. Boucher was up in the vicinity of Tahoe last week. Though there on business, he managed to find enough leisure to go out after brook trout. A very likely looking brook, winding through a broad, green meadow, was selected for the sport. Boucher approached the stream, and as he neared the banks a veritable cloud of grasshoppers rose from the grass and alighted on the water. To the experienced angler two looks were unnecessary to see that with the fish getting free feed in such easy manner there would be nothing doing for artificial flies.

* * * *

Following Wednesday's regular program at the Tacoma shoot, a number of prominent members of the Pacific Indians dressed up in their costumes. The make-ups were side splitters. Frank Riehl donned his Indian suit and he looked the part of a big Chief. Pete J. Holohan can easily pass as an Irish washerwoman and Al Strowger could get by as a ballet dancer.

* * * *

Harry Quick, who formerly pitched in the Northwestern league, is a pretty fair shot and he's lucky, too, for he won a gun which was raffled off by J. R. Owens of Wenatchee, Wash.

* * * *

George Hambright, a Seattle professional, was unable to shoot through the entire program at Tacoma on account of the sudden death of his baby girl. F. W. Sumner of Everett, Wash., was prevented from entering the tourny as the result of an automobile accident in Tacoma.

* * * *

Joe Templeton, former University of Oregon football star, and his brother Charley, who antedated Joe in Oregon football history, both residents of Seattle, participated in the Pacific Indians' tourney.

* * * *

Next in line in the trapshooting world in the northwest is the Pacific Coast Handicap, to be staged on the traps of the Portland Gun Club, September 17, 18, 19 and 20. From present indications, it is expected that an unusually large crowd will be present.

* * * *

When one is talking about gun clubs that have seen many years of service the Omaha Gun Club should not be forgotten. It was organized 63 years ago.

S. F. Fly-Casting Scores.—F. J. Cooper made the longest single cast in the half-ounce lure distance casting of the Saturday and Sunday tournament of the San Francisco Fly Casting Club. His line stretched out for 250 feet for the best mark of the series. Alight southwest wind hampered the casters somewhat. The scores:

Portland Awarded 1917 Shoot.—The good work of the Portland delegation in boosting for the 1917 Pacific Indians' tournament proved to be sufficient, and at the annual meeting in the Hotel Olympus Wigwam on July 19th the Everding Park traps were decided on as the place for the events next season, to take place in July.

H. R. Everding, who was unable to attend the present tourney because of illness, was unanimously re-elected to head the organization as big chief for the ensuing year. Through his untiring efforts the 1916 contests have been well supplied with trophies and mementoes. Mr. Everding is ex-president of the Portland Gun Club. E. H. Keller, of the Portland Gun Club, was made first vice-president, and Mark Siddall, of Salem, Ore., second vice-president. Frank C. Riehl of Tacoma, Wash., was re-elected scribe and treasurer. The tournament committee for the coming year is made up of Hugh E. Poston, representing California; A. W. Strowger, president of the Portland Gun Club, representing Oregon; C. E. McKelvey, president of the Seattle, Wash., Gun Club, representing Washington, and Al Addleman, representing Idaho.

Canada Strong for Trap Shooting.—Although at this time Canada has not organized trapshooting upon a Provincial or Dominion scope, this is likely to happen in the very near future.

Alfred Hewett, secretary of the Dominion of Canada Game Protective and Trapshooting Association, is working the Provinces and later in the Dominion as a whole, and it is certain that something good will result from his efforts.

The great distance between the trapshooting centres in Canada makes it difficult to hold tournaments which are representative. However, this may be overcome by systematic Provincial organization.

It is the ambition of Mr. Hewett to hold Provincial registered tournaments each year, corresponding to the State shoots in the United States. Then there could be a Dominion championship, staged at some central point, and somewhat along the lines of the Grand American Tournament.

Indeed, it is possible that either the winners of the Provincial championships or the Dominion title will be sent to the Grand American to compete for the Amateur Championship. In any event, Canada is almost certain to have a Dominion amateur champion this year, and probably this man will appear at St. Louis to contest with the best shots in the United States.

May a Popular Month for Shoots.—One hundred and twenty-five trapshooting tournaments—the greatest number ever registered in any one month since the birth of the Interstate Association for the Encouragement of Trapshooting—took place during the month of May.

Not so many years ago 125 trapshooting tournaments would have been a goodly number to take place during an entire year, but that was before trapshooting was recognized as a sport. For fifteen years trapshooting has been coming along, but it has grown more in the past three years than in the dozen years previous. And it is growing each month. There were just many tournaments in June, and possibly a few more; and it was only a few seasons ago that trapshooting was only looked upon as a fall and winter sport. Now it knows no season.

In the 35 tournaments registered during the two months of March and April there was but one State championship. During the month of May there were 15 State championship tournaments and one sectional championship. Kentucky, which was out of the fold last year, is back again, so that every State will be represented by its champion in the Amateur Championship shoot in St. Louis in August.

They Say It Helps Keep Them in Big Show—The batting averages of the American and National Leagues are getting interesting. Many fans are wondering if Cobb and Wagner will finish first in their respective leagues. At present Speaker and Jackson are having a lovely race with Tyrus following. "Ty" has come up a little during the past week and his followers are hoping he has hit his stride.

Old Man Honus Wagner is only twelve points behind Robertson and the National race is also exciting.

Speaking of excitement, don't you think a trapshooting event between the leading ball players would make a lively afternoon's sport? Of course all the ones that shoot are never in the same city at the same time, but nevertheless they are interested and no doubt would like to compete. Among the big leaguers who can make it interesting at a trapshooting club are Ty. Cobb, Joe Jackson, Chief Bender, Frank Baker, Bob Shawkey, Hans Wagner, Wilbert Robinson, Joe Bush, Eddie Collins, Alexander the Great, Christy Matthewson, Harry Davis, Tris Speaker, Bill Carrigan, Doc Crandall, Cactus Cravath, Pat. Moran, Bill Killifer, Walter Johnson, Jack Coombs and Eddie Plank. This is only a few of them but on the level, wouldn't they make a lively bunch either on the diamond or at the traps?

Some of these players, among them Christy Matthewson, say that trapshooting keeps their eyes in a more satisfactory condition than any other exercise or diversion. Maybe that is why most of the above are still sticking around in The Big Show.

Trapshooting in Amusement Parks.—The idea of trapshooting schools at resorts is proving a success. There are now two prominent schools, one at Venice, California, an amusement place near Los Angeles, and another on Young's Million Dollar Pier, Atlantic City, N. J.

The gallery of the Venice school is located at the end of a pier and is probably 50 yards long. At the farther end of it, is set up a high wooden shot stop about twenty feet high. An old fish net slopes down from its top to the floor of the pier at a gentle incline to catch the clay birds which are unhit.

The school at Atlantic City is fully equipped, and consists of one Ideal Leggett and one Western McCrea automatic trap, standard targets are used and twenty-gauge guns of practically every make are on hand. The targets are thrown about forty yards and the Atlantic Ocean is the background.

Such schools provide a place where the thousands and thousands of gun sports can engage in their favorite sport while on a leisure trip. Then also it is a place where one can be taught the proper care and use of firearms as well as how to shoot.

With the success the above are having, it would seem that trapshooting, not necessarily schools, would be a good attraction for parks to add to their outfits.

A park is a place where a man and his family goes to be "out in the open." While it must have natural advantages it also must have clean, clever and amusing attractions. Of course, some days must be dark and dreary and some attractions installed that will take care of those in the park on rainy days or nights. However, the majority of them should be outdoors. Athletic fields, boating and bathing add greatly to a park's attractiveness. Yet many parks have parts which are unused or little frequented, which could be fenced in for trapshooting. This attraction could be let to a concessionaire on a similar basis as other attractions, or some arrangement could be made with a local gun club for its use. During the season such an arrangement would bring many devotees of this alluring sport daily to the park, while tournaments between the local and neighboring clubs could undoubtedly be arranged. Moreover, a shotgun shooting gallery could create new devotees of the sport, working not only to the advantage of the park but to the local gun club as well.

It may be too late for park proprietors to consider this matter this summer, but with the daily increasing interest in the sport it looks like a "good buy" for the owners for the coming year.

Seattle Association.—Scores set at the Seattle Association shoot on July 16th follow.

At 50 targets—*L. H. Reid 50, C. E. McKelvey 49, Tom Wilkes 49, J. Jones 48, Ralph Kinzer 46, Hi Follrich 46, Matt Grossman 43, W. B. Taft 42, G. A. Canuck 40, R. H. Miller 39, Gladys Reid 33, William Schilpin 32, D. R. McDonald 26, R. Taft 10.

At 100 targets—C. E. McKelvey 98, *L. H. Reid 97, Tom Wilkes 97, Matt Grossman 91, Ralph Kinzer 91, W. B. Taft 89, Hi Follrich 88, R. H. Miller 87, D. R. McDonald 64, William Schilpin 64, R. W. Brehm 42, D. Huntington 24. (*Professional.)

VIOLATORS OF DEER LAWS ARE FINED.

One Offender Admits Hunting for Years Without Ever Purchasing a License.

That venison during the closed season is indeed "dear meat" was proved in Ocean Park one day last week when six of the defendants arrested in the Malibu by Deputy Fish and Game Commissioner H. D. Becker pleaded guilty and took their medicine for conspiring to cheat the law-abiding licensee of the sport he so eagerly awaits.

The case-hardened offender, Charles Decker, admitted in court that he had killed hundreds of deer at all times of the year, and never owned a hunting license in his life. Sentiment against such chronic violators has become so strong in the State that men have been jailed for less, a belief that such crooked goings-on were more general than they are being responsible for some occasionally "taking a chance." Sportsmen generally hail with lively interest the bringing to justice of all such enemies of good hunting and fishing. Every one made a "good dog" ceases to be a liability upon fish and game conservation and a small percentage turn eventual assets.

Lobster and shell-fish violations have had attention from coast deputies of the field patrol, Deputy Abels arresting a Portuguese, Antone Costa, for undersized pismo clams at Lompoc, and Deputies Toms and Norton taking five men for exceeding the abalone limit and having lobsters during the close season, near San Diego.

The seventh defendant in the Malibu deer cases, Andrew Humphrey, is under $50 bail to plead August 19th.

Los Angeles Club.—Three shooters tied for first honors in the season prize event at the weekly shoot of the Los Angeles Gun Club. They were Ed Mitchell, C. F. Nichols and Bob Bole, each man smashing 48-50. Frank Free and Owen Council tied for second, with 40-50 to their credit. The diamond pin shoot was won by George Melford with a score of 47-50. Following are Sunday's scores:—

Diamond Pin Event (50 targets)—E. K. Mohler, handicap 20 yds., broke 45; C. F. Nichols 21—48, F. Free 19—46, Dr. Friend 19—43, P. O. Long 18—43, C. H. Betz 16—42, J. E. Betz 16—42, A. Pachmayr 16—44, A. L. Rowe 16—41, F. H. Teeple 19—42, J. G. Griffith 16—40, Geo. Oliver 16—40, C. W. Clement 16—41, Geo. Melford 16—47, O. Council 18—39. Ed Bohring, 16—24x25.

Season Prize (5 0targets)—Ed Mitchell 48, B. L. Graves 43, J. W. Meek 45, Wm. Kennedy 43, Mrs. E. K. Mohler 38, H. B. Huston 26, C. E. Earl 29, J. T. Brown 44, E. K. Mohler 46, C. F. Nichols 48, F. Free 46, George Oliver 44, C. W. Clement 44, Guy Holohan 48, O. Council 46, George Melford 44, S. B. Friend 42, Miss A. Wheeler 42, V. Powley 42, F. G. Schreiner 43, B. E. Bole 48, P. O. Long 43, C. F. Betz 42, A. Pachmayr 44, A. L. Rowe 40, J. G. Griffith 41, H. E. Groat 35, C. E. Groat 24x25, Mrs. C. E. Groat 25x25.

Thirty Rifle Teams Enter.—Washington, D. C.—Thirty teams have entered in the competition this year for the national trophy presented by the war department representing the Civilian Rifle club championship team of the United States. The match now being held under the auspices of the national board for the promotion of rifle practice will be completed August 10.

Los Angeles Rifle Club, last year's winner, is entered this year. Other teams entered are from Strong City, Kan.; Akron, Ohio; Des Moines, Ia.; Phoenix, Ariz.; Pittsburg, Pa.; White Sulphur Springs, Mont.; Butte, Mont.; Cleveland, O., two teams, the Rifle Club and the Preparedness Club; Cedar Rapids, Ia.; Washington, D. C., two teams, the War Department Rifle Club and the Interior Department Home Club Target Association; St. Paul; Detroit, two teams, the Rifle and Revolver Club and the Eastern Detroit Gun Club; San Francisco, Spokane, New Haven, San Juan, Porto Rico, Ancon, Canal Zone; Seattle, Wallace, Idaho; Lansing, Mich.; Flint, Mich.; Davenport, Ia.; Great Falls, Mont.; Muskogee, Okla.; Manhattan, Nev., and Portsmouth-Norfolk, Va.

Press Dispatches.—Oroville (Butte Co.)—A big brown bear with two cubs disputed the Bucks ranch road on Sunday with George Salzman. Salzman and his family, together with Mr. and Mrs. William Blowers, were returning from Bucks ranch, in Salzman's car, when they ran into a big bear with two cubs right at the summit. The bear stopped and turned leisurely around when she heard the auto. Salzman stopped his machine. The bear waited until the two cubs were well out of the way, then she turned and followed them off the road. The three could be seen going down the mountain side for quite a distance.

* * * *

Tacoma, Wash.—Henry Hewitt gives two acres of ground near the old woolen mills on Chambers Creek for a state hatchery and Superintendent Mayhall, in charge of the hatcheries, will be here to inspect the site . The capacity will be more than 5,000,000 fry annually.

* * * *

Carlisle (Pa.).—The Rev. William Perry Eveland, missionary bishop of the Methodist church for the Philippines, was found dead near Mount Holly Springs. Bishop Eveland had been spending his vacation at Mount Holly Springs with relatives. Bishop Eveland was 52 years old. It was determined that Rev. Eveland was electrocuted when his steel fishing rod came in contact with a high tension electric wire. He was passing under a railroad bridge when the accident occurred.

Hunters Getting Ready for Opening of Deer Season in the Coast Counties on Tuesday

The opening of the deer season is close at hand. On Tuesday the bars will be lowered in districts 2 and 3 and will remain open until September 14. The districts and laws are the same as last season. In districts 1 and 23 the season does not come in until August 15 and district 4 remains closed until September 1.

The districts which open August 1 are along the coast. Mendocino, Sonoma, Lake, Napa, Glenn, Colusa, Yolo and Solano, counties north of San Francisco bay, open at this time, while south to San Luis Obispo's lowest line hunters are permitted to stalk the buck. Mendocino county, which each year produces hundreds of fine specimens, is holding up its output in good shape, but Trinity is falling off somewhat. San Luis Obispo hunters report that deer seem plentiful, and from Sonoma come good reports also.

The Fish and Game Commission believe that it will be a season about up to the average, which, in view of the fact that a great many deer have died from what Frank C. Clarke calls a bladder worm, is encouraging enough. This bladder worm and his attacks on the deer have caused game experts much concern. In part of Mendocino, western Humboldt and Trinity counties, hunters and wardens have reported the death of many deer in the last year, but they believe that hunters will find enough game to fill their bags.

This intestinal worm causes lesions on the organs, and the deer afflicted with them become gaunt and die, after suffering for weeks. A report from Hawkins Bar, Trinity county, stated that half of the deer had died. From Point Arena section, reports have come of the disease. However, it is the opinion of experts that nimrods will have plenty of the bucks left for a good season.

Like the gold, which the Good Book says is "where it is found," so are bucks. But still there is this to remember. The velvet will still be on the horns when the season opens. And you can be sure that the bucks will be careful of their tender head-pieces. They are apt to feed in the open places, along the ridges or in the floors of quiet valleys. While the horns are soft the bucks will stay clear of heavy brush until driven into it by a hunter's bombardment. So it is a safe axiom, "Go high for your buck."

Wardens have fed deer, as is customary, in the higher mountain counties. In Shasta, Siskiyou and Lassen the State has saved many deer from dying because of lack of food. In the coast regions the comparatively slight snowfall makes feeding unnecessary.

Yosemite abounds with deer. J. S. Hunter, assistant executive officer of the Commission, counted 52 deer in a trip from Wawona to Yosemite recently. Some of the camps report that deer are frequently seen close about feeding on refuse.

The happy-go-lucky hunter who blazes at every rock he sees, to the disgust of all deer hunters, may slow up on his promiscuous popping this season, for ammunition is now 20 per cent higher than last year. The war did it. Old-time hunters would like to see the price go so high that the "fool shooters" would bankrupt themselves with one clip full.

And those bloodshot hunters who mistake men for deer, would that they were all manacled and in leg irons by July 30. Last year five men were killed and seven wounded, all "mistaken for deer." Another was killed for a bear, and another injured. And these were only the cases officially reported. Red hats may help, but the "boob" is with us always.

However, the deer are there, and by the night of August 1 a score of lucky hunters will be rejoicing.

Santa Rosa Club.—Fred R. Mead was high gun at the regular shoot of the Santa Rosa Blue Rock Club, which was held at the range at Leddy Station Sunday morning. Mead tied with Paul Fehrman and M. B. Mac in the original contests, and when it came to determining the matter of the trophy he outdistanced all competitors in the handling of his gun and smashing the elusive blue rocks.

Forest Notes.—Coniferous timber has been found to be better suited than any other for the production of ethyl alcohol.

There are 592 consumers of tannin in the United States who use annually 625,000 cords of hemlock bark, 290,000 cords of oak bark, and 380,000 cords of chestnut wood.

Experts of the Forest Service estimate that the farm woodlots of the United States contain from 200 to 300 billion board feet of lumber and from one to one and one-half billion cords of wood.

On some of the National Forests of the Northwest the snaw lay on the ground longer this spring than for many years. In consequence stockmen have been considerably delayed in getting their herds on the ranges.

All of the 28 counties of Utah contain portions of National Forests and consequently all share in the 25 per cent of the National Forests receipts which is paid over to the road and school funds. This is true of no other State.

One hundred and thirty thousand maps of the National Forests will be distributed to tourists this summer. These maps show the best camp sites, good hunting and fishing grounds, roads, trails, and telephone lines, and give directions how to reach pointes of interest.

Coast Shooters Win A. A. T. A. Medals.—In the last six months trapshooting clubs have become organized on a more permanent basis than ever before, due largely to the systematic campaign carried on by the A. A. T. A. in entirely every state and Canada. By means of its nation-wide organization the national association has been able to reach many clubs which have long resisted the efforts of the State Associations. In 35 states the number of clubs enrolled in the A. A. T. A. exceeds the number affiliated with the State Association by a wide margin. In ten states—Montana, Kansas, Ohio, Washington, Mississippi, Alabama, Louisiana, Nebraska, Rhode Island and South Carolina—the State Associations lead in the number of clubs. In two—New Hampshire and Colorado—the National and State Associations have been equally successful. In the whole country 627 clubs are enrolled in the State Associations, as against 929 in the A. A. T. A.

On the basis of averages scored in their club shoots the following shooters head the list in the medal contests being conducted by the A. A. T. A. They are so far the only shooters who have won the solid gold medal awarded by the A. A. T. A. for an average of 90% on 1000 targets: E. L. Bartlett, Baltimore, Md.; E. F. Brewster, Jr., Rochester, N. Y.; A. R. Castle, Britt, Iowa; James G. S. Dey, Syracuse, N. Y.; Claude T. Do Ville, Sodus, N. Y.; A. A. Farrington, Duluth, Minn.; J. F. Fisher, Titonka, Iowa; S. S. Foster, Mason City, Iowa; Mrs. H. Harrison, Rochester, N. Y.; Harry Harrison, Rochester, N. Y.; Fred T. Hopkins, Sodus, N. Y.; C. E. McKelvey, Seattle, Wash.; John M. Nelson, Attica, N. Y.; Fred Plum, Atlantic City, N. J.; Frank Templeton, Portland, Ore.; W. E. Wainwright, Lenox, Iowa; L. S. West, East Rochester, N. Y.; L. E. Lowry, Auburndale, Mass., and R. E. Slack, Attica, N. Y.

Vernon Club.—Billy Wilshire smashed 25x25 clay targets with a 20-gauge gun at the Vernon Gun Club Sunday and by so doing had the honor of being the first shooter to turn in a perfect score since the shooters of that club have been contesting for the 20-gauge trophy. He also took the lead for the cup.

Following are the complete results:

	Hdcp.	Hoegee trophy	20-ga.	Practice

Shoot For Spokane Park.—Although the Spokane Gun Club did not secure the Pacific Indian shoot for 1917, the idea of holding a big trap meet in the Spokane stadium has not gone astray. Already plans are under way to stage a big meet next season which will be open to all shooters in the northwest, but which will be an Inland Empire championship.

The Spokane club figured strongly on the Pacific Indians' shoot for next season and plans were practically completed to pull the big meet off at the stadium, thereby setting a record of holding a championship shoot in the heart of a big city.

It was Spokane's turn to get the Indian shoot, by right of succession, but the directors of the association voted the meet to Portland, so plans were immediately started to stage a special shoot over the traps which will be installed at the stadium.

An effort will be made to have the shoot registered by the Interstate Association, which is the tournament governing body of trapshooting in the United States, and the dates will be so arranged that it will be possible for the experts from the Coast city and California to be on hand to compete for the prizes and added money.

Trap shooters around the bay will be given quite a lay-off. No events are scheduled for the Alameda grounds until the second Sunday in August, when the Alameda Elks' Club will get busy. The Golden Gate Club shoots the following Sunday.

The Junior two-year-old, Willowmoor Etta 3d, 35833, A. R. 1691, bred and owned by J. W. Clise, Redmond, Wash., has just closed her year of official testing, with a record of 16,621 pounds milk, 666.06 pounds butter fat, 784 pounds butter, 4.01 per cent fat, which places her the world's champion junior two-year-old.

THE BEST LINIMENT

OR PAIN KILLER FOR THE HUMAN BODY

Gombault's

Caustic Balsam

IT HAS NO EQUAL

For the Human Body —It is penetrating, soothing and healing, and for all Old Sores, Bruises, or Wounds, Felons, Exterior Cancers, Boils Corns and Bunions CAUSTIC BALSAM has no equal as a Liniment.

We would say to all who buy it that it does not contain a particle of poisonous substance and therefore no harm can result from its external use. Persistent, thorough use will cure many old or chronic ailments and it can be used on any case that requires an outward application with perfect safety.

A Perfectly Safe and Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Strains, Lumbago, Diphtheria, Sore Lungs, Rheumatism and all Stiff Joints

REMOVES THE SORENESS--STRENGTHENS MUSCLES

Cornhill, Tex.—"One bottle **Caustic Balsam** did my rheumatism more good than $120.00 paid in doctor's bills." OTTO A. BEYER.

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—use air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

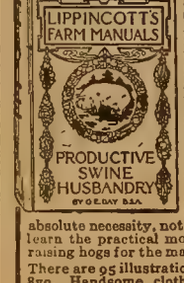
Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer:**

PRICES

Tire	Tube	Tire	Tube
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.55	3.10	35x4½ in.	21.20	6.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	6.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.



Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

Double Service Tire & Rubber Co., Akron, O. Dept.

SWINE

Big profit should come from your hogs. If you fail to make money something is wrong. Professor Day has an international reputation and his knowledge set forth in PRODUCTIVE SWINE HUSBANDRY gives you just the facts to make your pig pens money producers. Millions of dollars have been spent in experimenting and the author gives you the results. It is practical, not theoretical, of absolute necessity, not superfluous. You must learn the practical money-making science of raising hogs for the market.

There are 95 illustrations and 363 pages. Lg. 8vo. Handsome cloth. $1.50 net. Postage and express charges extra.

FOR SALE.

FARMS FOR SALE

Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

2:15 Trot	400	2:12 Trot	400

OCTOBER 27th

2:13 Pace $400
2:30 Trot 400

HALF MILE TRACK
TWO RUNNING RACES EACH DAY.

CONDITIONS:

ALL RACES THREE HEATS—Money divided 25% to the first heat, 25% to the second heat, 25% to the third heat, and 25% to the race according to the rank in the summary. Money in each division 50, 25, 15 and 10 per cent. Should two or more horses be tied for first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of that heat. A horse having won the first two heats and drawn or distanced in the third heat shall not lose position in the summary.

Nominators have the right of entering two or more horses in any race by the payment of 2% additional on each horse, but only one of the horses so entered to be started in the race, and the starter is to be named by 5 o'clock P. M. the day before the race is to take place.

Usual 5% additional from winners.

The Association reserves the right to declare two starters a walkover. When only two start they may contest for the entrance money paid in, divided 66 2-3% to the first, and 33 1-3% to the second horse. A horse distancing the field shall be entitled to first and fourth money only and in no other case will a horse be entitled to more than one money.

The Association reserves the right to change the hour and day of any race, except when it becomes necessary to antedate a race, in which instance the nominators will receive three days' notice by mail to address of entry.

The right reserved to reject any or all entries and declare off or postpone any or all races on account of weather or other sufficient cause.

Entries not declared out by 5 o'clock P. M. the day preceding the race shall be required to start and declarations must be in writing and made at the office of the Secretary at the track.

The Association reserves the right to start any heat after the fourth score, regardless of the position of the horses.

Any horse that started in 1915 without improving its record, equaling its record, and not winning a race, shall be entitled to one second.

Address all communications to the Secretary.

T. F. BURKE, Secretary,
Bakersfield, Cal.

SPECIAL HARNESS EVENTS

¾ Mile Run $100.00
½ Mile Run 50.00
Special for non-winners in ⅝ and 1 mile races.

Entry blanks and conditions for running races furnished on application to the Secretary.

CONDITIONS.

Member National Trotting Association. Entries close August 1st.

Horses to be named with entry and be eligible when entries close.

All matinee entries will be classed by a classification committee prior to the opening day of the races.

All races (except matinees), three heats, every heat a race; money to be divided as follows: Twenty-five per cent of the purse to be paid on each heat, and twenty-five per cent to the winner of the race according to his rank in the summary. Should two or more horses be tied for the first place at the completion of the third heat, such horses only shall contest in a fourth heat and money divided according to rank in the summary at the termination of this heat. (Under this arrangement, according to the rules adopted by the National Trotting Association, of which this Association is a member, only the horse winning the race would take a mark.)

Heat purses will be divided 50, 25, 15 and 10 per cent.

Any race not filling satisfactorily to the Association may be declared off.

In case class in which horse is entered does not fill, entry may be transferred to any race to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent to start. Three per cent due and payable when entries close, and two per cent before starting.

An additional five per cent of the division will be deducted from money winners.

Nominators have the right of entering two or more horses in one ownership in any race by the payment of two per cent additional, but only one horse so entered shall be started in the race; the starter to be named by 4 o'clock p. m. the day before the race is to take place.

A horse may be entered in two classes and be held for but one entry fee (entry fee in larger purse will be charged), provided only one start is made.

A distanced horse in any heat will be entitled to money already won. There will be no more money than there are starters.

Entries not declared out by 4 o'clock p. m. on the day preceding the race shall be required to start and declarations must be made in writing at the office of the Secretary on the grounds.

The Association reserves the right to change the order of the program; also to start any heat after the fourth score regardless of the position of the horses; also to reject any and all entries and declare off or postpone any or all races on account of the weather or other sufficient cause.

Address all communications to

O. P. SANDERS, Secretary, Box 533, Riverside, California.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

PUT HORSE TO WORK AND CURE HIM

WM. RAYMER, R. D. No. 13, Dayton, O., April 24, 1916, writes:

Troy Chemical Co., Binghamton, N. Y.—I have not yet received your book but I got a bottle of SAVE-THE-HORSE at the Miller Drug Store, Dayton, O. Well, I will tell you it has done all you said it would. My horse had a bad stifle; I and all who saw him thought he would not work this summer. I thought I would try your remedy. I used about half of the bottle and he is as well as ever. I hope that you will send me the book by return mail and that what good it has done for me may help others.

Seven Years Later-Still Sound

FRED F. MARTIN, Chester, Va., June 15, 1916, writes:

Troy Chemical Co., Binghamton, N. Y.—Enclosed check for bottle SAVE-THE-HORSE REMEDY. I have another mare about 14 years old that was so very lame with a bone spavin about 7 years ago, she could not do any heavy work. About that time I used your remedy on her and entirely cured the spavin so she has been doing heaviest work ever since without any sign of lameness.

YOU TAKE NO CHANCES WITH

SAVE-THE-HORSE

TRADE MARK REG'T.

We originated the plan and for over 20 years have given a SIGNED CONTRACT BOND TO RETURN MONEY IF SAVE-THE-HORSE REMEDY FAILS on Ringbone — Thoropin — SPAVIN — or ANY Shoulder, Knee, Ankle, Hoof or Tendon Disease.

Save-the-Horse Does Not Blister.
Does Not Discolor or Destroy the Hair Nor Leave a Scar.
THE RESULT IS PERMANENT.

TROY CHEMICAL CO., Binghamton, N. Y.

NEW EDITION OF JOHN SPLAN'S BOOK

"LIFE WITH THE TROTTER"

PRICE $3.00 POSTPAID

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrines of kindness to the horse from start to finish."

Address, BREEDER and SPORTSMAN, P. O. Drawer 447, San Francisco, Cal.

THE PETERS CARTRIDGE CO., PACIFIC COAST BRANCH . . . . 585-587 Howard Street, SAN FRANCISCO, CAL.

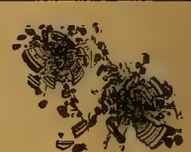
WINCHESTER

REPEATING RIFLES FOR HUNTING

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.



Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

Remington UMC

NITRO CLUB SPEED SHELLS TAKE "INDIAN" AND MONTANA STATE CHAMPIONSHIPS

THE famous Indian organization of trapshooters held its Annual Pow-Wow and shoot at Cedar Point, Ohio, June 27 to 30, inclusive. One hundred and forty-one of the country's foremost trapshooters were in the line-up. It is worthy of note that the principal events, in addition to the "Indian" Championship, were also won by shooters who used Remington UMC Speed Shells.

REMINGTON UMC WINNINGS

"INDIAN" CHAMPIONSHIP: Won by Clayton Deck, Plymouth, Ohio, shooting Nitro Club Speed Shells, score 99x100, after a thrilling shoot-off 19x20 and 19x20.

HIGH AMATEUR AVERAGE: First and second days Mark Aire, Thomson, Ill., shooting Nitro Club Speed Shells, 174x175 and 173x175, respectively.

MALLORY BROTHERS CUP: Won by F. M. Markham, 49x50, shooting Arrow Shells.

INDIAN HANDICAP: Won by A. C. Connor, Springfield, Ill., 96x100, shooting Arrow Shells.

MONTANA STATE SHOOT

STATE CHAMPIONSHIP: Won by C. P. Tilzey, Moore, 98x100 and 20x20 in shoot-off. Mr. Tilzey used a Remington Autoloading Shotgun and Nitro Club Speed Shells.

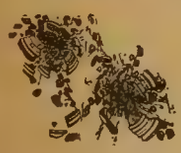
STATE HANDICAP MEDAL: Won by Mr. F. A. Weatherhead, Billings, 94x100 from 22 yards with Remington Pump Gun and Nitro Club Speed Shells.

HIGH AMATEUR AVERAGE: Tied for by C. P. Tilzey, 584x630, shooting Remington Autoloading Shotgun and Nitro Club Speed Shells.

HIGH PROFESSIONAL AVERAGE: Rush Razee, 606x630, Remington Pump and Nitro Club Speed Shells.

LONG RUN OF TOURNAMENT: Rush Razee, 230 straight.

SOUTH CAROLINA STATE SHOOT



FIRST AND SECOND AMATEUR AVERAGES: Won by John Livingston and J. D. Allen, respectively, each with 242x250. Both shot Nitro Club Speed Shells, Mr. Livingston taking first place in shoot-off.

LONG RUN OF TOURNAMENT: J. D. Allen, 84, shooting Remington UMC Speed Shells.

Thus do shooters of Remington UMC Guns and Shells take premier honors at Leading Trapshooting events.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

Ten trotters entered the 2:10 list during the first week of the Grand Circuit at North Randall.

◈◈◈

Unless something unforeseen happens C. A. Durfee will have a starter in every division of the four colt stakes to be decided at the Santa Rosa meeting. Youngsters from Mr. I. L. Borden's string (C. E. Berry, trainer) will start in all but the three-year-old pace ,and Fred Chadbourne will probably be up behind contestants in three of these events.

◈◈◈

The North Randall meeting produced six trotters with new records below 2:07 and six pacers with new records below 2:05. The trotters were St. Frisco 2:04¼, Mabel Trask 2:06¼, Trampright 2:06¼, Grand Chimes 2:06¼, Busy Lassie 2:06¾ and Azora Axworthy 2:06¾. The pacers that joined the 2:05 list were The Savoy 2:02¼, The Beaver 2:03¾, Goldie C. 2:04¼, Roan Hal 2:04¼, Kate McKinney 2:04¼ and Ben Earl 2:04½.

◈◈◈

The greatest field of pacers ever grouped together in a single event have been named in the special event at Lexington known as the Board of Commerce, $3,000, for 2:00 pacers, which was closed by the Kentucky Trotting Horse Breeders' Association on July 17, and in which ten starters have been named as follows: Napoleon Direct 2:00¾, Anna Bradford 2:00¾, Hal Boy 2:01½, Russell Boy 2:00¼, Peter Stevens 2:02¼, Judge Ormonde 2:02½, Single G. 2:00, R. H. Brett 2:04¼, Fay Richmond 2:03¼, General Todd 2:04¼, every one a born race horse of the highest class. As the race does not finally close till September 15 other fast ones that may come out during the season will be added at that time.

GRAND CIRCUIT RACES AT KALAMAZOO.

Walter Cox was the leading money winning driver on the opening day of the Grand Circuit meeting at Kalamazoo, landing Worthy Prince by Prince McKinney a winner in straight heats in the $2000 stake for 2:12 trotters, and also getting first money with Director Todd in the 2:09 trot, purse $1000, but it took five hard founght heats to accomplish it.

The meeting opened with the 2:15 pace for a purse of $1000, and in this race seven horses started. Marvin, behind Thomas Earl, won three heats in straight order, with Derby Custer, the favorite, second. Will Durfee was second in the second heat and third in the third heat with Contention B., and consequently got $150 out of the race. In the 2:12 trot Esperanza, driven by Durfee, was outside the money.

The 2:09 trot was a great contest and there were four heat winners, the race ending with five heats. Lon Daniels won the fourth heat with Kid Cupid in 2:08¼ but this only placed him fourth in the summary, thus just saving his entrance money. Verily it is a pretty hard game when a fourth heat in 2:08¼ will only save entrance. Director Todd won the fifth heat in a driving finish with McCloskey and Kid Cupid, and the fact that he had finished sixth in the previous mile while Kid Cupid and McCloskey were fighting for the heat, probably enabled him to beat them for the final.

The summary:

2:15 pace; three in five; purse $1000; mile heats:

Thomas Earl, b s by The Earl	(Marvin)	1	1	1
Derby Custer, ch g	(Murphy)	2	3	2
Contention B., b g	(Durfee)	5	2	3

Prestolite, blk m (McDonald), Admiral Dewey II, blk h (Snow), Hal Plex E., br s (Kenyon), and Medium Gazette, b h (Hedrick) also started.

Time—2:06¼, 2:10¼, 2:05¾.

2:12 trot, Rickman Hotel; three in five; purse $2000:

Worthy Prince, b h by Prince McKinney	(Cox)	1	1	1
Azora Axworthy, b m	(Murphy)	2	4	2
Binland, blk h	(McDonald)	3	2	4

Allie Watts, ch m (Edman), Junior Watts, b s (Rea), Esperanza, b m (Durfee), and Caroline, b m (Fleming) also started.

Time—2:08¼, 2:09¼, 2:06¾.

2:09 trot; purse $1000; three in five:

Director Todd, b h by Todd	(Cox)	3	1	4	6	1
McCloskey, br g	(McDonald)	5	6	1	2	2
Bonington, ch s	(Benyon)	1	4	2	3	4

Kid Cupid, ch g (Daniels), Humfast, b f (Murphy), and Miss Perfection, b m (McMahon) also started.

Time—2:07¾, 2:07¼, 2:07¾, 2:08¼, 2:09¼

Tuesday, August 1st.

Single G. became a 2:00 pacer on the second day of the Kalamazoo meeting when he paced the first heat of the free-for-all pace in that time. It is the fastest mile ever made on the Kalamazoo track. The average for the three heats was 2:00¾, only a fraction slower than the same class at North Randall.

The return of "Pop" Geers to the sulky in this race brought loud applause from the grand stand when he drove on the track with Napoleon Direct. He is slowly recovering from the injuries received at North Randall, but is still very lame.

There were seven starters in the pacing classic. The field went away fast and stepped to the quarter in 29½ seconds. Hal Boy and R. H. Brett could not stand the pace and broke, the other five racing neck and neck down the back stretch, Single G. leading. The half was made in 1:00½, the three-quarters in 1:30¼. Here Napoleon Direct and Russell Boy went after Gosnell's pacer, and it was a magnificent flight of speed down the stretch, Single G. winning the heat by a neck from the Geers horse.

In the second heat Single G. led to the half in 1:01¼, and then the pace quickened. Geers was determined and let Napoleon Direct out. Inch by inch he overhauled Single G. and passed him about fifty feet from the wire, winning the heat in 2:01¼.

The third heat was another battle, but Single G. was equal to the task this time, and despite the offer of Russell Boy and Napoleon Direct to overhaul him, managed to win the heat and race. The last half was paced in 59¼ seconds. The time for the mile was 2:00¾.

There were three other races during the afternoon. Each was won in straight heats and was easy for the respective favorites. Box R. captured the 2:11 pace; Bingen Silk took the Columbia Hotel Sweepstakes for three-year-old trotters, while Harrod's Creek took the Recreation Park Sweepstakes for three-year-olds eligible to the 2:18 class. The summary:

2:11 pace, purse $1000; three in five:

Box R., b g by Box Elder Jr.	(Valentine)	1	1	1
Jay L. Mac, b h	(Murphy)	6	2	2
Hal Leaf, b h	(Gray)	2	3	5

Diumster, b g (Lindsey), Lord Seymour, br h (Wall), and John Malcolm, b g (Daniels) also started.

Time—2:05¼, 2:05¼, 2:06.

Celery City free-for-all pace; purse $3000; two in three:

Single G., b s by Anderson Wilkes	(Gosnell)	1	2	1
Napoleon Direct, ch s	(Geers)	2	1	3
Russell Boy, b s	(Murphy)	3	5	2

Braden Direct, blk h (Egan), Judge Ormonde, blk s (Valentine), R. H. Brett, b g (Grady), and Hal Boy, b h (McMahon) also started.

Time—2:00, 2:01¼, 2:00¾.

Columbia Hotel sweepstakes; three-year-old trotters; two in three; added money $500:

Bingen Silk, b c by Bingen	(Chandler)	1	1
*Lightsome Watts, b f	(Benyon)	2	3
*Maple Tree, b g	(Murphy)	3	2
Peter Dixie, b s	(Rea)	4	4

*Divided second and third money.

Time—2:13¾, 2:12¼.

Recreation Park sweepstakes; three-year-old trotters; two in three; added money $300:

Harrod's Creek, ch c by General Watts	(Engleman)	1	1
Brownie Watts, br f	(Fleming)	2	2
Jack Mooney, b g	(McDonald)	3	3

Time—2:14¼, 2:10.

Wednesday, August 2d.

Mabel Trask won another $10,000 stake on Wednesday, the day of the Kalamazoo meeting, and is now a winner of every race in which she started this season and has a record of 2:03¾. The daughter of Peter the Great is easily the best and fastest trotter out this year, and while St. Frisco has beaten her in one heat and forced her to trot in 2:03¾ to beat him Wednesday, she seems to hold him safe. She has won thus far on the Grand Circuit three races and about $10,000 net, and has the fastest trotting heat of the year to her credit. The $10,000 Paper Mills purse was trotted on the four-heat plan and Mabel Trask won every heat. Her winnings were $4500 in this event.

Will Durfee won the 2:13 trot, purse $1000, with Esperanza, making it three straight. The daughter of Carlokin trotted an excellent race and was not in trouble at any part of any mile.

The 2:05 pace took five heats to decide. General Todd won the first heat in 2:05¼ and was distanced in the third. The Savoy won the second heat in 2:03¾, the fastest heat of the race, but Lelia Patchen took the next three handily. Summary:

2:13 trot, purse $1000, 3 in 5:

Esperanza, b m by Carlokin	(Durfee)	1	1	1
Brescia, b m	(Fleming)	6	2	2
George N. Patterson, blk h	(Rutherford)	2	3	4

Echmore, Pittsburg, Teddy Brooke and The Exposer also started.

Time—2:08, 2:07½, 2:10.

Paper Mills Stake for 2:08 trotters, purse $10,000 (four-heat plan):

Mabel Trask, ch m by Peter the Great	(Cox)	1	1	1	1
St. Frisco, b h	(Geers)	2	2	2	2
Guy Nella, br m	(Snow)	8	3	3	3

Laramie Lad, Vanco, The Eno, Omar and Virginia Barnette also started.

Time—2:07¾, 2:03¾, 2:05¼, 2:05¼.

2:05 pace, purse $1,000, three in five:

Lelia Patchen, blk m by Dan's Brother	(Snow)	4	2	1	1	1
The Savoy, blk g	(Floyd)	3	1	3	2	2
White Sox, b m	(Durfee)	2	3	2	3	3

King Couchman, Generall Todd, Joe Patchen II. and Potrero Boy also started.

Time—2:05¼, 2:03¾, 2:07¼, 2:05¾, 2:09.

Amateur Races at Vancouver.

Following are the results of the races at Hastings Park, Vancouver, Saturday, July 29th, 1916, held under the auspices of the Vancouver Amateur Driving Association:

Class C trot—mile heats:

Susie G.	(W. H. Mason)	1	1
Chromo	(Geo. Bell)	2	3
Special Blend	(W. Foster)	4	2
Fera Montana	(J. Nicholson)	3	5
Ameline Lou	(W. Steele)	5	4

Time—2:28, 2:27.

Class C pace—mile heats:

K. M. C.	(E. Burgoyne)	1	1
Lady Patrick	(J. McCullough)	2	2

Best time, 2:27.

Class D trot—half mile heats:

Maybells	(A. McCullough)	2	1	1
Nigger Boy	(C. Smith)	1	3	3
Sweet Nut	(Dr. Milloy)	3	2	2
Bonladi	(A. Tupper)	4	4	4

Best time, 1:21.

Free-for-All—mile heats:

Prince Malone	(Pastime Stables)	2	1	1
Lady Tango	(W. Foster)	1	2	4
Nic Nac	(W. B. Russell)	3	2	2
Myrtha Pointer	(Geo. Bell)	4	4	3
Hal Scott	(E. Burgoyne)	5	5	5
Nellie Wilkes	(J. McCullough)	6	dr.	

Time—2:17¾, 2:16¼, 2:18.

Trusty Nell (2) 2:17¾, the wonderfully fast but erratic filly by The Harvester 2:01, has been shipped to Walter Cox's farm at Dover, New Hampshire, where she will be driven double this summer and put through a course of training thought proper to cure her of her peculiarities. She will be kept eligible to her futurity engagements and, if her manners improve, will be campaigned in 1917.

◈◈◈

Azora Axworthy, winner of twenty-two firsts and one second in twenty-three starts in 1914 and 1915, made her initial Grand Circuit appearance at Cleveland and her third heat in 2:06¾, certainly justified one in tabbing her an uncommonly good trotter. That she is about the best in the Murphy stable is the opinion of quite a few who watched the events of the week. She should be credited to Bale Axworthy (now dead) instead of Dale Axworthy.

◈◈◈

Fleeta Dillon, which at one time held the record for two-year-old pacing fillies with a mile in 2:08¾, and subsequently was trained on the trot with no success, is in again as a pacer and has been winning some good races over the half-mile tracks in New England.

◈◈◈

The secret of Peter Mac's refusal to score has been found to be an ulcerous corn in one of his feet and it is hardly likely that he will be started for another month yet.

◆◆◆

Single G., that won the fastest three heat race ever paced, 2:00¼, 2:00¼ and 2:01¼, had not been a mile better than 2:05 in all his work this year previous to the race.

◆◆◆

The third dam of Harvest Gale, that was second to Mary Coburn in 2:10¼, was Nightingale 2:10½, and she was out of Mabel, dam of Cresceus 2:02¼.

Harness Horses and Horsemen

Petaluma Driving Club Races.

Over four hundred persons paid an admission fee of 25 cents to witness the racing program provided by the Petaluma Driving Club at Kenilworth Park last Sunday. This park is owned by the city of Petaluma and comprises the old Sonoma and Marin Fair Grounds, and mile track that was owned by the late Harry Stover, the running horse owner and breeder, for several years, and on his death sold to the city of Petaluma for park purposes. The Petaluma Driving Club has leased the track and stalls from the city and by this lease is permitted to charge admission to its matinees. The track is not fast this year, having been ploughed up early in the season. It was cut a little too deep so that the track has not packed as it should, and is two or three seconds slow at least.

Three races were contested on Sunday last, several San Francisco horses being among the starters. The event was the 2:30 class pace with three starters. Billy T., driven by Dan Healy, was the winner of this race, winning the first and third heats, Glenwood Chief taking the second heat.

In the 2:25 class for horses of both gaits, the San Francisco trotter Birdeye, owned and driven by his owner M. Combataladi, took the first and third heats, but Glenwood Mack, a son of By Mack, took the second heat in the fastest mile of the race—2:21. Glenwood Mack was castrated just seven weeks before this race and had only been in training three weeks. He looks like a horse that should pace in 2:10 by fall. His owner has made a match race with Little Jack to come off over the Petaluma track on Sunday, August 13th.

There was a real horse race in the second heat of the 2:15 pace. Victor Pointer, Hamburg Belle and Tom Murphy went to the front as the word was given, leaving Little Jack and Lady Stilwell to trail behind them. The three went the entire mile abreast and the proverbial blanket could have covered them. At the wire Victor Pointer stuck his nose in front of Hamburg Belle that was about the same distance in front of Tom Murphy. It was one of the best and closest heats ever paced on this track.

Next Sunday the Petaluma club expects a visit from the San Francisco club and a first class program will be arranged.

First race—2:30 class pace:

Billy T.	(Healey)	1	2	1
Glenwood Chief	(Millerick)	2	1	2
Grace McKinney	(McGovern)	3	3	3

Time—2:30, 2:31, 2:30.

Second race—2:25 class, mixed:

Birdeye	(Combataladi)	1	3	1
Glenwood Mac	(Ryan)	5	1	5
Silver Logan	(Healey)	4	2	2
Gracie S.*	(Ramatici)	2	4	3
Peaches	(McGovern)	3	5	4

Time—2:24, 2:21, 2:30.

(*Formerly Petaluma Girl.)

Third race—2:15 pace:

Victor Pointer	(Keating)	2	1	1
Hamburg Belle	(Dupont)	1	2	3
Little Jack	(Coulan)	4	5	2
Tom Murphy	(Silvia)	3	3	5
Lady Stillwell	(Brubeck)	5	4	4

Time—2:21, 2:19, 2:19.

Judges—K. V. McDonald, Lee Wilson, L. Fourcault.
Timers—R. McDonald, E. O. Voyer.
Starter—Dr. Wintringham.
Marshal—Chas. Wyatt.

An Enterprising Club at Oakland.

There is no organization anywhere that promotes harness racing for the pure love of the sport more enthusiastically than the Oakland Stadium Riding and Driving Club of Oakland, California. The only place this club has to hold its matinees is a half mile oval on the reclaimed marsh land at Eighteenth and Peralta streets. This land is owned by a railroad company which gives the club the privilege of using it, but will give no lease, so that the expenditure of any money for improvements is out of the question. The track is narrow, flat on the turns, is seldom sprinkled and infrequently harrowed or dragged, and is two or three hundred feet over a half mile. There are a few rough boards made into "bleachers" that will seat probably one hundred persons, and the judges' stand is a platform six feet square without cover. There are no stalls for the horses, a board wind-break about fifty feet long being all that the owners have to protect their horses from the wind between heats. The entire grounds within and surrounding this track are covered with weeds and are dusty and uninviting. Yet on Sunday afternoons when the club offers a program of racing from 500 to 1000 persons come to see the sport and, unless they come in autos or horse-drawn vehicles, or come early enough to get a seat on the "bleachers," they are compelled to stand during the two or three hours required to decide the races. The club is working to have the Oakland City Council provide a track and stadium on land owned by the city in the rear of the million dollar auditorium recently constructed just south of the Twelfth street dam on Lake Merritt. If the Council can be persuaded to recognize the fact that "a playground for grown-ups" is needed in Oakland the sport of harness racing, which is enjoyed by thousands, can be made one of the leading attractions of the city across the bay. On the 4th of July this year at least three thousand persons stood around this crude track at Eighteenth and Peralta streets and witnessed excellent racing between the horses owned by members of the Oakland club, showing that good clean sport is enjoyed by the public even when there is no money to be won by the contestants and no wagering permitted on the results.

Last Sunday the Oakland club held a very successful matinee with seven races on the card. The races began at 1:30 and were all finished at 4 o'clock, a crowd of at least 500 people remaining throughout. The races were all at mile heats, best two in three. The fastest race of the program was the free-for-all, which was won by the old campaigner Little Dick 2:09¾, though Mr. G. Schreiber behind his Star Pointer pacer Allegro gave Little Dick a battle royal and took the second heat away from him. The battle down the stretch in the first heat brought the crowd to its tiptoes (they were nearly all standing because there was no place to sit down) and there were cheers for both horses.

The 2:25 pace was won by a lady owner and driver, Mrs. Carlisle, with her pacer Cleoverne by Jules Verne. Cleoverne was raced in hopples for the first time and Mrs. Carlisle received the plaudits of the big audience for the excellent manner in which she drove her horse to victory in straight heats.

There was a contest in nearly every race even though nearly all were won in straight order. The club proposes holding matinees every two weeks during the summer months. The summary:

First race—2:20 trot:

Harold G.	(J. Williams)	1	1	
Belle Sawyer	(Al Hanks)	2	2	
Elsie Page	(P. W. Bellingall)	3	3	

Time—2:31, 2:31.

Second race—2:25 pace:

Cleoverne	(Mrs. Carlisle)	1	1	
Berkeley Girl	(A. Reisman)	2	2	
Prince	(H. Garrison)	3	3	

Time—2:23¼, 2:27½.

Third race—Free-for-all:

Little Dick	(Al Scott)	1	3	1
Allegro	(G. Schreiber)	2	1	2
Grand W.	(A. L. Hinds)	3	2	4
Hallie's Star	(A. Edstrom)	4	4	3

Time—2:19, 2:21¼, 2:19.

Fourth race—2:18 mixed:

Francisco	(J. V. Galindo)	1	1	
Sleepy Dick	(W. Rutherford)	2	2	
Lena Lee	(T. Le Ballister)	3	3	

Time—2:27, 2:34.

Fifth race—2:30 mixed:

Clipper, Jr.	(A. Bock)	2	1	1
Oakland Boy	(G. Hahn)	1	3	2
Tom Wilkes	(H. Olsen)	3	2	3

Time—2:36, 2:37, 2:36.

Sixth race—2:35 mixed:

Teddy	(W. Collins)	1	1	
Rhoda	(Geo. Meader)	2	2	
Babe W.	(Fred Wuescher)	3	3	

Time—2:48, 2:48.

Seventh race—2:40 mixed:

Andy O.	(W. M. Ray)	1	1	
Willis Baldwin	(W. D. Willis)	2	2	
Ida May	(A. Newbaumer)	3	3	

Time—2:58, 3:05.

The judges were John A. McKerron, Fred Wenscher and Mr. Miller. Geo. Algeo did the starting and his work was very satisfactory.

Last Sunday's Matinee at Stadium.

In weather that was cold and foggy at the stadium in Golden Gate Park last Sunday the San Francisco-California Driving Club held a matinee that was poorly attended but which provided excellent racing. While all the four events scheduled were won in straight heats the time was good and but one heat was as slow as 2:20. In the free-for-all trot President G. J. Giannini's mare Ella M. R. won the second and deciding heat in the good time of 2:12¾ and she looked good enough to meet the best trotters that will be seen on the California Circuit this year. King Pointer won the 2:12 pace in good time also, the heats being in 2:12 and 2:12½, which is a creditable race at any matinee, east or west. Results:

First race—2:20 pace:

Sis Hopkins	(William Hopkins)	1	1	
Black Mack	(L. A. Gielow)	3	2	
Dibble Wilkes	(S. Benson)	2	3	

Time—2:19½, 2:24.

Second race—2:15 pace:

J. C. Simpson	(Frank Goulart)	1	1	
Rosie O.	(J. J. Ryan)	2	2	
Pointer Belle	(J. M. Kidd)	3	3	

Time—2:16, 2:16.

Third race—2:12 pace:

King Pointer	(H. Campodonico)	1	1	
Mabel Dillon	(B. Cohen)	2	2	
Emma M.	(William Malough)	3	3	
Senator H.	(J. M. Kidd)	4	4	

Time—2:12, 2:12½.

Fourth race—Free-for-all trot:

Ella M. R.	(G. J. Giannini)	1	1	
Yoncalla	(A. Giavonnetti)	2	2	
Minequa	(M. Ford)	3	3	

Time—2:16, 2:12¾.

Matinee at Hollister.

The Hollister Driving Club's matinee at Riverside track on Sunday, July 16th, did not draw a very large attendance but there was some good racing.

The first race was between Jerry Wright's Stanford White, driven by Al Willson, and Lonnie Fredson's Tanglefoot, with Mat Zahner up. It took the full five half mile heats to decide this race, Stanford getting the first two and Tanglefoot the next three. Time—1:21½, 1:21¼, 1:23, 1:20, 1:23.

The second was a 2 in 3 affair, half mile heats, and only two horses showed up, Gordon Campbell's Lady Guy and Geo. E. Shaw's Judge D. Lady Guy, driven by Mat Zahner, took the first heat, and Judge D., with Al Willson driving, took the other two in nose-and-nose finishes. Time—1:28, 1:23 and 1:23½.

The last race had three starters, Jack Kydd's Ben Alto, with Joe Sanchez up, Oro Guy with the owner, Jerry Wright in the seat, and Ramelli Bros.' Monte in charge of Al. Willson. Wm. McLeold's Benito B. was scratched. This race took four heats to decide the winner. Monte took the first heat, and Oro Guy with Harmon Snibley driving instead of the owner, took the next three.

Plenty of Horses at Fair Prices.

Exports of horses and mules to Europe are picking up again, according to the Department of Commerce. In April the number sent abroad was 21,789, while in May 27,876 head left the country. These were valued at $2,296,556.

The percentage of mules is steadily increasing as the merits of the long eared hybrids become better known to European army men. In 1914 about ten horses to one mule were sent over. Last year there were four horses to one mule, and now there are only about two horses to one mule, the official figures for May being 18,645 horses and 9,233 mules.

More than 660,000 horses and 180,000 mules have now been exported since the great war began, making a total of approximately 840,000 head, for which the warring nations have paid fully $170,000,000, and for which American farmers have received something more than $100,000,000.

The whole number of horses in the United States is about 24,000,000 and of mules less than 5,000,000. The drain on the mule stock of the country is thus relatively much heavier than on the horse stock, yet no one has proposed that the government go into the business of breeding mules for the army.

Now that the Washington authorities have started in to buy horses and mules for military purposes on a large scale, the export records no longer represent all that are being consumed by wars and rumors of wars in the last two years. That one million will hardly cover the whole number at the end of 1916 is the opinion of horsemen familiar with foreign and domestic trade.

And while the panic stricken promoters of "preparedness" are quoting the Quartermaster General to the effect that there are not more than ten thousand good cavalry horses in the United States, the government is buying all it wants for less money than it costs the average farmer to raise them. The purchase of almost one million war horses here in the last two years has had no perceptible effect on the supply, as shown by current prices. That the government could now obtain one million or more horses—or men—for the army, if it would offer fair remuneration, is the opinion of others besides Zach Miller, of the "101 Ranch."

Murphy Still Buying Good Prospects.

Thomas W. Murphy is pursuing his practice of former years of buying the good prospects that develop at the minor tracks with the idea of strengthening his stable for future campaigns. Within the past few days he has bought of Bert Blair, of Xenia, Ohio, the chestnut gelding Pittsburg 2:14¼, by General Athol, and winner of second money at Youngstown, Ohio, last week, and from Fred Jamison he has bought Wilkes Brewer 2:10¼, whose mile in close to 2:09 at Toledo, Ohio, has convinced a good many horsemen that 2:04 is within her capacity on a mile track. The reported price Mr. Murphy gave Mr. Blair for Pittsburg is $3,000 but it is not known what Fred Jamison received for Wilkes Brewer. It is certain, however, that the price was a good one, otherwise Mr. Jamison would not have parted with her.

William 1:58½ Retired For the Season.

The pacer William 1:58½ has developed a peculiar form of intermittent lameness in the near hind leg. Charles Tanner, the horse's trainer, has decided to retire him for the remainder of the season. All his proposed exhibitions, including one at the Cleveland meeting last month when his owner, C. K. G. Billings, was to have driven the stallion to wagon against his own best record at that hitch, have been cancelled. The veterinarians who have examined the horse at Cleveland are at sea. There is no apparent inflammation but the trouble recurs every time the pacer is asked for a mile under 2:10.

—o—

Andrew Albright, Jr., owner of Prospect Farm, Hilton, N. J., has added another noted matron to his list of broodmares, having recently bought Nicketti 2:20½, and her foal by Paronhurst 2:11¼, from R. C. Estill, of Lexington, Ky. Nicketti is a daughter of William L. and is the dam of the young stallion, Todding (3) 2:15¼, second in command at Prospect Farm.

LAST TWO DAYS AT DETROIT.

A race track tragedy was narrowly averted at the Grand Circuit races Thursday when Single G., favorite in the free-for-all pace, pulled up terribly lame after winning the first heat in 2:00¼. It was feared that the great pacer had broken down, but the injury proved a slight one and the horse went on, winning the race.

Just what happened to Single G. is not exactly known, but possibly he knuckled over when being slowed up at the conclusion of the mile. Had Single G. been thrown out of training it would have been a severe blow to the sport, as well as to W. B. Barefoot, his owner, and Curt Gosnell, his trainer, for it would not be surprising to see Single G. pace in 1:59 or better some time this season.

The Denver horse, Braden Direct, drew the pole, Russell Boy being third, and Single G. sixth. Considerable jockeying occurred while Hal Boy spoiled three starts. Single G. took the pole at the turn and was at the quarter in :30½. Braden Direct pulled up second and Russell Boy trailed with Judge Ormonde fourth. Hal Boy broke at the turn, they paced the last half in :58, the third quarter being in :28¼. Hal Boy and Brett were distanced.

Gosnell slightly behind nodded for the word in the second heat and Single G. led all the way, being at the quarter in :32¼, the half in 1:04½. Braden was second all the way with Ormonde trailing at his wheel. Gosnell turned on the gas at the half and Single G. paced the third quarter in :29¼ and the final one in :28¼. Braden was half a length behind with Russell Boy a length behind the western horse. Time, 2:03¼.

Russell Boy won the final heat easily. Russell Boy beat Ormonde to the turn and as Braden Direct broke at the half Russell Boy had clear sailing and by pacing the last half in :59¾ won the heat by four lengths in 2:02.

At the conclusion of the race the announcement was made that Gosnell had been fined $100 for not driving Single G. out the third mile. No announcement could have created a greater surprise than this one, as Gosnell's horse was lame, and as he managed to win two heats he satisfied the crowd. The ruling of the stand did not seem right and failed to elicit commendation from the spectators.

Grand Chimes, racing under the colors of Bina Coit, president of the Mantua bank and prominent potato financier, won the Pontchartrain stake, which corresponds to the Tavern "Steak." Early Don at 8 to 1 won the first heat but breaks in the next two gave Grand Chimes and Lindsey a chance to perform in front. With this mixture Chimes won first money, Lindsey second, Busy Lassie third, Early Don fourth, Brisac fifth, and Regardless sixth.

Driven by Valentine, Box R. won the 2:10 pace easily. Jay Ell Mack was favorite. Spring Maid made a break on the upper turn in the second mile when in second place, and was distanced. The summaries:

2:15 trot, Hotel Ponchartrain Stake; purse $3,000 (three heats):

Grand Chimes, b h by Kentucky Chimes (Edman)	4	1	3
Lindsey, b h by Todd Mac.....(McDonald)	5	3	1
Early Don, ch g by Don Gale.....(Valentine)	1	4	8
Busy Lassie, b m.....(Cox)	3	2	2
Brisac, blk m.....(Murphy)	2	7	6
Regardless, b h.....(Hedrick)	7	5	4
Widower Peter, b h.....(Shively)	6	8	5
Leonor McKinney, b m.....(White)	8	6	7

Time—2:06¼, 2:08¼, 2:09¼.

Free-for-all pace, "The Adcraft Club"; purse $1200 (three heats):

Single G., b h by Anderson Wilkes.....(Gosnell)	1	1	2
Russell Boy, b h by Rustic Patenter...(Murphy)	3	3	1
Braden Direct, blk h.....(Egan)	2	2	4
Judge Ormonde, blk h.....(Valentine)	4	4	3
R. H. Brett, b h.....(Grady)	dis.		
Hal Boy, b h.....(McMahon)	dis.		

Time—2:00¼, 2:03¼, 2:02.

2:10 pace, Hotel Griswold Stakes; purse $2,000 (three heats):

Box R., b g by Box Elder Jr.....(Valentine)	1	1	1
Jay El Mack, b h.....(Murphy)	2	3	2
Baymar, b h.....(McDonald)	4	3	2
Sad Thoughts, b m.....(Childs)	5	4	4
Spring Mail, ch m.....(White)	3	d	
Arkancello, b h.....(Edman)	d		
Baby Bertha, b m.....(Garrison)	d		

Time—2:05¼, 2:05¾, 2:09½.

The performance of Joan, a bay mare driven by McDevitt in the 2:06 trot, was the feature of the concluding day's card of the local Grand Circuit meeting. She got the decision in the headliner by winning the first two heats. She also seemed a sure victor in the third, even after a bad break at the first turn. Recovering herself, she let out a tremendous burst of speed and overtook the field at the half, only to break again in the stretch and finish last.

Guy Nella and Lucille Spier fmished this mile so close together that the spectators thought it a dead heat. The judges, however, saw Guy Nella first. Joan won the first heat in a thrilling finish with Lucille Spier. In the second heat the field was in single file from the first turn well into the stretch, with Mirthful in front and Joan second. Joan repeated her spurt and won by two lengths.

The first heat of the 2:12 trot furnished the best contest of the day. Donna Clay, coming from fifty feet behind at the head of the stretch gained on Durfee's Esperanza inch by inch, and beat her by just a nose at the wire in 2:06½, and in the second heat was forced by Esperanza to trot in 2:06¼ to win. The time in this race was faster than the heats of the 2:06 trot, won by Joan.

Lelia Patchen captured the 2:05 pace by taking two heats in easy fashion, but was beaten by Don Densmore in the third.

Tommy Murphy's Altawood took first money in the 2:07 pace by making the best showing in the final standing. She won the second heat and was second in the third. Second money went to Bingen Pointer and third to Hal Leal, each winning a heat.

The summary:

2:05 pace, the Moslem; purse $1200 (three heats):

Lelia Patchen, blk m by Dan's Brother..(Snow)	1	1	2
Don Densmore, b h by Pactolus.....(Thomas)	4	5	1
Jones Gentry, b g.....(Aldrich)	3	4	3
Camelia, br h .....(Cox)	2	3	d

Joe Patchen II, b h (W. Fleming), General Todd, b h (Rea), and John Malcolm, b g (Daniels) also started.

Time—2:05, 2:05¼, 2:07¾.

2:12 trot, The Grotto; purse $1200 (three heats):

Donna Clay, b m by Don.....(Valentine)	1	1	1
Esperanza, b m .....(Durfee)	2	2	4
Worthy Prince, b h.....(Cox)	3	3	2
Vanko, b g .....(Murphy)	4	4	3

Brescia, b m (B. Fleming), San Felipe (Daniels), and George N. Patterson, blk h (Rutherford) also started.

Time—2:06½, 2:06¼, 2:07¾.

2:07 pace, The Rotary Club; purse $1200 (three heats):

Altawood, gr m by Allanwood.....(Murphy)	8	1	2
Bingen Pointer, b h by King Bingen.....(Snow)	1	4	3
Hal Leaf, br h by Hal Dillard.....(Gray)	5	5	1
Lord Seymour, br h.....(Wall)	9	2	5

Kate McKinney, gr m (W. Mallow), Polly Ann, b m (Clark), Bondalin, br h (Daniels), Dicto, b g (DeRyder), Hazel Armstrong (Gosnell), and Pat Carmody, br h (Walker) also started.

Time—2:06¼, 2:06¾, 2:07¼.

2:06 trot, The Palestine; purse $1200 (three heats):

Joan, b m by Directman Spier.....(McDevitt)	1	1	5
Guy Nella, br m by Guy Axworthy.....(Snow)	3	3	1
Lucille Spier, b m.....(H. Fleming)	2	4	2
Mirthful, b m.....(Murphy)	5	2	3
Omar, b g .....(Grady)	3	5	4

Time—2:06¼, 2:08¼, 2:07.

RACING HERE AND ABROAD.

A New York Trainer Gives Some Interesting Comparisons of Customs.

Asked not long ago at Aquaduct to give some of the reasons why racing has retained its great popularity abroad, A. J. Joyner, who had charge of the English stable of Harry Payne Whitney, and who is now training horses for himself and several other owners, said that he thought that racing in England had gained its status through the fact that gentlemen engaged in the sport without a thought of the monetary returns.

Mr. Joyner said: "There are over in England a greater number of men interested in the thoroughbred than in the United States. Many of them maintain breeding establishments and they are content if they win a few races each year. With the exception of Lord Derby, E. B. Hutton, and J. B. Joel, there are few owners who make their expenses. They breed and race for the glory there is in it. It must not be concluded from this, however, that no one makes racing pay in England, for every year small owners get hold of good horses, and that is one of the fascinations of the sport.

"That horses capable of winning may be picked up reasonably is shown by the performances here this season of Faux Col, Jack Mount, Aristobolus, and Perugini, all of which were obtained by me and sold to various owners. Faux Col won the Canadian Derby last Tuesday for Mr. Mackenzie, and is undoubtedly a fair horse.

"The short meetings and the fact that racing is held in every part of the country gives the sport-loving Briton a more or less intimate knowledge of racing and breeding. This is an education in itself. The fact that there is wagering on the Derby, the Lincoln, Cambridgeshire, Steward's Cup and other fixtures is an additional phase which tends to increase the popularity of the sport.

"Society is still another contributing influence," resumed Mr. Joyner. "Ascot and Goodwood especially are famous for their hospitality. The great London clubs, such as the Bachelors and Sports and all the crack regiments have tents, and between the third and fourth races an hour is set aside for entertainment. Members of these organizations distribute tickets to their friends, and it is really a gala occasion, with ladies and gentlemen dressed as only the English can turn out for such functions.

"Perhaps as great as any of the favorable aids to the racing game are the military meetings. These are mostly cross-country and the horses are ridden by the crack horsemen of the army. Races are also given at these meetings for members of the various clubs, and there is the strongest kind of rivalry. The war has, of course, put a damper on this branch of the sport, but the love of a good horse is so strong in the English heart that I look for a resumption of these meetings as soon as peace is restored."

When asked if English horses were not as a rule bigger than ours, Mr. Joyner replied: "Yes, I think they are, and they require more time to come to hand. As yearlings they are bitted and driven about with reins and a saddle and never backed before September. In order to discourage the racing of youngsters no stake of an added value of £200 is offered prior to June 1. There is an abundance of two-year-old racing, however, as early as Lincoln, and in the autumn you will find the youngsters running against horses of all ages even up to two miles. There are no handicaps in England for two-year-olds at any distance."

As to how our horses compared with those of England, Mr. Joyner remarked: "That is a difficult question to answer. American horses of quality if they could be landed in England at the top of their form could hold their own. Englishmen think Foxhall and Iroquois were very great horses because they won their classics. Whiskbroom was a good horse for me, and Harmonicon was considered the best sprinter in training. He never showed his best in this country. Whiskbroom gave Willonyx five pounds inthe Novelty Dinner Stakes at Liverpool and was beaten a short head. Subsequently Willonyx won the Ascot Gold Cup at the Cesarewitch, carrying 131 pounds in the latter."

Mr. Joyner was greatly impressed by the manner in which discipline was meted out by The Jockey Club. "Any owner, trainer, or jockey," he said, "who wishes to make a complaint has to first post a deposit of £5 and make his objection in writing. If the claim or objection proves reasonable the money is returned, but if of a frivolous nature the amount is forfeited. Any persons accused of practices detrimental to racing have the privilege of confronting the accuser. Positions at the post are drawn in public, and if a jockey leaves his position he is asked to explain by the Stewards. There are few fines, some suspensions, and then revocation of privileges. The starter inflicts no punishment; he reports to the Stewards and they in turn hand out the penalties."

"How does the selling race rule work over there?"

"Perfectly," was Mr. Joyner's response. "It is regarded as anybody's privilege to buy or claim. Men borrow halters and bridles with new purchases, and frequently seek out a trainer to learn if the animal has any peculiarities. To my idea the best disposition to which the surplus in selling races can be put is to have one-half go to the owner of the second horse and the balance to a fund for extra races.

"There seems to be a better feeling toward racing here," said Mr. Joyner in conclusion, "and, like everybody else interested in the thoroughbred, I am looking forward to the Saratoga meeting, where the best of the Eastern and Western horses will compete. The French and English horses should be in condition to show something of their form by then. Longer races, one a day, at no shorter distance than one mile and a quarter, would be attractive. The public likes to see the horses pass the stand twice. If enough of these contests were offered, trainers would prepare horses for them. It would help breeding at the same time as furnishing an attractive spectacle."

Colt Shows.

In 1914 fifty carloads of finished draft horses were shipped out of one middle-western county. For ten years previous to that time colt shows had been held in that community and many breeders attributed their interest and activity to these exhibitions.

Colt shows have become numerous and popular throughout the corn belt States during the past ten years. Such shows and the keen interest which has been produced by them have been responsible for the improvement in the horse stock in many localities.

The natural human desire to win is one of the fundamental principles which have made the colt shows successful. As a result the community horse stock and business has improved. Mare-owners demand the use of better sires, because through the use of better sires and through good feeding and management greater improvement is made possible. The boys in the community usually take a very keen interest in such exhibitions and many times show colts owned and fitted by themselves.

The premiums usually offered for these shows are given by business men in the form of cash or articles useful in the horse business. In special classes stallion owners often offer service fees as prizes for colts sired by their stallion. This usually stimulates interest among foal owners and obscures the rivalry between stallion owners. A class of colts sired by the same stallion gives the public an opportunity to observe the general excellence and uniformity of such colts.

Colts should be well developed and fitted. The dam should be fed so that the colt, when foaled, is straight and strong. A little grain should be fed as soon as the foal is old enough to eat. If the mare is on pasture the colts, for the best development, should be fed some grain in a small creep which could be made very cheaply. A mixture of equal parts bran, ground oats and ground corn is excellent for growth in the young foals.

It is well to break the foal at an early age to lead and to walk and trot properly. The foal should be brushed off daily with a stiff brush and rubbed well with a woolen cloth. The mane and tail should be brushed thoroughly. The feet should be trimmed in order that they will develop properly.

A good colt show in which are properly fitted and well mannered colts should be an inspiration to all. Improvement in the horses of a community should result from such exhibitions and benefit not only the horse breeders but the business men as well. It is one way of bringing the people of country and town into closer relationship.—E. H. Hughes, Missouri Ag. Experiment Station.

The uncertainty of yearling purchases was exemplified by the score of Tom McTaggart in the East View Stakes at Empire Track, which carried a value of $3,900 to the winner. This son of Chuctaunuda and Toplash was purchased as a yearling by the Brighton Stable from O. H. Chenault for $600. After his win it was reported that George Odom refused an offer of $15,000 for the colt. This victory was the fourth consecutive score for Tom McTaggart, and in his present form he must be ranked with the best juveniles that have been shown thus far.

Santa Rosa Fair Opens Monday

List of Entries and Dates for Breeders Meeting which Begins Wednesday

The big Fair and Forest Festival will open at Santa Rosa on Monday next week and it promises to be ahead of anything ever promoted in the City of Roses. Not only will there be a great racing program of running and harness races, but the exhibits of live stock and agricultural and other products of the district will be very large and well worth traveling miles to see. There will be draft horses, beef and milk cattle, sheep, swine and chickens, and all will be shown in a beautiful grove that is to be brilliantly illuminated at night by electricity.

Running races, the entries for which will be made overnight, will be held on Monday and Tuesday, with three races each day.

On Wednesday the Pacific Coast Trotting Horse Breeders' Association will open its annual meeting with a grand program of harness racing, the opening event being the three-year-old pacing division of the Pacific Breeders' Futurity for a stake of $1300. Six high class three-year-old pacers will start in this event, four of which were starters in the two-year-old division last year. This two-year-old event was won last year by Jas. W. Marshall's Verna McKinney with W. G. Durfee's Rico second, Fred Woodcock's Capt. Mack third, and the time was 2:13¾ and 2:13¼, pretty fast for two-year-olds. All three of these pacers have starting payments made on them this year, and the others paid up are Surety, Stanley Quinn and Julia M.

On Thursday the two-year-old trotting division of the futurity for foals of 1914 will be decided. There are seven well bred youngsters that will appear for the word the first time and they promise to make an excellent race.

On Friday the pacing division for two-year-olds, foals of 1914, with four baby pacers named, will be the first race on the card, and then will come the big feature of the Futurity for foals of 1913, the three-year-old trotters to race for a stake of $3300. Starting payments have been made on eight of the original entries in this stake. Of these Jake Logan and Alesandro did not start in the two-year-old division last year. That race was won by Virginia Humbug, who is now in Kentucky being bred to Manrico 2:07¼. The other six now eligible to start next Friday were placed as follows in the two-year-old summary last year: Natal Day 2-2, Miss Axworthy Dillon 4-3, The Expense 3-5, Hermes 7-4, Lulu B. 5-6, Miss Bond 6-7. Time, 2:16¾, 2:18¼.

While these futurities are always, from a breeder's standpoint, the most interesting races at the meeting, they are not the only or the principal attraction for the crowds that like to see fast time. For them the free-for-all pace on Saturday with such speed-burners as Jim Logan, Leata J., Little Bernice, Vera Hal, Rastus, Teddy Bear, O. U. C. and Ben Corbitt Jr. entered will be a big drawing card, and the track record of 2:02¼ is in danger when they start. The 2:09 trot on Wednesday with all the fastest trotters in California entered; the 2:15 trot on Thursday with a big field of trotters that tramp right around 2:10; the 2:13 pace on Friday, with sixteen fast ones entered, and the 2:20 trot on Saturday with the best of the unmarked and some of the best record horses, 17 of them, will furnish a program of races that will be in many instances of Grand Circuit calibre. Every lover of harness races should make it his aim to be in Santa Rosa next week. The full program of harness races for the four days is as follows:

WEDNESDAY, AUGUST 9.

Three-Year-Old Pacing Division Futurity Stake No. 13, Purse $1300—

Rico, ch c by Manrico—Pavlowa B. by Petigru. W. G. Durfee.
Verna McKinney, br f by Vernon McKinney—Ramona by Demonio. J. W. Marshall.
Surety, b c by The Bondsman—Eva H. by Washington McKinney. A. L. McDonald.
Stanley Quinn, b g by Dan Logan—Lady Arthur by Sir Vaux. Chas. F. Silva.
Julia M., b f by El Angelo—Search Lida by Searchlight. D. W. Wallis.
Capt. Mack, br c by The Bondsman—Bessie L. by Montana Director.

Trotting, 2:09 Class, $500—Bon Cres, Harold C., Albaloma, John Mack, Panana.

Pacing, 2:20 Class, $900—Directess Mac, Alta Barnato, Lennie C., Bold Harry Aerolite, Irene D., W. J. K., Pedlar Direct, Star Dillon, Lock Logan, Silver Tips, Dixon Boy, Villa.

THURSDAY, AUGUST 10.

Two-Year-Old Trotting Division Futurity Stake No. 14, Purse $1350—

Skyrocket, b g by Ed McKinney—Hester McKinney by McKinney. I. L. Borden.
Zeta Lucile, ch f by Wilbur Lou—Zeta W. by Nutwood Wilkes. Hemet Stock Farm.
Lilly of the Valley, b f by Palo King—by Iran Alto. H. S. Hogoboom.
Floretta D., b f by Graham Bellini—Daphne McKinney by McKinney. Jas. Sutherland.
Rhyolite, b c by F. S. Whitney—Rubelle by Del Coronado. Sutherland & MacKenzie.
McKlyo Boy, b c by Peter McKlyo—Sweet Bow by Bon Voyage. L. H. Todhunter.
Kewpie, br g by Carlokin—The Blonde by Strathway. Alex M. Wilson.

Trotting, 2:15 Class, $900—Major's By Guy, Pfeister's Lynwood, Brutus, Bodaker, Melrose, Dick W., Bert Kelley, Howard's Comet, Miss San Francisco, Future Tramp, Eloise Dell, Dr. S., Zolock Zar, Sweet Bow, El Angelo, Alice W., Rubell, Trigione, Miss Macklie.

Pacing, 2:10 Class, $500—A. B. C., Pointer's Daughter, Soumise, Maxine, Silver Tips, Hal Paxton.

FRIDAY, AUGUST 11.

Two-Year-Old Pacing Division Futurity Stake No. 14, Purse $1100—

Tommy Atkins, b g by Tom Smith—Carrie B. by Alex. Button. I. L. Borden.
Alfredo, b c by Copa de Oro—Lady H. by Del Coronado. W. G. Durfee.
Galen, b c by Jim Logan—Palo Maid by Palo King. H. A. Hershey.
El Paso, b g by True Kinney—Ella J. T. by Bob Mason. Roy D. Mayes.

Three-Year-Old Trotting Division Futurity Stake No. 13, Purse $3300—

Jake Logan, br c by Nearest McKinney—Berta Logan by Bert Logan. H. G. Angevine.
Alesandro, b g by Barney Barnato—Ramona by Prince Robert. I. L. Borden.
Natalday, b c by Wilbur Lou—Ella J. T. by Bob Mason. S. Christenson.
Hermes, br c by Carlokin—Miss Quealey by Moko. W. G. Durfee.
Miss Bond, b f by The Bondsman—Miss Harris by Sidney Dillon. Frank Malcolm.
The Expense, br f by The Proof—Nusta by Nushagak. Mrs. Maude M. Marley.
Miss Axworthy Dillon, b f by Axworthy—Cleo Dillon by Sidney Dillon. T. E. Pollock.
Lulu B., b f by The Bondsman—Loma B. by Stam B. M. L. Woy.

Pacing, 2:13 Class, $900—Bertie Seattle, Mono Ansel, Alta Barnato, Lennie C., Mabel Dillon, Mountain Dee, Chango, Bradmont, Hanover, W. J. K., Pedlar Direct, Breezy Marie, Lock Logan, Silver Tips, Stanley Quinn, Julia M.

SATURDAY, AUGUST 12.

Trotting, 2:12 Class, $500—Bon Cres, Harold C., John Mack, Columbia T., Ella Mac.

Pacing, Free-for-All, $900—O. U. C., Ben Corbett Jr., Vera Hal, Rastus, Leata J., Jim Logan, Teddy Bear, Little Bernice.

Trotting, 2:20 Class, $900—Gracie B., Major's By Guy, Pfeister's Lynwood, Dick W., Ella M. R., Peter's Queen, Howard's Comet, Mary Osborne, Lindsay Bell, Miss San Francisco, Future Tramp, Eloise Dell, Dr. S., Zolock Zar, El Angelo, Alice W., Trigione.

Santa Rosa Track Records.

The mile track at Santa Rosa is undoubtedly one of the fastest in California and many fast miles have been trotted and paced over it. At a meeting held there in 1898 the mare Much Better by Chas. Derby took a record of 2:07¼ when she won the 2:12 class pace, and the same week the stallion Monterey took a trotting record of 2:11 there, this being the fastest mile trotted during the meeting. These were new records for the track and it was probably the first meeting at which 2:10 pacing and 2:15 trotting were ever beaten there.

The next year, 1899, a mile in 2:09¾ by Clipper, son of Diablo, was the best made by the pacers during the meeting, and the 2:11¼ mile by the gray trotter Addison was the best mile at the diagonal gait.

In 1900 Clipper was again the fastest pacer at the track and he set the track record at 2:06, while Adolph Spreckels' little trotting mare Dione, in a trial against time, made a mile in 2:07¼, which is not only the fastest mile the daughter of Eros ever trotted but is still the fastest mile ever made by a trotter at Santa Rosa.

In 1901, 1902 and 1903 there was no racing at Santa Rosa except by local horses and no very fast miles were made by them, but in 1904 the P. C. T. H. B. A. again gave a meeting there. Tom Carneal, a pacing son of Diablo, won a heat of his race in 2:08½, which was the best mile made at the meeting by a pacing horse, and the brown gelding Morosco, with a mile in 2:12 made when he won the final heat of the $1500 2:19 trot, got credit for the fastest trotting mile of the meeting.

In 1905 the McKinney pacer Zolock with a mile in 2:07¼ was the fastest sidewheeler at the meeting of that year and the gray gelding, What Is It, trotted a heat in 2:11, which was the best mile at that gait for the week.

In 1906 there was an earthquake and fire at Santa Rosa during the same morning in April that San Francisco suffered such a disaster and there was no racing at the Santa Rosa track that year.

In 1907 the town had recovered from its loss and one of the best meetings ever seen in the City of Roses was given. There were some great pacers out that year. Mona Wilkes, Sir John S., Inferlotta, Copa de Oro, Charley D., Miss George and a host of others. Hymettus took a three-year-old record of 2:13½. Inferlotta beat Copa de Oro, Charley D., Opitsah and Tabasco and set the track record at 2:04¾ for pacers in doing so. Among the trotters, Oveta, Eva and Marvin Wilkes each trotted in 2:12½ and were tied for the fastest trotting mile of the week.

In 1908 James W. Marshall's mare Mona Wilkes and Sir John S. hooked up in the free-for-all pace and the mare by Demonio beat the stallion by Demonio's full brother Diablo, in straight heats, pacing the second in 2:03¼, a new pacing record for herself and the famous track. The trotters were faster that year also, and Wild Bell by Wildnut won the 2:09 class trot and took a record of 2:09½, which was faster than any other trotter went that week.

There was no regular meeting at Santa Rosa again until 1912, but in July of that year a meeting was given on short notice and with small fields. The fastest mile made by the pacers at that meeting was 2:08¾, credited to Chorro Prince, and the trotter All Style by Stam B. made the best mile of the week at his gait, 2:13.

In 1913 the Breeders' Association held its meeting at Santa Rosa and as all the best horses in California were there, fast time was again the rule. Elmo Montgomery's Jim Logan beat Will Durfee's Don Pronto in 2:06 and 2:04¼, the fastest pacing event of the week, and Mr. I. L. Borden's Albaloma by Stam B. with Will Durfee driving, won the 2:12 trot and set the trotting record for the week at 2:08. John Malcolm set the world's record for two-year-old pacing geldings at 2:11½ that week at Santa Rosa.

In 1914, the last year there was regular racing at Santa Rosa, Jim Logan and Albaloma repeated their performances of 1913 by pacing and trotting the fastest miles of the week. Jim Logan again met Don Pronto and again defeated him in straight heats, the miles being in 2:02¼ and 2:04¾. Jim Logan's 2:02¼ is the Santa Rosa track record at the pace and will be a hard mark for the pacers of 1916 to shoot at. Albaloma, winner of the 2:09 trot the same week, trotted one heat in 2:08¼ and this is also a track record as it is the fastest heat ever made over the Santa Rosa track in a trotting race, the 2:07¼ mile of Dione having been made against time.

The above statistics give the fastest miles at pace and trot made at Santa Rosa since 1898, and will give the horsemen some idea of how fast their horses will have to go next week to class with the best during the past eighteen years.

Solano County Fair to Follow Santa Rosa.

Dixon, July 30.—Arrangements are now under full swing for the first annual Solano County Fair, to be held at Dixon August 16 to 19, inclusive. The fair will be held in Dixon's beautiful 27-acre park, which will supply ample space for all the events. Two hundred and fifty committeemen are working long and hard each day throughout the whole county to make this first fair a grand success. Women's improvement clubs and chambers of commerce in all the cities and towns are actively co-operating with each other to make each and every department a feature.

The contest for queen of the fair is now opened and any girl or young lady in California's prize county is eligible. Sixteen girls are already in the race, so that there should be an abundance of beauty and grace to lend color to the many ceremonies to be given in the queen's honor.

Fast harness and feature races will be a great attraction during the four days, as such a classy field of horses have been entered that every race is bound to be fought to the last. In all fifty-two speed burners will be seen in the harness races, and all the fastest horses in the State will start. Two races and a feature race along with numerous free acts will take place on the track each day.

There will be approximately 16,000 square feet of floor space in the main exhibit pavilion and five acres will be given over to the stock show. The Pacific Portland cement works, which is situated in this county, has made arrangements for a big demonstration of the practical uses of cement on the farm in the making of posts, stalls, troughs, etc. The decorative scheme in the exhibit palace will cost $2500. The four days of the fair will be designated as follows: Sacramento day, Yolo day, Solano day and California day. The progress and prosperity committee of the Sacramento chamber of commerce will do special advertising for the California State Fair and are working zealously to make Sacramento day a gigantic success and will have special trains, a band and at least 3000 people with them on that day. It will be a genuine old-fashioned county fair with all the up-to-date improvements.

New York State will this year distribute $250,000 among eighty-eight fairs, this sum having been appropriated for the purpose by the last Legislature. The money was formerly raised by a tax on the receipts of the race tracks, but amendments to the Percy-Gray racing law cut off this source of revenue, making it necessary to raise the money by general taxation.

Notes and News

Don't miss the Santa Rosa Fair.

◆◆◆

There will be some great racing.

◈◈◈

The track is in first class condition.

◈◈◈

Good fields will start in nearly every race.

◈◈◈

The entries in the live stock department are very numerous.

◈◈◈

One of the best stock shows ever seen in California is promised.

◈◈◈

Make your arrangements to spend all of next week at Santa Rosa's Great Fair and Forest Carnival.

◈◈◈

Guy Carlton 2:21¼ worked a mile in 2:19¼ at Santa Rosa last week and with work will make a 2:15 trotter before the summer is over.

◈◈◈

Mr. I. L. Borden's trotter Major's By Guy by Major Dillon worked a mile in 2:10½ for C. A. Berry, his trainer, one day last week at the Santa Rosa track.

◈◈◈

M. C. Keefer is working Nuristo 2:10½ at Santa Rosa and the son of Nushagak is showing his old time speed. A mile in 2:13¼ last Saturday seemed rather easy for him.

◈◈◈

The Proof 2:10¾ is one of the first if not the first speed siring son of The Exponent. The Expense (3) 2:13½ is a daughter of The Proof, and her record was made at Santa Rosa July 8th this year.

◈◈◈

Guy Dillon 2:23 is easily the best son of Sidney Dillon. He has three 2:10 performers to his credit out of a total of not over ten in the list. They are Adioo Guy 2:05¼, Guy Borden 2:07¼ and Emeline Dillon 2:07¼.

◈◈◈

E. R. Dunn has arrived at Lexington, Ky., from Los Angeles, Cal., with three horses, The Puzzler 2:13, Opher Girl and Virginia Humbug (2) 2:16¾. The last named has been sent to Walnut Hall Farm where she will be mated with Manrico (3) 2:07¼.

◈◈◈

One of the best three-year-old pacers at the Santa Rosa track is Fred Woodcock's brown colt Capt. Mack by The Bondsman, dam Bessie L. by Montana Director. Capt. Mack is in the Breeders' Futurity stake of $1300 which is to be decided on the opening day of the meeting next week.

◈◆◈

Millard Sanders shipped his string of horses from Pleasanton to Santa Rosa last Monday. Among the horses were Howard's Comet, owned by Mr. P. J. Howard of Alameda, and several youngsters belonging to Mr. S. Christenson that are entered in the Futurity Stakes.

◈◈◈

Pedlar Direct, owned by Mr. A. W. Longley, of Oakland, was shipped to Santa Rosa last Tuesday to meet his engagements. This pacer is from the same family on his dam's side as the great stallions Peter the Great and J. Malcolm Forbes, his great grandam, Santos, being the dam of both those great sires.

◈◈◈

Sweet Bow 2:17½ by Bon Voyage, owned by Mr. L. Todhunter of Sacramento, was shipped north a few weeks ago in charge of William Ivey, who will race her through the Inter-Mountain Circuit, starting first at Montpelier, Idaho, in the 2:17 trot. The meeting there opens August 15th.

◈◈◈

Elmo Montgomery arrived in Santa Rosa Tuesday with his string of pacers that will be raced at the Breeders' meeting and through the circuit. He has the coast champion Jim Logan 2:01¾, Maxine (3) 2:15, winner of the Breeders' Futurity for three-year-olds in 1914, and Lock Logan 2:07¼ by Zolock. Maxine is a daughter of Jim Logan and Lock Logan is out of the dam of Jim Logan.

◈◈◈

Wednesday, August 9th, has been proclaimed by the Governor of California as "Good Roads Day." This is the same date on which the Pacific Coast Trotting Horse Breeders' Association will begin its program of harness racing at the great Santa Rosa Fair and Forest Carnival. There are many good roads that lead to Santa Rosa. Celebrate the good roads movement by going to Santa Rosa over one of them that day.

◈◈◈

Verna McKinney (2) 2:13, James W. Marshall's filly by Vernon McKinney 2:01½, dam Ramona (dam of Del Rey 2:03¾) by Demonio, is showing up well in her three-year-old form for Fred Chadbourne, who has had great success in winning stake money with the colts and fillies from the Marshall farm. Verna won the two-year-old pacing division of the Breeders' Futurity at the P.-P. I. E. last year, and barring accidents will be a starter in the three-year-old division of the same stake at Santa Rosa next week.

Ed. R. Smith, of Ocean Beach, Los Angeles county, has been engaged to start the races at the California State Fair and also at the Fresno Fair.

◈◈◈

A gentleman desires to purchase a trotting mare eligible to the 2:25 class, that can trot a mile in 2:15 on a mile track or one in 2:18 on a half mile track. Give full particulars in first letter as to price, age, breeding ,etc. See advertisement.

◈◈◈

The free-for-all pace which was substituted for the 2:09 trot on the last day of the Solano County Fair at Dixon, filled with four entries and it is likely that every horse entered will start. The horses are Jim Logan 2:01¾, Leata J. 2:03, Vera Hal 2:05 and Teddy Bear 2:05. They will make a great race.

◈◈◈

Grandsons and granddaughters of McKinney are taking records every week on the tracks east of the Rocky Mountains. The son of Alcyone is founding a great family of race horses. He was a race horse himself, was the sire of race horses and now his descendants in the third and fourth generations are following in the same line.

◈◈◈

Persons desiring to purchase stallions, mares or racers of the best strains in Ireland can do so with confidence that they will be fairly dealt with by applying to the Irish Bloodstock Agency, Coyle & Co., brokers, Dublin, Ireland. This agency has many animals of the best strains to dispose of and executes orders promptly. See advertisement.

◈◈◈

At the close of the Detroit meeting Walter Cox was the leading money winning driver, with Tom Murphy second. The leading money winners at Detroit were Cox $6858, McDonald $3955, Valentine $3100, Murphy $3509, F. Jones $2250, Durfee $1920, Thomas $1705, McMahon $1350, Edman $1224, Snow $1080.

◈◈◈

R. C. H. 2:13½, the trotter that Marvin Childs is racing on the Grand Circuit, is said to be the only horse on the big ring thus far that carries a monogram. He has a box bar brand on his flank. He is owned by Ed Peterson, of Omaha, who purchased him from a ranchman who had raced him a little in the west. R. C. H. is by Faul out of Queen, neither of which is registered. Childs hopes to win with him before the season is ended.

◈◈◈

William Higginbottom, the well known live stock auctioneer of San Francisco, has been engaged as official starter of the races at the Santa Rosa Fair next week, also for the races at the Solano County Fair at Dixon the following week. Mr. Higginbottom has had success in starting for various amateur clubs in California and has also started at several of the regular meetings. His selection as starter will meet the approval of the public who have seen his work as well as the horsemen who have started under his authority.

◈◈◈

Peter McKlyo, L. Todhunter's stallion by Peter the Great, is one of the grandest looking and best gaited trotters ever seen in California or elsewhere. Last week James Thompson worked Peter McKlyo a mile in 2:11 at Santa Rosa, with the last half in 1:01½ and the last quarter in thirty seconds. Peter McKlyo is now five years old. He was given a three-year-old record of 2:12½ at Sacramento in 1914, but has never been raced. There are two two-year-olds by him out of Bon Voyage mares that are entered in the Breeders' Futurity to be trotted next week.

◈◈◈

The young California trainer Ted Bunch, who is racing a small string of horses up in Canada this summer, is getting a lot of first moneys in the pacing races and has also drawn a prize in the matrimonial race, as he was married last Friday to an estimable young lady of Denver. Ted has started the pacer Zombrino by Prince Zombro nine times up to last week and has won eight races. Zombrino is still big and fat and looks good for the ten weeks further in which he is engaged, finishing at Phoenix, Arizona. Bunch has two other horses in his string and has won a number of seconds and thirds with them. His many friends in California will be pleased to hear of his success, and hope that it will continue, and that the double harness event in which he has started will break all records for health, wealth and happiness, "so long as they both do live."

◈◈◈

C. A. Durfee with the three-year-old pacer Rico, and Al Schwartz with Little Bernice 2:06¼, started to work a mile together at Santa Rosa last Saturday. They went away at a furious clip and just after passing the first quarter pole in 31½ seconds Durfee heard something strike his sulky and then saw a horseshoe flying through the air. He called to Schwartz and asked him whose shoe that was and Schwartz answered, "It's your colt's shoe, and there goes his boot." Durfee took his colt back but was at the half in 1:03 at that, then pulled up and turned Rico around and looked for the shoe. Schwartz went on with Little Bernice and she finished the mile in 2:07¾, the fastest mile for her this year. Durfee with two or three persons to assist him, made a two hours' hunt for the lost shoe, which Rico had thrown from his left front foot, but to no avail, and that day's work was lost. A three-year-old pacer that can finish a half mile in 1:03 after losing a shoe at the three-eighths pole is surely quite a speed prospect.

Spriggan 2:08¼, winner of the $20,000 trot at San Francisco a year ago, was a very sick horse at Cleveland and for a time his condition was considered very serious.

◆◆◆

Adioo Guy is getting a lot of first moneys. He was first in the $2000 stake for 2:11 class pacers at Findlay, Ohio, and first in the 2:09 pace the next week at Lima, Ohio.

◈◈◈

The Gen. Watts family is making a great showing this year and James Thompson has a two-year-old by that sire that is reckoned one of the highest class colts on the Pacific Coast. He is a trotter.

◈◈◈

A petition filed in Probate Court at Minneapolis last week, asking that Erie B. Savage, eldest son, be appointed special administrator, shows that the late M. W. Savage, the horseman, owner of the famous pacer Dan Patch, left an estate valued at $779,000. Savage left no will. The heirs are the widow and two sons.

◈◆◈

Gilbert Patch 2:06¾ by Dan Patch 1:55¼—Bessie Gilbert 2:14½, looks to be by far the best racing stallion ever sired by the great champion. This young horse has been in 2:05 and, in a slower mile, reeled off his last quarter in 28¼ seconds. He is a nicely made, free-legged horse, wears but little and appears to be certain to land many a victory before going into winter quarters.

◈◈◈

It reminded old timers of the palmy days of harness racing at Detroit on Tuesday, the second day of the Grand Circuit meeting, when the auction pools were sold on the Board of Commerce stake, which was won by Miss Harris M. A sample pool is as follows: Miss Harris M. $500, Goldie C. $235, The Beaver $140, Ben Earl $85, Roan Hal $75, The Savoy $130, Sayde Densmore $45, and the field containing five horses, $30.

◈◈◈

One of the sweetest going pacers at the Santa Rosa track is Mono Ansel 2:19¼ by Monicrat 2:18½, dam by Prince Ansel. This pacer is being trained by W. H. Finley, a young man who resides at Santa Maria, California, and who has only recently broken out of the amateur ranks, but whose handling of a small string of three horses at the Santa Rosa track is evidence that he is much better than a raw hand. Mona Ansel is entered in the 2:13 pace for Friday, next week. He made his record in Wyoming last year.

◈◈◈

The greatest contest ever witnessed over a half mile track took place at Lima, O., on Tuesday of last week, when Wilkes Brewer defeated Ima Jay and several others in the Maple Lane Farm classic, a $1,500 event for 2:14 class trotters. To triumph over the classy field, the handsome chestnut mare was forced to go the third heat in 2:08¼ and the fifth in 2:08¾, resulting in the establishing of a new world's record for a five-heat race over a small oval and likewise a new record for a third and a fifth heat. Wilkes Brewer is by the famous expatriated California sire Nutwood Wilkes 2:16¼.

◈◈◈

The Ventura County Fair Association will hold its third annual fair from September 13th to 16th inclusive this year at Seaside Park, Ventura. The president of this enterprising association is Mr. A. Camarillo, treasurer Mr. Wilbur Stiles, and the secretary Mr. L. P. Hathaway. Ventura is 28 miles south of Santa Barbara and 75 miles north of Los Angeles. It is the centre of the greatest bean growing district in the west, lies at the southern end of the famous Lincoln highway, has a delightful climate and, startling as it may seem, the claim is made that there is not a foot of land for sale there. The purses offered are very liberal. There is $600 for a free-for-all pace, five to enter and three to start, $250 purses for other races. The association has a good half mile track. Entries close August 28th. See the advertisement on another page.

◈◈◈

H. S. Hogoboom of Woodland has lost by death a yearling colt that he valued very highly. He called the colt Bingen the Great. It was foaled April 6th, 1915, and in May, 1916, trotted a half mile on the Woodland track in 1:15, which is a remarkable performance for a thirteen months' old colt. A few months prior to this display of natural speed Mr. Hogoboom was offered a pretty fair figure for the colt, then ten months old, but the offer was declined and "Hi" set $5000 as the lowest figure that would tempt him to part with the young trotter. Bingen the Great was by Robert Bingen, and his dam was Beautiful Bird by Nutwood Wilkes, second dam Expressive by Electioneer. On breeding alone Bingen the Great would have been a very valuable stallion in the stud as he was closely related to as many champions as any horse in California. His grandsire sired the world's champion trotter, and the grandam of his sire was the dam of the world's greatest sire, Peter the Great, sire of the world's champion two, three and four-year-old trotters. His own dam was by the grandsire of the world's champion three-year-old trotting filly, and his second dam was herself once the world's champion three-year-old trotter and is now the founder of a large family of 2:10 performers. Mr. Hogoboom has certainly suffered a heavy loss in the death of Bingen the Great.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Fight Against Salmon Roe.—Fish and game experts are lined up with the sportsmen anglers of the State in the belief that it's the wholesale use of preserved salmon roe as bait that is depleting the streams of California of trout. This variety of bait, the natural food of the game fish, is a lure that no trout can resist, and many so-called "sportsmen" take many limit baskets of fish no larger than the angler's little fingers.

J. P. Fisher, fish and game expert of the California Fish and Game Commission, is of the opinion that salmon roe has ruined fishing in the streams both up and down the coast, an opinion shared by every sportsman who has studied the habits of trout and the conditions under which they exist.

"There are 'sportsmen' who make a practice of filling their creels with tiny fingerlings and trout fry so small that it takes three of them to make a mouthful," declares Fisher. "There is no doubt that such practice is what is ruining late-season fishing in our coast streams.

"Such small fish can be taken in but one way, and that is by the use of salmon roe. Fingerlings don't bite as readily at other lures as they do at the roe, and it is difficult to land a small trout on hooks baited with any other lure."

J. S. Hunter, assistant executive officer of the Commission, declares that if the use of salmon roe was made illegal it would be possible to make the trout season much longer, opening earlier than at present.

Ernest Schaeffle, executive officer, while believing that it would be almost impossible to enforce it, thinks well of a law abolishing the roe. The force of deputy game wardens under control of the Fish and Game Commission is too small to be able to cope with the thousands of "short sports" who fish for big baskets of trout of any size rather than for the sport of the game.—S. F. Call.

Forest Service Builds Scenic Trail.—Work has commenced on a trail between Lake Tahoe and Yosemite Valley through the El Dorado and Stanislaus National Forests, according to a report given out by the District Forester. The proposed route will follow the road south from Lake Tahoe through Lake Valley to Border Ruffian via Luther's Pass through Hope, Faith and Charity valleys. From Border Ruffian it will be constructed through Indian Valley, thence across the Carson-Bigtree Road through the upper drainage basin of the Mokelumne, thence down Arnot Creek and Clark's Fork to its confluence with the Stanislaus River to Relief Reservoir, from which it will lead directly to the Yosemite Valley via Bond Pass.

Much of this route lies at an elevation of between six and seven thousand feet and is contiguous to such wonderful scenic regions as Blue Lake, the Dardenelles, and Mokelumne and Stanislaus canyons.

This trail, which is primarily for the use of campers and recreation seekers, will have a minimum with of tread of 30 inches, and in no place will its grade be more than 15 per cent. Turnouts will be provided in dangerous places, and the switchbacks are to be wide and level. It will be blazed throughout its entire length and monuments and trail signs will be placed at all cross and branch trails, creeks, and camp grounds and points of interest. A distinctive feature of this trail will be the pastures for travelers' horses, 12 to 18 miles apart along its entire length. Between Brightman's Flat and Eureka Valley a drift fence will be constructed which will form a pasture of about 600 acres and will afford pasture sufficient to feed 35 head of horses. Several summers' work will be necessary to complete it as planned.

The Tahoe-Yosemite Trail, in conjunction with the John Muir Trail now under construction by the Forest Service in co-operation with the State of California, will extend 250 miles along the backbone of the high Sierras, and will open to travelers and campers regions of great scenic interest.

Fly-Casting at Tacoma.—Exceptionally good scores marked the monthly competition of the Tacoma Fly and Bait Casting Club at Point Defiance on July 23. The banner event of the day was the one-quarter accuracy casting, won by H. J. Nason with 98.6 per cent., the best score ever made in the Tacoma section. R. Hutchinson captured the distance event, while the slam was won by R. B. Nason.

The score made by H. J. Nason is regarded as exceptional as it is his first season at casting and it also shows a higher average than that made in the Pacific Northwestern championship last summer. Scores:

One-ffuarter Ounce Slam Cast—R. B. Nason, 134 feet 8 inches; William J. Bailey, 127 feet; B. B. Perrow, 120 feet; C. R. Werner, 118 feet; R. Hutchinson, 110 feet; D. E. Gilkey, 97 feet; W. L. Richards, 9[illegible] feet.

One-Quarter Ounce Accuracy Bait (per cent)—H. J. Nason, 98.6, William J. Bailey 97.7, R. B. Nason 97.5, D. E. Gilkey 97.3, B. B. Perrow 97.3, R. Hutchinson 96.5, C. R. Werner 95.7, W. L. Richards 94.

One-Quarter Ounce Average Bait—R. Hutchinson, 93 feet 11-5 inches; B. B. Perrow, 92 feet, 11 1-5 inches; R. B. Uason, 91 feet, 3 3-5 inches; William J. Bailey, 80 feet, 3-5 of an inch; C. R. Werner, 78 feet, 10 2-5 inches; D. E. Gilkey, 62 feet, 3 3-5 inches; W. L. Richards, 20 feet. Longest single cast, R. B. Nason, 124 feet.

Multnomah Club's Casting Results.—Some good scores were registered in the regular casting tournament of the Multnomah Anglers' Club at its Laurelhurst Park moorings in Portland on July 23. W. F. Backus was the real star, winning two events and tying for third in another.

The annual Northwest casting tournament will be held under the auspices of the local club August 24 and 25, and already entries are coming in from all parts of Oregon and Washington. Another tourney will be held by the organization September 13 and 14 for the championship of Oregon.

The results follow:

Light tackle dry-fly accuracy, 5¾-ounce rod—W. C. Block, first, 98.3; Dr. E. C. McFarland, second, 98; Lester W. Humphrey third, 97.8.

Distance bait-casting with 5¾-ounce rod—W. E. "Dick" Carlon first, 100 feet; Jack Myers second, 95; W. C. Block and W. F. Backus tied for third, 94 feet.

Distance bait-casting, half-ounce—W. F. Backus first, 154 4-5; C. C. Harris second, 140 1-5; A. E. Burghduff third, 113.

Light tackle dry-fly accuracy, 5¾-ounce—W. F. Backus first, 99 7-15; A. E. Burghduff second, 98 12-15; Dr. E. C. McFarland third, 98 11-15.

Alaskan Dogs Best in War.—Dogs are being made much use of by the French army, and hundreds of the animals are now employed in the Vosges. They are harnessed to trucks on two-foot-gauge light railways, which now run everywhere behind the Front up the sharpest gradients. Eleven dogs, with two men, can pull a ton up some of the most precipitous slopes; and two teams of seven dogs each can do the work of five horses with very few men. The dogs, which have been brought from Alaska, Northwest Canada, and Labrador, were several hundred strong when they reached France, but their number has considerably increased, and now there is a plentiful supply of pups of all ages and sizes. It has been found that the best breed is the Alaskan, as his courage never fails, and he will work until he drops, though he is, perhaps, the weakest of the lot. They are all shaggy dogs, with prick ears and bushy tails, their colors ranging from black to white, between grays and browns. Their chest development, so necessary for hauling, is remarkable. They are fed mainly on rice, horse-flesh, and waste military biscuits, and they are always in splendid condition.

Ducks Plentiful in Tulare.—Prospects for the coming hunting season were never better, in the opinion of Kings county hunters. Reports from the Tulare like district indicate that the ducks have not been so plentiful for twenty years. They are variously described as being in millions, clouds and armies. Owing to the great increase in the water, the area available for hunters will be greatly increased. There will be considerably more cover in the lake bottom this year than in previous seasons. The ducks are reported to be in excellent condition.

Ranchers everywhere state that the quail are stronger than usual. There are more coveys than in past seasons, while the size of the coveys is much larger. Doves are also exceedingly plentiful.—Hanford, July 27.

Wins Battle with Sturgeon.—A sturgeon weighing 158 pounds, the largest ever taken from the waters of Lake Erie, was caught recently off Barcelona Point, according to the report in the Buffalo Enquirer, and fishermen say the fish must have been the granddaddy of the Lake Erie sturgeon family. The prize catch of the season was hooked by Charles Peacock, baseball player and fisherman of Westfield, Chautauqua county, N. Y.

Peacock nearly lost his life in landing the big sturgeon. Capt. Clark Smith of the Barcelona lifesaving station found the fisherman in an exhausted condition and fighting hard to prevent the sturgeon from capsizing the boat. Peacock battled with the big fish for eleven hours before he was picked up by the life-savers.

The Los Angeles Gun Club, Fred H. Teeple, Secretary, has a registered tournament scheduled for Monday and Tuesday, August 7 and 8. Indications are that a number of squads will be in the competition.

TALKING OF SHOOTING LOOK AT THIS.

Here's a Fellow Who Tells of Some Feats and Advocates Truthfulness.

They had been talking about the remarkable performances of Dr. Carver, the marksman who shoots, with a rifle, glass balls which are sent into the air as fast as a man can throw them. Presently Abner Byng, who was sitting by, said:

"That's nothing."

"What is nothing?"

"Why, that shooting. Did you ever know Tom Potter?"

"No."

"Well, Potter was the best hand with a rifle I ever saw; beat this man Carver all hollow. I'll tell you what I've seen this man Potter do. You know, maybe, along there in the cherry season Mrs. Potter would want to preserve some cherries; so Tom would pick 'em for her; and how do you think he'd stone 'em?"

"I don't know. How?"

"Why, he'd fill his gun with birdshot and get a boy to drop half a bushel of cherries at one time from the roof of the house. As they came down he'd fire and take the stone clean out of every cherry in the lot. It's a positive fact! He might occasionally miss one, but not often. But he did bigger shooting than that when he wanted to."

"What did he do?"

"Why, Jim Miller—did you know him?"

"No."

"Well, Tom made a bet once with Jim that he could shoot the button of his own coat-tail by aiming in the opposite direction, and Jim took him up."

"Did he do it?"

"Do it! He fixed himself in position and aimed at a tree in front of him. The ball hit the tree, cannoned, hit the corner of a house, cannoned, struck a lamp-post, cannoned, and flew behind Tom and nipped the button off as slick as a whistle. You bet he did it."

"That was fine shooting."

"Yes; but I've seen Tom Potter beat it. I've seen him stand under a flock of wild pigeons, billions of them, coming like the wind, and kill 'em so fast that the front of the flock never passed a given line, but turned over and fell down, so that it looked like a brown feathery Niagara. Tom did it by having twenty-three breechloading rifles and a boy to load 'em. He always shot with that kind."

"You say you saw him do this sort of shooting?"

"Yes, sir; and better than that, too. Why, I'll tell you what I've seen Tom Potter do. I saw him once set up an india rubber target at three hundred feet, and hit the bull's-eye twenty-seven times a minute with the same ball! He would hit the target, the ball would bound right back into the rifle barrel just as Tom had clapped in a fresh charge of powder; and so he kept her a-going, backward and forward, until at last he happened to move his gun and the bullet missed the muzzle of the gun. It was the biggest thing I ever saw; the very biggest, except one."

"Well, one day I was out with him when he was practising, and it came on to rain. Tom didn't want to get wet, and we had no umbrella; and what do you think he did?"

"What?"

"Now what do you think that man did to keep dry?"

"I can't imagine."

"Well, sir, he got me to load his weapons for him, and I pledge you my word, although it began to rain hard, he hit every drop that came down, so that the ground for about eight feet around us was as dry as punk. It was beautiful, sir, beautiful."

And then the company rose up slowly and passed out one by one, each man eyeing Abner and looking solemn as he went by; and when they had gone Abner looked queerly for a moment, and said to me:

"There's nothing I hate so much as a liar. Give me a man who is a friend of the solid truth and I'll tie to him."—N. J. Democrat.

Larger Than California's Tunas.—Newport, R. I.—Few people realize that the coast adjacent to Rhode Island boasts of tuna fish larger than those off the shores of California. Such is the case, however, and Captain Hugh L. Willoughby, who has just returned from a trip to Block Island in his motorboat Sea Otter, tells a reporter that he weighed a monster tuna fish last week which tipped the scales at 695 pounds.

"Yes," said Captain Willughby, "we have an affidavit as to the weight. California's tuna fish never exceed three hundred pounds.

"The big fish was caught in a fisherman's net about seven miles southeast of Block Island and had to be speared before being prepared for shipment to New York. Meanwhile the fisherman is trying to figure out whether the price of the monster will pay for the repair of his nets, which were torn to shreds in the death struggle.

"As regards sharks," said Captain Willoughby, "I believe that there never was any two varieties, such as common and man eating sharks.

"The menhaden fishing industry has cleaned the waters of food for the sharks and they are hungry. Any shark will eat human beings in this state."

NEWS OF GRAND AMERICAN HANDICAP.

Handicapping Committee Is Named; Special Events Carded for Women Shooters.

In appointing the Handicap Committee for its Seventeenth Annual Grand American Handicap Tournament, The Interstate Association was at special pains to appoint on such committee those whom it deemed best suited for the purpose. Having been uniformly successful in its choice in past years, the task of appointing a committee for this year's tournament was not a difficult one.

It is with the greatest pleasure that the Association announces that it has secured the services of a Handicap Committee composed of five men, each of whom is thoroughly well qualified to judge of the individual merits of the entrants, and to award handicaps accordingly.

By accepting the arduous duties that are always attached to the office of handicapper, the committee as a whole, and each member as an individual, is entitled to the warmest thanks of The Interstate Association, and the same are hereby cheerfully and publicly tendered. The committee is constituted as follows:

James W. Bell, St. Louis, Mo., Chairman;
Ray E. Loring, Marseilles, Illinois,
Geo. K. Mackie, Lawrence, Kansas,
Guy V. Dering, Columbus, Wisconsin,
John H. Noel, Nashville, Tennessee.

With the utmost confidence it is predicted that this committee will not fall below the estimate that has been placed upon it.

Elmer E. Shaner, Treasurer and Manager of The Interstate Association, will be Secretary of the committee, but will not have a vote in the handicapping of the contestants.

The committee will meet at St. Louis, Mo., Friday, August 18, but handicaps will not be announced until Sunday, August 20.

Each contestant who makes application to enter the Seventeenth Grand American Handicap is required to specifically set forth his average. Any contestant failing to comply with this demand, as exacted by the ruling of the Interstate Association, or who materially falsifies his classification, will be allotted the back mark in the Grand American Handicap as a penalty. This applies to all contestants.

A cordial invitation is extended to women trapshooters to make entry in the Grand American Handicap. Shooting for "targets only" NOT allowed. Women will receive hospitable welcome and every courtesy will be extended them. Husbands, brothers and sweethearts are requested to encourage women to attend.

The two women contestants who make the two highest scores in the Grand American Handicap will each receive a trophy, presented by The Interstate Association.

A 50-target event will be arranged for women only on Tuesday, August 22nd, Wednesday, August 23rd, and Friday, August 25th, for which events The Interstate Association will provide three trophies, one for each day. A trophy will be presented to the maker of the highest score each day, but no contestant will be eligible to win more than one of the three trophies. This event will be shot over a special trap and will start promptly at 4 p. m. each day. Entrance fee, price o ftargets, $1.00.

Ties for any of the trophies for women, the Grand American Handicap included, will be shot off at 20 targets per woman until the winner has been determined. Entries close August 5th.

Sousa Likes to See Women Shoot.—John Philip Sousa, the band leader, is an enthusiastic trapshooter. When asked his opinion on women taking up the sport, he said:

"Women are finding trapshooting even more enjoyable than golf, tennis, and the other games they now play. In the shotgun game she is not classified as a woman. She meets men shooters on an equal footing, and there is nothing that pleases her more than to beat her lord and master at his own game. Indeed, women have so far advanced in trapshooting that they will be permitted to enter the Grand American Handicap this year.

"Shooting makes a woman agile and alert. I have shot at the traps with many women and never have I seen an ungraceful one who used a shotgun well."

O. N. Ford Had Great Trip East.—O. N. Ford of San Jose was a visitor in the offices of the Breeder and Sportsman on Monday. He just stepped off a train from the middle west, where he has been participating in trapshooting tournaments. Bobbie was bubbling over with enthusiasm over the reception that was tendered him and the prosperous condition in which he found the alluring sport.

The San Jose crack has every reason to find happiness and contentment with the world in general. Fact is, he brought back enough trophies to stock up a jewelry store and won laurels that have our brothers across the Rockies a-talking. Ford was kept on the jump every minute. During his absence of 58 days, he was at the traps on 27 of them and the rest of the time he put in traveling. In all he covered 7,300 miles.

Ford participated in ten tournaments and reports he turned in high average on nine occasions. At Rochester he came in second and this with a 148 out of 150 score. Certainly Bobbie made a record for consistency that has seldom been equaled in the history of the trap sport. He was hopping on and off trains and running into all varieties of weather conditions and he never failed to shoot right up to his best form.

To give an idea of how he was shooting, he had high runs of 59, 62, 55, 59, 92, 53, 74, 52, 60, 52, 79, 60, 70, 60, 66, 53, 55, 57, 82, 53, 60, 68, 68 and 98 unfinished. The record he kept of his scores in the middle west is as follows:—

Date and Place.	Broke	Shot at
June 12-13—Aikin, Minn.	280	300
June 19—Minneapolis	148	150
June 21—Rochester, Minn.	148	150
June 27-28—Crookston, Minn.	342	360
June 29-30—Grand Forks, Minn.	283	300
July 9—Duluth, Minn.	171	175
July 12—Mankato, Minn.	147	150
July 13—Fulda, Minn.	239	250
July 17-18—Mitchell, S. D.	288	300
July 28-29—Rawlins, Wyo.	379	400

It was thought that Ford would remain in the East to take part in the Grand American Handicap at St. Louis, but he says he was anxious to get home to look after the tournament he has planned for his San Jose grounds on September 17 and 18. Ford is also going to the Pacific Coast Handicap at Portland on September 12, 13 and 14 and he wants to get together a strong team to represent San Jose.

Public Bullseye Shoot in September.—Marksmen of the bay district are looking forward toward one of the greatest public bullseye shoots ever held on the Shell Mound range. The shoot is to commemmorate the fifteenth anniversary of the Shell Mound Pistol and Rifle Club. The shoot will start on Saturday, September 9. Targets will open at 1 P. M. on that date, and close at 6 P. M.; on Sunday, September 10, the shoot will start at 9 A. M. and close at 5 P. M.

There will be an intermission for the purpose of giving a banquet from 12 to 1 P. M., in honor of the visiting marksmen, ladies and special guests. The banquet is to be spread in the clubhouse in the park. Speeches will be made by some of the most prominent marksmen of California.

The program of this important shoot is, without doubt, the most generous ever offered to the shooting public on the Pacific Slope. Marksmen of the Coast remember well when the Shell Mound Pistol and Rifle Club five years ago held a public prize shoot in honor of its tenth anniversary, and the success of the affair.

The club has mailed invitations to every organization and individual on the Pacific Slope interested in marksmanship. The festival committee in charge of the shoot is headed by the following marksmen: George R. Hauser, chairman; Carlton W. Deely, secretary; Christopher Otten, treasurer; S. Schierbaum and Alfred Thompson.

Green Lake Club.—With a score of 48 out of a possible 50, L. S. Barnes carried off the high honors among the twenty-two gun bugs, who turned out July 23 to the regular weekly shoot of the Green Lake Club. George Edling landed in second place with 46, while third place, with scores of 45. Among those who shot at 100 targets, Don R. Baker and Dr. J. F. Hill headed the list with 90 each. Mrs. L. S. Barnes put up a fine exhibition yesterday, taking her place with the regular squads and breaking 36 out out of her 50. The scores:

L. S. Barnes 48, George Edling 46, Dr. King 45, Dr. J. F. Hill 45, Don R. Baker 43, George H. Young 42, Dr. M. A. Winningham 42, George B. Baker 41, J. V. Hough 41, S. A. Martin 39, L. L. Scott 36, H. E. Gleason 36, Mrs. L. S. Barnes 36, W. C. Smith 36, Dr. S. W. Giffin 35, George O. Colwell 34, E. Chantrell 33, E. Bauer 32, G. W. Swinehart 21, William Spurck Jr. 17, George D. Horst 10, Mrs. L. L. Scott 6.

At 100 targets—Don R. Baker 90, Dr. J. F. Hill 90, George B. Baker 88, W. C. Smith 84, S. A. Martin 83, Dr. S. W. Giffin 74.

THE INTERSTATE ASSOCIATION'S HANDICAPS.

T. E. Doremus, President,
Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. — E. Reed Shaner, Sec'y, Pittsburgh, Pa.

The Interstate Association's Seventeenth Grand American Trapshooting Tournament, under the auspices of the St. Louis Trapshooters' Association, St. Louis, Mo., August 21, 22, 23, 24 and 25, 1916. There will be $3,500 added money. Winner of first place in the Grand American Handicap guaranteed $500 and a trophy; winner of second place guaranteed $400 and a trophy; winner of third place guaranteed $300 and a trophy; winner of fourth place guaranteed $200 and a trophy, and the winner of the fifth place guaranteed $100 and a trophy. Numerous other trophies will also be awarded.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Partland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

Seattle Association.—July 23 was one of the very few days this season that the trapshooting "bugs" received perfect weather. The bunch that went out to Harbor Island hung up some good scores, the best being that of C. E. McKelvey, who stood high in the regular fifty-bird program with a score of forty-nine. D. Rhodes, professional, copped second place with forty-eight to his credit, while nearly every other shooter finished this part of the shoot with 80 per cent or better to their credit.

The average of the scores in the hundred-target program changed very little, McKelvey and Rhodes tying for the first position with ninety-seven each. Tom Wilkes took second place in the score, he shooting ninety-five out of the bunch.

F. H. Cooper, a new man in the line-up, shot remarkably well for the first time that he had ever shot at the traps.

The shoot will help several shooters who are now competing for their 80 to 95 per cent medals given by the American Amateur Trapshooters' Association.

The Scores, at 50 targets—C. E. McKelvey 49, *D. Rhodes 48, Tom Wilkes 47, Hugh Fleming 45, C. R. Sydman 45, Hi Follerich 44, Joe Bacher 42, C. W. Bandy 41, R. W. Brehm 35, D. R. McDonald 23.

At 100 targets—C. E. McKelvey 97, *D. Rhodes 97, Tom Wilkes 95, Hugh Fleming 90, Hi Follerich 84, Joe Bacher 82, C. W. Bandy 78, D. R. McDonald 56, H. S. Gibson 41, Geo. Scripture 40, J. H. Wilman 40, F. H. Cooper 28. (*Professional.)

Los Angeles Club.—C. W. Fish, shooting from 16 yards, broke high gun in the fifty-bird handicap trapshoot staged Sunday morning at the Los Angeles Gun Club for a diamond scarf pin. His score was 49x50.

Heinie Pfirrmann, Jr., champion of California and Nevada, broke second high with 48x50 from 21 yards. Ed Mitchell was high pro with 48x50.

The results follow:

Diamond Trophy Handicap—

	Hdcp.	Score
Ed Mitchell	21	48x50
E. K. Mohler	20	47x50
F. Free	19	47x50
H. Pfirrmann, Jr.	21	48x50
O. Council	18	45x50
Geo. Melford	18	45x50
P. O. Long	18	46x50
C. W. Fish	16	49x50
C. H. Betz	16	44x50
J. Cline	16	44x50
G. Holohan	20	46x50
Paul Fittery	16	36x50
O. C. Carter	16	40x50
B. D. Pool	16	39x50
J. E. McClellan	16	38x50
A. L. Rowe	..	45x50
W. Jackson	..	38x50

Shoot from 23 yards—Ed Mitchell 46, H. Cline 38, Geo. Melford 40, F. Free 43, O. Council 40, C. W. Fish 46, E. K. Mohler 44, C. H. Betz 42, P. C. Carter 32, B. O. Pool 34.

Season Trophy Shoot—Ed Mitchell 48x50, H. Cline 47, S. R. Smith 47, $. K. Mohler 48, F. Free 44, G. Holohan 48, H. Pfirrmann Jr. 49, C. W. Fish 45, C. H. Betz 45, J. Cline 45, F. H. Teeple 46, O. Council 45, Paul Fittery 35, Geo. Melford 45, W. Robb 9, J. E. McClellan 36, R. Rouse 34, P. O. Long 47, P. C. Carter 39, R. O. Pool 38, A. L. Rowe 45, W. Jackson 35, L. R. Mellus 46, S. B. Friend 46, C. Mueller 29, Miss A. Wheeler 42, G. E. Arbogast 28, J. C. Rendler 38, Mrs. C. E. Groat 46, Wm. Kennedy 36, C. E. Earl 33, H. E. Huston 27, C. E. Groat 24x25.

Vernon Club—With eighteen shooters competing, Stanton Bruner and Dr. L. M. Packard tied for the William H. Hoegee trophy Sunday morning, when it was contested at fifty targets at the Vernon Gun Club. Each had a score of 48x50 and shot off at fifty birds from their handicaps, Bruner from 20 yards and Packard from 21 yards. Packard won out, breaking 46, and Bruner 45.

The results:

	Hdcp.	Practice.	Hoegee.
Wilshire	16	47x50	..x..
S. A. Bruner	20	45x50	48x50

Kimble	16	19x25	..x..

A party of old-time campers, seven in number, and the cook, who is designated as the "prize cook, Peter Victor," has left for the Navarro river, in Mendocino county. A three weeks' outing is planned. Some of the party have camped in this same spot for the past twenty years. The campers are: Joe Francisco, Archie Howard, Bill Price, Bill Pallson, Sig Horn, Will Jellett and the aforesaid "prize," Peter Victor.

Sportsmen's Row

Professionals and paid representatives are barred from competing in the Grand American Handicap, even for "targets only," in all scheduled events. An extra trap will be installed for the use of professionals and paid representatives only, and a special 100-target event will be arranged each day for their benefit.

Mrs. W. S. Roberts of Portland, Ore., who has been spending her vacation at Troutlake, Wash., caught a rainbow trout in Trout Creek which weighed four and one-half pounds and measured twenty-two inches in length. This is said to be the largest trout that has been landed in that vicinity this season.

* * * *

The Rev. W. M. L. Evans, writing to the "Shooting Times" from Saxy Rectory, North Lincolnshire, comments upon the effect of the detonation of shells on bird-life. "Yesterday," he says, "I attended the visitation of a well-known archdeacon, who, on his way to the church,, told me that numbers of linnets—apparently the most sensitive of our small birds—have been found dead, with the drums of their ears split, and that liners in the Atlantic have been the refuge lately of thousands of our small birds, apparently scared many scores of miles from their native homes."

* * * *

W. E. Meehan, formerly fish commissioner of Pennsylvania, is sponsor for the following story of an experience in his office when he was active in the work in the Keystone State. Through the papers a notice had been given that trout fry would be ready for shipments on applications on a certain date and a few days later the following letter was received by the commissioner from a citizen and voter residing in Philadelphia: "Dere Mister Commissioner, I rede you are ready to send out trout. Please send me one dozen fride, as my wife is sick and is very fond of fride fish. Yours, HAM JOHNSON."

Four of the A. A. T. A. members—Messrs, Gardner, Adams, Endey and Wise—led the field in the recent shoots of the Star Pointer Gun Club of Ruth, Nevada. The shoot was held to commemorate the birth of twin boys at the home of E. K. Adams. The proud father arranged to absent himself from home long enough to shoot fifty targets in the A. A. T. A. 60% medal and qualified. Mr. Adams hopes to see the new arrivals turn out to be crack trap shots and members of the A. A. T. A.

Excellent fishing in the Little Truckee river, several miles from the point in which it flows into the main river, is reported by Chief Clerk J. Ward of the Sacramento division of the Southern Pacific, who recently made a trip to that section and who is contemplating another. "Fihermen visiting that section make the mistake of fishing too near the town of Truckee, where the river is fished out," says Ward. "On the Little Truckee, a few miles from Boca, there is excellent trout fishing under ideal conditions, since there is scant foliage along the banks."

* * * *

H. W. Adams today is wearing the coveted swordfish button of the Catalina Tuna Club, having landed a 338-pound Broadbill after a four-hour fight Monday. Captain George Farnsworth of the launch Mabel F. and Angler Adams had a fifteen-minute tussle after two gaffs had been sunk into the gamy monster before he was pulled into the boat.

* * * *

Arizona is going to have some big trap shoots in November. Phoenix and Ray are planning to stage some big tournaments and a number of Coast shooters will take part in the events.

* * * *

Clarence A. Haight is off on a trip through Nevada. The "Father of Trapshooting on the Pacific Coast" will likely try out his eye on the tarhawks while he is away.

* * * *

The boys are once again getting active at the Copper Kettle Club. They are planning hunting trips and getting their weapons in condition.

* * * *

W. H. Reid, Police Sergeant C. J. Birdsall, J. J. Casey, D. Brassfield, Jake Finnel and W. Barrion, compose a party of deer hunters which leaves this week for the Cloverdale mountains.

* * * *

Al Johnson and J. Morrom are going after their bucks in the Fort Seward region.

* * * *

Bob Bowman and Robert Peet will travel to Greenwood, in Mendocino county, for their venison. They plan to make headquarters at one of the White Lumber Company camps.

* * * *

In most of the lower regions of the coast mountains the horns of the deer are now hard. During the spring, the antlers are great pulsing arteries, protected with velvet, and as tender as a man's eye. Gradually they harden, from the tips down, and then the buck, fully equipped for his enemies, rubs off the delicate covering and appears full-horned, and careless of the underbrush. But until the horns are hard, the buck treats them with great care.

Percy Harden, R. V. Brown and A. Bevine opened the deer season in the northern part of Marin county.

* * * *

A big hunting party has left for Cloverdale. They will be out for several weeks in their quest for a buck apiece. The party is composed of Frank E. Carroll, H. M. Goldberg, Roy A. Lee, Dr. D. F. Mullhill, Mr. Brandevore and Frank E. Carroll, Jr.

* * * *

R. M. Brooks and party will start their vacationing from Willits, in Mendocino county. The party will start straight for the redwood country and expect to bag some big bucks.

* * * *

Phil Bekeart is making good catches in the Big Meadows country. He has sent several fine messes of trout to his friends in this city.

* * * *

There was no game-shooting allowed in France last year, and there is very little chance of "la chasse" being permitted this coming season, although we learn that some of the most ardent Nimrods are very anxious to prevent the crops from being devastated by game. Of course, game is being obtained by trapping and netting, but firearms are not allowed.

Coyotes Shipped to N. Y.; Escape.—A case which has created considerable comment and interest is the coyote matter at Rangeley which has emanated from Mrs. J. B. Martindale of New York having some wild coyotes shipped to her by a friend from Colorado.

It is the first prosecution under the statute in that section. The law is very explicit and provides that whoever introduces a wild animal or bird into the State without the written permission of the Commissioners of Inland Fisheries and Game is liable to a fine of not less than 50 nor more than $500 for each offense.

On receiving the animals they were put in a small enclosure and attracted much attention, and not much was thought of the matter until they escaped from the pen. They are considered a great pest in the west and it was feared unless they were captured they would breed and cause much damage, especially to the deer.

The matter was brought to the attention of Warden E. H. Lowell when he notified Commissioner H. B. Austin and a hearing held in Phillips last Monday before Trial Justice C. M. Hoyt. The prosecution was conducted by County Attorney Thomas D. Austin of Farmington, while J. Blaine Morrison of Phillips appeared for the respondent.

Mrs. Martindale stated that no one informed her that the presence of the animals was illegal until after they had escaped and was somewhat vexed that none of the guides and wardens informed her of the fact, as she stated that several knew about them.

Bonds in $500 for her appearance in September were furnished by Harry E. Pickford and Ira Huntoon of Rangeley.

Commissioner Austin says one of the coyotes was caught Monday night in a trap which Ira Huntoon, who is employed by Mrs. Martindale, had set for the animals, and this only a short distance from Pickford's Camps.

Good Fishing in Bear Lake—All reports that the fishing in Bear Lake is poor just now are based on the statements of the inexperienced. The lake is so full of big, husky, scrapping savages in silvery armor that even the still fishermen are bringing in limits after losing two out of every three they hook through attempting to use tackle too frail to cope with four pounds of concentrated speed, energy and utterly untamable disposition that brooks no restraint, and fights gloriously until death.

Sooner or later some pinhead will launch the report that the Bear Lake trout are dying off of some strange, mysterious malady. Corrosive steel poisoning is the correct diagnosis. Few have any idea of the vast number o ftrout that are hooked by the average fisherman and lost by breakages in order to boost a limit.

The fish are bigger every week. Now that the moon is dark and is to give little light for another week some of the finest sport of the season is certain to feature the next few days.

Numerous speed launches are appearing on the lake also this year, some very fast "turn-ups" among them, too. "Cap" Grant of the Pine Knot boat landing has another launch in commission, and nearly fifty boats, and they are kept busy all the time.

Fish Strangles on Broken Line.—Jessie I. Jewell had an unusual experience recently while fishing at the mouth of Russian river, one that will linger in memory so long as life lasts. The story of the escapade is told by Benjamin Crabtree, himself an ardent fisherman. Jewell and a friend were engaged in angling in the river, the hours being just before sunset. Jewell managed to hook a mammoth fish and it made a dash for the open sea. The line which Jewell was using was broken off close to the reel and the leviathan managed to get away. The next morning Jewell went out fishing again and it was bright and early. Near the mouth of the river he espied the fish he had hooked the night before, with the line still fast to its gills. The fish had strangled to death from the effects of swallowing a quantity of the line, and Jewell finally landed his catch. The fish was a striped bass, and weighed 52 pounds. Some fish story, according to Crabtree.

ARMY OF HUNTERS OUT AFTER DEER.

Many Parties Take to Hills and Others Follow on Week-End; Bucks Reported Plentiful.

A formidable army of hunters took to the hills in districts 2 and 3. They were on hand bright and early for the opening of the deer season on Tuesday. Only meager reports have been received of the luck experienced. The nimrods who are regulars planned to hunt over country that is a bit out of the way and many will be out for a couple of weeks. Nearby the game was naturally scarce.

The Southern Pacific sends in a report which says that deer are said to be plentiful in the open country of Lake county and in the Mount Hamilton ranges, near San Jose. In the Tes Pinos and Monterey district, deer have been seen. Back of Paso Robles, in San Luis Obispo county, many bucks have been spied. Gilroy district usually supplies some big bucks, as well as Monterey and Santa Clara counties.

The first buck to be reported in San Francisco was that of J. S. Hunter, assistant executive officer of the Fish and Game Commission. He shot his buck, a pronger weighing about 125 pounds, in the hills back of San Gregorio. The deer was shot early Tuesday morning. This party jumped eight deer in the short distance that was traveled from San Gregorio. The hunters struck directly up the San Gregorio canyon along the canyon road leading to Bellvale. About two miles and a half from San Gregorio a detour was taken into the hills on the left side of the road. It was here that the deer was killed.

Hunter reports that signs are everywhere, and that all indications are that a number of fine bucks will be found in that region. However, he does not advise a hunter to go into this region unless he has time to study the lay of the land and to familiarize himself with the haunts of the deer. Unless one has a good idea of where the deer run, a two-day hunting trip is not apt to be fruitful. Of course, the same advice applies to any hunting ground.

Dr. Henry Abrahms made short work of his hunting trip for the season. He began his hunting season Tuesday morning half an hour before sunrise and ended it shortly after sunrise Wednesday morning. And since the "Doc" isn't a professional hunter the record isn't so bad. Two bucks inside of twenty-four hours ought to satisfy any amateur.

Abrahms got his first one, a four-pointer, Tuesday morning. Wednesday morning he strolled away from camp and nonchalantly picked off a three-pointer from a nearby ridge. That ended his hunting season. Two bucks in a season is the limit.

Three other deer were shot by members of the same party. Chet Bigler bagged a fork buck; Frank H. Gould took a forker, and W. B. Leadford, not to be outdone by the rest of the party, came into camp with a fat four-prong deer. Fred Ogle, guide with the party, shot a buck for himself as well.

The Abrahms party hunted near the headwaters of the Garcia river, about thirty miles from Cloverdale.

Deer are plentiful but sufficiently matured to make "hard hunting" in Marin county. Opening-day reports show between twelve and fifteen killed in the vicinity of San Rafael. This, hunters say, does not indicate that the deer are scarce. Their horns are hard and open shooting is not to be found.

William Barr, superintendent of the Marin Water and Power Company, bagged a nice forked horn Wednesday, while his son, Dr. T. L. C. Barr, went him one better, bringing in a four-pointer. George Martin of San Anselmo, Jacob Obit of San Rafael, Mayor S. K. Herzog of San Rafael, and Philip Knox of Ross were among the lucky first day nimrods to bag a buck.

Deputy Game Commissioner Hoen, who examined half a dozen slain deer, says there is no indication of disease among the deer in Marin county.

Henry Chauvet, Harry Weise, Judge Leo Justi, Tony Cereghino and James Small, all of Glen Ellen, are out in the hills spending a week deer hunting. They are camping on the old Reynolds place in Nun's Canyon. Of course they went prepared to clean up all the deer within a radius of several miles, and they will undoubtedly serve the toothsome venison in all styles, with the expert, Charles Weise, installed as their chief cook.

A party of hunfers on Supervisor William King's ranch near Cazadero slew two fine bucks. In the party were Supervisor King, Dr. Bruce Cockrill, William A. Cockrill and three of the Cockrill brothers, Charles Severance, Judge F. D. Trosper, Marty Sandvig, A. T. Mache, Mr. and Mrs. Crigler and others.

Attorney Phil Ware has joined his brother, President Allison B. Ware Jr., of the Chico Normal State School, and together they are hunting deer in Plumas county.

In spite of the enforcement of the new law prohibing the killing of spike bucks, deer hunters enjoyed quite a successful opening day's shoot in the mountains in Santa Clara county, according to information gathered by telephone.

One of the best bucks brought to San Jose Wednesday was a big four-pointer killed on the Mt. Hamilton range by Orlo King. Phil James brought down a Pacific buck in thesame neighborhood, while Johnny Higuera made his kill in the vicinity of the Mount Hamilton vineyard, less than 12 miles from San Jose.

The proprietor of the Smith Creek hotel reported that quite a number of deer were brought out of the country back of Mount Hamilton, as well as on this side of the dome.

ENGLISH EXPERT TALKS ON U. S. DOGS.

Sam Crabtree Compares Breeds and Airs His Opinions Before Taking a Steamer for Home.

After he had spent the day in judging and looking around the benches at the Southampton show Samuel H. Crabtree, one of the best known of the international judges, had more or less to say of the dogs and other things he observed down at the seaside resort. He was quite taken off his feet by the one day exhibition, and said that he thought it was about as pretty an exhibition where dogs are shown as con be seen anywhere on the globe. Mr. Crabtree, who has judged in nearly every corner of the world, said that the show of which it reminded him most was the Ladies' Kennel Association feature in England. The only difference that he could remark between the two was the fact that at London there were so many more dogs. At London, he said, all the leaders of society from the Queen down come to see the dogs go through their paces. The Southampton Show, he said, was a perfect picture of pretty women.

As far as the benching and arrangements in the ring were concerned Mr. Crabtree thought that there was little at any show that he had ever seen which could surpass the details at Southampton. After a preliminary skirmish over the general arrangements Mr. Crabtree began to talk of the dogs he had seen.

Just like Baines and Astley, the two other Britons of note who have preceded him here lately, he was strongly impressed by the showing of wire haired fox terriers. He said that he thought them the best of the lot so far as any one class was concerned. He also fancied the Airedales, which furnishes one of the best collections of any one breed in the country at the present day.

"The Pomeranians were real good and there were a couple of black puppies that were exceptionally good," said the Briton. "The Pekingese," he added, "are not quite so good on the average, but I saw some that were quite as nice as any we have on the other side. In England they have a much heavier entry, and I have judged as many as 190 at the Shrewsbury championship show. Ouena of Llenrud, which made its championship at this exhibition, was a good looking one."

"Sealyhams took my eye chiefly through the fact that you are getting a more decided type. They are more uniform now. It is not so long ago since they were of different sizes, but now you are getting down to a standard where the dogs are pretty nearly alike."

Mr. Crabtree did some judging that was more or less revolutionary in this country. For instance, in black and tan toy spaniels he withheld the winner's ribbon because he did not think that the specimen that was up before him was worthy of the honors. Then he did another strange thing that has seldom happened in this country. In one class there was a single bulldog entered and, of course, the owner expected to get a first prize with it. Mr. Crabtree startled the ringsiders by upsetting all traditions by giving the dog only a fourth ribbon in a class of one.

Coming along to his judgment of the toy spaniels, Mr. Crabtree said that he thought the Blenheims were the best of the lot and that most of the tricolors were a little too long in the face.

He did not care much about the English setters, but he thought the Irish were a mighty good collection, particularly the winner. His chief fault to find with the pointers and English setters was that they were more on the shooting type than the show specimen. Midwood Red Jacket, he thought, was the best looking of all the field dogs.

The English judge who has owned some of the best bulldogs ever bred and who is probably the outstanding authority on this breed, said that the bulldogs were not a brilliant lot and he said this right in front of "Jack" Horrax, who had some good ones in under him. He liked Crissie Denton on the bench as compared to Oak Nana. He said the former "knocked the latter into a cocked hat." He added that Nana looks worse than she did in England and if shown on the other side in the condition in which she was put down at Southampton she would never have been a champion.

When asked what he thought of the winning dog, Wy Collar Boy, as compared with his days in England, the Briton said that he was looking very well and that he had never seen him in better fettle in England.

Another breed that took the eye of the English expert was the Great Danes. He said they were a very nice lot.

Mr. Crabtree commented on the recent action of the American Kennel Club in their proposal to cut out winners' classes in certain breeds after September 1st. He said: "I think they are making a mistake. What I think is the real solution of the problem is to make a rule to the effect that unless there are a certain number of entries there shall be no winners' class. Suppose winners' classes are eliminated for certain breeds; well, along comes one show where there may be forty or fifty actual dogs and at another only three or four. Would it be fair to withhold winners in the first case? Specify the number for competition and make all breeds the same. I think it would induce the fancy to show because they would realize that there would have to be a certain number in competition, and therefore they would enter their dogs."

"In England we don't have point shows. We have so many challenge certificates allotted each year. A championship show cannot give less than $10, $5 and $2.50 for first, second and third prizes. To become a champion a dog must win at least three certificates under three different judges. There is a specified number of championship shows to a breed, the maximum limit of which is, say five. Now, a man might win half a dozen challenge certificates under the same judge, but his dog could not be a champion. Often we show under the same judge, but we do it to stop some one else. I think the English system is better than the one in America."

In Great Britain, Mr. Crabtree said, they think nothing of withholding a championship certificate if they think the entries are not worth while. Mr. Crabtree lived up to this on more than one occasion at Southampton, and in Schipperkes he gave a first and a fourth ribbon in a class of two.

Mr. Crabtree has traveled twenty thousand miles since he left England this time on his canine missions. He got into hot water here with the American Kennel Club, which refused to allow him to judge at Southampton on the ground that he was a professional handler, but he won his point and has received the congratulations of the fair minded fancy. He has been a breeder, exhibitor and judge for thirty years. Outside of the United Kingdom he has acted as the all-rounder for Belgium, Holland, South Africa, Canada and on both the Atlantic and Pacific coasts of the United States. He has kept practically every dog known to the fancy, and is one of the best known of the international judges.

Mr. Crabtree came over here to advise Mrs. Anita Baldwin, of Pasadena, Cal., on the arrangement of her new Anokia Kennels. He said that Mrs. Baldwin has a wonderful place and some remarkable dogs. When he left her two kennels were completed and another was in process of construction. He said that they were going to be models for canine homes. He predicted that she would show in the East next year.

Mr. Crabtree left for England on board the Philadelphia last week, but he says he is coming back again next year, if only as a visitor, because of the good time he had here with the American fancy.

Is Henry Berry Truthful?—Henry Berry, owner of the San Francisco baseball team, speaks in glowing terms of the trout fishing to be had in Plumas county. He spent last week with his brother, Clarence J Berry, and Frank Keller, at a place about 12 miles from Quincy and he had all the fishing he wanted . Trout were found in abundance and some of them ran to large size. Hen declares that he hooked one himself that weighed nine pounds. Across the way in the Big Meadows, the baseball magnate says that a trout tipping the beam at 19 pounds was taken while he was up in that country.

We are a bit skeptical, however, for after giving the above information he started in with a story about his trout eating record. "I ate forty trout at one meal," he started off.

"Do you mean forty of those nine and nineteen-pounders?" we interrupted.

"Some of them were big," came back Hen, "and I guess the forty would average pretty close to one-half pounders. They were certainly fine and brother Clarence and Keller will tell you that I ate forty."

Henry was about to continue how he could have eaten several more but we beat a hasty retreat.

West vs. East Trap Shoot.—One of the added features to the program of the Westy Hogans Trapshooting tournament, in Atlantic City, N. J., in September, will be a shoot between teams representing the East and the West.

A competition between the Eastern and Western trapshooters has long been talked of, but it remained for the Hogans to put it on the schedule. This event will be like all other team shoots. The respective sections of the country can enter as many shooters as desire to shoot—the highest five scores counting.

This event should settle a lot of argument or make a lot more. In trapshooting, like other sports, there is always that question to be answered: Is the East better than the West? In the Interstate Association averages last year there was only a fraction of a point difference in the averages of the first ten Eastern and first ten Western trapshooters. This indicates that they are about on a par. Anyway, the decision of the Hogans will be a good thing for the sport and will make a rattling fine event.

Delaware Is Elks Champion.—Trapshooters of five States participated in the Elks championship tournament, held over the traps of the Oriole Gun Club, in Baltimore, Md., during the recent convention of the B. P. O. E., and the small but select band of Delaware trapshooters carried away the bulk of the honors.

The tournament was a success in every sense of the word, even though it was a last-minute thought. Besides Delaware, New Jersey, Maryland, Pennsylvania and California were represented. The Delaware team broke 463 out of a possible 500 targets, with New Jersey second, with 432. "Doll" Richardson, of Dover, Del., broke 98 of his 100 targets, and in addition to his many other titles, he can now be hailed as the "Elks champion."

Announcement of the 1917 trapshooting program will be found in the convention program for next year, and the trapshooting contingent expect the tournament in Boston to be a big one. This time the promoters will have one year to work on it, and in that time they should be able to interest many State organizations.

Mountain Lions Reported Numerous. — Sierra Madre—Chester Huston, forest ranger for this district, reports encountering a huge mountain lion early one morning last week while traveling along the Sturtevant trail. Huston was proceeding leisurely along on horseback and scanning the surrounding country for signs of fire. When about a mile and a quarter up the Sturtevant trail, just as he was rounding a curve, he came face to face with a large lion.

The animal was evidently startled by his sudden approach and bounded down the canyon before Huston could get a shot at it. Huston followed the lion for some distance, but could not get within range of the beast as it skulked in and out of the undergrowth. He then abandoned the chase and resumed his journey over the trail.

He had not proceeded far until he heard shouts. Hastening back over the trail and reaching the point where the lion had disappeared down a canyon, Huston found two young children badly frightened and appealing for help. They had wandered from one of the nearby camps and had come in contact with the lion as it bounded through the canyon.

Huston again started to follow its tracks. These led to an open space where he found the carcass of a fine buck which was partly devoured. As Huston rode up to the place the lion bounded across his path and disappeared in the adjoining hills.

Huston reports this as the third mountain lion he has encountered on his journeys this season. He states seeing many carcasses of deer and claims that the mountain lions this year have killed more than the hunters would in an open season. He estimates that from six to eight deer are killed in a season by these lions for which there is a bounty of $50, but they are hard to capture or kill.

S. C. Constant of Sierra Madre, during his early morning rounds delivering newspapers, encountered one of these beasts last week in the wash at the foot of the Sturtevant trail. He passed within a few feet of the lion in his automobile. The animal rapidly scampered up the trail.

New Rifle Record Set.—A new record for two consecutive full rifle scores under the rules of the National Rifle Association was announced as having been made by W. G. Hansen of Los Angeles in the qualification trials for places on the Los Angeles team in the national rifle contest, in which the Los Angles club now holds the championship.

Hansen, according to E. C. Crossman, secretary of the club, made 243 July 23 and 242 on Sunday. This also equals the record of 243 for a single score held by G. L. Wotkyns of Los Angeles and a member of the Gisholt, Wisconsin, team.

Trout Fry Being Planted.—Oroville (Butte Co.)—Trout fry consisting of 25,000 fish were planted in Berry Creek Sunday by U. M. Damon, local Deputy Game Warden. Damon received the fry over the Western Pacific Saturday and with the aid of several helpers took the fish up the creek, where they were turned loose.

This assures the local fishermen plenty of good trout fishing next season, for by the opening of next season the fish will be between six and seven inches long.

Damon expects another shipment from the Fish and Game Commission in the near future, which will be planted in French Creek, a few miles northeast of Berry Creek.

Redding (Shasta Co.)—The State Fish and Game Commission's fish car from the Sisson hatchery distributed ninety-two cans of trout fry to different Shasta county points this week. Deliveries were made at Lamoine, Castella, Pitt, Delta and Redding. Twenty-two cans were taken from Redding by Alex Hansen of Round Mountain to Manzanita Lake, close up to Mt. Lassen. This is the second visit of the fish car to Shasta county this season.

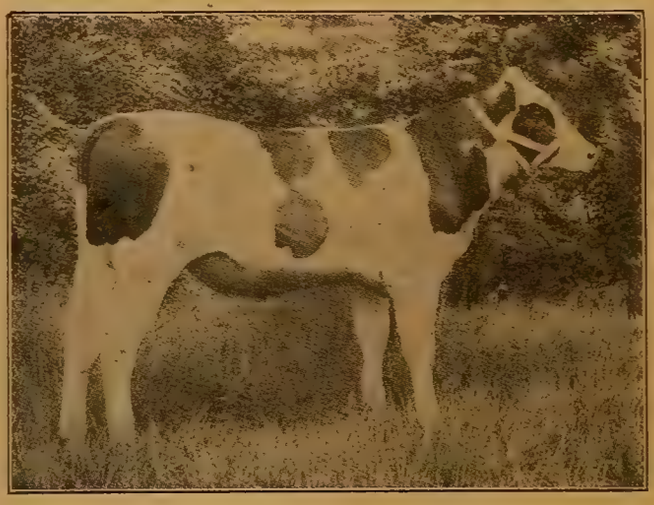
El Dorado Rod and Gun Club.—Louis Reeg has been elected president of the El Dorado Rod and Gun Club at a well attended meeting in the Chamber of Commerce rooms. Other officers elected were George Schiff, vice-president; Guy T. Wentworth, treasurer, and Henry Lyon, secretary. Various committees were appointed to carry on the extensive fish planting which the club is planning for this summer.

Oscar Reeg reported on the planting of 50,000 young trout in Echo lake last Tuesday. The fish were from the State hatchery at Tallac and were planted by members of the El Dorado organizations. Much time was spent in a discussion of the planting of over 200,000 young fish, which are due to arrive this week.

Most of the hunters who were out returned completely worn out after a hard day's work. A few parties went out equipped for a prolonged hunt, notably the Lorigan and Portal party on the Loma, the Frank Baker party near Madrone, and Frank Americh and friends in the mountains south of Salinas. These hunters traveled by automobile as far as there were any roads, and then shifted to saddle horses and pack trains. Lorigan's outfit will have the assistance of a pack of hounds.

Mountaineers report that deer were to be seen everywhere in the hills about three weeks ago, but within the past week they have been seeking seclusion in brushy country in the more remote spots.

Stock Breeders' Page



HERE'S THE $20,000 HOLSTEIN BULL CALF.

At the now famous sale of Holsteins held at Detroit, Michigan, June 8th and 9th, 1916, $20,000 was paid for the seven months old bull calf King Champion Rag Apple. This sale was remarkable in many respects and without precedent.

Consignments to the sale consisted of a few selected individuals of excellence from each of the herds of leading breeders all over the country and were personally inspected and approved by the sale director, H. A. Moyer of Syracuse, N. Y., a breeder of successful experience and high repute, chosen for the position by the company's committee.

The buyers at the sale, like the consignors to it, may be characterized as national, consisting of breeders in attendance at the meeting of the great organization of Holstein breeders which has a membership of over 9,000—the largest dairy-breed organization in the world. The results of this congregation of favorable conditions were as follows: A total of 140 animals sold for $155,090, an average price per head of $1107.78. The highest price for one animal was $20,000—for King Champion Rag Apple. King of the Pontiacs Segis 169124, a bull one year old, consigned by the Lawson Holding Co., Inc., La Grangeville, N. Y., sold for $6,000, bought by Flanders Stock Farm, Orchard Lake, Mich. Mr. Cabana's consignment of 11 head brought an average price of $2,900 and the 5 head consigned by the Lawsons averaged $2,530 each. High prices were also paid for the stock consigned by John Arfmann, Middletown, N. Y. (ave. 15 head, $1,436.66); The Munroe Co., Spokane, Wash. (ave. 12 head, $1,220); Bernhard Meyer, Finderne, N. J. (ave. 11 head, $1,215.453, and The F. F. Field Holstein Co., Brockton, Mass. (ave. 4 head, $1,198.75).

The object of this sale was to see what could be done selling Holsteins at auction under best possible conditions, including cattle of highest merit, best class of buyers and methods above reproach.. The result was the highest average price ever made in a Holstein-Friesian sale. The former record public sale average was $855, secured at the famous Dollar Estate dispersion sale where the bull, Rag Apple Korndyke 8th, was purchased for $25,000 by Oliver Cabana, Jr., consignor of the highest priced animal to the Detroit sale. This bull is the sire of King Champion Rag Apple 179305, that was consigned to the Detroit sale by Oliver Cabana, Jr., Elma Center, N. Y., and purchased for $20,000 (the top price) by A. W. Green, Hiddlefield, Ohio. Born Nov. 5, 1915. Sire, Rag Apple Korndyke 8th 73416, the $25,000 bull, grandson of Pontiac Korndyke through both sire and dam (Pontiac Lady Korndyke, 38.03). Dam, Lady Pontiac Johanna 191984, world's record, senior three-year-old, 658.3 lbs. milk, 41.811 lbs. butter, 5.08% fat.

KING CHAMPION RAG APPLE
Sold When Seven Months Old for $20,000.

Cattle Conditions in the Middle West.

Generally speaking the region of the Middle West is full of cattle, and there is a great scarcity on both coasts, on the Northern border and throughout the Gulf and Rio Grande countries. This applies chiefly, of course, to the cattle of commerce.

The two-year siege of foot and mouth fighting was a not unimportant factor in bringing about this condition. When that siege set in, Ohio, Indiana and Illinois were pretty well stocked. Aside from the slaughter and burial of considerable numbers in overcoming the plague, it was a case, as soon as outlets were established, of everything possible moving to market and little or nothing back into thousands of pastures.

For four years at least there has been a very strong tendency among ranchmen, corn belt farmers and even little farmers out where vast herds used to range, to save and buy heifers and cows.

The old haphazard wasteful way of letting cattle rustle their own feed or die has gone, never to return. In the North and West alfalfa growing has put an end to that. No ranchman can now afford to take a chance of going through the winter without an insurance on the farm of well-placed haystacks.

And in the Southwest kaffir corn and cottonseed meal and hulls have not only decreased the loss of cattle, but have actually added a heavy percentage to the annual calf crop. The little cattle farmer, for instance, in the Panhandle and in Oklahoma, who gives his cows through the winter a ration of cottonseed cake not only has about a 90 per cent calf crop against the open rangeman's 60 per cent increase, but he is able to get $2.50@$5.00 per head more for those calves at the same ages than his less provident big neighbor.

"Saving the seed stock" is a slogan that has met with popular approval for some time. Bare Illinois and Indiana pastures are no criterion of what the country as a whole is doing. Three years ago Mr. J. B. Kendrick, of Wyoming, told the writer that he was not culling his she-herd near so closely each fall. A large percentage of cows that formerly were sent to the shambles were now being held back for at least one or two more calf crops. What he did, he said, he thought others were doing and would do.

It is the opinion of some good authorities that taking the country over, there are more cattle of one kind or another than for ten years past, but there really hasn't been a full supply in a much longer period than that.

Much depends on the outcome of the corn crop as to how commercial cattle prices will be this fall.

Much of the eastern part of the acreage of maize production was flooded out and will make a poor crop, but the farmers' compensation there comes in the form of a prodigious crop of hay and wonderful pastures.

Should the corn crop be poor and the late pastures burn badly, an abundant supply of ordinary market cattle and lower prices would be likely to occur. But with a good corn crop and lots of forage, the feeding fraternity will compete so sharply with the packers for light and medium weight, partly finished cattle, that they will have a poor chance to push down prices.

On the whole, the grower and fitter of commercial cattle is doing very well and he will do better when there is a larger infusion of good Shorthorn blood.—Chicago Live Stock World.

$5000 Dairy Barn Covers Half Acre.

A dairy barn which covers half an acre of ground and which is one of the numerous indications of the growing importance of the Chico district as a dairying center, is nearing completion on the A. S. Quadrus ranch at Nord. Two years ago Quadrus purchased 500 acres of the Glanella ranch adjoining Nord.

The barn which he now has under construction is 100x160 feet in dimensions, one of the largest barns in northern California, if not in the State. It has stalls for 120 dairy cows, the stalls being floored with concrete. The barn will hold 400 tons of hay.

When completed it will represent an expenditure of $5,000.

Representative McDermott, of Illinois, has introduced a bill in Congress designed to turn over all the stud and herd books of the country to the Secretary of Agriculture for compilation and publication. These are now in the custody of associations and societies made up of breeders, and almost without exception they are doing a great work for the live stock interests of the United States. To take away the stud and herd books would virtually kill nearly every one of these societies, breeders say. Also it would take away the revenue which now enables these societies to offer thousands of dollars each year in prizes for animals of the various breeds at fairs and shows throughout the country.

◈◈◈

There has been an unusual activity in horse sales at the Durland Riding Academy in New York for this time of the year. A few days ago 24 yearling thoroughbreds, consigned by the Ellerslie Farm, were sold for an average of $1,814. This is regarded as one of the best sales held in that city in a long time. The top price was paid by James Butler for a chestnut colt by Celt out of Network, which was struck off to him for $4,300. Mr. Butler also purchased a bay filly by Celt for $2,000. A bay colt by Celt-Belle Fleur was bought by the Elkwood Stable for $3,400. G. A. Cochran paid $3,000 for a bay colt by Marathen-Fads and Fancies. The same purchaser also paid $4,000 for the bay filly Imp by Radium

BREEDING HORSES TO COLOR.

[W. S. Anderson, Ky. Experiment Station.]

The ambition of the breeder is to produce animals of a certain character at will. Out of all the good herds he gets a few which will come up to his ideal of perfection. The object of his work is to make all his young stuff uniform and of high grade. The breeders of Hereford cattle can foretell the color and marking of all their animals, as can the breeders of Aberdeen-Angus. These breeds of cattle breed uniform to color because all other color tendencies have been bred out or eliminated.

The behavior of coat colors in horses is instructive. There is not a blending, but a segregation of colors. So complete is the segregation that it is possible to breed horses of any desired color. This has not been done on any large scale except with the Suffolk. There are over 12,000 Suffolks registered and all are chestnuts. There can be no such a thing as a gray, bay, or black Suffolk. This is so because the foundation stock from which the Suffolk sprang in 1768 was chestnut. The horse of chestnut coat color has lost the physical material that can produce gray, bay and black. Chestnut horses breed true for chestnut because they carry no property for any other coat color. To establish a family of chestnut horses in a breed is easy; all that is required is to make chestnut matings.

There is a belief among some horse breeders that a chestnut horse whose ancestry for several generations has been chestnut is more prepotent than one whose parents are of other colors. Often in mating gray, bay and black horses indiscriminately the produce is chestnut. Horses of such origin are just as strong in producinfi chestnut color as horses of pure chestnut ancestry. It seems that so long as there is present in the make-up of a horse the physical basis for other colors chestnut cannot appear. It is held in check; it is not allowed to express itself. This is because it is a weaker color than dun, roan, gray, bay and black.

There should be no confusion when chestnut is designated the weaker color. This statement is true from the standpoint of heredity only. It does not mean that the horse is weaker or inferior. The strongest and best horses may have a chestnut color. To breed chestnut horses all that is required is to have the sire and dam chestnut. There is no necessity of inquiring about the ancestry of the parents. When horses possess chestnut color they will breed true for it.

It is somewhat more difficult to establish a family of black horses. The starting point is to select black individuals. Some of these will be pure for black color and some will have suppressed a basis for chestnut color. There is no way to find out which ones may carry the latent element of chestnut except by breeding. Those which throw chestnuts are not pure for black and should be cast off.

Brown is genetically a bay, and can for breeding purposes be classed with it. Bay is stronger than black and chestnut. It breeds true except for the two weaker colors. A bay horse can carry the physical elements for bay, black and chestnut. I have a tabulation of 3,712 bay matings. The result of these matings are: bay foals, 3,131, black foals 107, chestnut foals 474. That is, bay coat color will breed true in 84 per cent of the foals produced. The breeding test will reveal the individuals which carry bay only. Selecting these will soon give the breeder a pure family of bays. The test for a pure bay stallion is easier to make than for the mare. A stallion mated to black and chestnut mares that produce nothing but bay foals can be counted as pure for bay. The Cleveland Bay is the only breed of horses whose color must be bay.

Gray is stronger than bay. To secure a family of gray horses it will be necessary to eliminate those individuals of gray color that carry latent the elements for any or all the three weaker colors. A gray stallion used on solid colored mares which produce all grays can be considered pure for gray.

It is not desirable that horses shall be bred true to color. The color does not necessarily carry with it either good or bad qualities. It is transmitted independently of size, strength, speed ,endurance, style and beauty. There is a possibility that in some individuals it may be linked in transmission with other qualities. However, the link has not as yet been proved. A worthless horse may have the best of color, while the best horse is liable to have the ugliest shade.

The law of color inheritance is valuable in showing the method by which necessary traits can be secured and bred true in domestic animals. The breeder seeks certainty in his operations. Certainty in breeding can be accomplished only when pure characters are being mated in the breeding stock. Breeding stock is likely to have many, many traits which the operator will want pure in addition to coat color.—Chicago Breeders' Gazette.

California taxes automobiles higher than any other state. In the number of registrations New York State led in 1915 with 255,242; Illinois was second with 180,832; California third with 163,797; and Pennsylvania fourth with 160,137. In gross revenues received from this source, however, California led with $2,027,432; New York was second with $1,991,181; Pennsylvania third with $1,665,276; while Iowa, with 145,000 cars registered, came fourth in point of revenue, with $1,533,054.

Gombault's Caustic Balsam

The Worlds Greatest and Surest Veterinary Remedy

HAS IMITATORS BUT NO COMPETITORS!

SAFE, SPEEDY AND POSITIVE.

Supersedes All Cautery or Firing. Invaluable as a CURE for

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

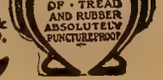
ADOLFO CAMARILLO, President.
L. P. HATHAWAY, Secretary, Ventura, Cal.

For Greatest Satisfaction Use
DOUBLE SERVICE Automobile Tires
Guaranteed 7,000 Miles Service
Absolutely Punctureproof



Double Service Tires are made double the thickness of the best standard make tires.
This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof*.
These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.
They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.
Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer**

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.85	3.10	35x4½ in.	21.20	6.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.
Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.
Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

GROUNDS OF ST. LOUIS TRAPSHOOTERS' ASSOCIATION

PACK YOUR GRIP AND TAKE A TRIP TO THE SEVENTEENTH
GRAND AMERICAN
Trapshooting Tournament
on the Grounds of the
St. Louis Trapshooters' Association
August 21-22-23-24-25, 1916

GO TO this assembly of America's best shooters. Plan to be in St. Louis to see this classic event. Bring your gun with you,—enter in a squad and get the thrills known only to the Grand American entrants.

Here's the Program,—Every Event A Hummer!

MONDAY, August 21,—Preliminary Day—St. Louis Introductory, a "warming-up" affair to start the "big show."

TUESDAY, August 22,—The Mound City Overture—100 Single Targets. The National Amateur Championship at Double Targets,—50 Double Targets. The National Amateur Championship at Single Targets,—100 Targets. Open only to the winners (or the runners-up) of The Interstate Association's State Amateur Championship Events.

WEDNESDAY, August 23,—The Preliminary Handicap,—100 Single Targets.

THURSDAY, August 24,—The Grand American Handicap,—100 Single Targets.

FRIDAY, August 25,—The Consolation Handicap,—100 Single Targets.

Special Events for Women

and Exhibition Matches between prominent Professional Shooters are Features of this Extraordinary Shooting Carnival.

The "JOKER TRAP" will introduce several novel target flights which will challenge the skill of trapshooters and furnish amusement for spectators.

PACK YOUR GRIP AND TAKE THE TRIP TO THE GRAND AMERICAN

For program giving full details of each event, trophies awarded, hotel service, accommodation for spectators and other important information about this spectacular trapshooting event, write to Elmer E. Shaner, Manager, 219 Coltart Ave., Pittsburgh, Penna., or to

THE PETERS CARTRIDGE CO., PACIFIC COAST BRANCH . . . **585-587 Howard Street, SAN FRANCISCO, CAL.**

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies. Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

THE HARNESS RACES AT SANTA ROSA which are being enjoyed by large crowds, and the interest that is being manifested in the limited harness racing circuit in California this year, are strong evidence that the sport only needs a little more encouragement to place it in as prosperous condition as it ever enjoyed in this State. The fields have been plenty large enough at Santa Rosa and the racing has been clean and good. Eight or ten of California's well known trainers are now on the Grand or Great Western circuits or in the northwest with strings of horses, that would all be racing at home were there a regularly organized circuit of meetings here. There is not now and there has not been for years any unity of action among the associations that give harness racing in California and there does not seem to be any immediate prospect of such a thing being brought about. A half dozen California trainers are racing in the Pacific northwest because a circuit of ten weeks' racing is assured them, and the same can be given as the reason why so many California stables went east this year. Whenever the California associations will get together, agree on dates, announce their purses and classes, and make these announcements early and as an organized circuit, there will be enough horses trained to fill every purse offered and place harness racing where it should be, the leading sport of the State and the best drawing card that the State and county fairs can possibly provide. Intelligent and energetic organization is all the breeding and racing of trotters and pacers needs in California.

ANOTHER SEVEN RACE PROGRAM AT OAKLAND.

The seven-race program of trotting and pacing events which the Oakland Stadium Riding and Driving Club held at the Eighteenth and Peralta streets half mile track on Sunday, July 30th, was so successful in every particular that when this enterprising organization called for entries for another matinee to be held tomorrow, Sunday, afternoon, the response was as liberal, and another good program of seven races has been arranged.

The Oakland Stadium Riding and Driving Club, backed by a large number of citizens who enjoy outdoor sports, has been working hard for three years to induce the City Council and Board of Park Commissioners to build a stadium on land owned by the city of Oakland south of the $1,000,000 city auditorium. It is an excellent location for such a playground and there could be cinder paths, tennis grounds, a football field, a polo field and a half mile race track constructed there at a very moderate cost which would provide a playground for thousands and be the most popular amusement place in the bay region. The climate of Oakland is so much more suitable to outdoor sports than the climate of San Francisco that thousands would be drawn to a stadium in Oakland where hundreds visit the stadium in Golden Gate Park.

During the last six weeks the Oakland club has held three harness race matinees on the temporary track at Eighteenth and Peralta streets and all have been highly successful. No less than thirty-two horses have been named for the seven events scheduled for tomorrow, and among them are the fastest roadsters owned in Oakland. Additional seating capacity has been provided by the club and a general invitation is extended to the public to be present. The entries are as follows:

First Race—W. M. Ray's Andy O., J. Pitts' Babe, Fred Wuescher's Babe W., A. Stoll's Just Mac.

Second Race—H. Olsen's Tom Wilkes, J. Williams' Harold G., M. Medau's Molly, J. Lanzer's King, C. Gabrielsen's Starlight.

Third Race—Al. Scott's Little Dick, A. Edstrom's Hallie's Star, G. Schreiber's Allegro, J. V. Galindo's Francisco.

Fourth Race—P. W. Bellingall's Ailsa Page, Geo. Meader's Rhoda, Chas. Abrott's Teddy, J. V. Galindo's Dinty Murphy, Al Hank's Bell Sawyer.

Fifth Race—R. Seale's Burbank, A. L. Hind's Grand W., Mrs. Carlisle's Cleo. Verne, A. Reisman's Berkeley Girl.

Sixth Race—A. Bock's Clipper Jr., T. LeBallister's Lena Lee, H. Buckley's Teddy B., H. P. Barrison's Prince, W. Rutherford's Sleepy Dick, E. Johnson's General Villa.

Seventh Race—A. Newbaumer's Ida May, W. D. Willis' Willis Baldwin, W. G. Burgelric's Frankie Burns, H. E. Andiffred's Henri A.

Major T. H. Barnard, of Chico, died at San Mateo August 3rd as the result of an accident by which both his feet were crushed under the wheels of a railroad train and had to be removed by a surgeon. Major Barnard was born in Illinois in 1847. At the age of 16 years he enlisted in the Union army under General Thomas and at the close of the civil war engaged in the lumber business in Wisconsin and Michigan. He went to Chico in 1872 and for 44 years has been identified with the business, political and fraternal life of that city. He was well known as a livery stable owner, and was a director of the Butte County Agricultural Association which in former years promoted many successful fairs. He married Miss Annie McIntosh, daughter of L. H. McIntosh, a pioneer farmer and trotting horse breeder of Butte county. A strange coincidence is that the Barnard Livery Stable at Chico, with its contents, was destroyed by fire the same day that Major Barnard died, causing a loss of $20,000.

◈◈◈

The sweepstakes race for three-year-old trotters at Detroit was another triumph for the rising young sire General Watts 2:06¼. Of the five colts and fillies that started, three were his offspring, and among them were the winners of first and third money. Harrod's Creek, the colt that outlasted and defeated the Cleveland winner, Expressive Lou 2:08¼, trotting the third heat in 2:10, now looks like the best three-year-old in sight, if the report is true that he moved the last half of the second heat in 1:01¾. This colt was bred and is owned by Henry A. Bell, of Harrod's Creek, Ky. He is eligible to start in the $15,000 Kentucky Futurity.

◈◈◈

The American trotter is carrying his triumphs in England into the show ring. At the recent Richmond Royal Horse Show, which is now the leading exhibition of its kind, six of the seven competitors in the pace and action class were trotting horses. Burton Queen Mary, the fastest hackney mare in Britain, was placed sixth in the field of seven. First prize fell to Bonnie View, a trotter bred by James Butler, of New York, and owned by Walter Winans.

◈◈◈

Dr. Beuchner, of Youngstown, Ohio, who owns the trotting mare Wilkes Brewer, recent winner of a fifth heat in 2:08¼ on a half mile track, refused an offer of $10,000 for the daughter of Nutwood Wilkes and when the party making the offer raised it to $11,000 stood pat on the refusal.

GRAND CIRCUIT AT PITTSBURG.

The Furniture City association has certainly played in hard luck this year. After its mile track at Grand Rapids was ruined for harness racing by permitting it to be conditioned for an automobile race, it transferred its races to the Pittsburg track, where for two days this week heavy rains prevented racing. Finally the races were started on Wednesday and six races were finished. Will Durfee was the only California driver in the money that day, Esperanza being the oat earner with second money in the 2:12 trot to her credit. The summaries:

2:08 class, trotting; purse $1000 (three heat plan):

Bonington, ch h by Bellini	(Geers)	4	1 1
Mirthful, b m by Star of Patchen	(Murphy)	1	2 2
Miss Perfection, b m by General Watts	(McMahon)	2	3 3

The Exposer and Hazel Laing also started.
Time—2:09¾, 2:09¼, 2:07.

The William Stakes, 2:07 class, pacing; purse $2000 (three heat plan):

Miss Harris M., b m by Peter the Great	(McDonald)	1	1 1
Billy Dale, b g by Dale Patchen	(Cox)	2	2 2
The Savoy, blk g by Charley Hayt	(Floyd)	3	3 3

Altawood was distanced.
Time—2:06, 2:04¾, 2:06.

The Matron stake, pacing, foals of 1913; value $1070 (two in three):

Rose Magee, b f by The Abbe	(Murphy)	1
*Peter Look, b c	(Traynor)	dis.
Miss Jeannie Castle, br f	(Nichols)	dis.

*Peter Look fell. Time—2:22.

The Northrup, two-year-old trotters, $500 added (two-heat plan):

Harvest Gale, br f by The Harvester	(McDonald)	1	1
Kelley de Forest, b c by The de Forest	(Chandler)	2	2

Time—2:18¾, 2:15¼.

2:12 trot, The Grotto; purse $1200 (three heats):

Donna Clay, b m by Don	(Valentine)	1	1	1
Esperanza, b m	(Durfee)	2	2	4
Worthy Prince, b h	(Cox)	3	3	2
Vanko, b g	(Murphy)	4	4	3

Brescia, b m (B. Fleming), San Felipe (Daniels) and George N. Patterson, blk h (Rutherford) also started.
Time—2:06½, 2:06¼, 2:07¾.

2:07 pace, The Rotary Club; purse $1200 (three heats):

Altawood, gr m by Allanwood	(Murphy)	8	1	2
Bingen Pointer, b h by King Bingen	(Snow)	1	4	3
Hal Leaf, br h by Hal Dillard	(Gray)	5	5	1
Lord Seymour, br h	(Wall)	9	2	5

Kate McKinney, gr m (W. Mallow), Polly Ann, b m (Clark), Bondalin, br h (Daniels), Dicto, b g (DeRyder), Hazel Armstrong (Gosnell) and Pat Carmody, br h (Walker) also started.
Time—2:06¼, 2:06¾, 2:07¼.

Two Great Trotting Mares.

Mabel Trask 2:03¾, the fastest trotter and the largest money winner of the year, is a five-year-old daughter of Peter the Great and was bred by W. C. Brown, who was then president of the N. Y. Central Railroad. She earned a record of 2:29¼ against time as a two-year-old at a county fair out at Indianola, Iowa, where Mr. Brown now keeps his trotters, and at three years old she made a long campaign, winning only one race, however, and with it a record of 2:14¾. Last year she started only once, in the $10,000 race at Columbus, where she forced Peter Scott out in 2:07 and 2:08¾. Walter Cox, who now trains her, was said to have timed her a mile right around 2:05 in her work last fall. He has entered her in all the big "stakes" to which she was eligible, and if she proves to be the best in her class she is in line to win a very large amount of money before the season ends at Atlanta. Her dam, Miss Nutonia, was by Nutwood 2:18¾, out of Iona 2:17½ by Alcyone 2:27, and she out of the famous Jessie Pepper, by Mambrino Chief. In the first heat of her race at Cleveland Mabel Trask was beaten only by a neck by St. Frisco in 2:04¼.

Busy Lass, another daughter of Peter the Great in the stable of Cox, gained a record of 2:06¼ when she outlasted Grand Chimes and won the last heat of the Tavern "Steak" for 2:14 trotters. It was the first race of her career, and one of the fastest performances ever made by a trotter under similar circumstances. Cox has entered her in the 2:14 class at Poughkeepsie, and it looks as if she had a mortgage on first money in view of her great race at Cleveland. She was bred by George M. Stevens, of Lancaster, N. H., who was once a prominent figure in the councils of the National Trotting Association, and who bred the fast black trotter Lewis Forest 2:06¼, that now holds the record to pole, 2:03¼, in company with Uhlan 1:58. Busy Lass was foaled in 1912, so that she is only four years old. Her dam was Miss Busy 2:23¾, by Clay 2:25, a son of Electioneer, granddam Baron's Lassie, by Baron Wilkes 2:18.

The brilliant performances of these two young mares give to their sire thirty-seven trotters in the 2:10 list, or five more than double the number ever credited to any other trotting sire.

Find Fossil of a Three-Toed Horse.

Reno (Nev.), Aug. 8.—A well preserved set of teeth and jawbones of an animal which Professor J. C. Jones of the State University declares were the property of a three-toed horse of the Upper Miocene age, have been unearthed in the Washoe valley, on the Pedroli ranch, by university engineers. Professor Jones says the horse probably roamed the wilds of Nevada some 3,000,000 years ago.

He says the horses of that date were even smaller than the shetlands of the present day, and are classified as the eohippus. The specimens were found in a well which apparently penetrated a prehistoric lake bed. Teeth of mammoths, fossil leaves and other specimens of prehistoric ages have been found in wells on the Pedroli ranch. They are among the best in the fossil collection at the university, as they show clearly the age and classification to which they belong.

Harness Horses and Horsemen

DIXON PROGRAM.

MONDAY, AUGUST 16.

2:20 Trot—Purse $300.

Eloise Dell, C. F. Silva, Sacramento.
El Angelo, D. W. Wallis, Los Banos.
Doctor S., H. J. Stevens, Santa Ana.
Trigione, C. A. Short, Santa Maria.
Major's By Guy, I. L. Borden, San Francisco.
Ella M. R., G. J. Giannini, San Francisco.
Hanford Mac, Geo. Russell, Corcoran.
Brutus, S. Christenson, Pleasanton.
Dick W., F. W. Faucett, Santa Ana.

Relay Saddle Race.

THURSDAY, AUGUST 17.

2:10 Pace—Purse $300.

Teddy Bear, C. F. Silva, Sacramento.
Soumise, R. L. Friend, Porterville.
Silver Tips, C. A. Short, Santa Maria.
Maxine, Miss Maxine Montgomery, Davis.
Pointer's Daughter, Blosser & Finley, Santa Maria.
Della H., H. G. Smith, Pleasanton.
Directess Mac, A. Ottinger, San Francisco.
Hal Paxton, Fred Woodcock, Forest Grove, Ore.

2:15 Trot—Purse $300.

Columbia T., C. F. Silva, Sacramento.
Harold C., H. Cohen, San Francisco.
Bon Cres, J. J. Campbell, Pasadena.
Dr. S., H. J. Stevens, Santa Ana.
Dick W., F. W. Faucett, Santa Ana.

FRIDAY, AUGUST 18.

2:20 Pace—Purse $300.

Patti C., D. W. Wallis, Los Banos.
Lock Logan, J. E. Montgomery, Davis.
Irene D., J. N. Jones, Stockton.
Alta Barnato, I. L. Borden, San Francisco.
Bold Harry Aerolite, G. J. Giannini, San Francisco.
Harry Mac, Russell Gray, Hanford.
Mono Ansel, Blosser & Finley, Santa Maria.
Best Direct, J. Brollier, Fresno.

2:30 Trot—Purse $300.

Eloise Dell, C. F. Silva, Sacramento.
El Angelo, D. W. Wallis, Los Banos.
Dr. S., H. J. Stevens, Santa Ana.
Trigione, C. A. Short, Santa Maria.
Major's By Guy, I. L. Borden, San Francisco.
Ira Mac, Edw. Erlanger, Lemoore.
Miss San Francisco, Al Schwartz, Pleasanton.

SATURDAY, AUGUST 19.

2:13 Pace—Purse $300.

Julia M., D. W. Wallis, Los Banos.
A. B. C., Jas. Sutherland, Pleasanton.
Soumise, R. L. Friend, Porterville.
Breezy Marie, A. H. Meigs, Fresno.
Silver Tips, C. A. Short, Santa Maria.
Lock Logan, J. E. Montgomery, Davis.
Hanover Boy, J. N. Jones, Stockton.
Alta Barnato, I. L. Borden, San Francisco.
Bradmont, G. J. Giannini, San Francisco.
Directess Mac, A. Ottinger, San Francisco.
Ben Corbett, Jr., Blosser & Finley, Santa Maria.
Hal Paxton, Fred Woodcock, Forest Grove, Ore.

Free-For-All Pace—Purse $300.

Teddy Bear, C. F. Silva, Sacramento.
Vera Hal, H. Cohen, San Francisco.
Jim Logan, J. E. Montgomery, Davis.
Leata J., J. N. Jones, Stockton.

—o—

Californians on the Grand Circuit.

"Marque" of the Horse Review, writing from Detroit, says: "The trainers who came over from the Pacific coast, including Will Durfee, Lon Daniels, Will DeRyder, Homer Rutherford and Harry Bell, have all been handicapped by having their horses train off. The change of climate, together with the long period of excessive heat, has 'played hob' with most of the coast steeds. Of Will Durfee's trio of trotting mares, Virginia Barnette, Esperanza and The Lark, I like the last-named best. She is a very prepossessing individual, gaited to go very fast, and has a world of speed. Will says that she is naturally high-strung, and that the heat has intensified her nervousness. He hopes to have her right within a few weeks, and it would not surprise me if she trotted around 2:04.

"Daniels felt confident that his little four-year-old pacer, Bondalin (3) 2:06¾, would be hard to beat over here, and so it seemed at North Randall, where he made his debut, but the heat 'got him,' and he went a disappointing race here. I like this pacer very much, and expect him to do well later on. Spriggan 2:08¼, the winner of the $20,000 Panama Exposition trot last year, is worrying Will DeRyder. The horse shipped over in good shape, but quickly became nervous, losing flesh and strength. Harry Bell told me that his gelding, Grattan Boy 2:09¼, presents a strange case, for he looks good and eats good, but hasn't anything like the speed he showed when he left Pleasanton, Cal. I sincerely hope that the coast contingent will find things breaking better for them shortly. They came a long way, and deserve to be encouraged for their efforts and expense."

HANFORD PROGRAM.

A good list of entries has been received for the harness races to be held at the Kings County Fair at Hanford, October 2d to 7th inclusive. Racing will begin on Wednesday, the 5th, and continue for four days. The entries in the six events that have been declared filled are as follows:

WEDNESDAY, OCTOBER 4.

2:24 Trot—$400.

Dr. S., b g—H. J. Stevens, Santa Ana.
Dick W., b g—J. W. Faucett, Santa Ana.
Modesto Maid, s m—J. N. Jones, Stockton.
Trigione, b g—J. E. Short, Santa Rosa.
El Angelo, b s—D. W. Wallis, Los Banos.
Jake Logan, br g—H. G. Angevine, San Jose.
Camealia, b m—M. D. Cole, Fresno.
Miss San Francisco, br m—Al Schwartz, San Francisco.
Neal Hall, b g—A. W. Reynolds, Fresno.
Ira Mac, b g—Edward Erlanger, Lemoore.
Martina Dillon, s m—G. A. Libby, Selma.
Eloise Dell, b m—C. F. Silva, Sacramento.

2:13 Pace—$400.

Verna McKinney, br f—J. W. Marshall, Dixon.
Soumise, br m—R. L. Friend, Porterville.
Breezy Marie, b m—A. H. Meigs, Fresno.
Julia M., b f—D. W. Wallis, Los Banos.
Hal J., br g—O. M. Katz, Santa Rosa.
Ben Corbett, Jr.—b g—Blosser & Finley, Santa Marie.
Nifty, ch g—B. F. Townsend, Fresno.
J. C. L., s g—B. Ribero, Hanford.
Zomar, ch g—Donlan Bros., Oxnard.
Silver Tips, b g—J. E. Short, Santa Rosa.

THURSDAY, OCTOBER 5.

2:10 Pace—$400.

Pointer's Daughter, b m—Blosser & Finley, Santa Maria.
McVerde, br g—A. J. Donnelly, Ventura.
A. B. C., blk g—Jas. Sutherland, Pleasanton.
Teddy Bear—b h—C. F. Silva, Sacramento.

2:25 Pace—$400.

Best Direct, s s—G. A. Garner, Terra Belle.
Irene D., b m—J. N. Jones, Stockton.
Villa, blk g—D. W. Wallis, Los Banos.
Harry Mac, blk s—Russell Gray, Hanford.
J. C. L., s g—B. Ribero, Hanford.
Babe, b m—J. Cuccato, Oxnard.
Silver Tips, b g—J. E. Short, Santa Rosa.

FRIDAY, OCTOBER 6.

The 2:16 trot and the 2:20 pace which were advertised for this day failed to fill, and the association will put on two specials in their stead.

SATURDAY, OCTOBER 7.

2:19 Trot—$400.

Trigione, b g—J. E. Short, Santa Rosa.
Dr. S., b g—H. J. Stevens, Santa Ana.
Dick W., b g—F. W. Faucett, Santa Ana.
Modesto Maid, s m—J. N. Jones, Stockton.
El Angelo, b s—D. W. Wallis, Los Banos.
Camealia, b m—M. D. Cole, Fresno.
Miss San Francisco, br m—Al Schwartz, San Francisco.
Hanford Mac, b g—Geo. Russell, Corcoran.
Eloise Dell, b m—C. F. Silva, Sacramento.

Free-For-All—$400.

Vera Hal, b m—Harold Cohen, San Francisco.
Leata J., b m—J. N. Jones, Stockton.
Breezy Marie, b m—A. H. Meigs, Fresno.
Teddy Bear, b h—C. F. Silva, Sacramento.

—o—

KERN COUNTY FAIR RACE PROGRAM.

Wednesday, October 25.

2:20 Pace, $400—Caroline Coster, Breezy Marie, Julia M., Directess Mac, J. C. L., Irene D., Silver Tips, Mono Ansel, Harry Mac, Jim Donnelly, Lock Logan.

2:15 Trot, $400—Harold C., Doctor S., Trigione, Miss San Francisco, Sweet Bow, Bert Kelly, Bon Cres, Columbia T., Eloise Dell, Dick W.

Thursday, October 26.

Free-For-All Pace, $400—A. B. C., Leata J., Vera Hal, Pointer's Daughter, Walter C., Teddy Bear, Jim Logan.

2:12 Trot, $400—Doctor S., Sweet Bow, Hanford Mac, Columbia T., Eloise Dell.

Friday, October 27.

2:13 Pace, $400—Caroline Coster, Breezy Marie, A. B. C., Verna McKinney, Patti C., Lottie Express, Nifty, Soumise, Ben Corbett Jr., Walter C., Lock Logan.

2:30 Trot, $400—Doctor S., El Angelo, Trigione, Miss San Francisco, Neal Hall, Ira Mac, Jack Logan, Golden State, Eloise Dell.

—o—

How many times have you told a trainer or fellow horseman, "I want $200 for that horse and if you find me a buyer I will give you ten per cent commission"? If the horse is sold you pay $20. The Breeder and Sportsman speaks about horses to thousands every week. For $3 you can tell a lot about your horse and run the chance of getting a cash buyer without having to pay any additional commission, thus saving $17. Better try it.

◈◈◈

At the Rockport, Ohio, half mile track August 1st, there were three races on the card and it took nineteen heats to decide them. The 2:14 pace went to six heats, the 2:18 pace to seven heats and the 2:14 trot required six heats.

RIVERSIDE HAS GOOD ENTRY LIST.

Secretary Sanders of Riverside sends us the following list of entries for the meeting to be held there October 10th to 14th. It will be noticed that nearly all the horses that have been entered at Santa Rosa, Dixon and Sacramento have also been entered in the Riverside races and a high class race meeting is assured:

2:30 Class Trotting—$300 Purse.

Eloise Dell, by Alconda Jay, C. F. Silva.
Golden State, by Stam B., Blackwell & Hendrickson.
Dr. S., by Carlokin, H. J. Stevens
El Angelo, by The Angelus, D. W. Wallis.
Goldy, by Gold Nut, S. L. Gowell.
Miss San Francisco, by San Francisco, Al Schwartz.
Trigione, by Skidoo Wilkes, C. A. Short.
Annie Conn, by On Conn, Axel Nelson.
Sterling Lou, by Kinney Lou, Hemet Stock Farm.
Don de Lopez, by Kinney de Lopez, Hemet Stock Farm.

2:18 Class Pacing—$1000 Purse.

Lock Logan, by Zolock, J. E. Montgomery.
Pansy Hal, by Hal McKinney, J. F. Backstrand.
Julia M., by El Angelo, D. W. Wallis.
Best Direct, by Best Policy, J. A. Garver.
Zomar, by Zolock, Donlon Bros.
Babe, by H. M. Stanley, Jas. Cucatto.
Verna McKinney, by Vernon McKinney, Jas. W. Marshall.
Walter C., by Corpus, Bert Reno.
Caroline Custer, by Ed Custer, O. E. Holland.
Silver Tips, by Morris A., C. A. Short.
Mono Ansel, by Monicrat, Blosser & Finley.
Irene D., by Charlie D., J. N. Jones.
Directess Mack, by Nearest McKinney, James Ryan.
Harry R., by Armond Lou, Hemet Stock Farm.
Oro Lou, by Kinney Lou, Hemet Stock Farm.

2:23 Class Pacing—$300 Purse.

Lock Logan, by Zolock, J. E. Montgomery.
Jim Donnelly, by Lijero, Blackwell & Hendrickson.
Patti W., by El Angelo, D. W. Wallis.
Babe, by H. M. Stanley, Jas. Cuccatto.
Santa Paula, by Silver Coin, Jas. Gill.
Al Hal, by Young Hal, O. E. Holland.
Caroline Custer, by Ed Custer, O. E. Holland.
Silver Tips, by Morris A., C. A. Short.

2:14 Class Trotting—$400 Purse.

Columbia T., by Bon Guy, C. F. Silva.
Eloise Dell, by Alconda Jay, C. F. Silva.
Dr. S., by Carlokin, H. J. Stevens.
Dick W., by Walter Barker, F. W. Faucett.
Harold C., by Bon Voyage, Harold Cohen.
Bon Cres, by Bon Voyage, J. J. Campbell.
Danube, by Direcho, T. N. Goldsmith.
Great Northern, by Wayland W., Fred Ward.
Allie Lou, by Kinney Lou, Hemet Stock Farm.

2:20 Class Trotting—$1000 Purse.

Eloise Dell, by Alconda Jay, C. F. Silva.
Golden State, by Stam B., Blackwell & Hendrickson.
Dr. S., by Carlokin, H. J. Stevens.
Dick W., by Walter Barker, F. W. Faucett.
Sweet Bow, by Bon Voyage, L. H. Todhunter.
Ben Nutwood, by Dick Nutwood, S. L. Gowell.
Miss San Francisco, by San Francisco, Al Schwartz.
Trigione, by Skidoo Wilkes, C. A. Short.
Sterling Lou, by Kinney Lou, Hemet Stock Farm.
Don de Lopez, by Kinney de Lopez, Hemet Stock Farm.

Free-For-All Pace—$500 Purse.

Teddy Bear, by Del Coronado, C. F. Silva.
Jim Logan, by Charles Derby, J. E. Montgomery.
Lock Logan, by Zolock, J. E. Montgomery.
May Davis, by Borado, Budd Davis.
Pansy Hal, by Hal McKinney, J. F. Backstrand.
Vera Hal, by Expressive Mac, Harold Cohen.
Little Bernice, by Del Coronado, J. C. Welsh.
Pointer's Daughter, by Star Pointer, Blosser & Finley.
Leata J., by Royal McKinney, J. N. Jones.

2:14 Class Pacing—$300 Purse.

Lock Logan, by Zolock, J. E. Montgomery.
May Davis, by Borado, Budd Davis.
Julia M., by El Angelo, D. W. Wallis.
Zomar, by Zolock, Donlon Bros.
McVerde, by Zolock, A. J. Donnelly.
A. B. C., by Young Monterey, Jas. Sutherland.
Walter C., by Corpus, Bert Reno.
Al Hal, by Young Hal, O. E. Holland.
Caroline Custer, by Ed Custer, O. E. Holland.
Silver Tips, by Morris A., C. A. Short.
Mono Ansel, by Monicrat, Blosser & Finley.
Ben Corbitt Jr., by Ben Corbett, Blosser & Finley.
Santa Paula, by Silver Coin, Jas. Gill.
Harry R., by Armond Lou, Hemet Stock Farm.
Oro Lou, by Kinney Lou, Hemet Stock Farm.

Free-For-All Trot—$500 Purse.

Dr. S., by Carlokin, H. J. Stevens.
Harold C., by Bon Voyage, Harold Cohen.
Ben Nutwood, by Dick Nutwood, S. L. Gowell.
Danube, by Direcho, T. N. Goldsmith.
Columbia T., by Bon Guy, C. F. Silva.
Eloise Dell, by Alconda Jay, C. F. Silva.
Bon Cres, by Bon Voyage, J. J. Campbell.
Great Northern, by Wayland W., Fred Ward.
Allie Lou, by Kinney Lou, Hemet Stock Farm.

—o—

Volume XXI of the American Trotting Register will soon be ready for distribution. It begins with the stallion number 59500.

LAST TWO DAYS AT KALAMAZOO.

On Thursday, August 3d, at the Grand Circuit meeting at Kalamazoo, two trotting and one pacing event made up the card. In the 2:15 trot Helen Worthy was the winner, after Will Durfee had won the first heat with Mr. Albright's Baby Doll by Tom Smith and put him in the 2:10 list in the good time of 2:08¼. Billy Dale, bay gelding by Dale Patchen in Cox's string won the pace in straight heats and fast time and Zombro Clay, a son of Zombro, won the 2:20 trot and gave his sire another 2:10 performer. Results:

2:16 trot, purse $1000, three in five:

Helen Worthy, b m by Barongale....(Murphy)	6	1	1	1
Baby Doll, b m by Tom Smith (Durfee, Hedrick)	1	5	3	2
Coastess Mabel, b m.....(Cox)	4	2	2	3

Royal Hall, blk h (Fleming), Aullsbrook, br h (C. Valentine), and Daisy Todd, b m (Chandler) also started.

Time—2:08¼, 2:09½, 2:10¼, 2:12.

Burdick Hotel purse, $2000, three in five:

Billy Dale, b g by Dale Patchen.....(Cox)	1	1	1	
Baymar, b h .....(McDonald)	2	2	5	
Baby Bertha, b m.....(Garrison)	3	3	2	

Spring Maid, ch m (Snow), and The Problem, blk h (Murphy) also started.

Time—2:03½, 2:05¼, 2:07¼.

2:20 trot, purse $1000, three in five:

Zombro Clay, br s by Zombro..(C. Valentine)	1	5	1	1
Sister Strong, b m by Strong Boy.....				
.....(D. Valentine)	5	1	2	2
Sandy, s g .....(..(Donahue)	3	2	5	3

Royal McKinney, blk m (Murphy), North Spur, b h (Cox), and Luke A., ch h (W. Fleming) also started.

Time—2:12½, 2:09¼, 2:09¼, 2:11¼.

Friday, August 4.

The meeting ended with three events, all finished in three heats. The feature event was the Michigan Railway Company's $2,000 purse, raced on the three heat system for trotters which had never won more than $2,000 and had a race record faster than 2:14¼. The winner of the race was the horse which the final summary showed had won the most money, and when the bookkeeping was completed it was found the honor had fallen to Lindsey, driven by Lon McDonald, with $600 to his credit.

Third money in the 2:08 pace went to Bondalin, driven by Lon Daniels. Results:

2:08 pace, purse $1000, three in five:

Goldie C., b m by Will Tranby.....(C. Valentine)	1	1	1	
Jean, b m.....(Murphy)	2	2	4	
Bondalin, b h .....(Daniels)	3	4	2	

Bingen Pointer, b g (Snow) and Baron Watts, b h (Atkins) also started.

Time—2:06½, 2:0¾, 2:07¼.

2:19 pace, purse $1000, three in five:

Miss Rejected, r c by Directwell...(C. Valentine)	1	1	1	
Hal Plex E., br s.....(Snow)	2	2	2	
Castaway, b g.....(Kane)	3	3	5	

Arkansello, b h (Edman), Young Todd, b g (Cox), and Medium Gazette, b s (Hedrick) also started.

Time—2:07¼, 2:13¼, 2:08¼.

Michigan Railway Company's purse for trotters that have never won $2,000 gross nor have a time or race record faster than 2:14¼—purse $2000, three-heat plan:

Lindsey, b h by Todd Mac.....(McDonald)	2	1	2	
Brisac, br h by Bingara.....(Murphy)	4	2	1	
Grand Chimes, b h by Kentucky Chimes (Edman)	1	4	4	

Lu Princeton, b h (Cox), and Regardless, b s (Hedrick) also started.

Time—2:08¼, 2:08¾, 2:10.

State Fair to Have Big Stock Show.

In every standard breed of livestock entries have come in from all parts of California and a number from Oregon and Washington, to the California State Fair. A herd of Aberdeen Angus cattle coming from Washington will be the first complete herd of this breed ever shown here. There will be two herds of Ayrshires on exhibition this year, both owned by California breeders, and the first full herds ever brought to the fair. A very large showing of Duroc Jersey swine is anticipated and Berkshires and Poland Chinas will be here from three states.

As an indication of the amount of work necessary in taking care of the stock entries, the system in use in this department provides for the checking and verification of every animal as to age, pedigree, etc. This is a necessary preliminary in preparing the state fair catalogue, which has a reputation for accuracy and completeness second to none in the United States.

About 4,000 premium lists have been sent out to date and over 1500 posters advertising the fair. The posters have been mailed to banks, hotels and restaurants in all parts of the state.

Charles W. Paine, secretary of the State Board of Agriculture, thinks that although much work remains to be done to get everything in readiness, new additions finished, barns painted and a multitude of lesser details disposed of before the opening day, no detail will be lacking on September 2nd.

"We don't expect to sleep much between now and the opening day," he said, "and there is much to be done yet, but of one thing I am sure—we will be ready."

Automobiles Killed 446 in California Last Year.

One thousand six hundred and forty-nine persons have been killed in automobile accidents in California during the past six years.

This is shown today by records in the State bureau of vital statistics. How many persons were injured is not known. No records of the injured were kept.

The automobile is responsible for almost as many fatalities in California as epidemic diseases.

Here is the toll of the killed: 1910, 94; 1911, 129; 1912, 194; 1913, 295; 1914, 306; and in 1915, 446.

Add to this 185 killed during the first five months of 1916 and the total is 1,649.

At the rate auto fatalities occurred during the first six months of 1916 the total for this year alone will be close to 500.

Says American Saddle Horses Best in Army.

General John B. Castleman, veteran Confederate cavalry officer and president of the American Saddle Horse Breeders' Association, has mailed to the several hundred members of that organization a letter urging them to raise more saddle bred horses to meet what he believes will be an unexampled demand for good horses at good prices when peace shall have been restored in Europe.

In this letter he takes up the cudgels in favor of the saddle bred horse as against the thoroughbred race horse for cavalry service and asserts that "no horses which have gone with the present punitive expedition into Mexico have stood hardships so well as the American Saddle breed.

"It will further interest you to be advised," he goes on to say, "that the misuse of our great horse of sport in this punitive campaign has shown again that the thoroughbred horse, matchless for sport, is not intended for hardship. He has almost invariably given way under the pressure of weight and service. These thoroughbred horses have been bought in Kentucky and Virginia and distributed usually from the remount depot of Front Royal. Many have gone in the Eleventh cavalry and almost all have failed. The thoroughbred is thus confirming the statement of General Basil W. Duke in respect to his failure as a cavalry horse more than fifty years ago, from his experience in the field of hard war service, when he was a better utility horse than he is today."

General Castleman questions the statement, attributed to Quartermaster General J. B. Aleshire two years ago, that this country could not supply 10,000 horses suitable for cavalry mounts. He says the quick supply of nearly 1,000,000 horses to the warring nations of Europe is a contradiction of this statement, which "must come from the visionary section of the Department of Agriculture known as the 'Bureau of Animal Industry,' a bureau that has acquired the sobriquet 'Bureau of Animal Injury.'"

Showing Horses at the Fairs.

Breeders frequently try to argue themselves into the belief that they do not need to show their horses and colts at the fairs. They seek to escape the trouble of fitting and training, the expense and risk of transportation and showing, and the chance of getting beaten in the ring. They hope that their reputation for having good horses will continue without having that fact constantly brought to public attention. Usually they change their minds after a year or two of absence from the fairs and enter the lists again. People forget about the good horses absent breeders showed in the past; attention is given almost wholly to the horses at present displayed. The persistent exhibitor gains prestige and new friends every year, and his annual reappearance with his horses keeps his old friends steadfast. There is nothing like eternally impressing upon people's minds the fact that one's horses are among the very best in the whole country. It brings business and adds to the prices which buyers readily pay for the stock.

Some breeders command twice as high prices as others. It is largely because of showing at fairs. Their work at the fairs gives them a higher class of stock than they would produce without it. That is probably the principal reason for the higher prices. A man who does not exhibit is prone to over-rate his own stock. He is satisfied with poorer individuals than those demanded by the man who is a constant exhibitor. The showman has his failings forcibly brought to mind and he also faces the necessity of seeking improvement in every possible way in order to keep up the high standard of excellence required to win in the showring. The breeder who begins to take things easy under the feeling that his business is fully established is almost certain to retrograde in character of stock produced and in volume of business coming his way. He is displaced in public attention by the new exhibitor. A glance over state fair entry lists for a term of years shows how they change from time to time. And the leading exhibitors are the leading sellers of breeding stock in nearly all cases—Breeder's Gazette.

Many Fine Exhibits at Solano County Fair.

Dixon (Solano Co.), Aug. 6.—According to the premium list of the Solano County Fair to be held at Dixon August 16, 17, 18 and 19, there are 124 classes of exhibits ,embracing the products for which ribbons, medals and cash prizes will be awarded.

Solano is famous for horses, cattle, sheep and hogs. The county has great orchards of all kinds of deciduous fruits and wide fields of wheat, barley, rice and other grains. In addition to these prizes are offered for poultry, wines, vegetables, school exhibits, women's work, photography and other displays.

A feature of the cattle exhibit will be the Shorthorn display by Misses Alexander and Kellogg of Suisun. These women are rapidly taking a place among the successful stockraisers of California. They believe there is a good future for Shorthorns in Solano county and have headed their herd with a $5,000 bull.

The committee on exhibits reports that in response to the request to the producers of Solano county to aid in making the first annual Solano county fair a success, many applications for space are being received in all lines of displays. They are confident the fair will prove Solano is one of the greatest counties in California for diversity of productions.

NOTES ON CAMPAIGNING IN MEXICO.

The Mounted Service section of the United States Cavalry Journal called for notes and suggestions from cavalrymen who have been south of the line and the following are among many that have been submitted:

"You are better off without your curb bits. Horses can water and graze with snaffle bits in the mouth and whatever advantage accrues from the better control of the horse afforded by the curb bit is more than counterbalanced by the inconvenience of having to remove the curb bit at every halt for water or grazing."

"In starting out try to have a full set of extra fitted horse shoes."

"We made lariats (doubled) answer the purpose of picket ropes but they were not satisfactory, and the ordinary picket pins were too short. The very lightest rope that will answer the purpose should be carried and pins should be at least fifty per cent longer than the regulation pin."

"The very best mount which I saw was a four-year-old Arab stallion. This sturdy animal was head and tail up and fat when most of the troop horses were skin and bones. It is important to have a horse that is a good feeder, one that starts to eat at every halt, also one that wastes no energy on the march."

"The French officer's saddle is preferred to any other. It should, however, be provided with two rear saddle bags—one on each side."

"Every officer should have two mounts where possible, the led horse should be saddled with a McClellan saddle and saddle bags, and should carry the officer's pack, leaving the mount which he is riding with practically a stripped saddle so far as concerns weight."

A Son of Ard Patrick Imported.

With the public spirited purpose of improving the horse stock of the United States, Richard Trimble, treasurer of the United States Steel Corporation, has just purchased in Ireland the thoroughbred race horse Huon II., son of the great Ard Patrick, that won the English Derby in 1902 and was sold to the German government for $105,000. Huon is one of the few sons, if he is not the only son, of Ard Patrick ever bought for importation to America. He is described as a horse of the typical Irish hunter stamp, large, long and low to the ground, with enormous bone and substance. Mr. Trimble has no use for the long-legged sprinters so common nowadays, and he would not buy until he had ascertained by cable that the royally bred stallion was of the right stamp.

Huon's career on and off the race course has been notable and interesting. He was bred in Ireland and was purchased there when young by the German government for $20,000. After going to Prussia it is said that he ran forty races, in only three of which he was unplaced. With characteristic enterprise the agents of the German army sent him back to Ireland a few years ago to be kept in the stud as a sire of horses suitable for the Kaiser's cavalry, the purpose being to let the breeders thus raise the colts, which could be bought up when old enough for export to Prussia for military use.

Just as this program of preparedness was being carried out the war was started and the British government forthwith seized the Irish race horse of German government ownership and, by due process of law, confiscated him and sold him. He was bought at auction by a Dublin dealer named Rogers, from whom Mr. Trimble has just purchased him.

Unsoundness in Stallions.

Reports received from 13 of the States having laws regulating the public service of stallions show the following percentages of unsoundness in stallions out of 2,640 reported cases:

	Per cent.		Per cent.
Side bone	35	Periodic ophthalmia	6
Laryngeal hemiplegia (roaring)	12	Cataract	4
Bone spavin	11	Spavin (not classified)	3
Defective or curby hocks	7	Bog spavin	6
		Ring bone	4
		Stringhalt	3

The remaining 9 per cent consisted of such defects as chorea, general unsoundness, faulty conformation, and scattering imperfections.

These figures do not represent individual stallions, but indicate the number of cases of unsoundness. For instance, a single stallion may be affected with two or more physical defects and others with but one. A report from all the States having stallion license laws could not be secured, as in several no record is kept, but the figures given may be accepted as reasonably offering an index to the most common physical defects among public-service stallions.

In some of these States certain diseases and unsoundness disqualify a stallion for service, while in others the stallion may stand, but the condition of soundness must be noted on the license certificate, a copy of which is required to be posted at the place where the stallion is being stood for service.

Prizes aggregating $10,000 have been offered this year for the horse shows to be held in connection with the Iowa State Fair at Des Moines, on August 23 to 31. This is only one of the many fairs that are developing this branch of their live stock exhibitions.

SANTA ROSA HOLDING FINE FAIR.

California Harness Racing Season Opens with Good Contests and Fast Time.

The Sonoma, Marin and Mendocino District Fair opened at Santa Rosa on Monday of this week with a very good attendance that has increased in numbers every day during the week. The exhibits of live stock and the pavilion show of fruits and other products of the district have attracted many visitors and are all worthy of the rich section of the State in which the fair is held. The fair was formally opened Monday evening by President John P. Overton, who made a few pertinent remarks and then introduced Mr. Clarence F. Lea, district attorney of Sonoma county, who made the opening address. He spoke of the district fair as being the clearing house of better methods, where the farmers could gather together and in the exhibits of fine livestock and products, see where they could improve in their methods and produce the finest and best results. He outlined some of the advances and encouragements that have taken place in the county, state and nation with the farmer. He complimented the men who had worked hard to make the fair a success and congratulated the men and women who were exhibitors. It was a splendid effort and the brilliant district attorney was warmly applauded.

There were calls for Edward H. Brown, secretary of the fair, and Mr. Brown took the stage and made a brief, enthusiastic address. He told of the importance of a district fair and urged everybody to support it and show by their frequent presence their appreciation of the fair and the importance of preserving such an excellent race track and fair grounds which the city is fortunate to possess.

Monday and Tuesday the amusement programs for the afternoon were provided by running races, and while there were not many horses on the grounds Handicapper G. B. Kelley made the distances and the weights such that there were good contests in nearly every race.

On Wednesday the regular annual race meeting of the Pacific Coast Trotting Horse Breeders' Association opened. There were three races on the card for the first day and all were decided on the three-heat plan which provides that every heat shall be a race. The three-year-old pacing division of the Pacific Breeders' Futurity, for a stake of $1300, the 2:09 trot, purse $500, and the 2:20 pace, purse $900, were the events for the opening day.

The judges were Messrs. John A. McKerron of San Francisco, Robt. S. Brown of Petaluma and A. L. Nichols of Chico.

Starter William Higginbottom at 2 o'clock announced that the first event of the afternoon would be an attempt on the part of Trainer James Thompson to drive Mr. L. Todhunter's five-year-old stallion Peter McKlyo a mile better than his record of 2:12¼, which was made when Peter McKlyo was a three-year-old. There were many exclamations of admiration when Mr. Thompson brought the horse on the track for his warming up scores, and many experienced and critical horsemen remarked that no finer specimen of the standard bred trotter had ever been seen in California. He is a big strong fellow, looked to be higher in flesh than a horse should be to make a supreme effort for a mile, but the beautiful regularity of his gait and his magnificent action immediately won the approbation of every one. His looks being so attractive the program was referred to for his breeding, which was given as by that wonderful sire Peter the Great 2:07¼, dam Klyo by Jay McGregor, and it was seen that the best blood of the breed was in his veins. After scoring a couple of times the stallion took the word and was off on a mile that was to lower the Santa Rosa track trotting record and also to be the fastest winning heat ever made by a trotter in California. He reached the half in 1:03½ and came the last half in 1:02½ with the last quarter in 31 seconds. He crossed the finishing mark with the same beautiful and strong stride with which he trotted the first quarter, with his head up and looking as if another fast mile was within his powers of endurance. As he returned to the stand there were cheers and loud handclapping while owner and driver were given an ovation. Trainer Thompson was naturally greatly pleased, as he had gone to Kentucky four years before with $1000 of Mr. Todhunter's money with which to purchase a colt by Peter the Great ,and had picked this fellow when he was only a weanling and not even halter broken, from a band of forty or more by the greatest of great sires. Thompson had reared the colt, given him all his training, marked him in 2:12¼ as a three-year-old, then when as a four-year-old a lameness developed, in one of the colt's front legs, had nursed him along until he had concluded that he could beat 2:10 with him this year. Before this mile in 2:06 Peter McKlyo had not been a mile better than 2:11 and only once at that rate of speed, but had been given a good many around 2:14 and 2:15, with quarters brushed at 31 and 32 seconds. In his mile in 2:11 he came the last half in 1:01½, so Thompson was perfectly confident that he could beat 2:10 when asked. And credit must also be given his caretaker, George Knear, who never allowed McKlyo to want for anything that was necessary to his comfort and condition. George has a "dope" that he used on Peter's legs and the lameness disappeared entirely during the training. The 2:06 of Peter McKlyo replaces the Santa Rosa track's record of 2:07¼ made by Mr. A. B. Spreckels' mare Dione in 1900, sixteen years ago. Alix 2:03¾ made an attempt to lower her own record at Los Angeles in 1894, but while she trotted the mile in 2:05½ it was a losing performance. We believe Peter McKlyo's mile in 2:06 is the fastest record ever made in California by a trotter.

Five good looking and classy three-year-old pacers came onto the track when Starter William Higginbottom called the horses for the first race. They were the Manrico colt Rico, that ended last season with a two-year-old record of 2:12¼, driven by the veteran C. A. Durfee, the Vernon McKinney filly Verna McKinney that won the two-year-old pacing futurity last year and took a record of 2:13, driven by Fred Chadbourne, Surety, a good looking bay colt by The Bondsman, owned and driven by Al McDonald, D. W. Wallis' bay filly Julia M. by El Angelo, driven by D. A. Allen, and Fred Woodcock's brown colt Capt. Mack by The Bondsman that had come all the way from Oregon to get a part of the money.

In the draw for positions Julia M. got the pole, Verna McKinney was next, Rico in third position, Capt. Mack fourth and Surety on the outside. In the first four scores Rico would leave his feet and make jumping plunges, but on the fifth time down was on his feet and pacing fast though a length or so back, and the word was given. At the quarter Julia M. led by a half length, Capt. Mack second and Surety third, and they were about the same at the half. Capt. Mack seemed to have the race well in hand as they entered the stretch, but here Durfee began a drive and the son of Manrico came very fast, gaining at every stride. At the distance he was second but he could not head the Captain, who won the heat in 2:10¼. Surety was third, Julia M. fourth and Verna McKinney last. They were all inside the distance, although by consent distance had been waived in this race.

In the second heat Capt. Mack led by a half length at the first quarter, with Surety next and Rico in third place, and until the three-quarters were reached they were in about the same position. Again Durfee started his drive and it was a pretty contest between Capt. Mack and the Durfee colt. Rico won by a neck, with the Captain second and Verna McKinney, who had come very fast in the stretch, third, Surety fourth and Julia M. last. The time was 2:10¾.

It now looked like Rico's race, and the final summary showed that he won the most money, but when the word was given for the third heat Chadbourne took Verna McKinney to the front and was in the lead at the first quarter with Rico last. Verna was never headed, but Rico showed his fighting and staying qualities by gradually working into second position by the time the distance was reached and finishing second to Verna who won the last heat in 2:09¼, the fastest of the race, the fastest mile paced by a three-year-old pacer this year and becoming the first 2:10 performer for her sire, Vernon McKinney 2:01½. The race being on the three-heat plan, every heat a race, it ended here. It was a good contest between some high class youngsters.

The 2:09 trot was a cheap race. The program named four starters, but Albaloma was so lame the judges permitted him to be scratched, leaving only Bon Cres, Pavana and Harold C. to start. Pavana and Harold C. were both entirely off and made repeated breaks in every heat. Every heat was a procession with Bon Cres in the lead, only having to trot fast enough to keep ahead of two horses that have trotted miles around 2:10 but that could not trot within several seconds of that time Wednesday, so Chadbourne had about the easiest win of his career, Pavana getting second money and Harold C. third.

The 2:20 pace brought out a field of ten and in every one of the three heats (no horse being distanced) Starter Higginbottom got them away in good order and all on their strides. All during the day Mr. Higginbottom's starting was spoken of in the highest terms of praise by spectators and drivers alike. This race was like all the others, a three-heat affair with every heat a race. Bold Harry Aerolite, owned by President Giannini of the San Francisco-California Driving Club, won every heat and won them handily. In the first heat he was not up in front at the start, but he worked his way through under the skillful pilotage of Machado and won, while in the next two heats he went to the front as soon as the word was given and was not headed thereafter. The time of the three heats, 2:07¼, 2:11 and 2:08¾, was good for the class. Dixon Boy, that was picked by several to win this race, was not himself and left his feet in scoring as well as in the heats. He finished 3-2-2 however and later in the season should be able to defeat this field of horses. The old stadium standby W. J. K., owned by W. J. Kenney, covered himself with glory in this race and was second in the first and fastest heat of the race, while many thought that second in the last heat should have been his just reward. Directess Mac paced a good race for a first start and was fourth in the final summary. She will improve and be a better mare later on.

The running events, two of which were decided between the heats of the harness races, are described sufficiently in the summary.

HARNESS RACING SUMMARIES.

Wednesday, Aug. 9.—Pacific Breeders' Futurity No. 13, three-year-old pacers, purse $1800 ($1500 to race, $200 to nominator of dam on whose original entry winner was named, $100 to owner of sire of winner when mare was bred):

Rico, ch c by Manrico (3) 2:07¼—Pavlowa B.—by Petigru 2:10½ ..... (Durfee)	2	1	2
Captain Mack, br c by The Bondsman—Bessie L. by Montana Director ..... (Woodcock)	1	2	4
Verna McKinney, b f by Vernon McKinney 2:01½—Ramona by Demonio 2:11¼ ..... (Chadbourne)	5	3	1
Surety, b c by The Bondsman—Eva H. by Washington McKinney 2:17½ ..... (McDonald)	3	4	5
Julia M., b f by El Angelo—Search Lida by Searchlight 2:03¼ ..... (Allen)	4	5	3

Time—2:10¼, 2:10¾, 2:09¼.

Distribution of purse—Rico $500, Captain Mack $425, Verna McKinney $325, Surety $125, Julia M. $125, W. G. Durfee, owner of dam and sire, $300.

2:09 trot, purse $500:

Bon Cres, bl h by Bon Voyage 2:08—Kate Kopje by Cresceus 2:02¼ ..... (Chadbourne)	1	1	1
Pavana, bl h by Stanford McKinney—Strathalie by Strathway 2:19 ..... (Quinn)	3	2	2
Harold C., b g by Bon Voyage 2:08—by Silver Bow 2:16 ..... (Cohen)	2	3	3

Time—2:15, 2:12¼, 2:15.

Distribution of purse—Bon Cres $250, Pavana $108.34, Harold C. $91.66, association $50.

2:20 pace, purse $900:

Bold Harry Aerolite, b h by Aerolite 2:06¾—Cricket 2:10 by Steinway (3) 2:25¾ .. (Machado)	1	1	1
Dixon Boy, b g by The Patchen Boy (3) 2:10¾—Leota by Diablo 2:09¼ ..... (Tryon)	3	2	2
W. J. K., b g by Dexter Prince—Psyche .. (Smith)	2	7	3
Directess Mac, b m by Nearest McKinney 2:13¼—Guydon by Direct 2:05½ ..... (Schwartz)	6	3	5
Silver Tips, b g by Morris A.—Ramona K. by Gaviota ..... (Finley)	4	4	4
Pedlar Direct, b h by Baron Direct—Miss Episode by Pedlar 2:18½ ..... (DeRyder)	5	5	9
Villa, bl g by Nearest McKinney 2:13¼ ... (Allen)	7	6	6
Irene D., b m by Charley D. 2:06¼—Lady Irene 2:14½ by Diablo 2:09¼ ..... (Jones)	10	9	7
Lock Logan, br g by Zolock 2:05¼—Effie Logan by Durfee ..... (Montgomery)	9	8	8
Alta Barnato, b g by Barney Barnato 2:19½—La Belle Altamont by Altamont ..... (Berry)	8	10	10

Time—2:07¼, 2:11, 2:08¾.

Distribution of purse—Bold Harry Aerolite $450, Dixon Boy $195, W. J. K. $120, Directess Mac $45, Silver Tips $90.

RUNNING RACING SUMMARIES.

Monday, August 7.

Overton Hotel Stake, purse $100, half mile. Won by J. H. Rossiter's b m Make Good (Waldron) by a neck, Shellville Stable's Von Dillon (Powers) second, G. Fryer's Lady McGregor third, Sir Victor fourth and Baby Neil fifth. Time, 0:51.

Occidental Hotel Stake, $100, half mile—Shellville Stable's Virgie, br m, won; Togo, b g, Bugeia Brothers, owner, second; Bertha S., b m (S. Dobbins), third; Tea Tray, blk m (Maltese Stables), fourth; Thomas, br g (E. Stuffeit), fifth. Time—0:51.

Northwestern Pacific Stake, purse $100, five furlongs: Won by Quality, b m (Maltese Stables); Amethyst, b m (Shellville Stables), second; King Abe, b g (Bugeia Brothers), third; Mr. Dingle, b g (J. Stone), fourth. Time, 1:03½.

Tuesday, August 8.

Press-Democrat Stake, purse $100, one half mile: Amethyst (Shellville Stables) won; Tom Woods (S. Dobbins) second; Sir Victor (Bugeia Bros.) third. Baby Neil, E. Pharsis, Mr. Dingle and J. Stone also ran.

Republican Stake, purse $100, one-half mile: Von Dillon (Shellville Stables) won; Tea Tray (Baltese Stables) second; Togo (Bugeia Bros.) third. Bertha S., S. Dobbins, Tommy Thomas and E. Shuffett also ran. Time, 0:50¾.

Hopwrogers' Stake, purse $100, five furlongs: Quality (Maltese Stables) won; Queen Virgie (Shellville Stables) second; King Abe (Bugeia Bros.) third. Lady McGregor also ran. Time, 1:04.

Wednesday, August 9.

Savings Bank of Santa Rosa Stakes, half mile, running, purse $100: Lady McGregor, br m, won; Baby Neil, b m, second; Tommy Thomas, br g, third. Togo, b g, and Tom Woods also ran. Time, 0:52½.

The Donovan Stake, purse $100, five furlongs: Sir Victor, ch h, won; King Abe, b g, second; Bertha S., third. Mr. Dingle also ran.

Premiums Awarded in Horse Departments.

Prof. Thompson, of the University Farm at Davis, judged the horses on Tuesday and made the following awards:

Class 1—Thoroughbred California stallion; Registration Board premium for best two of his get—Jack London's Neaudd Hillside and get; second, Penn Grove Percheron Horse Association's Laos.

Class 2—Frank S. Turner's Exponent Mac, first; W. C. Chisholm's Mabeck, second; Dr. J. J. Summerfield's Matashan, third.

Section II—Frank S. Turner's F. S. Montgomery first; F. S. Turner's F. S. Jennings second.

Section III—F. S. Turner's Unnamed first. Mares—F. S. Turner's Center Guy, first; Dr. D. P. Anderson's Minnie Staley, second, and F. S. Turner's Carimoc, third.

Section II—F. S. Turner's Caritonea Exponent, first.

Class 3—Percherons—Joe Ryan's Mercure, first; W. P. Hinshaw's Knor, second, and Penn Grove Association's Laos, third. Mares—W. P. Hinshaw's Jeremie, first.

Class 6—English Shires—Jack London's Neaudd Hillside, first; Jack London's Mountain Lad, second.

Section III—London's Hillside Sonoma, first.

Mares—Section I—London's Cockington Princess, first; London's Salvador Champion Princess, second; London's Salvador Queen, third.

Section III—London's Sonoma Lassie, first; London's Sonoma Maid, second.

Class 9—Grade Draft Horses—W. P. Hinshaw's Rock, second. Mares—Hinshaw's Unnamed, first; Victor Piezzi's mare, second.

Class 10—Ponies—Mares, W. C. Chisholm's Beauty, first.

Class 11—Jacks and Jennets—Mrs. A. A. Eaton's Princess Yeager, first.

Class III—Mrs. A. A. Eaton's Miss Yeager.

Class 12—Get of Sires—Penn Grove Percheron Horse Association's Laos and get, first.

Class 14—Hungarian and Shetland—W. C. Chisholm's Beauty, first; E. M. Leggett's Buster, second.

Class 18—California Stock Horses—Hazel Cowan's Shorty, first; A. L. Chamberlain, second.

Class 19—Carriage and Road Teams—W. P. Hinshaw's Leman, first.

Section II—James Cowan's Princess McKinney, first; Cowan's Moonlight McKinney, second; P. C. Guglielmetti's bay mare, third.

Class 21—Special for Farmers—Penn Grove Horse Association, first and second; W. C. Chisholm, third.

Section VIII—Boyd's mare and colt.

Class 22—Draft, Best Weanling or Suckling—Penn Grove Horse Association, first, second and third.

Roadsters—W. G. Cowan's Los Gullicos, first; Dr. D. P. Anderson's Robin Hood, second; W. G. Cowan's Prince Denmark, special saddle bred.

Notes and News

Dixon next.

The races begin next Wednesday.

The two lap track is in fine shape and all the fastest horses will be there.

The weather and track have both been fine during the Santa Rosa meeting.

One hundred and twenty-seven mares have been bred to Peter the Great 2:07¼ this season.

Higginbottom's starting on the opening day of the Breeders' meeting at Santa Rosa was certainly first class.

Frank S. Turner walked off with a majority of the prizes in the standard bred classes at the Santa Rosa fair.

A big crowd is expected at Santa Rosa Fair today. It will be Governor's day, and Governor Hiram Johnson will address the people.

They say Leata J. looks and acts like she did the year she got her record of 2:03. The daughter of Royal McKinney will start at Santa Rosa today.

According to a report from New Orleans, H. D. Brown has abandoned his plan to establish another winter race course at that point.

Both the B. of C. and the M. and M. were won by daughters of Peter the Great 2:07¼—another record of its kind for the famous son of Pilot Medium.

Proof of the Pudding, a three-year-old trotter by Peter the Great, which recently took a record of 2:28¾, is from the thoroughbred mare Souveraine by Rayon D'Or.

It is now reported in the eastern turf press that $10,000 is the price paid by Barney Coit for Grand Chimes 2:06¼, winner of the "Tavern Steak" at North Randall.

The Proof got second money in his race at Peoria, Ill., last week. Vallejo King, after being second in the first heat of his race, refused to score and the field was started without him.

All McKinney 2:04 contracted shipping fever on his trip to Omaha, and on reaching Peoria was entirely off. He probably will not make his first start for several weeks yet.

Nutwood Wilkes 2:16¼ is still hale and hearty at twenty-eight, at Spruce Lawn Farm, Springfield, O., which has been his home since he was sent there from California in 1909.

The Conqueror Knee Spreader is the latest appliance for preventing knee hitting. They work on ball bearings and do not tire the horse. See illustrated advertisement in this issue.

The Austrian Trotting Derby was raced July 5th this year and won by Ispan, a son of The Zoo 2:09, that was by Zombro out of Beulah by Altamont, bred by Jasper Reeves of Cornelius, Oregon.

The California State Fair will be the best ever this year. Already the exhibits of live stock and farm products have more entries than ever, while the manufacturing section will be crowded for space.

Three of the season's new 2:10 trotters, Donna Clay 2:06¼, Early Don 2:06¼ and Zombro Clay 2:09¼, are out of mares by Clayone 2:12¾, and the trio secured their records under the guidance of Charley Valentine. They are Buckeye State products.

The English and French inspectors at Chicago are accepting about 1000 horses a week for shipment to the armies of the allies in Europe. It takes quite a horse to get by these rigid inspectors and the price is around $180.

President E. J. Tranter, of the Fasig-Tipton Company, bought Peter McCormick 2:05½, last week, paying $775 for the son of Peter the Great 2:07¼ that won the $5000 2:08 trot and was fourth in the $20,000 trot at the P.-P. I. E. last year.

Now that the racing season has begun, owners and trainers who want anything in the harness, hopple or boot line, will want it as soon as they can get it. By wiring J. David West, 1018 Fillmore street, San Francisco, for anything needed, you can get it by return mail or express. He keeps a stock of all kinds of equine remedies, and his line of coolers, boots, harness, sweaters, hoods, caps, patent bits, racing pads, toe weights, etc., is complete and extensive. His prices are right and he honestly tries to satisfy every customer.

Will Durfee put Baby Doll by Tom Smith into the 2:10 list at Kalamazoo on Thursday of last week when he won the first heat of the 2:16 trot with her. She is now owned by Andrew Albright of Newark, N. J., and is Tom Smith's first 2:10 performer.

Every person should insure his horses. You may lose a good horse any time by accident or disease. If an insurance policy has been taken out on him the loss will not be so great. The Montana Live Stock Insurance and Casualty Company is safe and pays its losses promptly. See advertisement.

James Thompson's Gen. Watts two-year-old colt trotted a half in 1:06½ and a quarter in 32½ seconds the other day and Joseph Grace, the brewery proprietor, immediately offered Thompson 1000 barrels of beer for the colt. Now, all you fellows who know the price of beer will know just how much Thompson has refused for his two-year-old.

Fyvie Baron, one of the most valuable Clydesdale stallions in America, was found dead in his stall at the Hayfield stud of Coyningham Brothers, Wilkesbarre, Pa., a few days ago. He was a son of the famous Scottish sire Baron's Pride, and had won championship prizes at the leading shows of Scotland, Canada and the United States.

Worthy Prince, that went through the Grand Circuit without winning a heat, and got through North Randall and Detroit without getting his nose in front, finally headed a summary at Kalamazoo and has 2:06¾ opposite his name now. He won ten second moneys last year. He is in Walter Cox's string and is by Prince McKinney.

John W. Considine, former owner of the Woodland Stock Farm, has brought suit for damages against the New York and San Francisco Amusement Company. The complaint charges that the defendant has discontinued furnishing amusement attractions for the plaintiff's theater, thereby breaking a contract made June 25, 1915. Considine contends that he has been caused damages aggregating at least $42,000.

The business of the Claremont Riding Academy is offered for sale with all the horses, saddles, etc., and a lease or purchase of the premises can be secured. This riding academy is located in Berkeley, but a few hundred feet from the Hotel Claremont, a fashionable resort. The academy has the patronage of the University Mounted Cadet Corps, and a large class of young lady riders, besides letting out many horses by the day. Satisfactory reasons for selling. See advertisement.

There were two races at the Rockport, Ohio, half mile track on Thursday of last week that went to seven heats before winners were announced. Each race had eight starters and the purse was $400 in each instance. In one of these races, the 2:11 pace, the fastest heat was 2:10¼ and the slowest 2:14½. In the other, the 2:23 trot, the fastest time was 2:18¼ and the slowest 2:27½.

Walnut Maid, the three-year-old trotting filly with which Al Pennock established a new half mile track world's race record—2:12¼ and 2:13¼—for age, gait and sex at Lima, Ohio, negotiated one quarter in :30¾. She is engaged in The Governor's Purse at Columbus, Ohio, also at Goshen, N. Y., and several other points, but does not participate in any of the mile track events.

The New York Telegraph says: "It is the consensus of opinion that in the A. K. Macomber string, Walter Jennings has the best lot of thoroughbreds at Saratoga. They certainly are grand lookers, every one of them. Jennings is one of the very earliest of the early birds, and is through with his strings before some of the other trainers come upon the track."

McKlyo Boy 2:24, winner of the two-year-old trotting division of the Pacific Breeders' Futurity at Santa Rosa on Thursday of this week, is the first of the get of Peter McKlyo 2:06 to start in a race. He is out of Sweet Bow 2:11½, that took her record when she won the two-year-old division of the Pacific Breeders' Futurity in 1909, the year the meeting was held at Salinas. Peter McKlyo has three living two-year-olds, but two of which are in training, and they are his first crop of foals.

The late Martin Carter, one of California's most successful trotting horse breeders, did a graceful thing when he named what he thought was one of the best colts he ever bred, for his friend John A. McKerron, now retired, but in his time the greatest maker of horse boots that ever lived. The colt lived up to his breeding and the name given him, by trotting to a record of 2:04½ and becoming the sire of a large family of fast trotters. The Russian Trotting Derby for 1916 was won June 25th by John McKerron, a grandson of John A. McKerron 2:04½, and in winning this classic for four-year-olds he broke all European and all Russian Derby records by trotting his mile in 2:10¼. John McKerron is a son of Harry McKerron (3) 2:24¼, that was the first standard performer sired by John A. McKerron 2:04½. The dam of this four-year-old is Siren 2:22¾ by the Orloff sire Nedotrog 2:27½.

Will Durfee, Chas. Spencer, Homer Rutherford, Lon McDonald, and Frank Barstow have all made entries in the Wisconsin State Fair races to be held during the four days beginning Sept. 11th.

Mr. D. W. Wallis had bad luck shipping his horses from Newman to Santa Rosa. They were on the cars three days and did not reach Santa Rosa until Saturday, consequently were not in shape to show their best on Wednesday when two of them started.

Fred Ward's string of campaigners raced at the Tekamah, Nebraska, half mile track July 25th to 27th. Harry R. by Armond Lou got second money in the 2:22 pace, Don de Lopez by Kinney de Lopez won first money in the three-year-old trot, Bon Courage by Bon McKinney was fourth in the 2:18 trot, Great Northern by Wayland W. won the 2:17 trot, Dr. Wayo by Wilkhurst took second money in the 2:14 trot and Sterling Lou by Kinney Lou won second in the 2:24 trot. The total of Ward's winnings at this meeting was $640.

The famous Shetland ponies, Grandee and Locust, have recently been sold by Charles E. Bunn of Peoria, Ill., to Adolphus Busch, 3d, for upward of $2500, said to be the highest price ever paid for a pair of shetlands. Both ponies are stallions, sired by the famous Prince of Wales, which, although now twenty-seven years old, is so well preserved his owner contemplates fitting him again for the circuit. Sons of Prince of Wales have brought phenomenal prices. Mr. Bunn states that he would not have sold this pair had he not had a large number of the same stock in his paddocks. It is reported that Miss Loula Long of Longview Farm, Lee's Summit, Mo., offered Mr. Bunn $1,500 for Locust, but the offer was refused.

Colorado horse lovers will remember the trotter Denver which George H. Estabrook had in his racing string for two or three years. They will remember, too, that the horse had a world of speed up to the three-quarter pole. Mr. Estabrook has said that if the purses were paid at that pole he would have gathered in all firsts on all circuits while he had the big gray. Later the horse Denver was sold to Nathan Straus, the New York merchant and king of the New York speedway. Mr. Straus has presented Denver to General Nelson A. Miles, retired, and the army man may be seen almost every day behind our old racing gray on the streets of Washington. The combination makes an imposing sight.—Denver Field.

The four-year-old chestnut mare Princess, that won five blue ribbons at her first horse show, in Tuxedo Park, a few weeks ago, turns out to be the registered saddle bred mare Cherokee Princess, by Madison King, son of Golden King, by Wilson's King, son of Harrison Chief. She was bred at the Alamo Stock Farm, Gainesville, Texas, and was out of Ophelia B., by Chester Dare, son of Black Squirrel, a great-great-grandson of Gaines' Denmark. Her second dam was by Mark Diamond, a grandson of Gaines' Denmark, so that she is inbred to that famous horse ,and combines the blood of the Denmarks and Harrison Chiefs, which are the two leading families of Kentucky saddle horses. Princess is now owned by J. A. P. Ramsdell, of Powelton Farm, Newburg, N. Y., who developed her and brought her out at Tuxedo.

At the Detroit meeting the pacing mare Colleen by Charley D. 2:06¼, dam Cricket 2:10 by Steinway (3) 2:25¾, won a race and paced her winning heats in 2:06¼, 2:07¼, giving both Charley D. McKinney, as Charley D. is registered, and Cricket their first 2:10 performer. On the opening day of the Breeders' meeting at Santa Rosa this week Bold Harry Aerolite by Aerolite 2:06¾, dam Cricket 2:10 by Steinway, won his race in 2:07¼, 2:11 and 2:08¾, thus giving Cricket her second 2:10 performer. Cricket was herself the first 2:10 pacing mare, having made that record in 1890. Cricket has been dead several years, but she is the dam of two standard trotters and six standard pacers. Her son William Harold 2:13¼ pacing, is a producing sire, and her son Hopper 2:14¼ was sold to England where he won many prizes in the show ring and was the champion fast high stepper of that country. Colleen 2:06¼ and Bold Harry Aerolite 2:07¼ are probably Cricket's last foals. Bold Harry Aerolite is now eight years old. Cricket was bred by the late H. W. Meek of San Lorenzo and he also bred all her foals, as Cricket died his property.

Miss Harris M., winner of the $5,000 Board of Commerce purse for 2:06 pacers at Detroit in 2:01¼, 2:01¾ and 2:04½, is a converted trotter. As a two-year-old she finished second in 2:37¾ and 2:26¾ in a race for trotters at Dallas, Texas, her only start in 1914. In letting her change her gait after this performance Alonzo McDonald, her trainer, may have robbed her sire of another 2:10 trotter, but he seems to be in a fair way to add a 2:00 pacer to Peter the Great's list by way of compensation. The champion four-year-old filly is owned by S. A. Fletcher, the Indianapolis banker, breeder and turfman who owns her sire. She took a record of 2:07¼ as a three-year-old, but was not very successful as a campaigner, having won only two races out of seven. The first of these was at the Empire track, in New York, where she paced a mile in 2:07½. At the P.-P. I. E. meeting held in June last year she won third money in the 2:19 class pace and was 4-3-2 in the summary in 2:10¼, 2:10¼ and 2:11¼.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Kills Two Deer, One Shot.—Robert A. Carey, mighty San Anselmo nimrod and prominent local broker, arrived home August 5 from a hunting trip in the Sonoma mountains, and told how he had exhausted his hunting privilege for the year with a single shot from his trusty 30-30. Carey dropped two four-point bucks with a solitary bullet.

Carey and E. C. Symonds arrived at the Cold Spring ranch above Skaggs Springs and started out in quest of deer. Within an hour after the start, he came upon six fat, sleek bucks feeding in a meadow. Whether the deer mistook Carey for a friend instead of a foe, is unrecorded. At all events, they did not run, but eyed the intruder lazily as he prepared to shoot.

"Bang!" spoke the mighty nimrod's trusty weapon, and over toppled two four-pointers, the first in line shot through the neck and the other pierced by the already bloody missile squarely between the eyes. Summoning his companion, Carey was preparing the prey for shipment to his home, when Harley Groves, owner of the ranch, attracted by the shooting, came upon the scene.

Groves listened to the mighty nimrod's thrilling tale in silence.

"Look here, young feller," he said, after Carey had finished, "I reckon them deer is worth nigh on to $30 apiece providin' I keep the meat. An' what's more, sonny, you git out of this deer paddock, and don't come in again. I reckon I ain't raising tame deer to be slaughtered this way."

Carey paid the $60 and returned home deerless.

Doves Reported Plentiful.—Deputy James H. Gyger, in charge of Riverside county protection and propagation operations for the Fish and Game Commission, last week covered over 250 miles of the territory adjacent to his headquarters in Elsinore and reports doves very plentiful in all the favorable sections. He predicts a very good season, and looks for plenty of quail shooting after October 15, as the birds did very well everywhere, and plenty were left over from last year's long open season. Rabbits are thriving also, and Gyger looks for Riverside county to experience a big boost this winter among the sportsmen, many of whom know its attractions already.

The quietus put upon illicit deer-hunting by Deputy Becker's arrests in the Malibu is expected by sportsmen favoring that truly remarkable sport-producing section to have a very decided effect in bettering the hunting there, as it is giving the deer generally a much-needed rest. Some mountain ranchers have felt they were exempt from a law equally binding upon all.

A remarkable condition has developed in Bear Valley this year, doves being exceedingly plentiful there and already in flocks. Forty-two birds passed last Sunday morning between daylight and the "eternal conflict" between love of bed and business of fishing. They were about high enough to clear the pines, in little family parties and small flocks. What birds were doing bunched at this season and high in the mountains is not easy to figure.

Other Deer Sections Open.—The next section to open to hunters will be the vast mountain territory comprised in District No. 1, where shooting will be permitted August 15. This comprises Owens Valley and Northern California, includes the Sierra section generally, and will catch the great majority of those hunters who can go away for extended trips. This year they will find the fishing at its best. September will be a great month in southern sporting annals.

Although the hunting season in Southern California proper, comprised in District No. 4, is deferred yet another month, the riflemen and scatterguners are both busy already in preparing for it. There is a wonderful increase in their number. Already the Los Angeles office of the Fish and Game Commission has sold with a few of 4000 of the 1916 hunting licenses, without a bird or animal that can be shot legally in the southern country. What it will be when the nitro-powder begins to crack is exciting considerable speculation among those who take interest in the ever increasing popularity of sport.

Demand for Huge Fish.—There are some fishes which, though not always wasted entirely, are by means fully utilized. One of these is the horse-mackerel, or tuna, a huge fish which sometimes reaches a weight of two or three hundred pounds. M. Pierre Lemy, a large Parisian merchant, says that, after the sardine, the tuna is the fish most important as a preserved product. There is an upward tendency in the price of these fish at present in the United States market.

A few years ago sword-fish fishery was unknown on our coasts. Now there is a special fleet of boats engaged in capturing sword-fish. Eighty of these fish were caught last year at Ingonish, B. C They ranged from 300 to 400 pounds in weight, and one was caught at Sydney which weighed 565 pounds. At four cents a pound, such a fish would be a prize for a fisherman. In Boston or New York the price of swordfish to the consumer is about 25 cents per pound. Thus this once neglected fish is now yielding ample returns.

The same thing is true of sturgeon. A generation ago sturgeon were thrown up on the beach of the St. John river for manure; now, in some cases, good lake sturgeon are worth as much as a good-sized cow. Thirty cents per pound has been recently paid for sturgeon in the New York markets, and the weight ranges from 30 to 100 pounds.

Grizzly Bears Are Brought Down.—Bringing with them the fine skins of a couple of Lillooet grizzly bears, one of the finest breeds of grizzlies extant, says the Vancouver Province, several Vancouver hunters returned in May from the wilds north of Anderson Lake on the Pacific Great Eastern. O. J. Rognon, M. Lombard and J. W. Williams brought with them the peltries of two grizzlies and two black bears. From Anderson Lake they packed across the Divide of Cadwallader River and hunted at an elevation of about 5,000 feet. The season there was about six weeks late. There was a tremendous snowfall last winter and the going was hard. Goats and black bear were said to be very plentiful, however. The party started hunting two weeks later than they intended and even then they were too early.

Rabbit With Horns.—A press dispatch is responsible for the statement that a rabbit with horns was shot by a hunter recently, near Farley, Mo., 20 miles north of Kansas City. The man and three companions trailed the rabbit two miles through the snow after wounding it. The rabbit is of ordinary size and color, but the horns at the back of the ears are well developed and about an inch and a half in length. There are three horns at the back of the left ear and one at the back of the right. None of the thirty other rabbits killed by the party had horns.

Soldiers Fight Lions From Trenches.—In the East African campaign the British are fighting lions as well as Germans. According to a story the lions got to a kraal containing a number of food animals belonging to a garrison and killed 40 sheep and goats. Next morning a gun was set, and at seven o'clock lions again appeared. The gun was heard to go off, and on investigation a full grown cub was found dead, but there was no sign of any more animals. Again the gun was charged, although it was not thought likely that the lions would venture to return the same night. They did come back, however, and this time successfully avoided the gun and got the remainder of the prey that they had previously left.

Although the intruders were distinctly heard by the sentries the night was so dark and rainy that nothing could be done and once more they got away. On the following night a trap having been cut and covered over, a number of officers watched in the trenches. Three-quarters of an hour later, a shot, which sounded like a good hit, rang out, but as nothing happened, the party remained on watch until after midnight. Next morning a fine big lioness was found not 30 yards away. It seems that one of the officers in the trenches had thought he saw a lion, and fired, whereupon the animal sprang forward and landed on the top of the trench itself. Luckily this was strong, and as nothing more was heard it was believed in the darkness that the animal had made off.

Tile Fish Appearing Again.—Tile fish are again being caught in sufficient numbers to become a staple article of food in the United States. They are a handsomely colored fish, and very good to eat, but thirty years ago millions of them died in a mysterious way, and it was thought that they thus became extinct. In the beginning of 1882 fishermen and others made amazing reports of having sailed through miles of dead and dying tile fish by the coast. The whole area covered by dead fish was reckoned to be 170 miles long and 25 miles wide. More than 1,400,000,000 fish had died. The actual reason was never proved, but from temperature tests it was assumed that a sudden chill in the water accounted for the blight.

H. W. Cadwallader, the well known professional, who had the sight of his right eye destroyed several months ago by being struck with a clay bird, is now shooting left handed, using a Daly single barrel. He tried using a specially made cast off gun for right hand shooting, but it was a failure. But "Cad" is doing fairly well, running from 120 up out of 150.

* * * *

F. L. Babcock of San Francisco shipped his bull terrier bitch, Western Lady, A. K. C. 202,863, to E. J. Schmidt of Chicago, to be bred to Ch. Asterian Cavalier, and naturally expects some flyers.

CALIFORNIA DOG CIRCUIT IS SHAKY.

Writer Complains That Bench Shows Have Been Losing Money During Last Year.

The Kennel Advocate sets forth that the kennel sport in California is in a shaky condition. The article is as follows:—

"Bench shows on the California circuit have during the past year declined in number of entries until all who have the interest of the sport at heart have begun to feel that the end is very near. There is not a club in California that has staged an exhibition during the past year but what has lost money, and this in spite of the fact that the officers of the various clubs have worked with might and main to make their shows a success. People have tired of the game. The fanciers who in times gone by were always willing to support a show by donating specials and by being generous with entries have failed to rally to the support of the show giving clubs, and there is no use denying the fact that kennel affairs in California at least, are at a very low ebb.

"Ask any of the regular exhibitors for the cause of this, and you will immediately be told 'too much professionalism.' It seems to us that what the game needs here is a complete change in the slate of judges who have been accustomed to officiate at our shows. Why not invite such men as Dr. J. E. De Mund, Dr. Henry Jarrett, Mr. Harry Lacy, Mr. Chas. H. Mason or Mr. Enno Meyer to officiate at our exhibitions and see if confidence cannot be restored. Surely there are too many genuine fanciers here to allow the game to die. We believe that the gentlemen mentioned above have no axes to grind, for they are not in the business of buying and selling dogs as a sole means of livelihood.

"It is a long time since any of them have officiated at a California show ,and their appearance in the ring would be a pleasant change from the faces we have been accustomed to. That they are men of spotless reputation goes without saying, and we believe that any one of them would draw a great entry. Moreover, their names appearing on a premium list would be the signal for renewed interest, in that fanciers would at once realize that here were men whom no influence could control, and if the fact of their selection were made known early enough we venture to state that the secretaries of the show giving clubs would be working overtime supplying the demand for premium lists.

"The day of the judge who judges the human end of the chain has gone by in California. His death knell has been sounded in loud and clarion tones, and we are ready for a change. Will the kennel clubs of California do their part to save the game from an almost certain and ignominious death?"

* * * *

On September 17th the newly-organized Oregon Field Trials and Game Protective Association will begin its inauguration trials. Oregon has now been without trials for several years, and it is encouraging to see this State back in the game. The dogs will work on Chinese pheasants, which have never been used in trials before.

* * * *

It is with genuine regret that we learn of Mr. McGrew's resignation as secretary of the All-America Field Trial Club. Mr. McGrew has served in this capacity since the organization of the club, and has played no small part in making it one of the largest in the country. His successor will, we fear, have a difficult time in maintaining the McGrew standard of efficiency.

Seventeen Years as Game Deputy.—On August 1st, Deputy H. I. Pritchard began his seventeenth consecutive year with the Fish and Game Commission, having been appointed in 1900 by former Fish Commissioner Henry W. Keller under the Gage administration. Pritchard has made fish and game his life work, is a great lover of the outdoors, and a keen hunter and fisherman, whose vocation and avocation are fortunately cast in like lines. His friends are wishing him many more years of like service. He is very nearly the longest-term employee on the force of fish and game protection in this State. When appointed, he had all of Southern California as a territory to patrol single-handed. Now the growth of interest in hunting and fishing as expressed through swelling revenues from licensing sportsmen has made it possible to put a man in every county, with emergency increases at the time of opening seasons, until all California is rapidly becoming the best-patrolled state in the Union, notwithstanding its continental area and climatic range.

Five-Year-Old Hunter.—Master Kirk Shearer, of Carlisle, Pa., age 15, is one of our best young shots. Master Kirk would rather "shoot than eat," as the saying goes, coming by this tendency honestly, however, as his father, R. E. Shearer, is an ardent sportsman. Kirk shot his first game at the age of five years, when he bagged several rabbits. Gradually, as he became able to manage the larger guns, he went after larger game, and has a record of eight quail with 11 shells, which is good shooting for any one. Master Shearer also shoots clay targets and has shot live pigeons, having good records on both. Last fall he went deer hunting, and though going out on every drive, was not one of the fortunate ones. However, we would suggest the deer be on the lookout this year if Kirk goes deer hunting.

BLUE RIBBON SHOOT OF THE SEASON.

Grand American Handicap at St. Louis to be Greatest of Sporting Events.

Baseball has its "world's series," tennis its Davis cup competition, and golf its international matches, but not one of these titular contests is to be compared with the blue ribbon event of the trapshooting season—the Grand American Handicap.

We are aware of the broadness of this assertion and fully realize that there will be many doubting Thomases, but we can prove our assertion to any and every one who cares to journey to Sportsman's Park, in St. Louis, Mo., during the week beginning Monday, August 21, for on that day the Grand American Handicap gets going and continues with unabated enthusiasm for five days. Any sporting event that will take hundreds of men away from their business for a week or more, and take several hundred women away from their homes for the same period of time, is a real sporting event. That is just what the Grand American Handicap is.

Last year the tournament was held in Grant Park, Chicago, Ill., and was witnessed by some 25,000 persons—not one paying an admission fee. In the various trapshooting events nearly 2000 persons participated, and in the Grand American Handicap there were 839 shooters out of 884 entrants. Have you ever witnessed a sporting event in which there were 839 active participants? You have not—unless it was the Grand American Handicap last August. Trapshooting is not a proxy sport. It is something you can do yourself; something you enjoy because you can do it yourself.

Big as last year's tournament was, all indications are that the St. Louis tournament will be the greatest ever. While the official list of entries is still far from being complete, it is expected that the entry list will total more than 1000 trapshooters. Think of it—1000 shooters in one event. Sort o' puts the other sport classics in the shade.

It has taken the Grand American Handicap 16 years to arrive at its present stage of development. There were but 74 entrants in the first championship tournament, held in 1900. Little by little the tournament grew for a number of years, but in the past five season the handicap has made great leaps forward. Two years ago, in Dayton, Ohio, when the handicap had a few more than 500 entrants, the feeling prevailed that trapshooting was at its height, but last year in Chicago the entrants neared the 900 mark—and every one is pulling for a 1000 or more this time.

There was a time when two traps was a great sufficiency for the "G. A. H.," as it is known to trapshooters—now 10 are in use. There was a time when a Grand American Handicap resembled a mammoth circus, with all its tents, but there will be no tents in St. Louis. The buildings are permanent. There will be locker rooms, restaurant, pavilion for men and a ladies' rest room. The equipment will be modern. There will be a grandstand behind the professional trap, on which all the special events will take place. Sportsman's Park is the finest trapshooting park in the United States—which, in broader words, means the world.

The "G. A. H." is being conducted this year by the St. Louis Trapshooting Association, which is comprised of nearly all of the trapshooting clubs in and about St. Louis. The association is operated solely in the interest of trapshooting.

The tournament opens on Monday, the 21st, at 11 o'clock, with the St. Louis introductory, an event at 200 targets, 18 yards' rise. This, as well as all other scheduled events that follow, are open only to amateurs. Beginning Tuesday, the trapshooting will begin at 8:30 a. m. The first event on Tuesday will be the Mound City overture at 100 targets, 16 yards. Prize winners in the St. Louis introductory are not eligible for this event. At 11 o'clock the national amateur championship at doubles will be shot. Fifty pairs of doubles will be thrown. At 3 o'clock the national amateur singles championship will begin. This event will be 100 targets, 16 yards' rise. This event is for the winners of the different State championships. In case the champion cannot attend, the runner-up is allowed to take his place. At 4 o'clock this afternoon and on the following two afternoons there will be a 50-bird event for the fair Dianas who are in attendance. There will also be two prizes in the "G. A. H." for the fair shots who make the highest scores.

On the twenty-third the preliminary handicap, at 100 targets, 16 to 23 yards, will be shot. The same handicaps as in the "G. A. H." will prevail. The Handicap Committee, comprised of J. W. Bell, chairman; R. E. Loring, G. K. Mackie, G. V. Dering and J. H. Noel, will convene on the eighteenth and announce the handicaps on the twentieth. The Grand American Handicap will be shot on the twenty-fourth. This will be at 100 targets, 16 to 23 yards. On the twenty-fifth there will be a consolation handicap, 100 targets, 16 to 23 yards. No prize winner is eligible in this event.

There will be special matches between professionals, and a 100-target match open to all professionals for the Dunspaugh trophy, during the tournament. These matches will take place at 3 every afternoon. Trophies will be awarded the shooters who make the best score from 16, 17, 18, 19, 20, 21, 22 and 23 yards in the Grand American Handicap.—Peter P. Carney.

Alameda Elks' Club.—Sunday, August 13th, will be the last chance the Alameda Elks will have for a crack at the handsome walrus tusk corkscrew trophy donated by Chas. Linderman. The members stand as follows:—

	Bke.	Hcp.	Bke.	Hcp.	Total
Bill Koch	18	7	20	7	50
Chas. Linderman	21	9	17	9	50
Henry Martine	22	[illegible]	18	6	49
M. S. Goodman	14	10	20	10	49
Clyde Carman	20	6	17	6	48
Tom Haskins	19	11	12	11	48
Geo. Hickman	17	11	12	11	48
Bray Thorning	21	3	20	3	47
Ned Williams	19	7	15	7	47
Homer Craig	15	11	11	11	47

Jack Walker	.	11	..	.	..

Green Lake Club.—Twenty-six shooters made their appearance July 30 at the Green Lake club grounds and some splendid scores were hung up in the regular fifty-target event for the July silver cup.

Dr. King annexed this fine trophy by going through the entire program without a miss, and as a result was high man for the day. This is the first time a "scratch" man has captured one of the monthly silver trophies by going "straight." L. S. Barnes, with 48 out of 50, came in second, while George Edling, with 46, landed in third place.

Dr. N. A. Johanson and Roy J. Kinnear shot with the club yesterday for the first time and turned in fine scores for beginners. They also enrolled as members of the Green Lake club. The addition of Dr. Johanson makes sixteen doctors who hold membership in the north-end club.

The scores:

Dr. King 50, L. S. Barnes 48, George Edling 46, J. W. Geltz 45, Hi Follrich 45, Don R. Baker 43, C. R. Sydman 42, S. A. Martin 42, George B. Baker 42, Dr. A. B. Kidd 41, M. A. Rosenfield 41, Dr. J. F. Hill 41, George H. Young 40, W. C. Smith 39, C. W. Bandy 38, W. M. Elliott 36, George O. Colwell 35, Mrs. L. S. Barnes 32, Dr. N. A. Johanson 30, Howard Cosgrove 29, Dr. S. W. Giffin 27, Roy J. Kinnear 20, E. P. Buck 19, Mrs. W. C. Smith 16, C. C. Giffin 13, George D. Horst 8.

At 100 targets—Hi Follrich 90, Don R. Baker 86, S. A. Martin 86, George B. Baker 84, C. W. Bandy 75.

W. M. Elliott shot with a 20-gauge gun.

Seattle Association.—Another fair day favored the shooters July 30, although the bunch that went out to the Harbor Island grounds found some exceedingly hard targets. Even at that there were some good scores hung up. The wind may have favored the boat races out on the bay, but it certainly did not help the shooting any. As nice a target as any man might desire would start out, but with the aid of a little puff of wind under it, would make an upward dart that would puzzle almost any trap artist. Angles of all varieties were offered, straight up, down and to both sides, and the shooter that went away with his regular score was to be congratulated.

Matt Grossman and C. E. McKelvey were the two high score men, they both finishing their fifty-target program with only one down, or forty-nine targets each. Fred Call stood in second position, with forty-eight to his credit.

In the 100-target program C. E. McKelvey knocked down ninety-eight of the clays, while Matt Grossman was second with a score of ninety-seven. Tom Wilkes and Fred Call stood in third place with ninety-four each.

J. U. McPherson, a new man at the traps, was in the squads July 30th and made a good showing. P. C. Farmer came out for the first time and made a fine score for his first shooting at the traps.

Many of the local shooters will from now on try to get in some good shooting in preparation for the Pacific Coast Handicap, which takes place in Portland, Ore., in September. Scores:

At 50 targets—Matt Grossman 49, C. E. McKelvey 49, Fred Call 48, Tom Wilkes 46, R. S. Searle 44, J. Bacher 43, Hugh Fleming 42, James Hulbert 40, A. E. Hall 86, J. U. McPherson 15. Saturday shooting—C. L. Templeton 48.

At 100 targets—C. E. McKelvey 98, Matt Grossman 97, Fred Call 94, Tom Wilkes 94, Hugh Fleming 86, Joe Bacher 84, A. E. Hall 71, Van M. Woodaman 41, P. C. Farmer 23. Saturday shooting—C. L. Templeton 94.

Champion Trapshooter of the Navy.—It is only fitting that F. P. Williams, paymaster, United States navy, of the hospital ship Solace, and the originator of trapshooing in the United States navy, should be the winner of the first championship tournament for officers and men.

The event was conducted not long ago at Guantanamo Bay, Cuba, under the auspices of the Red Cross Gun Club of the U. S. S. Solace—the first gun club organized in the navy, of which Mr. Williams is secretary—and registered by the Interstate Association for the Encouragement of Trapshooting.

Mr. Williams broke 103 targets in 125 thrown—a very creditable performance considering the high wind from the Atlantic Ocean. He broke 18, 22, 22, 21 and 20. Paymaster F. R. Holt, of the U. S. S. Louisiana, was second, with 97 breaks. He also had the best single string, breaking 24 of 25 in the fourth round. Thirty-two officers and men participated in the championship, which naturally was a scratch affair, and did not afford the mediocre trapshooters much encouragement.

Besides the individual championship, two and three-men team championships were also decided. Lieutenant Commander G. P. Landenberger and Paymaster Holt, of the U. S. S. Louisiana, won the two-man team race, with 165 breaks in 250 targets, and the U. S. S. Solace trio captured the three-man championship. Paymaster Williams and Surgeons Strine and Wood comprised the winning squad.

Trapshooting has taken quite a hold on the officers and men of the United States navy since Paymaster Williams introduced the sport a couple of years ago. There isn't a man-o-war these days that isn't equipped with hand traps, and many of the men are almost as proficient with the shotgun as the rifle. Most of the shooting is done when the ship is under way. However, after a week's strenuous maneuvers at sea, or following the seemingly never-ending drills with the 14-inch guns that are so necessary if we are to keep pace with the other navies, the men gather on board and try their skill in individual team competition. Matches occur between teams of rival battleships and as a rule these take place Saturday afternoons when the ships are at anchor.

The demonstration at Guantanamo Bay was so pleasing that it was the opinion that trapshooting had replaced baseball as the standard amusement of the United States navy.

Status of a Professional.—Any professional who has in either of the last two years of his employment averaged 90 per cent or better on Registered Targets shall not be permitted, from and after December 4th, 1914, to compete at any Registered Tournaments with Amateurs, for cash or merchandise prizes, or for any trophy or trophies "open to Amateurs only," at such tournaments, within a period of three years from the date of the termination of his employment. All others who have not averaged 90 per cent in either of the last two years of their employment shall not be permitted to compete as above with Amateurs for a period of one year from the date of the termination of their employment.

Trapshooter Invents Recoil Pad.—John H. Noel, the Nashville, Tenn., trapshooter, tried out a recoil pad in the Eastern Handicap in Philadelphia that made an instant hit with the hundreds of trapshooters there. The idea is Mr. Noel's, and he has secured a patent on it.

The recoil pad, instead of being at the end of the stock—against the shoulder—is placed in the stock about 15 inches from the end. The stock was cut and then joined together by springs after one inch of sponge rubber had been inserted. This runner acted like a shock absorber. There was absolutely no movement of the stock beyond the recoil pad.

The trapshooters were of the opinion that Mr. Noel has hit upon something good and that the invention will revolutionize the manufacture and sale of guns.

Several hundred hunters took to the hills in quest of deer, and of course the large majority returned empty handed.

THE INTERSTATE ASSOCIATION'S HANDICAPS.

T. E. Doremus, President,
Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. — E. Reed Shaner, Sec'y, Pittsburgh, Pa.

The Interstate Association's Seventeenth Grand American Trapshooting Tournament, under the auspices of the St. Louis Trapshooters' Association, St. Louis, Mo., August 21, 22, 23, 24 and 25, 1916. There will be $3,500 added money. Winner of first place in the Grand American Handicap guaranteed $500 and a trophy; winner of second place guaranteed $400 and a trophy; winner of third place guaranteed $300 and a trophy; winner of fourth place guaranteed $200 and a trophy, and the winner of the fifth place guaranteed $100 and a trophy. Numerous other trophies will also be awarded.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Partland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

Sportsmen's Row

Among the fly casters to get into town was R. D. McFarland, who spent a week in the San Bernardino mountains at Big Bear Lake. He was with his brother, Jack McFarland of Los Angeles. He reports that a five-pound trout is the common catch there and that limits are easy to obtain. Fly casting is a lost art at the lake, he says. The anglers there fish with huge bass hooks and always with bait.

* * * *

John Cattermole, Henry Behlmer, "Dutch" Concord, Ernest Gendotti and Milton Frenkenburg went bass fishing Sunday. Frankenburg and Behlmer each got a small fish.

* * * *

Dr. T. I. C. Barr got the best buck killed in Marin county when he brought down a four pointer. His father was right behind him with a three pointer.

* * * *

The fishing record for the season at Geyser Hot Springs is held by a party from San Francisco composed of Mr. and Mrs. E. H. Ladd, M. Anderson, Mr. and Mrs. E. Bernhart and A. Bernhart. The trout were taken from the Pluton river, which flows by the hotel. The anglers brought home a string of 28 fish, not one of which weighed under half a pound. Many of them weighed more than a pound, and several were between three and three and one-half pounds. The total catch averaged more than a pound per fish. Ladd held the honors, for he caught a five-pounder.

* * * *

Nineteen fine striped bass was the catch of Bob Sangster and Jess Lynch. They fished in San Antonio creek.

* * * *

Richie (Shorty) Roberts, Bert Saunders and Claire Hughes left on Thursday for Boonesville, Mendocino county, from which point they were intending to pack into the coast range for a week of hunting. This is the third year for the trio and as they have always "brought home the jerky" in the past, they can likely be expected to repeat this season.

* * * *

Deer are in good condition. Few have been shot that are emaciated or suffering from disease. The bucks are healthy, too healthy some hunters think, for they are outrunning dogs and men without regard to the fact that it is now open season. The horns of the deer are hard, in practically all of the lower regions. For that reason the deer have no fear of the buckthorn and tough manzanita. They are avoiding the open places that were their haunts a few months ago and now graze and roam under the protection of the thick chapparal. Some of the men who have brought game to the city have shot their deer on the ridges; others have bagged them at the water holes. Opinion generally is that the deer are lying deep in the brush.

* * * *

Fred Stephenson is still having trouble with distemper, having lost seven more of his dogs, including the Llewellyn, Doll Rodney.

* * * *

A plan of co-operation between Forest officers and Post Office employes has been put into action whereby all rural mail carriers and postmasters in or near National Forests are to report the discovery of forest fires to the nearest Forest officer.

A crew of trail and bridge builders employed by the Forest Service are at work constructing a bridge across the Middle Fork of the Kings River at Simpson Meadows on a lateral of the John Muir Trail. This trail will be open for travel in the fall, it is expected, between Simpson Meadows and the Yosemite.

Volunteer fire fighters, when needed, are summoned to the aid of the Forest Rangers by the blowing of a certain signal on steam whistles in many towns in or near National Forests in Southern California.

* * * *

Fox terriers are all the rage in Australia, and at a recent show held in Sydney, New South Wales, they were the chief attraction. There were 162 entries in the sixteen classes allotted to smooths. There were only seven entries in wires, in two classes. The turnstile registered 98,000 visitors.

* * * *

It is interesting to note that the first shooting done was at glass balls. Then came the first clay targets —the Ligowsky birds, which long since passed to the discard, and now would be objects of curiosity. After the Ligowsky target there was adopted in turn the American Clay Bird, the Peoria Black Bird, and the Blue Rock targets. It is safe to say that many of the present-day shooters never heard of the first three brands of targets mentioned.

* * * *

Frank A. Riser and John and Lester Lowrey have returned from a deer hunt in the hills of western Yolo, back of Rumsey. The party bagged a forked-prong buck.

* * * *

Heine Pfirrmann, who will shoot at the Grand American Handicap as the champion of California-Nevada, left Los Angeles Thursday afternoon for St. Louis, where the world's series of the trapshooting game will be held, accompanied by Dr. Martin and wife, C. E. Groat and wife, E. K. Mohler, DuPont Guy Holohan, Harry Cline and V. A. Rossbach.

J. H. Bevins, a rancher near Hiawatha, Carbon county, Utah, writes Fred W. Chambers, state game and fish warden of Utah, that a suckling deer has adopted as its mother one of Mr. Bevin's goats. The little fellow, Mr. Bevins says, seemed to have lost its own mother, and must have taken up with the goat some time during the day, when the flock was in pasture, because when the flock returned at evening the young deer came staggering in with his foster mother. The little fellow will be cared for until it is old enough to care for itself.

* * * *

Jack Derville, a well-known angler of Butte, Mont., recently landed the largest rainbow trout taken so far this season, at Divide. The fish weighed twelve and one-half pounds and measured twenty-nine and one-half inches. The big trout was caught on a four-ounce fly rod with a No. 6 hook. The catch is a notable one in view of the tackle used. The big trout has been entered in the contest of the Butte Angler's Club.

* * * *

Five Belvidere, Ill., fishermen broke the season's black bass record at Delavan Lake, Wisconsin, recently with a day's catch of twenty-four bass, ranging in weight from one and one-half to two and one-half pounds. The party consisted of J. R. Balliet, John Kuppler, H. Caird, J. O. Anderson and Frank T. Moran. The fishermen used artificial bait exclusively.

How to Kill Hawks and Crows.—Upland birds that can be shot during the summer months are good game for the hunter. There are the various hawks, like the Cooper or hen-destroying variety, that feeds on young grouse, as well as the former's ungarded flock of early broilers, which he picks off one by one, despite the outcries of the mother and the valiant screams of the chanticleer father.

The duck hawk will start after a selected partridge and actually fly it down, as a dog will run down a hare, never leaving it from start until capture. The great horned owl also levies a heavy tribute upon roosting birds, often coming to the open poultry houses, where it will ruthlessly destroy several fowls by eating their heads and leaving the bodies piled up under the roost. This is also the way that the raccoon serves the half-grown turkeys roosting on the hay rack in the big barn about harvest time.

It will tax the rifle skill of any man to shoot a hawk, for he is very shy and must be killed at long range, if at all, as he sits on some dead limb watching for his prey in the thick grass below. Besides the hawk and owl, the hunter will find that the crow will afford lots of sport, if he can surprise one on some clearing and get a snap shot at close range, or else do some long range rifle work on a dozen or so of these birds sunning themselves on the top of some old dead tree 100 yards or so distant.

A good way for the visitor and his farmer guide to approach a bunch of these black imps at work pulling up and devouring the young kernels of the latter's recently planted corn, is to crawl on hands and knees through a thick copse of undergrowth and open up the battery from the leafy mask. Of course, if the hunters have only shotguns, they must worm their way farther in, until the proper range is reached.

The Indians used to capture a young crow, tie a long fishing line to one leg and cast the youngster into the open place where the parent and other crows could see it. Then they would pull the leg of the crowlet and make it cry. This would at once bring the whole flock of its elders to its assistance, for crows are very sympathetic and are banded together for self-defense, like most robbers and thieves.

Any one of the foregoing kinds of hunting may be practiced freely by any visitor to an upland farmhouse, and the more of these noxious animals and birds he kills, the better his host will be pleased.—Rod and Gun.

Peters' Pointers.

High general average at Scottsbluff, Neb., July 12, was won by Mr. George Burt, 165x170, and high amateur average by Mr. A. Bray of Broadwater, Neb., both using Peters shells.

Mr. Lester German broke 442x450 at Tarboro, N. C., July 12-13, using Peters shells, winning high general average.

At Sheldon, Iowa, July 14, Mr. C. E. Lampright tied for high amateur average, 144x150, using Peters shells.

Mr. O. N. Ford of San Jose, Cal., broke 146x150 at Duluth, Minn., July 9, winning high general average. The shot the "P" brand ammunition.

High general average at Blytheville, Ark., July 11-12, was won by Mr. J. R. Hinkle, using Peters "steel where steel belongs" shells. His score was 392x400.

Mr. W. R. Chamberlain was high professional at the Gander Gun Club, Louisville, Ky., July 15, score 182x200, using Peters shells.

At Sebewaing, Mich., July 13, Mrs. L. G. Vogel and Mr. Otis Funderburk, both of Detroit, tied for high amateur average, 137x150, while Mr. Tom Parker was high professional, 136; all three winners shot Peters factory loaded shells.

High professional average at the Wyoming State shoot, Casper, Wyo., July 10-12, was won by Mr. L. C. Booth, 566x600, using Peters shells.

Hunters Get Lost in Hills.—Jacob Bowman, 40, and Lorenz White, 19, Oakland tourists, are safe in camp after being lost twenty-four hours in the mountains in Grindstone Canyon, back of Elk Creek, in Glenn county. They were found August 6, both being almost at the point of exhaustion.

The men, who had been camping near Alder Springs, a summer resort, went down the canyon last Saturday to fish. Starting home, Bowman became exhausted. White, although near the point of exhaustion himself, had strength enough to continue the trip. On his arrival at Alder Springs a relief party headed by J. B. Coffman, forest ranger, was organized. After a five hours' search Bowman was found. He was taken home on a mule. His condition is not serious.

Oregon Hunters Warned.—In anticipation of the opening of the hunting season August 15, Carl D. Shoemaker, state game warden, advises that hunters carry their hunting licenses with them wherever they go, for, he says, "a rigid patrol will be maintained in every district of the state."

Shoemaker gives thse "don'ts" for hunters:

Don't carry a gun cocked.

Don't carry a gun with the muzzle up; keep it pointed to the ground.

Don't drag a gun over a log or up a hill by the muzzle.

Don't kill more than the legal limit—three bucks. The does and fawns are protected at all times.

Don't leave camp without putting out the campfire.

Don't shoot at a moving object in the brush unless you are absolutely certain it is a buck. Three deaths resulted last year because sportsmen mistook human beings moving in the brush for deer. This is absolutely inexcusable and is made a criminal offense under the law.

Don't shoot until you can clearly see that you are shooting at is a buck deer.

Mr. Shoemaker advises that those sportsmen who have not yet procured their hunting licenses get combination licenses, good for both fishing and hunting.

Utah To Be Represented.—Utah will be represented by at least four men, possibly more, when trapshooters from all parts of the United States gather at St. Louis for the seventeenth annual Grand American Handicap trapshooting tournament to be held August 21 to 25, inclusive. This event, sponsored by the Interstate Association, is the American classic of the trapshooting world. In addition to the valuable trophies and division of the entry stakes there will be more than $4000 in cash wards for the successful shooters who participate in the six main events.

More than ordinary honors fall to the lot of Utah in this year's tournament, for the reason that A. P. Bigelow of Ogden will be one of the eight representatives out of a total o fthirty-six who enter as state champions with a perfect score of 100 breaks. G. L. Becker, also of Ogden, runner-up in the state championship match recently held at Springville, will be another Utah trapsman in the St. Louis tournament with a score of 99 out of a possible 100 in the state event. C. H. Reilley, Jr., of Salt Lake City, will be another Utah amateur in the grand tournament, and E. J. Morgan, professional, will also take part.

Idaho will be represented by Mayor E. M. Sweeley of Twin Falls, L. C. Parsons and C. P. Tilzey, the latter state champion, will represent Montana. Max Weick, state champion of Wyoming, of Laramie, and C. F. Nelson, a noted shooter of Rawlins, will represent Wyoming.

Remington Centennial Registered Tourney.—On August 31st the Remington Gun Club will hold a registered tournament at Ilion, New York. The program consists of ten events of fifteen targets each, a total of 150 targets to be shot at. The enfrance in each event is $1.40 with $1 optional. Extra entrance "Squier Money Back" is $1, making the total entrance for the entire program $15. The division of money will be the Rose system, 5-3-2-1, the purses on optional sweeps (excepting the Lewis class) will be divided high gun system. This is a "Squier Money Back" shoot.

This tournament will be under the personal direction of Mr. J. Leonard Clark. An exceptionally attractive list of trophies has been provided for this shoot. High amateur on the entire program of 150 targets will receive the Remington Centennial Trophy. This shoot is held in connection with the celebration of the founding of the Remington industry onehundred years ago.

Sterling silver trophies in accordance with the Interstate Association's selection for registered shoots of this kind, will be distributed to the three high guns in each of the four classes. It is expected, owing to the unusual character of this shoot, that the prominent trap-shots from all sections of New York State and adjacent States, will be present.

* * * *

Portland, Me., and Providence, R. I., saw some high class shooting recently, when the "Sport Alluring" fans of Maine and Rhode Island gathered for the State Championship events. E. A. Randall, shooting against a strong wind, captured the Maine State title after a hard contest with A. H. Waldron, both shooting Remington UMC "Speed Shells," to a tie, 93x100. Mr. Randall won the shoot-off by one target. W. J. Weaver won the Rhode Island State classic, shooting Nitro Clubs. He broke 95 of his 100 targets.

F. M. NEWBERT TALKS ON STRIPED BASS.

Gamy Fish Were First Imported Into California in 1879 and Planted at Martinez.

F. M. Newbert, President of the Fish and Game Commission, has issued the following article, pertinent to the maintaining of fishing conditions in the waters of California.

"One of the most important and successful importations of fish into California waters was made when the striped bass was introduced in 1879. One hundred and thirty-two fish, ranging from 1½ to five inches in size, and thirty medium size fish were collected from the Navesink river in New Jersey. Twenty-five of these died en route, but the remainder, about 135, were deposited in the Straits of Carquinez, at Martinez. Individuals from the first lot were caught in the lower waters of the bay within a year from the time they were planted, and a number were caught occasionally for several years afterward.

"In June, 1882, 300 fish, five to nine inches long, from the Shrewsbury river, New Jersey, were planted in Suisun bay at Army Point. In 1889 hundreds of them, weighing from one-half to one pound each, were caught and sold in the San Francisco markets. From 1889 to 1892 the number caught had increased 250 per cent. Such quantities being taken that it was feared the fish would be exterminated before they had come to maturity and had a chance to reproduce. So the supervisors of San Francisco county, at the request of the Fish and Game Commissioners, passed an ordinance prohibiting the sale of striped bass under eight pounds in weight. A state law was afterward passed making it unlawful to take bass under one pound, but this later was changed to a limit of three pounds. It is also unlawful to ship striped bass from the state.

"Considering the small number of fish introduced and their remarkable increase in a few years, the result obtained from the introduction of striped bass into California is one of the greatest feats of acclimatization of new species of fish in the history of fish culture.

"The striped bass is one of the finest food and game fishes in the United States, and if the California Fish and Game Commission had not succeeded in acclimatizing any other variety of fish the value of the striped bass alone would more than repay for the money expended in the introduction of other species. Nowadays no one attempts to argue against thepractical value of fish and game conservation work as demonstrated by the California Fish and Game Commission.

"Striped bass fishing in the Sacramento and tributary streams has been unusually good this season. The most inexperienced fisherman has had but little or no trouble in securing a fair reward for his efforts. Fishing parties may be seen any day at numerous points along the city front, at the mouth of the American and up that stream as far as Folsom dam. These striped bass are not only game fish, but are of exceptional food value as well. Hook onto an eight or ten-pound 'stripe' and you are hooked for as game a fight as can be found in all the piscatorial world. Catches of five, six and eight-pounders are quite frequent, while fifteen to thirty-pound fish are not at all unusual. Alexander Kaiser, manager of the Empress, fishing at the mouth of the American, caught several of this size a day or so ago, and you can do equally as well if you care to make a fair trial.

"There is scarcely a sportsman—angler or hunter—but what realizes the splendid work that is being accomplished by the Fish and Game Commission. They fully realize that this good work is being done in their behalf and they are so generally down upon the violation of the man who shoots or fishes, in or out of season, without a license, that information is freely given by them to the Commission or its wardens that results in many convictions.

"Play the game fair and square. It means more game and fish for you and yours in the years to come. Hunt and fish in season, with reason, and you will see the fish and game continue to increase."

Big Time Club.—Walter Criswell of Sacramento and G. I. Fleckenstein of Folsom tied for the Gerber Brothers' Causeway Cup at the Big Time Gun Club's shoot Sunday, each breaking 47 out of 50 blue rocks. The tie will be shot off at the final shoot of the season on August 20th.

A large crowd was at the traps and close competition was in order. D. A. Cannon, a new member of the club, surprised the Sacramento marksmen by breaking 24 out of 25 rocks at the start, but fell down in the second half and only hit 20 targets. The results were as follows, at 50 targets:—

Walter Criswell 47, G. I. Fleckenstein 47, J. D. Rickey 46, Frank Newbert 45, Monty Newbert 45, D. A. Cannon 44, Harry Tharp 43, D. Reenhalgh 40, Frank Ruhstaller 33, G. Newbert 31, J. B. Brennan 30.

In addition to the regular cup shoot there were practice events throughout the afternoon.

Catches of Fine Salmon.—Fishermen are bringing in increasing catches of fine salmon. Last Saturday a cargo of twenty fish, averaging from ten to eighteen pounds, was landed at Fisherman's wharf. However, several parties who have started out during the week were forced to stay within the Gate because of the rough weather outside.

Los Angeles Club.—Council and Evans tied for high amateur in the 100-bird optional sweepstake trapshooting tournament which launched the opening day of the three-day registered tournament Sunday at the Los Angeles Gun Club. Each crack succeeded in breaking 97x100.

The weather was ideal for trapshooting and fifty blue rock squelchers of the State were in attendance, some coming from as far as Fresno and San Francisco.

Hugh Posten, that large and jovial Hercules professional from San Francisco, cleaned up in the "pro" ranks, busting 96 mud pies in the nose out of the century thrown. Ed Mitchell broke second high with 95x100, and Al Cook was third high with 94 x 100. The results in the 100-target optional sweepstakes:—

Ed Mitchell* 95, Frank Mellus 95, Heine Pfirrmann 94, N. A. Howard 88, Guy Holohan* 81, Lou R. Mellus 80, E. K. Mohler 91, H. D. Blanchard 96, W. H. Hillman 93, O. Evans 97, G. A. Adams 93, L. W. Slocum 87, Dr. J. L. Martin 85, Harry Cline 88, Harry Hoyt* 91, Owen Council 97, Al Cook 94, Whitman 94, Blackstock 87, Bob Bole 85, H. E. Poston* 96, Walter Cornelius 95, George Austin 76, C. W. Clement* 89, C. E. Groat 92, Dr. L. M. Packard 93, J. Arneill 94, Mrs. C. E. Groat 94, Wm. Kennedy 78, N. W. Nelson 62, V. A. Rossbach 86, George Oliver* 80, J. A. Rice 91.

*Indicates professional shooters, who shot at targets only.

SCORES OF TUESDAY, AUG. 8.

A. P. Haliburton, that eleventh-hour entrant from Lindsay, California, cleaned up in grand American order, made an unbroken run of 139, and showed "General" Frank Mellus that the old-timers can shoot as well as the middle-aged in the third and final day of the registered trapshooting tournament August 8 at the Los Angeles Gun Club by breaking 149 targets out of the 150-bird jackrabbit shoot.

For this brilliant showing of scatter-gun marksmanship Haliburton was awarded a diamond pin by Fred Teeple of the club and a gold bar for his long run by the DuPont Company.

Len Hawxhurst, representative from the Peters Cartridge Company, broke high professional with a score of 148x150. The miss-and-out event was won by Al Cook, with Len Hawxhurst the runner-up. Hercules long-run trophies were won by Adams, 53; Mellus, 53, 60; Haliburton, 139; Wilshire, 77; Groat, 61; Poston, 86, and Cornelius, 55.

DuPont long-run trophies were won by Cook, 71; Bob Bole, 55; Ed Mitchell, 138; Packard, 72; Holohan, 69, and Hawxhurst, 111.

The results of the 150-target Jack Rabbit shoot:—

Ed Mitchell* 147, Frank Mellus 146, Heine Pfirrmann 142, N. A. Howard 136, Guy Holohan* 145, E. K. Mohler 140, A. P. Haliburton 149, Haese 134, O. N. Evans 141, G. A. Adams 142, W. L. Slocum 138, Dr. J. L. Martin 125, Harry Cline 125, Harry Hoyt* 130, H. E. Sargent 135, Al Cook* 145, Owen Council 133, Sam Smith 132, Bob Bole 139, H. E. Poston* 144, W. A. Cornelius 57, George Oliver* 139, Walter Clement* 130, C. E. Groat 142, L. M. Packard 145, J. Arneill 111, C. W. Fish 140, C. H. Betz 138, W. H. Wilshire 140, Jackson 105, Rowe 124, Mrs. Pfirrmann 90x72, Mrs. Rowe 60x29, F. H. Teeple 30x24.

Summary: *Indicates professional shooters who shot for targets only. A. P. Haliburton, high amateur with 149x150. Wins diamond pin. Frank Mellus, second high amateur, with 146x150. Dr. L. M. Packard, third high amateur, with 145x150. L. S. Hawxhurst, high professional, with 147x150. Ed Mitchell, second high professional, with 147x150. Guy Holohan, DuPont Powder Company professional, tied with Al Cook, professional, with 145x150. Frank H. Mellus, high amateur for both days, with 290x300. Pfirrmann and Adams tied for second on both days with 288x300. Packard third high with 282x300. Ed Mitchell, high professional for both days with 290x 300. H. E. Poston, Hercules Company agent, tied with Len Hawxhurst for second high on both days with 289x300. Guy Holohan of the DuPont Company, third on two days with 286x300.

Williams (Arizona) Club.—At a registered shoot held at the Williams, Arizona, Club on August 5th the following scores were made:

At 200 targets—T. L. Fadena 188, R. Dellund 190, H. P. Dellund 193, D. E. Morrell 188, W. Mullen 190, Carl Smith 180, Thad Mullen 168, C. Mullen 151, G. Staiger 171, Charles Dutton 182, Ben Wilson 192 W. D. Finney 171, Earl Melick 139, Dr. P. A. Melick 194, F. H. Gold 179, C. W. Ortt 60x53, J. W. Francis 166, K. L. Hughes 158, C. S. Patterson 183, E. H. Grabb 120x93, Hugh Campbell 20x10, F. E. Lowe 60x57, J. R. Sweeney 40x28, Chas. Wade 40x34, Dr. Francis 20x18, Wiatt Smith 20x16.

Long runs of 50 or over were: H. F. Dellund 80, 55, 71; R. F. Dellund 73, T. L. Fadena 65, 76, W. D. Finney 52, F. H. Gold 54, F. A. Melick 97, 74, D. E. Morrell 52, B. F. Wilson 53.

W. D. FINNEY, President.

Trap Champion Is Dead.—The following press dispatch gives the sad news of the death of a trapshooting champion:

Wilmington, Del., Aug. 5.—Alden B. Richardson, son of former United States Senator Harry A. Richardson, Delaware state trapshooting champion and member of Governor Miller's personal staff, died in a hospital here today from a wound accidentally received last Sunday. Richardson, who was forty years old, was shot in the abdomen when he dropped a pistol.

Among his notable achievements at the traps was the establishment of a world's record of 99 breaks out of 100 in a twenty-two yard handicap at Maplewood, N. H., July 7 last. In 1913 he tied for first honors in the Grand American Handicap at Dayton, Ohio.

Deer Wanders Into Camp.—With five deer in their possession, Frank and Chester Chambers, J. Pryor and another companion came into Arbuckle this week on their way home from a hunting trip. They had been hunting up Elk Mountain above St. Helena and report numerous deer in that part of the mountains.

Pryor, who stayed in camp one day while the others hunted, says that while washing dishes he was surprised to see a large deer come right up to camp. He picked up his rifle and killed it before it could get away.

Stock Breeders' Page

THE AYRSHIRES.

[By Oland H. Greene, St. Albans, Vt.]

The origin of the Ayrshire breed is veiled in some obscurity. The best confirmed theory is that the native wild cattle of the County of Ayr are the foundation of the Ayrshires of modern times.

This county is situated in the southwest of Scotland, backed by mountains on the east and washed by the ocean on the west, having the form of a crescent and embracing the Firth of Clyde in its circle. It is a hilly country, mountains and valleys predominating; with a moist climate, regulated by its proximity to the sea; with frequent rains which are favorable to the growth of grass and fine pasturage.

The original native wild cattle of the country were said to be white, with red ears and black noses, high horns with black tips, with an animal now and then having more of the black, brown, or red, very wild, the bulls fierce. Considering the tendency of the breed to that alert, noble bearing, we recognize the proof of the historical theory.

The first attempt to improve the native wild stock of the country was about the year 1700. This was said to have been accomplished by selection and better care.

From Aiton we learn that about 1750 the Earl of Marchmont purchased from the Bishop of Durham and carried to his seat in Berwickshire, several cows and a bull of a brown and white color which were of the Teeswater or other English breed. He also writes that about 1770, bulls and cows of the Teeswater or Shorthorn breed were introduced by several breeders. It is from them and their crosses with the native stock of the country that the present dairy breed has been formed. Therefore, the Ayrshire dairy breed is the native indigenous dairy breed of the County of Ayr improved in size, shape and quality chiefly by judicious selection, cross coupling, feeding, and treatment for a long series of time, and with much judgment and attention.

From the beginning of the last century we find frequent mention of efforts for improvement in the shape of body, and especially the udder.

The breed was introduced into this country by the Scotch settlers of Canada, also were brought by them from Glasgow to supply milk for the voyage and were sold at Montreal or Quebec .

Recently Ayrshires have been imported into Canada in large numbers. The importation to the United States began about 1837 by the Massachusetts Society for Promotion of Agriculture bringing a few head into the state and scattering them among the farmers. As the value of the breed became apparent other importations followed and the demand has grown to large proportions.

The Ayrshire is an alert, handsome cow of medium size, weighing from 1,000 to 1,500 lbs. at maturity; red and white in color, the proportion of each varying to the taste and skill of the breeder and, also, whether he is breeding for show or utility purposes. The inquiry of late is for Ayrshires with white predominating, as this seems to be the standard exhibition color, from observation of the writer. The Ayrshire has a small head, large lustrous eyes, large mouth, upright horns, slim neck, thin shoulders with spine rising above the shoulder blades, back level to the tail, except a rise at the pelvic arch, broad across the loin, barrel deep and large, with well sprung ribs, to afford plenty of room for the storing of roughage, and wide through the region of the heart and lungs, hips wide apart, nice straight hind legs, thighs incurving, to give room for the udder, short legs, small bones, udder large and square, being nearly level with the belly on young cows, nice teats, from two and one-half to three and one-half inches long, placed on the four corners of the udder with abundant space between, milk veins large, entering the belly well toward the forelegs, skin soft, covered with a good growth of fine hair.

The appearance of the Ayrshire cow is a feast for the eyes, and, when moved about, reveals many signs of large dairy capacity.

The Ayrshire is a tough, hardy cow, with an appetite which will devour all sorts of roughage, a rarely active cow, always at work, never idle, with a becoming propensity to use her food for results in the milk pail and the butter factory.

She is a healthy cow, ailments of the body or udder seldom approach her, and an Ayrshire having an unhealthy quarter in her udder is seldom seen.

She is a very persistent milker, giving a regular amount during nearly the whole year. She is a quiet, intelligent cow, pleasant to milk and not given to nervousness. She will readily yield her milk to a stranger, and noise in the stable does not disturb her. As a dairy cow, the Ayrshire is not excelled by any other breed, in the production of milk for the milkman, and for table use. Her vigorous appetite, easy keeping qualities, even, uniform production, makes her a reliable supply, and the richness of her milk in solids places it above suspicion from city inspectors. Her milk does not churn or sour easily, and after standing, the cream will easily remix with the milk by being poured back and forth a few times, making her an excellent producer for transportation purposes.

The junior two-year-old, Willowmoor Etta 3d 35833, A. R. 1691, bred and owned by J. W. Clise, Redmond, Wash., has just closed her year of official testing, with a record of 16,621 pounds milk, 666.06 pounds fat, 784 pounds butter, 4.01 per cent fat, which places her the world's champion junior two-year-old.

The senior four-year-old, August Lassie 29581, A. R. 1429, bred and owned by L. A. Reymann Estate, Wheeling, W. Va., has just closed her year of official testing with a record of 17,784 pounds milk, 720.03 pounds fat, 840 pounds butter, 4.05 per cent fat, which places her the world's champion in her class.

RECORD PRICE FOR CARNOT

The recent sale of a half interest in the imported Percheron stallion, Carnot, by W. S. Corsa, Whitehall, Ill., to R. G. Leeds, Richmond, Ind., for $20,000, breaks all records for Percherons and is only exceeded by one for Clydesdales.

Unquestionably this big, bold-acting, clean-boned black veteran may be given the palm as the most successful and most profitable Percheron stallion in the world and only to the famous "Old" Brilliant, to whom he traces his ancestry on both sides, does he bend the knee as a breeder.

Interesting rumors are afloat concerning the discovery of this "horse of the golden hoof" which, for more than six years, has reigned supreme in Percheron fields. Though fact and hearsay have been frequently mingled the gist of the matter lies here. Foaled March 6, 1905, at the farm of M. Choplain, Department of Sarthe, District of La Perche, France, out of Perrette by Belleau 2d, he, four years later in the hands of M. Aveline, then president of the Percheron Society of France, defeated for championship honors the famous Etudiant at the Paris Horse Show.

A South American, Mr. Mayessaie, in France to buy Percherons for his country, had admired Carnot and bought him for 16,000 francs ($3,200), considered an excellent price and one which showed his first owners a handsome profit. This started him on his money-making career. It happened that George Crouch of J. Crouch & Son, La Fayette, Ind., a large importer, had also seen Carnot and realized that in him was a champion of champions. He trailed the South American and Carnot again changed hands at a big advance. Mr. Crouch brought him to America and the show season following his importation, 1909, he proved himself invincible. He won Grand Championship at the International, at the New York Horse Show, at Wisconsin, Illinois and Indiana State Fairs, and was three times accorded the championship of the Percheron Society of America.

Before his win at the International, J. Crouch & Son sold him to W. S. Corsa for $10,000, then the record price for a Percheron in America. Since that time he has headed the band of mares at Gregory Farm and has sired more high-priced foals than any other stallion of the breed. Since 1911 Mr. Corsa has had annual auctions of Carnot's offspring and their average price was well over the $700 mark. At $10,000 he was a very profitable investment—still continuing his money-making career. His last sale is therefore a fitting climax to a remarkable career and even at his present valuation, $40,000, Carnot looks the money. Already owners of his sons and daughters are being besieged by offers of purchase. The blood of Carnot is in great demand. And the veteran after his seven years of active service still has the freshness and bloom of a two-year-old.

A Holstein Record.

A postal card from the Advanced Registry office of the Holstein-Friesian Association conveys the following information: "The cow, Keyston Beauty Plum Johanna 161646, has broken the record for fat production in the senior four-year class of the division covering tests begun not less than 240 days from freshening, by producing in seven consecutive days 19.584 pounds fat from 491.7 pounds milk. She freshened at the age of 4 years, 10 months, 20 days, and began her test 240 days from freshing. Her prior record, begun 41 days from freshing, is 26.3 pounds fat from 665.5 pounds milk. Her sire is King Beauty Pietertje De Kol 50758; her dam is Cornucopia Plum Johanna 90522. She was bred by C. A. Pratt of Le Raysville, Pa., and she is now owned by George E. Stevenson of Waverly, Pa. In the senior four-year class of the eight months division she displaces Lucille Jolie Pontiac 144478, whose record, begun 244 days from freshing, is 19.193 pounds fat from 463.1 pounds milk."

An Illinois farmer who owns a dozen good grade draft mares recently hit upon a plan by which he gets his mares bred for nothing. Every winter he buys a good registered draft stallion two years old. In the spring he breeds all his mares to this colt and sells the colt the following fall or winter. As a general thing the advance in the price he sells for over the price he paid, has more than balanced the cost of keeping the horse. As he buys a colt of the same breed, and is keeping some of the fillies, he is improving his stock at little cost.

◈◈◈

Scotland, the celebrated Morgan stallion that was sold last year to C. J. Brown, of Portland, Maine, by the estate of Joseph Battell, has been bought by the Government for stud purposes at the U. S. Morgan Horse Farm.

SECRETARY DINSMORE SEES BRIGHT FUTURE.

Breeder and Sportsman:

The most experienced horsemen in the United States, who have been in close touch with the business through good and bad times, are of the opinion that the horse breeding industry is now at the beginning of some very prosperous years.

For several years prior to 1915, the increase in horses had fallen below reasonable expectations. A large proportion of mares had not been bred. This was particularly true of mares of light horse blood, as prices had been so far depressed on light horses as to lend no inducement to breeders of such stock.

This diminution in production was practically world wide. To make the shortage still greater, the European war has caused greater loss in horses than has ever occurred in the same period. The horses in France were reduced from 3,331,000 to 2,227,000 head during the first eleven months of the war—a decrease of 31 per cent. The reduction in horses in other nations engaged is considered to be nearly as great.

Exports of horses and mules from the United States have broken all records. During the 21 months ending June 1, 1916, 611,790 horses, valued at $134,943,456, and 167,387 mules, valued at $34,198,955, have been exported. Purchases and shipments are being made more rapidly than ever before. In the judgment of experienced horsemen, familiar with conditions abroad, foreign countries will make very heavy purchases of horses for years following the war, and the United States is in the best position of any nation to supply the demand.

The British are very loath to praise products not their own, so that the appearance of an editorial in the London Live Stock Journal, May 19, 1916, is especially significant to American horse breeders. Extracts are as follows:

"Close observers of the heavy horses that have been brought over to England from the U. S. A. must surely have been struck with their tremendous bone and scale, blended with a quality, at times, that appears quite startling in such massive animals. We refer particularly to gun teams, big, wide, heavy, intelligent, docile horses, with the unmistakable stamp of quality marked on their contour, both over their tops and below the knee. Inquiry elicits the fact that the American preference for the Percheron and the cross of that breed is responsible for the big proportion of all the draft horses imported being the stamp we speak of—a foreign and unfamiliar look about the heavy frame, but a thorough bred, or, say, a bloodlike appearance ever and anon peeping out of the horse, at some point in its makeup . . . The American breeder, especially in his rainy season, cannot be bothered with a lot of hair or grease. . . . The premier Percheron stallions at the moment in the U. S. A. weigh practically as much as the Shires and the Clydesdales over there, and their limbs are much more free from feather or hair."

"The cross of the Percheron stallions imported from France and bred in the U. S. A. on the native mares has undoubtedly produced a very useful general-purpose horse, which gives every satisfaction to the English government buyer wherever the animal has sufficient weight for heavy draft work. The medium-sized horses, weighing from 1,250 to 1,500 lbs., have been the most useful general-purpose horse. They are very tractable, active, and maintain themselves on less food than many other types or breeds of horses. This class of animal has supplied our Government with some of the best gunners they have had from any source. In short, quite 60 per cent of the gun teams that we possess today are bred on Percheron lines."

When the leading live stock journal of Great Britain comments so favorably on the American horses, it is strong evidence that American farmers have done well to make free use of Percheron blood.

7,853 transfers of Percherons have been made in the nine months ending August 1, 1916, an increase of almost 3 per cent in transfers over the same period a year ago.

Another indication of increasing interest in Percheron breeding is shown by the increase in applications for membership in the Percheron Society of America. 642 breeders applied during the nine months ending August 1, 1916, as against 484 for the same period last year, an increase of 32 per cent.

Good Percherons are in strong demand. Farmers and breeders have every reason to feel optimistic over the outcome.

Yours truly,

WAYNE DINSMORE,

Sec'y Percheron Society of America.

D. H. Bitner's Jersey cow Surprise was the champion of the 30-day test of the Kern County Association, with a total of 64.8 pounds of butter fat, wresting the honor from a Durham cow, owned by T. M. Calvert at McFarland. The Calvert cow gave 60.9 pounds butter fat in the thirty days.

◈◈◈

Fiss, Doerr and Carroll Horse Co., of New York City, in bidding for the Government contract calling for 69,842 horses and mules, named a sum of $12,619,480, which is an average of a trifle over $180 a head.

◈◈◈

Zombro 2:11, that died a few years ago, has now fifteen 2:10 trotters to his credit.

Weed Killer.—Many will be interested in the following plan which has been suggested for keeping paths in gardens or lawns free from weeds: Take five ounces of powdered arsenic and one gallon of water, boil the arsenic and water together for several minutes, stirring well. To this add two gallons of cold water and a half pound of soda. Apply on paths when perfectly dry.

GOMBAULT'S
CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeny, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is Warranted to give satisfaction. Price $1.50 per bottle. Sold by Druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

THE CONQUEROR KNEE SPREADER

They stop any pacer or straight line trotter from hitting their knees. They increase the speed of a horse and never tire him, because they work on ball bearings using rubber only from hoof to stick leaving the action of the horse free. Clasp adjustments. They never hit the shaft are easily attached, fit any shaft and are durable. Patented 1914. I guarantee them for 6 months, except the rubbers. Price, $20.

MODERN BREAKING
By W. A. BRUETTE

A revised edition of the latest Treatise on the Training of Setters and Pointers.

THIS book enables anyone to do his own training and fully explains the methods employed by the most successful trainers in developing the setter and pointer. The important lessons are illustrated by photographs from life; nothing is left to guesswork. The entire subject is covered, from the selection, raising and development of puppies to the conditioning of dogs and their handling in the field. The amateur is told, in lucid language, how to make a dog a high-headed, stylish worker, stanch on his points, steady to shot and wing, and a prompt, tender retriever; all of this is accomplished by simple methods, some of them never before given to the public. The instructions for correcting the faults of bird dogs and keeping them up to their training are concise and easily understood. Every man who owns a bird dog or shoots in the field should read this book.

Price: Paper $1.00. Cloth $1.50.

FARMS FOR SALE
Choice Land In Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

Ventura, Cal.

For Greatest Satisfaction Use
DOUBLE SERVICE Automobile Tires
Guaranteed 7,000 Miles Service
Absolutely Puncturepoof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer:**

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
32x3½ in.	10.35	3.10	35x4½ in.	21.20	5.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

GROUNDS OF ST. LOUIS TRAPSHOOTERS' ASSOCIATION

PACK YOUR GRIP AND TAKE A TRIP TO THE SEVENTEENTH

GRAND AMERICAN

Trapshooting Tournament
on the Grounds of the
St. Louis Trapshooters' Association
August 21-22-23-24-25, 1916

GO TO this assembly of America's best shooters. Plan to be in St. Louis to see this classic event. Bring your gun with you,—enter in a squad and get the thrills known only to the Grand American entrants.

Here's the Program,—Every Event A Hummer!

MONDAY, August 21,—Preliminary Day—St. Louis Introductory, a "warming-up" affair to start the "big show."

TUESDAY, August 22,—The Mound City Overture—100 Single Targets. The National Amateur Championship at Double Targets,—50 Double Targets. The National Amateur Championship at Single Targets,—100 Targets. Open only to the winners (or the runners-up) of The Interstate Association's State Amateur Championship Events.

WEDNESDAY, August 23,—The Preliminary Handicap,—100 Single Targets.

THURSDAY, August 24,—The Grand American Handicap,—100 Single Targets.

FRIDAY, August 25,—The Consolation Handicap,—100 Single Targets.

Special Events for Women

and Exhibition Matches between prominent Professional Shooters are Features of this Extraordinary Shooting Carnival.

The "JOKER TRAP" will introduce several novel target flights which will challenge the skill of trapshooters and furnish amusement for spectators.

PACK YOUR GRIP AND TAKE THE TRIP TO THE GRAND AMERICAN

For program giving full details of each event, trophies awarded, hotel service, accommodation for spectators and other important information about this spectacular trapshooting event, write to Elmer E. Shaner, Manager, 219 Coltart Ave., Pittsburgh, Penna., or to

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

VENTURA COUNTY FAIR
VENTURA, CAL.
SEPTEMBER 13-14-15-16, 1916.
ENTRIES CLOSE
August 28th, 1916.
$3000 for Speed Events

PROGRAM

FIRST DAY—SEPTEMBER 13.

Wild West .....Purse $300
Write Secretary or A. L. Hobson, Ventura, for entry blanks and conditions.
Chariot Race .....Purse $300
Teams of four; two or more chariots to start. Money divided 60-40 or 50-30-20.

SECOND DAY—SEPTEMBER 14.

Free-For-All Pace .....Purse $500
Ventura county horses; 7 to enter, 3 to start.
Running Race .....Purse $100
Half mile and repeat; 5 to enter, 3 to start.
2:18 Class Trot or Pace...Purse $250
Five to enter; 3 to start.

THIRD DAY—SEPTEMBER 15.

Hurdles .....Purse $300
For conditions address the secretary or Thos. J. Donovan, Ventura.
Chariot Race .....Purse $300
Teams of four; two or more chariots to start. Money divided 60-40 or 50-30-20.

FOURTH DAY—SEPTEMBER 16.

Free-For-All Pace .....Purse $600
Five to enter; 3 to start.
2:20 Trot or Pace.....Purse $250
Five to enter; 3 to start.
Running Race .....Purse $100
Half mile and repeat; 5 to enter, 3 to start.

CONDITIONS.

Purses divided 60-30-10 per cent unless otherwise specified.

Harness races to be best three in five, mile heats.

Running races to be half-mile and repeat.

Entry fee of five per cent must accompany all entries.

Five per cent deducted from money winners.

Race committee reserves the right to reject any or all entries.

Half mile track.

Finest automobile show given in Southern California this year, in charge of the popular Jack Milligan, and Walter Hempel of Pierpont Inn "Milk Fed Chicken" fame.

Five mammoth tents, each 200 feet in length, necessary to house the various exhibits.

Harness and running races under National Trotting Association rules.

Fifty cents admission; grand stand 10c; no admission at night.

"Pleasure Lane" more than half a mile in length, brilliantly lighted at night and perfectly policed.

Merry-go-round, Ferris Wheel and other devices.

All communications addressed to the Secretary at Ventura.

ADOLFO CAMARILLO, President.

WHEN MURRAY HOWE wrote his famous "Excuse Book" he builded better than he knew. Since the many excuses that have been given by owners and trainers for the inability of their horses to win were collected, numbered and published, the idea has prevailed in the minds of horsemen that the true sportsman should take his medicine and accept the inevitable without confidential talk to his friends or speech making among the spectators. When an owner or driver starts in nowadays to explain that his horse jumped a shadow or didn't like the footing he is told "that is Murray Howe's No. 35 or 56" as the case may be, and he goes no further. Lameness, sickness, the loss of a shoe, or the breaking of hopples are ligitimate reasons and are as evident to the outsiders as to the driver, consequently do not have to be made, but the thousand and one excuses which were once so prevalent and often "put over" have become obsolete owing entirely to the genius of Murray Howe.

HENRY BAKER, who in former years was the village blacksmith at Santa Rosa and is now retired, exhibited an old high wheel sulky at the Sonoma County Fair last week that attracted much attention. The sulky, Mr. Baker avers, is over fifty years old and he has owned it for more than forty years. It was made by Hatfield & Jackson, Rahway, New Jersey, and outside of the wheels having too much play owing to wear, is in a perfect state of preservation. The paint is still a bright red and every piece of hickory in shafts and wheels seems solid, with no loose spokes or felloes. Sam Norris created quite a sensation when he hitched a horse to it and drove around the track on Thursday.

"MAKING THE AMERICAN THOROUGHBRED" is the title of a volume of 300 pages which has reached our desk through the courtesy of James Douglas Anderson, the author, and no book on the thoroughbred horse can be read with more profit and with greater pleasure. The original purpose of the volume was to show the extent to which the breeding and racing of thoroughbreds was carried on in Tennessee during the first fifty or sixty years of the State's existence, but it was found that the breeding and turf interests of Tennessee were so interwoven with the interests of other States, the scope of the volume had to be enlarged. The book is not a scientific work on horse breeding but endeavors to show some of the effects that the breeding and racing of thoroughbreds had on the customs and habits of the people. As the author says in his preface, there is material in the book upon which the historian of the future might base a chapter on "The America of Sir Archy" or "The Tennessee of Leviathan" that would rival in interest Green's chapter on "The England of Shakespeare." In the absence of available facts to support such a chapter it would not be credited, but the details are in the book and are not only complete but surprising. The history of the early thoroughbreds of Tennessee contains much in the way of correct pedigrees and descriptions of the best horses and their performances that will be of deep interest to every student breeder, while the reminiscences of early racing and the stories of great men and great races are told in a manner that compels one's interest from beginning to end. The days when the leading statesmen of the South were the leading breeders of thoroughbreds and the leading governors of the racing associations were the days of chivalry, and in those days Presidents and foreign ministers, Methodist and Baptist ministers, bankers and planters, not only owned race horses but sometimes rode them in stake and match races. Mr. Anderson has collected many facts about these early day races and tells them in a most captivating manner. The work is profusely illustrated with portraits of the horses and leading breeders of those days and is well printed and bound. The price of the volume is $5 and it can be obtained through this office or from the author, James Douglas Anderson, Madison, Tenn.

"A Subscriber" writes to question the statement made in last week's Breeder and Sportsman that Peter McKlyo's mile in 2:06 is the fastest record mile ever trotted in this State, and says he "saw Frank J. Ruhstaller's gelding Wild Bell trot a mile in 2:05¼ at Chico, and that it still stands." The statement in the B. and S. last week was that Peter McKlyo's mile in 2:06 was the fastest record mile. Wild Bell's mile was not a record performance. There is no doubt but he trotted the mile in 2:05¼, but as he did not go against time, but simply trotted an exhibition mile, it was not a record mile, and Wild Bell's record is still 2:08¼ in the Year Book.

Star Hawk Again Runs Second.

The following account of the running of the Travers Stake at Saratoga, on Saturday, August 5th, taken from the Rider and Driver, will be read with interest by Californians who have been watching the reports of the performances of Mr. A. K. Macomber's horses that are being trained by Walter Jennings:

"Those who were fortunate enough to be present on Saturday saw a remarkable finish for the Travers Stakes for which Mr. A. K. Macomber's imported colt, Star Hawk, was the favorite. Opposed to him were Spur, Franklin and Tea Caddy, representing the Butler, Weber & Ward, and Belmont Stables respectively. It was Star Hawk's third appearance in this country and once more he was doomed to run second—the position he occupied to George Smith and Chiclet respectively in the Kentucky and Brooklyn Derbies. Star Hawk made the pace, having the advantage of a 13-pound pull in the weights over Spur, and he looked like a certain winner until the last furlong pole. At this point, however, Loftus brought Spur up under a strong hand-ride and, catching the favorite a hundred yards from the wire, never gave him a second's respite. It was a desperate battle to the wire, with Spur's nose catching the eyes of the judges. Franklin, whose effort was far below his Western form, was third, several lengths behind.

Spur is a worthy son of his bulldog sire, King James, a horse which fought every foot of every race in which he participated during a long and successful career, and John E. Madden who bred him and Henry T. Oxnard, who has him in the stud at Upperville, Va., and who saw Saturday's race, were happy men. Mr. Butler was not at the track to see his champion perform, but there were hosts of good judges to applaud the splendid performance, which, from a time standpoint, is really about the best for the race —2:05 with 129 pounds up, being really better than Roamer's 2:04 with 123 pounds in the saddle."

STATE FAIR GROUNDS READY.

Buildings, Track, Lawns and Stalls in Shape for Greatest Fair in State's History.

With the opening date of the State Fair but two weeks away, the fair grounds are the scene of more bustle than has been known there since the last State Fair closed almost two years ago—excepting, of course, the period of the mobilization of the National Guard. Secretary Charles W. Paine and his corps of assistants are up to their eyes in work. Livestock entries in unprecedented volume have been pouring in. Counties which have been conspicuous by their absence from other state fairs are seeking exhibit space, and other counties which have made a practice of exhibiting have applied for enlarged quarters.

But it is in livestock that the present State Fair will make its greatest appeal to the people of California. Swine of all breeds, poultry, beef and dairy cattle and draft horses will form the major part of the exhibits. The quantity and quality of the stock, it is said, never has been equaled on the Pacific coast, not even at the Panama-Pacific exposition.

While many cars of blooded stock will be brought to the fair from all parts of the state, interest is especially keen among breeders whose herds are owned in the Sacramento valley. The James McGilvray and Henderson herd of Holsteins will be at the fair; the Humphrey herd of Guernseys from Mayhews and Escalon will be well represented. The A. W. Morris & Sons corporation, owners of Tilly Alcarta, world champion milk producer, will make a big showing from their famous herd of Holsteins in Yolo county. An individual animal from this herd has brought as much as $12,500.

Walter H. Dupee of the Edgemore farm at Santee has been in Sacramento to look after the details of his exhibit, which will comprise nearly sixty head of Guernseys. Dupee will hold a sale during fair week. Several other sales of stock will take place during the progress of the fair, one especially noteworthy, will be under the auspices of the American Berkshire association. In a sale of Berkshires at Mayhews last week the average price obtained was $178.50 per head, the highest price reached in the United States this year. Many of the animals that changed hands at the Mayhews sale will be shown at the fair and a much higher price will be received, it is anticipated, than at Mayhews. Maurice Rucker of Fair Oaks is arranging for a sale of his Duroc Jersey swine. A number of leading Poland China breeders will have animals for sale. Buyers are expected from all the Western states, and it is expected that thousands of dollars will be invested in purchases of blooded stock.

The California Jersey Cattle Breeders' association has asked that a barn be set aside for Jerseys exclusively. Secretary Charles W. Paine has granted the request and will locate them to meet their wishes. The additional cash prizes and futurity prizes offered in several swine classes has caused the filling of the five new hog barns just completed. The Swine Breeders' association is confident that it will show over one thousand head of pure bred swine.

The erection of the five large new barns for swine is in anticipation of a showing of at least 1000 head. Quarters will be available for at least that number. The greatest number shown at any former fair is 450. A judging ring has been built in the center of the group of barns which will greatly facilitate the work of making the awards. A passageway has been opened through the center of the swine barn section which will provide easy access to the judging ring from all the buildings.

At the present time all the stock barns have been whitewashed and thoroughly disinfected. The horse barns have been brightened up with a new coat of paint. The color has been changed from a dull red to cream, while the roofs have been given a coat of green. A large addition to the poultry building is completed, with a new feature, a concrete tank, provided for water fowl.

The new woman's building is ready to be turned over to the State by the contractors. A complete sewer system is being installed. Two crews of men are at work on race track, roadway and lawns; and a multitude of lesser details are receiving attention. Nothing is being left undone that will make for the success of what it is conceded will be by far the finest and most complete exhibition of the State's products ever assembled at Sacramento.

An improvement that will give a handsome and distinctive touch to the main entrance is the placing of twelve handsome electroliers along either side of the walk leading to the central pavilion. The old unsightly wooden poles, carrying lights and wires, have given way to graceful concrete posts, each crowned with a single large globe. The entire installment was donated to the fair by the American Cement Products company of Los Angeles.

The race track is being leveled and watered and dragged to insure that its condition will be as near perfect as it is possible to make it. In the words of Secretary Paine, "it will be as fast as a bullet." A new wire fence with steel posts replaces the old wooden one in front of the grandstand.

Nor has the beautification of the grounds been overlooked in the general scheme of improvement. Numerous shrubs have been set out since last year and the lawns, driveways and roads are receiving the constant attention of a force of fifteen men.

Santa Rosa Meeting Big Success

Three Heat Plan Results in Snabby Racing and Close Contests, and Draws Large Crowds

The annual meeting of the Pacific Coast Trotting Horse Breeders' Association, held this year at the famous mile track at Santa Rosa, was highly successful from almost every point of view. While no records were broken in the races, there were close contests in nearly every event and the sport was clean and high class throughout the week.

A new stallion trotting record for California was made by Peter McKlyo on the opening day when he trotted a mile unaccompanied by a pace maker in 2:06.

The weather was almost perfect for comfort, but hotter afternoons would doubtless have resulted in faster time. There were no long delays, every race was called on time, Starter Higginbotham got his fields away on even terms and with very little scoring, the judges and the timers did their whole duty and there has not been a meeting in California in years that was more enjoyable and satisfactory to the horsemen and spectators alike.

The attendance was fair for the first three days, and on Saturday, when the free-for-all pace was the leading attraction, the grand stand was crowded and three thousand persons stood along both sides of the stretch or sought other vantage points, and remained standing during the whole afternoon. It was proof positive that the love of the sport of harness racing is still strong in the hearts of the people and that good racing will not only draw the crowds but will hold them until the winners are proclaimed.

The judges who acted during the meeting were John A. McKerron of San Francisco, Robt. S. Brown of Petaluma, A. L. Nichols of Chico, F. J. Ruhstaller of Sacramento, and Ben F. Rush of Sacramento, all citizens of the highest standing and reputation in the communities in which they live. Geo. B. Kelley was Clerk of the Course, and I. B. Dalziel made an efficient Marshal.

An account of the first day's races appeared in the Breeder and Sportsman last week.

The second day's program opened with a mile against time by Miss Macklie, bay mare by Stanford McKinney, dam Strathalie by Strathway, owned by Mr. M. L. Woy of Fresno and driven by John Quinn. This mare is a full sister to Pavana 2:10¼ and is also a trotter. Se made her mile in 2:22, giving Strathalie her third standard performer, all trotters.

The first race of the afternoon was the two-year-old trotting division of the Pacific Breeders' Futurity, with a value of $1350. Five good looking two-year-olds came out when Starter Higginbotham called the race. In the draw for positions L. Todhunter's colt McKlyo Boy drew the pole, H. S. Hogoboom's Lily of the Valley by Palo King had second position, W. E. Detels' bay filly Elloretta D. by Graham Bellini was in the third place, Rhyolite, a bay colt by F. S. Whitney owned by Sutherland & McKenzie was next, and Kewpie by Carlokin, owned by Alex M. Wilson, had the outside. In scoring it was seen that McKlyo Boy and Elloretta D. had the speed of the quintette and the race for first money was between them. James Thompson, who was up behind McKlyo Boy, had little trouble in winning in straight heats, but Fred Chadbourne behind Elloretta D. made him hustle in the stretch each time and the finishes were close. McKlyo Boy was the first of the get of Peter McKlyo 2:06 to start, and he looked and acted like a worthy representative of the Peter the Great family. He is a royally bred fellow, his dam being Sweet Bow 2:17½, winner of the two-year-old trotting futurity of 1909, she by Bon Voyage 2:08 out of The Silver Bell, dam of seven in the list, by Silver Bow.

Elloretta D. showed herself a high class filly by her performance in the race. She has had nearly all her training by her owner and probably would not have been started in the race had not Chadbourne leased her a couple of weeks prior to the meeting and took a chance on making the starting payment. She trotted a good game race and was a close contender in both heats, her time being only a fraction of a second slower than the winner's, and won second money. Third money went to Rhyolite, while Lily of the Valley and Kewpie divided fourth money.

Six trotters took the word in the 2:15 trot which was on the three-heat plan, for a total purse of $900, divided $300 to a heat. In the draw for positions Major's By Guy secured the pole, with Miss San Francisco, Zolock Zar, Eloise Dell, Bert Kelly and Howard's Comet in the order named. The first and second heats were races between Major's By Guy and Eloise Dell, with the Major Dillon horse first to the wire each time and the mare a close second, in 2:11¼ and 2:11½. In the second heat of this race Miss San Francisco and Howard's Comet were distanced but on the showing that Miss San Francisco was interfered with and her sulky hit, she was placed. The third heat Major's By Guy went to a break and finished fourth, Chas. F. Silva's mare Eloise Dell winning the heat in 2:13½ driven by Walter Tryon, who handled her well throughout the race. Miss San Francisco was third and Zolock Zar also driven by his owner, M. Thompson, was fourth in the final summary.

There were only four starters in the 2:10 pace, and A. B. C., a black gelding by Young Monterey, driven by Chadbourne, was installed favorite. He won the first two heats under the lash from Hal Paxton in 2:08 and 2:07¼, but tired in the third heat and was third in 2:10. Hal Paxton knocked a quarter of a second from his former record and gave his sire Hal B. another 2:10 performer in winning this heat. A. B. C. is the first of the get of Young Monterey to get a standard record and his new mark of 2:07¼ is a reduction of three seconds from his record made last year.

A couple of time performances were the curtain-raisers for Friday. Elmo Montgomery sent Hal Logan, a son of Jim Logan, dam Sweet Hallie by American Hal, to beat 2:25¼ pacing, and gave Jim Logan his first 2:10 performer by driving Hal a mile in 2:09.

James Thompson then drove Charlotte McKlyo a mile to beat 2:30¼ trotting and she made it in 2:25¾. In doing this Thompson put into the standard record list, the second two-year-old by Peter McKlyo (5) 2:06. Thompson says that by marking Peter McKlyo in 2:06, McKlyo Boy in 2:24 when winning the two-year-old futurity, and Charlotte McKlyo in 2:25¾ against time, that he has made a record. No other five-year-old son of Peter the Great has at five years of age himself taken a trotting record of 2:06 and put two two-year-old trotters in the list, one a stake winner.

Friday was the most important day of the meeting from a breeder's standpoint, as the three-year-old trotting futurity was down for that day and it made a fine race. There were seven starters and of these all but one, Jake Logan, had raced as two-year-olds. Natal Day had won two stakes in his two-year-old form and taken the coast record for his age of 2:13½. The records of Miss Bond 2:17½, Hermes 2:16¼, and The Expense 2:13¼, were all breeders' records, while Lulu B. and Miss Axworthy Dillon had no records as two-year-olds except that they were second and third respectively to Natal Day when he won the stake at Pleasanton in 2:13½ and 2:14, the fastest heat and the fastest race ever trotted by two-year-olds on the coast. Consequently on "past performances" this three-year-old stake would go to Natal Day, with Lulu B. second and Miss Axworthy Dillon third. But Natal Day had not been working well for two or three weeks previous to the Santa Rosa meeting and neither his owner, S. Christenson, nor his trainer and driver Millard Sanders, had hopes of winning. In drawing Miss Axworthy Dillon drew the inside position, with Hermes, Miss Bond, Lulu B., The Expense and Jake Logan next in order and Natal Day on the outside unless his driver preferred to trail the pole horse. The scoring was not tedious and they soon got the word with Miss Axworthy Dillon leading at the eighth, Lulu B. second and Natal Day third, the others strung out behind them. Going up the back stretch Quinn passed DeRyder and at the half the positions of the first three were Lulu B., Miss Axworthy Dillon and Natal Day, six lengths ahead of the others in 1:05½. The positions of the first three were relatively the same during the rest of the mile, but there was a hot race through the stretch between DeRyder and Quinn, the latter landing Lulu B. in front at the wire by a neck in 2:13¼, Natal Day third, Miss Bond fourth, The Expense, Hermes and Jake Logan behind them, all inside the distance.

In the second heat DeRyder again took Miss Axworthy into the lead as soon as the word was given, with Quinn willing for Lulu B. to be in second place and Ben Walker worked Miss Bond into third place. At the first quarter Quinn got Lulu B. in front, Miss Axworthy a close second and Miss Bond third, and these three continued in that order for the rest of the mile, except that Walker moved Miss Bond up going round the turn and there was a great race down the stretch. Quinn got Lulu B. to the wire first, but it was only by a nose, as DeRyder was coming fast with the Axworthy filly and Ben Walker was trying hard to beat DeRyder with Miss Bond. Durfee had Hermes up in fourth place at the finish, The Expense was again fifth, Jake Logan was sixth and Natal Day outside the flag. The son of Wilbur Lou had thrown a curb and this accounted for his lack of form during the last few weeks of his training. It was an unfortunate ending of the race for this grand colt, and his owner, S. Christenson and his trainer Millard Sanders had the sincere sympathy of their competitors in the stake as well as their many friends among the spectators.

The third and final heat of the stake was again a horse race. After getting the word Lulu B. led to the quarter by a length, Miss Axworthy Dillon second a length in front of Hermes, who was two lengths in front of the other three. The leaders maintained their positions into the stretch, but here DeRyder began one of those drives for which he is famous and by the time the distance judge was reached he had Miss Axworthy Dillon in front of Lulu B. and beat her to the wire by more than a length, with Durfee coming up fast with Hermes and finishing third. The Expense was a good fourth, Miss Bond fifth and Jake Logan sixth. The time was 2:15, which showed that the youngsters were getting a little tired.

EL PASO (2) 2:18¼ by TRUE KINNEY 2:12¼
Winner Two-Year-Old Pacing Division Pacific Breeders' Futurity.
Owned by Roy D. Mayes, Dixon.—Driven by F. C. Chadbourne.

In the division of the purse Lulu B. won first money, Miss Axworthy Dillon second, Miss Bond third and Hermes fourth. The winner is a bay filly by The Bondsman, dam Loma B., the dam of Albaloma 2:08¼, by Stam B. 2:11¼, second dam Italia, dam of 2, by Sidney 2:19¾, third dam Dot by Prompter, fourth dam Venice by Vanderbilt, fifth dam by that old-time California thoroughbred Billy Cheatham. Lulu B. was bred and is owned by Mr. M. L. Woy of Fresno, and was trained and driven in this race by John Quinn, the Sacramento trainer. She is a racy looking, high strung young miss and Quinn deserves much credit for the way in which he has handled and driven her.

The two-year-old pacing division of the futurity had only three starters, Roy Mayes' El Paso, W. G. Durfee's Alfredo and H. A. Hershey's Galen. The last named was lame and Mr. Hogoboom, his trainer, was not anxious to start him, but as there but two others third money looked certain. At the end of the second heat, however, he asked to withdraw the colt and consequently lost all claim on any part of the stake, but considered it best to save a good colt for a future day than to save a few dollars.

When the word was given for the first heat C. A. Durfee took the lead with Alfredo, with Galen second and El Paso third, and they were in the same position at the finish which Durfee won by three lengths with Alfredo, Hogoboom second with Galen and Chadbourne third with El Paso. The time was 2:20.

In the second heat Hogoboom's colt broke soon

after the word was given and Durfee led to the first quarter by a length from Chadbourne's colt. They went to the half in the same positions, except that Hogoboom closed a lot of space with his colt, and they turned into the stretch in that order. Chadbourne began to drive El Paso and there was a pretty race down the stretch between the two leaders, Chadbourne finally getting El Paso to the wire a head in front of Alfredo in 2:18¼, with Galen inside the flag, but several lengths behind the two. With third money won Hogoboom then drew his entry rather than to punish a lame colt.

With but two starters in the third and final heat, Chadbourne made every post a winning one and led at the finish by three lengths in 2:20 and was awarded first money.

The winner is a bay gelding by True Kinney 2:12¼ and his dam is Ella J. T., dam of Natal Day (2) 2:13¼, San Felipe 2:09¼, etc., by Bob Mason, second dam Miss Taylor by A. W. Richmond. He has been given all his training by Fred Chadbourne, who drove him in this race.

With nine starters, the 2:13 pace made a good race to wind up the harness program of the third day of the meeting. The Santa Maria pacer Mono Ansel won two heats, each in 2:09¼, with Lock Logan second the first heat and Pedlar Direct second in the second heat, but in a drive down the home stretch in the final heat with Pedlar Direct and Mabel Dillon, Mono Ansel left his feet and Pedlar Direct won in 2:12 with Mabel Dillon second and Mono Ansel third. In both his winning heats in this race Finlay laid back with Mono Ansel until turning into the stretch, when he brought his little pacer up with a rush and reached the wire first. In the second heat, while he was watching Charley Becker on the outside with Bradmont at the finish, Charley DeRyder came stealing up on the inside and almost nipped the heat from him with Pedlar Direct. All three of these horses were heads apart at the wire, and it was one of the best heats of the meeting.

On Saturday, the last day of the meeting, there was nearly if not quite an attendance of four thousand, and every man, woman and child in the throng was there to see the races. It was Governor's day and Governor Johnson appeared at the track and made a short, non-political talk to the vast assemblage, but said that he knew it was impossible to keep the attention of a crowd when horses were racing, so resigned in favor of the equines.

Four time performances were made and records won before the regular program commenced, and all will be found in the summary below. There were three class races on the card, the main event being the free-for-all pace, which race was the cause of the large crowd present. It was the first time that seven such high class horses have started in a free-for-all pace in California, and while the track record was not broken, the winner of the race lowered his own record and the race was one of the best and most thrilling contests ever seen in the State. Favoritism was divided between Jim Logan, Leata J., Rastus and Vera Hal, with a few here and there who thought Ben Corbett Jr., Teddy Bear or Little Bernice might have a chance. It was not an easy field to start—in fact, any field of six or more horses that score at a two-minute clip is difficult to control so as to get them away on somewhere near even terms. but Starter Higginbotham was equal to the oicasion and the starts in this race were excellent. When he said "Go" in the first heat they were all pacing and well lined up. Leata J. and Jim Logan's drivers seemed to think each had the other to beat and they shot out into the lead like a team, reaching the first quarter in 29½ seconds, the half in :59½, neck and neck. Such a clip as this in the first heat of the season could not last, and the third quarter was slower, the third quarter-pole being reached in 1:32¼ with Jim Logan and Leata J. having come back to the horses behind them. Cohen with Vera Hal had been in striking distance and Tryon brought Rastus around on the outside where he had clear sailing if he could show enough speed. It was hammer and tongs all the way through the stretch. Jim Logan and Leata J. were tired, but they were game and paced the last quarter faster than the third. At the distance they were side by side and the wheels on their sulkies came together and the one the mare was pulling got the worst of it as the wheel broke down, preventing her driver making any further attempt to win the heat. Walter Tryon began to lift Rastus and by a masterly drive got his nose to the wire first, with Jim Logan second and Vera Hal, who had paced a splendid race, third, Leata J. fourth, Teddy Bear fifth, Ben Corbett Jr. sixth and Little Bernice seventh. The time was 2:04¾, a new record for Rastus.

There was not such a rush to get away in the second heat and when they reached the first quarter in 32 seconds Vera Hal led by a short margin, Leata J. was in second and Rastus in third place. They reached the half mile pole in 1:02½ and around the turn they bunched closer together. Again there was a race down the homestretch that it was worth going many miles to see. Rastus' driver again took the outside position and for the last fifty yards it was hard to tell whether he, Jim Logan or Vera Hal was in the lead. They were noses apart at the finish and the judges placed them as they did in the first heat. Leata J. was again fourth, Ben Corbett Jr. fifth, Little Bernice sixth and Teddy Bear seventh. The time was 2:06.

In the third heat Jim Logan led at the quarter in 31 seconds, Vera Hal at the half in 1:02½, and from there it was a race between Jim Logan, Rastus, Vera Hal and Ben Corbett Jr. At the distance Rastus left his feet for the first time in the race, Jim Logan reached the wire two lengths in front of Ben Corbett, Vera Hal was third for the third time, Teddy Bear, who came with a rush at the finish, was fourth, Rastus fifth, Leata J. sixth and Little Bernice seventh. The mile was in 2:06¼.

While the race was not the fastest ever paced on the coast, it was one of the best and most closely contested races ever seen on the California circuit.

The 2:12 class trot was a three-horse race and Bon Cres made his second win of the meeting and trotted the final heat in 2:10¼, the fastest heat made in a trotting race during the week. The second heat of this race was won by S. H. Cowell's John Mack in 2:13, after Bon Cres had made a break.

The final harness race of the meeting had a field of eight starters, and Fred Chadbourne wound up a successful week in which he was the leading money winning as well as race winning driver, by getting two heats and first money with Zolock Zar, the little brown gelding owned by M. Thompson of Ventura, who had requested Chadbourne to drive his horse. Zolock Zar also took a new record in this race. Chas. Silva's Eloise Dell trotted an excellent race, finishing second in every heat and just losing the second heat by a close margin to Ella M. R. in 2:11¼, when Zolock Zar left his feet in the stretch. Howard's Comet, who went to the half lengths in the lead in 1:03½, broke and finished sixth the first heat and was distanced in the second heat. Major's By Guy, winner on Thursday, made a break in the first heat and was distanced.

This ended the harness races under the auspices of the Pacific Coast Trotting Horse Breeders' Association, and from a racing standpoint it was one of the most successful as well as one of the most enjoyable meetings ever given by that association. The races were all run off on time, there were no delays, the starting was good and fair and it seems as if every driver was trying to win and driving for every heat.

The summaries of the harness races for the entire meeting follow:

Wednesday, August 9.

Wednesday, Aug. 9.—Pacific Breeders' Futurity No. 13, three-year-old pacers, purse $1800 ($1500 to race, $200 to nominator of dam on whose original entry winner was named, $100 to owner of sire of winner when mare was bred):

Rico, ch c by Manrico (3) 2:07¼—Pavlowa B. by Petigru 2:10½ ..... (Durfee) 2 1 2
Captain Mack, br c by The Bondsman—Bessie L. by Montana Director ..... (Woodcock) 1 2 4
Verna McKinney, b f by Vernon McKinney 2:01½—Ramona by Demonio 2:11¼..... (Chadbourne) 5 3 1
Surety, b c by The Bondsman—Eva H. by Washington McKinney 2:17½ ..... (McDonald) 3 4 5
Julia M., b f by El Angelo—Search Lida by Searchlight 2:03¼ ..... (Allen) 4 5 3
Time—2:10¼, 2:10¾, 2:09¼.

Distribution of purse—Rico $500, Captain Mack $425, Verna McKinney $325, Surety $125, Julia M. $125, W. G. Durfee, owner of dam and sire, $300.

2:09 trot, purse $500:

Bon Cres, bl h by Bon Voyage 2:08—Kate Kopje by Cresceus 2:02¼ ..... (Chadbourne) 1 1 1
Pavana, bl h by Stanford McKinney—Strathalie by Strathway 2:19 ..... (Quinn) 3 2 2
Harold C., b g by Bon Voyage 2:08—by Silver Bow 2:16 ..... (Cohen) 2 3 3
Time—2:15, 2:12¾, 2:15.

Distribution of purse—Bon Cres $250, Pavana $108.34, Harold C. $91.66, association $50.

2:20 pace, purse $900:

Bold Harry Aerolite, b h by Aerolite 2:06¾—Cricket 2:10 by Steinway (3) 2:25¾..(Machado) 1 1 1
Dixon Boy, b g by The Patchen Boy (3) 2:10¾—Leota by Diablo 2:09¼ ..... (Tryon) 3 2 2
W. J. K., b g by Dexter Prince—Psyche..(Smith) 2 7 3
Directess Mac, b m by Nearest McKinney 2:13¾—Guydon by Direct 2:05½..... (Schwartz) 6 3 5
Silver Tips, b g by Morris A.—Ramona K. by Gaviota ..... (Finley) 4 4 4
Pedlar Direct, b h by Baron Direct—Miss Episode by Pedlar 2:18½ ..... (DeRyder) 5 5 9
Villa, bl g by Nearest McKinney 2:13¾....(Allen) 7 6 6
Irene D., b m by Charley D. 2:06¼—Lady Irene 2:14½ by Diablo 2:09¼..... (Jones)10 9 7
Lock Logan, br g by Zolock 2:05¼—Effie Logan by Durfee ..... (Montgomery) 9 8 8
Alta Barnato, b g by Barney Barnato 2:19½—La Belle Altamont by Altamont..... (Berry) 8 10 10
Time—2:07¼, 2:11, 2:08¾.

Distribution of purse—Bold Harry Aerolite $450, Dixon Boy $195, W. J. K. $120, Directess Mac $45, Silver Tips $90.

Thursday, August 10.

Pacific Breeders' Futurity No. 14, two-year-old trotters, purse $1400 ($1300 to race and $100 to nominator of dam on whose original entry is named the winner of this division of the stake):

McKlyo Boy, b c by Peter McKlyo 2:06—Sweet Bow 2:17½ by Bon Voyage 2:08..... (Thompson) 1 1
Elloretta D., b f by Graham Bellini 2:11¼—Daphne McKinney by McKinney 2:11¼..... (Chadbourne) 2 2
Rhyolite, b c by F. S. Whitney 2:24¼—Rubelle by Del Coronado 2:09½ ..... (Walton) 3 3
Lilly of the Valley, b f by Palo King 2:28½—by Iran Alto 2:12¼..... (Hogoboom) 4 5
Kewpie, br g by Carlokin 2:07½—The Blonde 2:20 by Strathway 2:19..... (Durfee) 5 4
Time—2:24¼, 2:24.

Distribution of purse—McKlyo Boy $650, Elloretta D. $325, Rhyolite $195, Lilly of the Valley $65, Kewpie $65, L. H. Todhunter, nominator of dam, $100.

2:15 trot, purse $900:

Major's By Guy, b h by Major Dillon 2:18½—By Guy by Guy Wilkes 2:15¼..... (Berry) 1 1 4
Eloise Dell, br m by Alconda Jay—Lovely Dell by Prince Lovelace ..... (Tryon) 2 2 1
Miss San Francisco, br m by San Francisco 2:07¾—Burnside by Antrim..... (Schwartz) 3 5 2
Zolock Zar, br g by Zolock 2:05¼—by Alcazar 2:20½ ..... (Thompson) 4 3 3
Bert Kelley, b g by McAdrian 2:24—Mountail Girl by Mountain Boy ..... (Gallup) 5 4 5
Howard's Comet, b g by Teddy Rey—Campaign Mare by Campaign ..... (Sanders) 6 d
Time—2:11¼, 2:11½, 2:13½.

Distribution of purse—Major's By Guy $330, Eloise Dell $300, Miss San Francisco $120, Zolock Zar $120, Bert Kelly $30.

2:10 pace, purse $500:

A. B. C., bl g by Young Monterey 2:24¼—Rosalie by Dudley 2:14..... (Chadbourne) 1 1 3
Hal Paxton, b h by Hal B. 2:04¼—Coltie by Altamont 2:26¾ ..... (Woodcock) 2 2 1
Pointer's Daughter, b m by Star Pointer 1:59¼—Banker's Daughter 2:13¼ by Arthur Wilkes 2:28½..... (Finley) 3 3 2
Silver Tips, b g by Morris A.—Ramona K. by Gaviota ..... (Cecil) 4 4 4
Time—2:08, 2:07¼, 2:10.

Distribution of purse—A. B. C. $191.66, Hal Paxton $166.65, Pointer's Daughter $91.66, Silver Tips $49.98.

Friday, August 11.

Pacific Breeders' Futurity No. 14, two-year-old pacers, purse $1100 ($1000 to race and $100 to nominator of dam on whose original entry is named the winner of this division of the stake):

El Paso, b g by True Kinney 2:12½—Ella J. T. by Bob Mason 2:27¼..... (Chadbourne) 3 1 1
Alfredo, b c by Copa de Oro 2:01—Lady H. 2:26 by Del Coronado 2:09½..... (Durfee) 1 2 2
Galen, b c by Jim Logan 2:01¾—Palo Maid by Palo King 2:28½..... (Hogoboom) 2 3 dr
Time—2:20, 2:18¼, 2:20.

Distribution of purse—El Paso $500, Alfredo $250, association $250, Woodland Stock Farm, nominator of dam, $100.

Pacific Breeders' Futurity No. 13, three-year-old trotters, purse $2800 ($2500 to race, $200 to nominator of dam on whose original entry is named the winner of this division of the stake, and $100 to owner of stallion, sire of winner, when mare was bred):

Lulu B., b f by The Bondsman—Loma B. by Stam B. 2:11¼ ..... (Quinn) 1 1 2
Miss Axworthy Dillon, b f by Axworthy 2:15½—Cleo Dillon 2:13¾ by Sidney Dillon (DeRyder) 2 2 1
Miss Bond, b f by The Bondsman—Miss Harris by Sidney Dillon ..... (Walker) 4 3 5
Hermes, br c by Carlokin 2:07½—Miss Quealey 2:26¾ by Moko..... (Durfee) 6 4 3
The Expense, br f by The Proof 2:10¾—Nusta 2:23½ by Nushagak ..... (Chadbourne) 5 5 4
Jake Logan, br c by Nearest McKinney 2:13¼—Berta Logan by Bert Logan 2:16¼..... (Cecil) 7 6 6
Natalday, b c by Wilbur Lou (3) 2:10¼—Ella J. T. by Bob Mason..... (Sanders) 3 d
Time—2:13¾, 2:13½, 2:15.

Distribution of purse—Lulu B. $1041.65, Miss Axworthy Dillon $833.33, Miss Bond $208.34, Hermes $208.34, The Expense $83.34, Natalday $125, M. L. Woy, nominator of dam, $200, Capt. C. P. McCan, owner of sire, $100.

2:13 pace, purse $900:

Mono Ansel, b h by Monicrat 2:13½—Decoratio by Prince Ansel (2) 2:20½..... (Finley) 1 1 3
Pedlar Direct, b h by Baron Direct—Miss Episode by Pedlar 2:18½..... (DeRyder) 8 2 1
Lock Logan, br g by Zolock 2:05¼—Effie Logan by Durfee ..... (Montgomery) 2 4 5
Mabel Dillon, ch m by Sidney Dillon—Palo Belle 2:24½ by Palo Alto 2:08¾..... (Burton) 4 5 2
Bradmont, b g by Alto Leyburn 2:24¼—by The Earlmont 2:09¾ ..... (Becker) 5 3 4
W. J. K., b g by Dexter Prince—Psyche..(Smith) 3 6 6
Breezy Marie, b m by Athasham 2:09¼—Breezy Mack by McKinley..... (Reynolds) 6 7 7
Alto Barnato, b g by Barney Barnato 2:19½—La Belle Altamont by Altamont..... (Berry) 7 dr
Silver Tips, b g by Morris A.—Ramona K. by Gaviota ..... (Cecil) d
Time—2:09¼, 2:09¾, 2:12.

Distribution of purse—Mono Ansel $345, Pedlar Direct $225, Lock Logan $105, Mabel Dillon $105, Bradmont $75, W. J. K. $45.

Saturday, August 12.

2:12 trot, purse $500:

Bon Cres, bl h by Bon Voyage 2:08—Kate Kopje by Cresceus 2:02¼..... (Chadbourne) 1 2 1
John Mack, b g by George A. Fuller 2:08¼—Ida Purple 2:14½ by Cutting 2:10½..... (Tryon) 3 1 2
Harold C., b g by Bon Voyage 2:08—by Silver Bow 2:16..... (Cohen) 2 3 3
Time—2:13, 2:13, 2:10¼.

Distribution of purse—Bon Cres $208:33, John Mack $150, Harold C. $91.66, association $50.

Free-for-all pace, purse $900:

Rastus, br g by Liberty Boy—Georgia Rose by Grant's Abdallah..... (Tryon) 1 1 5
Jim Logan, b h by Charles Derby 2:20—Effie Logan by Durfee ..... (Montgomery) 2 2 1
Ben Corbitt, Jr., b g by Ben Corbitt 2:21—Miss Thompson 2:14½ ..... (Finley) 6 5 2
Vera Hal, b m by Expressive Mac 2:25½—Carmen by Newsboy ..... (Cohen) 3 3 3
Leata J., b m by Royal McKinney 2:29¾—Geraldine 2:16¾ by Mount Vernon 2:15½..... (Jones) 4 4 6
Teddy Bear, b h by Del Coronado 2:09½—Queen S. by Sable Wilkes 2:18..... (Tryon) 5 7 4
Little Bernice, b m by Del Coronado 2:09½—Pearl Pointer by Sky Pointer..... (Schwartz) 7 6 7
Time—2:04¾, 2:06, 2:06¼.

Distribution of purse—Rastus $300, Jim Logan $300, Ben Corbitt, Jr. $75, Vera Hal $135, Leata J. $60, Teddy Bear $30.

2:20 trot, purse $900:

Zolock Zar, br g by Zolock 2:05¼—by Alcazar 2:20½..... (Chadbourne) 1 3 1
Ella M. R., br m by Lord Alwin—Excella by Monbells 2:23¾ ..... (Becker) 5 1 6
Eloise Dell, br m by Alconda Jay—Lovely Dell by Prince Lovelace ..... (Tryon) 2 2 2
Miss San Francisco, br m by San Francisco 2:07¾—Burnside by Antrim ..... (Schwartz) 4 4 3
Lindsay Bell, b m by Bon Voyage 2:08—Zomitalia by Zombro 2:11..... (Walton) 3 5 4
Dr. S., b g by Carlokin 2:07½—by Guide 2:16¼..... (Murphy) 7 6 5
Howard's Comet, b g by Teddy Rey—Campaign Mare by Campaign..... (Sanders) 6 d
Major's By Guy, b h by Major Dillon 2:18½—By Guy by Guy Wilkes 2:15¼..... (Berry) d
Time—2:10½, 2:11¼, 2:11½.

Distribution of purse—Zolock Zar $345, Ella M. R. $150, Eloise Dell $225, Miss San Francisco $105, Lindsay Bell $75.

Performances Against Time.

Aug. 9—To beat 2:12¼ trotting:

Peter McKlyo, b s (5) by Peter the Great 2:07¼—Klyo by Jay McGregor 2:07¼..... (Thompson) 2:06

Aug. 10—To beat 2:30¼ trotting:

Miss Macklie, b m by Stanford McKinney—Strathalie by Strathway 2:19..... (Quinn) 2:22

Aug. 11—To beat 2:25¼ pacing:

Hal Logan, b c by Jim Logan 2:01¾—Sweet Hallie by American Hal..... (Montgomery) 2:09

Aug. 11—To beat 2:30¼ trotting:

To beat 2:25¼ pacing:

Sarah C., ch m by Educator—Hallie Cropsy (Norris) 2:13½

GRAND CIRCUIT RACES AT PITTSBURG.

The last three days at Pittsburg resulted in some excellent racing, although no records were broken. All the races were on the three-heat plan which enabled the Furniture City Association to close its program on Saturday without leaving any unfinished events. The features of the week were the defeat of Mabel Trask in straight heats by St. Frisco, and the defeat of Single G. in like manner by Napoleon Direct, both winners being driven by Ed Geers, who received an ovation each time and blushed to his ears thereat. The second heat by St. Frisco in 2:04¼ and the first heat by Napoleon Direct in 2:01 were the fastest trotting and pacing heats respectively during the week. The summaries:

Thursday, August 10.

To beat 2:30¼ trotting:
Crystal Border, br f by Border Knight (Payne) .. Won
Time—2:15¼.

Three-year-olds, trotting, three-heat plan, purse $1000:
Cochato Jay, ro c by Cochato.....(Gosnell) 1 1 1
Jack Mooney, b c by J. Malcolm Forbes(McDonald)3 2 2
Peter Mount, ch c by Peter the Great..(Nuckols) 2 3 3
Time—2:13½, 2:13¼, 2:13¾.

2:17 class trotting, three-heat plan, purse $1000:
Sister Strong, g m by Strong Boy.....(Valentine) 1 2 1
Helen Worthy, b m by Barongale.....(Murphy) 6 1 2
Lindsay, b g by Todd.....(McDonald) 2 3 4
Sandy, ch g by Waltz (Donohue), Coastess Mabel, br m (Cox), Daisy Todd, b m (Chandler), The Lark, b m (Durfee), Royal Hall, blk h (Fleming) also started.
Time— :09¾, :08¼, 2:08¾.

2:17 class pacing, three-heat plan, purse $1000:
Derby Custer, ch g by Ed Custer.....(Murphy) 1 1 1
Contention B., br g by Copa de Oro.....(Durfee) 2 2 4
Prestolite, br m by Don Varrick.....(McDonald) 3 3 3
Young Todd, b g by Dictator Todd.....(Cox) 4 4 2
John A. H, ch g.....(Benyon) d
Time—2:07¾, 2:11¼, 2:10.

2:10 class trotting, three-heat plan, purse $1000:
Director Todd, b h by Todd.....(Cox) 1 1 3
Guy Nella, br m by Guy Axworthy.....(Snow) 3 2 1
Time—2:08½, 2:07¼, 2:06¾.
Esperanza, b m by Carlokin.....(Durfee) 2 3 2
Vanka, b g by Unko.....(Murphy) 4 4 dr

Friday, August 11.

2:14 class pacing, three-heat plan, purse $1000:
Thomas Earl, b h by The Earl.....(Marvin) 1 1 1
The Problem, blk h by Cochato.....(Murphy) 2 2 2
Rayo de Oro, ch g by Copa de Oro.....(Atkinson) 3 3 3
Time—2:09¾, 2:08¼, 2:11½.

2:12 class trotting, three-heat plan, purse $1000:
Worthy Prince, br h by Prince McKinney (Cox) 1 1 2
Allie Watts, ch m by Gen. Watts.....(Edman) 2 2 1
Brescia, b m by Bingara.....(Rea) 3 3 4
Humfast, b m by Trampfast (Murphy), Echomore, blk h (Bogash), and Roy Miller, br h (Grady) also started.
Time—2:08½, 2:08¼, 2:08¾.

The Comstock, 2:12 class pacing, value $3000; three-heat plan:
Box R., b g by Box Elder Jr.....(Valentine) 1 1 1
Jay Ell Mack, b h by E. J. Wilkesdust..(Murphy) 5 2 2
Diumeter, b g by Dium.....(Lindsay) 3 3 4
Wilbur S., ch g by Anderson Wilkes (Gosnell), Baymar, b h (McDonald), Spring Maid, ch m (Cox), and Arkancello, b h (Edman) also started.
Time—2:05½, 2:05¼, 2:05¼.

2:05 class pacing, three-heat plan, purse $1000:
R. H. Brett, b g by Waponee.....(Grady) 1 2 1
Gen. Todd, b h by Geo. Leavitt.....(Rea) 2 1 4
Camelia, br m by Cummer.....(Cox) 2 3 2
White Sox, b m by Del Coronado (Durfee), and Jones Gentry, ch g (Ostrander) also started.
Time—2:05½, 2:04, 2:07¼.

The Matron Stake, trotting, value $6000; best two in three:
Expressive Lou, b f by Atlantic Express..(Murphy) 1 1
Lightsome Watts, b f by Gen. Watts.....(Geers) 2 3
Bingen Silk, b c by Bingen.....(Chandler) 3 2

Saturday, August 12.

2:09 class pacing, three-heat plan, purse $1000:
Billy Dale, b g by Dale Patchen.....(Cox) 1 1 1
Baby Bertha, b m by Silk Cord.....(Garrison) 3 2 2
Areta V., ch m by Constanero.....(Gosnell) 2 3 3
Jean, b m by Flosko (Murphy), and Castaway, b g by Oro McKinney (Kane) also started.
Time—2:07¼, 2:07¾, 2:06.

The Furniture Manufacturers' stake, value $5000; 2:08 class trotting, three-heat plan:
St. Frisco, b h by San Francisco.....(Geers) 1 1 1
Mabel Trask, ch m by Peter the Great.....(Cox) 2 2 4
Laramie Lad, b g by Master Be.....(McDonald) 3 3 2
Miss Perfection, b m by General Watts (Gosnell), Virginia Barnette, b m (Durfee), and Vanko, b g (Murphy) also started.
Time—2:07¼, 2:04½, 2:07.

Free-for-all pacing, purse $1000, three-heat plan:
Napoleon Direct, ch h by Walter Direct...(Geers) 1 1 1
Single G., b h by Anderson Wilkes.....(Gosnell) 3 2 3
Russell Boy, b g by Rustic Patenter....(Edman) 2 3 4
Fay Richmond, gr g by New Richmond.....(Rea) 4 4 2
Time—2:01, 2:03¾, 2:03¼.

2:04 class trotting, purse $1000, three-heat plan:
Junior Watts, b h by General Watts.....(Rea) 2 1 1
Baby Doll, b m by Tom Smith.....(Durfee) 1 3 4
Truesada, b m by Moko.....(Cox) 3 4 2
Pittsburg, ch g by General Athol (Murphy), Onward Allerton, b g (Edman), Caroline, b m (Fleming), and Tommy de Forrest, br h(Chandler) also started.
Time—2:08½, 2:09¾, 2:11½.

COLUMBUS GRAND CIRCUIT RACES.

The $30,000 stakes and purses offered for one week of harness racing at Columbus opened on Monday, August 14th with a good attendance. Russell Boy in the 2:05 pace and The Lark in the 2:18 trot were made favorites in the betting and both were distanced in the second heat of their respective races. It was all Russell Boy in the first heat of the 2:05 pace, but he made a fatal break turning into the stretch in the second mile and was outside the flag when it fell. Judge Ormonde won this heat and the next but was unable to withstand Lelia Patchen's rush in the fourth mile, the time being 2:04¼, or the best of the race, which is the first six-heat one of this Grand Circuit season. Snow's mare won the next two heats about as she pleased.

Straight Sail, four-year-old mare, owned by J. C. Small of Cincinnati, came on the Grand Circuit for the first time and was always in front in the three heats of her 2:18 trot. Countess Mobel made a bold bid in the third mile, but was beaten by a head. At no time did The Lark act well.

Derby Custer, driven by Murphy, was never in trouble during the 2:15 pace, and the real competition in this race was between Wampatuck, Contention B. and Willis Woodland for second place. The summary:

2:05 class pacing, 3 in 5 heats, purse $1000:
Lelia Patchen, blk m by Dan's Brother .....(Snow) 5 3 2 1 1 1
Judge Ormonde, blk h by Ormonde.... .....(Valentine) 6 1 1 2 3 2
R. H. Brett, b g.....(Grady) 2 2 3 4 2 ro
Fred Russel, b g (Herzy), Potrero Boy, b g (Daniels), Russell Boy, b s (Edman) also started.
Time—2:05¼, 2:05¼, 2:06¼, 2:04¼, 2:07½, 2:06¼.

2:18 class trotting, 3 in 5, purse $1000:
Straight Sail, b m by Mainsheet....(Swearingen) 1 1 1
Countess Mobel, b m.....(Cox) 6 2 2
Aulsbrook, br h.....(Valentine) 2 7 6
Royal McKinney, blk m (Murphy), The Amazing Lady, b m (Erskine), Sandy, sor g (Donahue), Kerrigan, br h (McDonald), The Lark, b m (Durfee), Aura Belle, ch m (Van Atta) also started.
Time—2:09¼, 2:10½, 2:10¼.

2:15 class pacing, 3 in 5, purse $1000:
Derby Custer, ch g by Ed Custer.....(Murphy) 1 1 1
Wampatuck, br s.....(McDonald) 3 2 2
Contention B., b g.....(Durfee) 2 4 5
Willis Woodland, b h (Herzy), Jimmy E., blk g (Valentine), also started.
Time—2:10¾, 2:09¾, 2:09¼.

Tuesday, August 15.

All three events of the second day's program at Columbus were won in straight heats, Murphy winning first money in the $3000 purse for 2:12 class pacers with Jay Ell Mack and first in the $1000 purse for 2:09 class trotters with Mirthful 2:06¼. Both these horses held faster records than the class of their races but were eligible under the new time allowance rules. Jay Ell Mack's former record was 2:04¾, which he was compelled to cut to 2:03¼ to win. In the 2:09 trot Harry Bell's Grattan Boy divided fourth money with McMahon's Sadie S.

Ben Gregor took the card's other race, the 2:13 trot, in straight heats, and in doing so prevented first choices from sweeping the program. Summaries:

Civic Center stake, 2:12 pacers, 3 in 5; purse $3000:
Jay Ell Mack, b s by E. J.....(Murphy) 1 1 1
Diumeter, b g.....(Grady) 2 2 2
Young Todd, br g.....(Cox) 3 5 3
Also started: Wilbur S., sor g (Gosnell), Baymar, b h (McDonald).
Time—2:06½, 2:03¼, 2:03½.

2:09 class trotting, 3 in 5; purse $1000:
Mirthful, b m by Star of Patchen.....(Murphy) 1 1 1
Deroche, ch h.....(Geers) 2 2 2
Zombro Clay, br h.....(Valentine) 4 5 3
Also started: Grattan Boy, b g (Bell), Sadie S., b m (McMahon), The Exposer, br h (Donahue).
Time—2:09¾, 2:07¾, 2:09¼.

2:13 class trotting, 3 in 5; purse $1000:
Ben Gregor, b g by Tommy Gregor..(Whitehead) 1 1 1
Allie Watts, ch m.....(Edman) 2 2 2
Lindsey, b g.....(McDonald) 4 3 4
Also started: Trusada, b m (Cox), Teddy Brooks, b h (Valentine), Vanco, b g (Murphy), Echomore, blk h (Bogash).
Time—2:09¾, 2:08¾, 2:08¼.

Wednesday, August 16.

Ed Geers took both himself and his pacer Napoleon Direct into the 2:00 list at Columbus Wednesday, when he won the first heat of the free-for-all pace in 1:59¼. Murphy, behind Peter Stevens was so close that he was separately timed in 2:00. It was the first time in a driving career of forty-five years that Edward Geers ever rode a mile in better than 2:00. In the next heat the pace was slower through the first half, and Napoleon Direct was four lengths back at the turn. He closed with a wonderful rush and finished a head in front of Single G. Separate timing caught Napoleon Direct the last half in 0:56½.

In a time trial Directum I became the world's champion pacer for one and one-sixteenth miles. The old record was 2:14¾, made in 1904 by Cheery Lass. Off to a slow start, Directum I did the distance in 2:09¾. The mile was paced in 2:00¼.

Miss Harris M., the champion four-year-old pacing mare, failed in an effort to lower her mark of 2:01¼. She was tired when the final quarter was commenced and finished the mile in 2:02. Summaries:

Devereux stake, 2:15 trotters, three heats, $2000:
Early Don, s g by Don Cole.....(Valentine) 1 1 1
Brisac, br s.....(Murphy) 2 2 2
Lu Princeton, b h.....(Cox) 3 4 3
Regardless, b s.....(Hedrick) 4 3 4
Time—2:06¼, 2:09, 2:07¼.

Free-for-all class pacing, 2 in 3, $1500:
Napoleon Direct, ch h by Walter Direct.....(Geers) 1 1
Peter Stevens, b h.....(Murphy) 2 3
Single G., b h.....(Gosnell) 4 2
Hal Boy, b g.....(McMahon) 3 4
Time—1:59¾, 2:01½.

2:09 class pacing, 3 in 5, $1000:
Baby Bertha, b m by Silk Cord.(Garrison) 8 2 1 1 1
Beth Clark, blk m by Joe Patchen(Hedrick) 1 1 4 7 2
Bingen Pointer, b g.....(Snow) 5 4 5 2 5
Also started: Black Ball, blk h (Valentine), Areta V., ch m (Gosnell), Jean, b m (Murphy), Van Burn, ch g (Van Atta), Hal Plex E., br s (Geers).
Time—2:05¼, 2:04¼, 2:04¼, 2:07¼, 2:09¾.

2:11 class trotting, 3 in 5, $1000:
The Eno, ch h by The Native.....(Valentine) 1 1 1
Humfast, b m.....(Murphy) 3 2 2
McCloskey, br g.....(McDonald) 2 3 3
Also started: San Felipe, b g (Daniels), Harry Hamilton, b h (Whitehead).
Time—2:09¼, 2:06¾, 2:08½.

To beat 2:14¾ pacing, at 1 1-16 miles:
Directum I, ch s by Directum Kelly.....(Murphy) Won
Time—2:09¾.

To beat 2:01¼ pacing:
Miss Harris M., b m by Peter the Great (McDonald) Lost
Time—2:02.

At a recent meeting of the Jockey Club stewards an amendment to the present selling race was proposed by H. K. Knapp and seconded by Andrew Miller, to read as follows: "Every horse running in a selling race shall, if the winner, be liable to be claimed for the selling price by the owner of any other horse running in the race, but if it is a condition of the race that the winner shall be sold at auction, the sale shall take place immediately after the race and the surplus over the selling price be equally divided among the first three horses."

OAKLAND STADIUM CLUB RACES.

Another largely attended and very successful matinee was held at the half mile track at Eighteenth and Peralta streets, Oakland, on Sunday last by members of the Oakland Stadium Riding and Driving Club, about 1000 persons being present. In every instance but one the races were won in straight heats, but in the 2:20 pace there was a close contest between Cleo Verne, driven by her owner, Mfs. Carlisle, and the pacer Burbank driven by Mr. Seale. Cleo Verne took the first heat in the fastest time of the race, Burbank getting the next two.

The judges during the afternoon were Fred Wuescher, Chas. Miller and W. Rutherford, while Geo. Algeo again officiated as starter and gave general satisfaction. Summaries:

First race—2:25 pace:
Starlight .....(C. Gabrielsen) 1 1
Tom Wilkes .....(H. Olsen) 2 2
Harold G. .....(J. Williams) 3 3
Time—2:36, 2:32.

Second race—Free-for-all pace:
Allegro .....(G. Schreiber) 1 1
Little Dick .....(Al Scott) 2 2
Hallie's Star .....(A. Edstrom) 3 3
Francisco .....(J. V. Galindo) 4 4
Time—2:16, 2:22.

Third race—2:30 trot:
Bell Sawyer .....(Al Hanks) 1 1
Teddy .....(W. Collins) 3 2
Andy O. .....(W. M. Ray) 2 3
Time—2:45, 2:36.

Fourth race—2:20 pace:
Burbank .....(R. Seale) 2 1 1
Cleo Verne .....(Mrs. Carlisle) 1 2 2
Berkeley Girl .....(A. Reisman) 3 3 3
Time—2:22½, 2:24, 2:24.

Fifth race—2:25 mixed:
Teddy B. .....(H. Buckley) 1 1
General Villa .....(E. Johnson) 3 2
Prince .....(H. Garrison) 2 3
Lena Lee .....(T. Le Ballister) 4 4
Time—2:30, 2:29.

Sixth race—2:40 mixed:
Frankie Burns .....(W. G. Burgelric) 1 1
Willis Baldwin .....(W. D. Willis) 2 2
Henri A. .....(H. E. Andiffred) 3 3
Time—3:20, 3:22.

Farm Horses Indispensable.

Today, when the tractor is coming into favor as a source of farm power, there arethose wild-eyed extremists who would have us believe that the horse is bound to be abolished from the farm. This same propaganda was preached at the time when steam power replaced horse power for driving the old-time threshers. As a result of this recent awakening in favor of tractor power, horse breeders have become alarmed again at what seems to be a direct blow at their business.

Horses have been the farmers' helpers and companions when the stress of farm work was greatest. They have been a part of his big farm household in which family ties really exist, and it may be said that he has perhaps resented, for this reason mainly, the idea that he should go back on his friends and replace them with a mechanical substitute.

With all of our automobiles and tractors, no sane man should make the claim that there is no need of horses on the farm. There is a great amount of work which the horse can do well. For instance, in cultivating growing crops, like corn, where the work is light and where the natural instinct of the horse can be trained to follow the row and allow the farmer to attend strictly to the job of getting rid of weeds, no tractor of the present stage of development can be said to be in competition with the horse. For the small garden or truck patch the horse will always have first call.

The following from the English sporting journal, "Horse and Hound," is of interest: "The opponents of racing in this country may be enlightened by the news that permission has been given by the French Minister of Agriculture, Mr. Meline, for a partial resumption of racing across the Channel. They may possibly be led to reflect that there must be something more in the business than mere sport when our Ally, with the enemy still occupying large tracts of the country, comes to such a decision as that to which I have referred. Something of educational value to the uninformed may emerge from this fact, although it is true that they have not been moved by the consideration that racing has gone on during the war in Germany, Austria, Italy, and Russia (where they have been having as many as seventeen races a day), while the King of Spain is giving it his countenance and support in no uncertain fashion. All this points to the fact that the immense value of racing in connection with the breeding of horses is thoroughly well recognized abroad, but there are numbers of people here who are blinded by the sporting element associated with it, and who allow their ignorant prejudice to run away with them. The scales will fall from their eyes some day, perhaps, when their uninstructed efforts of obstruction have worked irremediable harm to the cause of the national supply of horses. The racing in France will take place between August 31st and November 12th, and will be confined to three courses, those at Caen, Moulins, and Mont-de-Marsan. The trials, as they are called, will be confined to thoroughbreds, foaled and bred in France."

Notes and News

H. Finley, the youngest of the drivers at the Santa Rosa meeting, won $512 and did not have the best of luck at that.

◈◈◈

Adioo Guy won a six heat race at the Monroe, New York, half mile track last Saturday and the time of the last heat was 2:11.

◈◈◈

John Quinn only started twice at Santa Rosa but he won the three-year-old trotting futurity and was second in the 2:09 trot, with a total of $1350 to his credit.

◈◈◈

Geers says that St. Frisco 2:04¼ is the gamest horse he ever drove, but does not have a fast brush at the start of a mile though he has a lot of steam at the finish.

◈◈◈

It is stated that there will be at least 150 thoroughbreds at the California State Fair this year and that the purses will not be less than $150, with more for handicaps and special events.

◈◈◈

Charley Silva's mare Eloise Dell by Henry Helman's stallion Alconda Jay is quite a trotter this year. Walter Tryon started her twice at Santa Rosa and she won first money in one heat and was second in the other five. Her winnings amounted to $525.

◈◈◈

Millard Sanders certainly had bad luck at Santa Rosa. The fast trotter Howard's Comet which he started twice was distanced in each race after showing great speed, and the colt Natal Day threw a curb and was distanced in the $2500 stake for three-year-olds after finishing third in the first heat.

◈◈◈

"Pop" Durfee started two two-year-olds and two three-year-olds in the futurities at Santa Rosa. He got $500 with Rico, $65 with Kewpie, $250 with Alfredo and $208 with Hermes. Four races and never outside the money. Pretty fair.

◈◈◈

The former cow pony Solomon Boy, that raced so well in the pacing classes in the Middle West last year and ended the season with a record of 2:12¼, won a five heat race at the Cranwood, Ohio, half mile track last week at 50 to 1, and incidentally broke into the 2:10 list with a record of 2:08½, made in the third heat.

◈◈◈

It was either Mark Twain or Artemus Ward who once wrote that a report of his death had been greatly exaggerated. Dr. Cecil Corwin, who has recently taken over the San Lorenzo half mile track and will fit it for a public training track, writes us that Cricket 2:10 is not dead as reported but is still living at Hayward at the ripe age of 32 years.

◈◈◈

Fred Chadbourne was the leading race winning and money winning driver at Santa Rosa last week. Out of eight starts he won five races, was second once, third once, and in the three-year-old trot where he was placed fifth in the final summary won $83.34 by being fourth with The Expense in the third heat. His total winnings for the meeting were $2536.33.

◈◈◈

Following the death of M. W. Savage, owner of the International 1:55 Horse Farm, and his famous stallion, Dan Patch 1:55¼, comes the news that all of the stallions, broodmares, colts and fillies belonging to the estate will be sold. In the list of stallions are Arion 2:07¾, Minor Heir 1:58½, George Gano 2:02, and Dazzle Patch 2:09¾, all of which are in the stud, while those for sale for racing purposes are Power Patch 2:03½ (eligible to the 2:25 class), and Electric Patch (3) 2:09¼. There are fifty brood mares at the farm, and a great many colts and fillies.

◈◈◈

Charley DeRyder came up from Selma, Fresno county, where he is running an alfalfa cafeteria for a bunch of cattle he owns, and drove Miss Axworthy Dillon in the three-year-old trotting futurity. Mr. E. A. Gammon of Courtland, who in partnership with DeRyder bred the filly, was also present, as was Mr. T. E. Pollock of Flagstaff, Arizona, who purchased Miss Axworthy Dillon a few months ago. DeRyder drove the filly well, getting second money in the first and second heats and first money in the third heat—the total amounting to $833.33.

◈◈◈

Getting thrown from his sulky and tramped on by a horse seems to have been just the treatment to put the veteran Ed Geers in condition. Since getting out of the hospital he has defeated Mabel Trask in straight heats with St. Frisco, done the same thing to Single G. with Napoleon Direct and last Wednesday he drove himself and the pacing son of Walter Direct to a record of 1:59¾, this being the first time he had ever ridden a mile on the race track as good as two minutes. If the dean of the harness turf has another accident he will be liable to lower the record of Dan Patch and Harry Hersey. Accidents are not barred in any prediction that may be made about Marse Geers.

Walter Cox's winnings for this season totaled a little over $20,000 at the close of the Pittsburg meeting.

◈◈◈

Mabel Trask 2:03¾ is the fourth 2:04 trotter to the credit of Peter the Great 2:07¼. No other stallion has more than one with a record of 2:04 or better.

◈◈◈

The "Lou Dillon family" is now in its second generation, so far as official records are concerned, the two-year-old filly Girl of the Fields 2:26¼, whose record was taken recently at Kirkwood, Del., being the granddaughter of the champion trotting mare.

◈◈◈

Walter Tryon, one of the younger drivers, teamed well at Santa Rosa, where he drove for Mr. S. H. Cowell and for Chas. Silva. He won the free-for-all pace with Rastus, driving the fastest heat of the meeting, was second three times and third once out of five starts. His winnings totaled $1170.

◈◈◈

Mr. S. H. Cowell's pacer Rastus 2:04¾, winner of the free-for-all, paced a long mile in each heat that he won as he came up on the outside both times. It was a wise thing for his driver, Walter Tryon, to do, as the other horses were very closely bunched and there was clear sailing farther out, even though it was a little farther around.

◈◈◈

Had a Californian been in attendance when the Austrian trotting derby was won May 14th this year his bosom would have "swelled with pride," as the Admiral in Pinafore remarked, as Ispan, the winner, was by The Zoo 2:09, a son of the deceased California sire Zombro, and his dam was a daughter of the dead California sire Alfred G.

◈◈◈

Harry Dillon 2:10 trotting, by Sidney Dillon, dam Adioo, the dam of Adioo Guy 2:05¼, etc., has his first standard performer in Lamar Dillon 2:08½. That combination of Sidney Dillon-Guy Wilkes blood that Frank Turner first blended at Santa Rosa Stock Farm seems to be what those Santa Rosa wine men would call a "perfect blend."

◈◈◈

Longview Farm's premier saddle stallion, My Major Dare, that won the grand championship during the P.-P. I. E., has won every time he has been shown this year and secured the blue ribbon in the $1000 stake at Columbia, Missouri, August 2d, and the grand champion stake at Mexico, Missouri, August 8th, where he beat six magnificent saddle stallions. John Hook is showing him.

◈◈◈

St. Frisco 2:04¼, the Geers stable trotter by San Francisco that has been second to Mabel Trask in three races on the Grand Circuit and finally beat her in straight heats at Pittsburg, is owned by Miss Lulu Jones, daughter of the well known trotting horse breeder and owner, F. G. Jones of Memphis, Tenn. Mr. Jones bought St. Frisco as a yearling for $300 and presented him to his daughter.

◈◈◈

Secretary R. H. Lillard of the American Saddle Horse Breeders' Association makes the authoritative statement that the breeders of registered saddle horses are awakening to the opportunities of the present and the future. He bases his observation on an increase of more than 30 per cent in the number of registrations for 1916, as compared with the same time in 1915. Buyers and breeders are growing more persistent each day in their demands for registration.

◈◈◈

Mr. A. W. Longley, of Oakland, owner of the royally bred horse Pedlar Direct, was highly pleased when Chas. DeRyder landed the son of Baron Direct in front in the third heat of the 2:13 pace at Santa Rosa Mr. Longley was for many years a prominent road driver and member of the Chicago Matinee Club, and since retiring from the actual management of his large business interests in Chicago and making his permanent residence in California, he has taken a great deal of enjoyment in having three or four of his horses worked for speed at Pleasanton. Mr. Longley, we believe, was the first man to bring a herd of registered Polled Angus cattle to California and he sold to the California State Farm the animals of that breed that won several blue ribbons for the farm at the fairs. He has sold his ranch at Bishop, Inyo county, where he formerly bred these cattle.

◈◈◈

Martin Luther Woy, Sr., of Fresno, who bred and owns Lulu B. 2:13¼, winner of the three-year-old trotting division of the Pacific Breeders' Futurity at Santa Rosa last week, was greatly pleased over the showing made by The Bondsman's daughter, and entertained John Quinn, the filly's driver and trainer, with the latter's family and a number of friends, at dinner at the Hotel Overton that evening. A telegram to Mrs. Woy at Fresno, with a line or two to Martin Luther Woy Jr. (who by the way is just seven weeks old) was the first business transacted by Lulu B.'s owner when the race was ended, and a conversation by telephone ensued as soon as the long distance station was reached in town after the races were over. Mr. Woy received many congratulations on his winning of the stake, as he is one of the most popular men engaged in breeding trotters in California.

St. Frisco 2:04¼ got real good at Pittsburg and beat Mabel Trask in straight heats.

◈◈◈

Collen 2:06¼ by Charley D. McKinney, dam Cricket 2:10, won again at Peoria in straight heats, the fastest in 2:07¾.

◈◈◈

John E. Madden has sold the chestnut colt Starlike (2) by Star Shoot—Blakeslee, by Yankee, to John Sanford for a price said to be $15,000.

◈◈◈

Tommy Murphy has taken the straps off Russel Boy, won a heat in 2:00¼ without them, and will probably not put them on again.

◈◈◈

The English Derby for 1918 closed with 287 nominations, and The Oaks closed with 205. King George had five nominations in each.

◈◈◈

There are three pacing mares now racing that look to have chances for the two-minute list. They are: Miss Harris M. (4) 2:01¼, Sayde Densmore (4) 2:02 and Goldie C. 2:04¼.

◈◈◈

Nervolo Belle, the dam of Peter Volo (2) 2:04½ and Volga (2) 2:07¾, is also the dam of Worthy Volo (2) 2:13 that is almost certain to get into the 2:10 list before the season is over.

◈◈◈

It is stated that Mabel Trask 2:03¾, the largest money winner of the year, has been sold to J. R. McCune of Pittsburg, Pa. The price is not stated but Mr. Barton Pardee refused $25,000 for her last winter.

◈◈◈

Single G. 2:00 is the seventh pacing stallion to enter the 2:00 list. Prince Alert 1:59½ and Frank Bogash Jr. 1:59¼ are the only pacing geldings in the 2:00 circle and no mares have paced their way into the exclusive ring as yet.

◈◈◈

Suldine (2) 2:12, the bay colt trotter that Clinton A. Harrison sold at the Indianapolis sale last May for $2,000, is only a three-year-old, but he trotted an exhibition mile to wagon in 2:10¾ at a Pittsburg matinee recently. Suldine is by Worthy McKinney.

◈◈◈

Graustark 2:14¼, the California pacer, won two races last week at Xenia, Ohio. The gelding is now in the stable of Billy Goggin, who campaigned Billy Dale 2:03½ last season. Graustark is by Aerolite 2:06¾, and went east in Lon Daniels' string but was shifted to the twice-arounds.

◈◈◈

Eben D. Jordan, the Boston merchant, whose death occurred last week, was a horse fancier, and his stable was for many years prominent at the eastern shows. He bred on a large scale, and believed the ideal carriage horse was produced by mating trotting-bred mares with hackney stallions.

◈◈◈

At the sale of yearlings held at Saratoga, John E. Madden's seventeen head brought an average of $1391, the highest priced colt being a chestnut by Plaudit, dam Elise B., that went to S. D. Riddle for $3500. Parmer & Hendrie's eleven head averaged $896, a bay colt by Star Shoot—Ohiyesa leading with $4700 as his price, R. F. Carmen the purchaser. W. O. Parmer sold nine head for an average of $941, a brown colt by Ballot bringing the top figure, $1600.

◈◈◈

The English "triple crown" winner, Diamond Jubilee, the champion sire of last year in Argentine, has again a commanding lead this year, his stock having won thirty-nine races of the value of nearly 215,000 pesos. Second is Old Man, with 23 races worth 148,726 pesos, and third is Greenan (23 races of the value of 106,175 pesos). The French horse Jardy comes fourth, St. Wolff fifth, Le Samaritan sixth and Cyllene seventh.

◈◈◈

Walter Jennings bid $9000 for Mr. A. K. Macomber on the yearling filly by Rock Sand out of Audience, at the sale of Clarence Mackay's horses at Saratoga last week. W. S. Kilmer bid $9500 and got the miss, who is a half sister to Whisk Broom II. It is said that Mr. Macomber has purchased the entire crop of foals except four fillies from the stud of Mr. Joel in England, from whom he purchased Star Hawk. There were seventeen yearlings in the lot. Macomber has signed Jockey Loftus for two years. Loftus rode Spur and George Smith when they defeated Star Hawk at Louisville and Saratoga respectively.

◈◈◈

Hamilton Busbey in his correspondence from Cleveland, wrote: "Mr. John C. Welty, president of the National Trotting Association, arrived in Cleveland the same afternoon that I did, and I had more than one frank and pleasant talk with him. He and Mr. W. P. Ijams, president of the American Trotting Association, are in harmony and the indications are that in 1917 the horses from all sections of the country will race under the same rules. The present rules need clarification, and work of this kind will be authorized by special congresses. The two administrations will continue for a while, but the rules will be the same on all tracks. The time is not distant, I hope, when the suggestion of Mr. H. K. Devereux to administer the rules from the same office will be something more than a dream. One set of machinery is all that is required; it will reduce friction and promote economy, and these are two things which breeders, owners and trainers now call for."

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Why Hunters Are Increasing.—The number of hunters is increasing from 5 to 10 per cent each year; facilities for getting to what were formerly inaccessible places have increased, it now being possible for a man with an automobile to go one hundred miles or more away from the railroad in a few hours' time; game country in which a gun was never heard a few years ago is now overrun with hunters; ranchers are crowding into all parts of the state and thus restricting the breeding ground of game; guns have been perfected so that now five shots can be fired into a flock of birds almost before they are aware of the presence of the hunter. Is it any wonder that game is diminishing in numbers? The wonder is that there is any left.

Venison Can be Distinguished.—In past years the California Fish and Game Commission has often failed to convict violators of the deer laws when the evidence was in the form of dried or smoked meat and the identity of meat remained obscure or unknown. Provided the meat contained small bones or skin it could usually be identified, but otherwise no means was at hand for distinguishing whether or not it was venison. Through the co-operation of Professor F. P. Gay of the Department of Pathology of the University of California and Mr. Frank C. Clarke, formerly a member of the scientific staff of this Commission, a method has been worked out whereby, through the use of a precipitin test, venison can be distinguished from bear meats, no matter in what form it has been prepared. This method is the same as that employed in European countries in the diagnosis of meat and meat preparations where fraud is suspected.

The precipitin test is prepared in the following manner:

Antisera for venison is first prepared by injecting fresh serum from deer blood into rabbits by intravenus and by subcutaneous injections. These injections by each method, respectively, are given on three successive days with a three-day interval. The blood is then withdrawn antiseptically from the rabbits and a serum extracted. This precipitin, when placed with a weak extract made from deer flesh with sterile physiological normal salt solution, forms a cloudy precipitate, but when placed with an extract from the flesh of any other sort of animal, does not form a precipitate. This test has been used in important cases in California and has been instrumental in convincing the jury that the meat in question was venison.

Alaska a Bird Paradise.—Birds are so thick that a ship literally plowed its way through them, is the description brought back from Alaska by F. Seymour Hersey, and published by the Smithsonian Institution, from data compiled by Mr. Hersey on his field trips last summer collecting records and photographs for the completion of the "Life Histories of North American Birds."

Prof. Hersey made the trip on the revenue cutter Bear, which each season makes the trip from Seattle, Wash., to Point Barrow, the topmost point of the continent, in Alaska. As the vessel neared Unimak Pass the number of birds "increased to a point almost beyond belief," Hersey reports. "As far as the eye could see, masses of birds were bedded on the water. It was utterly impossible to form any definite estimate of their number."

Proceeding to St. Michael, Mr. Hersey used a small open power boat to carry him and his outfit to the mouth of the Yukon River. Here the whole stretch of the Yukon delta is kept as a "bird reservation." This flat delta is literally covered with birds. Mr. Hersey found several rare species, among them the Aleutian tern, which has always been scarce, and which was recently thought to be extinct. Another rare bird which he found is Fisher's petrel, which was once represented in museums by only a single specimen, and now by only three or four.

Alaska has its own variety of sparrow, known as the Aleutian sparrow. It is one of the twenty or more varieties of the sparrow family that cover the United States from east to west. There are nine bird reservations in Alaska. These are in charge of the Biological Survey of the Department of Agriculture. As it is with game, so with bird life; Alaska is the last great refuge for the birds on the North American continent. A more intelligent care of the feathered tribes may prevent the practical extinction of certain species, such as has taken place in the states.

Oregon Deer Season Opens.—The deer shooting season in Oregon opened on August 15, and the indications are, especially in the southern part of the state, that the season will be one of the best in recent years. Any number of deer have been reported in Douglas, Coos, Josephine, Jackson, Columbia and other counties. Not so much has been heard from eastern Oregon, but wardens there have reported that there is an abundance of game of almost every variety. Last year plenty of deer were reported, but it was so dry that it was difficult to get within range of many of them. It isn't expected there will be so much trouble from that cause this season, as it has been unusually wet. The law which went into effect five years ago protecting all deer without horns during the entire season has had a great deal to do with the plentiful supply of deer at present. Deer, it is said, have been seen in the outskirts of Ashland and other towns, indicating that as their number increases they are going down into more central communities. Indications also are that the Chinese pheasant season will also be good in spite of the hard winter and wet summer months. The open season on these starts in the majority of counties on October 1 and ends October 31. The season in Jackson county is from October 1 to October 31, but there is no open season on these birds in Josephine, Coos and Curry counties.

Bright Outlook for Dove Season.—Deputy A. J. Stout, who handles Kern county operations for the Fish and Game Commission, reports thousands of doves in the grain fields on the Tejon Rancho, which is posted against shooting, and about Rosedale and the Buena Vista Lake, he saw great numbers. All over southern Kern county the gray birds are unusually plentiful after the first year of holding down shooting during the breeding season until September 1st. As the birds will be bigger, fatter and faster, affording far better sport, shooters are rapidly realizing the wisdom of deferring "opening day" all over the State until the young have had a chance to get their growth.

Deputy Bauder, in charge of propagation and protection in San Luis Obispo county, says: "Quail are more numerous than in years. Prospects are fine for a good deer season next month." He and Deputy Abels of Santa Barbara county have found doves decidedly plentiful all summer. The Santa Ynez Valley is alive with them. This is confirmed by Deputy Webb Toms of San Diego, Deputy Gyger of Riverside and Deputy Malone of San Bernardino. That 1916 will be a banner dove year all over the State seems certain, and that a long quail season equally good will follow it is now assured. The southern office of the commission has now placed 5000 hunting licenses before anything can be legally shot in Southern California, and they are going out several hundred a day at a steadily increasing gait. Thus does game and fish protection and propagation finance itself by increasing its own income through making these sports more attractive.

Many young ducks are reported by Deputy Gyger on the flats at the lower end of Lake Elsinore, now swollen to enormous proportions in area, and he found a brood at Dripping Springs recently. Vermin are thriving also, as he reports a golden eagle and several coyotes on one trip. Deputy Becker, who is detailed everywhere, says, "Doves by the thousand all over the country."

Fly-Casting Record at Tacoma.—In the seventh monthly casting event of the Tacoma Bait and Fly Casting Club at Point Defiance on August 6th, H. J. Nason set a new record for club members by making an average of 99 per cent in half-ounce accuracy bait casting contest. This breaks his own record of 98.5 per cent made some time ago. The standing of 99 per cent is the same made by W. C. Block of Portland in winning the Northwestern tournament at Tacoma a year ago and exceeds that made in the national championship contest held in San Francisco last August. Scores made in the competition follow:

Halfounce accuracy average, per cent: H. J. Nason 99, H. R. Werner 98.7, R. B. Nason 98.4, B. B. Perrow 97.3, B. Hutchinson 97, D. E. Gilkey 95.7.

Half-ounce distance—B. B. Perrow, 114 ft 11 3-5 in.; W. J. Bailey, 113 fet. 1 1-5 in.; C. R. Werner, 107 ft. 3 2-5 in.; D. E. Gilkey, 100 ft. 2 2-5 in.; R. B. Nason, 85 fet. 3 2-5 in.; R. Hutchinson, 80 ft. 2 in.

Long single cast: R. Hutchinson, 150 ft. 2 in.

Half-ounce slam: B. B. Perrow, 163 ft. 7 in.; R. Hutchinson, 155 ft.; C. R. Werner, 145 ft. 8 in.; R. B. Nason, 140 ft. 3 in.; W. J. Bailey 136 ft.; D. E. Gilkey 123 ft.

Flounders East Clam Necks.—Mr. M. L. Clark, on being informed by the Chinese clam diggers on Tomales Bay that the California flounder puts in its time eating the necks of the sofe-shell mud clams, decided to investigate for himself. He captured several in a beach seine and found them gorged with clam necks. The Chinamen explained that if only the tip of the neck is bitten off the clam does not die, but if it happens to be bitten a second time it cannot recover. Thus is added another to the list of the clam's enemies on which the sting-ray and the wild duck have respectively held first and second place.—Fish and Game Commission.

OVER 16,000,000 EGGS COLLECTED.

W. H. Shebley Writes of Work Being Handled by the Hatchery Department.

The egg collecting season for trout is practically over for this season. The take of eggs of the different varieties is as follows:

Steelhead trout	6,100,000
Rainbow trout	2,500,000
Loch Leven trout	1,725,000
Eastern brook trout	2,275,000
German brown trout	90,000
Black spotted trout	3,325,000
Total	16,015,000

Owing to severe weather conditions on the Klamath river, the take of rainbow eggs will be considerably less than last season. The extremely high water during the early part of the spawning season interfered with the run of fish into the streams where egg collecting stations are located, and later in the season the long continued cold, clear weather caused the trout to remain in the river and not ascend the spawning streams tributary to the main river as they usually do in normal seasons when the warm rains cause the trout to seek their spawning beds far up the streams.

Owing to the long continued drought on the coast streams the take of steelhead eggs will fall a little short of last season, but as the streams of California were so heavily stocked last season, we have ample fry on hand to give the streams a liberal supply. The applicants in California receive more fish in proportion to the size of the streams than in any other state in the Union.

Next season the Kearsage Hatchery and the Rae Lake egg collecting stations will be in full operation, and we expect to add several million more eggs to the already large annual supply. Several new stations are being planned by the Department of Fish Culture, to be ready for next year's work. Particular attention will be given to the propagation of the rainbow trout for the Sierra streams and an increase of steelhead for the coast waters.

The Fort Seward Hatchery was completed during the fore part of April, and on April 19th the first shipment of steelhead trout eggs was put in the building. At the present time there are one million steelhead eggs at this station and we are contemplating shipping a few more in the near future.

The distribution of salmon fry was finished on May 1st. The total number distributed was as follows:

Klamath River and tributaries	6,863,000
Sacramento River tributaries near Sisson Hatchery	8,078,000

Three million salmon fry will be held in the ponds at Sisson to be reared and distributed in the Klamath and Sacramento rivers during the fall, before the flood season in the rivers. One hundred thousand salmon fry will be planted during the season in the Ventura river. W. H. SHEBLEY.

Black Bass at San Diego.

When the Sweetwater dam near San Diego broke during the month of February, the black bass which inhabited the reservoir were carried into the lower end of San Diego bay by the rushing water. Although the bass are fresh water fish they made themselves at home in the bay, for the water at the time was perfectly fresh. As the stream gradually ceases to flow during this summer, the water in the bay will become more and more salt and those interested in the ways of black bass are speculating on whether these bass will, during this gradual change from fresh to salt water, become accustomed to the sea and continue to live in the bay.

Advice to New Hunters.—If you are skillful enough to bag your buck, heed this warning: Don't split the throat of your deer if you want to preserve his head.

After you have packed him out of the canyon and have got yourself nicely covered with fleas and other insects not so lively, work carefully. Split the skin down from the back of the neck. Cut around the burl and leave the skin long in front.

After a brief rest to fight your unwelcome tenants make a cross incision from the first cut to the burl of each antler. Cut close. Flay back to the ears and eyes, and leave the lips on. The fleshy part of the ears should be skinned out and the whole hide scraped and well salted. Then keep it in the shade. The sun will cause the fat of any hide to melt and run into the pores, with the result that the skin will become lumpy and will not dress well.

Plenty of salt should be used and the skin should be allowed to drip in a shady, cool spot. It is safe to use as much salt as the skin will absorb, for if merely soaks in to take the place of the water which drips out.

It is not permissible to shoot deer in an open county and ship the meat into a closed county. In such cases game wardens will act on the presumption that the deer was illegally killed.

And another tip: Don't shoot spike bucks. Already the Fish and Game Commission has several ca ses pending in which the defendant thought he was shooting a pronger. The tariff on spike bucks is high, ranging from $50 up, which may make your meat cost at the rate of $1 a pound.

GRAND AMERICAN IS UNDER WAY.

Coast Shooters Are Entered in Regular Events Which Commence Monday.

The battle of St. Louis will be fought this coming week.

The battle will be a bloodless one—and it would be a good thing for the world if all battles were bloodless. The battle will be between trapshooters of the United States and Canada, but they will all be on one side. The event will be the seventeenth annual holding of the Grand American Trapshooting Handicap. The firing will be done on the Public Trapshooting Grounds, at Etzei and Ferguson avenues.

St. Louis is fully prepared for the event. Twenty-six railroads go into St. Louis, and every one of the twenty-six has been carrying in trapshooters for several days. There are a lot of fellows who like to get in early—and there are lots who do not get into town until the last bell rings. The Show-Me-Town is in holiday dress for the trapshooters. All the gun bugs now ask is clear weather for a great tournament. Trapshooters are the happiest bunch in the world. Many of them plan their vacations to fit the G. A. H. every year. They are all true sportsmen.

The seventeenth tournament of the Interstate Association—the Grand American Handicap—will long be remembered. The St. Louis shooting grounds covers a city block. The firing line is 700 feet, and as level as a billiard table. There are stands for the spectators. Everything is modern. Restaurants and rest rooms are on the grounds, and no one need leave the place during the day. James W. Bell is president of the St. Louis Sportsmen's Association, in charge of the affair. Eberhard Anheuser is vice-president, and Louis Ebert, secretary-treasurer.

There will be five traps for the regular list of events, one for the professional shooters; one for the women, and the joker trap. No trapshooting tournament would be complete without a joker trap. While the Grand American Handicap tournament begins on August 21, there will be a number of matches on the 19th and 20th, in which championships are at stake. On the 21st the St. Louis Introductory shoot will take place. On the following day the Mound City Overture, the national amateur championship at singles and double targets will be held. On Wednesday the Preliminary Handicap is on the card, and on Thursday the Grand American Handicap takes place. Friday the consolation handicap will be shot.

Besides these events there will be special events for women and professional shooters each afternoon. It is expected that at least 25,000 persons will witness the tournament.

In the sixteen years the tournament has been conducted no shooter has won the Grand American Handicap twice. It was won in 1900 by Rollo Heikes, of Dayton, O., from twenty-two yards, and last year by L. B. Clarke, vice-president of the Hibernian Bank, Chicago, Ill., from nineteen yards. The tourney has been staged in the West and Middle West since 1902. Only once in the history of the tournament has a perfect score been made in the G. A. H. That was by Riley Thompson, of Chicago, Ill., shooting from nineteen yards.

Secretary E. Reed Shaner has made announcement that 569 entries had been received up until August 7 with indications that many more postmarked August 5 would be accepted. Shooters from all sections of this country and Canada will be at the traps.

The Pacific Coast will be represented by a small but select band of scatter-gun artists. The original list, as given out by the Interstate Association, includes the names of George L. Becker, Ogden, Utah.; J. F. Dodds, San Diego, Cal.; H. P. Mund, Phoenix, Ariz.; H. R. Everding, Portland, Ore.; Guy F. Egbers, Pasco, Wash.; A. G. Flickinger, Vallejo, Cal.; C. W. Hadley, Pomeroy, Wash.; John Kinemast, Bellingham, Wash.; B. E. Moritz, Denver, Colo.; R. A. Niles, Spokane, Wash.; Henry Pfirrmann, Jr., Los Angeles, Cal.; C. L. Parsons, Straw, Mont.; V. A. Rossbach, Hollywood, Cal.; W. R. Thomas, Jr., Denver, Colo.

Pacific Coast Handicap—The Interstate Association's eleventh annual Pacific Coast Handicap trapshooting tournament will be held at Portland, Oregon, September 12, 13 and 14, 1916, under the auspices of the Portland Gun Club.

"In Portland grows
For you a rose."

The Rose City is honored in the selection by the Interstate Association for the eleventh Pacific Coast Trapshooting Tournament.

Geographically Portland is advantageously located for a tournament which is calculated to draw sportsmen from all points on the coast. Transportation facilities either by rail or by water are good from the south and Portland is within easy reach by rail from her sister cities in the northwest.

It is hoped that our guests will find time to visit some of the points that have received such favorable mention from visitors here. The two factors that have possibly done more to attract attention to our city than all others combined are the Annual Rose Festival-and the Columbia River Highway. Portland has justly earned its name of the Rose City through the variety and beauty of the blooms which are so abundant here. The Portland Gun Club hopes some time in the future to stage the Pacific Coast Handicap during the Rose Festival week in June.

Volumnes could be written of the beauty and grandeuur of the natural scenery along the Columbia River Highway. For forty-one miles a paved boulevard winds along the majestic Columbia Gorge. The trip can be made leisurely in one day by automobile and the visitor who fails to take it surely misses as wonderful a scenic trip as can be found anywhere. The trip to Council Crest, where five snow-capped mountains together with the Willamette and Columbia rivers may be seen, is well worth the short time that it takes. The Forestry Building, the City Park, the Falls at Oregon City, the drives along the Sky Line and the Terwilliger Boulevards—all will be found interesting. If your time is limited and you cannot see them all, by no means slight the Columbia Highway trip. You must see it for yourself to thoroughly appreciate its magnificence and grandeur.

The first large tournament that was held on the new grounds of the Portland Gun Club was the Ninth Pacific Coast Handicap during 1914. Since that date the largest tournaments of the Northwest have been staged in Portland. The club grounds are ideally located on one of the paved boulevards that leads from the city and are readily accessible either by street car or by automobile. A spacious club house together with a wooded creek which runs through one corner of the grounds makes it possible for the fair sex to enjoy themselves while the men are occupied at the firing line. Shooting is towards the north so that contestants are not troubled with the sun at any time of the day. The grounds are level and the sky line unobstructed. It is hoped that we may excel the record attendance that we had in 1914.—Interstate Association.

Alameda Elks' Club.—Al Durney, one of the recruits to the ranks of local trapshooters this season, covered himself with glory Sunday at the Alameda grounds by setting up a score of forty-three breaks out of fifty targets thrown in the Alameda Elks' Club monthly shoot. Durney did not finish high gun, but gave Henry Stelling, who broke forty-four, a run for the honors. L. S. Hawxhurst easily led the professionals with a 48x50 score. The scores were as follows:

	25	25	Total
D. Carman	16	21	37
A. A. Durney	22	21	43
E. B. Thorning	22	20	42
R. T. Boyd	20	22	42
W. A. Plummer	21	20	41
W. L. Koch	16	18	34
H. Truscott*	21	14	35
W. H. Price	22	19	41
F. Webster	23	17	40
H. Stelling	23	21	44
F. J. Renner	12	14	26
Captain Du Bray*	16	15	31
M. S. Goodman	20	18	38
A. E. Stoneberger	15	20	35
E. J. Brooks	15	17	32
E. A. Bruer	15	11	25
C. A. Merrill	20	17	37
Tom Haskins	14	9	23
J. W. F. Moore*	18	17	35
Lou Schroeder	14	8	22
C. Linderman	21	17	38
E. G. Williams	15	18	33
J. Van Sicklen	17	21	38
F. J. Croll	18	22	40
W. G. Fortman	17	13	30
W. R. Ellis*	18	22	40
H. P. Martine	21	18	30
L. S. Hawxhurst*	24	24	48
H. Meinecke	21	18	39
F. Blom	15	13	28

Western Club Wins Dinner.—Members of the Western and Crystal gun clubs put forth their best aims on Sunday at the Alameda traps, in an effort to win a dinner that was at stake. The Western boys sat down as guests, for they won out by a score of 191 breaks out of 125, to the 95 breaks registered by the Crystals.

Ned Williams was high gun for the winners, with 22 out of 25. Charles Linderman and Henry Meinecke also averaged well. Ben Boyd, Walter Blummer and Al Durney went along well for the Crystals. The scores set were as follows:

Crystals—Bray Thorning 17, Ben Boyd 20, Walter Plummer 20, Bill Koch 18, Al Durney 20. Total, 19.

Westerns—Ned Williams 22, Charles Linderman 21, Henry Meinecke 20, Tay Croll 19, Jack Van Sicklen 19. Total, 101.

Seattle Association.—An ideal day favored the trapshooters on August 6th and the result was some excellent scores recorded at the Harbor Island grounds. L. H. Reid broke 50 straight and stood high man and high professional in the 50-bird race. R. S. Searle, Dr. C. L. Templeton and George Hambright, professional, stood second with scores of 49 each.

Reid continued on his smashing streak through the 100-bird event and finished a perfect 100 targets, standing high man and high professional for the day. Dr. C. L. Templeton, with a 96 to his credit, stood high amateur in the 100 race. Tom Wilkes, C. E. McKelvey, George Hambright and Ralph Kinzer all tied for the third place with 94 each.

A surprise was furnished the shooters in the way of a visit paid the club by a squad of Vancouver, B. C., Gun Club shooters. H. R. Cramer, J. A. McIntyre, J. W. Pettison, A. Field and G. M. Cowderoy were those shooters from the British Columbia club.

A 25-target five-man team race furnished a little rivalry for the day, and owing perhaps to the fact that some of the visitors were using borrowed guns the Seattle team won with 116 birds to their credit against Vancouver's 107. The scores:—

At 50 targets—L. H. Reid* 50, R. S. Searle 49, George Hambright* 49, Dr. C. L. Templeton 49, Tom Wilkes 48, A. E. Drake 47, C. E. McKelvey 47, D. Rhodes* 47, Ralph Kinker 47, Hugh Fleming 44, J. V. Hough 42, A. W. Mathie 38.

At 100 targets—L. H. Reid* 100, Dr. C. L. Templeton 96, Tom Wilkes 94, C. E. McKelvey 94, George Hambright* 94, Ralph Kinzer 94, Hugh Fleming 91, D. Rhodes* 89, J. V. Hough 87, G. M. Cowderoy 46, J. A. McIntyre 44x50, H, R. Cramer 40x50, A. Field 40x50, J. W. Pettison 36x50, P. E. Sullivan 22x25.

Vancouver-Seattle 25-bird team race:—

Seattle team—Tom Wilkes 21, D. Rhodes 21, R. Kinzer 25, Hugh Fleming 24, George Hambright 25. Total, 116.

Vancouver team—H. B. Cramer 21, J. A. McIntyre 21, J. W. Pettison 13, A. Field 20, G. M. Cowderoy 22. Total, 107.

Entertained at Trap Shoot.—Mr. and Mrs. H. C. Everding entertained a party composed mainly of Portland folks in a novel manner at Shipherd's Springs, Wash., on Sunday, August 6th.

A trap had been installed, thanks to the untiring efforts of "Our Jim" Simpson, the genial mayor of Stevenson, Wash., and the guests, after their arrival, were taken to the improvised range, which was set amidst beautiful mountain surroundings, with fir trees on every side. It was these same fir trees, as a background, which made it difficult to see the flying blue rocks. Consequently, the scores made by the leading shooters were remarkable, in some instances.

Old-time hunters in the party, who have had all the agonizing experiences attendant on the first cases of "buck ague," attribute the score to the fact that Mr. Simpson had a touch of what is known as "chicken fever," which is a coinage not found in anything but the latest unabridged.

E. H. Keller was high man among the amateurs, with a score of 95 per cent. He was closely followed by A. W. Strowger, president of the Portland Gun Club, with 94 per cent. P. J. Holohan, the professional, had a score of 92 per cent.

Following are the scores: E. H. Keller 95, A. W. Strowger 94, P. J. Holohan, professional, 92, H. R. Everding 85, J. K. Simpson 80, H. A. Benham 76, W. C. Bristol (with 20-gauge gun) 76, E. B. Morris, professional (with 20-gauge gun) 76, E. L. Clark 75, Kola Neiss 75, Lou Kennedy 66, R. A. Cronin 62, W. S. Hufford 54.

After finishing shooting, the following were entertained by Mr. and Mrs. Everding at the Shipherd Springs hotel, where a full-fledged chicken dinner was served, with all the trimmings: Miss Caroline Everding, Mr. and Mrs. E. B. Morris, W. C. Bristol, Mr. and Mrs. A. Cronin, W. G. Hufford, A. W. Strowger, Mr. and Mrs. E. H. Keller, Mr. and Mrs. P. J. Holohan, H. L. Idleman, J. K. Simpson, H. A. Benham, Mr. and Mrs. E. L. Clark, Mr. and Mrs. Paul Chamberlin, Mr. and Mrs. Lou Kennedy, Miss Mildred Kennedy and Master Robert Kennedy.

Green Lake Club.—Dr. King kept up his work on August 6th by smashing 49 out of 50, finishing a run of 101, started two weeks ago. George B. Baker and L. S. Barnes tied for second at 45, and Don R. Baker and Dr. A. B. Kidd, for third, at 43. L. A. Dash, of North Yakima, was a visitor at the club. Scores:—

At 50 targets—Dr. King 49, George B. Baker 45, L. S. Barnes 45, Don R. Baker 43, Dr. A. B. Kidd 43, S. A. Martin 42, E. K. Van Vleck 41, E. Chantrell 41, Dr. J. F. Hill 40, L. A. Dash 34, George O. Colwell 30, S. Burt 28, W. M. Elliott 25.

At 100 targets—George B. Baker 89, S. A. Martin 86, Dr. J. F. Hill 85, Don R. Baker 82, E. K. Van Vleck 79.

THE INTERSTATE ASSOCIATION'S HANDICAPS.

T. E. Doremus, President,
Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. — E. Reed Shaner, Sec'y, Pittsburgh, Pa.

The Interstate Association's Seventeenth Grand American Trapshooting Tournament, under the auspices of the St. Louis Trapshooters' Association, St. Louis, Mo., August 21, 22, 23, 24 and 25, 1916. There will be $3,500 added money. Winner of first place in the Grand American Handicap guaranteed $500 and a trophy; winner of second place guaranteed $400 and a trophy; winner of third place guaranteed $300 and a trophy; winner of fourth place guaranteed $200 and a trophy, and the winner of the fifth place guaranteed $100 and a trophy. Numerous other trophies will also be awarded.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Partland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

Sportsmen's Row

San Mateo county was visited by the State Fish and Game Commission's fish planting car on Wednesday and some 400,000 trout fry released in the streams of the county. This was the first restocking operation of the commission in San Mateo. The trout planted are of the rainbow and steelhead variety, 100 cans of rainbow and 20 cans of steelhead being consigned to the various streams. There are between 2500 and 3000 fish in a can. Among the streams that were stocked are Purissima, Lobitas, Tunitas, San Gregorio, Pescadero, Gazos and many others.

* * * *

Gilbert de Adrian of Pasadena was attacked and so seriously bitten while bathing in the surf at Venice last Sunday that he was removed to a hospital for treatment. Physicians who examined the wound said there were eight teeth marks in the right leg, but they were unable to state whether they were those of a shark. The punctures were deep and the wound badly lacerated. De Adrian said he "bumped into something while swimming and it bit him as he pulled himself onto a raft," but he did not see what attacked him.

* * * *

Deer are reported as being plentiful in the Rumsey country. Eight bucks have been killed, according to reports from the Southern Pacific agents. Napa has not reported many, but a few have been bagged in the Monticello district. Fires in the Lake and Napa county hills have made the deer travel back farther than usual.

* * * *

One of the big catches made last Sunday was that of "Doc" Moon, who after a thirty-eight-minute struggle, landed a fine forty-two-pound fish. Another of the same party took a thirty-seven pounder. It was reported on Fisherman's wharf that the biggest catch of last week was a fifty-two-pounder.

* * * *

John M. Falk pays a compliment to one of our Coast shooters. It is as follows: "Located on the Pacific coast, is one, L. H. Reid, a prince of good fellows. It is always a pleasure to meet 'Les' anywhere. As a good shot he ranks second to none. There is no law to prohibit you from saying you can beat him at a shoot, but just wait till the shoot is over, then say it. Talk, as we know, is cheap, but the general averages tell the tale, so let some or all of his scores talk. Take his winnings at Tacoma, Wash., 390 out of 400, an average of 97½ per cent, and the winner of the Chigron medal, with 98 out of 100, from 18 yards. Good luck to you, Les!"

* * * *

Another call has been made on England for a man to pass his opinion on American dogs. W. J. Phillips has been invited to do the judging at the show of the San Jose Club in California. This event will be staged in the "garden city of the Pacific coast" October 11th to 14th.

* * * *

Efforts are now under way to secure the location of a fish hatchery on the Middle Tule River at a point in the foothills where the water is sufficiently cool for hatching purposes during the summer months. Sportsmen of this district have done more to stock the streams and protect fish and game from law violators than those of any other part of California. As a movement is now on by the State Fish and Game Commission to locate a hatchery in the central portion of California these facts will be given due consideration. Sportsmen of Hanford have been interviewed and are said to have pledged their support to the project.—[E. J., Porterville.]

* * * *

Barr Brothers added two more forked horners to their killing log-book on last Saturday, making six deer killed on their preserve in the Lucas Valley for the season. This makes twelve deer killed in Lucas Valley since the season opened.

* * * *

Recently an aeroplane, the engine whirring noisily, passed over the estate of a friend of ours. Part of this estate is covered with beautiful trees quite like a forest. No sooner had the aeroplane disappeared than more squirrels by far than it had ever been thought were on the place were seen scampering over the ground, evidently much alarmed. The strange noise above them must have driven them to the earth. Or did they imagine some huge winged monster was about to dart down upon them?

* * * *

Superintendent Matthews has added interest to the regular weekly shooting at Everding Park by throwing an occasional "red" target. The nimrod who breaks it will receive a cash prize and the one with the largest number of broken "red" targets to his credit at the end of the month will receive a special prize of 500 targets.

* * * *

The open season on game birds in Wyoming started on August 1st, the first Tuesday in the month. The season opens first on sage chickens; bag limit, six in one day. Limit in possession of one person is six only, at any one time; duration of season, thirty-two days. The season closes September 1st. Sage chickens are more plentiful than last year and are also much larger. With the close of the chicken season commences the open season for "all grouse," which continues until November 15; bag limit, six; in possession at one time, six. The season on ducks and geese opens October 15 and closes December 16; bag limit, eighteen; in possession at one time, eighteen.

Courtesy to Gun Club Visitors.—On every hand we hear shooters say: "I am glad I took up trapshooting. It is a great game, and the best bunch of sportsmen in the world are trapshooters." These and similar expressions indicate in what high esteem men hold the trapshooting game.

But our game, like every other sport ,occasionally offers an opportunity for criticism. Many gun clubs say "visitors are welcome to come and participate in the regular shoots." "Welcome" is a large word and, according to the dictionary, means "received with gladness and hospitality; a kind reception."

And yet, when shooters visit clubs other than their own, we sometimes hear them say: "My, that was a cold bunch. Visitors may be welcome at their club, but they don't show it."

Friends, let's all make known the fact that "visitors are welcome" at our clubs, and when visitors do come, let's make them "welcome" in the true sense of the word. A friendly handshake, a cheery word and a hearty "come again" will leave a lasting impression and gain for your club a well-deserved reputation for hospitality.

10,000 Beginners in Shoots.—Breeder and Sportsman: Am attaching list of clubs receiving Beginners' Trophies, which also shows number of contestants reported by the clubs holding Beginners' events.

An additional list is attached, showing first Cup trophies won by the different clubs.

We also have advices from more than 90 per cent of the clubs which have not reported, saying they intend to hold Beginners' Shoots a little later on, and will then report.

We estimate, on the basis of the reports received, that about 10,000 shooters have already, or will in the near future, participate in the Beginners' Event. Hence it was a very successful affair.

Trusting this information will prove interesting to you and your readers, I am, Yours very truly,

SAN JOSE DOG FANCY GET TOGETHER.

Garden City Kennel Club is Formed with Members Working in Harmony.

It will be agreeable news to the dog fanciers of California to learn that there no longer exists any dissension in the fancy at San Jose, but that all interested in dogs and dog shows in the Garden City are no wunited, with but one object in view, the promotion of the fancy in Santa Clara county, and incidentally in the state, says the Kennel Advocate.

At a recent meeting of those who for a year or more past have been endeavoring to bring about harmony of action, the Garden City Kennel Club was formed as the A. K. C. successor to the Santa Clara County Kennel Club. Application to change the name accordingly has been made, and the assurance received that the request would no doubt be granted.

At the meeting referred to above, officers of the new club were elected as follows: President, C. C. Pomeroy; First Vice-President, N. J. Stewart; Second Vice-President, P. H. Doble; Secretary and Treasurer, Chas. R. Harker. Governing Committee, which will control all the aqairs of the Garden City Kennel Club from now on: C. C. Pomeroy, chairman; Dr. C. C. Marckres, N. J. Stewart, Henry Berrar, P. H. Doble, V. J. Ruh, E. Portal, M. Perry and Chas. R. Harker.

It is not the intention of the new club to hold a show this season, but it will grant a license to the dog show to be held in connection with the big poultry and pet stock show in the Auditorium Rink in San Jose October 11th to the 14th, thereby making it an A. K. C. affair, with all differences harmoniously settled, the two clubs so long in opposition more or less pronounced now merged in one, it is expected that the October show will be but the precursor of a series of annual dog shows in San Jose surpassing anything of the sort ever seen there and ranking among the foremost held in the state.

* * * *

If Atlantic City cannot keep you awake, nothing can. The Atlantic City Kennel Club will hold its annual fixture August 18 and 19, and if every other place is hot, you are sure to find the ocean breezes very refreshing. The list of judges which has been published is one of the best for the season, and all are judges of reputation. In the past the Atlantic City show has been held on the Million Dollar Pier. This year a change has been made to the Garden Pier. Really this is a superior place in many ways. It is more ornate, more convenient, location more elite and, above all, its modernization lends many advantages both to the exhibitors and the dogs. Again this year the show will be for two days, giving the visitor a breathing chance and a night's rest between the spasm of win or lose. The premium lists have been mailed and show a splendid list of special prizes. If you have not received one, write the superintendent, George F. Foley, Lansdowne, Pa.

Hunters Miss Lucas Valley Deer.—Banker Van Luven is the president of the Blue Rock Deer Club, that has a preserve at the head of Lucas Valley canyon. The banker is a lover of the deer hunting game and he loves to gather around him a number of young fellows in order that he can have a bunch of good jolly companions while he is shooting the fleet footed deer. In the morning when the hunting aggregation start for the hills, the banker has a wonderful contrivance to assist his kindergarten hunters in reaching their respective stations on the little low hills that exist in the shadow of the precipitous peaks of the Victor Gun Club range.

When the caravan leaves camp with the banker in the lead, they are escorted to the base of the knoll, where Manuel Portuguese is stationed with a double team, attached to which is a hawser about 100 yards long. The urchins grab a-hold of the rope and the truck horses proceed to drag their heavy length up the graceful slopes. At last after a rise of 132 one-quarter feet above sea level, the banker places his deer hunters along the range of hills while he, walking up and down, gives orders not to shoot until they see the color of the deer eyes and long circular horns.

It was nine o'clock when nine of the 26 guests of the banker spied two handsome members of the deer family arise from a cluster of oaks 30 yards away. On each side of the valley were nine of the younger set, with Dr. Rafael Duffucy, with a large calibre gun, ready for action. Napoleon, as he watched the tricolors of France at the battle of Austriletz transplant the colors of the enemy, never threw out his chest with more dignity than the doctor when he turned loose at the two elks as they trotted along like truck horses, forty feet away. No Philippine regiment ever discharged guns with a greater rapidity than these nine hunters of the banker.

A cloud of dust arose from the grain field from the bullets biting the dust, but still the deer unharmed moved on. The doctor, who has nursed the idea for some moons that he was a crack shot, reloaded his gun and fired the last of his fifteen shells when he was forced to shoot to prevent the deer from knocking him down. The two deer escaped, and now the crack marksmen of the Victor Gun Club, who go out on the ranges with only one shell each, will bring home the bacon.

Mrs. George Boyd of San Rafael is credited with killing a large forked horn deer on the lands of the Lagunitas Rod and Gun Club.

12,000 DEER KILLED LAST SEASON.

Fish and Game Commission Issues Interesting Volume on Hunting and Fishing.

The California Fish and Game Commission has just issued another valuable and interesting volume on fishing and hunting topics. It is the Deer Number and contains many well-written and ably-edited articles. The following on deer killed last season will likely interest Breeder and Sportsman readers:—

A computation of the number of deer killed during the hunting season of 1915. Data on deer killed in the National Forests are obtained by forest rangers, and deputies of the Fish and Game Commission also make note of the deer killed in their respective districts. Where no actual records have been kept, a reliable estimate has been obtained from residents conversant with local conditions. These reports, although incomplete, afford a basis for an estimate as to the kill of deer each year. Records of this kind have been kept since 1911, during which year 6,489 were reported as killed. The total number reported in 1914 was 8,699, as compared with 8,343 for 1915. It seems possible that fewer hunters may have been in the field in 1915, thus causing a reduction in the number of deer reported as killed. The discrepancy may be due also to a greater degree of incompleteness in returns. The total kill for 1914 was estimated to be at least 12,000, and the figures of this year lead to a like estimate.

When segregated for each county the figures furnish interesting evidence as to the distribution of deer in this state, although in some cases large kills are indicative of concentrated hunting rather than of large deer population. If the actual figures are depended upon, Siskiyou county leads in the kill for 1915, with Monterey a close second. Trinity county, which headed the list for 1914, drops into third place. In Southern California, Santa Barbara county alone shows a kill which compares favorably with northern counties.

Hunting With the Long Bow.—I have received the following letter from Dr. Saxon T. Pope, of San Francisco, a member of the faculty of the University of California. It will be read with interest by all sportsmen, especially the archers:

"Mr. Compton and I have just returned from a hunting trip with the bow. We killed two deer. Compton shot one running at sixty-five yards. The arrow pierced him amidships and came out through his lung, stuck out a foot and broke off in the brush. He only ran a couple of hundred yards and died.

I shot one in the liver and he ripped himself pretty much running, dying of abdominal hemorrhage, at forty-five yards. We touched up three more, but not seriously. Our hunt was a two weeks' affair into a rugged but beautiful part of the Coast range. Game was plentiful and the country fine for the bow. Open spaces, carpeted ground, small draws and ridges properly wooded, all combined to make it ideal. We must have had twenty or thirty shots at deer, some at 200 yards, some beauties at 150 yards and 65 yards. At thirty yards I missed one because I had to kneel and shoot beneath the boughs of a tree. Henceforth I practice a kneeling shot.

"We killed squirrels and rabbits in plenty. So you see the bow still sings in the wildwood."

Chicago, Ill. EDWARD B. WESTON.

Game Districts Open.—The deer season in the high Sierras and the northern counties of the state—game district No. 1—opened Tuesday. The deer of the coast ranges are but small imitations of the real thing as compared with the many pointed antlers of the wilder country embodied in district 1.

The mule deer, a big animal of a species not found on the coast, is to be gotten by lucky nimrods in the northeastern section of the state. Big, black-tailed bucks also are found in this district, and occasionally white-tailed deer are reported seen or killed, though this species is rare. The black-tailed deer are a larger variety of the coast deer.

On September 1 the deer season will open in district 4, in the southern part of the state, and at that time the shooting of bucks will be allowed in all parts of the state, with the exception of the various game refuges.

September 1, incidentally, also sees the opening of several bird shooting seasons. Mountain quail or grouse season will open in districts 1 and 23 on that date, and sage hen and dove seasons in all parts of the state will be opened.

Tree squirrels, one of the best protected of the small animals of the state, may also be shot after September 1. Only twelve squirrels may be shot in a season.

Violators of Law Fined.—Deputy Becker got $50 for the State Monday of last week by apprehending two aliens who were hunting without licenses, and the men, P. Vallicella and M. Andegelo, agreed to take out licenses rather than be prosecuted, which was as broad as it was long, so they were spared the time and nuisance of court.

Late last month Deputy Toms arrested Borth Anderson in Pine Valley, San Diego county, for shooting quail out of season, and Justice Solon Bryan of San Diego declared his bail of $25 forfeit on nonappearance.

The District Attorney of San Diego county has ruled that anglers fishing in Rerono reservoir are subject to the State angling license, although that water is owned by citizens of San Diego. Some had contested it on this ground. All game and fish is the property of the people of the State in their sovereign (collective) capacity and subject to the general laws to rule.

After Dog Poisoners.—The poison fiend should be put out of business, and that without mercy. There are too many of "him" in the country and it is time all dog lovers joined hands to end his career. A start has been made here in Seattle and I look for good results. In this town the poison fiend and dog thief have prospered, but if the organization formed here recently means anything it is punishment for the enemies of our dumb friends. A number of our prominent business men have joined hands with the organizers, and a campaign to enlist the co-operation of all dog lovers in the state is under way. T. J. Church, who is leading the movement, says the practice of poisoning and stealing dogs must stop, and declares it will stop. Let all dog owners join hands.

Seattle, Wash. A DOG'S FRIEND.

NEWS OF FEDERAL MIGRATORY BIRD LAW.

Efforts to Strike Out Appropriation For Its Enforcement Is Defeated.

Migratory Bird Law—On July 10 the contest between the defenders of our migratory birds and the Missouri enemies of the migratory bird law culminated in the United States Senate, over the motion of Senator Reed to strike out the entire appropriation, $50,000, for the enforcement of the law. For two hours Senator Reed occuupied the attention of the senate by a bitter denunciation of the law, its supporters, the biographical survey, E. W. Nelson and W. T. Hornaday. Senator McLean replied in a dignified, logical and forceful speech fifteen minutes long, and the vote to sustain the law and retain the appropriation was 52 to 8!

The following senators composed the opposition: Borah (Idaho), Hardwick (Go.), Overman (N. C.), Thomas (Colo.), Bryan (Fla.), James (Ky.), Reed (Mo.), Walsh (Mont).

The record of the senate remains unbroken, and the appropriation is now quite safe.

The Treaty with Canada.—The international treaty with Canada for the protection of migratory birds has been finished by Canada, and now is in our state department, ready to transmit at any moment to the senate for ratification. A two-thirds vote is necessary. It is of the utmost importance that the treaty should be raified at this session of Congress, and a law enacted to carry its provisions into effect. It is reasonably certain that the Missouri malcontents who desire spring shooting will fight the treaty to the utmost, and hinder its ratification in every way possible. In a few days it will be time to ask all senators for prompt action on the treaty!

The Game CSanctuary Bills.—The Chamberlain game sanctuary bill may on any day come up in the senate to be voted upon; but the great appropriation bills may keep it back for two or three weeks longer. In the senate there is some opposition on "state sovereignty" grounds—coming exclusively from Northern senators!

In the house committee on agriculture three hearings on the Hayden bill have been held, and the bill is about to be reported to the house favorably, with one amendment proposed. It will require hard and continuous work on the part of all the friends of the bill to secure a vote in the house at this session; but a vote must and shall be secured. Very serious work is now required, with each one of the members of the house of representatives, to secure a vote on the Hayden bill, and a majority. Now is the time to begin!

Dr. Field's Investigation.—In June, Dr. Geo. W. Field, of Boston, discovered so many wild fowl breeding and rearing their young in Kansas and Missouri that those two states are thereby transferred to the breeding zone forever; and the demand of the spring shooters of Missouri who are bent on securing an open season of wild fowl in March has become more unreasonable than ever before.

The Return of the Birds.—As we stated in our Bulletin No. 4, the birds are coming back! We rejoice that we have lived to see the time when this can be written down and published without room for argument or contradiction. W. T. HORNADAY.

New York.

Groat Sets Record at Vernon.—C. E. Groat, who is ordinarily a consistent shooter, executed a sensational feat Sunday at the Vernon Gun Club when he broke 100 straight targets. He started right and finished right, and every bird he shot at was smashed into a hundred pieces. William Prough was runner-up with 97x100. Harry Cline and S. A. Bruner were third with 96x100 smashes.

Sixteen shooters took part in the day's program and very good scores resulted. Next Sunday the Vernon Gun club will start on its new set of trophies, which will continue until December 31. There will be five trophies and at the end of the three months the five highest shooters for the time will receive the trophies. Following are Sunday's scores:

H. Cline	23	25	25	23— 96
F. H. Mellus	24	23	..	..— 47
A. W. Bruner	23	22	..	..— 45

Interstate Office to Close.—Editor "Breeder and Sportsman: For the benefit of gun clubs that may have registered tournament matters to take up with us, please announce in the trap department of your paper that, on account of the Grand American Handicap Tournament, the Pittsburgh office of The Interstate Association will be closed from Auguust 16 to 27, inclusive.

Thanking you in advance, we remain,

Yours very truly,

THE INTERSTATE ASSOCIATION,

E. Reed Shaner, Sec'y.

Stock Breeders' Page

THE DISTRIBUTION OF HORSES.

Two bones of contention between the various breeds of horses have been the relative popularity of the breeds and the relative effect each has had on horse improvement. Estimates on the subject have been made either through partisans of the different breeds, or on the basis of the number of animals registered in the different studbooks, making a certain allowance for those deceased.

The stallion board reports offer an opportunity to make a fairly exact study of the relative frequency of the different breeds in the principal draft horse producing states, as the number of animals registered by them represents the popular esteem in which each of the breeds is held. Of the twenty-one states having stallion laws, nineteen have published reports: New York, New Jersey, Pennsylvania, Michigan, North Dakota, South Dakota, Nebraska, Kansas, Utah, Montana, Idaho, Washington, Oregon and California. In these states there are over 60,000 animals standing for public service. Of these, 23,151 are grade or scrub stallions, 33,860 are purebred stallions, and 3,832 are jacks, only fifteen states reporting on the last class. This shows that 38.05 per cent of the equine males licensed for public service are grades and scrubs; 55.65 per cent, purebreds; and 6.29 per cent, jacks. Of the stallions practically three-fifths, 59.4 per cent, are purebreds, and the rest grades or scrubs. The change in proportion of purebred stallions is very marked, as in most of the states when the laws went into operation only a fourth to a third of the public service animals were purebred.

By breeds the distribution of horses is as follows:

Breed	Number	Percent. of purebreds
Percheron	18,022	53.225
Standardbred	4,214	12.445
Belgian	4,091	12.082
French draft	2,116	6.249
Shire	2,104	6.214
Clydesdale	1,279	3.777
German Coach	502	1.483
Shetland Pony	301	.889
Morgan	296	.874
Hackney	273	.806
Thoroughbred	233	.688
French Coach	181	.535
American Saddler	120	.355
Suffolk	60	.177
Cleveland Bay	25	.074
Non-Standard Trotters	25	.074
Arabian	8	.053

The position of the Morgan ahead of the Hackney, Thoroughbred, French Coach and American Saddler should be a source of consolation to the lovers of the American general purpose horse. On the other hand the low percentage of light horses as compared to drafters should strike a responsive chord in the hearts of those who have labored so tirelessly for the draft interests. Of the 33,860 purebreds, 81.72 per cent are drafters and 18.28 per cent are light horses. The relative numbers of Percherons and French Draft also are interesting for the ratio between them has increased at the expense of the French Draft during the last decade, at least as judged by other estimates.—Edward N. Wentworth, Kansas Agricultural College, in Breeder's Gazette.

Motor Cars Fail in the Mud.

An artilleryman of the New York militia, writing to the Buffalo Express, shows how the army mule is a necessity during the rainy season in localities where there are only dirt roads. He says, under date of August 2d:

Everything and everybody is plastered with sticky, brown mud. The twelfth regiment, which has the lowest site in camp, has been completely flooded out. There is a lake more than a foot deep lying where two companies has been camped. The tents had to be taken down and the men doubled up temporarily with other companies.

The ground in places looks like thick bean soup, each footstep to be taken with great care. Even Shrapnel Shriver admits that for mud the condition of the roads to McAllen beats anything he ever found while drawing an ambulance in France. This is, indeed, high praise for our Texas mud.

Thirty-three big trucks were reported stuck in the mud between this camp and Mission. There were enough on the road between the first cavalry and McAllen to make this story reasonable. Some had slid partially off the road and lay with their noses buried in the ditches like gophers burrowing into their holes. Others, abandoned yesterday, had sunk until their wheels had disappeared.

It was a day of triumph for the mules. All day long they plodded knee deep through the mud doing their own work and that of the regimental trucks. The mud is too pasty for ruts. Army wagons slide about like dull skates on hard ice. With the rear wheels on one side of the high-crowned road and the front wheels on the other, colliding, getting the mules more mixed than an Esquimaux dog team, they crawl back and forth with our food and supplies.

The Sire and the Stock Market.

It is very difficult for farmers and packers to agree nowadays on a fair price for meat animals. It is often difficult for anyone to know whether exact justice is being done on any market, but concerted action among farmers can bring about much better conditions than now exist by meeting the needs of consumers more exactly and more uniformly than they do at present.

In the market for any kind of manufactured goods uniformity is demanded. The man who went to an implement dealer for a corn grinder like the one that did so well for his neighbor would object strongly if told that no other machine like it had ever been made, but that there was one in the market that day that weighed about as much and looked very much like it. He would want a machine that would give exactly the same results. Of course, this is not quite possible in case of corn and cattle, but we can come much nearer uniformity than we do.

We have well-defined breeds within which uniformity and standardization are established facts. They do not provide quite the uniformity of the manufacturing world, but come near enough to it for all practical purposes. Part of the market trouble is that carloads of stock do not come on the market, each made up of uniform animals of some one of these breeds. The breeder has too often used a scrub sire whose offspring lack uniformity or was uniformly inferior. In many more cases he has bought feeders rather indiscriminately from the owner of scrub sires and pure-bred sires of various breeds.

The use of the pure-bred sire is part of the remedy. If the rest of the herd is very inferior, it will take a number of years of "grading up" to bring the best results, but there will be marked improvement every generation if breeding is wisely done. As good pure-bred sires of the same breed are used on a farm year after year, that farm will send better stock and more uniform stock to market and the shipper will be in a better position to demand high prices. In this grading up, the sire is often said to be half the herd. As a matter of fact, he is more than half because the good pure-bred animal is so much more prepotent or able to impress his own good characteristics upon his offspring than the grade animal upon which he is crossed.

The man who cannot afford a pure-bred sire of his own can often co-operate with one or more of his neighbors in securing one, and whether he owns co-operatively or not, he should combine with as many others as possible at the same shipping point in securing similar good sires of the same breed in order to secure uniformity in mixed shipments, or in lots bought from various men in the vicinity to be fed by one of them.

The live stock industry of the west is undergoing a building process in both quality and numbers, but it has only begun the improvement which must come in the near future if this section is to fulfill the demands of the markets, maintain its position in the live stock industry, and demand profitable prices. This section has some of the best flocks and herds to be found anywhere, but the general average is far too low. This average must be raised and we may fairly expect a corresponding rise in price.—S. T. Simpson, Missouri College of Agriculture.

Alfalfa Best Winter Food.

Feeding facts of interest to valley cattle raisers were told recently at a meeting of the Pomona Grange by Professor Potter at the Union Branch experiment station, who had previously conducted some feeding tests to compare alfalfa with bald barley hay and wild hay.

"We purchased three carloads of cattle," said Professor Potter, "and put one of them on alfalfa hay alone, one on bald barley hay and one on wild hay. They were kept on these feeds for 105 days. The alfalfa hay was only of fair quality, and the results were not so good as had been hoped for. The average daily gain for those on the alfalfa hay alone was about a pound a day. The lots on bald barley and wild hay didn't give anything like satisfactory gains. Those on bald barley gained .27 of a pound per day, and those on wild hay .44 of a pound per day. We have not repeated this experiment, because we felt that this one test was enough to show the impracticability of fattening cattle on bald barley and wild hay.

"At the end of the test period the cattle were not really fat enough for beef. We turned these cattle out on a pasture of alfalfa which had become mixed with bluegrass, giving them the run of the alfalfa. They did remarkably well on the pasture. For the first month they made a gain of more than a pound a day. During the second month they made 2¼ pounds per day, and during the third month 2 1-3 pounds. They not only gained well during this time, but took on a good finish, so that they were in splendid condition to market."

An Oregon Holstein Record.

A new world's record in the junior 2-year-old Holstein class has just been made by Johanna De Kol of Rush Court, owned by Herbert W. Jones, of Amity, Oregon. This was a seven days' milk record to be made not earlier than 240 days after freshening. The former world's record was 425.1 pounds milk, but this 2-year-old finished her seven days with 445.5 pounds to her credit, an official tester being with the cow day and night to avoid any possibility of questioning this great record.

Better Live Stock — More Profit.

"Use pure-bred sires" is the slogan used by workers at the Missouri College of Agriculture as a partial reply to stockmen's questions as to how they can make profits on increasingly expensive land, labor, and feed. These three factors will remain high and the quality of the live stock and efficiency of the methods used must be correspondingly improved if the live stock industry is to survive.

The slogan of the pure-bred sire is being sounded by Dean F. B. Mumford and others of the Agricultural Experiment Station and College in the field and feed lot, from the Chautauqua platform and on farm to farm trips through various counties.

For use in these campaigns a "red-headed" poster bulletin has been printed. That head says in red type, "Use Pure-Bred Sires," and beneath this head are brief statements of the careful tests of the Experiment Station and the common experience of Missouri farmers which agree absolutely on this point. The station got much bigger profits by using a fair pure-bred mutton ram such as any farm sheep-raiser could afford instead of a scrub ram. They were used on western ewes which were equally good so far as the best judges could tell. From such a ewe the fairly good pure-bred mutton ram got a lamb which weighed 60 pounds and sold for $7.35 when three months old, but the scrub ram got from a similar ewe a poor lamb which weighed 56 pounds and sold for $4.50 when four months old. Fletcher Smart of Harrisonville, Missouri, used a good pure-bred boar on some average sows and got sixty good pigs which reached an average of 270 pounds and topped the Kansas City market at eight months.

The Pure-Bred Sire Means—	The Scrub Sire Means—
1. Uniformity.	1. Lack of uniformity.
2. Individual superiority.	2. Mongrels and misfits.
3. Early maturity.	3. Late maturity.
4. More marketable stock.	4. Poor market demand.
5. More money for your feed.	5. Less money for your feed.
6. Credit to the owner.	6. Discredit to the owner.
7. Bigger profits.	7. Loss; dissatisfaction.

These are some of the facts indicated by the poster, which explains why a survey of the live stock producers shows that those who are producing the good stock are the ones who stay in business when so many others are dropping out.

From the breeding standpoint the important steps are, (1) the use of tried pure-bred sires, (2) proper feeding of breeding animals, (3) careful culling of barren and poor-breeding females, and (4) replacing culls with the best females in each season's produce.

Since it costs little or no more to produce an 8-cent steer than it does to produce a 5-cent steer, the profits to be derived from producing live stock on corn belt farms is limited by the quality of the animals. Good sires must be secured and the herd must be carefully culled.

Last but not least, the marketing problem must be carefully handled. Co-operation with neighbors is often essential if purchases and sales are to be made to the best advantage. For this purpose breeders' and feeders' associations are desirable in many cases.—S. T. Simpson, Missouri College of Agriculture.

Another Great Holstein.

A card from Malcolm H. Gardner, superintendent of the Advanced Registry, Holstein-Friesian Association, Delavan, Wis., is as follows: "I am pleased to be able to report that the Holstein-Friesian cow, Queen Piebe Mercedes 154610, has broken the record for fat production in the junior four-year class of the semi-official yearly division, by producing in 365 days, 30,230.02 pounds milk containing 1,111.56 pounds fat. She freshened at the age of 4 years 4 months 22 days. Her sire is Sir Pietertje Ormsby Mercedes 44931; her dam is Queen Piebe of Fairview 71624. She was bred and is now owned by E. C. Schroeder of Moorhead, Minnesota. In the junior 4-year class of this division she displaces Milanhurst America De Kol 143441, whose record, strictly official for 365 days, is 26,433.4 pounds milk containing 985.08 pounds fat. If computed on the 80 per cent basis, the equivalent butter produced by Queen Piebe Mercedes would amount to 1,389.45 pounds; while in milk production she far exceeds any other cow of like age."

Prefers Poland Chinas on Mountain Ranches.

Nathan Hanck, of Humboldt county, a successful hog raiser, prefers the Poland Chinas for the reason, as he says, that they do not become wild when running on the mountain ranges. He is reported to have refused to sell his skim milk to creameries as he believes it is worth more for feeding his pigs than the creameries will pay for it. Mr. Hanck's hobby is to develop size at an early age and for this reason he has his ranch so arranged that an abundant lot of feed is always at hand, using, of course, the best methods of feeding, and his feeding pens and pastures are so arranged that little time is lost in shifting the stock from one pen or pasture to another. Alfalfa, clover, rye grass, oats and vetch comprise the different pasture crops, supplemented in the fall and winter with carrots and beets. Skim milk from his moderately sized dairy is always at hand, which he values highly as a splendid diet for his pigs and fattening stock.

One hundred and twenty-seven mares have been bred to Peter the Great 2:07¼ this season.

THE FARM

LIVE STOCK AND FERTILITY.

Here is what F. B. Mumford, dean of the Missouri College of Agriculture, has to say on the subject of "Livestock and Soil Fertility":

"The problem of the American farmer today is how to conserve the fertility of the soil and yet insure a reasonable income. In considering changing from grain farming to the raising of livestock, the farmer asks himself if this change has been successful in maintaining soil fertility. From the New England States westward to the Dakotas, he sees a trail of once depleted soils reclaimed by substituting dairying and stock farming for exclusive grain farming. The result of profitable systems of livestock farming on the poorest of soils is to be seen in Holland. Denmark is another example of a country whose soils were becoming depleted by wheat producing but where a system of livestock production conserved the soil fertility.

"Permanent success from exclusive grain farming has not yet been demonstrated, so modern farm practice is showing the importance of the development of animal husbandry. The close relation between the fertility of the soil and keeping of livestock is demonstrated at experiment stations and by the successful farmer. Productiveness of the acre of land is the main factor for which the farmer is everywhere striving. The presence of livestock invariably accompanies this desired condition."

FERTILIZING ALFALFA.

Alfalfa is a rich-land crop. Much of the difficulty in growing it can be attributed to the low fertility of the soils on which it is being tried. A crop that produces three or four, and occasionally five, cuttings a year requires plenty of plant food. The man who wishes to grow alfalfa on medium to poor land cannot expect high yields and in most cases he cannot secure a satisfactory stand without manuring or fertilizing.

In general, barnyard manure is the best fertilizer for this crop. Ten, 12, or even 15 tons an acre can well be supplied if the manure is available. A crop as valuable as alfalfa warrantsexpensive fertilization if necessary. The man beginning alfalfa culture on poor land had better limit the amount sown so that more manure will be available for use on this land.

If manure is available in small quantities only, fertilizers may be used in addition. On most soils the application of phosphates is usually accompanied by best returns. Three or four hundred pounds o facid phosphate or two or three hundred pounds of bone meal are applications which may be expected to give returns. The manure applied in connection with these fertilizers should be at the rate of six or eight tons an acre. Finely ground raw rock phosphate turned under with the manure at the rate of a thousand pounds an acre is a good application. Since this form of phosphate is rather slow in acting 200 pounds of acid phosphate may well be applied with the manure or drilled in deeply with a fertilizer drill after the seed bed is prepared.

It must be understood that some soils need lime in addition to fertilization, most of them need inoculation, and all require thorough preparation of the seed bed.

THE BEST LINIMENT

OR PAIN KILLER FOR THE HUMAN BODY

Gombault's

Caustic Balsam

IT HAS NO EQUAL

For the Human Body —It is penetrating, soothing and healing, and for all Old Sores, Bruises, or Wounds, Felons, Exterior Cancers, Boils Corns and Bunions, CAUSTIC BALSAM has no equal as a Liniment.

We would say to all who buy it that it does not contain a particle of poisonous substance and therefore no harm can result from its external use. Persistent, thorough use will cure many old or chronic ailments and it can be used on any case that requires an outward application with perfect safety.

A Perfectly Safe and Reliable Remedy for Sore Throat Chest Cold Backache Neuralgia Sprains Strains Lumbago Diphtheria Sore Lungs Rheumatism and all Stiff Joints

The LAWRENCE-WILLIAMS COMPANY, Cleveland, O.

BANKERS AID CATTLE INDUSTRY.

The part that banks can play in promoting the local cattle industry is illustrated by the action taken recently by a group of southern bankers. A few farmers in Gibson county, Tenn., started a movement looking toward diversification of crops by raising less cotton and increasing the number and quality of cattle. The movement was encouraged by the beef-cattle extension agents of the State college and the United States Department of Agriculture. All the banks in the county grew interested, and as soon as the group was ready to bring in a car of pure-bred cattle the bankers agreed to lend up to $15,000 to defray the cost.

Sixty-five head, including bulls, bred heifers, and cows with calves at foot, were delivered in the county, all in good condition, at an average cost of $150 per head, exclusive of the calves. These were distributed to individual farmers, not more than three head to any farm. The owners then either paid for the cattle or gave long-time notes at reduced interest to the banks. One bank acted as agent in the transaction for all the banks in the county.

The bankers figured that by helping the farmers to buy a large number of pure-bred cattle they not only would get interest on safe loans but would foster an industry the benefits of which would be accumulative and permanent in the locality. This is borne out by frequent experiments which have established that even a few good bulls introduced in a county soon have a marked influence on the size and quality of all local cattle.

DAIRY PRODUCTS SET NEW RECORD.

Dairy production in Fresno county set a new high water mark in its history both in the amount and in the total aggregate of receipts during the month of July. Estimates based upon the monthly report of the Danish Creamery Association, gives a production in round numbers of 300,000 lbs. of butter and a total amount of over $90,000, distributed between 1700 dairymen.

A normal price for butter, plenty of green feed for the stock, and an increased demand for Fresno county butter, augurs well for a profitable year for dairymen according to officials of the Danish Creamery Association.

During the month of July, 1915, the production for the Danish Creamery was 140,230 pounds butter fat, which was sold at $41,343.13. The average price for the month last year was the same as for July, 1916—30 cents per pound.

Indicative of the esteem in which shippers hold Fresno county butter is a large number of unfilled orders at the Danish Creamery. The association first applies its production to the local fields and to Los Angeles. In addition, they last month shipped several orders to Seattle and New York. Demands were made in Portland and San Francisco, for Fresno butter, all of which were refused.

"We could sell nearly double our present production," said one of the creamery officers recently. "Only last week we helped to fill a car to New York. They wanted more. Seattle now uses all our surplus and begs for more. Portland and San Francisco, too, continually ask us to ship them large quantities."

Far northern and southern markets bring better prices than locally, and for this reason, the creamery men of the valley are inclined to broaden their markets in those directions.

SUMMER CARE OF POULTRY.

Of course, plenty of shade in summer insures thrifty chicks.

Over-active cockerels should be removed at this time of the year and placed in a separate yard.

Food should be changed with laying hens. Add to the grain feeds a mixture such as bran, shorts, and corn meal.

Watch for head llce on the chicks. If found, rub top of head with a little lard free from salt.

Avoid crowding them by keeping in small flocks and by providing roomy coops. Leave them there until they forget to flock together.

Turnips sown at this time make a good fall and early winter feed for stock birds. Or try sowing a patch of rape for late green food.

Cull the growing stock often. Confine, fatten and market the culls. Let chickens intended for stock birds and layers have liberal range.

Broody hens should be removed to slat bottomed coops as soon as discovered. Leave them there until they forget it.

Clean fresh water lessens disease. Filthy drinking water invites it. Clean drinking vessels often during warm weather.

Supply an abundance of green food during these warm days . It saves the grain and keeps the birds in better condition.

Use brush, board and tent shelters in the yards to protect the fowls and chickens from the sun and showers.

A little blue ointment rubbed into the skin just beneath the vent and on the under side of the wings will cure lousy conditions.

Mites will accumulate if the droppings are not removed every week and the roosts sprayed with kerosense emulsion or coal-tar disinfectant.

After the grass gets tough chicks can catch more bugs and worms and will grow better on loose soil. The corn field furnishes ideal conditions.

Bury deeply all waste eggs and shells from hatching nests or from incubators. Burn all dead fowls or chicks. A little care here will save you dollars later.

Brooders not in use, and other furniture should be disinfected and laid away for future use. Dont neglect they—they cost money and are always handy.

WHY ROTATION IS RATIONAL.

Prof. J. W. Gilmore, University of California, writes on the rotation of crops to the following effect:

The demand for rotations and diversifications are usually brought about by depleted yields or qualities, and these arise out of deficiencies in the soil or from the presence or infestation o finsect enemies or fungous diseases. The purposes to be attained through a diversification or rotation of crops may be briefly enumerated as follows:

I. Reason bearing upon the crop-producing power of the land:

a. Cultivated crops, cover crops, and forage crops should alternate in order to maintain an optimum humus content in the soil.

b. A legume crop should appear on the land one year in four in order to maintain as nearly as possible the supply of nitrogen.

c. Alternate crops of different culture methods in order to maintain its good physical condition. This also includes crops of different food requirements.

d. Under some conditions a summer fallow must be included in order to conserve moisture and to augment available food supply.

II. Reasons bearing on the control of enemies:

a. Employ crops having different cultural methods, seasons, and structural characteristics, for the control of weeds, insects, and fungous diseases.

III. Reasons bearing upon economy in farm management:

a. Crops should be varied in order to insure continuous returns in time as well as amount.

b. A succession of crops should be planned so as to distribute as equally as possible both man and horse labor throughout the year.

In dealing with strong solutions of lime sulphur the fruit grower must protect himself. After his eyes begin to smart and his fingers crack open he learns that goggles and rubber gloves are splendid protection. Vaseline or lard smeared on face and hands afford relief. Heavy leather gloves are serviceable when greased or soaked with machine oil. Some men prefer miscible oils for dormant spraying, as they are more pleasant to handle. Arsenate o flead and bordeaux sprays in the summer are not so disagreeable.

Classified Advertising

CHESTNUT TOM 2:17¼ FOR SALE.

Chestnut Tom 43488, standard and registered, eighteen years old, but strong and vigorous, is offered for sale for a ridiculously low price. The late Martin Carter, who was one of California's most successful breeders, considered this horse one of the very best he ever bred for a sire. Chestnut Tom is sire of the dam of the coast champion Wilbur Lou (1) 2:19½, (3) 2:10¼, sire of Natal Day 2:13¼, coast champion two-year-old. The late Martin Carter bred Chestnut Tom for a broodmare sire. He is by Nutwood Wilkes, his dam is by Director and his grandam is the dam of his sire and by Nutwood. $150 takes him. Address GEO. T. ALGEO, 3608 Piedmont Avenue, Oakland.

RACE MARE WANTED.—Eligible to the 2:25 class trotting, one that can trot a mile in 2:15 on a mile track or 2:18 on a half mile track." Give full particulars in first letter as to price, age, condition, etc. Address BREEDER & SPORTSMAN, P. O. Drawer 447, San Francisco, Cal.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you. MAGNUS FLAWS,
542 S. Dearborn St., Chicago, Ill.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room houso, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

MODERN BREAKING

By W. A. BRUETTE

A revised edition of the latest Treatise on the Training of Setters and Pointers.

THIS book enables anyone to do his own training and fully explains the methods employed by the most successful trainers in developing the setter and pointer. The important lessons are illustrated by photographs from life; nothing is left to guesswork. The entire subject is covered, from the selection, raising and development of puppies to the conditioning of dogs and their handling in the field. The amateur is told, in lucid language, how to make a dog a high-headed, stylish worker, stanch on his points, steady to shot and wing, and a prompt, tender retriever; all of this is accomplished by simple methods, some of them never before given to the public. The instructions for correcting the faults of bird dogs and keeping them up to their training are concise and easily understood. Every man who owns a bird dog or shoots in the field should read this book.

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof*.

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an introductory offer:

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$3.30	36x4 in.	$17.45	$4.55
30x3½ in.	10.55	3.10	36x4½ in.	21.20	6.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices. a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only. *Descriptive folder upon request. Write for it.*

The Sport That Makes Men

Live, virile, sturdy men—quick of mind, keen in judgment, strong in character and vitality. That's the kind of men that

TRAPSHOOTING

produces. It fosters the inherent American love for a gun. It cultivates the spirit of fair play and the desire to excel. It adds to an efficient method of mental and physical training, the pleasure, the excitement and exhilaration of a good clean sport.

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

A TRIO OF STATE CHAMPIONSHIPS GO TO *Remington UMC* SHOOTERS

MAINE **RHODE ISLAND** **WYOMING**

East and west, north and south, Remington UMC shotguns and "Speed Shells," Arrow and Nitro Club, continue to maintain proof of their superiority. The majority of men who make shooting history in this country use Remington UMC shotguns, shot shells or both. Keen competition compels the crack shot to use what, in his opinion, is the best he can buy. Witness the State Shoot records below:

MAINE

Maine State Championship: Won by E. A. Randall, Portland, 93 x 100, and 19 x 20 in shoot-off, shooting Arrow Speed Shells. 2nd: A. H. Waldron, Richmond, 93 x 100 and 18 x 20 in shoot-off, shooting Nitro Club Speed Shells.

"Six States" Championship: Won by E. A. Randall, 95 x 100, shooting Arrow Speed Shells. 2nd: P. E. Osborne, Boston, 94 x 100, shooting Nitro Club Speed Shells.

RHODE ISLAND

Rhode Island State Championship: Won by W. J. Weaver, Edgewood, 95 x 100, shooting Nitro Club Speed Shells.

For Winnington—Remington UMC, The Direct, Sure Route

WYOMING

Wyoming State Championship: High score made by R. A. King, of Delta, Colorado, 100 x 100 (not eligible, non-resident), shooting Nitro Club Speed Shells. 2nd: high score, Herman Schnack, Forsyth, Montana, 97 x 100, shooting Nitro Clubs. 3rd: Fred Oswald (tied with winner), Buffalo, Wyoming, 95 x 100, shooting Remington UMC Pump Gun and Nitro Clubs, lost in shoot-off.

Wyoming State Handicap: Won by W. H. Terrant, Buffalo, Wyoming, 93 x 100, (20 yds.) and 20 x 20 in shoot-off against H. Saul, 19 x 20, (19 yds.), Mr. Terrant shooting a Remington UMC Pump Gun and Nitro Club Speed Shells and Mr. Saul, Nitro Clubs.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

SWINE

Big profit should come from your hogs. If you fail to make money something is wrong. Professor Day has an international reputation and his knowledge set forth in PRODUCTIVE SWINE HUSBANDRY gives you just the facts to make your pig pens money producers. Millions of dollars have been spent in experimenting and the author gives you the results. It is practical, not theoretical, of absolute necessity, not superfluous. You must learn the practical money-making science of raising hogs for the market.

There are 95 illustrations and 363 pages. Lg. 8vo. Handsome cloth. $1.50 net. Postage and express charges extra.

SOLANO COUNTY FAIR A BIG SUCCESS.

The first county fair ever held at Dixon, Solano ounty, was a big success. The fair opened on Vednesday of last week and continued for four ays. The attendance was excellent and the exhibts numerous and would have done credit to a longer rganized and more pretentious association. Solano ounty is one of the richest in the Sacramento valley nd its people among the most prosperous. The xhibits of horses, cattle, sheep, swine and poultry ere up to State Fair standards, while the display f fruits, grains, etc., was very fine. The Solano ounty Fair Association is to be complimented on he splendid showing made in this first attempt to ive a county fair. The races over the splendid half ile track drew good fields of starters and were well ontested. While this track is rather narrow and he turns a little sharp, the excellent soil on which he track is built, and the perfect condition in which t was kept during the entire week, made racing over t a pleasure to the horsemen. The stalls were all oomy, well shaded, newly whitewashed inside and ut, and the space in front of them covered several nches deep with new bright straw. The trainers all ay that the Dixon stalls and track were in perfect hape and no cleaner, more convenient training plant s to be found on the Pacific coast.

The races opened on Wednesday with the 2:20 rot, in which the Morris A. gelding Dick W. won wo heats and Eloise Dell one. The second race was he free-for-all pace, with four starters, Jim Logan, eata J., Teddy Bear and Vera Hall, and they finshed in that order with Jim Logan making every eat a winning one. Leata J. went lame in this ace and will be retired for the season as a matter f precaution.

Thursday Teddy Bear came out again in the 2:10 ace and won it handily, while Fred Chadbourne on his second race of the meeting when he landed on Cres in front in every heat of the 2:15 trot. on Cres has now won four races, all his starts this ear.

On Friday the 2:20 pace made a most interesting ace as there were six starters. Mr. Geo. Giannini's teady little pacer Bold Harry Aerolite, well driven y Geo. Machado, was at the wire first in every heat, with Lock Logan the contestant in the first and second heats and Mono Ansel in the third.

Eloise Dell trotted an excellent race for M. C. Delano in the 2:30 trot, winning in straight order without lifting her head. This mare will lower her record before the season ends.

Saturday, the closing day, brought out a very large crowd to see the free-for-all pace, and again Jim Logan, a Solano county product, showed himself the fastest. He made a break in the first heat and Teddy Bear was first at the wire in 2:09¼, a remarkable mile for the little stallion in his third race in four days. Logan took the next two heats very handily, however, and received an ovation from the crowd at the finish of each heat. Vera Hal went a great race and was the contender in each heat. This race ended a program that, while it was without any sensational time, furnished most excellent sport and was greatly enjoyed by all who attended. The starting by William Higginbotham was fully up to the high standard he set at Santa Rosa the week previous and was highly spoken of by all.

The Solano County Fair Association, its enterprising president Harry McFadyen, its efficient secretary A. C. Madden and its board of directors, deserve much credit for the very able and successful manner in which they have handled this, Solano county's first annual fair. The racing summaries:

The Inyo County Fair.

The Inyo County Fair and Stock Show will open at Bishop September 28th and continue three days. Purses of $200 each are offered for different classes of trotters and pacers, and $100 for running events. The association advertises free stalls, free hay and free transportation from the railroad station to the track and from the track back to the station. Bishop is a live town and a fine stock show will be held. A. Marshall is Secretary and Guy L. Furley speed superintendent. Mr. Furley was formerly a resident of the eastern states and raced Barney L. 2:08¾ with fair success in 1908. The Southern Pacific Company has granted the fair association a one-way rate on all live stock exhibited at the fair, which is a big concession. If you desire to race at Bishop, write to Mr. Guy L. Furley, Bishop, Cal., at once for stalls. The advertisement will be found in our business columns this week and entries close Monday next, August 28th.

Ventura County Fair Races.

Entries for the races at Ventura County Fair will close on Monday next, August 28th. The fair is to be held September 13th to 16th inclusive and $3000 has been appropriated for speed events. $500 is given for a pace for Ventura county horses and $600 for a pacing event, free-for-all. There is $250 for 2:20 trot or pace, $250 for a 2:18 class trot or pace, and many purses for runners, chariot races, Wild West performances, etc. Ventura has an excellent half mile track and good accommodations for both men and horses. Make your entries by Monday next with L. P. Hathaway, Secretary.

The Western Horseman of Indianapolis has the following to say about the three heat plan which has been tried so generally this season:

The season is now far enough advanced so that each one of us considers himself perfectly competent to criticise various phases of present racing conditions, and further licensed to pronounce some particular part of the complicated mixture of racing systems that are in use, as wholly inadequate for the best interests alike of associations and horsemen. Incidentally, it may be said that there are few of us who are neglecting to take advantage of the opportunity outlined herewith. This journal has consistently advocated the three-heat or so-called 'every-heat-a-race' system as being nearest to the ideal racing system of all those that have been brought before the public. We are aware that flaws may be found in its structure and that the conclusions that may be drawn at the end of contests occasionally leave an indefinite idea as to what horse really won, but of the numerous plans that have been in use or have been advocated we believe it stands foremost for the promotion of real racing, and is the freest from the danger of speculative manipulation.

Just now with numerous associations using it, including some Grand Circuit organizations, we find the three-heat system a favorite target for attacks, and it must be admitted that there are vulnerable points in it. Undoubtedly the most unsatisfactory outcome of the system is that which is found when some horse has won two heats, then sagged back sadly and given way to some one of the field that won so impressively in the third mile as to give the opinion to the audience that he constituted the class of the entire lot. It has been said often that the public desire a decision in any contest and the conclusion of a race in which two heats have been won by a horse which was unable to cope at all with some other in the final heat of the race unfortunately shows an absence of a definite conclusion. Yet to those who so lament the absence of a decision in this instance it may be pointed out that under the familiar three-in-five system, a real decision was often lacking, insofar as it was based on the real merit of the individual performers. How often has it been observed that the winner of a long drawn out contest has been saved in the early period of the race, while the fastest of the field exhausted themselves in a vain effort to win first money. The history of harness racing will give numberless instances of five, six and seven heat battles where the eventual winner finished back in the ruck during the early heats and came on and won after the time had fallen back to what represented his speed ability. There may be legitimate defenses of this plan of racing, as some maintain, but it certainly is not the purpose of the turf governing bodies to bring about such an outcome in any instance. If so, why the efforts to make every horse race for every heat, and the many instances of fining for laying up heats?

The point system aimed to clear up this defect of laying up heats, by penalizing the performer that laid up, but abuses followed in the wake of the system that are grave, to say the least. During the present racing system we note a glaring instance of the subversion of the intent of the system by a horseman who is landing a trotter right along at or near the top of his summary, and to date has not won a single heat. In one instance he got away with first money and in another shared first and second moneys with another horse that had won heats. Instances of this kind may not be very numerous, but are too common to make the system very popular, we believe.

On the other hand, we have in the three-heat system the condition that each horse gets paid for what is earned in each heat. The driver who lays up gets penalized by getting nothing for the heat in which he lays up, while those who are for it get the money. Another good feature is continually showing up, when some performer of merit, through some misfortune, is caught in a wreck and is distanced after winning a heat, or perhaps two. Under the old plan such a performer would get nothing, even though the outcome of the race was no reflection on his ability, but under the three-heat plan his pay for the heats won is secure.

A continual point of attack is that with three heat winners at the end of the three heats specified to be raced there is absolutely no decision, but this outcome, which is not at all unusual, it must be said when horses are paid for each heat, is avoided by such conditions as prevailed at the late meeting at North Randall and which will again be in use at the meeting there next week. The association provides that a certain sum to be paid to the winners of the race is decided in such a contingency by the heat winners racing a fourth heat. Thus the same conclusion is arrived at that obtains in the two-in-three plan and no complaint may be made as to the lack of a decision.

In the three-heat plan we find one not at all free from criticism, but on the whole an advancement over the plans that have been in vogue for so long. Perhaps a more general use of the system may develop other defects; perhaps it may turn the tide of adverse criticism to higher commendation. In any case we trust that more associations will try out the system. It has no mystifying complications in its original composition and only by the attachment of useless and confusing conditions that in the end mean nothing for good or ill, does it become misunderstandable to horsemen.

Harness Horses and Horsemen

A New Stallion Champion.

The champion trotting stallion record of 2:01, established by The Harvester six years ago at Columbus, Ohio, was displaced on Tuesday last at the North Randall track, near Cleveland, when Lee Axworthy, a five-year-old son of Guy Axworthy, trotted against that record and finished the mile in 2:00¼, coming within a fraction of the two-minute mark and doing it in such a manner that the horsemen present freely predicted that he would trot well inside the mystic 2:00 circle before the end of the year and probably get very close to the 1:58 of the gelding Uhlan or the 1:58½ of the mare Lou Dillon. It was the first appearance of the Pastime Stable trotter this season, but he was ready. He was driven by Ben White. With two runners accompanying him to lend encouragement, he went to the quarter in :30½, the half in 1:01¼, the three-quarters in 1:30¾ and the mile in 2:00¼, the last half in 59 seconds.

Lee Axworthy, as before said, is by Guy Axworthy, he by Axworthy out of the California bred mare Lillian Wilkes that was by Guy Wilkes out of Flora Langford, by the old four-mile runner Langford. Lillian Wilkes took a record of 2:17¾ in a race for three-year-olds at Petaluma in 1889, therefore to high wheels, and in that race she defeated Sunol and Margaret S., both of which attained great fame thereafter. The dam of the new champion stallion is Gaiety Lee 2:16¾, dam of Gay Moko 2:23 by Bingen 2:06¼, second dam The Gaiety Girl 2:15¼ by Red Wilkes, third dam Maggie H. by Homer, son of Mambrino Patchen, fourth dam Miss Knight, a thoroughbred mare by imported Knight of St. George.

James W. Marshall Sells All His Horses.

During the Solano County Fair last week Mr. Roy D. Mayes, of Dixon, who has large property interests in Solano county, purchased from the well known Solano county breeder, Mr. James W. Marshall, all the broodmares, colts and fillies owned by that gentleman. The animals purchased include that fast three-year-old filly Verna McKinney (3) 2:09¼, the fastest three-year-old pacer of 1916 and winner of the Pacific Breeders' two-year-old pacing stake last year at the P.-P. I. E., also the broodmares Ramona (dam of Verna McKinney 2:09¼, Del Rey 2:03¼, etc.) by Demonio 2:11¼, Leota 2:23 (dam of Dixon Boy) by Diablo 2:09¼, out of the famous mare Trix Marshall by Nutwood Wilkes, Zoe Trix 2:13¼ by Zolock 2:05¼ out of Trix Marshall, Bernice Marshall by Owyhee 2:11 out of the famous mare Bertha, dam of 13 in the list by Alcantara, and Baldy Pointer by Star Pointer 1:59¼ out of Trix Marshall. Leota was bred to Jim Logan 2:01¾ this year, Baldy Pointer has a filly at foot by Jim Logan and has been bred to James Thompson's Gen. Watts colt, one of the best bred and handsomest young horses in California, Ramona and Bernice Marshall have both been bred to Vernon McKinney 2:01½.

With the sale of these horses to Mr. Mayes, Mr. Marshall has retired from horse breeding and will devote his entire attention to other stock in which he is heavily interested, having recently gone into the sheep business on a large scale, and is also breeding pure bred sheep and swine. Mr. Marshall has been one of the most successful breeders of fast pacers in California. He first purchased the mare Trix Marshall by Nutwood Wilkes and from her he raised Mona Wilkes 2:03¼ by Demonio, Aerolite 2:06¾ by Searchlight, Moortrix 2:07½ by Azmoor, Sirius Pointer 2:15 by Star Pointer, Zoetrix 2:13¼ by Zolock, and several other standard performers. While his band of broodmares has been small Mr. Marshall's success in winning money in the futurities has been remarkable. Mona Wilkes won in these stakes $1317, Aerolite $936, Moortrix $408, Sirius Pointer $188, Zoetrix $250, Dixon Boy $150, and Verna McKinney $825, a total of $4,074, and he sold every one of these horses for a good price. Mr. Mayes, who has now purchased all of Mr. Marshall's horse stock, is an enterprising young man of means who will continue along the same conservative lines that have proven so successful on the Marshall farm. Messrs. Sutherland & Chadbourne, who have trained all the Marshall colts and fillies with such success, will continue to handle the Mayes horses and the youngsters entered in the stakes. Mr. Mayes will have the good wishes of every horseman in California in his new venture.

Free for All Pace at State Fair.

While all the horses entered in the free-for-all pace, which is carded for Thursday, Sept. 7th, at the California State Fair, will not be ready to score for the word, there should be at least six starters out of the original nine entries. Leata J. pulled up very lame after her race at Dixon, was sent home from there and will probably not start again this year. Mr. Jones says he does not think her injury is permanent, but will take no chances at making it so, and will throw her out of training. From the form shown at the two meetings already held the race will be between Jim Logan 2:01¾, Rastus 2:04¾, Teddy Bear 2:05 and Vera Hal 2:05. Rastus beat the field at Santa Rosa two heats and Jim Logan won the final. Rastus was not at Dixon where Jim Logan won both races, but made a break in one heat the last day and the heat went to Teddy Bear in 2:09½, good time for a half mile track. Vera Hal was never worse than third at Santa Rosa and at Dixon was 3-3-2 the first day and second in every heat the last day. Teddy Bear, only out of the stud since June 15th, looks to be as fast a horse as he ever was and if the four mentioned are in good form September 7th there will be a horse race worth seeing. If there was betting Jim Logan might be made a slight favorite over Rastus, but since the latter's race at Santa Rosa there are many who think he will be in the lead or fighting for it in every heat. O. U. C. has not appeared as yet on the circuit, but has been kept eligible and may be a contender as he has great speed.

A Promising Three-Year-Old.

Mr. D. W. Wallis's three-year-old filly Julia M. that divided fourth money in the Pacific Breeders' Futurity for three-year-old pacers at Santa Rosa this month with Surety, was a starter in the 2:13 class pace at Dixon last Saturday, where she met a field of aged horses. There were eight starters in this race and Julia M. won third money, which was a very creditable showing. She was 5-2-3 in the summary and paced a good race over the half mile track. She was a good third at Santa Rosa in the fastest heat of the race, won by Verna McKinney in 2:09¼ and paced very close to 2:10 in that heat. She was also close up at Dixon in 2:13¼, which was as good a mile as she paced at Santa Rosa. Julia M. was bred by Mr. Wallis at his farm at Los Banos. She is by El Angelo 57039, a young stallion bred by T. W. Barstow of San Jose, but now owned by Mr. Wallis. He is by The Angelus, an inbred McKinney by Zombro, out of a daughter of Nearest, son of Nutwood Wilkes. Julia M.'s dam is Search Lida, a mare by Searchlight out of the dam of Nutwood Wilkes, so that there is a doubling up of the Alcyone and Nutwood blood in her veins. Julia M. is certainly a very speedy as well as a very game pacer and when fully matured should be winning races in very fast time.

Bold Harry Aerolite Has Not Lost a Heat.

Mr. Geo. Giannini's pacer Bold Harry Aerolite was only hitched up once between his race at Santa Rosa and his race at Dixon, both of which he won in straight heats. His heats at Santa Rosa mile track were in 2:07¼, 2:11 and 2:08¾, and over the Dixon half mile ring were in 2:14½, 2:13½ and 2:16¼. As he has an ailing leg Machado, his trainer, thought he needed no fast work, so led him at a slow jog to halter for exercise and only gave him one slow work to cart during the week's interval between the races. His win was a very popular one at Dixon, where his sire, Aerolite 2:06¾ was bred by J. W. Marshall. Bold Harry Aerolite is one of the best headed race horses that has been seen on the California circuit, and in his races attends strictly to business. He can be rated, will stand a drive whenever it is asked of him and do his level best at all times.

Dan Hoffman Will Race Howard's Comet.

Among the horses that raced at Santa Rosa during the Breeders' meeting this month that showed speed but failed to get any of the money was Howard's Comet, a trotter that started twice that week but had the misfortune to be distanced both times. In his first race he went to the half mile post in 1:04½ in the lead and finished last with the heat in 2:11¼, and was distanced the next heat in 2:11½. In his second start he repeated this performance, and it is reported that his time to the half the first heat was 1:02½, showing that he has plenty of speed. Howard's Comet was bred by Mr. P. J. Howard of Alameda. He was sired by Mr. Howard's stallion Teddy Rey, son of Monterey 2:09¼ and a mare by Diablo 2:09¼. Comet's dam is a mare by Campaign, son of Electioneer. The horse has been in the hands of Millard Sanders this year and he still has faith that he will make a race horse. After the Santa Rosa meeting Dan Hoffman, the well known liveryman of this city, entered into negotiations with Mr. Howard and Comet will be raced in Mr. Hoffman's name at the State Fair, where he is entered in the 2:15, 2:20 and 2:30 trotting events, each for a purse of $1000. Millard Sanders will continue to train and drive him, and it is hoped that Howard's Comet will trot his heats in the time that he is capable of showing. If he does, Mr. Hoffman and Mr. Sanders will both be rewarded for their determination to give the horse another chance.

When M. C. Delano Drove Stam B.

It brought back memories of great racing on the Pacific Coast twenty-one years ago when Dr. M. C. Delano, the popular veterinarian of Sacramento, was seen up behind Chas. Silva's mare Eloise Dell in the 2:30 trot at Dixon, a race by the way that the daughter of Alconda Jay won in straight heats. It was in 1895 that those two great three-year-olds, Zombro and Stam B., met on the coast circuit, and Mr. Delano was the man who trained and drove Stam B., C. A. Durfee being the trainer and driver of Zombro. There was betting by the auction and mutual systems in those days and money went into the pool boxes in large sums whenever the two colts met. Stam B. started eight times that year and Zombro seventeen. They met five times as three-year-olds. At the Breeders' meeting held in July at Sacramento Stam B. won the first, third and fourth heats, Zombro the second heat. August 14th the colts again met at Napa. Stam B. took the first and second heats in 2:19½ and 2:16, and Zombro the next three in 2:16½, 2:15¾ and 2:15¾, with Stam B. the contending horse every time. There were eleven three-year-olds in that race. At Woodland two weeks later Zombro won in straight heats with Stam B. second. At the State Fair the following week neither was eligible to the Occident or Stanford stakes for three-year-olds, so were entered in the 2:14 trot against aged horses. Those who were present will never forget how Zombro was only beaten by a neck by Iago the first heat in 2:11. Iago won in straight heats, Zombro being 2-3-2 and Stam B. 4-2-3 in the field of six starters. At Ventura Zombro and Stam B. did not meet, but each won a race and at Los Angeles, after each had won a race in which the other did not start, they met in a purse of $1000 for three-year-olds and Zombro again won in straight heats. Whenever the two colts met in a race they were the contenders for first money. The three-year-olds out that year were as high class as any field of three-year-olds that has appeared since. Besides Zombro and Stam B. there were Jasper Ayers, Dr. Puff, Stamboulette, Silver Ring, Lottie, Sidney Howard, Stella, Carrie C., Auditor, Our Seth, Iran Alto, Cressida, Potrero, La Belle, Nordica, Miss Jessie and Corinne Neilson, nearly all of which achieved fame on the track or in the breeding ranks. When one thinks of the many improvements in sulkies, shoeing, booting, etc., that have been made since then, one is tempted to express the opinion that so far as California is concerned the three-year-old trotters of 1916 are of no higher class than they were in 1905, when M. C. Delano was driving Stam B. against Zombro, the greatest three-year-old ever raced on this coast.

Spriggan Not Over His Illness.

Spriggan 2:08¼ was a very sick horse at Cleveland and while he improved and seemed to be rounding to, he was scratched from the most important of his engagements until the meeting at the Monroe, New York, half mile track where he started on the 9th inst. in the 2:12 trot, the half mile track allowance of four seconds permitting him to start in that class. It was a fast race during the first three heats, the miles being in 2:11¾, 2:12¾ and 2:10¾, and Spriggan was 3-3-4 in a field of ten starters, but had to be withdrawn. The race went to six heats and was won by M. L. J. 2:09½. It is to be hoped that Spriggan will entirely recover and that Messrs. Dunne & Lowery will get a chance to start him when he is right, as prior to his illness at Cleveland the winner of the $20,000 stake at the P.-P. I. E. last year showed more speed than ever before and looked like a sure 2:05 trotter.

Oregon Trainer Has Two Good Pacers.

Fred Woodcock brought down a couple of good pacers from Oregon to race here in California before returning for the northern fairs. At Santa Rosa he won second money with Captain Mack by The Bondsman in the Pacific Breeders' Futurity for three-year-old pacers, getting $425 out of that stake, and also took second money in the 2:10 pace with Hal Paxton, a son of Hal B. 2:04¼. Hal Paxton was 2-2-1 in that race, taking a mark of 2:10, a quarter of a second below his former record, and got $166.65 out of the purse. At Dixon last week Hal Paxton showed up lame in the 2:10 pace on Thursday and making a break was distanced the first heat, but recovered by Saturday and won the 2:13 pace in straight heats in a field of eight. Hal Paxton is out of a mare by Altamont and if he meets with no accident should get a record close to 2:05 before the season ends. On the programs his dam is given as Coltie by Altamont but in the Year Book it is stated that his dam is Altalena (dam of Sunny Jim 2:11½) by Altamont, grandam Laska by Rockwood.

Peter Scott May Start on Monday.

For the opening day of the Grand Circuit meeting at Poughkeepsie, on Monday, August 28, the management has provided about the best program of the week. One of the races is for trotters of the 2:05 class, in which it is expected that Peter Scott 2:05½, Joan 2:04¼, Bonington 2:04¼, and Mary Putney 2:05½ may be among the starters. Another is the $2,000 Vassar purse, for two-year-old trotters, in which Mary Coburn, The Real Lady, Harvest Gale and others of 2:10 speed are entered. Then there will be the race for 2:03 pacers and the race for 2:12 pacers.

Good at Both Gaits.

Peter Worthy, that took a pacing record of 2:09¾ last year as a three-year-old, was started in a pacing race this year on August 8th and not performing to the satisfaction of his owner was shifted to the trot the next week, and after three work-outs at this gait was given a breeder's record of 2:22¾ at Goshen August 17th. He is by Guy Axworthy out of a mare by Peter the Great.

Louis Titus, of California, proprietor of the famous old Stony Ford Farm in Orange county, New York, has concluded to abandon the training department of the farm and will close out the majority of the colts, and about thirty matrons. Of the ninety-odd head on the premises, about 20 or 25 brood mares will be retained, along with the rising young sire Justo 2:08¼, Airdale (4) 2:09, Anselila (1) 2:17½, the champion yearling filly, etc.

ACIFIC BREEDERS' FUTURITY STAKE NO. 16.

A large percentage of the original nominations in acific Breeders' Futurity Stake No. 16, for foals of is year, was kept eligible on August 1st, when xty-two second payments were made, as follows:

N. Anderson's b g by McDillon, dam Della Derby by Chas. Derby.

P. Berry's br c Mandalay by Logan Pointer, dam Thelma I. by Dictatus.

L. Borden's foal by Barney Barnato, dam Cleopatra by Zolock.

. L. Carey's ch f Quinie Star by Hallie's Star, dam Quinie Direct by Quintell.

. Christenson's foal by True Kinney, dam Ella J. T. by Bob Mason.

J. Cornett's foal by Vernon McKinney, dam Malvina by Oh So.

azen Cowan's foal by Guy Dillon, dam Nettie M. by Dixie B.

. H. Cowell's foal by Peter McKlyo, dam Dione II by Cupid; foal by Panama, dam Hulda C. by Dexter Prince; foal by Peter McKlyo, dam Eleanor Sears by Searchlight.

. L. DeRyder's foal by Vernon McKinney, dam Arawanna B. by Sidney Dillon.

. F. Dunne's bl f by Mahomet Watts, dam Letter B. Jr. by Benton Boy.

. G. Durfee's b c by Carlokin, dam My Irene S. by Petigru; foal by Carlokin, dam Atherine by Patron; foal by Carlokin, dam Honey Healey by Zombro; foal by Carlokin, dam De Ora by Copa de Oro; foal by Carlokin, dam Subito II by Del Coronado; foal by Carlokin, dam Ezelda by Del Coronado; foal by Carlokin, dam Nonie Girl by Petigru; foal by Copa de Oro, dam Pavlowa B. by Petigru; ch c by Copa de Oro, dam Subito by Steinway; foal by Copa de Oro, dam Ida Sours by Thoroughbred; foal by Copa de Oro, dam Leonor McKay by McKinney; foal by Copa de Oro, dam Truly II by Prince Ansel; foal by Copa de Oro, dam Rosebud by Direcho.

os. Errington's b c by Vernon McKinney, dam Azrose by Azmoor; b c by Vernon McKinney, dam by Searchlight.

Vm. M. Ferguson's rn f Miss Helmont by Alton, dam by Jay Bird.

. L. Gilpin's b c by Palo King, dam Beautiful Morn by Iran Alto.

on Harkins' b c by The Proof, dam Belle Bow by The Bow.

Iemet Stock Farm's foal by Wilbur Lou, dam Zeta W. by Nutwood Wilkes.

I. A. Hershey's foal by Jim Logan, dam Palo Maid by Palo King.

has. Johnson's b f by Airlie Demonio, dam Star Logan by Star Pointer; b c by Airlie Demonio, dam May Logan by Diablo.

. W. Longley's bl or br f by Bond Silk, dam by Sidney.

. J. MacKenzie's foal by Mahomet Watts, dam Martha Spy by The Spy; foal by Quintell, dam Baroness Psyche by Baron Review; foal by Mahomet Watts, dam Mildred by Togo; foal by Mahomet Watts, dam Zombro Belle by Zombro; foal by Joe Patchen II, dam by Carlokin.

. W. Marshall's br c by Jim Logan, dam Ramona by Demonio; b f by Jim Logan, dam Baldy Pointer by Star Pointer.

oy D. Mayes' foal by Jim Logan, dam Bernice Marshall by Owyhee.

. E. Montgomery's b c by Jim Logan, dam Ruby C. by Palo King.

heo. Mueller's b c by Richard Alto, dam Madge by Mechanic.

has. W. Paine's foal by Peter McKlyo, dam Sweet Edina by Zombro.

. E. Pollock's b c by Vernon McKinney, dam Gracie Pointer by Star Pointer.

. H. Rosseter's foal by Guy Dillon, dam Girlie by Stanford McKinney.

eo. F. Ryan's foal by Vernon McKinney, dam Miss Harris by Sidney Dillon.

V. L. Selman's ch c by Otis Jr., dam Miss Delta by J. J. M., Jr.

. E. Short's foal by Skidoo Wilkes, dam Honda Girl by Rubino; foal by Wild Nutling, dam Rubber Girl by Skidoo Wilkes.

has. F. Silva's foal by Teddy Bear, dam Normonio by Demonio.

. B. Spooner's b c by Morris A., dam San Luis Belle by McGinnis.

. H. Todhunter's bl f Jean McKlyo by Peter McKlyo, dam Leavinettie by Zombro.

alencia Stock Farm's s c Mars by Pegasus, dam Rose Girl by Amado.

. W. Wallis' b c by Bondholder, dam Mary W. by Dictatus.

. Wempe's foal by Peter McKlyo, dam Plumado by Advertiser; foal by Zomblack, dam Belle Alwin by Lord Alwin.

I. L. Woy's br f McKinney B. by Stanford McKinney, dam Loma B. by Stam B.; b c Woy's Express by Expressive Mac, dam Florence B. by Bon Voyage; br f Alice W. by Expressive Mac, dam Strathalie by Strathway.

Princess Derby 2:13¼ by Chas. Derby, dam by Administrator, is the dam of Derby Custer, that took record of 2:07¾ when he won the 2:17 pace at ittsburg August 10th. Durfee's Contention B. was econd to Derby Custer in the heat.

MEETING AT VANCOUVER.

The first day's racing at the Vancouver Exhibition furnished good sport. The 2:20 pace and 2:24 trot were both won in straight heats by horses driven by the veteran Frank D. Loomis, who demonstrated that he had lost none of his old-time ability. The winner of the pace was the chestnut gelding Prince Malone by Kinney Lou, dam E. D. Gould's good mare Princess Bessum, and it looked as if the winner had something left in each heat. Hal Stewart put up a good fight and won second money and Lady Tango was third.

The 2:24 trot was won by Frank D. Nichol, a son of the former champion Cresceus 2:02¼ and Silverpan by Silver Bow. At no place was the winner extended.

The running race, one mile, was won by Ado, Sorrowful second and Gerds third. Time, 1:46¾.

The second day's racing was even better than the first. The 2:15 trot was won by Copius, a gelding by La Copia, J. F. McGuire getting second money with his stallion A. R. G., and J. B. Stetson winning third money with True Kinney. The finish in each heat was decidedly close, and the time made was good for a half mile track not in the best condition. An accident happened to Floradora Z. in the first heat and she was drawn. It was a great disappointment as she had worked in 2:11¼ and was considered real good.

The 2:15 pace was a good race and was won in straight heats by Ted Bunch with Zombrino, showing remarkable speed in the finishes and winning easily.

The junior amateur trot had six starters and was won by Princess Flomin, driven by C. A. Harrison. Princess Flomin is a three-year-old by Nearest McKinney, dam Princess Bessum, and while her time was not fast she developed considerable class, having been on grass since July 1st and then shipped from San Francisco via Seattle by boat without blanketing or other covering, and was not considered a contender.

The fourth race was won by the brown mare Queen Director after losing the first heat to Del Bar.

The half mile running race went to Ducal Crown, Salata second, Floxie third and Tiger Bell fourth. Time, 0:54½. Sumaries:

2:20 pace, purse $500; three heats:

Prince Malone, ch g by Kinney Lou....(Loomis)	1	1	1
Hal Stewart, br g by Hal Mercury.(MacCullough)	2	2	2
Lady Tango, b m by Belmar.....(Wilson)	3	3	3
Nic Nac, br g by Alcove.....(Russell)	4	4	4
Montana Bell, b m.....(Wright)	5	5	5
Macfoster, b g by McEwen.....(Millington)	6	6	6

Time—2:15½, 2:15¾, 2:15¼.

2:24 trot, purse $200; B. C. horses; three heats:

Frank D. Nichol, b h by Cresceus.....(Loomis)	1	1	1
Chromo, blk g.....(Bell)	2	2	3
Special Blend, b g by Burtwood.....(Wilson)	5	4	2
Susie G., br m by Greco B.....(Steeves)	3	3	4
Fera Montana, blk m by Montana.....(Hawks)	7	5	5
Blue Bells, br m by Monochrome.....(Jordan)	7	5	6
Amaline Lou, br h by Kinney Lou.....(Steele)	6	6	7

Time—2:24¼, 2:24¾, 2:26.

2:15 trot, purse $500; three heats:

Copius, b g by La Copia.....(McGirr)	1	1	1
A. R. G., b s by Gumar Hal.....(McGuire)	2	2	2
True Kinney, b s by Kinney Lou.....(Urban)	4	3	3
Oakland More, br g by Oakland Baron (Squires)	5	4	
Floradora Z., b m by Zombro.....(C. Quion)	3	dr	

Time—2:17¾, 2:20, 2:16¾.

2:15 pace, purse $500; three heats:

Zombrino, b h by Prince Zombro.....(Bunch)	1	1	1
Sir Wilfred, b g by Leland Onward.....(McGirr)	3	2	2
Allerton Direct, b h by Baron Direct.(McGuire)	2	3	4
Sally H., b m by Hal Monte.....(Lindsay)	4	4	3
Lena Patch, blk m by Oregon Patch....(Brown)	5	5	5

Time—2:14½, 2:19¾, 2:13¾.

Junior Amateur Trot, purse $100; three heats:

Princess Flomin, b m by Nearest McKinney.. .....(Harrison)	3	1	1
Max Seal, b s by Red Seal.....(Hodgins)	1	5	3
Maybells, b m by Walter Barker...(McCullough)	5	2	2
McKinney Patchen, b h by Bonny McKinney.... .....(Loomis)	2	3	4
Sweet Nut, b m by Burtwood.....(Milloy)	4	4	5
Bonladi, blk m by Bon Voyage.....(Bell)	6	6	

Time—2:41¾, 2:37¼, 2:40¼.

The following are the officials for the meeting: Superintendent, W. C. Brown; Starter, Alderman Mershall; Judges, Mayor McBeath, C. A. Harrison, A. R. Miller; Timers, D. W. McDonald, W. C. Grassie, and Mr. Trousdale. Clerk of Course, R. H. Gordon.

LAST TWO DAYS AT COLUMBUS.

Columbus, Aug. 17.—By winning the Athletic Club $5,000 stake for 2:08 trotters today, Mabel Trask, the chestnut daughter of Peter the Great owned by Barton Pardee, Lock Haven, Pa., established a new world's record for a five-heat race, displacing the old event won by Brace Girdle over this track in 1911.

In that race Billy Burke won the first heat in 2:03¾, Hail Worthy the next in 2:05¼ and Brace Girdle the next three, in 2:05¼, 2:08½ and 2:07¾.

This victory made the season's score of the trotting duels between Mabel and St. Frisco stand four to one in favor of Mabel Trask. St. Frisco was the talent's choice, with Mabel Trask selling second best, the others being in the field. The Geers horse was in top form, as was shown in the second heat, when he trotted in 2:03¼, the fastest mile trotted in a race this year.

For the first heat Guy Nella drew the pole, Miss Perfection having second place, Mabel third and St. Frisco sixth. Mabel took the track, with Guy Nella trailing; Miss Perfection was third and St. Frisco fourth to the quarter in :32¼. Geers shot St. Frisco into third place at the half in 1:01¼, but failed to gain much. At the last sixteenth Mabel jumped, and Geers, by urging St. Frisco, who was then three lengths back, won the heat in 2:05¼.

As Cox thought Mabel jumped as she passed the flagman, the judges had the banner bearer stand on the opposite side of the track the second heat.

In this mile Mabel again took the pole as she rounded the turn. McMahon aimed to lay at Mabel's wheel with Miss Perfection, but Geers refused to trail the combination, and he kept Miss Perfection away by shooting St. Frisco through the small opening. The quarter was reached in :31¼, St. Frisco being at Mabel's wheel all the way, forcing her to trot in 1:01¾ to the half and 1:31¾ to the three-quarters. When Mabel reached the 100-yard marker she again broke and ran, St. Frisco winning in 2:03¼.

Cox tried different tactics the third heat, trailing St. Frisco. Miss Perfection carried St. Frisco a slower clip than St. Frisco carried her the second heat, the half being in 1:03¼ and the three-quarters in 1:35, and as Miss Perfection failed at the head of the stretch, Mabel shot through, outbrushing St. Frisco in 2:04¾. Guy Nella broke badly and was distanced. Geers and Cox had a hot argument after this heat because of the manner Cox had driven the heat.

Miss Perfection and Laramie Lad took the lead in the fourth heat, and went to the half in 1:03¼, and the three-quarters in 1:34½. Mabel trailed the pair, with St. Frisco trailing her. In the stretch St. Frisco gained perceptibly, but Mabel won the heat by a length in 2:05½.

Miss Perfection set the pace, as usual, the fifth heat, with Mabel and St. Frisco trailing. Mabel won by nearly a length in 2:09, and trotted the last quarter of this heat in 30 seconds.

Donna Clay, full sister to Early Don, that took the Devereux stake Wednesday, was an odds-on favorite for the Buckeye Lake Yacht Club's $3,000 stake, and she took the race in straight heats, each of the last two being trotted at her record, 2:06¼.

By the 2:07 pacers there was hard racing. Roan Hal, finally made the first choice after The Savoy was favored in early pools, won in straight heats. Camelia, Altawood and White Sox took turns in contending. The last half of the first mile was done in a minute. To finish just ahead in front of White Sox, Roan Hal was forced to pace the third heat in 2:02¼. Summaries:

Athletic Club of Columbus stake, 2:08 trotters, 3 in 5, $500:

Mabel Trask, ch m by Peter the Great(Cox)	2	2	1	1	1
St. Frisco, b s by San Francisco..(Geers)	1	1	2	2	2
Miss Perfection, b m.....(McMahon)	4	4	5	3	3

also started—Laramie Lad, b g (McDonald); Virginia Barnette, b m (Durfee); Guy Nella, br m (Snow).

Time—2:05¼, 2:03¼, 2:04¾, 2:05¼, 2:09.

2:07 class pacing. 3 in 5, $1000:

Roan Hal, ro g by Hal Defacto.....(Earing)	1	1	1
White Sox, b g .....(Durfee)	3	3	2
Altawood, g m .....(Murphy)	8	2	3

Also started—Camelia, b m (Cox); The Savoy, blk g (Floyd-Valentine); Bondalin, b h (Daniels); Hal Leaf, b h (Hedrick-Snow); Aconite, b h (Bowdoin).

Time—2:04¼, 2:04½, 2:02¼.

The Buckeye Lake Yacht Club stake, 2:12 trotters, 3 in 5, $3,000:

Donna Clay, b m by Don Cale.....(Valentine)	1	1	1
Azora Axworthy, b m.....(Murphy)	2	2	2
Worthy Prince, b h.....(Cox)	3	3	3

Also started—Binland, blk h (McDonald); Caroline, b m (Fleming); Esperanza, b m (Durfee).

Time—2:07¼, 2:06¼, 2:06¼.

To beat 2:16¼ trotting:
Vanko, b h by Moko (Van Atta)—won. Time—2:12¼

Friday, August 18.

Withdrawals took half the scheduled events of today's Grand Circuit racing card, and the getaway program was limited to the 2:18 pace, won by Miss Rejected in heats, Durfee getting third money with Rayo de Oro, and the 2:15 trot, that Lindsey won after a five-heat contest with Baby Doll.

Lindsey, the winner, was the second choice and the only victor of the week for the McDonald stable. For the fifth heat, the judges unseated Driver Durfee and put Baby Doll in charge of Valentine. She made the pace for more than half the distance, but tired easily in the final quarter. The summary:

2:18 class pacing, 3 in 5, purse $1000:

Miss Rejected, ro m by Directwell..(Valentine)	1	1	1
Admiral Dewey II, blk h.....(Snow)	2	2	2
Rayo de Oro, ch g.....(Durfee)	3	3	4

Also started—Prestolite, blk m (McDonald); John A. II, ch h (Benyon); Rythmaid, br m (Hedrick).

Time—2:05¼, 2:13½, 2:07¼.

2:15 class trotting, 3 in 5, purse $1,000:

Lindsey, b g by Todd Mack....(McDonald)	5	1	2	1	1
Baby Doll, b m by Tom Smith..... .....((Durfee-Valentine)	1	2	1	3	4
Jeanette Speed, blk m .....(Cox)	2	3	3	2	2

Also started—Pittsburg, ch g (Wishart); Sister Strong, b m (Valentine); Onward Allerton, b g (Edman); Gum Drop, blk g (Whitehead).

Time—2:09¼, 2:08¾, 2:08¼, 2:10¼, 2:09½.

A report is that all the breeding stock at Hudson River Stock Farm, including Guy Axworthy (4) 2:08¾, will be sold at the Old Glory sale in New York in November.

Colusa, the pacer by Chester, that was bought for a buggy horse some years ago by George Herndon of Sacramento, who raced and sold him for a fair figure to Havis James, who was unable to win with him, finally got a mark at Elmira, New York, two weeks ago by winning two heats in 2:17¼ and 2:20. They used to think he would be a 2:05 pacer, as he was second every heat at Sacramento in 1912 in 2:05, 2:06¼ and 2:07¼ and it was reported they were saving him for the next year. He failed to keep.

NORTH RANDALL SECOND MEETING.

The Grand Circuit horses have been back at North Randall this week for the second Grand Circuit meeting of the season and opened the program last Monday with four fast races and a record breaking performance against time. The opening event, the 2:09 trot, was a hard one on the talent, as the favorite, Guy Nella, was distanced in the first heat after making a bad break, and the race went to Sadie S. in straight order.

The American Horse Breeders Futurity for a purse of $3000 brought out a field of eight classy two-year-old trotters. Mary Coburn, the chestnut filly by Manrico, was thought to have the best chance to win on the form she had displayed in her race two weeks previous when she trotted to a record of 2:10¼, but The Real Lady, a filly by Manrico's sire, Moko, driven by Murphy, won in straight heats in 2:09¾ and 2:10, the season's record for a two-year-old trotter.

Miss Harris, the Peter the Great four-year-old, after winning the first heat of the 2:07 pace in 2:04½, made a break in the second heat and lost it in 2:02¼ to Roan Hal, but redeemed herself by taking the third heat in 2:01¼ and winning the big end of the $3000 purse.

Murphy won his second race of the day with Jay Ell Mack in the 2:09 pace, getting all three heats, the first of which was in 2:02¼.

As an added attraction, Murphy drove Directum I an exhibition mile and an eighth, lowering the world's pacing mark for that distance from 2:20 to 2:16¼. The record established in 1902 was held by Carl Wilkes. Summary:

2:09 trot, three heats
Sadie S., br m by Archdale.....(McMahon) 1 1 1
Deroche, ch h by John A. McKerron....(Geers) 2 2 2
Guy Nella, br m by Guy Axworthy.....(Snow) dis
Time—2:08¾, 2:09, 2:11¾.

American Horse Breeders' Futurity; two-year-old trot; purse $3000:
The Real Lady, b f by Moko.....(Murphy) 1 1
Mary Coburn, ch f by Manrico.....(White) 2 2
Worthy Volo, ch c by Axworthy.....(McDonald) 5 3
Also started—Kelly de Forest, b c by De Forest (Chandler); Harvest Gale, br f by The Harvester (Cox); Will Bing, b c by Binjolia (Stokes); E. Colorado, b c by Colorado (Cherry); Poldichrome, br f by San Francisco (Wright).
Time—2:09¾, 2:10.

The Euclid; 2:07 pacing; purse $3000:
Miss Harris, b m by Peter the Great (McDonald) 1 5 1
Roan Hal, ro g by Hal de Facto.....(Earing) 2 1 3
The Savoy, blk h by Charley Hayt.....(Floyd) 4 2 4
Also started—Billy Dale, b g by Dale Patchen (Cox); Baby Bertha, b m by Silk Cord (Garrison); Dr. Burns Jr., b h by Dr. Burns (Whitney).
Time—2:04½, 2:02¼, 2:01¼.

2:09 class, pacing; purse $1200:
Jay Ell Mack, b h by E. G.....(Murphy) 1 1 1
Major Woolworth, blk h by The Abbe..(Hubbard) 2 3 2
Areta V., ch h by Constenaro.....(Gosnell) 3 2 3
Also started—Beth Clark, blk m by Joe Patchen (Hedrick); All Wilkes, b m by Baron H. (Wilson); Bingen Pointer, b h by King Bingen (Snow); and Douglas, b h by Billy J. (Thompson).
Time—2:02¼, 2:03¾, 2:04¾.

Tuesday, August 22.

While two favorites were winners Tuesday in the Grand Circuit races at Randall, surprises were plentiful, outsiders and "dark horses" getting their share of the glory.

In addition to some exceptionally fast racing and some hard-fought brushes, the crowd of 8000 was thrilled when Lee Axworthy trotted an exhibition mile in 2:00¼, the fastest mile ever trotted by a stallion, and three-fourths of a second faster than the record made by The Harvester at Columbus, Ohio, Sept. 23, 1910. The summary:

2:18 trotting, purse $1200:
Sister Strong, b m by Strong Boy....(Valentine) 1 1 2
Brescia, b m by Bingen.....(Rodney) 5 2 1
Royal Hall, blk h.....(J. Fleming) 2 8 7
Also started—Coastess Mobel, b m (Cox); Daisy Todd, b m (Chandler); The Toddler, br h(Stinson); Regardless, b h (Hedrick); Kerrigan, br h (McDonald); Prince Todd, blk h (Moore); Floradora, b m (Rutherford).
Time—2:08¾, 2:08¼, 2:09¼.

2:12 class pacing, $1200:
Diumeter, b g by Dium.....(Grady) 1 1 3
The Problem, blk h by Cochato.....(Murphy) 7 3 1
Wilbur S., ch h.....(Gosnell) 3 7 2
Also started—Admiral Dewey II., blk h (Snow); Handy Jim, br g (Erskine); Hanks Bellini, br h (Earing); Baymar, b h (W. Fleming).
Time—2:04¼, 2:05¾, 2:06¾.

The Glenville, 2:17 class, 3-year-old trot; value $1230:
Harrods Creek, ch c by Gen. Watts....(Engleman) 1 1
Maple Tree, b c.....(Murphy) 2 2
Peter Mount, ch c.....(Nuckols) 3 3
Jack Mooney, br g.....(McDonald) 4 4
Time—2:11¼, 2:10¼.

2:05 class pace; $1200:
Fay Richmond, g g by New Richmond (Rea) 4 1 3 1
Judge Ormonde, blk h by Ormonde (Valentine) 1 3 4 2
Fred Russell, b g by Little Frank....(Snow) 2 4 1 3
Also started—The Beaver, b h (W. Fleming); Thomas Earl, b h (Marvin); Box R., b g (Martin).
Time—2:03¼, 2:02½, 2:02¾, 2:03¾.

Wednesday, August 23.

Will Durfee got a portion of the money on the third day at North Randall, winning second in the 2:07 pace with White Sox, who seems to have regained her form, was third in the 2:08 trot for $3000 with Virginia Barnette, in which race the great Mabel Trask 2:03¼ was first and St. Frisco 2:03¼ was second, and got fourth money in the 2:15 pace with Contention B. Durfee's winnings in the three races were $720.

Mabel Trask and St. Frisco, in the Western Reserve 2:08 trot, furnished the thrills of the day. With the wind blowing a gale along the mile ring the mare, piloted by Cox, and the stallion, driven by the veteran Geers, raced neck and neck through the entire course in all three heats, the Trask mare getting the first two heats and the race and Geers' horse nosing out the winner in the third heat.

Miss Perfection, the favorite in the 2:11 trot, after getting off to a bad start and vnishing sixth in the first heat, stepped off in the next two and won handily over Hazel Laing.

Young Todd had things all his own way in the 2:15 pace. Another member of the Todd family, General Todd, showed a clean pair of heels to his competitors in the 2:07 pace, winning in straight heats. Altawood, the favorite, failed even to get within the money. Summary:

2:11 class trotting, purse $1200:
Miss Perfection, b m by Gen. Watts (McMahon) 6 1 1
Hazel Laing, ch m by John A. McKerron.....(McDonough) 1 2 2
McCloskey, br g by Theodosius.....(McDonald) 2 3 5
Also started: Great Isle, Harry Hamilton, Junior Watts and Grattan Boy.
Time—2:11½, 2:08¾, 2:10¼.

2:15 class pacing, purse $1200:
Young Todd, b h by Director Todd.....(Cox) 1 1 1
Spring Maid, ch m by The Abbe.....(White) 2 3 2
Peter G., b g by Robert C.....(Snow) 6 2 3
Also started: Contention B., Willis Woodland and Trojan.
Time—2:06½, 2:07¾, 2:10.

The Western Reserve, 2:08 trotting; purse $3000:
Mabel Trask, ch m by Peter the Great...(Cox) 1 1 2
St. Frisco, b h by San Francisco.....(Geers) 2 2 1
Virginia Barnette, b m by Moko.....(Durfee) 3 3 4
Laramie Lad, b g by Master Bo.....(McDonald) 5 4 3
Also started: Sadie S. and The Eno.
Time—2:05, 2:04¾, 2:07½.

2:07 class pacing, purse $1200:
General Todd, b h by George Levitt Todd (Rea) 1 1 1
White Sox, b h by Carlokin.....(Durfee) 3 2 3
Camelia, br m by Cummer.....(Cox) 7 3 2
Also started: Altawood, Hal Leaf, Aconite and Bondalin.
Time—2:04½, 2:05½, 2:06¼.

THOROUGHBRED NOTES.

John Sanford recently refused an offer of $50,000 for his great horse Nassovian, which finished third in the 1916 English Derby and later won the Princess of Wales stakes. John Madden made the offer.

Geo. Wingfield, of Nevada, will exhibit his $50,000 imported thoroughbred stallion Honeywood at the State Fair at Sacramento next month.

At least 100 horses will be at Sacramento ready to start for the purses that will be offered for runners at the State Fair.

Mr. A. K. Macomber registered his first win of the season when his colt Star Master won a race for maiden two-year-olds at Saratoga on Saturday last. The five furlongs was run in one minute and Star Master won handily. Mr. Macomber and his trainer Walter Jennings received an ovation when the colt crossed the line a winner. Star Master was bred by John Madden and is by Star Shoot out of a Hindoo mare.

A string of Kentucky bred yearlings by Peep O' Day and other sires and the property of different owners were sold at auction at Saratoga last Saturday and averaged $1508. A brown colt by Peep O' Day—Crazy Quilt brought the top price—$3500.

Horse racing in Ireland, which was suspended at the time of the Sinn Fein rebellion, is now enjoying a wonderful season, the stewards of the Irish Turf Club having rearranged the schedule for this season, which includes thirty-three meetings throughout the Emerald Isle and contains forty-nine days' racing.

A. K. Macomber purchased the yearling colt by Ossary—Orsini at auction recently for $1200.

The resumption of thoroughbred racing at the California State Fair this year will meet the approval of everybody. To encourage the breeding of thoroughbreds in California stakes for two and three-year-olds might be resumed, and we do not doubt but they would attract many entries.

OAKLAND DRIVING CLUB WILL RACE SUNDAY.

A. S. Hanks, secretary of the Oakland Driving Club, writes the Breeder and Sportsman under date of August 22d as follows:

"We race over here every other Sunday and you can see by the entries we have plenty of material. This week we have several new horses starting and applications in for more. We have not the best track in the world, nor the best accommodations, but we intend to keep the game going until we do get a track and then we will be in a position to invite other driving clubs to visit us and take part in the sport.

The entries for our races on Sunday, August 29th, are as follows, and all races will be mile heats, best two in three, the race to end in three heats:

First Race, 2:20 Pace—E. O. Johnson's Gen. Villa, A. Boch's Clipper Jr., H. Garrison's Prince, A. Reisman's Berkeley Girl, W. Rutherford's Sleepy Dick, H. Buckley's Teddy B.

Second Race, Free-for-all Pace—R. Seale's Charley D., A. Scott's Little Dick, G. Schreiber's Allegro, Joe Kidd's Senator H.

Third Race, 2:15 Pace—R. Seale's Burbank, A. L. Hinds' Grand W., Mrs. Carlisle's Cleoverne, J. V. Galindo's Francisca, Jos. Kidd's Pointer Belle.

Fourth Race, 2:25 Mixed—H. Olsen's Tom Wilkes, J. Williams' Harold G., H. O. Medau's Mollie, T. LeBallister's Lena Lee.

Fifth Race, Mixed.—A. Newbaumer's Ida May, W. D. Willis' Willis Baldwin, W. G. Burgelia's Frankie Burns, H. Andefredo's Heine A., H. F. Silva's Dickens B. Jr.

Sixth Race, Mixed.—C. P. Abrott's Teddy, W. M. Ray's Andy O., H. Garrison's Mack, Geo. Sawyer's Dolly Gray.

A GREAT PROGENITOR OF 2:10 SPEED.

The question "To what great broodmare do the largest number of 2:10 trotters trace in the direct female line?" was recently asked the editor of the Horse Review, and he answered thusly:

The honor referred to belongs to that distinguished matron, Nell, by Estill Eric, to whom no less than eight different 2:10 trotters now trace in the direct female line, including two of the new ones of the present season. These eight performers are as follows:

Nell herself is the dam of two 2:10 trotters, namely: Tom Axworthy 2:07, by Axworthy (3) 2:15½, and Belle Vara 2:08¾, by Vatican 2:29¼.

She has no less than four different daughters that have each produced a 2:10 trotter, as follows:

(1) Amnell, by Ambassador 2:21¼, dam of Guy Nella 2:06¾, by Guy Axworthy (4) 2:08¾.

(2) La Rose, by Anteeo 2:16¼, dam of Grey Gem 2:09½, by Dancourt 2:16½.

(3) Nelda Worthy 2:12½, by Axworthy (3) 2:15½, dam of Princess Nelda (3) 2:09½, by Prince McKinney 45079.

(4) Nell Worthy 2:22, by Axworthy (3) 2:15½, dam of Worthy Prince 2:06¾, by Prince McKinney 45079.

In addition, Nell Worthy is also the grandam of Bingen Silk (2) 2:08¾, who is out of her daughter Nell Cord (2) 2:26¼.

Lastly, Nell also produced Lissa Ben, by Fayette Chief 8894, who produced Lissa B. 2:13¼, by Emperor Wilkes 2:20¼, who produced Gracie Bingen by Bingen 2:06¼, who produced Princess Todd (3) 2:09¼, by Kentucky Todd (3) 2:08¾.

We therefore have the following summing up: Nell is the dam of two 2:10 trotters, Tom Axworthy 2:07 and Belle Vara 2:08¾; the grandam of four, Worthy Prince 2:06¾, Guy Nella 2:07, Grey Gem 2:09½ and Princess Nelda (3) 2:09½; the third dam of one, Bingen Silk (2) 2:08, and the fourth dam of one, Princess Todd (3) 2:09¼.

It is a truly wonderful exhibit, and it is heightened by the facts that of these eight trotters, seven (all but Princess Nelda) have been Grand Circuit winners, the majority of them stake winners, that two of them are three-year-olds and one a two-year-old. There is no other trotting brood mare whose showing approaches this, and based upon it we may well accord Nell the distinction of being an unequaled source of speed in the direct female line.

Nell was a roan mare, foaled in 1878 and bred in Kentucky by Caleb Moore, who afterward removed to Missouri and died before her produce had become widely famous, owing to which many facts concerning her immediate ancestry can never be known. Her sire, Estill Eric, was a son of Ericsson 130, the son of Mambrino Chief 11 and old Mrs. Caudle. Ericsson in 1860 lowered the world's record for four-year-olds from 2:33½ to 2:30½, and may be regarded as the first "colt trotter" that disclosed the ability to trot in standard time. He was by far the most precocious of the get of Mambrino Chief, and he handed on this gift of record-breaking early speed, for he sired both a two-year-old and a four-year-old champion. His son Doble, in 1872, set the world's two-year-old record at 2:40¾, where it stood five years; and another son, Eric, acquired the four-year-old championship in 1876 by reducing to 2:28¼ the mark of 2:29½ that Allie West had set in 1874. While these records mean little in comparison with those of today, at the time they were made they seemed as wonderful as those of the present era do to us. Ever since the blood of Ericsson has been a factor in the production of colt champions. It was an Ericsson mare that produced Moquette (4) 2:10, the first "colt trotter" to enter the 2:10 list—and many other instances might be cited. But practically nothing is known of his son, Estill Eric, the sire of Nell, except that he was by Ericsson and out of a mare by the pacer Carlisle's Tuckahoe. The dam of Nell has been given in two ways—by Embry's Lexington, son of Lexington, and by "the Embry horse." We have a suspicion that "the Embry horse" is correct, and that this horse is not identical with Embry's Lexington. At any rate, we some time ago struck the trail of an old-time horse known as the Embry horse, located in that section of Kentucky where Nell was bred, that was a trotter and not, as was Embry's Lexington, a thoroughbred. The grandam of Nell was said to be by the English thoroughbred, imported Monarch. If we grant that Embry's Lexington really sired the dam of Nell, we may remember that the blood of his sire, Lexington, has proved one of the most plastic of all thoroughbred elements in combination with trotting strains. And we may also note that there was evidently a trotting tendency in the blood of imported Monarch, for his son Strawn's Monarch sired Monarch Rule 2:26½, a Grand Circuit winner in the 'seventies, and is standard stallion number 900 in the Trotting Register. It is now and forever impossible to clear up the uncertainty and obscurity surrounding the ancestry of Nell—but with each passing season the prepotency of her blood is more emphatically demonstrated.

California's State Fair opens next Saturday.

St. Frisco, the only serious rival Mabel Trask has had in her races and which beat her a heat in 2:03¼ at Columbus, is inbred four times to Nutwood, a famous brood mare sire, from which fact the experts argue that—his other blood lines being fashionable—he is more than likely to prove a notable sire of speed when his racing days are over.

Notes and News

California's State Fair opens next Saturday at Sacramento.

◈ ◈ ◈

The Occident Stake for three-year-old trotters will be raced on that day.

◈ ◈ ◈

Entries for the pacing and trotting events for this meeting are more numerous than they were at either Santa Rosa or Dixon.

◈ ◈ ◈

Nine purses of $1000 each will be raced for by the trotters and pacers during the State Fair and the fastest horses on the coast will compete for these rich prizes.

◈ ◈ ◈

Dan Hanna, of Cleveland, Ohio, has bought a 1,000-acre estate in the Berkshires and will breed horses. A half-mile track will be built on the property.

◈ ◈ ◈

The Toddler, 2:07½, a new 2:10 trotter to the credit of Kentucky Todd 2:08¾, is out of Belladi 2:19 by the pacer Chehalis 2:04¼, second dam Lauretta by the Electioneer stallion Caution 2:25½.

◈ ◈ ◈

In answer to an inquiry we will state that the mare Complete by Palite, dam Camilla by Bayswater Wilkes, started three times as a three-year-old in 1909. She won fourth money in the Occident Stake at Sacramento, was third in the Stanford Stake and unplaced in the Breeders' Futurity.

◈ ◈ ◈

S. S. Bailey's horses left Pleasanton on Tuesday of this week for Sacramento, where they are engaged in the State Fair races. On Friday of last week Trainer Smith worked Bon Guy a mile in 2:11¼ and also drove Leo Lynch's three-year-old Dr. Dyer a mile in 2:12¾, last half in 1:04½.

◈ ◈ ◈

The black mare Directess Mac, by Nearest McKinney, owned by J. J. Ryan of San Francisco and being driven in her races by Al Schwartz, looks like one that would enter the 2:10 list before the season is over. She is a good actor, and has a world of speed. Her dam is Guydon by Direct and she looks like the Directs more than the McKinneys.

◈ ◈ ◈

Tommy Murphy recently offered $20,000 for the trotting mare Wilkes Brewer 2:08¼ half mile track record, but the offer was declined, the owner demanding $25,000. As this daughter of Nutwood Wilkes stepped a fifth heat over a half mile track in 2:08¾ it would be inferred that she is easily a 2:05 trotter over a mile track.

◈ ◈ ◈

Colt races are very popular this year east and west. Among the events at the State Fair for the young horses are the Occident Stake, $2300 for three-year-old trotters, State Fair Futurity, $1100 for three-year-old pacers, State Fair Futurity, $1400 for three-year-old trotters, Stanford Stake, $1000 for three-year-old trotters, and consolation purses for three-year-olds that do not win in the futurities.

◈ ◈ ◈

Chris Owen of San Francisco has bred his Kinney Lou mare Sister Mary to Chas. Johnson's Airlie Demonio 2:05½ this season and she is safe in foal to that handsome and game race horse. Sister Mary is the dam of a two-year-old filly by Moko Hall that showed a high rate of speed with only two months' work this spring, and that will be trained for her stake engagements next year.

◈ ◈ ◈

A horse winning a heat in a losing race gets a record under the present rules, but no bar. For instance, if a horse that has a record of 2:30 wins a heat in 2:15 in a race but fails to win the race, he will be given a record of 2:15 in the Year Book but he can still start in the 2:30 class until he wins a race in faster time than 2:30.

◈ ◈ ◈

W. R. Murphy of Santa Ana is taking a five-year-old brown gelding through the circuit with the horses he is racing that looks like a coming trotter. His name is Bellwig and he is by Wiggins out of a mare by Bell Boy, and was brought to Los Angeles by a gentleman from Pennsylvania. Mr. Murphy bought him to use as a road horse and finding he had some speed began training him. In a few weeks' work Bellwig trotted a mile in 2:19 and last Saturday at Dixon the writer saw him step an eighth in 16 seconds, and do it very handily.

◈ ◈ ◈

The little pacing stallion Teddy Bear is a bear all right. He started three times at Dixon in four days, got third money in the free-for-all pace Wednesday, won the 2:10 pace Thursday and won a heat and second money in the free-for-all pace Saturday. Mr. Silva did not want to start his game little horse Saturday, but there would have been no race as three were required to start, so concluded not to scratch him. Teddy Bear made the season at Hanford this year and did not leave until June 15th. His heat in 2:09½ at Dixon Saturday when he beat Vera Hal in a close finish showed his speed and gameness.

$1000 PURSES AT PHOENIX.

The big Arizona State Fair at Phoenix has announced a plan of harness racing this year that is a novel one. The purses are $1000 each, divided $200 to first heat, $300 to second heat, $400 to third heat, $50 to horse standing best in summary and $50 to driver of such horse. Entrance can be made at any time up to the meeting and horses entered in classes to which they are eligible at time of entry. Entrance is only three per cent, with seven per cent additional from winner of race, six per cent from second, five per cent from third and four per cent from fourth. See the advertisement for further particulars.

Ventura entries close Monday next, August 28th.

◈ ◈ ◈

Entries for the races at Bishop, Inyo county, will close Monday next.

◈ ◈ ◈

There are nearly 30 new 2:10 trotters so far this year, only two of which were bred in California. Pegasus 2:08¼ by Zombro 2:11, dam La Belle (2) 2:16 by Sidney 2:19¾, is one and Baby Doll 2:08¼ by Tom Smith 2:13¼, dam Kate Lumry 2:20¼ by Shadeland Onward 2:18½ is the other. Both are

DON CASTANO

the products of developed sires and dams. Zombro 2:11 died a few years ago, but Tom Smith is still living, hale and hearty at the age of 19 years, and is owned by Dan Hoffman of this city.

ELIGIBLES IN STATE FAIR RACES.

Second payments were made August 1st on the following horses entered in the trotting and pacing events to be decided at the California State Fair at Sacramento, September 2d to 9th inclusive:

2:14 Pace, $1,000—Best Direct, Bradmont, Maxine, Mabel Dillon, Mono Ansel, Hanover, Irene D., Breezy Marie, Bertie Seattle, Dixon Boy, Alta Barnato, Pedlar Direct.

2:30 Trot, $1,000—Miss San Francisco, Ella M. R., Peter's Queen, Rubell, Zolock Zar, Dr. S., Howard's Comet, Peter McKlyo, Major's By Guy, El Angelo.

2:20 Pace, $1,000—Bold Harry Aerolite, Lock Logan, Harry Mac, Directess Mac, Hanover, Irene D., W. J. K., Bertie Seattle, Alta Barnato, Pedlar Direct, Villa.

2:15 Trot, $1,000—Eloise Dell, Brutus, Bodaker, Lindsay Bell, Dr. S., Dick W., Howard's Comet, Sweet Bow, Major's By Guy.

Free-for-all Pace, $1,000—A. B. C., Jim Logan, Little Bernice, Teddy Bear, Vera Hal, Leata J., O. U. C., Rastus.

2:09 Trot, $1,000—Bert Kelly, Harold C., Pavana, Bon Guy, Albaloma.

2:20 Trot, $1,000—Ira Mack, Miss San Francisco, Ella M. R., Lindsay Bell, Eloise Dell, Rubell, Zolock Zar, Jake Logan, Dr. S., Dick W., Howard's Comet, Peter McKlyo, Major's By Guy, Alice W.

2:10 Pace, $1,000—Booze, Best Direct, Soumise, A. B. C., Bold Harry Aerolite, Lock Logan, Della H., Pointer's Daughter, Bertie Seattle, Dixon Boy, Alta Barnato, Star Dillon.

Two-year-old Trot, $500—Kewpie, Lilly of the Valley, Skyrocket, McKlyo Boy, Rhyolite.

Two-year-old Pace, $500—The Orphan, Alfredo, Oro Fino, Tommy Atkins, Galen Logan, El Paso.

SIX PAID ON IN OCCIDENT STAKE.

Starting payments were made August 1st on the following six three-year-olds in the Occident Stake to be trotted Saturday next, the opening day of the California State Fair. There are three colts, one gelding and two fillies in the list and from the form showed at Santa Rosa in the Pacific Breeders' Futurity, the fillies will be the favorites. Those eligible to the race are the following:

Alesandro, b g by Barney Barnato—Ramona by Prince Robt. I. L. Borden.

Natalday, b c by Wilbur Lou—Ella J. T. by Bob Mason. S. Christenson.

Manuelito, ch c by Manrico—My Irene S. by Petigru. C. J. Berry.

Hermes, br c by Carlokin—Miss Quealey by Moko. W. G. Durfee.

Miss Axworthy Dillon, b f by Axworthy—Cleo Dillon by Sidney Dillon. T. E. Pollock.

Lulu B., b f by The Bondsman—Loma B. by Stam B. M. L. Woy.

SADDLE HORSES AT STATE FAIR.

Everything points to a splendid exhibit of American Saddle Horses at the California State Fair which opens at Sacramento next week. Among the exhibitors will be the Bridgford Company of Knightsen with the young champion Le Grande McDonald and some of his get; Mrs. Adelaide S. Gillis-McCormick of Los Angeles, who will send that grand stallion Don Castano and a number of his colts; Mr. Revel Lindsay English, of Chino, who will send some high class five gaited horses to the show ring; Mr. J. W. Henderson of Berkeley; Dr. Lee Deming of Anaheim, owner of that high class mare Chorus Girl; Charlotte B. Anderson of Oakland; Miss Martha Freeman of Los Angeles, whose two-year-old chestnut stallion Tamarack is looked up as a likely prize winner; Miss M. T. Mintzer of San Rafael, who is an enthusiastic horsewoman and will probably show in three or four classes; Dr. Smyth of Oakland, owner of Candy Kid, a prize winner, and many others. The Pacific Coast Saddle Horse Breeders' stake for three-year-olds will very probably have no less than eight starters, and it will be as classy a lot of youngsters as ever paraded and showed gaits before a judge. Among them will be the Bridgford Company's Missouri bred colt Le Grand McDonald, winner of the two-year-old junior championship at the Panama-Pacific Industrial Exposition last year, entries by Miss Adelaide Gillis of Los Angeles, Revel Lindsay English (Sierra Vista Stock Farm), Chino, California, Mr. Bernstein of Stanislaus county, W. E. Creed of Piedmont and others. The stake is worth about $800 and is divided into five moneys: 50, 20, 15, 10, and five per cent.

The California State Fair two-year-old futurity is worth about the same amount and will also draw a big field of colts. There will be six prizes in this stake, viz.: 35, 20, 15, 12½, 10 and 5 per cent.

MATINEE AT GOLDEN GATE PARK.

A matinee program of three races on the three-in-five plan was held at the stadium track in Golden Gate Park by the San Francisco-California Driving Club last Sunday. The trotter Yoncalla, owned by A. Giovanetti, won the 2:20 class mixed race in three straight heats, the first heat in 2:17, trotting an excellent race. In the 2:18 pace T. Conlan's Little Jack won handily in straight heats and in the free-for-all pace, after King Pointer had taken the first heat in 2:11¾, William Malough drove his mare Emma M. to victory in the next three to slower time. There was a fair attendance and fine weather.

Summary:

First race—2:20 mixed:

Yoncalla	(A. Giovanetti)	1	1	1
Birdeye	(A. Combatalade)	2	4	3
Sis Hopkins	(W. Hopkins)	3	2	4
Silver Logan	(D. Healey)	5	5	2
Minequa	(M. Ford)	4	3	5

Time—2:17, 2:20, 2:20.

Second race—2:18 pace:

Little Jack	(T. Conlan)	1	1	1
Little Dick	(A. Scott)	2	2	2
Rosa O.	(J. J. Ryan)	3	3	3

Time—2:16, 2:15, 2:15¼.

Third race—Free-for-all pace:

Emma M.	(William Malough)	3	1	1	1
J. C. Simpson	(F. Goulart)	2	2	2	2
King Pointer	(H. Campodonico)	1	3	4	3
Senator H.	(J. M. Kidd)	4	4	3	4

Time—2:11¾, 2:14, 2:14½, 2:17½.

E. B. Folk, of Riverside, Cal., last week sold the bay trotting mare Ilo Tolus to A. B. Hunter, Jr., of New Madrid, Mo., for $4,000. Ilo Tolus won second money in the 2:24 trot at the Peoria meeting of the Great Western Circuit. She is by Pactolus.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Salmon to be Tagged.—Salmon appear in large numbers in Monterey Bay one or two months before the summer or fall run appears in the Sacramento and San Joaquin rivers, and it has always been believed that these salmon in Monterey Bay are Sacramento and San Joaquin river salmon on their way to these rivers to spawn. Each year the fishermen who have had experience on the northern rivers claim that they can distinguish Eel river salmon, Klamath river salmon, and even Columbia river salmon among those caught in Monterey Bay. For the purpose of determining whether there are salmon other than Sacramento and San Joaquin salmon in the bay, the Fish and Game Commission has undertaken to tag a number of these fish and see if they are recaptured in other rivers than the Sacramento and San Joaquin. The quinnat salmon does not enter any of the streams to the south of Monterey Bay, but we know that they move down the coast often as far as Santa Barbara. Since the salmon travels this distance from the parent stream, it would not be very remarkable to find Columbia river salmon in Monterey Bay. The tags, which are very light, will be wired to the dorsal fin. Each tag is stamped with a serial number. The tags are made of silver because this metal best withstands the action of the sea water. We look forward with a great deal of interest to the results of this experiment.

Salmon are taken in large numbers in the sea near Fort Bragg, Mendocino county, and the Commission expects to conduct similar experiments in that place.—Fish and Game Commission.

Marked Mackerel Are Caught.—Lynn, (Mass).—Of a large number of mackerel with rubber bands about their bodies, which were sent out from the traps and liberated by the United States Bureau of Fisheries at Provincetown in July, 1914, only two have been caught, and both are now on exhibition at the J. B. Blood Company's stores in Ynn.

On Monday, July 17, a mackerel with a red rubber band was taken from Barnstable bay. It was fifteen inches long and weighed one and a quarter pounds. When released it weighed a half-pound and was six inches long.

Wednesday, July 19, another mackerel with a rubber band was caught at Wellfleet harbor. This one was seventeen inches long and weighed a pound and a quarter. Both of the mackerel have been in the water two years since released by the Bureau of Fisheries. The rubber bands, which were put under the fins, have become embedded in the fish. This has caused a deformity in both of them, they having grown a great deal longer and more slender because of the bands.

One of the mackerel is being exhibited at the Summer-street store and the other at the Silsbee-street store.

THE EUROPEAN HOUSE SPARROW.

SOME DONTS

1. Do not kill a sparrow unless you are sure it is a house sparrow. If not sure of your identification, consult some one who knows.
2. Do not kill a sparrow having a white stripe over the top of the head (white-crowned sparrow), nor one having a streaked breast (song sparrow), nor one with a chestnut-colored brown patch (chipping sparrow). These are native sparrows, are beneficial, and are protected by law.
3. Do not use a gun within city limits without proper permission.
4. Do not encourage sparrow destruction by children; this work should be done by resourceful men who know house sparrows from native sparrows.

SOME DO'S

1. Do destroy the house sparrow, or "English sparrow," whenever and wherever possible, through netting, trapping, and shooting.
2. De destroy nests and eggs and raid roosting places of this bird.
3. Do stir up interest in house sparrow destruction and promote organized campaigns.
4. Do continue your interest from year to year and thus keep this bird pest under control in your community. In so doing you help preserve crops and encourage native song birds.

Arizona Sportsmen Organize.—At a well-attended meeting at Springerville, Ariz., recently, the sportsmen and stockmen of the White Mountain country perfected an organization for the protection and development of the fish and game resources of Apache county. Davis Rudd of Springerville acted as chairman. The following officers were elected: Gustav Becker, president; Paschal Slaughter, first vice-president; Frederic Winn, second vice-president; H. L. Logan, secretary; William Hammell, treasurer. Each member of the new organization is personally pledged to observe and support a platform of principles, among which are included the rigid observance and impartial enforcement of the game law, the prohibition of Spring shooting of wild fowl, the establishment of a system of game refuges, the extermination of predatory animals, and the rendering of aid and support to conscientious deputy game wardens. Resolutions were passed urging the passage of the Hayden refuge bill now before Congress and of the federal appropriation for waging a war of extermination against wolves, lions, and other predatory animals.

DEER ARE PLENTIFUL IN CALIFORNIA.

Steady Increase of Game If Hunters Will Respect Present Laws.

According to the California State Fish and Game Commission, the present hunting laws will permit of a steady increase of deer throughout the State providing these laws are observed and the animals are not slaughtered out of season. This increase will keep pace with the increase in population and the consequent growth in the number of hunters.

To insure this condition which will result in "good deer hunting," the Commission asks the co-operation of the people. Some idea of the range over which these wild creatures roam is given in the following facts:

California has a thousand peaks over 10,000 feet high and 136 over 13,000 feet in height. There still remain 50,000,000 acres of government land, 26,000,000 acres in the National Forest Reserves into which sportsmen and campers are welcomed by the government employees as long as they observe the fish and game regulations. This immense area of free hunting, fishing and camping grounds is largely augmented by the liberality of the farmers and range owners who will rarely object to the use o ftheir raw land if the proprieties are observed.

The great increase in deer is entirely due to the laws that, first, prohibit the sale of deer hides and meat; second, the killing of does; third, the right and short season; fourth, the limit; fifth, the protection of "spike" bucks. The protection does not only help to increase the deer, but it compels the hunter to wait until he is sure that the moving object is a deer with horns, thereby saving human life. When the law permitted the killing of does, many hunters were killed by careless shooters. Now the shooter must wait until he sees the horns.

Game Violators Arrested.—Warrants were served on Thomas Gilliam and his son, James Gilliam, both residents of the Red Bank district, for violating the game laws in that deer meat was found in their possession before the season opened.

The evidence was collected, and the warrants served by Deputy Fish and Game Commissioner Thomas W. Birmingham.

The elder Gilliam, hearing a complaint had been lodged against him, reported to the authorities.

Justice of the Peace Lennon fixed bail at $250 in each case, which was given. The preliminary hearing of the prisoners has not yet been set, on account of District Attorney N. A. Gernon being absent from the county.

Hatchery For Klamath Country—Klamath county in all probability will soon have a new trout hatchery. The State Fish and Game Commission has directed the purchase of a site on Crooked Creek, a few miles north of Klamath Agency and on the Klamath Indian Reservation. The hatchery will be built there if title to the land can be obtained from the Indian service.

Crooked Creek is considered by the Commission as an ideal place for a trout hatchery. The water remains constantly at a temperature of 48 degrees Fahrenheit, which is almost perfect temperature for egg hatchery purposes. Not only is the water the right temperature, but the land along the creek is ideally located. It is a clear stream.

If the deal for the property can be closed soon, construction of this hatchery will be commenced this fall and the institution will be ready for use next spring.

Although the strict laws concerning the shooting of does, fawns and spike bucks force hunters to be careful before shooting, President F. M. Newbert of the State Fish and Game Commission urged the "Safety First" motto on the sportsmen. "Wear a red shirt and cap," he says, "and then you are not likely to be mistaken for a deer."

• • •

W. A. Black of Grass Valley is Nevada County's champion hunter. He killed two brown bears on August 14th at his cattle range near Bowman's Dam, bringing them down with two shots. Both were of large size.

NEWS OF DOINGS IN KENNEL CIRCLES.

Bayside Club Schedules Show in Long Beach on August 28, 29 and 30.

The fourth annual show of the Bayside Kennel Club is to take place August 28, 29 and 30. The venue of the show this year will be the Municipal Auditorium, Long Beach, California, a very large, well ventilated building, an ideal place for such an event, easily accessible from all points. It would be to the advantage of northern fanciers who intend to send their dags to the show to ship by boat from San Francisco, the car ride from San Pedro to the Auditorium being only a few minutes' run, and their dogs will be put off right opposite the show building.

The Bayside Club has always been liberal in the number of valuable trophies offered but will excel all former shows in this respect.

With Mr. O. F. Vedder as superintendent, fanciers are looking forward to a good clean show.

Mrs. J. E. Brown, who is to judge Boston Terriers, is proving to be a good selection.

Mr. W. M. Coats, of Vancouver, B. C., who is the all-rounder, has had quite a little judicial experience, having judged at many of the principal shows in Canada and the Northern part of the United States. He has not been in this section before, and coming as he does with a good clean reputation, should bring together the different factions, and command the support of them all.

• • •

The twelfth annual bench show of the Spokane Kennel Club will be held at the Spokane Interstate Fair and Live Stock Show, September 4th to 7th. The show this year will be under the jurisdiction of the American Kennel Club. Last year the club did not hold any show owing to a "raby scare" that prevailed at the time the Interstate Fair was being held. The dogs are to be benched in special quarters at the fair grounds. The management reports that more than fifty of the leading business firms have donated trophies, and that a good show is looked forward to. The judge will be Dr. Geo. W. Clayton of Chicago, Ill.

• • •

Mr. E. J. Barry of Tacoma recently purchased a fine young Airedale puppy from Mr. A. L. Boyle and presented it to Mrs. Barry. They have named the puppy Lord Kitchener. Tacoma fanciers are working up enthusiasm and no doubt will hold a fall show sometime in October.

• • •

Chas. Hunter of San Francisco has again bred his Irish water spaniel bitch, Hunter's Queen, to Dr. McGettigan's Rush, and is looking forward to some more excellent stock. The previous mating of these produced some winners, among them being King of the Marsh, and Dandy.

400 Porcupine Quills in Dog.—Redding (Shasta Co.)—What is a $400 dog worth with about 400 porcupine quills sunk into him an inch deep?

George Bayha, who lives on a large landed estate near the Grey Rocks, and is a great lover of the chase, recently imported an Alaskan wolfhound valued at $400. While he was out hunting with the animal, the latter ran into a porcupine and was peppered with quills. The dog suffered so greatly Bayha brought it to Redding to be treated by a vetinary.

The doctor administered chloroform, but it took six men to hold the monster dog until the anaesthetic got in its work.

Porcupine quills were sunk everywhere over the dog's body, and especially about the head. They penetrated the animal's tongue and ears; they were driven into his nostrils and pierced his skin about the shoulders.

Dr. Taylor, the veterinary, says he was fully two hours in extracting the quills, and when the operation was over and the dog came out from under the influence of the chloroform, the $400 Alaskan was as sick as a human being just coming from under an appendicitis operation.

Each quill of a porcupine is about the size of a darning needle. It is not barbed at the end, as is a fish hook, but it is barbed slightly the full length. The quill slips in very easily, but it is rough work to pull it out.

George Bayha's valuable dog survived the operation and was taken home in an automobile.

Surf anglers are anticipating an even more successful outing than the last one held by the Southern California Rod and Reel Club, when the tenth anniversary of the founding of that organization is celebrated by a fishing excursion and picnic at Mateo, September 2 and 3. The party will leave Los Angeles in special cars attached to the San Diego train of the Santa Fe which leaves La Grande station at 11:55 p. m., Saturday, Sept. 2.

• • •

Bob Emslie, who served as an umpire for a quarter of a century, tells how he convinced a number of critical fans that he was still able to arbitrate after they had demanded his scalp. Several years ago some of the players made a protest on Emslie, declaring that he was no longer qualified to make decisions on balls or strikes, because of faulty vision. Bob took a few days off and won a trap shooting carnival, winning his final round with 99 kills in 100 shots. There never was any more comment on his sight.

PROGRAM FOR PACIFIC COAST HANDICAP.

Competition is Provided For All Classes of Shooters With Events For Ladies.

The program for this year's Pacific Coast Handicap tournament is designed, as are all of The Interstate Association programs, to furnish the greatest amount of enjoyment to the greatest number of contestants at a minimum of expense. Three new events have been scheduled, namely: The Pacific Coast Introductory, the Pacific Coast Special and the Pacific Coast Overture, for which nine trophies—three for each event—have been provided. The conditions governing these three competitions are such that no one contestants can win more than one of the nine trophies.

Special competition has been arranged for women, and a cordial invitation is extended to them to take part in the tournament. Three trophies have been provided for their exclusive benefit.

The regular program events have been arranged for the special benefit of the beginner and mediocre shot. With the low entrance fees and the losses paid back each day under the Squier money-back system, it is not possible for the expert shot to enrich himself in these events at the expense of the less skillful contestant.

The optional sweepstakes on each regular program event, divided on the high gun system, provide competition for the more skillful shot who wants to take a chance of winning larger amounts than called for by the regular division.

The two handicap events are arranged on a basis of entry fees as low as is consistent with the equity of the events and the material values which should award good performances, and which are essential to it.

Thus, while competition is provided for all classes of trapshooters, and all entrants shoot over the same traps and in the same events, no one is required to compete, on an equal footing and at a financial loss, with his superiors in skill unless he so wishes.

Monday, September 11, will be practice day. The shooting will start at 1 o'clock in the afternoon, and a program of four 25-target events, $2.50 entrance to each event, will be shot, purses divided on the Rose system, ratio, 5, 3, 2, 1. There will be optional sweepstakes on the above events.

On Tuesday, September 12, the first regular day of the tournament, the program will consist of seven 20-target events, entrance to each $2, with a $1 optional o neach event, and a special at 10 pairs of targets, entrance $2. Events one to five on September 12 will constitute the Pacific Coast Introductory, and the three contestants making the three highest totals on the 100 targets (not class shooting) will each receive a trophy presented by The Interstate Association.

The program for the second day, September 13, will consist of four 25-target events, entrance $2.50 to each, and the Preliminary Handicap, 100 targets each man, entrance $8. The first two events this day will constitute the Pacific Coast Special, and the three contestants making the three highest totals will each be presented with a trophy by The Interstate Association. The three amateur contestants who make the three highest scores in the Preliminary Handicap will each also receive a trophy presented by The Interstate Association. The moneys in the Preliminary Handicap will be determined by the number of entries, the Association adding $100 to the purse.

On the last day of the tournament, September 14, the program will consist of four 25-target events, the first two events to constitute the Pacific Coast Overture ,and the Pacific Coast Handicap, 100 targets, entrance $11, handicaps 16 to 23 yards, $200 added to the purse by the Association, high guns, not class shooting. The winner of first money in this event is guaranteed $100 or more; the winner of second money is guaranteed $75 or more, and the winner of third money is guaranteed $50 or more. If first, second and third moneys fall below these amounts, the difference will be made good by The Interstate Association. The number of moneys into which the purse will be divided will be determined by the number of entries. The three amateur contestants who make the three highest scores will each receive a trophy, presented by The Interstate Association.

Contestants may shoot for "targets only' 'in any or all events.

Contestants (amateurs and professionals) who shoot for "targets only" in the Preliminary and Pacific Coast Handicaps must make entry for said events at the cashier's office on the shooting grounds by 5 p. m. the day before they are scheduled to be shot, otherwise a penalty of $2 (total entrance with penalty of $5) will be charged.

Amateurs who shoot for "targets only" are eligible to win any of the trophies which go with the Pacific Coast Introductory, the Pacific Coast Special, the Pacific Coast Overture, the Preliminary Handicap and the Pacific Coast Handicap.

Amateurs who shoot for "targets only" in any event, or events, of the regular program, will not be eligible to share in the Squier money-back division, nor to share in the surplus money.

The committee which will allot handicaps in the Preliminary and Pacific Coast Handicaps will be selected from among the shooters who attend the tournament, but the members of the handicap committee will not handicap themselves. Their handicaps will be allotted by The Interstate Association.

Further information relative to the tournament will be cheerfully furnished by Frank M. Templeton, secretary Portland Gun Club, 125 Front street, Portland, Ore., or by Elmer E. Shaner, manager The Interstate Association, 219 Coltart Avenue, Pittsburgh, Pa.

Golden Gate Club.—It was a big day for trapshooters over on the Alameda grounds on Sunday. Forty-seven took advantage of the bright sunshiny day to appear at the traps for the monthly tournament of the Golden Gate Club. The results show some of the closest competition of the season. Toney Prior was there with a score of 48 out of 50 and Thomas Wilkes, president of the Golden Gate Club, came along and tied him for high honors of the day.

N. A. Howard was a close second with 47 to his credit. O. O. Orr showed to good advantage in getting 45 and there were a number who scored over 40.

In the professional line, E. L. Mitchell, a visitor from down Los Angeles way, took high honors with a 46 out of 50 score. This boy O. N. Jones was right there with 45. Jones has been coming ahead rapidly this season and gives promise of developing into the championship class. The scores were as follows:

Events—	20	20	10	Total
Forrester, Eug.	17	14	..	31

Vernon Club.—The good score of 49x50 was run up by C. E. Groat at the trap shoot staged Sunday morning at the Vernon Gun Club. This placed Groat high on the prize list and brought him a gold bar.

Fred Grewell of the Hoegee Company, Harry Hoyt, Stan Bruner, Dr. Newton and Mrs. C. E. Groat tied for second high gun with scores of 48x50. The scores follow:

	Yds.	Practice			Hdp.		Trophy	
		25	25	Ttl.		25	25	Ttl.
H. A. Hoyt	16	23	25	48	18	23	25	48

Los Angeles Club.—Shooting neck and neck, like Grand American Handicap contenders, Owen Council and Frank Free tied for the diamond trophy contested for Sunday morning at the Los Angeles Gun Club by breaking forty-six birds each from 19 yards.

The two shot off the tie from their respective handicaps, Council winning by breaking 23x25. Free squelched 22x25.

A number of shooters also competed on the season trophies. Some top-notch scores were made. Scores follow:

Diamond Trophy Handicap—E. K. Mohler, handicap 20 yds., broke 44x50; H. E. Sargent 19—44; S. R. Smith 19—44; F. Free 19—46; H. Cline 19—44; O. Council 19—46; C. W. Fish 19—44; S. B. Friend 19—43; O. Evans 20—45; Miss A. Wheeler 16—45; Wm. Kennedy 16—43; A. L. Rowe 16—43; W. Jackson 16—42; B. McKay 16—41; B. Lloyd 16—43; H. L. Riggin 16—32.

Season Trophy Event—H. E. Sargent 42x50, E. K. Mohler 45, S. R. Smith 44, F. Free 48, H. Cline 47, Miss A. Wheeler 44, C. W. Fish 47, Wm. Kennedy 44, D. B. Friend 44, W. R. Shepherd 45, O. Evans 44, O. Council 46, Dr. G. Fairfield 26, J. Cline 37, B. McKay 39, F. Teeple Sr. 41, B. Lloyd 42, A. L. Rowe 43, W. Jackson 42, H. L. Riggin 30, Mrs. A. L. Rowe 26, A. C. Gould 40, J. Mann 34, H. E. Huston 28, A. M. Webb 25, M. E. Fontana 32, J. W. Earl 32, A. Huston 18, H. M. Gilliam 37, D. G. Kinney 46, S. Hart 48, A. H. Thomas 28, C. R. Bond 36, F. H. Teeple Jr. 43, R. T. Prettyman 37, A. G. Griffith 42.

Big Time Club.—Frank Newbert and G. I. Fleckenstein were the high guns among the sixty-four Big Timers who participated in the merchandise shoot at the Schenk traps Sunday. The shoot was the last of the season and it brought out a record crowd of members and visitors.

Among the other good scores made were the following, each participant shooting at twenty targets:

Nineteen targets—M. Priest and W. J. Higgins.

Eighteen targets—Lee Gorman, A. McDonald of Folsom, and R. Jost.

Seventeen targets—F. Ruhstaller and Dr. W. W. Goode.

Sixteen targets—H. Stober, H. McWilliams, P. Greenhaigh, C. Ralph, H. Odbert and J. E. Tofft.

Fifteen targets—K. Schenk, Charles Flek, George Speiech, A. E. Pearson, G. Newbert, F. Schoenbachler and Walter Criswell.

In the shoot-off for the Gerber Causeway cup between Criswell and Fleckenstein the latter won, breaking forty-two out of fifty rocks. Criswell broke thirty-seven.

A. E. Pearson was awarded the Dupont cup for the season handicap club shoot and F. Biewener Jr. won the Dupont watch fob awarded for second prize. The third prize, the Hercules shield, is yet undecided, D. E. Newbert and Harry Tharp tying.

Seven women shot, Miss E. Baker being the high gun.

Green Lake Club.—I. M. Fisher, professional, with a score of 49 out of 50, headed the shooters at the Green Lake Club August 13th. Dr. King was high amateur with 48 out of 50, while W. C. Smith, with 47, and Dr. A. B. Kidd with 46, came second and third among the amateurs.

In the 100-bird race Fisher broke 97, while Barnes came second with 94, breaking 49 out of his last 50.

A special event of doubles was put on and in this Dr. King led the field with 35 out of 50. I. M. Fisher was second and Don R. Baker third. L. S. Barnes, with 20 out of 24, really did the best shooting in the doubles event. The scores:

Fifty targets—I. M. Fisher* 49, Dr. King 48, W. C. Smith 47, Dr. A. B. Kidd 46, George Edling 45, L. S. Barnes 44, Dr. J. F. Hill 41, M. A. Rosenfield 40, Don R. Baker 40, George O. Colwell 39, S. A. Martin 38, E. Chantrell 34, S. F. Moulton 34, J. C. Peterson 33, William Spurck Jr. 31, Dr. M. F. Randolph 27, Geo. D. Horse 10x30.

One hundred targets—I. M. Fisher* 97, L. S. Barnes 93, Dr. J. F. Hill 76, George O. Colwell 75.

Doubles—Dr. King 35, I. M. Fisher* 34, George R. Baker 31, Don R. Baker 30, S. A. Martin 26, L. S. Barnes 20x24, George Edling 15x24.

Rifle Club at Oroville.—The Oroville unit of the National Rifle Association is fast gaining in membership and it is estimated that the club will have 100 members before many weeks. Through the efforts of John A. Philes, a charter was secured for a club there and in a few days thirty-five had signed their names ,to the enrollment blanks.

The new rifle club will secure its rules from the National Association and will use the Company I range, which is located just over the levee at the foot of Myers street.

There are some excellent shots among the Oroville sportsmen and with the additional practice which will be afforded when the organization is complete it is expected that some expert shots will be developed.

Skykomish Club.—Following are the scores of the Skykomish trapshoot on August 6th:

Shewbridge 47x50, Rohde 17x25, Henry 22x25, Himebaugh 19x25, Hove 22x25, Farr 22x25, Fournier 23x25, Bradburn 20x25.

THE INTERSTATE ASSOCIATION'S HANDICAP.

T. E. Doremus, President,
Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. **E. Reed Shaner, Sec'y,** Pittsburgh, Pa.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Partland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

Sportsmen's Row

A party of Capital City Motorcycle Club members landed a forked-horn buck near Lotus on the Placerville road while on a week-end outing Sunday. They made the trip Saturday afternoon and returned Sunday evening. They report seeing plenty of does and many tracks of deer and also heard of another hunter shooting a big five-pointer earlier in the day. The party included George McCormick, Bob Crane, Sidney Madson, Lee Borland and Fred Pearl.

• • •

Mrs. Bert E. Hilborn of Spokane, Wash., while at Deer Lake a few days ago succeeded in landing a Mackinaw trout which tipped the scales at nearly eleven pounds. The fish measured thirty inches in length. C. B. Goetchius, of the same city, captured a six-pound trout at the lake.

• • •

W. D. Church and a party of guests have returned to San Diego from a fishing trip to the Coronado islands. They were the proud bearers of a catch of sixty-five yellowtail, barracuda and bass—all landed with light tackle.

• • •

Mr. and Mrs. Topperwein have just finished another one of their successful tours through Wisconsin, when their remarkable shooting drew record crowds. Mrs. Topperwein's trapshooting was of a high order, as the following scores will show: Schullsburg, Wis., 141x150; La Cross, Wis., 146x150; Wausaw, Wis., 146x150; Wausaw, Wis., 95x100; Waukeshaw, Wis., 145x150; Milwaukee, Wis., 190x200; Oshkosh, Wis., 96x100; Stevens Point, Wis., 98x100; Eau Claire, Wis., 145x150; Madison, Wis., 146x150; Madison, Wis., 97x100.

• • •

C. H. Babcock left for South Dakota recently, taking with him the Bedford-Fleischmann dogs. This string includes the pointers Billionaire and John Proctor's sister, the setters Gunner, Yellow Peril, Marksman and Happy Boy, and five setter and two pointer Derbys. Babcock's string will not look complete without John Proctor.

• • •

Anglers are waiting still the expected run of steelhead trout in the coast creeks. Usually in August or September the big "bluebacks" come up into the lagoons to spawn and spend a time in the fresh water. At various times this and last month the anglers have believed the run started when big fish, grilse and steelhead, have been caught. No real run has started yet and many anglers have come to believe that the fish are outside waiting the first rains to muddy and swell the streams.

• • •

A mountain lion, measuring eight feet from tip to tip, has been killed by County Assessor George Rieber near Pacific, on the Placerville and Lake Tahoe state road. Rieber and Orrin Van Vleck found the carcass of a deer and nearby the tracks made by the immense beast. They came back to the spot the next morning. Van Vleck's dog drove the lion out of the brush and Rieber shot it.

• • •

At Los Angeles there is a very good example of what women with a little practice can do with a shotgun. Mrs. C. E. Groat, young and active, but for all that a grandmother, averages above 90 per cent at the traps. She has just come into possession of a diamond medal that was in competition for some months at the Los Angeles Gun Club and which she won the greatest number of times in the course of the contest. In this same club Mrs. Pfirrmann has an average of 85 per cent, Miss Wheeler 87 per cent, Mrs. Mohler above 80 per cent, and Miss Crossman is good for better than 80 per cent with a little practice. This is a very unusual squad of women shooters, and bids fair to be the champion woman squad of the country.

Portland Club—More than two dozen nimrods stepped to the traps August 13th in the second annual watermelon shoot at the grounds of the Portland Gun Club. While the shooting was going on, more than 100 visitors enjoyed themselves with the luscious melons in the club house.

Jack Cullison, a veteran at the game, who has not been actively appearing against the bluerocks for some time, journeyed out and was high gun of the day with 97 "dead" birds out of a possible 100. He won first honors in the class A section, while Peter H. O'Brien, Oregon's representative in the States' championship at the Grand American Handicap at St. Louis, was second.

In Class B, C. C. Kelly and H. R. Everding carried off the honors, while Captain Benham, A. L. Zachrisson and C. B. Handy tied for first place in Class C, with J. S. Crane lined up next. Handy won the shoot-off. A. W. Strowger, president of the Portland Gun Club, and H. A. Pollock, vice-president of the organization, were first and second in the Class D argument. Following are the scores for the day:

E. L. Clark 91, Abner Blair 91, C. Kelly 90, J. E. Cullison 97, W. C. Bristol (20-gauge gun) 55, Peter H. O'Brien 93, J. S. Crane 83, A. L. Seguin 86, E. B. Van Arnam 89, A. Woelm 85, A. L. Zachrisson 84, E. H. Keller 92, A. W. Strowger 80, H. A. Benham 84, H. A. Pollock 77, H. R. Everding 89, E. B. Morris 92, J. E. Reid 90, H. L. Idleman 70, Miss Gladys Reid 75, C. B. Handy 84, H. R. Seckle 90, and G. F. Stowell 60.

WRESTLER A GREEN HAND AT HUNTING.

Ad Santel Has a Rough Trip in Brushy Mountains; Gains Experience.

With a coating of tan which makes them resemble "Poor Lo," the skin wore off their toes and heels from wearing heavy boots on long hikes in rough country, dog-tired and with a machine which looks as if it had tried to cut an irrigation ditch through the Mojave desert, L. V. Hufft and Frank Perkins returned from a deer hunting trip on Brushy mountain. Despite their hardships, they were in fine spirits, as they bagged two fine bucks while the guests of "Brown" Lynch and wife, and incidentally brought back the identifying parts of four nice fat rattlers.

"If we hadn't got a shot," said Perkins, "we should have had our money's worth out of the experience. For three years I have done virtually nothing but rough it in the hills, yet in that period I have never been luck enough to collide with so many events of human interest as on this jaunt."

"Amen!" fervently ejaculated Hufft.

Two days after they arrived at the Lynch ranch, "Garsy" Stock, as chaperon, brought in Ad Santel, the noted wrestler, and Oswald and Albert Schubert, wealthy bakers of San Francisco. They were all corking good shots, but Stock's metropolitan proteges had about as much knowledge of the hills as a jackrabbit of holy water. The morning after their arrival Oswald, who arose about daylight, ran to the door of the cabin and, his voice trembling from excitement, shouted: "Get up quick, de bunch of you! Mein Gott! Dere's a fire down dere vich is burnin' up de whole country, und it iss headed right dis vay!"

Lynch and his wife scrambled out and Hufft and Perkins, though sleeping under an oak fifty yards distant, sprang shivering from their cots. All hurried to a point of visual vantage, from where they gazed on a heavy blanket of fog slowly enfolding the mountain from the south fork of Eel river. When Oswald learned that there was no immediate danger he appeared greatly relieved.

The same day Oswald and Albert were taken by Lynch to his father's homestead, a mile east up the mountain. The next morning it was discovered that Stock, Santel and both Schuberts were "on the ragged edge" and barly able to go hunting. Inquiry revealed that Oswald had cooked "hot cakes mit apples" for breakfast—the cakes on high and the apples on low gear. The resulting combination choked up the stomach carburetors of the whole party.

The first deer the Teuton party sighted all blazed away several times, and painfully frightened the buck, except Albert, who had a costly .38-55 rifle, outfitted with an up-to-date telescope sight imported all the way from Munich.

"Why didn't you shoot, too, Albert?" he was questioned.

"Vell," he answered, "I cocked mine rifle und pulled a bead on dot deer, but I had so much trouble findin' de trigger dot he was gone too quick."

Once Oswald went out alone to do or die in respect of bringing in the bacon, and on his return reported that he had seen and shot twice at a fine buck in a country where none had been seen for more than three years. A little scouting in that vicinity discovered a small red calf, whose antics at sight of a gun caused the suspicion that perhaps it had been rather close to a firearm in action.

Santel, who seems to be a convert to the Kneipp dewey grass cure for ennui, inasmuch as he went barefoot a good part of the time, desired to sight a rifle. After discharging the weapon once he threw out the empty shell but did not shove the lever far enough ahead to raise the carriage to position for sliding another cartridge into the barrel. He was shown how to accomplish this feat, and after doing so, calmly proceeded to set the gun against the side of the cabin, with hammer at full cock. Lynch carefully crept up to the weapon and lowered the hammer.

Though the Teutons got no deer, they did not return to San Francisco forlorn, as Lynch killed a big buck and loaded them down with venison the day before their departure. The tales of deer slaughter they are telling now are without doubt wonderful.

Santel carried with him a small case loaded with hypodermic syringe, potassium permanganate tablets, strychnine pellets and distilled water, for use in case of a rattlesnake bite, but luckily it did not have to be used. Just before the party left, its members had a person experienced in such matters explain to them how the instruments and materials in the case should be used if anybody were bitten by a rattler.

The roads beyond Willits are reported to be badly but up teams hauling tanbark, so that progress with a machine was necessarily slow. Though with considerable difficulty and much damage to the rear tires of their car, Hufft and Perkins managed to cross the south fork of Eel river near Dos Rios on their way to Lynch's place, they had to be hauled out of the gravel and sand by a team on their way back. They are enthusiastic in praise of their host and hostess, declaring that he is an expert woodsman and guide and she a crackajack cook.

FIELD TRIALS CIRCUIT FOR NORTHWEST.

The trials of the Washington and the Oregon field trial clubs will bring forth interesting competition It is surprising what a number of keen sportsmen and breeders of setters and pointers are to be found in the states of Washington and Oregon and in the province of British Columbia, and it is from these that the support of the two trials will come.

The Washington Field Trial Club will hold its trials somewhere near Tacoma, beginning September 11, and the Oregon event will follow on the 17th. Both clubs are working in unison in order to bring out a good entry and judging from the interest that is being evoked these two trials will be on a par with those of the regular circuit.

F. E. King, secretary of the Washington Club, writes: "We are only a small club as yet and do not intend to compete in any way with the clubs on the big circuit, but we are building up the interest and enthusiasm in this section and one of these fine days someone in this part of the country will make a showing even on the big circuit."

There is no question whatever that a circuit just as important as the one in the South can be formed up in that northwest country, for conditions are peculiarly favorable. In the first place, there are enough sportsmen up there to take an interest, and secondly, some very good dogs are owned and bred there. In fact, a number of good dogs have at various times come from different parts of the Coast and not only held their own, but won over the best that could be produced elsewhere. There was Peach Blossom, for instance, and Senator P. and Dr. Daniels and several others from California, and then we cannot overlook Melrose Mohawk. Of course the latter was bred in the East, but he received the greater part of his early education in the Northwest and so he may be considered a northwestern produce in every sense of the word.

As for game conditions up in that section, it is true the birds are mostly of the imported variety, but for some reason or other Mongolian pheasants, or "chinks" as they are called up there, have taken unusually well to that latitude and the class of coverts that abound there, and they lie to a dog as well as any native bird in other sections. The Hungarian partridge is also doing quite well in Washington and Oregon and in time will be as well thought of as the "chink" is now. Summing it all up, we see no reason why the Northwest should not have trials equally as important as are those in any section of the country, for after all its is first a question of the right kind of sportsmen, and they abound in that country; secondly, it is the right kind of dogs, and they have the same blood up there as we have anywhere else; thirdly, it is the game and the class of territory, all of which are there.

S. F. Fly-Casting Club Scores.—Fly casters turned out in force for the regular monthly tournament of the San Francisco Fly-Casting Club on Saturday and Sunday. The casts were all made at Stow Lake, under favorable weather conditions. Both days of the casting, a light southwest wind prevailed. The results:

Spring Shooting Is Barred.—New York, Aug. 22.—Spring duck killing in the states of Illinois, Iowa, Missouri, and Kansas hereafter will be prohibited, it was announced tonight by the federal advisory committee to the department of agriculture, which for some time has been holding hearings in this city.

Sportsmen all over the country, it was said, have been up in arms because a concession was recommended which gave the sportsmen of these states a special fall shooting season and an additional spring shooting season lasting from February 10 to March 10. Every other state was given, under the recommendations, a single open season, with spring shooting barred.

WILL CUTTING KELP INJURE FISHERIES?

Expert Reviews Possible Harm of the Development of New Industry on Coast

[By N. B. Scofield, in Charge Commercial Fisheries, California Fish and Game Commission]

It has long been known that the kelp along the Pacific coast contains a large per cent of potash, and considerable experimenting has been carried on to find methods of gathering it and of extracting the potash and other commercially valuable by-products.

Germany has hitherto furnished the bulk of our potash supply from the deposits in ancient lakes and seas. The United States Department of Agriculture, realizing the importance of having a source of supply within the United States and hoping to encourage the greater use of potash as a fertilizer, started an investigation of our kelp beds and conducted experiments in extracting potash from kelp. The results of these investigations are to be found in Report No. 100 of the United States Department of Agriculture.

It is believed by the government officials who have investigated the kelp beds along the California coast that there is enough kelp from Point Conception to the Mexican line to supply annually, without injury to the beds, all the potash used in the United States. The amount of potash consumed annually, before the great war cut off the German supply and raised prices, was 300,000 tons and its value was approximately $15,000,000.

Kelp is composed very largely of water (80 to 90 per cent); to extract the potash profitably large quantities must be handled and a great outlay of capital is required. The rise in the price of potash occasioned by the war has induced several large companies to build plants at Long Beach and San Diego where kelp is now being harvested. The companies operating are Swift & Company, the Hercules Powder Company at San Diego, and the American Products Company at Long Beach. Almost $3,000,000 has already been invested in southern California in this industry.

There has been considerable uncertainty as to the effect the cutting of kelp will have on the fisheries of the state. Many fear that the kelp beds will be destroyed and the protection which they now afford the beaches will be removed. This they think will greatly injure the clams which inhabit the beaches and the spiny lobsters which live more or less within the protection of the kelp. They also fear that the young fish, especially the young barracuda, which are in the habit of seeking a refuge in the kelp, will be deprived of this refuge and will leave that part of the coast. It is also believed by many that the kelp beds are extensively used as spawning places by many other commercial fish. It is thought that the removal of the kelp will, therefore, destroy these spawning beds.

Captain Crandell, of the Scripps Institution for Biological Research, at La Jolla, was employed by the government in kelp investigations and is still engaged in watching the effect of the cutting by the several large companies. He and others engaged in the work express the opinion that these companies are not likely, at least within the next few years, to devise kelp cutters or reapers which will cut the kelp more than six feet below the surface of the water, and that such small cuttings can have but little effect. It has been observed that, after one of these reapers has passed over a bed and cut the kelp to a depth of six feet, the uncut kelp branches rise to the surface and it is difficult to see where the cutter has been. Much of the kelp, especially along the edges of the beds, can not be touched and this continues to afford protection to the beaches. It has been pointed out that great masses of kelp are more easily detached from their "hold-fasts" by violent storms than are smaller beds, and it is believed that where beds have been subjected to cutting they will not be so easily washed out by storms. Furthermore, the kelp, though cut six feet below the surface, will continue to serve as a refuge for fish.

The species of kelp which is being harvested in California is the Macrocystis pyrifera. This grows in long strands from one to three hundred feet in length which are held to the rocky bottom by means of a "hold-fast." The leaves float out on the surface of the water and are held suspended by floats containing air spaces. The plants reproduce by spores which lodge on the bottom and start new plants; and by stooling or sending off branches from near the hold-fast. If the top end of a plant is cut off, the rest of that particular plant ceases to grow, but the shorter branches, which are continually arising from the base, soon grow up and take its place. Experiments are now being conducted at La Jolla for the purpose of determining the rate of growth of these plants, and it is believed that the cutting of the kelp near the surface will tend to make them stool, so that the growth will be increased by the cutting.

It is to the advantage of the companies engaged in cutting the kelp to avoid destroying the beds, and to cut them only as fast as they will reproduce themselves.

It is believed by government experts that, even if the entire potash supply of the United States were to be derived from kelp, none of the beds would be injured, unless possibly some bed that is favorably located close to the harbor where several companies are at work.

The regulation of the kelp industry in California will come entirely under the jurisdiction of the state, for the beds are all within the three mile limit. It is the desire of the federal government that the state devise and pass such laws as will protect this potash supply and at the same time assure the companies operating of a continuous supply of kelp and protect them from the interference of "pirates." It will therefore be necessary to enact laws under which the kelp beds may be leased or apportioned to operating companies under regulations which will assure continuous crops.

The administration of the kelp resources falls to the Fish and Game Commission. No state laws have as yet been passed in this regard, but several counties have passed ordinances intended to protect the kelp beds. These ordinances have been passed through fear that the kelp beds will be destroyed and bathing beaches and the fishing industry ruined. It is probable that these county ordinances are unconstitutional.

Experts from the Scripps Institution in the employ of the government are continuing their investigation of the kelp-cutting industry and are watching results carefully. The Fish and Game Commission is also keeping in close touch with the progress of the industry with a view toward proposing laws which will conserve this resource upon which one of the greatest industries of the state will probably be based—an industry which may yield more profit than all of the fisheries combined.

PRESS REPORTS ON THE GRAND AMERICAN.

Shooters All Over Country Participate in Handicap Events at St. Louis.

The Grand American Handicap, the blue-ribbon shooting event of the season, got under way last Saturday with a bang. Shooters from all over the country were represented. The events will be finished up today, and owing to the fact that the Breeder and Sportsman goes to press on Friday, time was not available to publish the full scores. They will appear in the next issue.

The daily press reports, giving the high scores, are as follows:

St. Louis, Mo., Aug. 19.—Homer Clark of Alton, Ill., today won the all-around contest for the Hercules cup at the first preliminary match of the Great American shooting tournament.

E. L. Bartlett of Baltimore won the Hercules championship cup for amateurs. Clark's score was 187 out of a possible 200. Bartlett made a score of 185 out of a possible 200. Following were among the highest professional scores:

Homer Clark, 187. W. R. Crosby, O'Fallon, Ill., 186. Arthur Killam, St. Louis, 185. J. R. Taylor, Columbus, Ohio, 181. Fred Gilbert, Spirit Lake, Ia., 179. J. S. Day, Midland, Texas, 174.

Following were among the highest amateurs: E. J. Bartlett, Baltimore, 185. Fred Plum, Atlantic City, 178. John H. Noel, Nashville, Tenn., 178. Peter Baggermann, St. Louis, 178. W. M. Ridley, Whatcheer, Iowa, 178 O. C. Boettger, Ollie, Iowa, 177. R. A. King, Denver, 175. F. M. Troeh, 175. Heine Pfirrmann Jr., Los Angeles, 175.

Sunday, August 20.—George Nicolai of Kansas City won the amateur hazard double target championship from G. V. Deering of Columbus, Wis., today, breaking 164 out of a possible 200. Deering held the lead until the last twenty pairs were reached. Then he slowed up, getting only twenty-seven out of a possible forty for a total of 156, while Nicolai broke thirty-six of the last forty targets.

Homer Clark of Alton, Ill., was the winner in the final competition for the "E. C." cup, breaking 184 out of a possible 200 targets. The conditions were 100 single targets at unknown angles, fifty singles, expert rules, one man up, and 25 pairs of doubles at 16 yards. Other scores in the match for the "E. C." cup were: W. R. Crosby, O'Fallon, Ill., 183; Fred Gilbert, Spirit Lake, Ia., 181; C. A. Young, Springfield, Ohio, 179; James S. Day, Midland, Tex., 177; and R. O. Heikes, Dayton, O., 176.

Monday, August 21.—Owing to the large number of last-minute entries, the St. Louis introductory shoot, open to amateurs only, was not finished today. The shooters who turned in the best scores today were: Harve Dixon, Joplin, Mo., 197; G. T. Hall, Loami, Ill., 194; R. A. King, Denver, Colo., 193; P. Hood, Pittsburg, Kan., 189; J. S. Frink, Minneapolis, Minn., 186.

Harvey Dixon won the St. Louis Introductory, the opening event in the tournament. This event was completed Tuesday. Dixon's score was 197 out of a possible 200.

Tuesday, August 22.—Frank Troeh of Vancouver, Wash., won the national amateur singles championship in the first day of the trapshooting tournament of the Interstate Association held here today, breaking 99 out of 100 targets. The same score was made in 1914 and 1915. Troeh had a run of 79 straight. Only winners of state championships were eligible to compete and thirty-seven out of the forty-eight champions were entered.

Owing to the lack of time, the national amateur doubles championship match was not held. The entire tournament is off schedule owing to the delay in finishing the St. Louis Introductory, and an extra day will be required to run off all events.

Among the high scores of the events today were:

National amateur championship at single targets—Frank Troeh, Vancouver, Wash., 99; C. B. Eaton, Fayette, Mo., 98; E. F. Tarsguard, Dallas, Tex., 97; E. R. Tansil, Paragould, Ark., 96; H. T. Bigelow, Ogden, 95.

Special fifty-target event for women—Mrs. L. C. Vogel, Detroit, 47; Mrs. H. Almert, Chicago, 38; Mrs. F. A. Johnson, Philadelphia, 38; Mrs. H. L. Potter, Madison, Wis., 36; Mrs. C. Edminston, Des Moines, Iowa, 36.

St. Louis Introductory, 200 single targets—Harvey Dixon, Oronoga, Mo., 197; William Ridgley, Whatcheer, Iowa, 194; Frank Troeh, Vancouver, Wash., 193; R. A. King, Delta, Colo., 193; C. H. Reilly Jr., Salt Lake City, 193; A. V. Cocke, Wellington, Tex., 193; F. W. McNeir, Houston, Tex., 193.

Mount City Overture, 100 singles, sixteen yards—W. S. Hoon, Jewell, Iowa, 99; R. A. King, Delta, Colo., 99; Frank Troeh, Vancouver, Wash., 99; William Wettleaf, Nichols, Iowa, 97; E. W. Anderson, Pecatonica, Ill., 97.

Wednesday, August 23.—Allen Heil of Allentown, Pa., won the national double-target championship at the tournament of the Interstate Trap Shooters' Association today. His score was eexceptionally high, 89 out of a possible 100, shooting at fifty pairs. Frank Troeh of Vancouver, Wash., was second with 88. Ninety-seven amateurs took part in the event.

Troeh made a perfect score in the shoot-off to determine the winner of the Mound City Overture, in which four shooters tied yesterday. Mark Arie of Thomasboro, Ill., took second with 19. W. S. Hoon of Jewell, Ia., and R. A. King of Delta, Colo., tied for third, with 18. In the shoot-off King won by breaking 20 straight, while Hoon got only 16. The Grand American Handicap will begin tomorrow. Starters will number 615.

In a professional event, Homer Clark of Alton, Ill., and H. D. Gibbs of St. Louis, each broke 99.

In a special 100-target professional match, H. D. Gibbs and R. O. Heikes of Dayton, O., winner of the first Grand American Handicap, tied with 96.

In a special event for women, Mrs. H. Almert of Chicago got the trophy.

Thursday, August 24.—Al Koyen of Fremont, Neb., won the preliminary handicap of the Interstate Association trapshooting tournament at St. Louis today with a score of 97 out of a possible 100. A start was made on the Grand American Handicap this afternoon, but no shooter was able to try for more than seventy-five targets before darkness made postponement necessary. The professional exhibition was won by Homer Clark of Alton, Ill., who broke 99 targets.

Mrs. C. H. Topperwein of San Antonio, Tex., gave an exhibition of fast trap shooting and broke 91. George MacWell, the one-armed shooter, broke 99 targets out of a possible 100 in an exhibition.

Fred Gilbert of Spirit Lake, Ia., and W. R. Crosby of O'Fallon, Ill., shot fifty singles in twenty-five pairs of doubles, Gilbert winning, 92 to 91.

Among the high scores in the preliminary handicap were: Al Koyen, Fremont, Neb., 97; L. A. Rambo, Delong, Ill., 96; J. G. Gray, Bloomington, Ill., 95; O. C. Botger, Ollie, Ia., 95; E. J. Marcotte, Laurium, Mich., 95; E. Prendergast, St. Louis, 95; A. Risser, Paris, Ill., 95; E. W. Anderson, Pecatonica, Ill., 95.

Peters' Pointers.—Dr. C. L. Templeton, a comparatively new shooter, won high average at the Harbor Island Gun Club August 6th, breaking 96x100, using Peters factory loads.

At Rawlins, Wyo., July 28-29, Mr. O. N. Ford of San Jose, Cal., won high amateur average and Mr. Geo. Burt high professional average, both scoring 379 ex 400 and both using Peters factory loaded shells.

At the Leer Lodge, Mont., shoot, June 26-28, the following honors were won by users of Peters shells: Brownlee Challenge Medal by Mr. C. L. Parsons, 25 ex 25. Brownlee Tournament Medal (10 targets each at 16, 18 and 20 yards), by Mr. C. L. Parsons, 29 ex 30.

Seattle Association.—Ralph Kinzer had his shooting eye on, August 13th, at the Harbor Island traps and shot the high position in both the 50 and 100-target program. The bulletin sheet showed 49 out of 50 and 94 out of the 100. R. S. Searle and C. E. McKelvey tied for the second position in the regular program, each being credited with 47.

C. E. McKelvey stood next to Kinzer in the 100-target event with 92, while Hi Follerich stepped into the third position with 88.

F. P. Smith and Dr. McKay, of the New Westminster, B. C., Gun Club, were visiting shooters with the club, and had they shot in the regular program would doubtless have been among the top scores.

The club made an announcement of a big money and merchandise shoot to be held on their Harbor Island grounds Sunday, August 27, this date being just a few days from the opening of the bird season in Eastern Washington and just two weeks before the Pacific Coast Handicap shoot at Portland, Ore. Merchandise prizes of value to every shooter will be placed up for high score, long runs, and for every conceivable kind of a finish that will add to the enjoyment of the shooters. All shooters will have an equal chance at the money division. It is planned to make the day one of enjoyment. The scores:

Fifty Targets—Ralph Kinzer 49, R. S. Searle 47, C. E. McKelvey 47, Dr. C. L. Templeton 42, Hi Follerich 42, W. B. Taft 41, J. W. Glasscock 38, Douglas Huntington 31.

One hundred targets—Ralph Kinzer 94, C. E. McKelvey 92, Hi Follerich 88, Dr. C. L. Templeton 81, W. B. Taft 80, F. P. Smith 48, J. U. McPherson 24, Dr. McKay 23.

Stock Breeders' Page

The Effects of Line Breeding.

The effects of line breeding in the business of producing fancy poultry stock is fully and plainly described by J. V. McConnell in a recent issue of the American Poultry World. In relating his experience he says:

"To begin with, I want to say the very best family of my line of Minorcas originated from a mating of full brother and sister some eight or nine years ago. There was a steady decrease in vigor after the first year's mating until the fourth year. The fourth year, however, some 10 per cent of the stock showed fully as much vigor and stamina as the progeny from the first mating, with far more type and color than either of the original pair had.

"From the fourth year there was a steady increase in vigor and stamina, and also in standard points to this date. The original sire was a 7½ pound cockerel mated to a full sister that weighed six and one-fourth pounds when they were mated. Both were selected as the most vigorous birds on my ranch at that time and their dam and sire were very prepotent birds.

"The superb results of this original mating you saw for yourself at my yards, also in the first and second cockerels at the world's fair—the one weighed nine and one-fourth pounds, the other nine and three-fourths pounds, and both were hatched February 18, 1915. I also wish to say there has not been a single atom of new blood put into my original line since the first mating. I also find in starting a new or original line that I have had far better results with the matings when a big majority of the blood of both male and female were the same.

"In starting to build up a new strain by out-crossing suitable birds of two different strains, it has been my experience that it takes two or three years longer for vitality to reach its lowest point, and the building up process to start in; also the building up of vigor and stamina, also of standard points, are often one to two years slower in reaching the same stage of perfection which I can obtain from starting with more closely related parent stock. Each year I have from one to three or four new families of my original lines started; also I have several out-strain crosses which I experiment with.

"The results have always been the same—that is, the matings that were related from distant to very close have rounded into shape far quicker, meaning from one to three years before birds of different blood lines have done so.

"There is one thing anyone starting a strain of line-bred fowls under any system must bear in mind constantly and that is the stamina and vigor of the parent stock, also the per cent of loss in weak, undesirable chicks will be heavy for at least four years; then after this period, which is the most vital in building a strain, if good judgment has been used in the selection of the stock, from this point on there will be a constant increase in stamina and general vigor."

The Best Cow Ration.

E. C. Voorhies, university farm at Davis, answers a question often propounded by an inexperienced dairyman relative to the best and most economical concentrated cow ration. He says a good grain mixture would be 200 pounds barley, 100 pounds bran and 100 pounds cocoanut meal.

When dried beet pulp can be obtained reasonably he commends equal parts barley, bran, beet pulp and cocoanut oil cake meal, by weight. This is the feed used at the university farm.

To the best cows one should give about one pound of this mixture or other concentrate for every five or six pounds of milk that the cow gives, up to the point where eight pounds of grain is given per day. It rarely pays to feed more than this amount.

To Keep the Flies Off Cows.

The Kansas station gives the following as a good recipe:

"Two cakes of laundry soap dissolved in warm water, one and a half pounds of resin, half a pint of fish oil, and enough water to make three gallons. Boil the resin, soap, and fish oil until the resin dissolves.

"Add half a pint of kerosene oil to the mixture when it is ready to use. Apply it with a brush or spray pump. About half a pint should be used on the cow at an application. It will be necessary to make the application three times a week until the hair has become coated with the resin.

A simpler recipe recommended by the Minnesota station consists of one pound of rancid lard and half a pint of kerosene oil, thoroughly mixed until a creamy mass forms. Rub this not too thickly over the backs of the cows with a cloth or with the bare hand."

Largest Herd in the State.

The herd of Holsteins owned by Asa W. Morris & Sons, Woodland, California, is now the largest herd of that breed in the State, and numbers a little over 400 head. Four bulls, thirty-five cows and twenty-five heifers were cently purchased by the Morrises from Judge Lindley's Santa Cruz herd.

The Modesto Fair in September.

Modesto, Aug. 23.—One of the biggest days at the Stanislaus Live Stock Show and Exposition at Modesto, September 18-23, will be the "live stock sales" day when the county farmers' union will conduct a co-operative sale of butcher stock in the morning, and the Poland China Breeders' Association of the north San Joaquin valley and the Duroc-Jersey Breeders' Association will each dispose of at least 40 head of pure-bred stock, the pick of the herds of their members. Butchers and packers from the city markets will be at hand to buy direct from the rancher at the block fat hogs, cattle and veal, and breeders of pure-bred swine will also have opportunity to select at auction prices the best stock in the country.

A booster excursion to the west side has resulted in proper assurances from the civic organizations of that prosperous section that they will be represented at the county fair with their best possible exhibits. Patterson has engaged a space 14x20 feet for its display. Crows Landing and Newman are now making arrangements for space. It is probable that these three communities will join in a west side day.

The county board of trade is the latest organization to reserve space for an exhibit and headquarters, 14x30 feet. The board at its regular meeting last week authorized Secretary Geo. T. McCabel to prepare for this exhibit statistics on the resources of the county, advertising literature, and a display of processed products.

Premium list booklets are now off the press and ready for distribution by Secretary F. L. Wisecarver. The booklets contain all rules and regulations for the fair and valuable information for prospective exhibitors relative to shipments of stock or products.

Rio Vista Horse Show.

Rio Vista, Aug. 23.—The public spirited citizens of Rio Vista are putting in every effort to formulate an interesting program for September 23, the day of the annual horse show and water carnival. Among the annual town celebrations, the Rio Vista horse show and water carnival is unique.

Situated at the edge of the Montezuma Hills from which come the finest horses and mules in the United States, and overlooking the beautiful Sacramento river just at one of the loveliest parts of its course, Rio Vista has grasped the opportunity to combine the two features and thus appeal to the practical interest in the raising of good stock, the delight in water sports and the love of the beautiful.

The day will be full of surprises from the start of the parade in the morning, through the program of the forenoon, the water sports of the afternoon, the illuminated boat parade and the dance which will close a wonderful day.

Rio Vista has good accommodations for visitors and it is hoped that every town in this part of the State will send a large repreentation to share in the pleasures of the day.

Europe May Want Our Cattle and Hogs.

An agricultural investigator back from Europe says that not only will the new world have to sell horses to the neutrals as well as to the belligerent countries of all of Europe and part of Africa, but we will be called on to supply breeding cattle and possibly, also, hogs and sheep. Water transportation is cheap and it is thought that quarantines and other restrictions will be "ironed out" to facilitate a commerce sufficient to re-stock the land which has been devastated. Many of the buying countries, it is thought, will be so poor that the demand resulting from their necessities will include cheap animals as well as good, and that the United States, for instance, will experience a foreign influence for higher prices in quarters which have never known anything but the domestic trade and sometimes only a very locally domestic trade at that.

Nevada Steer Won First Prize at California Fair.

Mr. A. W. Longley, of Oakland, writes us as follows: "In your last issue you stated that I sold the California University Farm polled Angus cattle with which they won many premiums. It was the University of Nevada Farm, located at Reno, to which I sold the cattle, and that farm showed them at the California State Fair, among other prizes winning first in the class opened to all beef breeds for the best steer shown. This entry was a pure bred polled Angus steer bred and raised by me and sold to the University of Nevada."

$224.20 for a Steer.

Geo. McKnight, a shorthorn breeder of Colorado, sent a steer to the Kansas City market in July this year that weighed 2140 pounds. He received $10.50 per hundred weight, or a total of $224.20 for the steer. This steer brought the highest price of any animal sold in the Kansas City market, and he was fed on a ration of corn silage and alfalfa for six months.

Herding cattle by aeroplane is an interesting experiment being tried out by Henry Anderson, a well-known rancher near Reno, Nev. The Christopherson Aircraft Company, headed by a formerly of Portland "bird-man," sold a $10,000 machine for the work. The plan for using the flying machine is to have a trip made around the big ranch once daily, noting the location of the cattle.

HINTS ABOUT HORSEMANSHIP.

In riding across country, "slow at timber," "fast at water," are good old maxims to follow, and a horse to jump any fence collectedly and well—I would add, says a writer in the London Live Stock Journal, whether going fast or slow—should take off simultaneously from both hind legs, hocks practically side by side, for no more unsafe mount can be found than a horse that habitually "skates" at his fences, taking off anyhow, and landing anyhow or anywhere, as the rider will discover often to his sorrow. Again, at water, men too often cease to "ride" at it at the very time they ought really to have begun.

Why alarm your horse and upset him by racing him half-way across a fifteen-acre field because you know there are 12 feet of open water at its extremity? Thirty-five yards from its brink is a sufficient distance, in my opinion, at which to put on express speed at a brook, and of course such pace on a made hunter, not watershy, is unnecessary. The great thing is to get a horse well into his bridle, and this can best be done chiefly by hands and legs.

On a green horse, or a shifty one, I believe in putting the pace on "strong" upon the near approach to a brook, for if your horse proves a bold one it is better to have a yard to spare than to find yourself in the middle of it, as may happen if the horse is a sticky or bad-tempered one. Pace will, generally, at all events, carry the rider on to the opposite bank, and, if so, with the reins in his hand, and if the brook has a good bottom, he need not lose much time from the mishap, and can get his mount out, quickly remount and regain his place with the hounds. Had he been going slower at the water, his horse, in his endeavors to refuse, would probably have slid into it, or have whipped round, to the discomfiture of both; and every hunting man knows that it takes some determination, and often much time, to get a horse which has once looked at and refused a fair-sized open brook, to jump it at or near the same spot.

A man's seat on horseback can only be determined by himself, with any hope of permanency. As you feel most "at home," so sit in your saddle, your weight over your stirrups for choice, as few seats are more ugly than that of the man who sits almost on the cantle of the saddle, and if so, usually with his toes near his horse's shoulder points, or tucked back as if he were crossing a shallow ford. To sit unduly forward is equally unseemly, but the length of stirrups the rider himself must determine. Length of thigh, of course, makes a difference, the lengthy man requiring his saddleflaps cut more forward than the horseman with shorter limbs, who can ride comfortably with straight-cut saddle. From the knee downwards, the leg ought, we think, to be carried at a very slight forward angle only out of the perpendicular imaginary line drawn from the knee to the heel, which should be slightly lowered, and the toe inclined outwards, but to no great extent.

The best men over a country ride to hounds with a long rein, and, unless to shorten their horse's stride when necessary, or to send him into his bridle on approaching a brook or other wide obstacle, let his mouth, as far as possible, alone.

The man who "funks" is always endeavoring unwittingly to ensure a fall for his horse at every fence. What horse can judge with accuracy where it is best to take off at this jump, or whether to fly or double another, when his rider is doing his best, or worst, to distract his attention from the business on hand by jagging or otherwise interfering with his mouth?

In bringing a child up in the way he should go to most readily become a right good sportsman, mount him at first on a narrow and very quiet pony. Later, when entering his teens, on a clever, well-mannered jumping cob. He should by then be hunting during his holidays, and confidence will increase with practice. Later, give the cob to his younger brother, who has presumably outgrown the pony, and buy a sound young blood horse for the elder one to "make" into a hunter for himself. By doing so he will, if at the cost of a fall or two, learn more quickly how to ride at various fences, and how not to, than he would from reading reams of such letterpress as this.

It is a good plan for lads, when they can sit well over gorsed hurdles or whatnot on a saddle, to practise over the same bare-backed, and to hack out so also on occasion. It teaches them "balance," and gives them a good "feel," and is, in my opinion, far pleasanter than riding on a saddle minus one or both stirrups. A good lad can soon learn to keep his seat when trotting and cantering, or even jumping, on a free, easy conveyance, for such a one comparatively simplifies matters, and to "use your knees and sit back" for such practice is briefly the best recipe to be offered.

Philadelphia's Equestrian Club.

In this day of motors a group of Philadelphia's socially prominent men and women retain interest enough in the horse to put up $100,000 to found an exclusive riding club.

The club, whose membership will be limited to one hundred, will be known as the Equestrian Club of Philadelphia. Each member put up $1,000 to join.

The club was formally organized July 5th, at a meeting in the office of Charles Sumner Wesley, 1420 Chestnut street.

According to the plans, the membership lists will be closed when 100 has been reached. Each member is to buy a $1,000 bond in the club. These bonds are guaranteed 5 per cent. interest.

THE FARM

WATER GLASS.

The water glass method worked out by Professor E. F. Ladd of the North Dakota Agricultural College is very simple. Eggs put up according to it will retain their original flavor.

Directions: The eggs must be fresh and clean. Washing an egg spoils its keeping qualities. Galvanized iron vessels, crocks, jars or gooden kegs may be used. The vessel must be clean. If of wood it must be thoroughly scalded. Use a good grade of water glass. One like a heavy white jelly, that flows like cold molasses. Use one quart of the water glass to 10 quarts of pure water that has been scalded. Pour into the vessel, when cool. Fresh eggs can be put into it from time to time until the jar is filled. There should be two inches of the solution above the eggs.

Keep the preserved eggs in a cool place as in a cellar. The eggs will contain some gas and so crack when boiled. This can be prevented by making a pinhole in the blunt end of the egg before boiling.

Rose Mildew.—Rose mildew may be kept under control in warm weather by frequently dusting the bushes with the finest dust sulphur, although this will be effective in the cool weather of spring also. The sulphur should be applied with a small blower, covering both surfaces of all leaves with the dust. The spring treatment consists of spraying just as soon as growth starts with lime-sulphur, one part concentrated solution to about 25 parts of water, says Professor H. P. Barss, plant pathologist of the Oregon Agricultural College. Cover all surfaces and get the liquid into cracks and crevices. The bushes should be sprayed again in about a month with a 1-40 solution of lime-sulphur, covering all foliage developed after the first application. Other applications should be made about every two weeks if the mildew threatens to reappear, but it is thought that if the earlier work was well done no further treatment will be necessary except in very moist weather or when rose mildew abounds in nearby plants.

A New Vegetable—A vegetable novelty brought from China by the Department's plant explorer and now under experiment is a radish with a root as large as a child's head. This is somewhat coarser and inferior in flavor to the small radish, though the Chinese cook it much like turnips and also pickle it in strips in brine for use as a relish.

GOMBAULT'S
CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeny, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is Warranted to give satisfaction. Price $1.50 per bottle, sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

SILAGE CROPS.

In all parts of the United States where the silo has come into general use the principal silage crop is corn. One reason fo rthis is that ordinarily corn will produce more food material to the acre than any other crop which can be grown. It is more easily harvested and put into the silo than any of the hay crops, such as clover, cowpeas, or alfalfa. With the harvesting machinery which we have at the present time these crops are much more difficult to handle, after being cut. Furthermore, corn makes an excellent quality of silage. The legumes, such as clover and alfalfa, are liable to rot unless special care is taken to pack the silage thoroughly and force the air out.

Corn should be harvested for the silo at about the same time that it is harvested for fodder—that is, when the grain has become glazed and the lower leaves of the stalk have turned brown. There is a steady increase in the amount of dry matter and food ingredients in the corn plant up to the time it is ripe. This indicates very plainly that immature corn is inferior to mature corn, whether fed fresh or as silage.

Silage made from immature corn is not only less nutritious but also more acid than that made from more mature corn. The corn should not be allowed to become thoroughly ripe and dry, however, because the stalk and foliage are rendered more difficult to digest, and besides the corn can not be packed into the silo tightly enough to prevent "fire-fanging" without using excessive amounts of water. In case the corn is frozen before it is properly matured for cutting, it should be harvested at once before it has had time to dry out to any great extent. Enough water should be added to replace that lost by evaporation through standing in the field after frosting.

Sorghums.—Sorghums, both saccharine and non-saccharine, are readily made into silage. On account of their superiority to corn as drought-resisting crops they are more dependable and yield more in those regions of the West where the rainfall is too light or irregular for a good growth of corn. The Kansas station reports that if the sorghums are harvested at the proper stage of maturity—that is, when the seed has become hard—they will make silage which is less acid and more palatable than silage made from corn. Furthermore, its experiments indicate that there is little difference in the feeding values of these silages. It is all-important that the sorghums be harvested at the proper stage of maturity if the best results are to be secured. A mixture of corn and sorghum has proved satisfactory in some localities where the rainfall was so variable as to make the corn crop uncertain.

Clover is a successful silage crop, yielding a palatable product high in protein. The silage made from clover as from other legumes has an objectionable odor, necessitating particular care in feeding to avoid tainting the milk. It does not pack so well as corn, so great care should be exercised in the tramping of the silage at the time of filling, and the depth of the silo should also receive particular attention. A shallow silo will not prove satisfactory. Clover should be chopped before siloing as a matter of convenience in feeding and also to secure more thorough packing, although it can be placed in the silo without chopping. Clover should be harvested at the same time as for making into hay—that is, when in full bloom and some of the heads are dead. It is usually inadvisable to make clover into silage if it can be made into hay, as is the case under most conditions. It is better practice to raise corn for silage and use the clover in the form of hay as a supplement to the silage.

All these crops can be successfully made into silage by exercising the same precautions as with clover. They should be cut at the same time as for haymaking. However, it is ordinarily preferable, as with clover, to make them into hay rather than silage. The fermentations which take place in silage made of legumes cause a greater loss of nutritive material than with corn silage.

Stop Those Gullies.—Small gullies that have started in the field should be stopped by filling them with straw or similar material, says M. F. Miller of the Missouri Agricultural College. If the gully is large it is advisable to plow in soil on top of this material and sow to oats, or later to sorghum, so that the crop will come up thick and form a strong root mass to bind the soil together. The proper use of debris for filling and rank growing plants for holding the soil will stop most washes entirely. Eternal vigilance ,however, is necessary for complete success.

Farm Houses.—City houses must of necessity conform to the amount of ground space available, but that does not need to apply to houses built on farms. There, where land is not bought by the foot, all sorts of artistic styles can be indulged in at no more expense than the old style four straight walls. Wide houses with generous porches, set well back from the road and approached by a curving driveway bordered with trees, make an attractive place to the passerby as well as a joy to the fortunate owner.

THE CONQUEROR KNEE SPREADER

They stop any pacer or straight line trotter from hitting their knees. They increase the speed of a horse and never tire him, because they work on ball bearings using rubber only from hoof to stick leaving the action of the horse free. Clasp adjustments. They never hit the shaft are easily attached, fit any shaft and are durable. Patented 1914. I guarantee them for 6 months, except the rubbers. Price, $20.

CHESTNUT TOM 2:17¼ FOR SALE.

Chestnut Tom 43488, standard and registered, eighteen years old, but strong and vigorous, is offered for sale for a ridiculously low price. The late Martin Carter, who was one of California's most successful breeders, considered this horse one of the very best he ever bred for a sire. Chestnut Tom is sire of the dam of the coast champion Wilbur Lou (1) 2:19½, (3) 2:10¼, sire of Natal Day 2:13¼, coast champion two-year-old. The late Martin Carter bred Chestnut Tom for a broodmare sire. He is by Nutwood Wilkes, his dam is by Director and his grandam is the dam of his sire and by Nutwood. $150 takes him. Address GEO. T. ALGEO, 3608 Piedmont Avenue, Oakland.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you. MAGNUS FLAWS,
542 S. Dearborn St., Chicago, Ill.

FARMS FOR SALE
Choice Land In Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

MODERN BREAKING

By W. A. BRUETTE

A revised edition of the latest Treatise on the Training of Setters and Pointers.

THIS book enables anyone to do his own training and fully explains the methods employed by the most successful trainers in developing the setter and pointer. The important lessons are illustrated by photographs from life; nothing is left to guesswork. The entire subject is covered, from the selection, raising and development of puppies to the conditioning of dogs and their handling in the field. The amateur is told, in lucid language, how to make a dog a high-headed, stylish worker, stanch on his points, steady to shot and wing, and a prompt, tender retriever; all of this is accomplished by simple methods, some of them never before given to the public. The instructions for correcting the faults of bird dogs and keeping them up to their training are concise and easily understood. Every man who owns a bird dog or shoots in the field should read this book.

For Greatest Satisfaction Use

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof.*

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer:**

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.55
30x3½ in.	10.55	3.10	35x4½ in.	21.20	5.60
32x3½ in.	12.75	3.20	36x4½ in.	22.60	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	16.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

Mr. Chamberlin and Dr. B. F. Bishop, won the Connecticut 2-man team championship, 187 x 200. Mrs. F. F. Rogers won the ladies' championship, 81 x 100, and Messrs. A. L. Chamberlin and F. B. Stephenson tied for High Amateur Average, 141 x 150, all using the "P" brand.

THE PETERS CARTRIDGE CO., PACIFIC COAST BRANCH . . . . **585-587 Howard Street, SAN FRANCISCO, CAL.**

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

REMINGTON UMC TRADE MARK

Rallying For The Grand American

THERE isn't anything more inspiring in American sport than the annual coming together of those fine, clean-cut, representative sportsmen who are a part of the front-rank trapshooters of the nation.

Since January first there has been a gradual leading up to the big shoot (St. Louis, Aug. 21-25) from coast to coast. State championship winners galore—all of whom are assured of a G. A. H. trip—and a majority of other important tournament winners have made their scores with carefully chosen Speed Shell loads—Remington UMC or Nitro Club, in many cases shot from Remington pump or autoloading shotguns.

Shooters who get into the front ranks where one target may mean victory or defeat, are not likely to experiment much with shooting equipment. They are apt to profit by the experience, for instance, of those winners who, with Remington UMC, captured 21 of 25 great Interstate Handicaps, including the G. A. H., in five years. When it comes to the Grand American Handicap event, whether the contestant be from Maine or Missouri, he will feel surer and he will be surer if the Red Ball Brand of a century's experience and progress is backing up his skill.

Here are some of 1916's arrivals at Winningtown who point the way to Grand American Handicap contestants:

STATE CHAMPIONS

COLORADO: R. A. King, 100 straight, shooting Nitro Clubs. IDAHO: E. M. Sweeley, 98x100 and 23x25. 23x25 in shoot offs, shooting Remington pump gun. INDIANA: Roy Pickett, 99x100 and 25x25 in shoot off, shooting Remington pump gun. KENTUCKY: Dr. D. W. Barron, 99x100, shooting Nitro Clubs. LOUISIANA: H. T. Wadley, 95x100, shooting Remington Autoloading Shotgun and Arrows. MAINE: E. A. Randall, 93x100, and 19x20 in shoot off, shooting Arrows. MASSACHUSETTS: G. L. Osborne, 97x100 and 19x20, 19x20, in shoot off, shooting Arrows. MICHIGAN: Joseph Bryant, 98x100, shooting Remington pump gun and Nitro Clubs. MISSISSIPPI: F. P. Fitzgerald, 99x100, shooting Nitro Clubs. MONTANA: F. A. Weatherhead, 94x100, shooting Remington pump and Nitro Clubs. NEW JERSEY: C. Speer, 99x100, shooting Remington pump gun and Nitro Clubs. NEW YORK: H. J. Pendergast, 100 straight, shooting Nitro Clubs. NORTH DAKOTA: Frank Holland, 97x100, shooting Remington pump gun and Nitro Clubs. OKLAHOMA: J. M. Walker, 94x100, shooting Remington Autoloading Shotgun. RHODE ISLAND: W. J. Weaver, 95x100, shooting Nitro Clubs. WISCONSIN: A. Bushman, 99x100, shooting Remington pump gun and Nitro Clubs.

ANNUAL AMATEUR CHAMPIONSHIP OF AMERICA (TRAVERS ISLAND)

Won by R. L. Spotts, 196x200 (highest score ever made in this event), shooting Arrow Speed Shells. (Third successive winning with Arrows.)
2nd: H. C. Pendergast, 191x200 and 24x25 in shoot off, shooting Nitro Clubs.
Long Run made by J. H. Hendrickson, 107 straight, shooting Arrows.

SOUTHERN HANDICAP

Won by F. C. Koch, 95x100, (19 yds.) and 39x40 in shoot off, shooting Arrows. (Nine of the eleven Southern Handicaps have been won with Remington UMC guns, shells or both.)
Southern Overture: W. H. Fitzgerald, 99x100, shooting Arrows.
Long Runs: H. P. DeMund, 136 straight, shooting Remington pump gun and Arrows.

EASTERN HANDICAP

Won by C. B. Platt, 97x100 (21 yards), shooting Nitro Clubs.
Eastern Overture: Won by C. H. Newcomb, 99x100, shooting Arrows.
Eastern Special: Won by J. H. Noel, 99x100, shooting Nitro Clubs.

"INDIAN" CHAMPIONSHIP

Won by Clayton Deck, 99x100, and 19x20, 19x20 in shoot off, shooting Nitro Clubs.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies. Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

Turf and Sporting Authority on the Pacific Coast.

(Established 1882.)

Published every Saturday.

F. W. KELLEY, Proprietor.

OFFICES: 363-365-366 PACFIC BUILDING

Cor. of Market and Fourth Sts., San Francisco.

P. O. DRAWER 447.

National Newspaper Bureau, Agent, 219 East 23rd St., New York City.

Entered as Second Class Matter at San Francisco P. O.

Terms—One year, $3; six months, $1.75; three months, $1. Foreign postage $1 per year additional; Canadian postage 50c per year additional.

Money should be sent by Postal Order, draft or registered letter addressed to F. W. Kelley, P. O. Drawer 447, San Francisco, California.

Communications must be accompanied by the writer's name and address, not necessarily for publication, but as a private guarantee of good faith.

DATES OF FAIRS.

CALIFORNIA.

California State Fair at Sacramento	Sept. 2- 9
Alameda Co. Fair at Pleasanton	Sept. 13-16
Ventura Co. Fair at Ventura	Sept. 13-16
Community Fair at Ripon	Sept. 15-16
Fresno Co. Fair at Fresno	Sept. 26-30
Bishop Harvest Festival at Bishop	Sept.28-30
Kings Co. Fair at Hanford	Oct. 2- 7
Riverside Co. Fair at Riverside	Oct. 10-14
Kern County Fair at Bakersfield	Oct. 24-28

ARIZONA.

Arizona State Fair at Phoenix	Nov. 13-18

NORTH PACIFIC FAIR ASSOCIATION.

Interstate Fair at Spokane	Sept. 4- 9
Grays Harbor Co. Fair at Elma	Sept. 6-10
Walla Walla Co. Fair at Walla Walla	Sept. 11-13
Washington State Fair at North Yakima	Sept. 18-23
Oregon State Fair at Salem	Sept. 25-30

INTER-MOUNTAIN FAIR CIRCUIT.

LaGrande, Oregon	September 4
Baker, Oregon	September 11
Ontario, Oregon	September 18
Boise, Idaho	September 25
Salt Lake, Utah	October 2

GRAND CIRCUIT.

Hartford, Conn.	Sept. 4- 9
Syracuse, N. Y.	Sept. 11-16
Columbus, Ohio	Sept. 18-30
Lexington, Ky.	Oct. 2-14
Atlanta, Ga.	Oct. 16-21

GREAT WESTERN CIRCUIT.

Hamline, Minn.	Sept. 4- 9
Milwaukee, Wis.	Sept. 11-25
Springfield, Ill.	Sept. 18-22
Sedalia, Mo.	Sept. 25-30

THE SIXTY-SECOND ANNUAL FAIR of the California State Agricultural Society opens at Sacramento today and bids fair to be by far the greatest fair, so far as exhibits are concerned, that has ever been held at the State capital. The California State Fair has grown to be a big institution and is conducted on the lines of the greatest fairs held in the Eastern States and elsewhere. The grounds have been beautified in recent years, many new exhibition halls erected, the stock barns are up-to-date and commodious, and will this year be filled with the greatest display of live stock ever seen in the State. Nearly 1000 of the leading breeds of hogs and as many of fine sheep are already in their pens for the opening day, while the exhibits of the beef and dairy breeds of cattle, the draft and saddle breeds of horses were never so large. A departure in the arrangement, or rather a return to a former custom, will be noted in the speed department. There are to be three running races each day in addition to the harness races. This change will be pleasing to all lovers of contests between horses and we trust it will become a regular part of the race programs of the future at our State Fair and that the breeding of the thoroughbred will thus be encouraged by the State's greatest fair association. No more profitable way of spending a week can be arranged than by visiting Sacramento during fair week and remaining during the entire seven days of the exposition.

H. K. Bush Brown, widely known as a sculptor and a breeder of horses, has designed for the Arabian Horse Club, of which he is one of the officers, a new medal which is to be given as a prize at the Rochester, White Plains and Brockton horse shows this year. Competition is not limited to Arab horses, as might have been expected, but is open to all saddle horses kept for private use. The winner must show a good, fast walk, a square trot and an easy canter, stand quietly for the amateur rider to mount and dismount, and back in a straight line at least fifteen feet.

PROGRAM, STATE FAIR RACES.

SATURDAY, SEPT. 2d.

Occident Stake, three-year-old trotters, $2300—Alesandro, Natalday, Manuelito, Hermes, Miss Axworthy Dillon, Lulu B.

2:14 Pace, $1,000—Best Direct, Bradmont, Maxine, Mabel Dillon, Mono Ansel, Hanover, Irene D., Breezy Marie, Bertie Seattle, Dixon Boy, Alta Barnato, Pedlar Direct.

MONDAY, SEPT. 4th.

State Fair Futurity No. 5, three-year-old pacers, $1100.—Rico, Dr. Dyer, Verna McKinney, Carolyn, Julia M., Stanley Quinn.

2:30 Trot, $1,000—Miss San Francisco, Ella M. R., Peter's Queen, Rubell, Zolock Zar, Dr. S., Howard's Comet, Peter McKlyo, Major's By Guy, El Angelo.

Two-year-old Trot, $500—Kewpie, Lilly of the Valley, Skyrocket, McKlyo Boy, Rhyolite, Kinsman Lou.

TUESDAY, SEPT. 5th.

State Fair Futurity No. 5, three-year-old trotters, $1400.—Alesandro, Baron C. McGregor, Natalday, Miss Bond, Hermes, Manuelito, Miss Axworthy Dillon.

2:20 Pace, $1,000—Bold Harry Aerolite, Lock Logan, Harry Mac, Directess Mac, Hanover, Irene D., W. J. K., Bertie Seattle, Alta Barnato, Pedlar Direct, Villa.

WEDNESDAY, SEPT. 6th.

Stanford Stake, three-year-old pacers, $1000.—Rico, Surety, Carolyn.

2:15 Trot, $1,000—Eloise Dell, Brutus, Bodaker, Lindsay Bell, Dr. S., Dick W., Howard's Comet, Major's By Guy.

THURSDAY, SEPT. 7th.

Free-for-all Pace, $1,000—A. B. C., Jim Logan, Little Bernice, Teddy Bear, Vera Hal, Leata J., O. U. C., Rastus.

2:09 Trot, $1,000—Bert Kelly, Harold C., Pavana, Bon Guy, Albaloma, Bon Cres.

FRIDAY, SEPT. 8th.

Stanford Stake, three-year-old trotters, $1500.—Alesandro, Natalday, Manuelito, Hermes, Miss Axworthy Dillon, Lulu B.

Two-year-old Pace, $500—The Orphan, Alfredo, Oro Fino, Tommy Atkins, Galen Logan, El Paso, Nelly McCarty, Marshall Logan.

SATURDAY, SEPT. 9th.

2:20 Trot, $1,000—Tra Mack, Miss San Francisco, Ella M. R., Lindsay Bell, Eloise Dell, Rubell, Zolock Zar, Jake Logan, Dr. S., Dick W., Howard's Comet, Peter McKlyo, Major's By Guy, Alice W.

2:10 Pace, $1,000—Booze, Best Direct, Soumise, A. B. C., Bold Harry Aerolite, Lock Logan, Della H., Pointer's Daughter, Bertie Seattle, Dixon Boy, Alta Barnato, Star Dillon.

Consolation State Fair Futurity Pace, three-year-olds, $300.

Consolation State Fair Futurity Trot, three-year-olds, $400.

At Ellerslie, New Zealand, recently, a six-year-old gelding named El Gallo won the Great Northern Hurdle Race of two and a half miles, beating a big field, and came out none the worse for his effort the following day and secured the Great Northern Steeplechase of three and a half miles. Both races were won by the same horse the previous season.

◈ ◈ ◈

In the yearling sale to be held in Lexington on the evenings of Sept. 12 and 13, by The Kentucky Sale Co., the get of the following sires will be found in the catalog, viz.: Astronomer, Ballot, Bearcatcher, Bryn Mawr, Burgomaster, Contestor, Dick Finnell, Dorante, Ferole, McGee, Marathon, Peter Quince, Plaudit, Rapid Water, Sweep, Toddington, Transvaal, Watervale and Zeus.

◈ ◈ ◈

J. O. Keene has concluded arrangements to go to Russia and assume management and train the extensive racing establishment owned by Countess Eugenie Lazereff, of Petrograd. The establishment comprises eighty horses, and Keene will have sole charge of the entire band. Eddie Dugan will be the stable jockey. Keene is now conferring with his brother, G. H. Keene, as to the disposition of the horses they have in training, and concerning the eleven yearlings now at Keeneland Farm. In all probability they will decide to dispose of the horses during the Belmont Park meeting. Keeneland Stud will be kept intact, and during J. O. Keene's absence will be looked after by G. H. Keene. Mr. Keene's contract is a lucrative one.

◈ ◈ ◈

Preliminary prize lists for the International Live Stock Exposition in Chicago next December indicate that it will be one of the season's largest horse shows, so far as breeding stock is concerned. The classifications for Percherons, Belgians, Shires, Clydesdales and Suffolks are unusually numerous and liberal, even for this greatest of American draught horse shows, while French and German coach horses, English hackneys, Welsh and Shetland ponies come in for many substantial prizes in money and plate. It is a curious circumstance that no American breed of horses has received recognition at Chicago. With a big sale of trotters following the show at the stock yards it would seem as if a representative exhibit of this breed might be arranged; also an exhibit of American saddle bred horses and of Morgans. Nearly two hundred classes for horses will be judged during the show.

SAN FRANCISCO-CALIFORNIA CLUB MATINEE.

Three races all won in straight heats made up the program of the San Francisco-California Driving Club's matinee at Golden Gate Park last Sunday afternoon. Pacers and trotters were mixed in the first and third races and in each event a pacer won, but was closely pressed by a trotter in each heat. James Ryan's Rosie O. was the winner of the first race, with A. Combatalade's Birdeye second, and in the third race Conlan's Little Jack was in front three times with A. Giovannetti's trotter Yoncalla close up to him in each heat in good time.

The free-for-all pace had five starters, but it was pretty easy for Campodonico's King Pointer who was never headed after the world was given in every heat, and all were paced in the same time, 2:13. Summaries:

First race—2:20 mixed:

Rosie O.	(J. J. Ryan)	1	1	1
Birdeye	(A. Combatalade)	3	2	2
Sis Hopkins	(William Hopkins)	2	4	4
Silver Logan	(D. Healey)	5	3	3
Minnequa	(M. Ford)	4	5	5

Time—2:20, 2:19½, 2:18.

Second race—Free-for-all pace:

King Pointer	(H. Campodonico)	1	1	1
Mabel Dillon	(B. Cohen)	2	2	5
Emma M.	(William Malough)	4	3	2
J. C. Simpson	(Frank Goulart)	3	5	3
Senator H.	(J. M. Kidd)	5	4	4

Time—2:13, 2:13, 2:13.

Third race—2:16 mixed:

Little Jack	(G. Conlan)	1	1	1
Yoncalla	(A. Giovanetti)	2	2	2
Pointer Belle	(J. M. Kidd)	3	3	3
Frank N.	(M. Ford)	4	4	4

Time—2:16, 2:14¼, 2:14.

LAST TWO DAYS AT NORTH RANDALL.

Thursday, August 24.

The Champion Stallion Stakes, 3-year-old trot, $7,640:

Volga, ch f by Peter the Great	(White)	1	1
Expressive Lou, b f	(Murphy)	2	3
Bingen Silk, b c	(Chandler)	3	2

Also started: Brownie Watts, Meja, General Yorke.
Time—2:07¼, 2:09¾.

2:16 class trotting, purse $1200:

Donna Lona, ch m by Don Roma	(Valentine)	1	1	1
Humfast, b m	(Murphy)	3	2	2
Binland, blk h	(McDonald)	2	7	3

Also started: Truesada, Carolina, Ridgemark, Ideal Bingen, Onward Alerton and John G.
Time—2:05¾, 2:08¼, 2:08½.

2:15 class trotting, $3000:

Early Don, ch g by Don Cale	(Valentine)	4	1	1
Brisac, br h by Bingara	(Murphy)	1	2	2
Colonel Riser, br h	(Brennen)	2	4	3

Also started: Lou Princeton.
Time—2:08¼, 2:07¾, 2:09¾.

2:18 class pacing, $1200:

McEnery, b h by McEwen	(Whitehead)	2	1	1
Rayo de Oro, ch g by Copa de Oro	(Durfee-Valentine)	1	2	3
Prestolite, blk m	(McDonald)	4	4	2
John A. II., ch g	(Benyon)	3	3	d

Time—2:08½, 2:09¾, 2:13¾.

In his attempt to break the world's record to wagon with an amateur driver, Directum I., driven by H. K. Devereux, fell short of William's mark of 1:59½, negotiating the mile in 2:02½.

Friday, August 25.

Stallion Stakes, three-year-olds, pacing, purse $1745:

Edward P., b c	(McDonald)	2	2	
Peter Look, b c by Peter the Great	(Trayner)	1	1	
Miss Jennie Castle, b f	(Nuckols)	dis		

Time—2:12, 2:10¼.

Free-for-all pace, $1200:

Napoleon Direct, ch h by Walter Direct	(Geers)	1	1	1
Single G., b h	(Cox)	3	2	2
Hal Boy, b g	(McMahon)	2	3	3

Time—2:01¾, 2:04¾, 2:00½.

2:06 class trotting, $1200:

Esperanza, b m by Carlokin	(Durfee)	3	2	1
Director Tidd, br h by Todd	(Cox)	2	1	2
Joan, b m by Directum Spier	(McDevitt)	1	3	4

Also started: Mirthful and Grand Chimes.
Time—2:08¼, 2:07¾, 2:08¾, 2:10.

2:13 class, trotting, $1200 (first division):

Allie Watts, ch m by Gen. Watts	(Edman)	1	1	1
Binville, blk h	(Tipling)	2	2	3
Gum Drop, br g	(Whitehead)	6	3	2

Also started: Vance, Jeannette Speed, Zomrect and Tommy de Forest.
Time—2:08¼, 2:08¾, 2:08¾.

2:13 class, trotting, $1200 (second division):

Pittsburg, ch g by General Athol	(Murphy)	1	1	5
Ben Gregor, b h by Tommy Gregor	(Whitehead)	5	2	1
Polly T., b m	(Garrison)	3	3	2

Also started: Baby Doll, F. A. L. and The Toddler.
Time—2:08¾, 2:07¾, 2:09¾.

Lee Axworthy was driven a mile in an effort to lower his record of 2:00¼ but just equaled that time.

Labor Day at Hemet Stock Farm.

Several yearlings and two-year-olds are to be driven for records on September 4th, Labor Day, at the Hemet Stock Farm half mile track and there will also be several harness races and running events. The following is the program for the afternoon as arranged at present:

First event—Edith Carter (1), chestnut filly by Kinney de Lopez—Louise Carter; against time.

Second event—Hemet Queen (1), bay filly by Wilbur Lou—Hemet Girl; to beat 2:40 pacing.

Third event—Wilbur Direct (2), chestnut gelding by Wilbur Lou—Betsy Direct; to beat 2:30¼ trotting.

Fourth event—Zeta Lucile (2), chestnut filly by Wilbur Lou—Zeta W.; to beat 2:30¼ trotting.

Fifth event—2:25 Trot: Gertrude Rives, Pico Boy and Betsy Direct.

Sixth event—Matinee race: Pansy Hal, ch. m. by Hal McKinney; Al Hal, b. h. by Young Hal.

Seventh event—Farmers' trot: Pico Boy, Ever Ready, William Spencer, Lister, Betsy Direct.

RACING AT VANCOUVER.

Last Three Days of the Meeting Which Opened the Circuit August 14th.

The last three days' racing at the Vancouver Exhibition were in no way inferior to the two days already reported.

The opening race on the third day was the 2:20 trot, purse $300, and brought out the following field: Frank D. Nichol, Guy Light, Pereio, Beauty B. and Cavalier Gale.

Pereio, a rather plain-looking gelding by Shepherd's Laddie, won the first heat, but after that the son of Cresceus and Silpan was easily the best. The positions in the summary were as follows: Frank D. Nichol, b h by Cresceus, dam Silpan by Silver Bow, 2-2-1; Perieo, b g by Shepherd's Laddie (Davis), 1-2-4; Beauty B., b m by Woodlock (Guion), 3-4-2; Guy Light, b g by Searchlight (Lindsay), 4-3-3; Cavalier Gale, son of Baron Gale and Nellie J., drawn.

The next race on Thursday's program was between Myrtha Pointer, a big bay mare by Star Pointer out of Myrtha Whips 2:09¼, Bell, by Whips, Hall Scott by Hal B., and Nellie Wilkes, a roan mare by a grandson of George Wilkes and out of the dam of William. The race was for amateur pacers that had started at least three times at the meetings of some recognized amateur club during the season.

Myrtha Pointer finished third the first heat, but of Myrtha Whips 2:09¼, Bell, by Whips, Hal Scott (Burgoyne) stood 1-2-3 in the summary and Nellie Wilkes (Morris) 2-3-2. The time of the heats was 2:20, 2:19½ and 2:19¼, but the big daughter of Star Pointer finished each heat under restraint, and though outside watches got her third heat in 2:17 flat she could have gone faster if necessary. She looks like a high class pacer.

The third race of the day was for amateur trotters with similar conditions to those in the above, and brought out five starters, namely: Chromo, a 20-year-old black gelding whose breeding is unknown, Susie G., a bay mare by Grecco B., dam not given, Fera Montana, a black mare by Montana Guard, dam Fera Lora, Special Blend, bay gelding by Bertwood, son of Nutwood, dam Delbars by Monbars, Bluebells, a long-legged black mare by Monochrome, and Emmeline Lou, a handsome bay stallion by Kinney Lou, dam Emmeline.

This race provided three different heat winners, Fera Montana winning the first heat, Susie G. (Mason) 3-1-2, Fera Montana (Hawk) 1-3-3, Special Blend (Wilson) 4-4-5, Emmeline Lou (Steele) 5-5-4, Chromo 2-2-1. Time o feach heat was 2:30, 2:26 and 2:27.

The feature race on Friday was the 2:25 pace, and of the ten original entrants only four passed the starters. The two leaders were Allerton Direct, a brown stallion by Baron Direct, dam Happy Lotta, from the stable of J. F. McGuire of Denver, Colorado, and Prince Malone, a chestnut gelding by Kinney Lou, dam Princess Bessum by Egyptian Prince. Prince Malone won the 2:20 pace earlier in the week and was making his second start in one week at the first meeting of the season for him, while Allerton Direct had been campaigning since May.

Allerton Direct won in straight heats, but not without considerable interference with the Malone horse and only by inches in each heat. Considerable dissatisfaction was expressed at the time hung out in this race as outside watches gave the time from three to four seconds faster than that given by the timers.

The other starters were Lady Tango, a handsome small filly by a son of Moko and Chestnut Bell, dam Delbars by Monbars. This filly looks like a capable pacer and one that will train on. Sally H., the fourth contender, is a bay mare by Hal Monte, dam Crooked Foot, owned by Gus Davis of Gresham, Ore., and driven by Sam Lindsay. Mr. F. B. Loomis drove Prince Malone and Colly Wilson drove the Tango filly. The time of each heat was 2:16¼ as given out. Mr. Loomis did good work, having three firsts, two seconds and one third to his credit out of six starts.

The second race on August 18th was a three-horse race for colts bred in British Columbia and was won by the bay colt Glen, the three-year-old son of Glendor 2:11¼, Glendor being a son of Red Medium and Miss Alcy Woods.

The second heat was won by Lady B. P., a very handsome iron gray filly by Dr. B. P. 2:05¼, dam Lady Patrick by Ben Z. Third money was won by a daughter of Glendor called Glendora Maid. Positions in the summaries were: Glen (Smith), 1-2-1; Lady B. P. (Dixon), 2-1-3; Glendora Maid (Cook), 3-3-2. The race was half mile heats and the time was slow, the best time being 1:17.

The third race of the day was the 2:30 pace, purse $300, and the entrants were Windsor Direct, b m by Baron Direct, dam Cecil Woodline, owned and entered by J. F. McGuire of Denver, Colorado; Montana Belle, br m by Hal Mercury, entered by Miss Bosley of Calgary, Alta., and driven by Grover Wright; Mac Foster, b h by MacEwen, dam Annie Caffee, entered by J. Foster of Victoria and driven by C. Wilson; Aurelia Lou, b g by Kinney Lou, dam Aurelia B., owned and driven by R. Dixon of Vancouver, B. C.

Montana Belle won the first heat and after that Windsor Direct was easily the best. The positions in the summary were: Windsor Direct 2-1-1, Aurelia Lou 3-3-3, MacFoster, 4 and drawn. The time was 2:21¼, 2:27 and 2:24¼.

The 2:10 pace on the closing day was certainly a disappointment, as Lady Hal, supposedly invincible, was decidedly off owing to an accident in shipping, and the exhibition put up by her and Zombrino was a joke, the black horse being apparently able to win at any time he pleased, but purposely allowed the mare to win the first heat. Time for the three heats was 2:17, 2:16 and 2:16¼.

The best race of the day was the 2:25 trot—in fact, one of the best of the week. Five starters took the word, as follows A. R. G., by Gumar Hal, dam Claudia Chimes, entered and driven by J. F. McGuire of Denver, Col., and owned by the Gumar Stock Farm. This horse had been racing consistently for some seven or eight weeks and was in better shape than any of his rivals. The other starters were Beauty B., bay mare by Woodlock, son of Zolock, dam not given ,owned by R. H. Ball of Seattle, Wash., and driven by Chas. Guion; Frank D. Nichol, bay stallion by Cresceus 2:02;, dam Silpan by Silver Bow, owned by M. S. Rose of Steveston and driven by F. B. Loomis; Cavalier Gale, a roan horse by Baron Gale, dam Nellie J., now owned by Mill & Cox of Portland, Oregon, and driven by Sim Lindsay. This horse was lame from an accident caused by stepping on a stone while working on the local track and did not make a good showing. The fifth starter was the handsome chestnut mare Worthy Maid by Dale Axworthy owned by A. E. Ward of Denver and driven by Ted Bunch. The race went four heats of the most stubbornly fought variety and the results were: A. R. G. 2-1-1-1; Beauty B. 1-3-3-3; Frank D. Nichol 4-2-2-2; Worthy Maid 3-4-dis.; Cavalier Gale 5-5-dis. Time, 2:20¼, 2:19¼, 2:19¼.

The concluding race of the meeting was a four horse race between Myrtha Pointer, Nellie Wilkes, Nic Nac and Hal Scott, and premier honors went to the big daughter of Star Pointer, though the son of Hal B. won the second heat.

Positions in the summary were as follows: Myrtha Pointer, b m by Star Pointer, dam Myrtha Whips (Bell), 1-2-1; Hal Scott, b h by Hal B. (Burgoyne), 2-1-2: Nic Nac, b g by Alcone, dam by Altamont (Russell), 3-4-3; Nellie Wilkes, roan mare by Jayfoot (Morris), 4-3-4.

Notes of the Meeting.

John B. Stetson drove True Kinney a good race in the 2:15 trot. The horse was not in condition for a hard race but acquitted himself creditably. Mr. Urban was incorrectly reported as his driver; Mr. Urban owns True Kinney.

Frank D. Nichol started in three races and won two firsts and a second during the week, which stamped him as a game race horse, especially considering that it was his first racing of the season. Prince Malone, also making his initial start, went two good races, the last half of his third mile on Tuesday being in 1:02¾ and the third quarter in 29½ seconds. In his race on Friday he stepped as fast as the winner and each heat faster than the official time shown. He looks like 2:07 on a mile track.

Zombrino appears to be a very fast pacer. Joe McGuire, as usual, carried off most of the money. Lady Tango and Belbar give promise that Belmar will be the sire of fast pacers.

$10,000 PROFIT AT GOSHEN.

How a New York Half Mile Track Held the Most Successful Meeting of the Year.

The possibilities of harness racing as an amusement enterprise were strikingly illustrated at Goshen, New York, last month, when a meeting at which $20,000 was distributed in purses in three days is said to have yielded a profit of considerably more than $10,000. The average value of the purses was larger than at some of the Grand Circuit meetings. They attracted a class of horses almost if not quite equal to those racing on the mile tracks, and their fast and spirited contests brought out crowds which overtaxed the extensive seating accommodations on every day of the meeting. The attendance was quite as remarkable in character as in numbers. Men and women of social prominence from New York, Tuxedo and elsewhere filled the private boxes in the grand stand, while others viewed the races from their chairs on the shaded lawn of the fashionable Goshen Inn, which sloped to the lower turn of the historic half mile track. Horse fanciers and breeders of national prominence came from all over the country to attend the meeting, while Goshen shut up shop at noon each day to take in the races. The daily attendance far exceeded the total population of the town in which the meeting took place. And these large crowds were attracted, as were the big fields of fast horses, by the sport alone. There was no agricultural fair in connection with the meeting, nor was there any pool selling, bookmaking or any other form of betting to stimulate attendance.

"How does Goshen get the horses and the crowds?" was the question in everybody's mouth among visiting turfmen, who talked horse eighteen hours a day in the hotels, the barber shops and private houses and the street corners. Many of them could remember when the Orange County Driving Park, not so many years ago, was no different from the ninety and nine other driving parks in the state, where trotting meetings are held each year; when the purses were $500, the horses in keeping with the purses, and the gate receipts for the whole meeting less than they were in one day last week. In those days there were pool selling and bookmaking, sometimes supplemented by the "wheel of fortune," and the management looked to revenue from this source and from the bar and entrance fees to finance the meeting and pay the purses. The gate receipts were of minor consideration. Sometimes the meetings made a little money and occasionally they "broke even," but more frequently there was a deficit to be made up after all the bills were paid.

Then came Rensselar Weston, lifelong friend of the late E. H. Harriman; sometime private secretary to George Bancroft, the historian, and later a Wall street broker, whose partners all got rich while he was off on the Grand Circuit, watching the trotters or driving them on the road in the palmy days of Seventh avenue and Fleetwood Park. Mr. Harriman, who loved trotting horses and could drive one as well as "Billy" Andrews or any professional he ever employed, had obtained control of the Goshen track, and by a process of financial "scrambling" worthy of Wall street's real Napoleon, put it in the hands of Mr. Weston to play with and perhaps revive the horse breeding interest which once had made the county of Orange famous all over the world. This was just after Governor Hughes had shut up every race track in the State. With the revenue from bookmaking and pool selling cut off the old regime at Goshen gave up the ghost, and the historic track associated with American Star, Hambletonian, Dexter, Goldsmith Maid, St. Julian and other equine celebrities of old would have been closed with the rest if Mr. Weston, backed by Mr. Harriman, had not undertaken to keep it open and give a meeting, even at a loss.

When Mr. Weston elected himself secretary, under these adverse conditions, his first move was to interest men like the late J. Howard Ford and John R. Townsend in the sporting enterprise as officers of the association. Then he startled Mr. Ford by proposing to hang up purses of the uniform value of $1,000 instead of $500 for a "betless" meeting. Always a stickler for correct appointments, in and out of the show ring, he started in to improve and beautify the old driving park and everything adjacent to it. Before his first meeting came on he had made it one of the most attractive and best kept half mile tracks in the country. With a wide acquaintance among owners and trainers, and with a talent for letter writing which Mr. Bancroft himself might have envied, this race track manager from Wall street spread the net so successfully that when the entries closed for his first meeting its financial and sporting success was assured before the gates were opened.

But Mr. Weston did not rest contented with getting the horses. As soon as he had them he began a campaign to get the people to come and see them race. He gave publicity to his meeting with intelligence and art through every channel that was open to him. The horse news of Orange county and of Goshen and the historic track was constantly in every local paper and every New York paper that would print it. By the time race week came around everybody who read the newspapers knew all about the meeting and a good deal about the horses and drivers and owners who were to be there. The attendance from the outset attested the value of this work, supplemented as it was by advertising in the New York dailies and the weekly horse papers, and if you ask Mr. Weston today what is the secret of his wonderful success his answer will be "Printer's ink." Right here it is interesting to note that the printers' ink was all in the newspapers. He has never used posters, circulars or any other "cheap" advertising matter.

Though doubtless it is true that publicity in the form of news and advertising is largely responsible for the remarkable attendance at Goshen, no one believes it would be the same without the attractive, convenient and comfortable accommodations and surroundings and the really fine racing by high class horses provided for the spectators. For the owners of trotters Goshen has a track and stables about as perfect as money and care can make them, with the largest purses—they are now $2,000 each—offered anywhere on a half mile ring, and for the drivers there are substantial special prizes when they win in exceptionally fast time or in straight heats, with no fines, suspensions or other punishments for delinquents. It is a matter of record that since Mr. Weston took charge no driver has ever been punished at Goshen and no horse or owner suspended, even for failure to pay entrance fees.—New York Herald.

The Russian government not only purchases standard bred trotters from the United States, but encourages the breeding of trotters in Russia by giving very large sums each year for races, headed by the Emperor's prize. The Austrian government similarly encourages trotting and in Austria no trotter over nine years old is allowed to race, and no gelding, in the principal races, in order to eliminate horses merely used to win races and of no value for improving the breed for army purposes. One of their $10,000 races has the proviso that the winner must stand for sixty government mares at a low fee.

Trainer Railey Macey, whose engagement with the Savage forces was terminated by the dispersal which the executors of the estate of M. W. Savage have decreed, will open a public stable at Lexington, Ky.

Thoroughbred Matters

THOROUGHBRED RACING will be revived at the California State Fair at Sacramento after a lapse of five years, and about 100 horses are now quartered at Agricultural Park to take part in the sport. Among the stables that have horses in training for the State Fair events are those of George W. Wingfield, Chas. W. Clark, John Lowe, Walhausen Bros., George Van Gorden, F. Rinehart, J. H. Rosseter, George Billerman, T. Hatfield, G. W. Crippen, J. M. Henry and others. The sum of $5000 will be hung up for running events during the seven days of racing which will begin today.

◈ ◈ ◈

The Golden Gate Thoroughbred Breeders' Association has donated the sum of $500 to the State Agricultural Society as a purse to be run for by thoroughbreds on Thursday of next week. The race will probably be a handicap and the Golden Gate Thoroughbred Breeders' Association has taken the liberty of suggesting that the race be for a distance not less than one mile.

◈ ◈ ◈

The Reno Fair and Racing Association has announced a race meeting to be held at Reno beginning September 19th, and closing October 17th, twenty five days of racing. Nine stake races are announced, the entries to which close September 9th, the last day of the California State Fair. The pari-mutual system of betting prevails in Nevada and the racing is supervised by a State racing commission.

◈ ◈ ◈

Twenty-one yearlings from Mr. A. B. Spreckels' Napa Stock Farm, the get of Dr. Leggo, Soltaire II and Voorhees, will be sold at public auction at Belmont Park race course, New York, on Tuesday next, September 5th. This consignment of youngsters is said to be as fine a lot of yearlings as ever left the Napa Stock Farm, which has bred many good winners.

◈ ◈ ◈

Seventeen yearlings, recently purchased by Mr. A. K. Macomber from J. B. Joel, the English breeder, reached New York August 23d, on the Atlantic liner Minnehaha, and are said to be a good-looking lot of youngsters. They are as follows:

Br c, by Sunstar—All Green, by Green Lawn.
Br c, by Sunstar—Bright Cherry, by Ayrshire.
Br c, by Sunstar—Marian Hood, by Martagon.
B c, by Sir Geoffrey—Helium, by Sundridge.
Ch f, by Sunflower II—Schoolbook, by Wisdom.
Ch c, by Sunstar—Sweet Finch, by Goldfinch.
B c, by Sir Geoffrey—Sunshine Girl, by Sundridge.
B f, by Sunstar—St. Olive by St. Simon.
B f, by Sunstar—Sweet Lassie, by Orme.
B c, by Polymelus—Dreamy, by Persimmon.
B c, by Sunstar—Cannie Lassie, by Ayrshire.
B f, by Sunstar—Waterweed, by Watercress.
B f, by Sunflower II—Our Girl, by Worcester.
B f, by Sunstar—Eugenia, by Royal Hampton.
B c, by Sunflower II—Sun Glass, by Isinglass.
B c, by Sunflower II—Lady Portland, by Bill of Portland.
Br c, by Sunstar—Verne, by Bill of Portland.

"Hotspur," the English turf writer, is enthusiastic in praise of these yearlings. He says:

"Having had an opportunity of seeing them, I may note, without qualification of any sort, that an extraordinarily fine lot are leaving us, and that the entry into America of these horses, and the strains of blood they represent, must immensely benefit the breeders generally of that country. Naturally some seem to be better than others. Those which particularly impressed me were the Sunstar—All Green, the Sunflower II—Schoolbook, the Sunder—Sweet Finch, the Sunstar—St. Olive, the Sunstar—Cannie Lassie and the Sunstar—Verne.

"The All Green colt is a half-brother to Grassland, who was a nice winning two-year-old last season and then went to South Africa. The Schoolbook filly is very racy-like indeed, with not quite the big proportions of the general run of Sunflower's progeny. A strong, powerful colt is the chestnut by Sunder—Sweet Finch. There are great possibilities before him and he will specially interest Mr. Macomber, for the reason that he is a half-brother to Star Hawk. I have seen both as yearlings and I prefer this one by Sunder."

◈ ◈ ◈

At a meeting held at Saratoga August 14th, the Horsemen's Association discussed the selling race rule and plans for its betterment. At the conclusion of this meeting the Board of Directors and committeemen met and determined to recommend that the Jockey Club and the Kentucky State Racing Commission and all other turf-governing bodies in this country give a thorough trial to the Canadian rule, which permits the winner to be claimed (not bid up in front of the stand) for its entered selling price plus an amount equal to the winner's portion of the purse by any person. President Headley appointed Messrs. William Garth, R. F. Carman and Emil Herz to present this recommendation to the Jockey Club and New York and Maryland tracks, and Messrs. Headley, Hancock and McDowell will make recommendations to the Kentucky State Racing Commission. The association was put on record as being "opposed to confliction of racing dates in any city of any state, territory or province on this continent."

◈ ◈ ◈

Mr. J. B. Joel, of England, from whom Walter Jennings purchased Star Hawk and many other thoroughbreds for Mr. A. K. Macomber, recently sold to Mr. Macomber 17 yearlings, all that were on his farm except four fillies that he desired to retain for breeding. In 1914 the horses bred and owned by Mr. Joel won 24 races and more than $150,000 in England, and in 1915 they won 26 races but a total of only $50,000. Mr. Joel headed the list of winning owners in 1908, 1913 and 1914, and classic races won by him are the Two Thousand Guineas with Sunstar; the One Thousand Guineas with Jest and Princess Dorrie; the Derby with Sunstar; Oaks with Our Lassie, Glass Doll, Jest, and Princess Dorrie; and the St. Leger with Your Majesty and Black Jester.

◈ ◈ ◈

Polymelus is at the head of winning sires in England for 1916, with Radium, a son of Bend Or, second, Chaucer by St. Simon third, William the Third by St. Simon fourth, Fugleman by Persimmon fifth, Orb by Orme sixth, Bachelor's Double by Tredennis seventh, and Sunstar by Sundridge eighth.

◈ ◈ ◈

When Mr. Sanford's colt Nassovian failed to win the New Derby several English critics attributed his defeat to the fact that his regular jockey, Spear, did not ride him. Now that Nassovian has won the Princess of Wales Stakes, with Spear up, they are saying "I told you so." Some of them are saying he is the best three-year-old in England. With his rich breeding he should be a great sire one of these days. William the Third, his sire, is one of the great sons of St. Simon, while his dam, Veneration II, produced Craganour, the colt that finished first in the memorable Derby of 1913, and was sold for $150,000 to Martinez de Hoz, of Buenos Aires.

◈ ◈ ◈

Harry Payne Whitney's Borrow showed his quality in the George Hendrie Memorial Handicap (one mile) at Windsor August 23d, when he picked up top weight and beat his field in handy fashion in 1:40 1-5. Borrow, ridden by Rice, overcame interference at the first turn and won easily from the imported mare Arriet. The race carried with it an added value of $2,000 besides the handsome silver trophy. Trainer Albert Simmons accepted the replica of the cup on behalf of Mr. Whitney and will carry it back to Belmont Park with him.

◈ ◈ ◈

Dublin correspondents report that Richard Croker, formerly leader of Tammany Hall, is retiring from the turf temporarily and is going to the United States on account of the condition of his eyes, which require expert attention. Croker is selling all his horses in training, but is retaining his sires and broodmares.

◈ ◈ ◈

Roy Johns, an American who has lived for a considerable time in Porto Rico, has been visiting the Long Island tracks with the view of picking up half a dozen or more moderate priced thoroughbreds to ship to that tropical island to take part in the racing, which of late has grown extremely popular. He says he is acting in the interest of the Porto Rico Jockey Club, a racing organization which owns an excellent half mile track where races are held every Sunday and every holiday throughout the year. Judging from what Mr. Johns tells of his own experience, it would appear that it does not take a very high class horse to win in Porto Rico. "I bought a horse in New Orleans," he said, "and after he had landed in Porto Rico he won no less than seven straight races, which was good enough when you remember that he cost me only $125 in the first place."

◈ ◈ ◈

That Star Shoot is a realy marvelous stallion is shown year after year by his position in the list of winning sires. Imported in 1901 when he was a three-year-old, the son of Isinglass and Astrology (dam of Telescope) has since then on several occasions figured at the head of the list of winning stallions, and in other years has generally been among the leaders. A most prolific sire, he has already this year been credited with no fewer than 81 winning performers, with a total of over $80,000 to their credit.

◈ ◈ ◈

Racing Secretary William H. Shelley has issued the program book for the entire ten days of the Kentucky Association's autumn meeting of ten days, which will open Wednesday, September 6, and close Saturday, September 16. The book calls for seventy races with a total distribution of $40,000, an average of $4,000 per day from the association, while twenty-two of the races will require an entrance fee of $10 from each horse named, all of which goes to the winner and increases the aggregate of the distribution.

◈ ◈ ◈

John O'Rourke, formerly of this city but now of Honolulu, has purchased and shipped to the islands about a dozen thoroughbreds, among them Mary Jay, Lahonta Water, Fair Mary, Furlong, and Florence Roberts.

◈ ◈ ◈

Following the success of Dodge, Franklin, Berlin and Sedan there will undoubtedly be a great demand for the services of Jim Gaffney, who is at present standing at O. A. Bianchi's stud, Lexington, Ky.

James Butler's three-year-old Spur by King James—Auntie Mum, carrying 130 pounds and ridden by Loftus, won the $2000 Huron Handicap at Saratoga August 22d from J. S. Ward's Franklin (109) and A. Belmont's Tea Caddy (107). There were only three starters. It was Spur's fourteenth start and seventh victory this year. Furthermore he has been outside the money but once. He began the season with an impost of 99 pounds, and in this race carried the heaviest weight any three-year-old has been asked to carry this year. The Huron Handicap is for three-year-olds at a mile and three-sixteenths. The winner was the public choice. Tea Caddy got away with a rush and immediately went into the lead. He held the position for a full mile of the course. At one time during the race the Belmont entry had seven lengths on the other two, but the Rock Sand youngster could not stand the stiff pace and gradually the winner drew up on him and finally caught him at the head of the stretch. Once in front Spur never faltered for a second and came on to win quite easily, despite his 130 pounds, which was twenty-one pounds above his nearest rival Franklin, who also beat Tea Caddy to the finish. The time of the race, 1:58 3-5, was within 3-5 of a second of the track record.

◈ ◈ ◈

"It may sound a bit stereotyped for me to say that the prospects are excellent for ten days of the greatest racing ever seen here," said Superintendent James P. Ross of the Kentucky Association recently, "but it is a fact. Not so very long ago any horseman would have given us the laugh had we said the day would come when Lexington could offer ten days of racing in the fall with no purse less than $500 and a daily addition of $4,000 to the purses, but that's exactly what the Kentucky Association is doing and the horses are going to flock here to run for it." That's what a high class racing commission and mutual pools have done for Kentucky. It will be noticed that the meeting is for only ten days, which is long enough for any locality.

◈ ◈ ◈

All of the horses owned by A. K. Macomber, embracing the racing string of this turfman which is in charge of Trainer Walter Jennings, was shipped to the Louisville, Ky., track at the close of the Saratoga meeting, and what racing the big string does this fall will be on the tracks at Douglas Park, Churchill Downs and Latonia. The Macomber horses will winter in Kentucky this year and Trainer Jennings has engaged two big stables at the Downs track in which to quarter this big aggregation, not only during the Kentucky fall meeting, but throughout the coming winter. The California turfman has made liberal entries in all the Kentucky stakes this autumn.

◈ ◈ ◈

The Lexington fall meeting of ten days' racing, which begins on Wednesday, Sept. 6th, and concludes on Saturday, Sept. 16th, will undoubtedly rank as the greatest fall season of sport ever held at Lexington. It will be a most worthy follower of the very successful spring meeting. The officials of the coming fall meeting will be: J. N. Camden, president; O. H. Chenault, vice-president; G. D. Wilson, secretary and treasurer; T. J. Clay and G. D. Wilson, stewards; W. H. Shelley, racing secretary; H. Morrissey, starter; S. K. Hughes, timer; J. S. Wallace, entry clerk and assistant secretary; W. H. Laudeman, supervisor pari-mutuels; James P. Ross, track superintendent; Dr. C. Pann, paddock judge, and J. T. Ireland, Patrol Judge.

◈ ◈ ◈

Twenty racers, the property of the Brighton Stable, were sold in the paddock at Saratoga before the races August 24th by the Powers Hunter Company for $43,000, an excellent average of $2,150 a head. In addition to these racers, eighteen thoroughbreds, the property of several horsemen, were sold. The entire sale totaled $55,825, and this was an average of $1,469. The good juvenile, Tom McTaggart, easily the star of the vendue, was finally purchased by Willis Sharpe Kilmer for $12,500 after some spirited bidding. The second highest price was paid for Woodward, who went to G. C. Winfrey for $3,600. Sprint was purchased by A. B. Hancock for $3,500 and it is presumed this filly was desired chiefly for breeding purposes. Distant Shore brought the best price of the Harry La Montagne racers, when he was knocked down to R. Wallach for $4,000.

◈ ◈ ◈

John Sanford, owner of the Kentucky Derby winner George Smith, won half the races on the card at Saratoga on Monday of last week, but it was a rather costly day for him. Leochares was his winner of the first race, but Bac and St. Isodore won selling races and Sanford lost $4200 in protecting them at the sale. Bac was boosted from $1,500 to $3,500 by Harry Fink, but this plater was bought in. Then when St. Isidore won the fifth Fink carried him from $800 to $3,000, but was unable to buy. These two run-ups were the largest registered in any one day on the New York tracks this season.

◈ ◈ ◈

The Futurity, the richest stake of the year and having a gross value of about $25,000, will be run today at Belmont Park, New York. The entries include nearly all the best two-year-olds in training in the United States. The race is to be over the three-quarter straight course. Last year it was won by Harry Payne Whitney's Thunderer. There were sixteen starters, and the value was $16,590.

Harness Horses and Horsemen

Occident Stake to be Trotted Today.

The opening race of the California State Fair this year will be the Occident Stake for three-year-old trotters which has a value of about $2300. The conditions of this stake this year are that the money is divided into three parts, one for each heat and every heat a race. The money in each heat will be divided into four prizes, 50, 25, 15 and 10 per cent respectively for first, second, third and fourth horses. The Occident cup and the $400 added money will be awarded to the horse standing best in the summary at the end of three heats. There are six three-year-olds on which the final payments were made August 1st, and which will probably start in the race. They are:

Alesandro, b g by Barney Barnato—Ramona by Prince Robert. I. L. Borden.
Natalday, b c by Wilbur Lou—Ella J. T. by Bob Mason. S. Christenson.
Hermes, br c by Carlokin—Miss Quealey by Moko. W. G. Durfee.
Manuelito, ch c by Manrico—My Irene S. by Petigru. C. J. Berry.
Miss Axworthy Dillon, b f by Axworthy—Cleo Dillon by Sidney Dillon. T. E. Pollock.
Lulu B., b f by The Bondsman—Loma B. by Stam B. M. L. Woy.

Four of the above six started in the Pacific Breeders' Futurity at Santa Rosa, August 11th this year. The first and second heats were won by Lulu B. in 2:13¼ and 2:13½, with Miss Axworthy Dillon second both times, Natalday third in the first heat and outside the flag (having thrown a curb) in the second heat. Hermes was sixth in the first heat and fourth in the second heat. The third and last heat went to Miss Axworthy Dillon in 2:15, with Lulu B. second and Hermes third. As Alesandro and Manuelito have not started this year their present form is an unknown quantity so far as racing is concerned. On the form shown by the colts at Santa Rosa the race will be between Lulu B. and Miss Axworthy Dillon with the former a slight favorite. The Occident Stake was inaugurated by the late Senator Stanford and has been a feature of the California State Fair for over thirty years. It was named for his horse Occident that trotted to a world's record of 2:16¾, September 17th, 1873, at the old State Fair Grounds at Sacramento. Occident was a gelding and at the time he made this record was ten years old.

The Reno Race Meeting.

The fall meeting of the Reno Fair and Racing Association will open September 19th, and continue 25 days. There will be ten stakes of $500 each during the meeting as follows:

Sept. 19—Opening Selling Stake, six furlongs.
Sept. 23—Speed handicap for all ages, five furlongs.
Sept. 26—Fall Juvenile handicap for two-year-olds, five furlongs.
Sept. 30—Nevada handicap for three-year-olds and upwards, one mile.
Oct. 3—Tahoe handicap for three-year-olds, seven furlongs.
Oct. 7—Goldfield handicap for two-year-olds and upwards, six furlongs.
Oct. 10—Tonopah selling stakes for three-year-olds and upwards, one mile.
Oct. 14—Winnemucca handicap for three-year-olds and upwards, mile and one-eighth.
Oct. 17—Farewell handicap for three-year-olds and upward, one mile.

Murphy Now Leads the Money Winning Drivers.

Up to the close of the Grand Circuit meeting at North Randall last week Walter Cox was in the lead of all other drivers with $28,860 to his credit, but as he was less than $600 ahead of Tommy Murphy the latter has passed him since the Poughkeepsie meeting opened, and is now pretty well in the lead. During the first two days at Poughkeepsie this week, Cox had driven two winners of first money and one of second money, while Murphy had six winners of first money, one of second and one third to his credit, which places him pretty well in the lead and well over the $30,000 mark. At the close of the North Randall meeting McDonald was third with $16,255 won, Charles Valentine fourth with $15,802, Ed F. Geers fifth with $11,700, and W. G. Durfee sixth with $9,900. Ben White, Dick McMahon, Fred Edman and W. L. Snow were next in the order named.

Alameda County Fair Will Open Sept. 13.

The Alameda County Fair will open at Pleasanton Wednesday, September 13th and continue five days, closing on Sunday, the 17th. On Friday, the 15th, the R. J. MacKenzie stakes, $3000 for three-year-old trotters, and $2000 for three-year-old pacers, will be decided. On Saturday there will be races for which entries will be received the day previous, for cash purses with no entry fee, the purses to be divided 50, 25, 15 and 10 per cent. Prizes will also be given for saddle and high school horses, horse pulling contests, aeroplane flights, rodeo, broncho busting, trick riding and roping, etc. Liberal premiums will be offered for displays of agricultural, horticultural and viticultural products, all breeds of live stock, etc. Among the entries already made in the live stock department are Easton & Ward of Burlingame with the Shire horses from Blackhawk Stock Ranch, Mrs. Anderson of Oakland, saddle horses, Miss Ethel Davie, saddle horses, and many others. The Standard Oil Company, Spring Valley Water Company, Pacific Gas & Electric Company, Spreckels Sugar Company and Sperry Flour Company will also make exhibits.

Admission Day Races at San Lorenzo.

A picnic, barbecue, horse and cattle show, and racing will furnish a good day's sport Sept. 9, at the San Lorenzo half mile track which has been recently put in shape. This track is on the road between San Leandro and Hayward and is a most excellent half mile that could be made as fast as any half mile track in the country. It is proposed by the new management to have the harness races begin at 10 a. m. on Saturday next, with a picnic and barbecue at noon, a farmers' race at 1 o'clock, cowboy races at 2 and special exhibitions at 3. All kinds of refreshments will be served on the grounds, but there will be no bar and no spirituous liquors sold or permitted. Prizes are to be given for every event, and there will be no charge for admittance to the track or grand stand and free entrance to all the races. Entries will close on Friday, the 8th.

Will Not Race on Mile Tracks.

Announcement has been made by Fred Jamison, Arden, Pa., trainer, in the presence of Dr. Beuchner, Youngstown surgeon and owner of Wilkes Brewer 2:08¾, that the fleet trotting mare will not be started on the mile tracks this season.

Wilkes Brewer will start at Youngstown to beat Sweet Marie's mark of 2:07 over a half mile ring. After that performance the mare probably will complete her engagements on the half mile tracks, and be retired for the season.

Dr. Beuchner has had several chances to sell the mare, but he prefers to keep her. He would not part with her for less than $25,000, and there is some question whether he would sell her for even that sum. She is a real trotter.

My Major Dare Wins Twice.

Longview Farm, Lee Summit, Missouri, has again started on a winning tour with My Major Dare, the saddle stallion that won the championship at the P.-P. I. E. last year. At Columbia, Missouri, he won the $1000 saddle stake, defeating a field of famous saddle horses. Many who have seen this stallion shown previously say this was his best performance. He was ridden by John Hook. The horses and their exhibitors are named in order as follows: My Major Dare, owned by Longview Farm, John T. Hook up, first; Maurine Fisher, owned by Longview Farm, Lonnie Hayden up, second; Ruth St. Dennis, owned by Lee H. Ingraham, D. E. Holeman up, third; Sally Ox, owned by Blades & Holeman, Lon Blades up, fourth; Sutton's Star, owned and exhibited by Tom Bass, fifth; Cason McDonald, owned by M. Cason, E. D. Moore up, sixth.

A week later at the Mexico, Missouri, fair he won the grand championship and at the Bowling Green fair his colts took first and second prizes in the saddle horse futurity.

From Ethan Allen 2:28 to Lee Axworthy 2:00¼.

The first stallion to trot below 2:30 was Ethan Allen, who set the record at 2:28, driven by Dan Mace, October 28th, 1858, at the old Union course, New York. Geo. M. Patchen reduced this record four times, finally putting it at 2:23½ in 1860. Fearnaught knocked a quarter off this record eight years later, but the same year (1868) Geo. Wilkes trotted to a record of 2:22, which held until August 7th, 1872, when Budd Doble drove Jay Gould a mile in 2:21½. Two years later, August 5th, 1874, Charles Marvin reduced the record to 2:20¾ with Smuggler and two weeks later Mambrino Gift trotted a mile in 2:20 and held the record for a month, when Smuggler trotted a mile in the same time and the two divided championship honors for two years, when Smuggler trotted a mile in 2:17½ at Philadelphia in July and finally, on August 31st, 1876 at Hartford, set the stallion record at 2:15¼. It remained there for eight years, when Phallas, son of Dictator, reduced it to 2:13¾ in July, 1884, and in September the same year Maxie Cobb by Happy Medium lowered the mark a half second.

In 1889 came a great surprise. Axtell, a three-year-old son of William L., trotted a mile in 2:12 at Terra Haute, the first and only time that a three-year-old has held the stallion trotting record. Nelson by Young Rolfe put the record at 2:11½, in September, 1890, and reduced that mark twice before the year ended, taking a mark of 2:10¾ in October of that year. The next year Allerton, bred and owned by C. W. Williams, the same man that bred the champion Axtell, set the stallion record at 2:10, which was equaled two weeks later by Nelson and the two divided championship honors until a week later when Allerton trotted in 2:09¼. This was in September and in November the stallion record came to a California bred horse when Senator Stanford's stallion Palo Alto, by Electioneer out of a thoroughbred mare, trotted in 2:08¾ at the Stockton track, driven by Chas. Marvin, the same man that had driven Smuggler to a world's record seventeen years before. Palo Alto only held the record for a year as Kremlin, son of Lord Russell, put the mark at 2:08¼ November 5th, 1892, and a week later reduced it to 2:07¾. In 1893 came the great California bred four year-old Directum by Director, managed by Monroe Salisbury and driven by John Kelly, with a reduction of the stallion record to 2:07 September 4th again to 2:06½ September 15th, and again to 2:05¼ October 18th, where it remained for seven years when Cresceus, by Robert McGregor, began reducing the record by trotting in 2:04¾ September 5th, 1900 and to 2:04 October 6th, which was the record at the close of that year. The following year Cresceus trotted in 2:02¾ in July and 2:02¼ in August and was the champion for nine years, when The Harvester August 17th, 1910, driven by Ed Geers, trotted a mile in 2:02 at the Fort Erie track in Canada and took the champion mile out of the United States for a month, but came back to his home country and on September 15th at Syracuse, New York, set the record at 2:01¼ and a week later at Columbus, Ohio, put the mark at 2:01 where it stayed for six years, until Lee Axworthy on August 22d, 1916, at North Randall track near Cleveland, Ohio, reduced the record three-quarters of a second by a mile in 2:00¼, which performance he tied three days later at the same track. Lee Axworthy is by Guy Axworthy and is expected to trot a mile in 2:00 or better before the year is ended.

Free-For-All Pace Thursday.

The free-for-all pace next Thursday at Sacramento is already the topic of much stable conversation. It is expected to be a battle between Jim Logan and Rastus, but if Teddy Bear and Vera Hal are in good form that day, Jim and Rastus will have to keep busy to reach the wire ahead of them. On present form this field of pacers is so evenly matched that the best one among them has to attend strictly to business from start to finish to be able to win any heat they start in. Jim Logan seemed to easily win the second and third heats of his race on the closing day at Dixon week before last, but he made a little break the first heat and Teddy Bear and Vera Hal both beat him to the wire in 2:09½, pretty good time for a half mile track. Rastus was not entered at Dixon and there will be a big crowd at Sacramento Thursday to see if he can repeat his Santa Rosa performance. There should be three heats below 2:06 if the track is good that day.

Death of J. B. Horan.

California horsemen will regret to hear of the death of Mr. J. B. Horan, for so many years the proprietor of this city's leading horse market at Tenth and Bryant streets. Mr. Horan was on a hunting trip to Mendocino county in company with a party of friends and had climbed to a spot where he expected the deer to pass. When the other members of the party returned to camp that night Mr. Horan did not appear and the following morning a search was made for him. His body was found very near the spot where he had posted himself, and was in a reclining position, with one hand on his heart and his rifle resting across his knees. He had probably become faint from over-exertion in climbing the hill and sat down to rest when death came suddenly. Mr. Horan was a native of Contra Costa county in this State and no man in the business of dealing in horses was more highly thought of by his patrons. His death will be sincerely regretted by all who knew him.

She Is Certainly The Real Lady.

Her winning heats in 2:09½ and 2:09¾ in the American Horse Breeders' Futurity at Cleveland brought The Real Lady into prominence as the best two-year-old trotter uncovered this season. Her engagements aggregate something like $25,000 in value, and unless something unforeseen happens she is likely to win more than her share of them, for she trotted a quarter in 0:30¼ and a half in 1:02½ in the first race of her career, and she seems able to go far as well as fast, while her manners are those of an old campaigner. Her trainer, Thomas W. Murphy, expressed the opinion, and offered to back it, at Cleveland that she could then beat anything a two-year-old filly has done, which means that he is confident she can trot in 2:07½ or faster. A. H. Cosden, of Southold, L. I., who owns the great filly, has through her performances become converted to the practice of racing two-year-olds. He says that so long as she can win without hard, gruelling drives he believes racing will do her no harm. "It is when a two-year-old has to go to his very limit in race after race that harm is likely to be done," he said the other day. "Volga, for example, won all her races well within herself last season and she is now as fresh and fit as if she had never been trained as a two-year-old. But some of the colts that were driven out on their tiptoes in trying to beat her are the worse for wear this year."

The Real Lady is bred to be a champion. Her sire, Moko, has to his credit more futurity winners than any other horse on record. Her dam, Fruity Worthy, was by Axworthy 2:15½, sire of Lee Axworthy 2:00¼, and Hamburg Belle 2:01¼, and her grandam, Fruition, was from Expectation, the dam of Major del Mar 2:01¼.

Two full weeks will elapse between the California State Fair and the great Fresno County Fair. When will California fair directors get together and form a real circuit of fairs like they do in other states? Live stock breeders and other exhibitors would hail such a condition of things with delight.

Notes and News

State Fair opens today.

◈ ◈ ◈

Two harness and three running events will be given each day.

◈ ◈ ◈

The greatest live stock show ever held in California will be seen.

◈ ◈ ◈

The Alameda County Fair opens at Pleasanton on Wednesday, September 13th, and will continue five days.

◈ ◈ ◈

The season's pacing record on a half mile track is 2:04¾, made by Billy M. at LaHarpe, Ill.

◈ ◈ ◈

Write to Secretary Daken, Pleasanton, for a premium list of the Alameda county fair. The fair opens September 13th and continues five days.

◈ ◈ ◈

The three fastest miles made by stallions in actual races are the 2:02 of The Harvester, 2:02 by Peter Volo and 2:03¼ by San Francisco.

◈ ◈ ◈

The fastest three consecutive heats by a trotting mare on a half mile track went to the credit of Wilkes Brewer when she won at Goshen in 2:10, 2:10½ and 2:09¾.

◈ ◈ ◈

Hal B. Jr. scored his seventh consecutive victory by winning the free-for-all pace at the Flemington, N. J., fair on Thursday of last week, and he won that race in straight heats. He is owned in Canada.

◈ ◈ ◈

A new high-wheel sulky record was made at Goshen, N. Y., August 17th, by Al Mack, who trotted the mile in 2:14. The previous record over a two-lap course was 2:15, made over the same track last year by Harry J. S.

◈ ◈ ◈

Lotto Watts, by Gen. Watts 2:06¾, established her right to be numbered among the season's good three-year-old trotters when she won the class for her age at Goshen half mile track in 2:14¾ and 2:14¼.

◈ ◈ ◈

Graham Bellini won a heat in 2:16¼ and got second money in the 2:19 trot at Burlington, Iowa, half mile ring August 17th, and Rapallo got fourth money in the same race.

◈ ◈ ◈

Colleen by Charley D. 2:06¼ out of Cricket 2:10 by Steinway won a race in straight heats over the Burlington, Iowa, half mile track week before last, the heats in 2:09¼, 2:09¼ and 2:11.

◈ ◈ ◈

Rapallo, son of Greco B. and Oniska, dam of San Francisco 2:07¾, won the 2:18 trot at Burlington, Iowa, August 18th. It was a four heat race and Rapallo's best heat was in 2:17¼. Half mile track.

◈ ◈ ◈

Helen Chimes, a chestnut mare by Magnet that has been racing over the half mile tracks in the Middle West this summer, won her eleventh straight race at Burlington, Iowa, August 18th.

◈ ◈ ◈

Hugh and Perry Smith, of Yamhill, Ore., recently sold twenty-two head of yearling Cotswold rams to Frank Brown, of Carlton, Ore. The price paid was $19 per head for the bunch.

◈ ◈ ◈

That good trotter Al Mack, by McLintock, set a new world's record for a three-heat race over a half mile track when he won the 2:12 trot at Goshen last week in 2:08¾, 2:09½ and 2:10½.

◈ ◈ ◈

The State Fair track is said to be faster this year than it has ever been before and if it remains in condition during next week the horses should show faster than they did at Santa Rosa.

◈ ◈ ◈

Peter Scott was driven a mile at North Randall last week against his record of 2:05¼. He was driven by Murphy and lowered his record one-quarter of a second. The time by quarters was :31, 1:02, 1:34, 2:05.

◈ ◈ ◈

It was White Sox 2:05¼ that made Roan Hal pace in 2:02¼ to beat her at Columbus, Ohio. They went to the half in 1:01 and paced the last quarter in 30½ seconds, Durfee having White Sox's nose right at Roan Hal's shoulder as they came under the wire.

◈ ◈ ◈

Louise de Lopez by Kinney de Lopez, owned by the Hemet Stock Farm, won the Bingen Silk stake for two-year-old trotters, worth $250 to the winner, at Omaha last week, and broke the Nebraska record for a two-year-old trotter on a half mile track by a heat in 2:23¼.

◈ ◈ ◈

Geers won the $5000 stake for 2:08 class trotters at Poughkeepsie last Thursday with St. Frisco, the three heats in 2:05½, 2:07 and 2:05. Mabel Trask did not start in this race. Ima Jay was second and Director Todd third. Virginia Barnette was outside the money.

Ed Geers has a record that will hold for a while. He bred and drove to his record Napoleon Direct 1:59¾, his sire Walter Direct 2:05¾, and his grandsire Direct Hal 2:04¼.

◈ ◈ ◈

The Real Lady, with a record of 2:08¼ made at Poughkeepsie last Tuesday, is the fastest three-year-old trotter of the year.

◈ ◈ ◈

Peter Stevens 2:02¼ paced his mile in 2:00 flat when he was second to Napoleon Direct in 1:59¾. He is by Peter the Great and is expected to be that sire's first two-minute performer.

◈ ◈ ◈

Moko is making a wonderful showing this year with the two-year-old trotters. Not only is he the sire of The Real Lady 2:09¾, but he is the grandsire of Mary Coburn (2) 2:10¼ and the sire of the dam of Emma Magowan (2) 2:11¼, while Harvest Gale gets a dash of his blood through The Harvester, whose dam was a daughter of Moko.

◈ ◈ ◈

Deputy Sheriff 2:16¼ and the California bred mare Colleen by Charley D. 2:06¼ out of Cricket 2:10 by Steinway equaled a world's record at Des Moines, Iowa, last Monday, when they won a double team pacing race for a five hundred dollar purse. Their fastest heat was 2:07¼, which equals the record for a team in a race on a half mile track, made by Doctor M. and Billy M. in 1914 at Springfield, Ill.

◈ ◈ ◈

Just phone to David West, Park 1253, if you haven't time to write for a set of hopples, a pair of boots, a pair of toe weights, or anything else used in racing your horses. If you have time to call at his salesroom, 1018 Fillmore street near Golden Gate avenue, San Francisco, you will find there one of the most complete stocks of horse goods, as well as trunks, valises, and all leather goods at prices that are right.

◈ ◈ ◈

Fred Ward will continue racing on the Kansas-Nebraska circuits and will probably not go to the northwest at all. He has sent Mart Lowe to Idaho with Allie Lou, Oro Lou and Dr. Wayo and Lowe will race them through Idaho, Montana, Washington and Oregon. All three horses were in good shape when they left Nebraska and should get their share of the money up north.

◈ ◈ ◈

On the last day of the Solano county fair at Dixon, Harry McFadyen, president of the fair association, lost his large barn and some smaller buildings on his ranch, about two and one-half miles from town. The fire was a large one and many men hurried in automobiles to the scene, but on account of the lack of water were unable to save the buildings. The loss is probably $2000.

◈ ◈ ◈

The growing prominence of the family of Axworthy 2:15½ was in evidence at Goshen, where five of the eleven starters in the race for two-year-old trotters were by him or his sons, Guy Axworthy, Morgan Axworthy, Dillon Axworthy and General Watts. Descendants of Bingen 2:06¼ were equally prominent in this race, and four of them, including the winner, were by J. Malcolm Forbes 2:08, son of Bingen and Santos, the dam of Peter the Great 2:07¼.

◈ ◈ ◈

"Shoeing and Balancing the Light Harness Horse" is the title of a little book by James Clark that has recently been issued by the Horse World Company of Buffalo, New York. It is a small book, pocket size, but contains a vast amount of information by a very practical mechanic. Joe Markey says he spent an evening reading this book and learned from it more than he ever did from similar works that contained ten times its type matter. The book is priced at $1.

◈ ◈ ◈

Just to show the young folks of today what an old time race looked like and to bring back the scenes of former days more vividly to the old guard, the Goshen, New York, meeting put on a mile dash for trotters to high wheel sulkies. There were three starters, and Al Mack won in 2:14, which is the world's record for a trotter to high wheels on a half mile track. The same stallion won a heat in 2:08¾ hitched to a bike during the week, which is the fastest heat ever trotted by a stallion in a race on a two-lap ring.

The two-year-old colt Will Bing by Binjolla set up a new world's record at Springfield, Ohio, on Thursday, August 17th, by trotting a heat in a race over that half mile track in 2:12¾ and the day previous Emma Magowan by J. Malcolm Forbes trotted the Goshen, New York, half mile track a heat in 2:13½ in a race. The former record for a two-year-old stallion was held by Suldine that trotted in 2:13½ on a half mile track in 1915, and the former record for a two-year-old filly on a two-lap ring was held by Nowaday Girl that took a record of 2:16½ in 1912.

◈ ◈ ◈

Basing their predictions on the way in which summer trade has been keeping up this year, dealers in New York are expressing the opinion that more work horses will be sold in New York next fall than in any other autumn season in ten years. Old timers like Henry Benson and David Dahlman, of the Fiss, Doerr & Carroll Horse Company, say the semi-weekly auctions on Mondays and Thursdays are as full of business in August as they have been in some years in June, with every prospect of a big increase next month.—[New York Herald.

Hal Boy won a good race at Poughkeepsie last Tuesday. Three straight heats in 2:05½, 2:03 and 2:03.

◈ ◈ ◈

Directum I has made two attempts to beat 2:02 to wagon within the last two weeks and failed both times.

◈ ◈ ◈

Walter G. Baker, who ships Kentucky saddle horses to the New York market, sold a pony for $2,500 to Louis Leo Haggin during the recent Bluegrass Fair at Lexington.

◈ ◈ ◈

Three different times, according to the Horse Review, has Tommy Murphy been around a mile ring in two minutes this year. He drove Directum I in 1:59¾ at Pittsburg, Peter Stevens in 2:00 when that horse was second to Napoleon Direct at Columbus, and Russell Boy in 2:00 in his race at Detroit. In the Detroit race Single G. won the heat in 2:00¼, but Russell Boy was timed in 2:00 from wire to wire, but was beaten at that.

◈ ◈ ◈

On Thursday morning, August 24th, at the North Randall track Curt Gosnell, driver of the pacer Single G., while jogging the pacer Hazel Armstrong, was thrown out when the mare stumbled and fell, and was picked up unconscious and taken to a hospital, where it was found that his left arm, collar and chest bones were broken, and there were two scalp wounds. Little hope is entertained for his recovery as Mr. Gosnell had not been in robust health for some time.

◈ ◈ ◈

Suldine (1) 2:21¾, the greatest yearling trotter of his year, (2) 2:12, with the world's record over a half mile track of 2:13¼ for two-year-old trotters, trotted a mile recently to wagon with his owner driving in 2:10¾. This, if an official record, would probably be the world's record for a three-year-old to wagon. He is a son of the six-year-old stallion Worthy McKinney, and his dam is the great broodmare Carrietta 2:18, dam of this season's new 2:10 trotter Silent Brigade 2:09½, yearling record 2:26¼, two-year-old record 2:10¾, and other fast trotters. Suldine was sold by Mr. C. A. Harrison of Seattle at the Indianapolis sale last winter for $2000.

MATINEE AT OAKLAND.

The Oakland Stadium and Driving Club held another matinee Sunday, August 27th, but unfortunately two races on the card had to be called off on account of scratches.

Senator H. and Charley D. not showing up in the free-for-all pace, Little Dick and Allegro started, Little Dick winning in straight heats.

What horses were left in the 2:30 and 2:15 pace started in one race and Mr. Reisman's good little mare Berkeley Girl won in straight heats.

In the 2:25 mixed Lena Lee looked like the class after winning the first heat, but got on her old-time bad behavior and lost the next two to Gen. Villa.

In the fifth race Mr. H. F. Silva's colt driven by Al Hanks had little difficulty in winning after a kicking spell in which both horse and driver went down in a pile. The colt trotted a good race for his first start.

In the sixth race Mr. G. W. Sawyer and Dolly Grey, a new beginner and a new horse, had no trouble in winning in straight heats, although Teddy made Mr. Sawyer's mount a little uneasy in the last heat.

This finished the races, but we had another attraction to amuse the crowd when Mr. Robert Seals, the owner of Burbank, drove on the track with Dr. Henderson's beautiful team of Arabian stallions which he was getting in shape to show at the State Fair.

Sunday after next the club will hold another matinee and invites all horsemen to participate. Send your entries to A. S. Hanks, 392 Eighth street, Oakland.

The judges last Sunday were M. C. Chapman, Chas. Miller and Mr. A. V. Mendenhall; timers, Mr. Mosby and Mr. Sawyer; marshal, Mr. Lyng; starter, Geo. Algeo. The summaries:

First race—2:20 pace:

Berkeley Girl	(A. Reisman)	1	1
Grand W.	(H. Hinds)	2	2
Prince	(H. Garrison)	3	3

Time—2:27, 2:24.

Second race—Free-for-all:

Little Dick	(Al Scott)	1	1
Allegro	(G. Schreiber)	2	2

Time—2:19, 2:20.

Third race—2:25 mixed:

Gen. Villa	(E. Johnson)	2	1	1
Lena Lee	(T. Le Ballister)	1	4	4
Harold G.	(J. Williams)	3	2	2
Tom Wilkes	(H. Olsen)	4	3	3

Time—2:34, 2:32, 2:32.

Fourth race—2:40 mixed:

Dickens B. Jr.	(H. F. Silva)	1	1
Frankie Burns	(W. B. Burgelin)	2	2
Willis Baldwin	(W. D. Willis)	3	3

Time—3:15, 2:53.

Fifth race—2:35 mixed:

Dolly Grey	(Geo. Sawyer)	1	1
Teddy	(C. P. Abott)	2	2
Andy O.	(W. M. Ray)	3	3

Time—2:52, 2:43.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

73-Year-Old Angler Wins.—Newark, N. J.—Julius M. Ranney, of Chicago, a veteran angler, 73 years old, received many congratulations last Saturday for his victory in the half-ounce bait miss and out competition in the National Fly and Bait Casting tournament here. Mr. Ranney won the championship over a number of younger competitors, casting at a target eighty feet distant.

The half-ounce accuracy bait contest was won by Call J. McCarthy of the Chicago Fly Casting Club with 99.3 per cent. Mr. McCarthy also won the heavy tackle distance fily event with a cast of 120½ feet. The fishermen's accuracy bait contest at unknown distances was won by C. M. Hartnett, Chicago Fly Casting Club, with five perfect scores out of ten.

Boy Traps Sixteen Coyotes.—Marysville.—William Meeker, 14, a farmer's boy, living near Oregon House, Yuba county, will have a lot of money with which to see the circus next month.

Meeker invisted 75 cents in a steel trap the other day and set out to trap coyotes in the hope that he would catch one, receive the bounty of $5 and in this manner pay his way to the circus.

When the Supervisors meet here September 4th they will allow Meeker $80 for coyote pelts.

Meeker set his trap in a good place. The next morning he found a mother coyote safely held in the trap and alongside her were three little coyotes nursing her. Meeker killed them all with a club. That made $20 toward the circus.

The next night he caught another coyote, and almost every night he captured a coyote, until he had caught sixteen.

In addition to the $80 he is to get from the county, sheep and chicken raisers in the neighborhood have promised to buy him a new suit of clothes and give him a big dinner as a reward for his ridding the neighborhood of so many "varmints."

Meeker says the secret of his success is that he boils the trap in water and glycerine after every catch. This prevents the wise coyotes from smelling it.

Good Fishing at Catalina.—A. C. Brode returned from Avalon with news that Catalina waters are alive with tuna and swordfish and, what is more to the point, they are strictly in a biting humor. W. C. Boschen, who held the world's swordfish record, recently beaten by Angler Adams, for four years, Saturday a week ago landed a broadbill of over two hundred pounds, and on Sunday repeated with a 273-pounder of the same species.

Mr. Boschen counted over one hundred broadbill swordfish Sunday, and said that anyone who had the nerve to tackle one could have the opportunity.

Captain Heral Saturday brought in a leaping tuna which had been mutilated by sharks while hooked, and was thus disqualified. What was left of the tuna weighed 170 pounds.

Antelope Once Roamed Hills Here.—Skipping about the hills and valleys of Southern California centuries ago was a diminutive antelope. The graceful little creature, no bigger than our present-day house dogs, escaped the beasts of prey by its amazing fleetness of foot. One day, while running wildly across the level floor of the valley just west of Hollywood, with a larger beast in pursuit, the dainty creature made a remarkable leap and landed in a pool of asphaltum near Wilshire boulevard. Struggling frantically, it sank in the treacherous substance until seen no more. Today you can see the skeleton of the once beautiful little animal in the museum of Exposition Park.

The "Little Antelope," as the skeleton is called, is known to scientists as the "Capromery Minor," according to Director Frank S. Daggett. The skeleton stands only 19¾ inches high, or less than twice the height of our common jackrabbit, which the antelope could outjump and outrun with ease. Its diminutive size and delicate bones allow the animal to be classed with the smaller species of the antelope found in Africa. Scientists are greatly interested in the fact that it has two horn cores which they say were originally covered with one sheath.

The specimen is mounted on a plaster back and restorations have been made where bones are missing. Each bone is mouned in such a manner that it may be removed for examination and study. This method, which has been used in the East, was never before employed here in mounting specimens. The work was done by J. Eugene Fischer.

Opens Fields to Hunters—Because blackbirds have become such a pest in his rice fields, William Blowers of District Ten, near Marysville, purchased a new shotgun and $50 worth of ammunition. He will kill all the blackbirds he can hit.

"I don't care what the game laws are," said Blowers. "The blackbirds are destroying my crops and they make their roosts on my scarecrows. Blackbirds are costing me $100 a day, and I'm going to kill them."

Blowers said that wild ducks no longer migrate to the north, but make their home during the hatching season in the rice fields during the summer.

"If anybody wants to kill ducks this fall and winter send them to my ranch," said Blowers. "I'll let them have free hunting grounds and will give them a good meal besides. Wild ducks and wild blackbirds, together with jack rabbits and cottontails, are a pest to rice growers."

DOVES INCREASING IN NUMBERS.

Late Opening of Season on September 1st Will Work to Advantage of Hunters.

Doves are increasing under the September 1st season, says President Frank M. Newbert of the State Fish and Game Commission. When California was a great grain-growing State and the farmer depended upon the elements for his moisture, the doves were easy to get.

Water holes were few and far between, and all that was necessary for the hunter was to locate himself at one of these watering places or on the pass between the feeding grounds and the watering holes, and his success was assured. Of all the feathered tribes doves were the easiest prey for the market hunter. Three to four hundred a day was the average kill of the pot hunter. This sort of slaughter was stopped in 1905 by the enactment of non-sale legislation.

Each year had found the doves growing less until the sportsman and the ruralist became a unit upon the present season. Opening seasons changing from June 1st to August 1st were made from time to time, but still they found birds on the nest, so September 1st was selected for the opening of the dove season.

This has proved most satisfactory to the farmer, who by then has harvested, stored or protected his grain, and he does not hesitate to invite his city friend to come out and enjoy a day's shoot on the ranch with a "safety first" feeling from fire.

More fires are set by the cigarette than any other cause. Watch yourself, Mr. Hunter, and don't unconsciously toss your cigarette away as you do at home, and you will find that the farmer will welcome you more often.

The sportsman will have more real fun shooting doves under the September 1st season than ever before. True, his season is short, and it should be, because it gives the mother bird a chance to raise her young, and, instead of killing the mother and leaving the young to die on the nest, they will bag full-grown birds that are fat and in the prime of condition.

The dove will not be so easy to get since Northern California has become a great irrigation district. They have the chance of many watering places and are not forced by nature to certain passes for water. No one will dispute the fact that doves are increasing under the present season and the limit.

One on New Game Warden.—He was a brand new game warden and had in no sense been spoiled by the little touch of rural politics which had punctuated his spotless career. He had heard of the grafter and his methods, but when Fate directed his steps to this honorable position, it directed wisely, for its choice was an honest man who would do his duty.

And so, when he heard the report of a shotgun one day early in July, his jaw set firmly and he turned his head quickly to get the direction. Again and again he heard the report and finally located the source beyond a lonely hill. Stealthily he took the trail of the miscreant and shortly came upon two of them standing beside an automobile, one with the telltale gun in his hand and the other holding a piece of machinery, undoubtedly a part of the automobile. He would remain in seclusion for a bit and perhaps catch this hunter in the very act of breaking the law.

Then, much to his astonishment, the man placed the gun to his shoulder, said pull, and instantly a big black object was projected from the machine which the other man carried. With a quick aim the gunner fired at the flying object and a puff of black dust showed that his aid was accurate and he had centered the charge. As a game warden, he was wise in his generation for he did not disclose his identity. On the other hand, appearing as a curious bystander, he soon learned that the greatest thrill-producing combination for the outdoor man is a hand trap and a shotgun.

H. M. Coke, a farmer of Round Valley, Mendocino county, was struck by lightning and killed Sunday in the mountains 40 miles from Alder Springs. His dog was also killed. Coke was deer hunting and was caught in the electrical storm which struck that vicinity. His body was found by Forest Ranger Geo. Breerton.

FIELD TRIALS CIRCUIT FOR COAST.

Tacoma Starts Off with Series of Events at Pelm on September 11th.

Tacoma, Wash.—As the field trial season approaches the dog men begin getting more and more enthusiastic over the coming trials, and I am sure, from all reports, that the entries will be much larger than they were at our last trial, and there will be several entries from out of the state, as we expect—in fact, have been promised—dogs from Oregon, California, British Columbia, and one or two of the eastern handlers may come out after the chicken trials to make this trial and, the following week, the Oregon meet. On account of the short training season and in order that the handlers may have a little more time to try out their prospects, the date for closing entries was postponed from August 15 to Sept. 1.

The trials will be held at Yelm, beginning Monday morning, September 11, and I believe we have the best grounds in the state. The fields are now yellow with grain, which will be harvested before the trials. There are plenty of birds, plenty of room for the wide rangers and excellent footing.

I am glad to see the pointers come to the front more out here, as the setter men have been in the majority. We are sure of several very good short hairs this year. Billett and Van de Veer of Anacortes have a nice pointer bitch, which they expect to run in the Derby, and there are quite a number of others, including some owned by A. A. McKellopp, who, I understand, has been persuaded to condition and run some of the outside dogs at the trials.

I am glad to note that the Oregon boys are going to run trials again this year, and we sincerely hope they will be a success, and that they have come to stay. With the British Columbia trials and those of Washington, Oregon and California, if the dates can be arranged so that the handlers can go right down the line, one trial following the other, I am sure quite a few of the big circuit men could be induced to make this coast before the eastern trials begin. I hope to see as strong a western circuit as there is in the East, and there is no reason why we can't have it.

I have not done any work on my dogs yet, but expect to begin at once, and will give them plenty of it for the next few weeks. As yet, I can't say that either one of them is showing much field trial class, but they may show some later on.

There are quite a lot of young birds, and if the hawks and house cats will let them be for a short time, there will be lots of them this fall.—F. D. Dean.

Stockton Dog Show to Open.—Stockton.—The judging slate of the Stockton Kennel Club is calling forth much favorable comment from fanciers throughout the state and entries are pouring into the club offices. The club's second annual show will be held September 3d and 4th.

H. B. Korbel, the well known bay city capitalist and sportsman, will judge English and French bull dogs. He has given these breeds a cereful study and is well known to all bull dog men on account of the good dogs he has owned, among which is his noted champion, Country Model.

C. H. Edmunds is primarily a "gun-dog" man and well known as the owner of California's pride setter, Champion San Francisco Major. Edmunds will pass upon pointers and setters.

Sidney P. Robertson, a prominent San Francisco attorney, will judge his favorite breeds, i. e., Cocker Spaniels and all other sporting spaniels.

J. Heffernan, local boniface hotel man, takes Airedale Terriers. Having bred, owned and imported some of the best in the country he is well qualified to analyze his classes and place the ribbons correctly.

The saucy Boston Terriers and sedate English Bull Terriers fall to John Calkwell, who has for many years successfully managed the kennels of Mrs. Jennie Cricker Whitman. Calkwell has recently returned from the East where he accepted several invitations to judge at shows in the New York and Boston district.

John T. Elkins, formerly Secretary of the Chicago Kennel Club and a judge of much experience, will judge all other breeds. John Bradshaw will act as show secretary and superintendent.

Crabtree Discusses Fancy.—Speaking broadly of Mr. Crabtree's impressions of the fancy in America, says a British writer, he says he found two distinct kinds of fanciers. The first, and, of course, the most powerful and most to be considered, are the true sportsman and sportswomen, ladies and gentlemen of wealth and good social standing, who would shrink from doing a dirty action, whose aim always is to get the best dogs and for the best to win, whether they belong to them or their rivals. These, happily, are the backbone of the fancy in America. The other kind are narrow-minded, selfish, and—tell it not in Gath!—the unscrupulous section of the fancy, who are ever trying to get at judges and fix up wins for their dogs, irrespective of whether the dogs are or are not good enough to win, which to them seems an unimportant detail. This is a very dangerous section of the fancy, about whose nefarious conduct Sam says he could write "a whole history," but the law of libel in England forbids its being recorded in "Our Dogs." We occasionally get glimpses of their insidious operations in charges before the American Kennel Club and in the fanciers' papers of America where the law of libel is very much more elastic than it is in England.

STATEMENT ON MIGRATORY BIRD LAW.

Federal Advisory Committee Sets Forth Arguments in Its Favor.

New York.—The members of the Advisory Committee to the Department of Agriculture on the Migratory Bird Law, in view of the fact that new regulations setting forth closed seasons on migratory water fowl and birds were recently made public, issued a statement as follows:

To the People of the United States:—

The Advisory Committee appointed by the Secretary of Agriculture, Hon. D. F. Houston, to co-operate with the Bureau of Biological Survey in fixing the regulations for closed seasons on migratory birds, as authorized by the Federal Migratory Bird Law, desires to state to the people of the country that after the most exhaustive investigation, and the most careful consideration of every point raised, the regulations as promulgated were unanimously recommended by the members of this Committee. We realize the utter impossibility of even attempting to satisfy all that desire to shoot migratory birds.

In recommending the regulations we were controlled by the following considerations:

First—A most earnest desire to save from certain depletion and threatened annihilation the valuable waterfowl, game and insectivorous birds which migrate across the United States twice each year.

Second—To accord the hunters in the various states as nearly as possible an equal opportunity of taking migratory waterfowl and nomadic game birds.

Third—To open the seasons during which these birds can be legally killed in those months when under normal weather and food conditions the largest number of migratory waterfowl and birds sojourn in any particular state.

Fourth—To absolutely eliminate spring shooting, when migratory waterfowl and birds on the northward migration are journeying towards their breeding grounds, thus impelled by the resistless force of nature, to mate, nest and reproduce their species.

Fifth—To recognize unusual and extraordinary conditions existing in a few of the states, without affecting the equity or vested rights of the people of the whole country in the migratory wild life.

Sixth—to submit reasonable, practical, fair and just regulations that should invite the support of all true conservationists.

Seventh—To guarantee not only to the present generation a reasonable supply of migratory wild life, but to so protect it that it will multiply and be handed to future generations as their proper and rightful heritage.

The imperative necessity for the enactment of the federal migratory bird law is palpable to every thoughtful and discerning mind.

Migratory wild life does not even recognize national, to say nothing of state, lines. The variability of the statutes of the states protecting these migrants, the lack of uniformity in these laws, the rapacity with which the nomadic birds are slaughtered by voracious annihilators of wild life in many of the states to the detriment of the people at large, compelled the conclusion of Congress that the exigencies of the situation demanded federal regulations that would, in reality, save the migratory waterfowl and birds from extermination.

The people of no country have been so abundantly blessed with valuable natural resources as ours.

The American people are notoriously a nation of wasters. Only by reason of the fact that their natural resources are fast disappearing have they been induced to extend even a modicum of conservation to these fast-vanishing assets.

Conservation does not mean preventing the use of our natural resources as a miser would hoard his gold, but means the wise and careful use of our national heritage, taking therefrom only a sufficient quantity to supply our needs, with the full realization that we are trustees for future generations.

We are convinced that under the operation of this law shooting will improve each year.

The need of the hour has heretofore appeared to be uppermost in the minds of the people. They have drawn recklessly on their natural inheritance with scarcely a thought of the future. It is a notable fact that in our rapacity for slaughter many of the most valuable species of game and birds that formerly abounded in this country have been annihilated.

The wild or passenger pigeon, that formerly swarmed over Eastern North America in countless millions, has become extinct. The American bison, found on the great plains of the West, was slaughtered by hide-hunters to the point of extermination. The Great Auk, the Eskimo curlew, the Labrador duck, the Carolina Parrakeet have been exterminated. There are many other valuable North American birds that are candidates for extinction, including the whooping crane, trumpeter swan, American flamingo, roseate spoonbill, scarlet ibis, long-billed curlew, upland plover, Hudsonian godwit, red-breasted sandpiper, golden plover, dowitcher, willet, pectoral sandpiper, black-capped petrel, American egret, snowy egret, wood-duck, band-tailed pigeon, heath hen, sage grouse, white-tailed kite, prairie sharptail, pinnated grouse and woodcock.

Future eventuations can only be judged by those that have gone before, hence the enactment and the enforcement of a comprehensive system of federal conservation of migratory wild life was made necessary if this valuable asset was to be retained among the resources of the United States.

Aside from aesthetic considerations, birds and game constitute a valuable article of food. From a recreational standpoint, this resource is of the greatest value to our people.

We feel that the failure of any American citizen to accord the federal migratory bird law his most active support is due either to lack of information or selfishness.

We therefore urge and request all patriotic citizens to exert their influence to the utmost to the end that the incalculable benefits contemplated by this law, and most specifically accruing to the people under the regulations just promulgated, be given their moral support, that the enlightened conscience of the people may be quickened to a full observance and vigilant enforcement of this wise and progressive conservation measure.

JOHN B. BURNHAM, New York, Chairman.
HON. E. G. BRADFORD, Delaware.
HON. F. W. CHAMBERS, Utah.
W. L. FINLEY, Oregon.
DR. E. H. FORBUSH, Massachusetts.
DR. GEORGE B. GRINNELL, New York.
DR. WILLIAM T. HORNADAY, New York.
CLARK McADAMS, Missouri.
MARSHALL McLEAN, New York.
CLINTON M. ODELL, Minnesota.
T. GILBERT PEARSON, New York.
HON. ERNEST SCHAEFFLE, California.
HON. GEORGE SHIRAS, 3rd, Michigan.
HON. JOHN H. WALLACE, Jr., Alabama.

Northwestern Casting Championship.—As he did the day previous, Warren Cornell again carried away the honors August 25 in the Northwest casting championship held under the auspices of the Multnomah Anglers' Club at Laurelhurst Park. Cornell, by his good work in both days of the tournament, captured the grand average. He and Walter F. Backus stood a tie until the last event for this honor.

Cornell won the half-ounce distance bait casting, finished third in the half-ounce accuracy bait casting, fifth in the light-tackle dry-fly accuracy and first in the light-tackle distance fly casting.

Following are the results, with the names of those who finished in order and their marks:

One-half ounce distance bait—Warren Cornell, 154 feet 2 inches; Dr. Earl C. McFarland, 145 feet 11 inches; A. E. Burghduff, 146 feet 3 inches; C. R. Werner, of Tacoma, 131 feet 3 inches; Walter F. Backus, 123 feet 11 inches; N. E. Tyrell, 120 feet 8 inches.

One-half ounce distance slam—Walter F. Backus, 164 feet; Dr. Earl C. McFarland, 168 feet 1 inch.

One-half ounce accuracy bait—Will C. Block, 90 per cent; C. R. Werner 98.5 per cent; Warren Cornell, 98.4 per cent; Dr. Earl C. McFarland, 98.1 per cent; N. E. Tyrell, 97.8 per cent; William Bailey, of Tacoma, 97.4 per cent.

Light tackle dry fly accuracy—J. C. Myers, 99 7-15 per cent; Walter F. Backus, 99 4-15 per cent; J. T. Drennen, 99 3?15 per cent; Will C. Block, 98 14-15 per cent; Warren Cornell, 98 per cent.

Light tackle distance fly—Warren Cornell, 99 feet; Walter F. Backus, 98 feet; J. C. Myers, 98 feet; N. C. Thorne, 82 feet. On re-entry Mr. Backus scored 101 feet, while Mr. Myers had a mark of 86 feet.

The Multnomah Anglers' Club held a banquet at the Imperial Hotel. The Northwest championships proved to be a big success.

Multnomah Club Casting.—Will C. Block won the ½-ounce accuracy bait casting event in the first half of the Multnomah Anglers' Club tournament at Laurelhurst Park on August 23d. Five events were run off at Lake Laurelhurst. Block hung up a mark of 99 per cent. There were 12 entries in this event and 25 in all events.

Following are those who finished next to Block: Dr. Earl C. McFarland, 98.4 per cent; A. E. Burghduff, 98.4; Lester W. Humphreys, 98.3.

A. E. Burghduff came out first in the ½-ounce distance bait casting with a mark of 154½ feet. Dr. Earl C. McFarland, 147 9-12 feet, and Walter F. Backus with 135 feet finished in order.

Dr. Earl C. McFarland won the ½-ounce slam bait casting with a mark of 183 feet.

Walter F. Backus took the light tackle dry fly accuracy event with 99 4-15 per cent. Will C. Block, 99 2-15 per cent, and A. E. Burghduff with 99 per cent came next best.

Backus and J. C. Myers tied with 102 feet in the distance fly-casting with 5¾-ounce rods. Warren Cornell, 96 feet, and Will C. Block 95 feet, finished next in order.

Portland Casters Practice.—Twenty-five fly and bait casters of the Multnomah Anglers' club participated August 20th in the final practice meeting before the Northwest tourney at Laurelhurst Lake. W. C. Block won the half-ounce accuracy bait casting event with 99 per cent. Dr. E. C. McFarland, A. E. Burghduff and L. W. Humphreys finished in the order named in this event.

A. E. Burghduff won the half-ounce distance bait casting with a 154½-foot mark.. Dr. McFarland was second and Walter Backus third. Dr. McFarland won the half-ounce slam bait casting. His mark was 133 feet.

W. F. Backus captured the light tackle dry fly accuracy event with 99 4-15 per cent, and he tied J. C. Myers for first honors in the distance fly casting with 5¾ ounce rods.

WASHINGTON GAME SEASONS.

Tacoma, Wash.—Although the season for upland birds will not open in this section until September 15, local sportsmen are getting ready to take the field with the opening of the season. Some have already gone to Garfield and Columbia counties where the season has opened, the dates there being from August 15 to October 1. East of the mountains the hunters are allowed to take to the field with dog and gun as early as September 1.

"The present game laws present such a confused mass to the hunter that many violate the laws without being too much to blame," says Game Warden Ira Light. "The dates are suited to the climatic conditions of each district, yet they result in much confusion. The best way to remember it is that the upland season does not begin until September 15 and the season for ducks and other waterfowl, October 1st."

There is also a difference in the opening of the big game season. West of the mountains the season opens September 15, along with the upland birds, while on the other side of the Cascades, the hunters will be forced to wait for 15 days.

An epitome of the hunting laws and the restrictions as to the size of bags and dates for opening in the various sections is as follows:

Deer, caribou, mountain goat, east of Cascades, October 1 to November 15.

Deer and mountain goat, west of Cascades, September 15 to November 1. Bag limit: Two deer, one goat, one caribou.

Elk, moose and mountain sheep, no open season.

Quail, Spokane county, October 1 to November 15; Walla Walla, Asotin (except Clarkston, South Clarkston and West Clarkston precints), Garfield and Columbia counties, October 1 to October 10.

Prairie chickens, Kittitas, October 1 to October 10; Whitman, Okanogan, Ferry, Lincoln, Walla Walla, Adams, Asotin, Columbia and Garfield counties, September 15 to November 1; Douglas county, September 1 to November 1.

Chinese pheasants, Spokane, Benton and Yakima counties, October 1 to October 15; Kittitas county, October 1 to October 10.

Hungarian partridge, Spokane county, October 1 to November 15; Kittitas county, October 1 to October 10.

Sage grouse, Spokane, Yakima and Benton counties, October 15 to November 1; Kittitas county, October 1 to October 10.

Native pheasants and blue grouse—All counties east of the Cascades, September 1 to November 15. Exceptions, Walla Walla, Asotin (except Clarkston, South Clarkston and West Clarkston), Garfield and Columbia counties, August 15 to October 1.

Native pheasants—Closed in Yakima county. (All other birds, closed season.)

Native pheasant, ruffed grouse, blue grouse, Chinese pheasant, ptarmigan and quail, September 15 to October 31.

English, Mongolian and Reeves pheasants, except in Mason and Thurston counties, October 1 to October 15. (All other birds, closed season.)

Bag limit—five upland birds in one day or ten quail in ine day, or five quail and five upland birds. Exception, Kittitas county, three upland birds in one day. Limit for bag for one week, 25 birds.

Geese, grant, duck, coot or rail, October 1 to January 16.

Black breasted and golden plover, jacksnipe, Wilson snipe, greater or lesser yellowlegs, October 1 to December 15.

Bag limit—Twenty waterfowl in one day or one week. Possession, 30 waterfowl at any one time. Week begins Saturday midnight.

Migratory Law Success Here.—The Federal Migratory Bird Law has been a success in California, according to Frank M. Newbert, President of the Fish and Game Commission. He writes to the Bureau as follows:

"* * * I will say that I believe the enforcement of these regulations is working wonders for waterfowl in California, especially in the northern district, comprising 22 northern counties of the State.

"I am heartily in favor of any law beneficial to our waterfowl.

"Breeding and nesting ducks show a large increase over previous years before the Federal and State laws became effective."

Deer Hunting in Oregon.—A few hunters who took advantage of the opening of the deer season have returned to Portland, bringing with them the proof of their sojourn in the mountains. J. G. Slingerland is the latest to return with a three-point buck. Joe journeyed down to the coast fork of the Willamette, some distance back of Yoncalla, in the Coast range. He was joined by Pete Blackwell, owner of the "Lost Cabin," a big ranch, where the majority of the time was spent.

Slingerland was in that country for nearly one week, but reports that it was too cold and wet to get out into the open much. He believes that there are plenty of deer in Southern Oregon, from all reports, but a good many of them are well back in the mountains, and hard to get near without penetrating the heart of the mountains. The local hunter returned to Portland Sunday a week ago.

Sportsmen's Row

Award of the small-bore outdoor rifle shooting championship trophy for the 1916 season to the Peters Rifle and Revolver Club of King's Mills, O., last year's winner, was announced recently by the National Rifle Association. Medals will be given members of the championship team, which in ten weeks' shooting scored a total of 9,610, and to those of the Auburn (N. Y.) Rifle Club, second, with 945, and the Bucyrus (O.) Rifle Association, third, with 9,450. The shooting was at fifty yards, slow and timed fire, the teams consisting of ten men each, who fired ten shots in each position.

• • •

The many friends of A. L. Curtis, owner of the quadruple champion, John Proctor, will be glad to learn that after a serious illness of three months' duration he is out and about again taking his accustomed interest in doggy affairs. Mr. Curtis writes that John is in the finest fettle and with a little preparation would be fit to go into any race again, but it is not the intention of his owner to run him any longer, and in this decision he is wise, for when a dog has attained the laurels that came to this famous son of Fishel's Frank and Miss Mariutch there is nothing to gain by further campaigning.

• • •

Mrs. Hugo R. Johnstone of Pasadena, Cal., has achieved considerable fame at Avalon through the capture of three big sea bass. The largest fish weighed 240 pounds and gave Mrs. Johnstone a good hour's battle before he would acknowledge himself conquered.

• • •

Rev. W. M. McClaren of Dinuba, Cal., recently spent two weeks at Wahtoke Lake, where he enjoyed some fine fishing. His best catch was a magnificent bass which weighed eight pounds and measured 21¾ inches. Rev. McClaren has had the fish mounted and it is now on display.

• • •

For the first time in the history of big game fishing at Avalon, Catalina Island, three records have been broken in one day. Following close after the record catch of two giant swordfish by H. W. Adams of Vermajo, N. M., N. A. Howard of Piedmont, Cal., on August 14th exhibited the largest black bass ever hooked on the Pacific coast. It weighed nearly a quarter of a ton and was landed after a fight of an hour and twenty-five minutes.

• • •

Ambitious hunters for deer next week will be given an unusual reception when they attempt to hunt deer on the land of the Santa Monica Mountain Park Co., as they will be met by ten mountain rangers, all of whom will be special officers of Los Angeles. The Los Angeles ordinance forbidding the discharge of firearms in the city, according to City Prosecutor Warren L. Williams, will be enforced, and all of the mountain included was recently taken into the city with the annexation of the Brentwood-Westgate district.

• • •

In the first week of the deer season, which opened August 15 in District No. 1, fifteen bucks have been brought into Camp Nelson from nearby territory, and hunters of experience in those parts report that the big game has not been so abundant for many years. On the opening day, two deer were shot within two miles of this camp, and others were taken the same day in the country farther back.

• • •

Henry Lossman and Vic Rapp, who returned last week from a ten days' outing on Priest Lake, bring reports of the best fishing in years at the great north Idaho anglers' paradise. The two largest fish landed by Lossman and Rapp were charr which measured respectively 29 and 25 inches in length. The larger weighed seven and one-half pounds and the other six and one-half pounds.

• • •

Miss Blanche Mills caught a 22-pound yellowtail at Catalina on a 6-ounce rod (6 feet long), with 6-thread line, after a fight of one hour and five minutes. This is the largest fish taken this year on "three-six" tackle, and the biggest yellowtail caught this season on any tackle by a member of the Southern California Rod and Reel Club.

• • •

Marshfield, Ore.—County Clerk Robert R. Watson has issued more than 550 hunting licenses since August 1st. The first of the deer season shows the game situation to be an average one, but it is thought early hunters were aware of where the best hunting grounds were to be found and later visitors in the forests will not be as fortunate. A number of hunters say they find skeletons of deer which perished during the cold weather of late January and early February. The game wardens and fire wardens turn in similar reports.

• • •

T. E. Doremus, president of the Interstate Association, will be a visitor in San Francisco the first of the coming week. Mr. Doremus is on his way to the Pacific Coast Handicap at Portland and will stop off to visit with local trapshooters.

• • •

Fred Willard is down in the San Joaquin Valley chasing doves. He has sent word that the birds have been found numerous and is evidently having some good sport now.

• • •

Al Cook is back from a visit to Arizona. He reports that he never saw doves more numerous. He understands that the birds are also plentiful around Los Angeles. All the southern shooters were preparing to go out into the hills and fields when Al passed through Los Angeles.

• • •

Willard Terrill, formerly a well-known shooter and fisherman around these parts, is now located at Wilmington, Del., where he has accepted a position with the Du Pont Company. We wish Willard all the best of luck.

• • •

Captain A. W. duBray, Clarence Nauman, Newton Neustader and Jim Hull have gone to San Bonita for a dove hunt. If there are any birds they can be counted on to bring in limit bags.

• • •

Trade Notes.—One of the most talked-of events at the Grand American last week was the exceptionally good shooting of Al Koyen of Fremont, Nebraska, who won the preliminary handicap with 97x100 from 19 yards, shooting Nitro Club Speed Shells. This is not Mr. Koyen's first triumph this year and he is looked to make many more clean-ups of prominence before the end of the season.

THE WORLD'S CASTING RECORD.

It is the belief of casters that the world's record made by Dr. Carleton Simon last year at the tournament of the Asbury Park Fishing Club stands a chance of being broken at the tournaments to be held this year.

Dr. Simon, on August 7, 1915, made a new record when he cast 379 feet and 8 inches on a linen line with a four-ounce lead.

Everything, of course, will depend upon weather conditions as to whether Dr. Simon or some other caster will go beyond the official record at this season's tournaments.

Dr. Simon has bettered his world's record many times in practice.

William J. Moran, in 1910, cast 314 feet and 10 inches. This record stood for four years, when Dr. Simon in the spring of 1914, at Midland Beach, increased it to 322 feet and 6 inches.

In August of 1914, John E. Clayton smashed this by going 348 feet at Asbury Park. In September of 1914 Dr. Simon bettered the record by a cast of 349 feet 6 inches at Midland Beach.

Then at Midland Beach, in June of 1915, Dr. Simon made 354 feet and 9 inches, followed by his present record of 379 feet and 8 inches, made in August last at Asbury Park.

All tournaments are under the auspices of the Association of Surf Angling Clubs. The following New York and New Jersey clubs are members of this organization: Anglers' Club, of New York; Ocean and Stream Fishing Club, of Newark; Midland Beach Fishing Club, of Staten Island; Belmar Fishing Club, of Belmar; Ocean City Fishing Club, of Ocean City, and the Asbury Park Fishing Club, of Asbury Park.

There is an added interest to these tournaments because of the Ocean City cup, a trophy donated by by the Ocean City Fishing Club to promote surf casting. It is to be contested for by teams of five men from any reputable club meeting with the sanction of the Association of Surf Angling Clubs, the central governing association. It is donated in perpetuity and is to be held by the winning club until defeated. The cup is awarded yearly to the club whose team of five men makes the best average in the open field with 2½, 3 or 4 ounce leads.

The casting is strictly under the rules of the Association of Surf Angling Clubs, but competition from all reputable clubs, whether members of the association or not, is invited.

Portland Rifle Shots Worrying.—Members of the Portland Revolver Club are already worrying over their chances in the telegraphic shoot of the U. S. R. A., which will start, as usual, early in November.

They have reason to worry, as two of their best shots, George W. Wilson as well as S. J. Clifford, are on the Mexican border with the 3rd regiment. Bob Archer, another man who has done considerable shooting, but hasn't made the team, is also with the same regiment.

As it is uncertain when these men will return, the other men who have taken part in the shoots are wondering how they are going to keep up in the race during its early stages, at least, and are hoping that the schedule will show that they are matched against easier teams at the start.

Officers of the club are planning to hold some kind of merchandise shoot in the near future, which will be open for anyone to enter. It is hoped in this way to bring out some shooters who would otherwise not enter.

The loss of Wilson from the team will be felt keenly, as he led the local shooters in the season's averages, and was the fourth high man in the association, which comprises the best revolver shots in the entire country.

Other members of the club are practicing already. It was only recently that Larry Evans made a score of 462 out of a possible 500, which is high even for mid-season form.

BARKS HEARD ALONG KENNEL ROW.

British Fanciers Object to Using Toys to Attract Interest of Great Danes.

British fanciers don't like the idea of having to bring out "Teddy bears" and other toys to attract the interest of a big dog in the show ring. They think that Great Danes, for instance, ought to show right without any artificial stimulus. We have seen a lot of the same thing over here with various breeds. The real lover of a dog likes to see his dog stand up on his own legs and display his points without any outside influence. The real thoroughbred show dog will always do it. The following criticism of what they have been doing in England may be of interest to the fancy:—

"The Great Dane is, as a rule, so sensible and tractable, that it should be quite easy to make him understand that he must look his best. As far as we remember, the Danes of some years ago were always trained to show without the ludicrous efforts which are now so conspicuous."

• • •

Georges Carpentier, who before the war was one of the best heavy weight boxers in the world, but who has recently been doing bigger things for his country, has two young fox terriers which he found in a German trench. Carpentier has called them Kaiser and Crown Prince.

• • •

Midgely Marsden, who is well known to the American fancy as a judge of the first water of Pomeranians, has been seriously ill for a long time. The malady from which he is suffering is heart trouble. He attributes his illness to the strain under which he was put at the New Year's Day Show of the Edinburgh Kennel Club, where he judged eighty classes. Mr. Marsden is past the three score and ten milestone, and his medical advisers say that he will never again be able to withstand the excitement of judging.

• • •

With a collection of eighteen of England's best Pomeranians, Mrs. Henry Hill arrived in New York on Friday last, after making a record trip. This is the largest single shipment of dogs to come over from England since the war began. During the trip across, the care of the dogs in the limited quarters was a heavy task, but not one dog was sick even a day, establishing a record, for it is seldom that so large a number of dogs can be shipped without the loss of one or more. On her last trip Mrs. Hill had the misfortune to lose three specimens, one a very valuable miniature bitch. While in England, Mrs. Hill, making her headquarters in Leeds, visited the large kennels of the breed and attended the important dog shows.

Quick action was the word when Mrs. O. A. Lakeland viewed the collection of Pomeranians brought over by Mrs. Hill. Exactly four hours after Mrs. Hill had landed with her Poms Mrs. Lakeland called on her, selected five from the lot as being exactly what she required to round out her show kennel, and then and there bought them, regardless of price. Mrs. Lakeland is already the owner of several specimens brought over by Mrs. Hill on her last trip and has done very well with them, winning at all the larger shows. Mrs. Lakeland has probably the largest exhibition kennel of the breed at present.

Tacoma Fly-Casting Scores.—R. B. Nason, president of the Tacoma Bait and Fly-Casting Club, broke two club records August 20th in the eighth semi-annual event of that organization at Point Defiance park. In the quarter-ounce event he made a score of 118 feet 2 2-5 inches in the average distance event, exceeding the previous high score of 108 feet 5 5 15 inches made by B. B. Perrow. He also made a score of 134 feet 3 inches in the distance slam event, bettering his own score of 134 feet.

Nason's score in the average competition also bests the record made in the Pacific Northwestern tournament last August, when 110 feet 8 3-5 inches won the prize. W. J. Bailey's cast of 127 feet 3 inches in the same event beats the longest cast in the Pacific Northwestern tournament last year, made by F. N. Peet of Chicago.

The results of the competition follow:

Quarter-ounce Accuracy, per cent: C. R. Werner 98.3, W. J. Bailey 97.7, B. B. Perrow 97.6, R. H. Nason 96.4, R. Hutchinson 93.8.

Quarter-ounce Average Distance—R. B. Nason, 118 ft. 2 2-5 in.; W. J. Bailey, 115 ft. 1-5 in.; B. B. Perrow, 94 ft. 1-5 in.; C. R. Werner, 90 ft. 11 4-5 in.; R. Hutchinson, 37 ft. 2 4-5 in.

Quarter-ounce Distance Slam—R. B. Nason, 134 ft. 3 in.; W. J. Bailey 120 ft., C. R. Werner 116 ft., B. B. Perrow 115 ft., R. Hutchinson 50 ft.

A very exceptional record was put up by Mr. G. H. Tuckett of New York City at the Mt. Kisko, N. Y., registered tournament Aug. 5th. He tied with one other amateur for high general and high amateur average, 149 ex 150, and in the shoot-off to determine the winner of first place, Mr. Tuckett broke 50 straight and was declared the winner, making his score 199 ex 200. He shot Peters factory loaded shells.

COAST SHOOTERS WIN HIGH HONORS.

Boys Fnished High Up at St. Louis in Handicaps; F. M. Troeh is Champion of the States.

Pacific Coast trapshooting enthusiasts have reason to be proud of the small but select band of scattergun artists who participated in the Grand American Handicap at St. Louis. While the official scores are not at hand as yet, the returns show that all of the boys gave a good account of themselves.

Frank M. Troeh of Washington was crowned the amateur trap shot of our United States. He was in competition with the champions of practically every state in the Union. He missed only one out of the 100 targets thrown. Heine Pfirrmann of California and Nevada was right up there too. The scores of the Coast representatives were:—

Events—	25	25	25	25	Ttl
F. M. Troeh (Wash)	25	25	25	24	99
H. Pfirrmann (Cal.)	25	23	22	24	94
E. M. Sweeney (Idaho)	20	20	24	24	88
H. P. DeMund (Ariz.)	23	22	21	23	90
A. P. Bigelow (Utah)	25	22	24	24	95

In the Grand American Handicap, Heine Pfirrmann was back on the 21-yard line and busted 95. Harry Ogilvie, 20 yards, hit 95, Andy Flickinger (20) 90, J. F. Dodds (20) 88. The money winners of the events were—

	Score.	Cash Prize.
J. F. Wulf, Milwaukee, Wis.	99	$619
E. Malon, Jewell, Iowa	98	557
H. C. Daley, Carlinsville, Ill.	97	433
C. A. Atkinson, Creighton, Mo.	97	433
D. C. Rogers, Logansport, Ind.	97	433
C. L. Waggoner, Dilbert, Neb.	96	156
M. Smith, Oklahoma City	96	154
I. Galbraith, West Frankfort, Ill.	96	154
J. E. Chatfield, Texarkana	96	154
J. B. Fye, Ollie, Iowa	95	61
R. U. Fletcher, Hugo, Okla.	95	61
F. W. McNier, Houston, Tex.	95	61
C. L. Parsons, Straw, Mont.	95	61
H. Pfirrmann, Los Angeles	95	61
W. Wettleaf, Nichols, Iowa	95	61
E. Tappen, Hoagland, Neb.	95	61
H. Ogilvie, Lindsay, Cal.	95	61
J. F. Powell, Ottumwa, Iowa	94	42
A. W. Clark, Oklahoma City, Okla.	94	42
F. G. Cairns, Tampa, Kans.	94	42
F. M. Luther, Cimmaron, Kans.	94	42
C. H. Parker, Minot, N. D.	94	42

During the week 27,250 targets were thrown and naturally the same number of shots were fired. The purses for the different events totaled $20,000. R. A. King of Delta, Colo., was the greatest money winner, his winnings totaling more than $1,000. He placed in nearly every event.

Quite a number of women devotees of the traps were present. They were awarded hats in the following rotation:

Mrs. L. C. Vogel, Detroit; Mrs. F. A. Johnson, Philadelphia; Mrs. D. J. Dalton, Warsaw, Ind.; Mrs. H. R. Hammond, Wilmington, Del.; Mrs. Harry Almert, Chicago; Mrs. H. P. Potter, Madison, Wis.; Miss Lucille Muesel, Green Bay, Wis.; Mrs. C. Edmiston, Des Moines, Ia.; Miss Emma Wettleaf, Nichols, Ia., and Mrs H. F. Foster, Kansas City, Mo.

Los Angeles Club.—C. W. Fish, shooting from 19 yards, broke 46 blue rocks out of 50 thrown and captured a diamond scarf pin in the Sunday trapshooting contest held at the Los Angeles Gun Club.

Three shooters tied for second best score, each with 45x50. They were George Oliver, Owen Council and Frank Free. Seventeen shooters competed in this contest.

Shooting on the season trophies, the final contest to be held October 8th, still continues at the L. A. Club, with the scoring of some exceptionally good marks. During last week E. K. Mohler hung up a 49x50 result; F. Free 47x50, Charlie Vories 47x50, and George Melford 46x50. The results follow:

Diamond Trophy Handicap—F. Free, handicap 19 yards, broke 45x50; C. W. Fish 19—46x50, E. K. Mohler 20—42x50, H. E. Sargent 19—40x50, O. Council 20—45x50, H. Cline 19—43x50, S. R. Smith 19—43x50, C. W. Jackson 19—42x50, George Melford 19—40x50, George Oliver 19—45x50, William Kennedy 16—39x50, Seth Hart 16—38x50, J. Cline 16—39x50, A. L. Rowe 16—37x50, H. L. Riggin 16—36x50, Mrs. A. L. Rowe 16—28x50, Mrs. O. M. Goodwin 16—27x50, E. H. Stotler 16—23x50, Ray Finn 16—41x50.

Season Trophies—F. Free 47, George Oliver 44, C. W. Fish 44, E. K. Mohler 49, H. E. Sargent 45, O. Council 45, H. Cline 44, A. L. Rowe 42, J. Cline 40, C. Vories 47, Wm. Kennedy 41, Seth Hart 39, C. W. Jackson 44, Geo. Melford 46, S. R. Smith 44, Mrs. A. L. Rowe 27, H. L. Riggin 34, Mrs. Goodwin 18, E. H. Stotler 17, Ray Finn 40, J. Mann 25, J. Taggard 22, S. J. Tilden 42, A. H. Thomas 26, C. R. Bond 30, S. L. Olshausen 17, W. A. Bonynge 35, P. F. Shoemaker 34, A. B. Sparks 32, G. R. Johnstone 18, S. A. Bender 30, J. D. Cantrell 45, C. M. Wood 42, E. L. Frisbee 26, Mrs. Wm. Kennedy 4x5, C. E. Groat 20x25. Mrs. C. E. Groat 23x25.

Vernon Club.—Mr. and Mrs. C. E. Groat tied on everything they shot for at the Vernon Gun Club on Sunday.

First, they competed on the season trophy, Mr. Groat firing from nineteen yards and Mrs. Groat from eighteen. Each pinged 48 birds out of a half century thrown.

They next contested for a gold bar and again tied with 48x50. They shot off from their allotted handicaps, Mrs. Groat coming out the victor with a score of 24x25. Mr. Groat busted 23x25.

"Pop" Bruner was high gun for the day with his 49x50 score. Mrs. Groat succeeded in breaking 96 targets out of 100 shot at during the day's shooting. The results:

	Yds.	Practice 25	25 Ttl.	Hdp.	25	25 Ttl.

Trap Shoot at Del Monte.—It is the desire of the Del Monte Golf and Country Club to stimulate additional interest in amateur trap shooting competition, and with this end in view the Del Monte Golf and Country Club takes pleasure in extending to you a cordial invitation to compete in the amateur trapshooting contest to be held at Del Monte, September 7th to September 10th, inclusive. Handsome prizes will be awarded for the various events, and the Del Monte Golf and Country Club and Hotel Del Monte intend to accomplish everything in their power to make this tournament pleasant and successful.

SCHEDULE OF EVENTS.

Thursday, Sept. 7th—Practice. Grounds will be open to all entrants, 9 a. m. to 6 p. m.

Friday, September 8th—10 a. m. First event, Scratch, for Monterey Cup. 100 targets, 16 yards. Trophies for first, second and third high guns.

Saturday, Sept. 9th—10 a. m. Second event. Admission Day Handicap. 100 targets. Handicaps from 16 to 22 yards. Trophies for first, second and third high guns.

Sunday, Sept. 10th—10 a. m. Third event. Del Monte Handicap. 100 targets. Handicap from 15 to 22 yards. Trophies for first, second and third high guns.

Shells may be purchased at grounds. Entrance fee, $2.

It is the desire of the Hotel Del Monte and the Del Monte Country Club that all trapshooters will avail themselves of the opportunity to compete in this shoot as it is to be the first of several annual shoots to be held on the Del Monte grounds. Equipment of the latest design has been installed and the grounds are first class in every detail. The traps will be open to shooters at all times of the year.

Address all communications and entries to

J. F. NEVILLE,
Chairman Field Committee, Del Monte, Cal.

Alameda Elks' Club.—On account of Admission Day, Sept. 9th, falling on Saturday, the day before the final shoot of the season was scheduled to take place, it has been decided to postpone the banner event until Sunday, Sept. 24th, for the reason that many of our members and other friends that shoot with us will want to take advantage of the two holidays.

The postponement will also work out to advantage, allowing more time in which to perfect plans for the big merchandise shoot scheduled to be held on the last day of the season.

A meeting of the members called by the officers and directors was held at the Elks' Club Wednesday night, August 30th. Members will also be interested to learn that W. L. Kock has won the handsome walrus tusk corkscrew trophy, donated by C. W. Lindermann, with the perfect score of 75x75. Following is a list of how the members stand:

	Hdcp.	Broke			Total
1. W. L. Koch	7	18	20	18	75
2. C. W. Lindermann	9	21	17	17	75
3. M. S. Goodman	10	14	20	18	74
4. H. P. Martine	6	22	18	18	73
5. C. D. Carman	6	20	17	21	73
6. E. G. Williams	7	19	15	18	72
7. G. J. Brooks	9	13	15	17	71

23. Mike Winans	14	10	..	..	24
24. W. E. Spann	12	10	..	..	22

As Sunday, Sept. 24th, will be the very last chance members will have to complete their scores for the Interstate Trophy Cup as well as the three club prizes in each class, be sure and be on hand.

F. E. HILLYER, Sec'y.

THE INTERSTATE ASSOCIATION'S HANDICAP.

T. E. Doremus, President,
Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. — E. Reed Shaner, Sec'y, Pittsburgh, Pa.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Portland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

To Change Date of San Jose Shoot.—O. N. Ford is in communication with the Interstate Association to change the registered tournament of the San Jose Blue Rock Club, which was set for September 17th and 18th. He wants it to be moved to September 24 and 25, so as not to conflict with the monthly shoot of the Golden Gate Club at the Alameda grounds.

Ford is counting on attracting a number of shooters who will participate in the Pacific Coast Handicap at Portland on September 11, 12, 13 and 14. He is arranging his shoot so that the boys can drop off on their way home and try their skill on the grounds where the State shoot was held.

The San Jose crack has been suffering from a severe cold since his return home from the successful tour of the middle west. He was able to be up and about a week ago Sunday and managed to break 96 out of a 100, which shows that he is still able to make the smoke fly.

Seattle Association.—Hugh Fleming led the shooting in the regular program at the Harbor Island grounds August 20. Without the wind that prevailed during the morning the scores would doubtless have been much higher, although Fleming finished his first fifty targets with a total of forty-eight to his credit. Ike Fisher, professional, stood in second position in this part of the shooting with a forty-six score.

Fisher took the lead in the hundred-bird race and finished first, shooting ninety-two out of the bunch. Matt Grossman and Hugh Fleming tied for the high amateur honors, they both knocking down ninety birds. Joe Bacher shot the second amateur position with an eighty-five. Bacher shot through one 25-target event without a miss.

In the doubles Matt Grossman led the squad, picking down the most of these targets.

Harry Fremont shot with the club for the first time this season. He has just returned from the South, where he has been shooting with the California clubs. H. E. Gachnour of Sunnyside was a visiting shooter. Scores:

At 50 targets—Hugh Fleming 48, Ike Fisher 48, Matt Grossman 44, A. Drake 39, J. Bacher 38, J. W. Glascock 37, H. Fremont 36, H. E. Gachnour 35, J. Hulbert 28.

At 100 targets—Ike Fisher 92, Matt Grossman 90, Hugh Fleming 90, Joe Bacher 85, H. Fremont 79, C. W. Bandy 42, Van M. Woodman 21.

At doubles—Matt Grossman 51, Ike Fisher 43, J. Hulbert 30, Hugh Fleming 21, Joe Bacher 17, A. Drake 13, H. E. Gachnour 12.

Tacoma Club.—The Tacoma Gun Club held its last shoot of the season August 20th. E. E. Young won the Majestic Cafe trophy, while J. A. Dague won the permanent ownership of the White Flyer fob. J. C. Jensen won a spoon for breaking 25 straight and he also won a spoon for the highest actual score. Fred Griffin won a spoon for the lowest score. The following scores were made on the Majestic Cafe trophy with added bird handicap:—

	Broke.	Hdcp.	Ttl.
Young	76	21	97
Jensen	88	2	95
Dague	88	7	95
Smith	78	17	95
Bales	76	18	94
Parks	82	11	93
Lake	81	10	91
Griffin	67	19	86
Mellinger	64	21	85

Clubs with the A. A. T. A.—In the number of clubs affiliated with the A. A. T. A. the middle western States lead by a considerable margin. The exact number is 411, as against 348 in the eastern States, 94 in the west and 86 in the south. The clubs are distributed through the States as follows:

Middle West—Illinois 198, Iowa 79, Indiana 41, Michigan 34, Missouri 31, Minnesota 27, Wisconsin 22, Kansas 21, So. Dakota 15, Oklahoma 14, Ohio 9, Arkansas 7, Nebraska 3. Total, 411.

East—Pennsylvania 135, New York 80, New Jersey 40, Maryland 23, Massachusetts 21, Connecticut 16, Delaware 13, Vermont 9, New Hampshire 7, Rhode Island 1. Total, 248.

West—Montana 23, California 22, Oregon 12, Colorado 9, Washington 9, Idaho 7, Arizona 5, Utah 5, Nevada 2. Total, 94.

South—Kentucky 17, Virginia 16, No. Carolina 8, W. Virginia 8, Mississippi 7, Alabama 6, Louisiana 6, Florida 5, Tennessee 5, Georgia 4, Texas 2, Dist. Columbia 1, So. Carolina 1. Total, 86.

Canada—25.

Stock Breeders' Page

SHIRE MARES FOR SMALL FARMERS.

[London Live Stock Journal.]

There are very few who remember the trade for heavy horses so brisk and the prices for good animals so extraordinarily high as they are just now, and this in spite of the great advance in the use of motor power during the last few years. Nothing could put greater confidence into the hearts of Shire horse breeders than this; that is to say, if their confidence needed any backing up, which is doubtful, considering the way in which the Shire has held his own, in spite of the prophecies of pessimists who tried to lead us to believe that motor power would soon drive the horse out of existence. It is a great question if any branch of stock breeding has been so lucrative to the farmer as the breeding of Shires, and the breeding of Shires has this advantage over other breeding operations in that it is a business in which the small farmer can participate with an equal prospect of success with those who occupy large holdings. On a small farm where only three or four working horses are kept it is equally as cheap to maintain that number of well-bred Shire mares as so many nondescripts, and two or three well-bred foals to sell every autumn bring in a nice and useful little check.

It is well known that many of the best Shires have been bred on small farms and sold for high prices as foals to owners of large studs who have brought them out, and there is still greater encouragement for men on small farms to enter the ranks of the Shire horse breeders now with the advantages that are offered under the Development Scheme. Provided two or three sound, well bred mares can be obtained the services of good sires are now easily available, and not the slightest excuse can prevail nowadays for using unsound stallions.

The best and soundest blood is let out annually by the owners of large studs to the various enterprising Shire Horse Societies, and those farmers who cannot afford to pay a large fee are enabled to get assisted nominations to horses hired by those societies which have received a grant under the live stock scheme. By the sale of foals there is a quick and highly profitable return, both on the keep of the mares and on money expended in stud fees, and, besides, there is always the chance of a plum turning up that will pay a whole year's rent of the farm.

Somehow or other the writer has often observed that it is those farmers in the smallest way who have the best luck with their brood mares, owing no doubt to the fact that they cannot afford to let them live idly. They work for their living and consequently breed regularly and produce healthy, vigorous foals. The farmer or his sons look after the mares themselves, so that they are properly fed and driven, every care being taken previous to and at foaling time, and the foal is handled and looked after as it should be. It is very important to handle foals early and teach them to behave in a proper manner, so that when sale time comes they can be shown to the best advantage, and they should also be taught to eat some corn early so that they will be in good bloom and spirits.

It cannot be impressed too strongly upon all who made a practice of selling their Shires as foals that it is most important to use only the best of sires, and to think nothing of paying higher fees and the extra trouble and expense of perhaps a railway journey. The difference in value between foals by a well known good sire and those by an unknown one is very great.

Fashion and pedigree carry much weight in Shire breeding as in the breeding of other stock, but there is this point to be remembered, that whereas in cattle breeding the animals make big prices by reason of the female line to which they belong being of fashionable blood, yet in horses it is the other way about, and, in assuming the dam is sound and straight, the value of the foal is assessed to a great extent on the merits of the sire.

Of course, the merit of the foal counts for a great deal, but still, if by a well-known sire, its value is greatly enhanced. Considering, therefore, this difference in value in foals of equal merit individually by fashionable and unknown sires, it can easily be seen that the best and most fashionable sires are the cheapest to use, even if double or treble fees have to be paid for their services, and many a farmer can trace a good deal of his success in business to the fact that he has been fortunate enough to live within an easy distance of one or other of the best Shire studs, where reasonable terms have always been granted to bona fide tenant-farmers. The sire, however, cannot do everything. There must be sound and weighty blood on both sides.

The gelding market must always be kept in view, and there is at all times a big check to be obtained for a good, sound, weighty gelding. Filly foals generally fetch the most money, but good, sound, weighty colts meet a ready sale if likely to make stallions, and there is always the gelding trade for the others. Farmers are always advised by wealthy presidents at sale luncheons to "stick to their fillies," but when a farmer is offered from $250 to $500 for a foal he cannot well afford to refuse it. He must, of course, replace his older mares by young blood from time to time, but very valuable foals are best allowed to pass into the hands of those who can afford to stand the risk.

A great point in favor of the keeping of pedigree Shire mares is that the breeding of Shires can be carried on without interfering in any way with the other branches of industry on the farm. They are a lucrative but yet subsidiary part of the general system, and the flock and herd, whether dairy or feeding cattle, can be carried on just the same.

Any farmer who decides to keep a few pedigree mares in place of the usual nondescripts can rest assured that he is embarking on a sound business that rests on a more solid basis than the breeding of any other class of stock. Cattle and sheep breeders depend a great deal on the foreign demand and always have to face a slump in values owing to droughts, closing of ports, and various other causes, none of which affect the Shire, inasmuch as a good Shire can always find a ready market at home, and the vicissitudes of our climate and the vagaries of the foreigner have no effect on the value of a good Shire.

The Shire breeder has always two strings to his bow—he can sell the produce as foals, for which there is always a brisk demand, or he can work them on the farm till four or five years old, during which time they will earn all their keep, and then sell them for town work, and today we see town geldings easily making $500 apiece. There is, too, always the plow team available for any that get blemished, or what may be called "misfits," although the latter are more often found in the light horse section. Let a farmer lay in a good foundation by the purchase of thoroughly good sound mares, then use the best sires available, and a highly profitable return is certain.

Hog and Cattle Markets at Chicago.

The present booming hog market warrants speculation as to the basis on which the new pig crop will be valorized, says the Chicago Live Stock World of August 25th. Continuance of an $11 market will be improbable, although trade prophets predict a high spot in September. The latter part of October usually witnesses a break, but present conditions are abnormal, packers' cellars will be bare at the inception of the winter season, and if the movement is kept within bounds a healthy market is assured. Last year frosted corn sent pigs by the hundred thousand to the stock yards during October, November and December, causing demoralization and insuring the deficiency in mature hogs that has been responsible for the recent $11 market.

With hogs selling around $13 per cwt in Canadian markets, present "singer" demand at Chicago by Toronto packers is not surprising. They are paying top prices and keeping a class of thin rangy hogs at a premium that would otherwise sell on a level with packing grades. This Canadian demand has been a stout prop under the Chicago market for months past and it promises to continue. When free trade in live stock went into effect certain theorists insisted that it meant cheaper pork, but Canada, instead of being a contributor to the domestic supply, is spending millions of dollars annually for American hogs.

Range cattle from the northwest are not running in good form. They were advertised as fat, but few have so far reached Chicago in that condition, the character of the run having been decidedly disappointing to killers. In Wyoming and Montana cattle wintered badly, which will be responsible for a belated beef round-up. Fat little Mexicans selling around $7 per cwt are doing a creditable stunt.

This week's run of cattle at western markets has resulted in congestion at the killing beds. Butchers got behind with their work Monday, hence the indisposition of buyers to send cattle over the scales. The European war has created a labor condition in packing circles that is little short of serious. Packers have been forced to make concessions in the matter of wages and are short handed at that.

Army Horse Prices in Chicago.

Chicago advices of August 26th say that it looks very much as though the allies want all the horses we can spare them and will continue to do so until the war is over and then some more. As it is the present British, French, Italian, Belgian and Swiss orders already placed should absorb about all the horses we can spare for quite some time. There is no change in army prices, riders bringing from $116@165, and gunners from $160@200. Prices for commercial chunks are dominated by that range, and the same may be said for wagoners and expressers. Reject stock brings from $80@120 for gunners and from $55@67.50 for the bulk of the riders. There is not much doing in the commercial end, the inquiry being about the same as for the past two weeks, feeding geldings being taken at a range of $170@200, best chunks $210@235, and heavy weights from $240 upward, according to weight and quality.

Secretary of the Interior Lane announces that more than a quarter of a billion acres of land remain in the public domain, according to official figures just compiled by the general land office. These acres are located in 25 different states, extending from California to Michigan, from Florida to Washington.

Short Course Students Increase Farm Profits.

It pays the farmer to go to school, according to the University of California.

While arranging for the Short Courses in poultry husbandry, agriculture, horticulture, and dairy manufactures to be given at the University Farm at Davis from October 2d to November 10th, the University of California has received a number of letters from farmers who attended former Short Courses in which they give enthusiastic testimony to the profit of their six weeks at the University Farm.

"The money I spent on the Short Course was the means of doubling my salary," said a letter received by the University from Carl Robertson of Santa Anita.

"I learned the trade of cheesemaking in the Short Course at the University Farm," wrote Oliver Ghiggioli, from Birds Landing, "and as my score in the Educational Contests shows, it has enabled me to hold my own against any experienced cheese-makers in California."

"The Short Course is worth cold dollars," wrote Sam Nealy of Rialto. "I passed along my notes and my training in hog-raising to my brother and it has made him money, especially in regard to feeding. The training in stock-judging was of great value to me. They can't palm off a cheap cow on me now. The Farmers' Short Course taught me that a farmer to be successful must really use his head."

"The Short Course in dairying, through its lectures and clinics gave me information I could not have procured by years of study by myself," wrote W. R. Heinbach of Fresno. "The course enabled me to start my own business and in six months I increased the daily capacity from 100 to 1000 pounds. The Short Course more than doubled my earning capacity."

"The Short Course in Dairy Manufactures did me a world of good," wrote Glenn Wilson of Chowchilla. What he learned there won him a position as manager of a creamery in Chowchilla.

"If I had had the opportunity to learn how to raise poultry the Short Course gives, instead of having to buy my knowledge by costly experience, I would be richer today by thousands of dollars," said one successful commercial poultryman in a talk to some of the University students of poultry husbandry. This year's poultry course is to teach the farmers and their wives who come to the University Farm how to incubate, brood, and care for fowls. There will not only be lectures, but all these processes will be learned by actually doing the work, and there will be instruction also in allied subjects, such as irrigation, gas engines, farm machinery and field crops.

A Better Bull Worth the Difference.

A breeder who had been producing registered Hereford cattle for a number of years decided that he would invest in a better bull. After considerable searching he purchased a good sire at what he thought was a long price. The bull was well bred and an excellent individual. His neighbors decided that he was buying more reputation than bull.

The first year he produced 43 calves out of this bull that sold for $152 per head more than the calves from his other bull, and he still had the bull left. This breeder was a good judge of stock and a good feeder, as well as a salesman. It is difficult to say just how high a bull can be sold and not be profitable under the best conditions. If this bull had been purchased to use on grade cows, or placed in the hands of a poor manager, he would have been too high.

If this breeder had used an inferior bull, reduced the selling price of his calves $152 per head, there would be a great difference between the value of an inferior bull and this good bull. A bull of the right kind and properly bred (so that it will breed on) is valuable property.

Imported Sheep at Auction.

At a sale of 135 imported Hampshire, Shropshire and Cotswold rams and ewes held at Waukesha, Wisconsin, recently an average of $90 was obtained. The lot was about equally divided between the three breeds, and consisted of about two-thirds rams and one-third ewes. Top prices were obtained for Hampshires, the extreme best of the vendue being $260, paid for a ram of that breed to go to the flock of Walnut Hall, Donerail, Ky.; Day & Rothrock, of Sprague, Wash., took Hampshire ram lambs at $250 each; Jess C. Andrews, West Point, Ind., paid the top prices for Shropshires, going to $190 for a ram and to $225 apiece for a pair of ewes. Alex. Arnold, Galesville, Wis., was the best bidder for Cotswolds.

The sale of Berkshires held by W. S. Corsa at Gregory Farm, Whitehall, Ill., on August 15th was a success. The 40 head made an average of $89. The offering was distributed from California to Connecticut. S. D. Wicks, Pomfret, Conn., was the most extensive buyer, taking almost a carload of breeding material for his Doane Hall Farm. He bought the boar Superb Masterpiece for $370, one of the best boar productions to come from Gregory Farm. Other good buyers were Butte City Ranch, Butte City, Cal., and A. B. Humphreys, Mayhew, Cal.

The offering of 26 Shorthorns sold by F. I. Derby at Shreveport, La., on August 18th, under the auspices of the American Shorthorn Breeders' Association, resulted in an average of $253. The six bulls averaged $189 and the 20 females $275.

A "365" Day Liniment

YOU ARE SAYING TO YOURSELF—"If I only knew of something to stop that Backache—help my Rheumatism—cure my Neuralgia, I would send and get it at once."

Get It. Relief. Gombault's Caustic Balsam will give you immediate relief. A Marvelous Human Flesh Healer and a never failing remedy for every known pain that can be relieved or cured by external applications. Thousands testify to the wonderful healing and curing powers of this great French Remedy. A Liniment that will soothe, heal and cure your every day pains, wounds and bruises.

Gombault's Caustic Balsam
The Great French Remedy Will Do It

It Helps Nature to Heal and Cure. Penetrates, acts quickly, yet is perfectly harmless. Kills all Germs and prevents Blood Poison. Nothing so good known as an application for Sores, Wounds, Felons, Exterior Cancers, Burns, Carbuncles and Swellings.

"I had a bad hand with four running sores on it. The more I doctored the worse it got. I used Caustic Balsam and never needed a doctor after that." —Ed. Rosenburg, St. Ansgat, Ia.

Mrs. James McKenzie, Edina, Mo., says: "Just ten applications of Caustic Balsam relieved me of goitre. My husband also cured eczema with it, and we use it for corns, bunions, colds, sore throat and pain in the chest."

A Safe, Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Rheumatism and Stiff Joints. Whenever and wherever a Liniment is needed Caustic Balsam has no Equal.

Dr. Higley, Whitewater, Wis., writes: "I have been using Caustic Balsam for ten years for different ailments. It has never failed me yet."

A liniment that not only heals and cures Human Flesh, but for years the accepted Standard veterinary remedy of the world.

Price, $1.50 per bottle at all Druggists or sent by us express prepaid. Write for Free Booklet and read what others say.

SMITH'S WONDER WORKER

Nerve and Rheumatic Remedy

These two ailments baffle the V. S. oftener than all other lameness; in fact they fail to diagnose the case at all. By the use of the above remedy and steaming with the Wonder Worker liniment you always get the desired results. Do not be deceived, but give it a trial and be convinced of the merit of this remedy. PRICE $4.00 per bottle.

W. K. SMITH & CO. Tiffin, Ohio.

W. E. DETELS, Pleasanton, Cal.
Distributing Agent for the Pacific Coast.

THE CONQUEROR KNEE SPREADER

They stop any pacer or straight line trotter from hitting their knees. They increase the speed of a horse and never tire him, because they work on ball bearings using rubber only from hoof to stick leaving the action of the horse free. Clasp adjustments. They never hit the shaft are easily attached, fit any shaft and are durable. Patented 1914. I guarantee them for 6 months, except the rubbers. Price, $20.

CHESTNUT TOM 2:17¼ FOR SALE.

Chestnut Tom 43488, standard and registered, eighteen years old, but strong and vigorous, is offered for sale for a ridiculously low price. The late Martin Carter, who was one of California's most successful breeders, considered this horse one of the very best he ever bred for a sire. Chestnut Tom is sire of the dam of the coast champion Wilbur Lou (1) 2:19½, (3) 2:10¼, sire of Natal Day 2:13¼, coast champion two-year-old. The late Martin Carter bred Chestnut Tom for a broodmare sire. He is by Nutwood Wilkes, his dam is by Director and his grandam is the dam of his sire and by Nutwood. $150 takes him. Address GEO. T. ALGEO, 3608 Piedmont Avenue, Oakland.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

MODERN BREAKING

By W. A. BRUETTE

A revised edition of the latest Treatise on the Training of Setters and Pointers.

THIS book enables anyone to do his own training and fully explains the methods employed by the most successful trainers in developing the setter and pointer. The important lessons are illustrated by photographs from life; nothing is left to guesswork. The entire subject is covered, from the selection, raising and development of puppies to the conditioning of dogs and their handling in the field. The amateur is told, in lucid language, how to make a dog a high-headed, stylish worker, stanch on his points, steady to shot and wing, and a prompt, tender retriever; all of this is accomplished by simple methods, some of them never before given to the public. The instructions for correcting the faults of bird dogs and keeping them up to their training are concise and easily understood. Every man who owns a bird dog or shoots in the field should read this book.

For Greatest Satisfaction Use

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires.

This 100% greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires *absolutely punctureproof*.

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the *most economical* and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many *Double Service* style tires are in use in the U. S. government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer:

PRICES

	Tires	Tubes		Tires	Tubes
30x3 in.	$ 8.60	$2.30	36x4 in.	$17.45	$4.65
30x3½ in.	10.85	3.10	35x4½ in.	21.20	6.60
32x3½ in.	12.75	3.20	36x4½ in.	22.50	5.75
33x4 in.	15.75	4.20	37x4½ in.	23.60	6.20
34x4 in.	15.70	4.35	37x5 in.	26.30	6.60

All other sizes not included in above list also furnished. Non-skids at 10% additional.

Terms: Payment with order at above special prices, a 10% discount allowed on orders for two or more tires. All personal checks must be certified.

Try these tires now and be convinced of their very high qualities. Sold direct to the consumer only.

Descriptive folder upon request. Write for it.

Turn Your Hand Trap Stunts into Dollars

TELL us your "stunts" with the Hand Trap at camp, picnic parties, aboard motor craft, in the woods and fields, at the shooting club's joker trap, or any place where the Hand Trap has given amusement, instruction and experience to yourself and friends.

We Will Pay Cash for Illustrated Stories

For the best descriptive story of the most novel and practical Hand Trap experience accompanied by at least three group photographs of actions described, (containing more than one person) we will pay a first prize of $15.00; a second prize of $10.00; two prizes of $7.50; five prizes of $5.00 each; FIFTEEN PRIZES of $2.50 in CASH.

ALL STORIES AND PICTURES MUST BE SENT BEFORE DECEMBER 1, 1916

For desirable pictures, (publication rights released to us) accompanying stories not accepted, we will pay ONE DOLLAR on receipt of film.

IF YOU HAVEN'T A HAND TRAP RENT ONE OF YOUR DEALER when you buy your shells and targets.

Get your ideas "rounded-up,"—plan your exposures and let your camera earn a few dollars.

No restrictions as to age or sex of contestants or number of stories and photographic groups submitted, but prefer stories not over 600 words.

Get a copy of DU PONT HAND TRAP BOOKLET,—reading what has been done may give you the "hunch" that gets the bunch of money we're going to pay. Write for your copy today.

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

Superior At The Traps Or Afield

MANY of the front rank shooters at the Grand American Handicap this week are using Remington UMC "Speed Shells"; some are using the famous Remington UMC shotguns; some are using both.

Afield, thousands of sportsmen are equipped with Remington UMC arms and ammunition—the men who value their shooting records. The perfect combination of the "Speed Shells," with either the Remington UMC pump gun or autoloading model, makes for better scores and fuller game bags. The popularity of Remington UMC rests upon SUPERIORITY proven by years of use in the hands of discriminating sportsmen the world over.

The dealer displaying the Red Ball of Remington UMC on and in his store announces that his place of business is Sportsmen's Headquarters. Ask him about Remington UMC arms and ammunition.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, in heavy paper cover, $1; $1.50, postpaid.

National Newspaper Bureau, Agent, 219 East 23rd St., New York City.

Entered as Second Class Matter at San Francisco P. O.

Terms—One year, $3; six months, $1.75; three months, $1. Foreign postage $1 per year additional; Canadian postage 50c per year additional.

Money should be sent by Postal Order, draft or registered letter addressed to F. W. Kelley, P. O. Drawer 447, San Francisco, California.

Communications must be accompanied by the writer's name and address, not necessarily for publication, but as a private guarantee of good faith.

DATES OF FAIRS.

CALIFORNIA.

Alameda Co. Fair at Pleasanton	Sept. 13-16
Ventura Co. Fair at Ventura	Sept. 13-16
Community Fair at Ripon	Sept. 15-16
Fresno Co. Fair at Fresno	Sept. 26-30
Bishop Harvest Festival at Bishop	Sept.28-30
Kings Co. Fair at Hanford	Oct. 2- 7
Riverside Co. Fair at Riverside	Oct. 10-14
Kern County Fair at Bakersfield	Oct. 24-28

ARIZONA.

Arizona State Fair at Phoenix	Nov. 13-18

NORTH PACIFIC FAIR ASSOCIATION.

Walla Walla Co. Fair at Walla Walla	Sept. 11-13
Washington State Fair at North Yakima	Sept. 18-23
Oregon State Fair at Salem	Sept. 25-30

INTER-MOUNTAIN FAIR CIRCUIT.

Baker, Oregon	September 11
Ontario, Oregon	September 18
Boise, Idaho	September 25
Salt Lake, Utah	October 2

GRAND CIRCUIT.

Syracuse, N. Y.	Sept. 11-16
Columbus, Ohio	Sept. 18-30
Lexington, Ky.	Oct. 2-14
Atlanta, Ga.	Oct. 16-21

SECRETARY HATHAWAY of the Ventura County Fair writes that he received but two entries (Teddy Bear and Vera Hal) for the $600 free-for-all pace at the Ventura meeting and wonders why horses that are racing around the bay section for $300 purses have not been entered at Ventura. We think it is all owing to the date of the Ventura Fair which has Sept. 13th to 16th for its dates. Horses racing at the California State Fair will also race at Fresno Sept. 26th to 30th, and at Hanford October 2d to 7th. To race at Ventura they would have to make a long trip south by rail from Sacramento and then a long trip north again to Fresno, thus paying double transportation rates. If Ventura could have selected dates after Hanford we believe it could have filled a good program of races, including its free-for-all pace. For some reason or other it seems impossible for the fair associations in California to get together and agree on dates that will result in a real circuit of fairs. There are enough county fairs given in California each year to attract large entry lists to all the live stock departments as well as to a good program of racing, if the fairs were organized into a circuit with consecutive dates and as short shipments as it is possible to make. It is surprising that so many horses are annually put into training in California when the fact is taken into consideration that for several years there has been no regularly organized circuit, and few announcements of race programs before May or June. With a California circuit of ten weeks announced in March there would be five horses in training in May where there is now one, and it would be no trouble to fill a program with entries.

THE ANNUAL FAIR AT PHOENIX is one that the California horsemen who have raced there speak of in terms of the highest praise. The harness horses are always well provided for and this year there are ten $1000 purses on the list. The conditions are liberal. Entries close October 1st, and entries can be made any time up to that date, in classes to which the horses are eligible at time of making entry. The dates for the meeting are November 13th to 18th, which is after all the other meetings are over. There is no rain and no fog at Phoenix in November, the track is one of the best and the officials of the association very attentive and obliging. Remember, the closing date is October 1st, with Secretary T. D. Shaughnessy, Phoenix, Arizona.

LOANING MONEY TO FARMERS by the Government is a new thing in the United States, but in Europe and Australasia it has been successfully carried on for years. Professor Mead of the University of California says that up to 1914 Australia had advanced $60,000,000 in farm loans to promote land settlement, and so sound was the financial basis that the year saw a total default of only $478 in payments due from settlers.

The Mother of Eighteen Foals.

In a two-acre, beautifully shaded paddock on the Meek Farm at San Lorenzo, Alameda county, California, where there is perpetual green feed and running water, and a big rick kept constantly filled with the best of hay, taking her ease in her 32nd year of life, is the famous mare Cricket, the first mare to pace a mile in 2:10, a great race mare in her day and one of the most wonderful brood mares that ever lived. While her back is bowed with the weight of years and the carrying of eighteen foals to which she gave birth and suckled until they were old enough to wean, Cricket's eyes are still bright, her legs as clean and trim as a colt's, and she can trot across the lot when approached by a stranger with a nimbleness of step that belies the many years of her busy life. The writer on Sunday last, in company with Dr. Cecil Corwin, the well known dentist of Hayward, and lawyer Asa Mendenhall of Oakland, made a call upon Cricket, during which the photograph here reproduced was taken. Cricket was foaled upon the farm of the Meek Estate, has never changed ownership, and for several years has been retired with the very best the farm could provide in the way of food and care. Cricket was foaled in 1885, and made her first appearance on the track as a three-year-old in 1888. During that year she started three times, meeting those great three-year-olds Adonis, Gold Leaf, San Diego and Belmont Boy. These three-year-olds were pacing around 2:19 to high wheels and while Cricket did not win from them she showed well and got some of the money. In 1889 she was not raced, but in her work showed that she was not only fast but game, and she was taken east with the Salisbury stable in 1890, with Andy McDowell to do the driving. Her first start was at Jackson, Michigan, where she won a four-heat race, purse $500, the best heat in 2:29¼. The next week at Grand Rapids she won a five heat race, purse $500, without lowering her record, and then raced the following week at Grand Rapids where she won a $600 purse in straight heats and reduced her record to 2:14¾, following this with another straight heat win for a $600 purse, the best time being 2:17½. At Detroit, July 22d, she met Grant's Abdallah and several of the cracks of that time in a $2000 purse, again making it three straight with the last heat

CRICKET 2:10 BY STEINWAY
From a photograph taken August 27, 1916.

in 2:14¼, a new record for her. Three days later she started at the same track for another $2000 purse and again she won in straight heats. At Cleveland, Ohio, August 1st, she met the pacer Dallas and a big field of pacers in a $2000 purse, which went to five heats before she was declared the winner, and five days later at Buffalo met much the same field, winning two heats and second money, and pacing the fastest heat of the race in 2:13¼. It was at Independence, Iowa, in the latter part of August, that her greatest race was paced. Here she met Major Wonder and a field of six other high class pacers. The Major won the first and second heats, but Cricket took the next three and in the third heat paced to a record of 2:12½, the fastest heat of the race. After pacing this great race on Wednesday, it was found that in a race in which she was entered for Thursday there were no other starters and Mr. Salisbury was offered the purse of $1200 if Cricket would lower her record of 2:12½. Although she had raced five hard heats the day previous, Mr. Salisbury decided to make the attempt and, hitched to the high wheeled sulky of those days, and driven by Andy McDowell, she paced the mile in 2:10—the first time a mare ever paced that fast. At the close of that year but three pacers held faster records than Cricket. They were the then champion Johnston 2:06¼, bay gelding by Joe Bassett, Roy Wilkes 2:08¼, brown stallion by Adrian Wilkes, and Hal Pointer 2:09¾, bay gelding by Tom Hal. Gold Leaf, that had beaten Cricket as a three-year-old, stood fifth on the list with a record of 2:11¼, while Adonis and Dallas were tied for sixth place with records of 2:11½. She was shipped home with a record of having made ten starts, winning nine races and getting second money in another. Her total winnings were just under $10,000. Arriving at Sacramento after the long journey from Independence she was started the next day against Almont Patchen, Ned Winslow and Belle Button, but made a disastrous break the first heat and was behind the flag for the first time in her life, while the heats of the race were all around 2:20, time that would have been only a jog for her when right.

Mr. Meek concluded not to race Cricket any further and she was put to breeding, being mated the first time with Sidney. Her first foal was William Harold that took a race record of 2:13½ pacing and now at the age of 24 years is still doing stud duty, and as a roadster is not an easy one to hold when another horse comes alongside. During the present season two of Cricket's latest foals, Colleen by Charley D. 2:06¼ and Bold Harry Aerolite by Aerolite 2:06¾, have entered the 2:10 list, both pacers. Her list of standard performers are the following:

Wm. Harold p. 2:13¼ by Sidney 2:19¾.
Cricri p. 2:20 by Direct 2:05¼.
Isobel t. 2:19 by McKinney 2:11¼.
Hopper t. 2:14¼ by McKinney 2:11¼.
Crispiani p. 2:22¼ by Nutwood Wilkes 2:16¼.
Colleen p. 2:06¼ by Charley D. 2:06¼.
Bold Harry Aerolite p. 2:07¼ by Aerolite 2:06¾.

There are several more of Cricket's foals that have secured records in matinees and in races that have not been placed on record in the Year Book. She has had eighteen foals altogether, but as many have been sold at the farm's auctions, trace of many of them has been lost.

Cricket was sired by Steinway and her dam was Witch by Dolphin, a son of Eaton Horse 122, next dam Dolly, a mare that was said to be a thoroughbred. She was bred by the late Harry W. Meek and now in her 32nd year remains the property of his estate. Few mares have such a record as Cricket, the first mare to pace in 2:10, which record she made to high wheels, and she is probably the only record mare living that has produced eighteen foals.

The Advantages of Showing.

It makes little difference what kind of an animal one tries to win blue ribbons with, the procedure, up to a certain point, is about the same in all; that is in so feeding and caring for them, as to give them what experienced exhibitors and judges call "condition." To learn what condition is and how to give it to a horse or a pony is not the work of a short time. The successful exhibitors of the present period commenced to learn how to condition their animals years ago. One of the first things they learned was that good breeding may be found behind all the show animals of super-excellence.

Breed-type and character are wanted in every animal and in order to get these qualities judgment must be exercised in choosing the sire to mate with the females. Even then, all the offspring will not make show animals. There must be a careful selection made for size, substance, and quality. These things are wanted in pleasing proportions. Having bred right and selected carefully, feed and care are essential in keeping the animal thrifty. Before one show is over preparation should be made for the following year. Everything possible should be done to make the winning animal better for next year, and to overcome deficiencies in those that failed to come up to the judge's ideal. The one who shows advertises his stock and keeps the public in touch with the quality of animals that are being produced. They have an opportunity to study the type, conformation and quality of animals that are preferred. The show-ring largely sets the standard for type. There are also many lessons for the breeder. He comes in competition with other breeders, gets their ideas and sees how the animals are placed. This tends to set him on the right track to better breeding, provided he is capable of putting his new impressions into practice.

Breeders who now attend the large shows commenced showing their stock at the county fairs and there learned their first lessons in regard to what was looked for in the breed he was interested in and in show-ring strategy. The minor fairs could be made of much greater value to stockmen if all good animals in the community were fitted and shown. It is no disgrace to come second in strong competition, and the quality of the stock is not lowered one bit if it stand fairly low in a long line of good individuals. Judging is a matter of comparison, and the exhibitor with his eyes open can see, as well as the judge, where his animal is deficient. Many weak points in an animal do not become prominent until brought alongside another animal. Off type, lacking in conformation and uniformity of parts, or possibly not sufficient care taken in fitting may be the reason for one animal being placed below another. This is where the educational features of the show-ring are brought out. The breeder who can see little deficiencies in his own animals and is a good loser comes back the next year with many of the weaknesses overcome.

This, of course, refers to exhibitions in the breeding classes. If one desires to go farther, and show his horses or ponies in the harness and saddle classes much more will have to be learned, for in those classes pace, action and manners have to be considered and the one who would succeed in that direction must master the problems presented and, in case he cannot himself develop a good degree of skill as a reinsman or a rider provide himself with some one who has that skill.

September 1st, hogs jumped to $11.40 per hundred in the Chicago market, the highest price since 1863, when good to heavy hogs sold at $11.45.

HARNESS RACES AT CHEHALIS, WASH.

The Southwest Washington Fair, held at Chehalis during the week ending Sept. 1st, was well attended and furnished some good racing. In the 2:25 trot A. R. G. equaled the track record by trotting the second heat in 2:13¼. In the 2:10 pace on the second day Fred Woodcock's pacer Hal Paxton won handily, pacing three heats below 2:10. The summaries:

2:25 trot, purse $500:

A. R. G., bl h by Gumaer Hal....(McGuire) 1 1 1
Beauty B., b m by Pluto.....(McGirr) 2 2 2

Time—2:13¼, 2:15¼, 2:15½.

Program For Lexington Meeting.

President Ed. Tipton has given out the following program for the annual Fall meeting of the Kentucky Trotting Horse Breeders' Association which will open October 2d and close October 14th:

October 2—Walnut Hall Cup, $3000; two-year-old Futurity, $5000; 2:08 pace, $1000; 2:14 pace, $1000.

October 3—Kentucky Futurity, $14,000; 2:06 trot, $1200; 2:15 trot, $1000; 2:05 pace, $1000.

October 4—Board of Commerce for 2:00 pacers, $3000; the Limestone, $2000; 2:11 trot, $1000; 2:12 pace, $1000.

October 5—Transylvania, $5000; 2:09 trot, 2:21 trot, 2:09 pace, $1000 each.

October 6—Blue Grass and Lexington, $2000 each; 2:13 trot, 2:16 pace, $1000 each.

October 7—Kentucky, $2000; Breeders' Stakes, $9000; 2:17 trot, $1000; 2:03 pace, $1200.

October 9—Castleton Cup, $3000; Champion Futurity (four-year-old trotters), $5000; 2:14 trot, 2:17 pace, $1000 each.

October 10—Ashland, $2000; Dinner Stakes, $3000; 2:08 trot, 2:15 pace, $1000 each.

October 11—Cumberland, $2000; pacing futurity, $2000; 2:05 trot, $1000; 2:14 trot for two-year-olds, $1000.

October 12—2:12 trot, 2:20 pace, 2:10 pace and 2:11 trot for three-year-olds, $1000 each.

October 13 and 14 are reserved in case of postponements on account of rain.

The Walnut Hall Cup, Futurity, Kentucky Futurity, Limestone, Transylvania, Blue Grass, Lexington, Kentucky, Breeders', Castleton Cup, Champion Futurity, Ashland, Dinner Stakes, Cumberland and Pacing Futurity are closed, but entries to all others will close on September 15. The subscribers to the Transylvania are to name the horses they intend to start on September 15.

President Tipton announced that Lee Axworthy 2.00¼ will trot a mile on October 2 in an effort to beat 2:00.

LABOR DAY MATINEE.

As part of the program for the Labor Day celebration in San Francisco, four harness events were raced before a big crowd at the Stadium in Golden Gate Park with the following results:

First race—2:20 pace:

Sis Hopkins .....(Hopkins) 4 1 1
Dibble Wilkes .....(Frank Burton) 1 4 2
Hello Girl .....(R. Kehoe) 2 2 3
Black Mack .....(Martin Ford) 3 3 4
Time—2:20, 2:20½, 2:20½.

Second race—2:16 pace:

Little Dick .....(Scott) 2 1 3
Rosa O. .....(Martin) 1 3 2
Pointer Belle .....(Ed Luce) 4 2 1
Cookie .....(J. Vermet) 3 4 4
Time—2:18½, 2:17½, 2:17½.

(Tie between Little Dick and Rosa O. decided by toss of coin, Little Dick winning.)

Third race—Free-for-all pace:

King Pointer .....(Burton) 1 1
J. C. Simpson.....(Goularte) 3 2
Little Jack .....(H. Campodonico) 2 3
Senator H. .....(D. Hawks) 4 5
Emma M. .....(Malough) 5 4
Time—2:13½, 2:11¾.

Fourth race—2:20 mixed:

Bird Eye .....(A. Combatalade) 1 2 1
Minequa .....(M. Ford) 2 1 3
Silver Logan .....(D. Healy) 3 3 2
Darby Mc .....(Joe McTigue) 4 4 4

MONTPELIER, IDAHO, RACES.

The first meeting of the Inter-State Circuit was held at Montpelier from August 15th to 18th. The track is a half mile. Results:

Aug. 15—2:14 pace, purse $400:

Armadillo, bl m by Montana Grattan....(Huber) 1 2 1
Harold Welcome, b h by Welcome.....(Butcher) 3 1 2
Elizabeth Hal, b m by Walter Direct....(Strong) 2 4 6
The Potteress, ch m by Potrero Boy..(Stewart) 7 3 7
King Bird, Mabel C. and Jenny Fitzsimmons.
Time—2:15, 2:14, 2:16.

2:17 trot, purse $400:

Allie Lou, b f (4) by Kinney Lou.....(Dennis) 5 4 1 1
The Corsair, b h by Walnut Hall....(Huber) 1 2 2 2
Sweet Bow, b m by Bon Voyage.....(Ivey) 6 1 3 3
Baby Lally, bl m by Bonnie McK.....(Bush) 2 3 7 re
Amy McKinney, Sis Meridian, Marie Fitzsimmons, and Mountain Boy.
Time—2:20, 2:16¼, 2:18.

Aug. 16—2:30 pace, purse $400:

Daisy D., b m by Hal B.....(Kenney) 1 1 6
Bob Fitzsimmons, Jr., b h by Bob Fitzsimmons
.....(Dennis) 3 7 1
Nampa Maid, bl m by The Magnet (Williamson) 2 2 4
Daisy Direct, ch m by Direct Hal....(Williams) 8 3 3
Ed Lewis, Cecil C., Payette Girl, Bob Minoe, Linnie C. and Mountain View.
Time—2:18, 2:17¼, 2:17¼.

2:18 pace, purse $400:

Helen Zedo, b m by Bob Fitzsimmons....(Dennis) 1 1 3
Sister Norte, b m by Del Norte.....(Maxwell) 2 3 1
Lady Goo Goo, b m by Macey Medium..(Murray) 4 2 2
Jim Stewart, b g by California Dillon.....
.....(Williamson) 3 5 6
Silver Slivers, Toffee and one other.
Time—2:14¼, 2:15¼, 2:15.

Aug. 17—2:10 pace, purse $400:

Josie Knight, gr m by Twelfth Night (Dennis) 1 4 2 1
Van Sickle, b h by Gambetta Wilkes (Erwin) 6 7 1 2
Axcybetta, ch h by Axcyone.....(McKay) 4 1 3 3
Emeline Dillon, b m by Guy Dillon..(Stewart) 2 2 ds
Prince Wilkes, Elizabeth Hal, May Davis and Delmas.
Time—2:14, 2:17, 2:16, 2:18.

2:24 trot, purse $400:

Amy McKinney, bl m by Captain McKinney....
.....(Wilbur) 5 1 1
Al McK., b h by Bonnie McK.....(Bush) 2 3 2
Pfeister's Linwood, b g by Lynwood W(Compton) 1 5 ds
Negra, b m by Letrado.....(Stetson) 4 4 3
Time—2:24½, 2:22, 2:22.

Aug. 18—2:25 pace, purse $400:

Daisy Direct, ch m by Gene Direct Hal.....
.....(Williams) 2 3 1 1
Veno Hal, b m by Hal B.....(Kenney) 3 1 3 2
The Potteress, ch m by Potrero Boy.....
.....(McConnell) 1 2 4 3
Fern Lad, b h by Inferna.....(Smith) 9 5 2 ro
Ginger, Montpelier, Miss Electrite, Linnie C., Nogi and King Hal also started.
Time—2:15¼, 2:19¼, 2:20¾, 2:21.

ENTRIES FOR VENTURA COUNTY FAIR.

Ventura, Cal., September 1.—The $600 free-for-all pace and the 2:20 trot or pace for $250, scheduled for the Ventura County Fair failed to fill and some otherwise wise horsemen overlooked a good thing. The races filled were the Ventura County free-for-all pace, the 2:18 trot or pace and the two half-mile running races. The hurdle race, exhibition jumping event and the big chariot races were more than filled. The entry list for the fair and the dates on which races will start are as follows:

Ventura County Free-for-all—$500—Sept. 14.

Zomar, Donlon Bros., Oxnard; Santa Paula, James Gill, Oxnard; Babe, James Cuccatto, Oxnard; McVerde, A. J. Donnelly, Ventura; Nordwell, William Cook, Ventura.

2:18 Trot or Pace—$250—Sept. 16.

Queen McGregor, Thos. Morgan, Pasadena; Nordwell, Wm. Cook, Ventura; McVerde, A. J. Donnelly, Ventura; Babe, James Cuccatto, Oxnard; Santa Paula, James Gill, Oxnard; Zomar, Donlon Bros, Oxnard.

Half-Mile Running Race—$100—Sept. 14.

Rapid May, R. H. Gudgeon, Santa Barbara; Barney Mason, O. T. FitzPatrick, Saticoy; Light Comedy, E. G. Dolley, Santa Paula; Star Light, Ed. Levengood, Los Angeles; Lonia, Mrs. Effie Holcomb, San Diego.

Half-Mile Running Race—$100—Sept. 16.

Same entries as last above.

POUGHKEEPSIE SUMMARIES.

Tuesday, August 29.

The Dutchess, 2:17 pace, three in five, $3000:

Jay El Mack, b h by E. J.....(Murphy) 1 1 1
Diumeter, b g.....(Grady) 2 2 2
Spring Maid, ch m.....(White) 3 4 3
Wilbur S. and Hal Plex.
Time—2:06½, 2:06¾, 2:03¼.

The Vassar, two-year-old trot, two in three, $2000:

The Real Lady, b f by Moko.....(Murphy) 1 1
Ante Guy, b f.....(Phillips) 2 2
Emma Magowan, br f.....(Murray) 3 3
Harvest Gale, Betha McGuire and E. Colorado.
Time—2:08¾, 2:09½.

2:03 pace, three heats, purse $1200:

Hal Boy, b g by Hal B.....(Cox) 1 1 1
Fay Richmond, br g.....(Reap) 3 2 2
Peter Stevens, b h.....(Murphy) 2 3 4
Time—2:05½, 2:03, 2:03.

2:19 trot, three heats, purse $1000:

Empress of Russia, ch m by Peter the Great..
.....(Murphy) 1 1 1
Trusada, b m.....(Cox) 2 2 2
Barbara King, ch f.....(J. Dickerson) 4 5 3
Amy Frisco, Luke A., Nash, Narcissa D., Notice B.
Time—2:10¼, 2:10½, 2:10¾.

To beat 2:02 pacing—Directum I, ch h by Directum Kelly (Murphy), lost. Time—2:03.

Wednesday, August 30.

The Hudson Valley, 2:12 trot, three in five, $2000:

Mabel Trask, ch m by Peter the Great...(Cox) 1 1 1
Azora Axworthy, b m.....(Murphy) 6 2 2
Esperanza, b m.....(Durfee) 2 3 6
Junior Watts, Caroline, Belzona and Sweet Spirit.
Junior Watts and Caroline divided fourth money.
Time—2:10½, 2:07¼, 2:08¾.

The Guy Axworthy, for three-year-old trotters eligible to the 2:17 class, two in three, purse $2000:

Expressive Lou, b f by Atlantic Express..(Murphy) 1 1
Native Judge, b c.....(Murray) 2 2
Stella Maris, br f.....(J. Dickerson) 3 4
Libia, Brownie Watts, Balmackan, Bertron, Cochata, Jay and Peter Dixie.
Time—2:10½, 2:12.

2:05 pace, three heats, purse $1200:

General Todd, b h by George Todd.....(Rea) 1 1 2
Russell Boy, b hby Rustic Patenter.....(Edman) 2 5 1
White Sox, b m.....(Durfee) 3 2 3
Time—2:05½, 2:06½, 2:07.

The Poughkeepsie, 2:15 trot, three heats, $2000:

Brisac, br h by Ingara.....(Murphy) 5 1 1
Baron Frisco, b g by San Francisco (W. Dickerson)1 2 3
Exito, br g.....(Good) 5 3 2
American Girl and Dos Palos.
Time—2:08¾, 2:09¼, 2:10.

Thursday, August 31.

The Knickerbocker, 2:08 trot, three in five, purse $5000:

St. Frisco, b h by San Francisco.....(Geers) 1 1 1
Ima Jay, br m.....(Ernest) 2 3 2
Director Todd, m g.....(Cox) 3 2 7
Laramie Lad, b g (McDonald); Humfast, b m (Murphy); Alma Forbes, b m (Ackerman); Virginia Barnette, b m (Durfee).
Best time, 2:05.

2:09 pace, three heats, purse $1000:

Major Woolworth, br h by The Abbe..(Hubbard) 1 1 2
The Savoy, blk g by Charley Hayt.....(Floyd) 2 2 1
Areta V., ch m.....(Cox) 4 3 3
Lillian W., ch m (Davis).
Best time, 2:06¾.

2:10 trot, three heats, purse $1000:

Almack, b h by McLintock.....(Murray) 1 1 1
Helen Worthy, b m.....(Murphy) 5 2 2
McCloskey, br g.....(McDonald) 2 4 4
Howe Constantine, b g (Batchelder); Country Tramp, ch g (Davis).
Best time—2:07¾.

2:15 pace, three heats, purse $1000:

Young Todd, br g by Director Todd.....(Cox) 1 1 1
The Problem, br h.....(Murphy) 2 4 2
Sir Anthony Carter, br h.....(Geers) 3 2 3
Commodore Dallas, b g (Chapell.
Best time—2:05¾.

Friday, September 1.

2:13 trot, three heats, purse $1000:

Allie Watts, ch m by Gen. Watts.....(Edman) 1 1 1
Pittsburg, ch g.....(Murphy) 2 2 2
Baby Doll, b m.....(Rodney) 3 3 3
Tregantle King, Sombrecht, Littie L., Bellini.
Time—2:09, 2:07¾, 2:08½.

2:18 pace, three heats, purse $1000:

Sis Bingen, blk m by Bingen.....(Murphy) 1 1 1
Rayo de Oro, ch g.....(Durfee) 2 2 3
Marjorie Ray, b m.....(Cox) 3 3 2
Time—2:10½, 2:12, 2:08¼.

The Directum I, 2:00 pace, two in three, purse $3000:

Napoleon Direct, ch h by Walter Direct.....(Geers) 1 1
Single G., b h.....(Edman) 2 2
Russell Boy, b h.....(Edman) 4 3
Hal Boy.
Time—2:02½, 2:00¾.

2:07 trot, three heats, purse $1200:

Mirthful, b m by Star of Patchen.....(Murphy) 1 2 1
Esperanza, b m by Carlokin.....(Durfee) 2 1 2
Worthy Prince, b h.....(Cox) 3 3 d
Time—2:10½, 2:11, 2:10.

2:10 trot, three heats, purse $1000:

Brescia, b m by Bingara.....(Rodney) 1 1 1
Worthy Bingen, blk h.....(Murphy) 2 2 5
Onward Allerton, b g.....(Edman) 5 5 2
Coastess Mobel, Linden Hall and Vallette.
Time—2:09¼, 2:11¾, 2:10¾.

Finds Horses Best.

A California farmer says that for farming on a large scale where you can make the tractor take the place of 20 or more horses it will pay you if you will get a good one that will not always be laid up for repairs when you want to use it. But for four to six horses, "I believe the farmer will be better off to stay with his horses until the small tractor is improved and cheapened so the small farmer can afford to buy one. I have used a 30 h. p. tractor a little over one year. It has cost me for repairs $600."

The epidemic of infantile paralysis has become so prevalent in the vicinity of New York City and the central part of the Empire State that several fairs and race meetings have been postponed by order of the state board of health. The Hohokus (N. J.) Fair will not be held until the second week in October, the fair at Richfield Springs, N. Y., has been declared off altogether, while the attendance at the fairs that are now being held is much lighter than usual, due to the fact that children under sixteen are prohibited from entering the grounds.

Thoroughbred Matters

Three Wins in One Day for Macomber.

The sensation at Belmont Park on Friday, September 1st, was the winning of half the card by the horses of the Macomber stable, trained by Walter Jennings. That the triple win by this stable after its long period of hard racing luck was popular with the spectators at the track was evidenced by the applause that followed each winning of one of the stable's candidates which reached a climax in enthusiasm after Star Hawk had followed the victories of Kittenish and Hesperus with a like achievement in the Locust Valley Handicap, which was the feature race on the card.

And it was an imported thoroughbred that won each of the three races for this year's recruit to racing at this track.

Kittenish was the first of the Macomber string to earn brackets and she was a handy winner of the opening five furlong dash through the straight that was framed for maidens. L. Wood's Pickwick, making his first start, was the one to race to the place, while third went to the Oak Ridge Stable's Sea Wave. The only other starter was Richard T. Wilson's Polonium, an imported gelding.

The Macomber silks repeated in the second race when Hesperus, another imported one, dashed through his field in the last furlong of a six furlong dash to beat home L. Wood's King Mart, while Bridget O'Connor, from the stable of C. H. Robbins, was the one to race third. As was the case in the opening dash, the Wood starter was greatly fancied before post time and the result was identical when the Wood horse was second.

The third Macomber victory came when his imported Sunstar colt, Star Hawk, who was second to George Smith in the Kentucky Derby, was winner over the mile and a sixteenth distance. This was the fourth race, known as the Locust Valley Handicap and the only ones to oppose him were G. A. Miller's Flittergold and E. F. Whitney's Rhine Maiden.

Star Hawk was on his bad behavior at the post and was kicking and bucking until in one of his plunges he unseated Phillips. He lashed out with his heels repeatedly and he found Flittergold in range twice.

When the barrier finally rose Rhine Maiden shot away with an advantage, and Lowder hustled her as though riding in a five-furlong spirit. She was five lengths to the good at the first pole and Star Hawk had shaken off Flittergold and was in second place a good two lengths before the half brother to Friar Rock.

Phillips was sitting still on Star Hawk and he made no effort to go after the filly until well into the stretch. Making the turn he swung out slightly to have a straight run, and without being urged, Star Hawk went to the filly. At the same time Ambrose rushed up on the rail with Flittergold, and when Lowder went to the whip on Rhine Maiden she was all through and the other two came by. Flittergold was finishing very resolutely under his drive, but Phillips was in no way worried and he sat still to have Star Hawk winner by half a length.

Walter Jennings shipped all of the Macomber horses yesterday direct to Kentucky, where Mr. Macomber has over thirty yearlings ready to go into active training. It is evident that should he not meet with altogether unforeseen bad luck, Walter Jennings will have an exceptionally powerful string of high-class thoroughbreds in his charge next season.

While he has had rather hard luck this year, especially with the imported animals in his string, every horseman knows the string he has been training includes some splendid three and four-year-old prospects, while the large lots of thoroughbreds which he has bought this season from J. B. Noel in England and from John E. Madden of Hamburg Place should greatly improve his stable in both quality and volume.

Friar Rock, the famous three-year-old, has been sold by August Belmont to John Madden for $50,000 and will not race any more but be sent to Mr. Madden's Hamburg Farm, Lexington, Kentucky, where he will do stud duty.

◈ ◈ ◈

The Louisville Cup, with the $2,500 added to it by the Douglas Park Jockey Club, will likely be richer in value this season than at any time previous, since it has been the big feature race of the autumn meeting at Douglas Park. Douglas Park opens the Louisville racing season on Monday, September 18, and covers a period of eight racing days, winding up on Tuesday, September 26, which will be the date of the running of the big cup race, which is an event of two miles in distance.

◈ ◈ ◈

The autumn meeting at Churchill Downs, which closes the fall racing season at Louisville, begins this year Wednesday, September 27. The historic St. Leger Handicap, which is over the full cup course of two miles and one-quarter, is the feature of the coming autumn meeting at the Downs, and is one of the most popular of races among the fixed events annually raced for on any American track.

A. K. Macomber Gives $17,500 for Dodge.

Dodge, winner of the Latonia and American derbies and conqueror of Spur, was sold at Saratoga Saturday afternoon, Aug. 26th, to A. K. Macomber for $17,500 to dissolve the partnership of Messrs. Weber & Ward. Samuel Ross, of Washington, acted as the bidder for Mr. Macomber. John W. Schorr and J. W. May carried the three-year-old to $10,000 and there Willis Sharpe Kilmer took up the running. His last bid was $17,000 and then the buying bid was made by Mr. Ross.

All told four racers were sold by the Power-Hunter Company, and Franklin brought the second highest figure when knocked down to J. S. Ward for $8,500. This three-year-old is highly considered by that horseman, but has failed to show his true form of late.

Solar Star, a six-year-old son of Star Shoot and Sardine, was purchased by Ral Parr for $1,300. The other racer in the vendue, Norvic, a three-year-old gelding by Sempronius—Gliding Belle, went to J. S. Ward for $800.

Campfire Wins Hopeful Stakes.

Campfire, Richard T. Wilson's great two-year-old son of Olambala and Nightfall, won the Hopeful Stakes, of which the winner's share was $18,500, from a field of an even dozen picked youngsters on the closing day at Saratoga. C. K. G. Billings's Omar Khayyam was second and A. K. Macomber's Star Master was third. In Campfire Mr. Wilson holds the season's champion two-year-old. Following his victories in the Saratoga Special and the Sanford Memorial, this son of Olambala proved his class by picking up the heavy tax of 130 pounds, running from behind on the inside of his field, and then winning handily. Not only was Campfire carrying top weight, but it was weight so big he was giving away from twenty to twenty-three pounds to every other starter in the race with the exception of Harry Payne Whitney's Rickety, who had 119 pounds to carry, or eleven pounds less than the winner.

Not only did Mr. Wilson have placed to his credit the richest stake of the American turf, but there was something that was far more gratifying to him and that was that he had bred and brought his star to the races. Olambala, always a favorite with the young owner, was made more dear to him by the great showing of one of his get. By running second, Omar Khayyam, an imported son of Marco and Lisma, earned $3000, while Star Master, the son of Star Shoot and The Lady in Blue, made $1500 by running into third place.

When asked what he had to say about Campfire's victory, Mr. Wilson said: "I have always known that I had a good colt, but today's performance set the seal on his greatness. He should race on and go any distance of ground as a three-year-old. The fact he is of Olambala's first crop of 2-year-olds and Nightfall's first foal, is encouraging. Every one of Olambala's get but one has now won races. Men breed for years to get one race horse, but I have been fortunate enough to get not only a good racehorse, but a potential sire as well at the very outset of my efforts."

Rich Futurity Goes to Campfire.

The Futurity, richest of stakes for two-year-olds, worth this year $17,340 to the winner, $2,366 to second and $1,135 to third, was won at Belmont Park last Saturday by Richard T. Wilson's Campfire, when he ran the six furlongs in 1:13 4-5, beating Harry Payne Whitney's Rickety by a half length, while H. H. Hewitt's Skeptic was third.

Ten went to the post and there was a delay of four minutes owing to the turning and twisting in an effort to be off well. Campfire had the outside position of the company and he was the best behaved one of the lot, though Vivid, who was alongside of him, frequently bolted in front of him while jockeying for position.

Notter was not ready with Tumbler when the barrier rose, but the others left in excellent alignment, with Campfire just showing the way to Madeira, one of the Cochran starters. Vivid was showing the way to the others and Pleasant Dreams left in a good position. Skeptic was in rather close quarters and he was not as prompt to be under way as some of the others.

As Campfire left he bore over from the outside position, where the going is always a trifle deep, and he had foot enough to steer that course without interfering with the others in the field. Madeira was right in the front division and at one time was in the lead, and Rickety was stepping along in a most impressive way.

Madeira found that she was a bit over her head in the matter of class before the dash was very old, but Rickety was coming along in gallant fashion. Trainer Rowe had equipped him with blinkers for the running and it made a marked difference to him, improving his form.

A quarter of a mile from the finish it was apparent that if Campfire was to be beaten Rickety was the one that would accomplish that feat. Madeira had been shaken off. Skeptic was not close enough to be seriously considered and the others were struggling along back of the son of Olambala in a futile fashion that gave them no chance to hope he would be caught.

Rickety was not so easily discouraged and he was giving the Wilson colt a close chase. He ran along on the outside of the son of Olambala and was closely lapped on him and going so strongly that for an instant he looked a winner. But Johnny McTaggart was riding a confident race on Campfire and he had not called on the chestnut.

Rickety continued to close until a furlong from home his head was showing. It was then that McTaggart stung Campfire with the whip. He only hit him once or twice and it was all that was necessary. It roused him to the work in hand and he forged to the front again, but Rickety hung on with such determination that at the end Campfire's margin of victory was a scant half length.

Two lengths back of them Skeptic saved third from Vivid and the others of the company were pretty well strung out.

Secretary Pearce Resigns His Office.

The State Racing Commission of Kentucky met last week in Chairman Johnson N. Camden's sick room at his home near Versailles, Chairman Camden remaining in bed during the deliberations.

Walter H. Pearce's resignation as racing secretary at Louisville and Latonia tracks was accepted. J. B. Campbell will succeed Pearce at Douglas Park and Latonia and Edward Jasper will be secretary at Churchill Downs. This is in the nature of a victory for the Kentucky Thoroughbred Horse Association which demanded Pearce's resignation.

A resolution increasing the minimum purse at Louisville and Latonia to $800 was adopted.

The selling race rule was amended to do away with auctions in front of the stand and to require sealed bids to be filed with the secretary within five minutes after a race.

Attorney Webster Helm of Newport was permitted to withdraw Tom Brown's written confession made in the Innes case at Latonia.

"Saratoga had a wonderful meeting," remarked John Hachmeister on his return from the Eastern track. "I have witnessed many meetings at the Eastern springs, but the one this year was better than ever. They had a daily attendance of from 5,000 to 7,000, and on Saturdays it ran up to 10,000. There was not a vacant room in any hotel in the little city. New Yorkers came up for the week-end, and I saw three hundred who had to return to the big city because they could not secure sleeping accommodations. Any kind of a room commanded $10 a night. It looks as though they were racing crazy around New York, and more persons with money are getting into the racing end of it than ever before. The Kentuckians did not make a very favorable impression with their horses. Most of the owners blamed track conditions, for the Saratoga track is quite sandy, and mudders have a great chance on it. This was shown by the good work of Dodge, a pronounced mudder. But the Kentucky contingent should not be discouraged. The Easterners have the money, and having that they can go out and buy the best in the market, which they invariably do. Then, again, some of the bigger stables, like Whitney's, do not race their two-year-olds until the Saratoga meeting, and as a result the choicest of this grade is ready to meet the colts which have been going it all summer. This makes a big difference." Mr. Hachmeister said that he had secured many entries there, including those from the Macomber and the Corrigan and McKinney stables. Both of these big establishments will race in Kentucky, and the noted horse Star Hawk, an unlucky critter, will probably be seen in the cup races. "I don't see hardly how it is possible to have bigger meetings in Kentucky this fall than we did in the spring, but I think it is likely," was his answer when asked regarding the fall prospects.—[Thoroughbred Record.

Two important additions have been made to the already strong string of thoroughbreds which is being trained by Louis Feustel. These are the two Star Shoot two-year-olds purchased from John E. Madden, Defence and Starfinch. Both these colts might be pronounced typical Star Shoots. Neither is anything like overgrown, but both have plenty of size and substance. They are of the regular Star Shoot chestnut and they show much of the grace of outline and smoothness of finish which their famous sire stamps upon a majority of his get; but Defence is without doubt the superior of his handsome stablemate in the matter of conformation. He has more rangy and oblique shoulders, greater lung space and more powerful quarters than has Starfinch. Both are remarkably good-looking colts, but Defence is the more attractive of the two.—[New York Telegraph.

There were 62 winning owners at the Saratoga meeting and the leading ten with the amount won are as follows: R. T. Wilson $28,895, August Belmont $24,590, H. P. Whitney $8700, S. Ross 7875, J. Butter $7465, H. C. Hallenbeck $5435, E. M. Weld $4345, A. K. Macomber $4130, G. A. Cochran $4045, Wickliffe Stable $3625.

The big feature race of the autumn meeting at Latonia is the rich Latonia Cup which will be something like an $8,000 event this season, as Manager John Hachmeister has increased the added money in this event to $5,000. The Latonia Cup is two miles and a quarter. There will be nineteen days racing at Latonia this fall, beginning on Saturday, Oct. 7.

There will be fifty-seven days of racing at New Orleans during the coming winter. It has been decided to open December 16th and race until Mardi Gras day, February 20th. This will make the racing season the same as last year.

STATE FAIR RACES.

C. A. Durfee Wins Four Stakes With Two Colts From His Son's Stable.

Harness and running races every afternoon at the California State Fair which opened last Saturday have met the approbation of every one, from the "old timer" who has not missed a State Fair for forty years to the newcomers who are this week attending a fair for the first time. That the runners are popular with the public it is very easy to see, and were a greater effort made by fair organizations to encourage the breeding and racing of the thoroughbred, there would be larger fields of horses and still greater attendance at the fairs that provide races for both kinds of racing.

The State Fair racing program opened last Saturday with the historical Occident Stake for three-year-old trotters with a value this year of slightly under $2000. The conditions under which this stake was closed provided as follows:

"Mile heats. Race to be three heats. Every heat a race. One-third of the money will be allowed for division in each heat, and money allotted for heat divided as follows: Fifty per cent to first colt, twenty-five per cent to the second, fifteen per cent to the third, and ten per cent to the fourth. The Occident Cup and $400 to be added by the Society to be awarded to colt standing highest in the summary. Distance 100 yards. Otherwise N. T. A. rules to govern."

There were five starters in the race and at the end of three heats there were three heat winners, with Durfee's Hermes and Woy's Lulu B. tied for first place. The judges, all of whom are directors of the State Agricultural Society, ordered Hermes and Lulu B. to race another heat for the cup and added money, or otherwise it would revert to the association. Mr. Woy protested against this order, holding that the race was for three heats and three heats only. Mr. Durfee was ready to race. Filing a written protest, Mr. Woy kept his filly in the stable and Mr. Durfee drove Hermes another heat and was awarded the $400 and cup in addition to the money won in each heat. The protest will tie up the $400 and the cup until the National Association can decide the matter.

The stake was not a very good race. Miss Axworthy Dillon took the first heat in 2:16, with Lulu B. second, Hermes third, Natalday fourth and Alesandro distanced. Durfee claimed that he finished second in this heat, but the judges differed from him. The second heat went to Lulu B. in 2:15, with Hermes second, Miss Axworthy Dillon having made a break at the first turn and finished last. Hermes made a break at the first quarter and fell back four or five lengths before regaining his feet, but came fast and was only beaten a little over a length at the finish by Lulu B. in 2:15.

In the third heat Hermes went to the front at the start and stayed there, being a length in front of Lulu B. until turning into the stretch, when DeRyder who had been having a race with Natalday for third place, brought his filly up and challenged Lulu B. Hermes was first to the wire in 2:13¼, the fastest heat of the race, with the Axworthy filly second, Lulu B. third and Natalday last. Then came the protest and Hermes jogged a fourth heat alone in 2:26.

Mono Ansel took the 2:14 class pace in straight heats, showing a lot more speed than any horse in the race. Pedlar Direct, Mabel Dillon and Bradmont had a hard time trying to beat one another for second, third and fourth money, Mr. Longley's horse finally winning second place in the summary, Mabel Dillon third and Bradmont fourth.

Three good running races ended the day's sport, Geo. Wingfield's mare Swart's Hill by Chuctanunder winning the opening dash of five-eighths by three lengths, T. Halfield's three-year-old Slippery Elm by Bannockburn, after a hot drive through the stretch, taking the Chamber of Commerce Handicap of one mile by a length from C. W. Clark's Bryn Limah, while the six furlong dash was won by Geo. J. Miller's El Mahdi by Voter, only a half length in front of Rice & Clements' Bernard.

Saturday, September 2.

Occident Stake—three-year-old trotters, $1960:

Hermes, blk c by Carlokin—Miss Quealey 2:26¾ by Moko ..... (C. A. Durfee)	3	2	1 1
Lulu B., b f by The Bondsman—Loma B. by Stam B. ..... (Quinn)	2	1	3
Miss Axworthy Dillon, b f by Axworthy—Cleo Dillon by Sidney Dillon..... (C. DeRyder)	1	4	2
Natalday, b c by Wilbur Lou..... (Sanders)	4	3	4
Alesandro, b g by Barney Barnato..(Berry)	dis		

Time—2:16, 2:15, 2:13¼, 2:26.

2:14 class pace, purse $1060:

Mono Ansel, b h by Monicrat—Decoratio by Prince Ansel ..... (Finley)	1	1	1
Pedlar Direct, b s by Baron Direct..(C. DeRyder)	3	4	2
Mabel Dillon, ch m by Sidney Dillon....(Burton)	5	2	3
Bradmont, b g by Alto Leyburn.....(Machado)	2	3	8
Irene D., b m by Charley D.....(Jones)	4	6	6
Dixon Boy, br g by The Patchen Boy (W. Smith)	8	7	4
Bertie Seattle, b m by Prince Seattle.(H. Smith)	6	8	5
Alto Barnato, b g by Barney Barnato....(Berry)	7	5	7
Breezy Marie, b m by Athasham.....(Arnold)	10	9	9
Best Direct, ch s by Best Policy.....(Brolliar)	9	w	

Time—2:10¼, 2:11, 2:10.

Running, five furlongs, $150—Swart's Hill (Matthews) won by three lengths, Ed Luce (McAdams) second by a half length, Gorden Roberts (Hanmer) third by one length. Time, 1:01. Jennie Crawford, Sweet Bait, Watch and Rapid May also ran.

Running, Handicap, One Mile, $500—Slippery Elm (T. Henry) won by a length, Bryn Limah (Matthews) second by a half length, Cordie F. (J. McIntyre) third by one length. Time, 1:40¾. Rash, Adalid, Senorita, Dana also ran.

Running—Six furlongs, $150—El Mahdi (J. McIntyre) won by a half length, Bernard (McAdams) second by three lengths, Acumen (W. McIntyre) third by a half length. Time 1:14¾. Quality, Delmas, Antrim and Zamlock also ran.

On Monday there was the largest attendance ever seen at a California State Fair, there being nearly fifty thousand persons inside the grounds. Three harness races were on the card. C. A. Durfee won the State Fair Futurity for three-year-old pacers with Clarence Berry's pacer Rico in straight heats, but while Roy Mayes' Verna McKinney and D. W. Wallis's Julia M. were second and third respectively each heat, every heat was a horse race from start to finish. The second heat was so close between the three that they came to the wire lapped on one another, all three being driven to their utmost, and it brought forth loud cheers from the tremendous crowd that filled every available point from which the race could be seen.

The 2:30 trot went to Geo. Giannini's mare Ella M. R. in straight heats and the daughter of Lord Alwin lowered her record to 2:11¾ and showed that she would be a candidate for 2:10 honors later on. Fred Chadbourne won second money with Mr. Thompson's Zolock Zar and Al Schwartz got third money with his handsome little mare Miss San Francisco.

In the two-year-old trot for a $500 purse, James Thompson landed L. Todhunter's colt McKlyo Boy the first heat in 2:23¼, a slight reduction in the colt's record, but Chas DeRyder brought Sutherland & McKenzie's colt Rhyolite by Del Coronado to the front the next two heats and got first money. Third money went to H. Hogoboom's Lily of the Valley and fourth to Alex. M. Wilson's Kewpie.

The three running events were all good contests and are best described in the summaries.

Monday, September 4.

California State Fair Futurity, $1000:

Rico, ch c by Manrico—Pavlowa B. by Petigru ..... (C. Durfee)	1	1	1
Verna McKinney, b m by Vernon McKinney.... (Chadbourne)	2	2	2
Julia M., b m by El Angelo.....(Allen)	3	3	3

Carolyn and Stanley Quinn distanced first heat.
Time—2:10¾, 2:11½, 2:12¾.

2:30 trot, purse $1000:

Ella M. R., b m by Lord Alwin—Excella by Monbells ..... (Machado)	1	1	1
Zolock Zar, br g by Zolock.....(Chadbourne)	4	2	2
Miss San Francisco, b m by San Francisco.... (Schwartz)	2	3	4
Doctor S., b g by Carlokin.....(Murphy)	5	4	3
Howard's Comet, b g by Teddy Rey...(Hoffman)	3	d	
Major's By Guy, blk s by Major Dillon..(Berry)	d		

Time—2:11¾, 2:12½, 2:14¼.

Two-year-old trot, purse $500:

Rhyolite, b c by F. S. Whitney—Rubell by Del Coronado.....(C. DeRyder)	2	1	1
McKlyo Boy, b c by Peter McKlyo—Sweet Bow by Bon Voyage.....(Thompson)	1	2	2
Lily of the Valley, b f by Palo King(H. Hogoboom)	3	3	ro
Kewpie, b g by Carlokin.....(Smith)	4	4	ro
Skyrocket, b g by Albaloma.....(Berry)	d		

Time—2:23¼, 2:21¼, 2:25.

Running, five and a half furlongs—Swarts Hill (Matthews) won by 3 lengths; Sweetbait (Hugera) second, by 4 lengths; Right Smart (Leeds), third by 4 lengths. Time, 1:08¾. Gordon Roberts, Miss Fielder also ran.

Running, one and an eighth miles—Zamlock (Matthews) won by a half length; Delmas (J. McIntyre) second by 2 lengths; Senorita Dana (McAdams) third by 2 lengths. Time, 1:54¾. Acumen and Cordie F. also ran.

Running, six furlongs—Sam Connor (J. McIntyre) won by a length; Marie Coghill (Cavanaugh) second by neck; Jennie Crawford (O'Mahoney) third by 2 lengths. Time, 1:15. Labelle Brocade, Barnard and Stentor also ran.

On Tuesday "Pop" Durfee repeated his performances of the two previous days by again winning the stake race. This was the State Fair Futurity for three-year-old trotters and with a much different field than he had met in the Occident Stake, he made it three straight with Hermes in slower time, Ben Walker getting second money with Frank Malcolm's Miss Bond, Fred Chadbourne winning third with J. J. Campbell's Baron C. McGregor, and Berry winning fourth money with Director Borden's Alesandro.

The 2:20 pace brought a surprise in Lock Logan, who under the driving of his owner Elmo Montgomery, forgot the foolishness he had indulged in at Santa Rosa and won every heat in the fastest race of the meeting thus far, beating a different horse each heat and acting like a real race horse. Bold Harry Aerolite, short of work on account of an ailing leg, was not the horse he was at the two previous meetings and divided second and third money with Directess Mac, a much improved mare. Pedlar Direct was fourth.

The three running events were good races but there were no very close finishes.

Tuesday, September 5.

California State Fair Futurity—three-year-old trotters—Stake $1400:

Hermes, b c by Carlokin—Miss Quealey by Moko ..... (C. A. Durfee)	1	1	1
Miss Bond, b f by The Bondsman.....(Walker)	2	2	2
Baron C. McGregor, b c by The Bondsman.... (Chadbourne)	3	3	3
Alesandro, b g by Barney Barnato.....(Berry)	4	4	4
Natalday, b c by Wilbur Lou.....(Sanders)	d		

Time—2:18¾, 2:18¼, 2:18.

2:20 class pace, purse $1000:

Lock Logan, b h by Zolock—Effie Logan.... (Montgomery)	1	1	1
*Bold Harry Aerolite, b h by Aerolite..(Machado)	2	3	5
*Directess Mac, blk m by Nearest McKinney.... (Schwartz)	3	5	2
Pedlar Direct, b s by Baron Direct..(C. DeRyder)	6	2	4
Irene D., b m by Charley D.....(Jones)	4	4	3
W. J. K., b g by Dexter Prince.....(Smith)	5	d	

Harry Mac, Villa and Alto Barnato distanced.
*Divided second and third money.
Time—2:08¾, 2:09¾, 2:14.

Running, five and a half furlongs—Marie Coghill (W. McIntyre) won by a length and a half; Quality (Waldon) second by three lengths; Right Smart (Matthews) third by a head. Time, 1:08¾. Bernard also ran.

Running, six furlongs—Jennie Crawford (O'Mahoney) won by three lengths; Wasatch (J. McIntyre) second by a nose; Sam Connor (Cavanaugh) third by three lengths. Time, 1:16. Stentor and La Belle Brocade also ran.

Running, six furlongs—Rash (Ormes) won by length and a half; Senorita Dana (Matthews) second by three lengths; Letitia (Henry) third by one length. Time, 1:14¼. Miss Fielder, Acumen, Rapid May and Bellsnicker also ran.

For the fourth time in four days' racing did C. A. Durfee win first money with a colt that his son W. G. had turned over to him to race while he (the son) went across the mountains to meet all the best in America with his aged horses. In a letter to "Dad" some time ago "Willie" said the game looked pretty bad for him and he hoped pater familias would win enough out of the stakes in California to even up things. It is evident that "Dad" is doing all he can for "the Kid."

The Stanford Stake for three-year-old pacers, worth about $1000, was won by Durfee with Clarence Berry's Rico, a son of the good young sire Manrico 2:07¼. He took the first heat in 2:12¼, with W. W. Gallup driving his new purchase Surety a good second and Montgomery's Carolyn third. In the second heat Surety came fast in the stretch and Rico broke and galloped under the wire. He was set back to third position and Surety was awarded the heat in 2:11, with Carolyn second. Durfee trailed the next heat until reaching the head of the stretch, when he threw Rico's gear into high and passing the other two won pulling up in 2:12½.

The 2:15 trot was a repetition race, every heat being the same, so far as the positions of the horses were concerned, Walter Tryon winning every heat with Chas. Silva's mare Eloise Dell by Alconda Jay. The summaries:

Wednesday, September 6.

Stanford Stake—three-year-old pacers—$1000:

Rico, ch c by Manrico—Pavlowa B. by Petigru.. (C. A. Durfee)	1	3	1
Surety, b c by The Bondsman—Eva H. by Washington McKinney .....(Gallup)	2	1	2
Carolyn, b f by Lock Logan.....(Montgomery)	3	2	3

Time—2:12¼, 2:11, 2:12½.

2:15 trot, purse $1000:

Eloise Dell, b m by Alconda Jay—Lovely Dell by Prince Lovelace .....(Tryon)	1	1	1
Major's By Guy, br s by Major Dillon...(Berry)	2	2	2
Howard's Comet, b g by Teddy Rey..(Hoffman)	3	3	3
Doctor S., b g by Carlokin.....(Murphy)	4	4	4
Lindsay Bell, b m by Bon Voyage.....(McLees)	5	5	5
Dick W., b g by Walter Barker.....(Walker)	d		

Time—2:14¼, 2:12½, 2:13½.

Running, three-fourths of a mile—Miss Fielder (Matthews) first, by 2 lengths; Ed. Luce (McAdams) second, by 3 lengths; Bellsnicker (McIntyre) third, by ½ length. Time, 1:15. Sweetbait and Rapid May also ran.

Running, five and a half furlongs—Slippery Elm (Henry) first, by 3 lengths; Adalin (Early) second, by 5 lengths; Marie Coghill (W. McIntyre) third, by 3 lengths. Time, 1:07. Elmahdi also ran.

Running, three-fourths of a mile—Antrim (J. McIntyre) first, by 1 length; Acumen (Early) second, by ½ length; Stentor (McAdams) third, by 1 length. Time, 1:15¾. La Belle Brocade also ran.

HARTFORD GRAND CIRCUIT RACES.

Monday, September 4.

The Experiment, purse $2000 (three heat plan):

Brisac, br s by Bingara.....(Murphy)	1	1	1
American Girl, ch m.....(Murray)	2	2	2
Jess Y., b m.....(Pittman)	3	3	3
Lu Princeton.			

Time—2:12¼, 2:10½, 2:10¾.

2:10 trot, $1000 (three in five):

Howe Constantine, br g by Constantine..... (Batchelder)	1	1	1
Humfast, br m.....(Carpenter)	5	2	2
Almah, br m.....(Carpenter)	2	7	5
McCloskey, Dick Watts, Sweet Spirit and Peter Boy.			

Time—2:10½, 2:09½, 2:09¼.

2:08 pace, purse $3000 (three in five):

Miss Harris M., b m by Peter the Great..... (McDonald)	1	1	1
Billy Dale, b g.....(Cox)	3	2	2
J. L. Mc., br s.....(Murphy)	2	3	3

Time—2:15½, 2:06¼, 2:05¼.

Tuesday, September 5.

2:14 trot, $1500:

Galeton, blk g by Barongale.....(Prusie)	1	1	1
Leon B., b m.....(Murray)	2	3	2
Marion Kirke, rn f.....(Goode)	3	2	3
Dos Palos and Helen Worthy.			

Time—2:20¼, 2:17½, 2:17¾.

2:15 trot, $1000:

Azora Axworthy, b m by Bale Axworthy(Murphy)	1	1	1
Fayre Rosamond, b m.....(Cox)	2	2	2
Worthy Bingen, blk s.....(Murray)	3	4	3
Karoni, Evito, Caroline and Kitty L. Bellini.			

Time—2:10½, 2:10¼, 2:10¾.

2:18 trot, $1500:

Empress of Russia, ch m by Peter the Great.... (Murray)	1	1	1
Baron Frisco, b g.....(Dickinson)	2	2	2
Trusada, b m.....(Cox)	4	3	3
Bettina and Tommy O.			

Time—2:14¾, 2:13¼, 2:13¼.

State Revenue from Autos Now $2,094,389.

Seven thousand eight hundred and forty-four automobiles were registered in the state during August, bringing the total registrations for the year up to 205,378, according to figures given out this week by the motor vehicle department. Not as many machines were registered in August as in July, the July total being 10,221.

The total amount derived during August from the registrations is $42,510.55, as against $54,261.10 for July. Up to date this year the state has realized the total of $1,986,298.96 from the automobile licenses.

One thousand one hundred and sixty-nine motorcycles were registered during August. The July motorcycle registrations totaled 1,546. The sum of $1169 was realized from the motorcycle licenses during July as against $1570 in August. The total amount of money received from motorcycle registrations during the year is $51,042.50.

Notes and News

"POP" DURFEE, THE DANGEROUS MAN.

[With apologies to the author of "The Dangerous Girl."]

You're wonderful, but not beautiful
For you're overweight and gray, we know,
But you got into the habit at the fair this fall
Of starting in the colt stakes and winning them all.
You're not Oslerized,
Perhaps you're Pasteurized,
For you're built on the "ever young' plan.
Your weight must be close to two hundred, we reckon,
But when you start the other fellow's second.
In a harness race,
Be it trot or pace,
You're still a doggone dangerous man.

Dan Hoffman drove the erratic trotter Howard's Comet the best race that horse has shown this year. He was third in every heat of the 2:15 trot at Sacramento and won third money. This is the first race the Comet has started in this year that he was not distanced. If Dan gets on to the Comet's curves he will show a fast mile some day.

Al McDonald sold his three-year-old pacer Surety by The Bondsman before the State Fair meeting to W. W. Gallup for $750. Surety has improved under Gallup's tutelage and won a heat and second money in the Stanford Stake last Wednesday, the heat in 2:11 being the fastest of the race.

Wonder what the late Senator Stanford would say about the historical Stanford Stake being made a race for pacers. When "the Governor," as they always called him at Palo Alto Stock Farm, was in the flesh he would not permit a colt to be trained at the lateral gait, and during his time no horse owned at Palo Alto ever started in a pacing race.

Elloretta D., W. E. Detels' good filly, that won second money in the Pacific Breeders' Futurity for two-year-old trotters at Santa Rosa last month, has no other engagements and will be thrown out of training until next spring when she will be taken up and trained for her three-year-old engagements. She trotted a quarter in 32½ seconds at Pleasanton this week.

The classes at the Arizona State Fair meeting to be held next November have been made a little slower this year for both trotters and pacers, in the hope of attracting some of the medium class horses from Southern California, Arizona, New Mexico and other western states. The association is also planning a better running race program than ever before. The question as to whether or not pari mutual betting is contrary to the Arizona statutes is now before the supreme court of that state for decision. It may not be decided however until fall. If the decision is favorable this system of betting will be used at the State Fair of 1917.

Curt Gosnell, the trainer who drove Single G. to a record of 2:00 this year and who was so badly injured when a hoppled pacer fell with him August 25th, died from his injuries this week. He was jogging the pacer when she stumbled and fell and Gosnell was pitched over her head. The horse, in attempting to extricate herself from the hopples, trampled on her driver and he was fatally injured, an arm being broken and his skull fractured.

Peter the Great is now the sire of six 2:05 trotters.

Lon Daniels offered the trotter Kid Cupid 2:08¾ at auction in front of the grand stand at North Randall during the meeting there. "Doc" Tanner acted as auctioneer and knocked the California trotter down on a bid made by Sam Pickering, of Pittsburgh.

The local admirers of Hal McKinney 2:06¼, Mr. Dennison's good pacer, regretted that he was not at Omaha to compete in the free-for-all pace. It will be remembered that Hal was injured when lightning struck the barns at Mt. Pleasant, Ia., recently, killing Manager p. 2:06¾. At first it appeared that the Hal B. pacer was not seriously injured, although he was knocked down, but later, when Bob Sebastian started to work him he was very lame in front. The veterinarians thought that the bolt had passed down the shoulder, and upon striking the shoe gave the foot a severe shock. Hal McKinney has been a wonderful half mile track campaigner, and this season seemed better than ever, so it is to be hoped that his career is not ended.—Horse Review.

The seven-year-old trotting mare, Ilo Tolus 2:09, by Pactolus 2:12¾, dam Pocahontas 2:20½, by Domineer 2:20, dropped dead in her stall at the Peoria, Ill., race track on August 15. She was the property of A. B. Hunter of New Madrid, Mo., owner of the pacer Peter Pointer p. (4) 2:05¾ and other good ones, who purchased her only a few weeks ago from O. E. Folk, of Riverside, Cal.

W. Averell Harriman, the prominent New York amateur horseman, bought the bay trotting gelding, Baron Frisco 2:13¼, from Harry C. Briggs of Brockton, Mass., last month, paying the well known Massachusetts horseman $3000 for the son of San Francisco 2:07¾.

Emma Magowan, who recently lowered the record for two-year-old trotters in a race over a half-mile track to 2:13¾ at Goshen, N. Y., is an own sister of P. Forbes (2) 2:12¼, the holder of the world's yearling record over a half-mile track, 2:21¼. Both are by J. Malcolm Forbes (4) 2:08, out of Iviolette, by Moko.

Marque of the Horse Review was at Omaha during the racing of August 22-26, and wrote as follows about Fred Ward and the Hemet Farm colts: "Fred Ward had a fine week of it with the Hemet Stock Farm stable, from Hemet, Cal. Louise de Lopez 2:23¼, the two-year-old with which he won the event for her age, is one of the nicest things I have seen this season, in both gait and appearance ranking favorably with the Grand Circuit futurity candidates. She is a show filly, being an exceptional individual, with a beautiful front stroke, and I reckon her one that is likely to prove a sensational trotter with age. Fred shipped her to Des Moines, and on Friday she won there, trotting in 2:19¼, thus scoring twice during the week. Her sire, Kinney de Lopez 2:23 by Kinney Lou 2:07¾, is certainly destined to take a high place as a speed-getter, for Fred also won the three-year-old trot with Don de Lopez, which colt, while not so perfectly gaited as Louise, is a very good young trotter. He is large and fine looking, and made a good impression on horsemen here. Practically all the horses that Ward brought over from California are in good condition, which speaks well for their trainer's ability; for, especially in the case of youngsters, it would not be surprising if they trained off from the change of climatic conditions. Great Northern 2:12½ has been a consistent winner, and while he didn't win here, he, as always, gave an excellent account of himself."

The California trainer, W. G. Durfee, has sold the unmarked trotter, Lady Arabella by Alta Vela 2:11¼, to W. J. O'Neill, of Pittsburgh, Pa. She worked in 2:10¾ for Durfee before leaving California, and will join the Pittsburgh matinee brigade.

Richie (Shorty) Roberts purchased Bradmont from George Giannini at Sacramento Wednesday. Roberts took out his new acquisition for a workout in the morning, and he paced the mile in 2:08¾. Bradmont will be used for matinee racing at the Park Stadium, and will be driven by his new owner.

After several years of unsuccessful effort, Dromore Farm has been able to get a foal from Miss Stokes (3) 2:08¾. The youngster is a nice bay colt by Justice Brooke (3) 2:08½, a great rival of Miss Stokes, both as a two and three-year-old.

O. R. Sphinx, a blind gelding, won the 2:13 trot at Toledo, Ohio, Thursday of last week. It was a six-heat race, the last mile being stepped in 2:13¼.

After 30 years of service for the American Express Co., at its Watertown branch, Jerry, oldest horse in the stable, was shipped to New York Saturday to end his days in the old horses' home of the company. He was born in 1882 and of late had not been worked daily. Jerry often went driverless from the company's office to the Armour refrigerators for a load of meat and could be depended upon to back his wagon up to the landing and bring its load safely to the station.

In the second mile of his race at North Randall August 25th, Napoleon Direct paced from the half-mile post to the wire in 59¼ seconds, and from the ¾-mile post to the wire in 27¾ seconds. This last quarter is said to have been officially equaled but once, when Evelyn W. 2:00½ was driven a last quarter by Bert Shank in the same notch.

The fastest pacing record for one mile that has stood longer than any other is the two-year-old record held by the black stallion Directly, that paced to a world's record of 2:07¾ in 1894. In 22 years the breeders of pacers have not been able to produce a two-year-old that could lower that mark.

Marvin Childs won the two $1,000 events on the opening day's card at Omaha, Neb., with R. C. H. 2:11¼ and Ben Earl 2:04½. Both geldings, by the way, are owned by Ed Peterson, the wealthy contractor of that city.

E. J. Rochon, who is a sergeant in the British army now "somewhere in France," is the owner of that good pacer The Beaver 2:03¾ that won the 2:07 pace at the P.-P. I. E. spring meeting last year and is now racing on the Great Western circuit.

Graustark, the roan pacer that went east in Lon Daniels' string, win a couple of races so handily at Xenia, Ohio, that the horsemen thought he must be a ringer, but investigation showed that he was just what he was labeled.

MAIN PAVILION BURNED ON STATE FAIR GROUNDS.

Twelve Counties Lose Fine Exhibits on Which Great Sums Had Been Expended.

The California State Agricultural Society opened last Saturday what gave every indication of being the greatest fair in its history. Not only were the exhibits in nearly every department larger and better than ever before, but the attendance was greater than any opening day had ever attracted to Agricultural Park, Sacramento. Every member of the Board of Directors was at work for the success of the fair and Secretary Charles W. Paine had everything in order. Saturday's and Sunday's programs were about completed when fire broke out a little after nine o'clock Sunday night in the main pavilion, and in an hour's time that large building with the many valuable exhibits it contained was a mass of ruins. The fire spread with almost incredible rapidity. Within ten minutes after the alarm was turned in, the annex had collapsed and the whole roof of the pavilion was ablaze. Within half an hour, three of the four walls to the exhibit building had fallen, and the north, the last to collapse, went down by 10 o'clock.

The grandstand, which was filled with spectators when the fire broke out, was emptied by a stampede over benches and through every other avenue, regular and irregular, to the ground. Impromptu fire fighters who attached garden hose to standpipes in the vicinity put out a dozen small blazes among the wooden timbers before the regular firemen arrived.

The Burke-Foley Carnival Company, which occupied the "Midway" with its freak and other shows, had all its tents, banners and equipments burned, with an estimated loss of $25,000. All the freaks and animals were saved although they had a close call.

Many valuable papers of the State Agricultural Society, and the cash receipts of Saturday and Sunday were in a safe in the Secretary's office which was in the main building, and were found intact after the fire. Secretary Paine remained in his office gathering up valuable documents until the last minute and was nearly overcome by the smoke. There were no serious accidents and no loss of life, which is remarkable as the fire advanced as fast as a person could walk through the building.

The county displays which were by far the best ever made at this fair were almost totally destroyed, a few portable exhibits being saved.

One of the largest county exhibits was that of Alameda county. The Alamedans had a display taking up 9000 square feet, occupying the main portion of the wooden annex. Other counties that had big displays were Placer, Fresno, Nevada, Yolo, San Joaquin, Colusa, Butte, Sacramento, Sutter and Yuba.

Farmington, San Joaquin county, had an exhibit in the annex, as did the state university. Other exhibits lost in the flames belonged to the sixth agricultural district of Los Angeles, and the State Viticultural Commission.

When it was seen that there was no chance of saving the big exhibit building, the fair directors, presided over by President John M. Perry, with Governor Hiram Johnson present, held a brief meeting in the judges' stand, only 300 feet away from the flames. It was not necessary to conduct the meeting by means of electric lights. The flames illuminated the scene of the meeting and made it as bright as day.

Without any parleying the directors unanimously decided to continue the State Fair and every detail of the program as announced, with the exception of that small part of the program that centered in the exhibit building, and the attendance the following day was at least 50,000, which is about 10,000 greater than any one day at any previous state fair.

It is impossible to estimate the loss, but that on the building is about $75,000 while $100,000 would not cover the loss on exhibits.

A considerable portion of the county exhibits consisted of relics which have no money value, but which were considered priceless.

Lon McDonald recently worked the California-bred and ranch-raised horse, Zomrect 2:12¼, by Zombro 2:11, dam Lilly S. by Direct 2:05½, in 2:08¾, last half in 1:03. The horse is working nicely, and with this year's schooling is expected to be a good stake trotter next season.

Thirteen-year-old Jerry Dean, son of Trainer Charley Dean, of Palatine, Ill., made his debut as a race driver at Evansville, Wis., recently, and he won the three-year-old pace with Dan the Great, a son of Peton 2:14¼ (he by Peter the Great 2:07¼), and out of Zelica, the dam of Dan Patch 1:55¼.

Of the first five foals of Lou Dillon 1:58½, champion trotting mare, four have taken records in standard time and the other is a producer of standard speed at the trot.

George Starr is training a filly at Lexington for the well-known Eastern starter of thoroughbreds, Mars Cassidy, that promises to develop into a real star. This is the two-year-old bay filly, Symphony by Tregantle, dam Melody by Chimes. She trotted a half in 1:06¼, final quarter in :31¼.

ROD, GUN AND KENNEL

CONDUCTED BY FISHER HUNT

Portland Field Trials.—Field trials are coming back into favor of Oregon sportsmen, after being dormant several years, and the next one will be held September 17 and 18. The Portland promoters of the trials are proceeding upon an amateur basis and profiting by the experience of the association that staged trials several years ago upon a plan that savored more of the professional system insofar as paid handlers were secured to put the dogs in condition.

E. A. Parsons, who was largely instrumental in the formation of the first association, and who bred and ran some of the best field trial dogs in the United States, believes that the idea now prevailing is the one best suited to this part of the country. In the east the field trials bring out many very wealthy owners and some famous handlers, who are paid handsomely for their services. All of the cash prizes are turned over to the handlers who, in addition, are paid well for their knowledge of putting hunting dogs into shape. It will therefore be seen that the owner must be pretty well off financially to be able to participate. There were not enough millionaires interested in Oregon and the northwest to keep the sport alive.

Under the present plan in operation in Oregon and particularly in Portland, the dogs are trained by their owners and judged by some local man, which cuts down the very heavy expense of importing officials of national reputation. Last year field trials were resumed in a small way and interest was recreated in the sport. This year's trials promise to be quite as interesting and exciting as formerly.

Fishermen in Forest Fire.—After several narrow escapes from death in the forest-fire-swept district near Manton, Tehama county, H. K. Sears, Chico real estate man, and Dr. Hal M. Parker reached home from a fishing trip on Baldwin creek. Parker sustained severe burns about the hands, arms and face and on one occasion the men were forced to drive their machine into Baldwin Creek and cover it with wet canvas to save it from the flames.

Once, near Black Butte, the men found themselves surrounded by fire. Friends in Manton, fearing for their safety, sent out a rescue party from the Childs Hotel. Sears organized the party and a number of ranchers into a fire-fighting brigade, which worked Saturday night and Sunday in the Black Butte District.

According to Sears, fires were raging about Black Butte, Inskip Butte and Palto. The buildings on eight or ten ranches, miles of fencing and a number of Northern California Power Company poles have been burned, besides large tracts of virgin timber.

Two hundred men are fighting the fire at Plato, where a stretch of country twelve miles long has been burned over.

Ed Head, Government Forest Ranger, told Sears that 12,000 acres of timber and grazing land had been burned over already, entailing a loss of $200,000. Sears declares that the fires are the worst that have occurred in the section. Brush fires started by stockmen are believed to be responsible.

Clash Over Migratory Law.—State Game and Fish Commissioner Jones of Idaho is quoted as saying he "will recognize September 1st as the opening date of the duck season as he did last year, and that he will not recognize the federal migratory bird law," which names October 1st as the legal date for the open season on waterfowl. Jones is also quoted as having said "game of all kinds is most plentiful this season in Idaho."

If he is quoted correctly it proves beyond question that Jones is not on to his job or has not the interests of the state and the sportsmen at heart, for September 1st is altogether too early, this season in particular, to open the shooting on ducks in Idaho. On account of unusually high water this spring many of the first "settings" were washed away, and the cold, late spring, caused the ducks generally to nest late, and thousands of flappers (ducks too young to be able to fly) that will be destroyed by "game getters" and boys who will be able to catch them with a dog or by wading into the lakes and driving them ashore, then finishing them with clubs or "any old way."—Salt Lake Telegram.

Hound Mothers Kittens.—Herbert Mitchell of Dutch Flat, Placer county, is the owner of a hound that recently gave birth to seven puppies, and about the same time the family cat brought forth a family of five kittens.

Both the mothers made their homes in the barn. When the kittens were a few days old the mother disappeared, and when Mitchell went to feed the animal he could not find the kittens.

After looking around, he found them with the puppies, the mother hound having carried them to her part of the barn and shared the milk of dog kindness with them. Part of that dog and cat family were disposed of and the mother hound is now nursing two kittens and two puppies.

COMMISSIONERS INSPECT NEW HATCHERY.

Name of Rae Lake to be Dropped to Naylor District in Honor of Sportsman.

Bishop.—Nestled in a deep granite basin held two miles skyward by titanic gray peaks, a gem of flawless, matchless beauty, Rae Lake graces the brow of the high Sierras west of Independence. Less than two decades ago its limpid waters, green as creme de menthe and brighter than the depths of fair Catalina, were barren of fish.

Last week the California Board of Fish and Game Commissioners climbed the grand heights and made the official finding that it contains more rainbow trout than any other known sea or lake or river. They haven't been counted, but it is safe to say that the number is millions.

The commission decided on the spot that it shall be made a State preserve at the next session of the Legislature, the district to include the main lake and three of the six grouped below it. All are colored with living rainbows. The preserve will be about three miles long and half as wide, guarded by the picturesque Fin Dome, towering nearly 2000 feet above it.

And it will be Rae Lake no more. Nobody seems to know why or whence that name. It will be called the Naylor District—in honor of George W. Naylor of Independence, former sheriff and now member of the Board of Supervisors of Inyo county.

Sixteen years ago this month Mr. Naylor, then a forest ranger, was camped at Charlotte Lake, already well stocked with rainbow trout from the Kings River, and he had an inspiration. Catching fourteen of the fish he carried them seven miles in a camp bucket through pathless mountains and over Glenn Pass to Rae Lake. One died on the way. The lucky thirteen thrived prodigiously.

When Mr. Naylor returned five years later he found the lake alive with them and caught several weighing four pounds each. He had achieved a master stroke in fish missionary work and one which will mean more and more to Southern California in all the years to come. All the spawn from which this part of the State will be stocked will hereafter be taken from the Naylor District to the great, unnamed hatchery now nearing completion on Oak Creek, in the Owens Valley.

The State will immediately begin construction of a splendid twelve-mile trail and a telephone line from the hatchery up the south fork of Oak Creek to the lake.

The California commissioners want first-hand information, and the trip just concluded at Independence was one of inspection and observation, as strenuous as it was fruitful of results. It covered a week, and reaching into the heart of the roughest and loftiest region of the Sierra Nevada meant traveling 100 miles on horseback or a-foot, much of the distance over tortuous and perilous trails where a misstep would bring disaster if not death at the bottom of the mighty gorges.

The commissioners led a high life, yet withal simple, which isn't a paradox; the former was merely altitudinal and the latter perforce an attendant condition. The week was spent at an elevation of two to two and a half miles. In the party, which started from Independence Monday, were Commissioners M. J. Connell and Carl Westerfeld of Los Angeles and San Francisco, respectively; Robert D. Duke of the northern city, attorney for the commission; Deputy Ed H. Ober, Special Deputy Carl J. Walters, J. L. von Blon and packers and assistants, bringing the number up to ten, with about twenty horses. President F. M. Newbert could not go. Mr. Ober covers Inyo and Mono counties, a large territory, and Mr. Walters has rendered the commission important service in obtaining water rights and building a highway from the hatchery to El Camino Sierra. He will lay out the new south-fork trail.

The Oak Creek hatchery, designed eventually to be the largest in the world, and the first unit of which will be finished in about sixty days, was the first stop. This splendid building, 200 feet long and with two-foot walls of rubble and cement throughout, harmoniously colored, and old English in style, will be unique among all structures in this country, and probably standing when others shall have crumbled. It is now ready for the tile roof.

Its massive tower will reach ninety feet above ground. It will be absolutely fireproof. It commands a magnificent view of Owens Valley and it is a magnificent view from the valley. The first unit is costing $60,000. Several are to be added as required. Beautification of the forty acres of grounds will be begun in a few days. The whole is to be made a dream in ivy.

The hatchery proper in this first unit will be 140x40 feet, with a capacity of 6,000,000 eggs a season. Naylor Lake is expected to yield fully 2,000,000 next season, and with the development of the fine spawning runs to supply the hatchery capacity thereafter. F. A. Shebley, fish culturist, who has been over twenty years with the commission in an expert capacity, is now at Naylor Lake superintending construction of a storehouse and making arrangements for handling the eggs during the next spawning season, which will begin about June 30.

He pronounces conditions there the best he has seen anywhere. The eggs will be taken from the lake to the hatchery by pack train. An eyeing station may be built at the former place next year, but its necessity has not been determined. Fish culture is an interesting and delicate process throughout. In it man has actually improved on nature.

WORLD'S RECORD FOR BIRD POPULATION.

Sixty Species Are Found Nesting on a Farm Near Washington, D. C.

A world's record for density of bird population is claimed by an American farm situated about ten miles from Washington. In 1913 Mr. Grosvenor bought a farm of 100 acres, half forest and half field, and, being interested in the work of Audubon societies, he determined to see what he could do to get birds around the home. He had such success that Mr. Henshaw, chief of the United States biological survey of the Department of Agriculture, delegated Dr. Wells W. Cooke to visit the Grosvenor farm. Dr. Cooke found so many birds there that he advised a census of those living on an acre or two adjacent to the house, as he thought the count would establish a world's record. Up to that time the record was held by a family at Chevy Chase, Md., who had attracted 13 pairs of birds to half an acre. The prospect of establishing a world's record inspired the Grosvenor family to take a census of nesting birds on an acre adjoining their house, with the result that they found 59 pairs of birds with young or eggs in the nest on that acre, which was the highest number of land birds inhabiting one acre that has yet been reported to the Department of Agriculture. A similar census made of a second acre showed that this acre had 33 pairs of nesting birds. In an article contributed to "Bird-Lore," the organ of the Audubon societies of the U. S. A., Mr. Grosvenor tells of the birds which have come to dwell at Wild Acres, as his farm is named. Wild Acres is a typical Maryland farm, with old-fashioned farmhouse, orchard, vegetable garden, hedges, and open fields. Surrounding the fields are 50 acres of woods, with a stream and springs scattered around. The bird census, taken in the week of June 15 to 21, 1915, showed that on the first acre there were one pair of flickers, one pair of blackbirds, one of yellow warblers, two of orchard orioles, two of catbirds, one of song sparrows, two of chipping sparrows, one of phœbes, 14 of house wrens, seven of robins, one of kingbirds, and 26 of martins. On the second acre there were one pair each of song sparrows, Carolina wrens, flickers, Maryland yellow-throats, brown thrashers, catbirds, chipping sparrows, screech owls, and towhoes. There were also 18 pairs of martins, four of house wrens, and two of robins. "I attribute our success primarily," said Mr. Grosvenor, "to . . . putting up many boxes and keeping fresh water handy, etc. Everything is done for the comfort of the birds; for instance, little pieces of oiled paper that the butter was wrapped in are put on twigs, and we left mud in convenient places for the martins. The catbirds used the oiled paper for their nests; in fact, they used all kinds of scraps. We had heard a deal about how tame birds become when they are protected, but we were surprised at the quickness with which they perceived the care taken of them. It was also surprising to find how friendly birds, even of the same species, could become. For instance, we had 14 pairs of wrens on a single acre, some nests being not more than 15 feet apart. We also had robins' nests only 12 feet apart. The bluebirds, on the other hand, do not like each other, and would not tolerate another pair of bluebirds nearer than 100 yards. If anyone wants excitement, let him buy or borrow a stuffed owl, and put it out in the gardens in the daytime during the nesting season. All of the birds in the neighborhood will soon congregate, and the children will learn their names quicker than in any other way." A census of species on Mr. Grosvenor's Wild Acres showed that last summer 60 species were nesting on the farm.

Gun Talk on Handtraps.—It is surprising to note the hundreds of sportsmen in all parts of the country who are resorting to the handtrap to get their quota of the pleasure and thrills which this great American sport affords.

Time was when the shotgun enthusiast was dependent upon the trapshooting club for this recreation and was lucky indeed if he did not have to journey many miles to indulge in the sport.

Today, however, the problem is solved in the handtrap, a portable device which may be laid on the floor of an automobile beside the gun case, taken on the train or on the yacht. It is always ready for business and never loses its energy. It is to be found on the country estate and on the farm. The clerk in the city office becomes as independent as his employer, for while the latter may do his shooting at the country club or over the traps of the gun club in the city, the clerk with handtrap, gun shells and fifty or one hundred targets, may board a street car with his companions and in a very short time be experiencing all of the delights that go with the sport.

EARLY GAME CONDITIONS IN SISKIYOU.

Pioneer Hunters Set Forth How Deer Were Slaughtered Back in the Seventies.

[The following statements contributed to the Fish and Game Commission by A. E. Doney, Peter Klink, and William Russell give a vivid picture of game conditions and hunting in the early days in Siskiyou County.]

In the summer of 1873 my father took a party of six young men, our present sheriff, C. B. Howard, R. Walker, my three brothers and myself, on a hunting trip from Scott Valley to the Meadows on Scott Mountain, 10 miles south of Callahan's Ranch. We were in camp six days, and during that time I saw from twenty to sixty deer each day, largely does and fawns; on going up to the higher levels we found bucks. This was the report from all of the party.

My father, W. K. Doney, was a pioneer of California of the '50 period. He did not believe in killing does and fawns; his instructions were to kill only the bucks, and of these no more than needed for meat for camp and a few pounds to take home dried, and this rule was strictly adhered to at all times.

In the summer of 1881, I went over the same ground alone on a hunt of three days and saw no deer, but during those three days the stench of the carcasses of deer that had been killed by hide hunters was in evidence, and I was never out of it until I left the range. I saw the rotting remains of so many deer and became so incensed against the men who were doing the killing that I felt like a man might who would look upon the act as murder. Even to this day, this region has not recovered from the wanton slaughter.

I remember a trip from the valley with my father in 1878. The day we went up North Coffee Creek in Trinity County, I counted 158 deer. The deer paths to the numerous licks below, near the stream, were cut by the deer from one to three feet deep along the hillsides. I killed a fine buck that evening near camp. This was the only deer killed on the trip, as we were prospecting and not hunting. The region to the west of Scott Valley, known as the Marble Mountain country, was, up to 1880, teeming with game, especially elk. One evening in 1876, a party of us were camped at Elk Lake, when a drove of elk, numbering over 75 (that many were counted), came down the opposite hillside to the lake. Two were killed. The last elk disappeared from that region about 1881.

F. M. Blooms, my partner in mining operations at Callahan's in 1881, who had been driving teams for Denny Brothers for five years prior to that date, hauling freight between Redding and Callahan's, was told by Mr. Johnson, of the forwarding firm of Bush & Johnson, Redding, that in 1880 they had handled 35,000 deer hides from Siskiyou, Trinity, and Shasta counties. I later learned, from men who had bought them, that the average price paid for deer hides was fifty cents each. William Asher, whom I met in southern Oregon, told me that in 1888 he and a man named Bowen had killed deer and shipped 3,000 hides to San Francisco.—[A. E. Doney.]

I hunted for Mr. J. H. Sisson ten seasons prior to 1883, at which time I located the farm now owned by Robert Rull. During that period I hunted about the headwaters of the Sacramento river to the west of Sisson Tavern and Strawberry Valley (in which the Tavern is located).

Often in a day's hunt I have seen the carcasses of as many as six deer lying about with the hides removed. This was the result of the hide hunters' work. I did not meet the hunters themselves, because they would hunt during the early summer, then move, so that when I went out for the deer to take to Mrs. Sisson's hotel, I found the deer had been killed off in many localities. The does and fawns were killed as well as the bucks. At no time did I ever kill a deer for its hide, but as there was no law to regulate the bag limit I have killed as many as four and five deer in one day, going out one day, hunting the second day, and returning the third day. This I would do about once a week during the tourist season, July, August, and September, after which the deer would leave the range for the lower hills of Shasta county for the winter.

I know that many hundreds of deer were killed for their hides. The hunters came through the mountains and were not seen along the traveled highways. I would always get one or more deer up to the middle of September, when they left the range. The deer were still plentiful when I stopped hunting, but three years later there were very few deer to be found, and from reports I got from others the hunting was poor, and has so continued. I have been told that the deer are more plentiful since protection has been given them. I heard that many deer were killed in the lower country during the winter by squaw men along the Sacramento and Pit rivers who mined a little and killed deer for hides and meat.—[Peter Klink.]

In the year 1877, Walter Scott, afterward killed by an Indian on the mountain between Sisson and McCloud, while going to Huckleberry Valley where he had his homestead, told me that he killed about sixty deer in less than six weeks. Scott was an old-time hunter and trapper. No use was made by him of the meat, the hides only being taken and the carcasses left in the woods. To my knowledge he had great bundles of hides. The hides probably numbered three or four hundred, and an equal quantity were perhaps obtained three or four times a year. This sort of hide hunting continued for five or six years.

I saw the last two elk that were killed in this district; one, a female, killed by John Burchard in 1872, the other killed by Bob Melson, in 1873. The horns of the latter were placed in the Sisson Tavern office. These were, I believe, the last two elk seen in this country.

The last mountain sheep was killed in Shasta Valley by George Conner on a Sunday morning in 1873.

There are very few antelope left in this country. In the year 1880, I saw forty or fifty on Butte Creek. I was in the Butte Creek country last summer and Mr. Whitney told me there were not more than a half dozen left.

When Bob Melson and I were herding cattle we killed on one occasion thirty-six deer. We took the hides and the best part of the meat and left the remainder. Another time I killed five deer in one day.

In the days of which I speak there were not one-tenth as many people in the country as there are now, and as the game laws were not in existence then, the people killed wantonly all kinds of game. Conditions are quite the reverse at the present time since there is not one-tenth the game and the country is thickly settled. Therefore, if the laws protecting what is left of the immense herds of deer and other game were removed, all game would be completely demolished.—[William Russell.]

Hunting in Oregon.—Veteran nimrods are not taking to deer hunting with the pep and enthusiasm of other years, according to W. E. ("Dick") Carlon, Archie Parrott and other veteran sportsmen. They estimate that nearly 10,000 deer are killed in Oregon every season, but say that the present rate this season will witness a large decrease.

The report from various sections of the state read that there are many deer in the Oregon woods, plenty enough to make Oregon nimrods interested, and especially so when the information comes through the official channels of the Oregon State Fish and Game Commission.

The reports don't stop with paltry numbers of deer, but read that there are as many as 25 or 30 seen clustered in one group.

From the opening of the season there have been found close to 5000 campers and hunters in the forests of Oregon. Many, of course, have remained at various country hotels, and did not attempt to run down the bucks, but it is safe to figure that several hundred shooters tramped up and down over the meadows. The season opened August 15, and since that time a number of fine bucks have been reported.

The favorite haunts are the McKenzie river country, between the fork and the main river; the Santiam and the Blue river, all accessible from Eugene. The four corners of Curry, Coos, Jackson and Josephine counties are other spots where nimrods can go and hunt deer four ways successfully.

The Bear Camp section of the Rogue river country is perhaps one of the best deer hunting sections in the country. This section is open and the mountain acorn pine seldom grows more than 12 feet high. The acorns grow in great clusters like bunches of grapes. In the middle and latter part of September the bear and deer from the Cow Creek section come there to eat acorns, and it is then that the hunting is best.

There are plenty of deer in the vicinity of Trail, Oregon, near Rogue River Elk resort, on Crater Lake Highway. Fishing as well as hunting is to be had in this particular spot. Rogue River Elk resort is situated on the Rogue, in one of the most picturesque spots in Southern Oregon. Guides and horses for hunting parties can be obtained there.

On the Rogue river, 25 miles from West Fork station, is another place where deer hunting is good.

September 1st brought "the dark of the moon," and it is likely that Sunday and Labor Day saw many parties from Portland hiking out garbed in the old red shirt and cap.

Alaska Salmon Fry Planted.—The United States Bureau of Fisheries recently placed 45,000 Alaska sockeye salmon fry, reared at the federal hatchery at Lake Quinault, in the waters of that lake. This was done as a test to determine if this species will bear transplanting from its native waters. Fifty thousand eggs were brought from Alaska and taken to the Quinault hatchery. The fact that 45,000 of them were hatched and reared to the fingerling stage is considered remarkable, as this percentage of 90 is unusually high. Careful records will be kept by the bureau and the co-operation of fishermen and packing companies will be secured to watch for the return of the fish in four years. It is believed they will return to the Quinault River, as it is the theory that salmon after four years return to the stream in which they were hatched, but if they do not the dtsinctive mark which has been placed on each of them will be recognized wherever they are caught. Willis H. Rich of Stanford University, acting for the government, has just completed marking the fish by the removal of certain fins as a further test to learn if the salmon return to the Quinault River or go back to their native stream in Alaska.

Hoquiam, Wash. H. R.

FEDERAL REGULATIONS ON BIRDS.

No Open Season for Insectivorous Birds; President Wilson Approves.

Washington, D. C.—The new regulations for the enforcement of the migratory bird law were approved by the President August 21, 1916, and became effective on and after that date. The schedule printed below shows the open seasons when hunting the birds named is permitted under these regulations. Hunting at other seasons is prohibited. Hunters, however, should consult the State laws, as the Federal regulations will not be construed to authorize hunting within a closed period prescribed by the State occurring within the open season under the Federal regulations.

Shooting is prohibited between sunset and sunrise in both zones. Insectivorous birds are protected indefinitely in both zones and no open season allowed. Band-tailed pigeons, cranes, wood ducks, swans, curlew, willet, upland plover, and smaller shorebirds are protected everywhere until September 1, 1918.

Following is the open season for migratory birds (dates are inclusive):

ZONE 1.

Waterfowl (except swans and wood ducks), coots, gallinules, and jacksnipes: Maine, New Hampshire, Vermont, Massachusetts, New York (except Long Island), Ohio, Indiana, Kentucky, West Virginia, Michigan, Illinois, Iowa, Kansas, Nebraska, and Missouri, Sept. 16th to Dec. 31st.

Rhode Island, Connecticut, Long Island, New Jersey, Pennsylvania, Washington, Oregon, Nevada, and Utah, Oct. 1st to Jan. 15th.

Wisconsin, Minnesota, North Dakota, South Dakota, Montana, Idaho, Wyoming, and Colorado, Sept. 7th to Dec. 20th.

Rails (except coots and gallinules): Sept. 1st to Nov. 30th.

Black-breasted and golden plover and greater and lesser yellowlegs: Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York (including Long Island), and New Jersey, Aug. 16th to Nov. 30th.

Vermont, Pennsylvania, Ohio, Indiana, Kentucky, West Virginia, Michigan, Illinois, Iowa, Missouri, Nebraska, Kansas, Colorado, and Nevada, Sept. 1st to Dec. 15th.

Wisconsin, Minnesota, North Dakota, South Dakota, Montana, Idaho, and Wyoming, Sept. 7th to Dec. 20th.

Washington and Oregon, Oct. 1st to Dec. 15th.

Utah, closed until Sept. 1, 1918.

Jacksnipe: Same as waterfowl, coots, and gallinules.

Woodcock: Oct. 1st to Nov. 30th. Illinois, Kentucky, and Missouri, closed until Oct. 1, 1918.

ZONE 2.

Waterfowl (except swans and wood ducks), coots, gallinules, and jacksnipe: Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, Tennessee, Florida, Alabama, Mississippi, Arkansas, and Louisiana, Nov. 1 to Jan. 31.

Oklahoma, Texas, New Mexico, Arizona, and California, Oct. 16 to Jan. 31.

Rails (except coots and gallinules): Sept. 1 to Nov. 30th. Louisiana, Nov. 1 to Jan. 31. California, closed until Sept. 1, 1918.

Black-breasted and golden plover and greater and lesser yellowlegs: Delaware, Maryland, District of Columbia and Virginia, Aug. 16 to Nov. 30.

South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas, Nov. 1 to Jan 31.

North Carolina, Tennessee, Arkansas, Oklahoma, New Mexico, and Arizona, Sept. 1 to Dec. 15.

California, closed until Sept. 1, 1918.

Jacksnipe: Same as waterfowl, coots and gallinules.

Woodcock: Nov. 1 to Dec. 31.

Bidding for 1917 Grand American.—Milwaukee, Wis., wants the Grand American Trapshooting Tournament for 1917. So does Toledo, Ohio. By the time the Interstate Association holds its annual meeting to award tournaments, there may be half a dozen other cities in the field for the trapshooting classic.

The Grand American Handicap has always been successful in the middle West, and as long as it is successful in that section the Interstate Association will hardly move it. There is no good reason why the tournament would not be successful in the East, but none of the Eastern organizations ever bid for it.

Chicago and St. Louis are central points with 24 hours' ride of one-half the population of the country and therefore these cities have the bulge on all others who apply for the tournaments.

Protection for Bear in Pennsylvania.—The state of Pennsylvania has recently enacted a law giving protection to the bear. The bag limit is one bear per year, and the open season is from October 15th to December 15th, thus being properly set at the time when the fur is prime. The law definitely states that a bear can be killed only by using a gun "held in the hands of a hunter," except when "it is attempting injury on a person or personal property." In the latter case, however, an affidavit telling of the exact injury must be filed.

It is interesting to note that bear are still abundant enough in Pennsylvania so that a party of six in 1914 killed fourteen bear on one hunting trip.—(Pennsylvania Sportsman).

Sportsmen's Row

John Crumley, a lumberman employed at the Standard Lumber Company's South Fork camp, fifteen miles east of Sonora, Tuolumne county, was shot by an unknown deer hunter. Crumley was at work trimming logs when he was shot. The bullet from a high-powered rifle struck him in the left upper arm, shattering the bone and tearing the flesh in a horrible manner. Crumley fell unconscious. The arm was amputated just below the shoulder.

• • •

Four silver cups, relics of the days when Marysville supported a military company of which the community was proud, have been resurrected from the archives of the organization, now defunct, and will be placed in a display case in Packard Library. The Engel cup was won three successive times by old Company C of Marysville in regimental contests. The N. S. G. W. cup was won by the Marysville company in a ten-men match against the Woodland company, May 5, 1891. A cup offered by the citizens of Woodland for a shoot between teams of twenty-five men was won by the Marysville boys on Thanksgiving Day, 1895. A cup for shelter tent pitching was won by the Marysville company in a contest held at Chico, July 4, 1905.

• • •

William Peachy of Las Plumas has proved himself the champion hunter of the season. Peachy, while hunting with Dixie Johnson, an Indian, brought down a big four point buck. After skinning the deer and hanging part of the meat in a tree the two hunters packed the hams to camp. Upon returning to the spot to get the remainder of the meat, they were taken unawares by two black bears. Peachy killed one of them with a shot through the head and the other made a wild dash for the brush but Peachy, with another well-aimed shot, also brought him down with a bullet through the head, before he could reach shelter.

• • •

Twenty-five speckled trout, ranging from 8 to 12 inches in length, formed the catch made in the Nork Fork of Eagle Creek last Sunday by R. M. Gray and his family of Portland. "It was the best fishing I ever had," said Mr. Gray, "and I intend to go up there again."

• • •

While out hunting deer near Coutolenc, in Butte county, Frank Killum, traveling salesman for the General Electric Company, became lost. He wandered about all Friday night until he stumbled into the camp of a miner living near Stirling City. Killum reached camp Saturday evening, after a searching party had failed to locate him. With him on the hunting expedition were C. V. Ross and Messrs. Nourse and Mixner.

• • •

In view of the recent big run of salmon outside the heads, bay anglers have anticipated great sport in Raccoon Straits and San Pablo bay up as far as Red Rock. So far they have been disappointed as but very few fish have been taken while a number of boats have been out dragging a spoon through these waters for the last two weeks. Dr. Washington Dodge was among the lucky few, having taken a thirty-pound salmon near Belvedere Point last week.

• • •

Striped bass fishing in the lagoon at Tiburon has been good for some time past, the favorite bait being Monterey sardines and bullheads.

• • •

Master Robert McCormack, son of Mr. and Mrs. George McCormack of Capitola, landed two 30-pound halibut and three 10-pound rock cod. This is the first time in 25 years that fish of this size were ever landed on the wharf on a small-size hook. Mr. Ed. Arnold, William McCarthy and Max Schmidt of San Jose were present at the time.

• • •

Antlers of a deer killed several years ago near Cuyama Valley, Santa Barbara county, by Forest Guard Eugene Johnston, of the Santa Barbara National Forest, have been identified as belonging to a species of deer found in the eastern states, by a member of the California Academy of Sciences, San Francisco. No explanation is vouchsafed as to how the deer traveled so far west.

• • •

George Shirk of Redlands and Ed Trefry are about the happiest mortals alive just now because of the record they made in fishing in the Big Bear Valley in a week's time. It was not so much quantity that counted with them as it was quality. During the week they caught but twenty-six trout but the total weight of the beauties was near 100 pounds. Only one of the trout weighed as low as two pounds and almost all of them tipped the scales close to four pounds. The fishing has been ever so much better during the past week and the big fellows are biting again. The fishermen from Big Bear Valley threatened to be eclipsed on Friday by the hunters, for many will start from there for the opening day of the season to beat the trails for deer.

• • •

Investigation proves that farmers are participating in trapshooting and enjoying it very much.

Constable A. J. Leverone of Jackson, Amador county, brought down the first buck of the season Wednesday morning of last week. The deer was exceptionally large, having five points and weighing 140 pounds dressed. It was killed on the road to Silver Lake, about twenty-five miles above Jackson.

• • •

Portola (Plumas Co.).—Hunters report that deer are plentiful in this vicinity. Since the opening of the season five have been landed by Portola residents. George Locatell, John Donnenwirth, George Conant, F. Van Norden and George Nixon each bagged one. The one shot by George Locatell weighed more than 200 pounds dressed.

• • •

Surf anglers who have been trying at Melrose to hook a larger Corbina than the 6-pound 15-ounce one registered by Clarke Van Benthuysen were disappointed Sunday, as tiny "nippers" were the only fish of any kind caught, except for the 4-pounder Mrs. G. Clark landed. The latter won her third consecutive Jack Pot thereby, while Simmons, Lengsfield, et al., raved at their hard luck.

• • •

To the hunting prowess of Professor C. A. Kofoid, the University of California is indebted for a collection of rare Indian animals, which he secured recently by hunting them in their native fastnesses on the estates of the Prince of Mysore, in Southern India. Professor Fofoid returned to the campus recently and reported among other things the slaying of a wild ox, one of the only herd now in existence.

Kill Bear Without Gun.—To kill a bear without a gun, after a fierce struggle, was the thrilling experience of Bruce Kellett, of Minden, Ont., Jack Adams and Fred McDuff, of Gooderham, one morning in May. The above named sturdy sons of toil were in the employ of Mickle and Dyment as river-drivers, at River Bay Camp, Hollow Lake, when, as they were passing along the trail one morning, they suddenly came upon a large black bear, which showed a quarrelsome disposition and made an attack upon the young men, who were armed only with pike-poles and peavy. The boys soon realized that these were not the most formidable weapons to handle in the bush in an encounter with an infuriated wild beast. But after a sharp struggle the huge animal (which afterwards was found to weigh 800 pounds) lay dead at their feet.

After the battle was over the boys were not surprised to find blood flowing from Adams and Kellett. McDuff had escaped unhurt. They were the victors but would rather not repeat the experience.

Deer Causes Accident.—Cornelius Murray, a retired rancher of Los Gallinas, Marin county, had a narrow escape from serious injury while returning in his wagon from the summit of Mt. Tamalpais after a day's hunt. He reached a sharp turn in the road at the head of the Fairfax grade when a deer leaped across the road under his horse's neck. The horse became frightened and upset the wagon, throwing Murray over the grade. He was picked up a few minutes later by Mr. and Mrs. George Page of San Rafael, who came along in their automobile, and taken to the San Rafael Cottage Hospital where several severe cuts and bruises on his hands and ankle were dressed. The horse was uninjured.

Coyotes Bold and Plentiful.—Wabuska (Nev.).—Mrs. George Parker of Wabuska was awakened about 4:20 one morning recently by the excited barking of a house dog. She arose and went to the door to discover the cause of the disturbance and saw the dog chasing a coyote out of the yard. She was startled, however, a moment later to find another coyote about five feet from the door, calmly looking at her through a screen door.

Mrs. Parker called her husband, who grabbed a gun and came to the rescue. Before his arrival the coyote walked up to the door and tried to push his way into the house. Mrs. Parker pulled the screen shut and the animal then walked to the dog house, about fifteen feet away, and entered. Parker fired a number of shots into the dog house, finally killing the coyote.

Coyotes are plentiful in the locality and exceedingly bold.

Rattlesnakes Poisoned.—Up in the California National Forest the United States Biological Survey has been poisoning squirrels. Thousands upon thousands of the rodents have "bit the dust" in the most approved scientific fashion.

In the early part of August a fire broke out. It burned over a great area. Usually just ahead of such blazes snakes of all descriptions are to be found—gophers, king snakes, rattlers and the whole belly-crawling tribe.

But this time there were no snakes. The fire fighters working in the brush in an effort to backfire were unmolested, to their great surprise. Then Forest Supervisor Coffman investigated.

He found that the rattlers feed on the poisoned squirrels, and were in turn poisoned from their food. The poison that was set out to clean the forest of squirrels has also cleaned it of snakes. And now the local Forest Service staff is looking for some one to dub with "Saint Patrick of California."

NEWS HEARD IN KENNEL CIRCLES.

FoxTerrier Club of England Sets Down Rules on Breeding.

At a special meeting of the Fox Terrier Club, England, it was decided on the motion of Her Grace the Duchess of Newcastle that interbreeding of smooth and wire fox terriers should continue to be recognized by the English Kennel Club. The meeting was representative and only one dissenting voice was heard.

This is a well merited rebuff to the Wire Fox Terrier Association, which had passed resolutions that "wire terriers of smooth parentage should not be recognized for registration, and thereby for exhibition, into the third generation."

The Wire Fox Terrier Association has been in existence for four years, the Fox Terrier Club for more than forty years, and the fox terrier, without distinction of coat and his forebears, for centuries.

Owing to the fact that the rougher coated variety of the fox terrier is the most popular of all breeds in England, and at the same time stands out collectively and individually as representing the highest standard of perfection among all breeds, the W. F. T. A., by reason of this, happens to be the most flourishing of all specialty clubs. In short, it is the breed's popularity which has made the club.

• • •

It is not generally known that Mayor Rolph of San Francisco, so well known over his cockers Mission Chief, Roue and so on that have been East, is an admirer of the ubiquitous Airedale. He has them on his ranch and recently bred two bitches to Ch. Crofton Chum, one being Mission Tip Toe, we believe a daughter of the great Tip Top. They should be doing well in the breed out here, says the "Fancier," for old Ch. Midland Royal, famed as a producer in his prime, has gone out from England to Fresno, and Midland Rollo, the sire of the famous Ch. Soudan Stamboul, imported by George Batson and also of a good sire in Mr. Oliver's Mountain View Rollo, is also soon to be at the services of the Pacificists.

• • •

News reaches us of the demise of another good English setter bitch, Queen G, a daughter of King C and Gladys, owned by Mr. W. R. Hird of San Francisco. Queen did some winning at the last Golden Gate show but shortly afterwards had the misfortune to have her legs broken. Although her owner did everything possible to have the limbs set it was of no avail and she passed away last week. Mr. Hird has recently sold a nice male puppy (a brother of the above) to Mr. E. C. LaMontague of San Francisco.

Sacramento After Sparrows.—First steps toward extermination of the English sparrow, the pest of the air, which has practically destroyed all song birds in California, have been taken by Dr. G. C. Simmons, Commissioner of Public Health and Safety, of Sacramento. Simmons drew up a resolution, authorizing the expenditure of $200 for the work of destroying the sparrows, and called the attention of the Commissioners to the necessity of ridding the city of these pests.

Simmons offered the resolution with the suggestion that it go over two weeks to give the Commissioners an opportunity to look into the matter. Simmons' proposal to rid the city of sparrows met with the approval of the entire Commission.

Simmons stated his attention had been called to the destruction caused by the sparrows by the Fish and Game Commission, which requested co-operation on the part of the city in the extermination of the pests.

He pointed out that San Diego has legislated against the sparrows with success, and that the ordinance was put in effect by hiring a man to educate the people as to how to exterminate the sparrows.

If the resolution is adopted by the City Commission, as it undoubtedly will be, Simmons probably will follow the example of San Diego and engage a man to kill the sparrows, at so much per bird, probably 5 cents, while they are plentiful, and 10 cents apiece when they become more scarce. Reading from a bulletin by the Fish and Game Commission, Simmons said the San Diego sparrow killer got 325 birds the first month.

Do Fish Sneeze?—Many families in Glen Ellen have been enjoying several good meals of fish. It happened in this manner: Following the big thunder and lightning storm, a cloud-burst occurred north of town, filling the Calabasses creek with thick red soil. The creek water was saturated with the earth until the creek looked like the famous river of blood. When the gentle morning breezes dried the surface of the stream, the dust arose in such clouds that the fish came to the surface sneezing and coughing. It was therefore no hard matter for the inhabitants to lift the finny denizens from the creek with only a pocket handkerchief for bait. The poor fishes!

It is reported from Salmon Beach, near Tacoma, Wash., that the trout are running fine and that good catches are a daily occurrence. The last few days have witnessed the capture of many large salmon and the fine sport is drawing large crowds.

PACIFIC COAST HANDICAP OPENS MONDAY.

Portland Is Looking Forward to Entertaining Big Gathering of Trap Shooters.

Under the auspices of the Portland Gun Club (one of the most enterprising trap gun clubs in America), the eleventh annual Pacific Coast Trapshooting tournament will take place in Portland, Ore., on September 11, 12, 13 and 14. This tournament was first conducted in 1905, and 1908 is the only year that has gone by without the classic being conducted.

This is the third time that the Portland Club has staged the tournament, the other times being in 1912 and 1914. The entries on both of these occasions exceeded those of the other cities in which the competition has been conducted. In 1914, when the Portland Club opened their new grounds, they had 138 entrants in the Pacific Coast Handicap, the greatest number that has ever shot in it. This year the club confidently expects that the entry list will total nearly 200.

Portland is advantageously situated to draw the sportsmen from the far Western States, and every trapshooter who has been to Portland is anxious to play a return engagement. Residents of the Rose City are very hospitable. One of these years the Portland Club hopes to stage the Pacific Coast Handicap during the Rose Festival week in June, and at that time will prove to the trapshooters that the saying, "In Portland grows for you a rose," is merited. The shooting on the Portland grounds is to the north and the sun is always behind the traps. The grounds are level and the skyline is unobstructed.

The program is the same as the ones at the Southern, Eastern and Western Handicaps. The first day is for practice. On the 12th the Pacific Coast Introductory takes place; on the 13th the Pacific Coast Special and the Preliminary handicap takes place, and on the 14th the Pacific Coast Overture and the Pacific Coast Handicaps occur. The Interstate Association and the Portland Gun Club will add $1000 to the purses. Three trophies will be given in each event, and no shooter can win more than one. There will also be three trophies for the women shooters.

HISTORY OF THE PACIFIC COAST HANDICAP.

	Yds.	Score
1905—San Francisco, Cal., 74 entries.... Won by G. E. Silvester. Tied by R. H. Bungay (16 yds.). Won on shoot-off by Silvester, with 17; Bungay, 16.	16	97
1906—Los Angeles, Cal., 60 entries..... Won by F. B. Mills.	19	89
1907—Spokane, Wash., 54 entries..... Won by Max Hensler.	18	93
1909—Seattle, Wash., 114 entries..... Won by John H. Noel. Tied by F. G. Foltz (19 yds.). Shoot-off won by Noel, with 20 broke, and Foltz breaking 17.	18	96
1910—Seattle, Wash., 109 entries.....	17	97
1911—Madera, Cal., 93 entries..... Won by Ed. L. Mitchell.	17	93
1912—Portland, Ore., 126 entries..... Won by M. M. Bull. Tied by R. H. Bungay (19 yds.). Shoot-off, Bull broke 19; Bungay, 18.	19	93
1913—Sacramento, Cal., 107 entries..... Won by George E. Ellis.	17	95
1914—Portland, Ore., 138 entries..... Won by P. H. O'Brien. Tied by H. H. Ott (16 yds.). Shoot-off, O'Brien broke 16; Ott, 14.	19	93
1915—San Diego, Cal., 78 entries..... Won by H. Pfirrmann, Jr. Tied by J. F. Couts, Jr. (21 yds.), and Andy Ervast (18 yds.), and H. M. Williams (19 yds.). On the first shoot-off Pfirrmann and Coutes broke 20; Ervast, 19; Williams, 18. Second shoot-off, Pfirrmann won with 18; Couts, 15.	18	98

All Venison Should Be Utilized.—The state of Wyoming has a law prohibiting the leaving in the woods of the meat of elk and deer killed. There should be a similar law in California relating to deer meat. All too often a traveler or camper will kill a buck when he knows he can not use or dispose of the meat, simply for the sake of telling that he got a deer, or perhaps in order to secure the horns as a trophy. In some cases a ham or two may be cut out and the balance of the meat allowed to go to waste. This is a shameful waste and should be prohibited by law. It is one of the reasons why local residents feel antagonistic toward the "city sports," for to the local resident the meat represents a money value in his food supply and he makes full utilization of it.—J. D. Coffman.

Hunter in Hard Luck.—According to a story told by J. G. Reid of San Jose, and the truth of which was borne out by a friend, he shot and wounded a three-point buck in the Coast range last week about four miles from the Smith Creek hotel, and after a diligent search for the animal discovered clews that led him to believe that a party of Campbell hunters ran across the quarry and appropriated it to their own uses.

Reid says that his bird dog jumped the buck out of the brush on Isabella creek, near Campoody, between 9 and 10 o'clock, that he fired at it twice, the last time as it was disappearing over a hill. He noted it was in distress, and on following it found a bloody trail by which he tracked it a considerable distance. He gave up the quest finally, but returned again, and finding the blood tracks, followed them down into Trout creek. Here, among the boulders, were irrefutable signs that his kill had been discovered and taken possession of.

While searching about he came across a lone man with a rope who disclaimed any knowledge of having seen a wounded buck on the mountain, much less a hunter with one. Reid, while he does not mind the loss of the kill, feels that the credit which belongs to the successful hunter should not be denied him through the loss of his quarry. He said that he fired the only shots in that vicinity.

FARMERS TAKING TO TRAPSHOOTING.

The other day a well known agricultural publication man remarked, when told that farmers engaged in trapshooting, that he was putting that fact down as one thing he learned that day.

If farmers can be advancing so fast in modern methods and city pleasures, that the agricultural press can't keep up with them, then it seems logical to admit that the city cousins who imagined all a farmer did "was work, eat and sleep" are just waiting for advice.

The fact is that along with other pleasures, farmers are taking active interest in trapshooting. And why shouldn't they? Nearly all farm houses have guns as a portion of their furniture. Nearly all farmers have done more or less shooting, but at the present time in many states, game laws are so rigidly enforced that "open" seasons are very short. Hence clay birds are the victims of the guns, which to many is much more satisfactory from a cruelty standpoint.

As hardly any live settlement is now without a trapshooting club, the shooting of clay targets also brings to the farmer, social privileges. Here he meets men of all walks of life.

Of course there may be a Country or Hunt Club near his place, but he is timid about joining, even though he is worth as much as many of their members financially. He has like many other farmers attended the farmers' annual dinner at such clubs but feels more at home at a cosmopolitan trapshooting club. On such occasions however he has surprised those present with the shooting ability. Only recently at an eastern Hunt Club, a clay pigeon shoot was held in connection with the annual dinner, for at this club the members are greatly enthused about trapshooting. The gentleman of the farm took the marksmanship honors.

It may not be the case that all farmers who can shoot are trapshooting club members. Some of them have purchased hand traps and have their shooting pleasures right on their own grounds, where wife, sons and daughters join in.

Pendergast Wins Remington Trophy.—The Remington Bronze Trophy was won by J. H. Pendergast, New York state champion of Phoenix, N. Y., who made a run of 100 straight and a total of 146 out of 150. F. Kapp won first prize in Class A. with 144 while R. H. Clark and M. E. Barker took second and third respectively with 143 each. In Class B, W. E. Corfield of Utica won first prize with 135, W. L. Wilson took second with 134, and A. Meager third with 134. F. H. Shall won first in Class C, Tomlinson second and Jackson third, all with 127 breaks. H. E. Mills was first in Class D, with 119, second Jones, third Dally, each with 118. Sim Glover and H. S. Wells, both professionals, tied with the tournament winner. J. L. Clark of the Rem. U. M. C., assisted by J. H. Briggs of the same company, John Jackson and R. H. Tomlinson of the Remington Club were the officials.

Places for 1917 State Shoots.—Quite a number of State associations have selected the cities in which the 1917 State trapshooting tournaments will take place. Here are a few of them: Minnesota—Brainard; New York—Syracuse; Pennsylvania—Bradford; Texas—Houston; North Carolina—Carolina Beach; Washington—Seattle; Missouri—Springfield; Kansas — Larned; Oregon — Salem; Ohio — Cedar Point; Wyoming—Casper; South Carolina—Greenwood; Montana—Anaconda.

Westy Hogans Shoot.—More than $3500 in money and prizes will be awarded at the tenth annual trapshooting tournament of the Westy Hogans in Atlantic City, September 13, 14 and 15. In addition to the many valuable trophies that will go to a greater number of shooters this year than ever before, the Hogans will add to the program a greater amount of cash than in former years.

The winner of first average money this year is guaranteed $100 or more; $50 will be added to the Lewis Class Optional on each day of the regular program—Wednesday, Thursday and Friday; $100 will be guaranteed to the winner of the first money in the Westy Hogan Handicap, formerly the Bull Durham Handicap.

The Hogans have restored the special event for women to their program this fall. This proved to be a very attractive feature of the 1914 tournament, and as there is a demand for it this year, the fair sex will no doubt be largely represented. From reports received by various members of the Hogans there will be a greater attendance of shooters from the Middle West, principally from Ohio, Indiana and Illinois, this year than ever before. This indicates that interest is being shown in the Westy Hogan East and West team race, which promises to be one of the most popular events of the program. All shooters who received a program last year, and all who attended last year's tournament, will receive a program this year.

THE INTERSTATE ASSOCIATION'S HANDICAP.

T. E. Doremus, President, Wilmington, Del.

Elmer E. Shaner, Mgr., Pittsburgh, Pa. E. Reed Shaner, Sec'y, Pittsburgh, Pa.

The Interstate Association's Eleventh Pacific Coast Trapshooting Tournament, under the auspices of the Portland Gun Club, Partland, Ore., September 12, 13and 14; $1,000 added money. Winner of first place in the Pacific Coast Handicap guaranteed $100 and a trophy; winner of second place guaranteed $75 and a trophy; and the winner of third place guaranteed $50 and a trophy. Several other trophies will also be awarded.

Portland Club.—H. R. Everding was high gun at the Sunday shoot held at Everding Park August 27, making a record of 97 per cent. A. W. Strowger, president of the organization, was next in line among the amateurs, with 92 per cent. J. E. Reed led the professionals, breaking 49 out of 50.

The 11th annual Pacific Coast Handicap will start at Everding Park on Monday, September 11. It will be of four days' duration. Arrangements are already being made to entertain the host of outsiders who will enter for the tournament.

Following are the scores made: H. R. Everding 97, A. W. Strowger 92, Frank VanAtta 90, H. A. Pollock 86, Miss Gladys Reid 84, J. S. Crane 84, F. O. Joy 78, E. B. Vann 74, E. L. Clark 60 and Dr. L. L. DuBois 50, all out of 100, with J. E. Reid 49 out of 50.

Seattle Association.—Ninety-five and 100 per cent shooting was the feature of the August 27th shoot at the Harbor Island traps.

Tom Wilkes celebrated his return from the South by going straight fifty targets, standing high amateur. Wilkes was tied by L. H. Reid, who also knocked down fifty, standing high professional and incidentally finishing the program with an unfinished straight run of 316 targets.

Hugh Fleming plunked out forty-nine in fifty, and stood second amateur position.

Alvin Schwager and F. L. Ashton were new shooters on the grounds for the first time this season.

The scores, at 50 targets: Tom Wilkes 50, L. H. Reid* 50, Hugh Fleming 49, Deskin Reid 46, W. B. Taft 45, J. V. Hough 45, Matt Grossman 44, Alvin Schwager 42, George Hambright* 42, C. W. Bandy 40, J. W. Glascock 36, F. L. Ashton 25. (*Pro.)

Green Lake Club.—A big crowd was on hand August 27 at the regular monthly trophy shoot of the Green Lake Gun Club, and some of the best shooting of the season was dished up during the program.

L. H. Reid, professional, was high man for the day with a score of 49 out of 50, and the one target which he missed in this event terminated a straight run of 319. This is the longest straight run in the records on the Pacific coast.

Among the amateurs, L. S. Barnes and Tom Wilkes led the field, each getting 48 out of their 50. Dr. King and Matt Grossman came in second, with 47, while third place went to Dr. Templeton and Hugh Fleming, with scores of 46.

L. S. Barnes carried off the August silver cup with a score of 49; his handicap of one target giving him a one-bird lead over Tom Wilkes, who was shooting from scratch. Six other contestants turned in handicap scores of 48 in this event.

In the 100-target race, Hugh Fleming and Matt Grossman tied for high honors, each getting 95. Tom Wilkes broke 93 and L. H. Reid 94 in this event.

Four ladies took part in the program yesterday, and Mrs. Blakeley carried off the honors by breaking 12 out of 25.

Sunday, September 10, will witness the official closing of the shooting season at the north-end traps, with the big annual silver cup handicap and merchandise shoot, similar to the event which marked the closing last year. The whole membership is working to make this one of the really big events of the year.

Scores, at 50 targets: L. H. Reid* 49, L. S. Barnes 48, Tom Wilkes 48, Dr. King 47, Matt Grossman 47, Dr. C. L. Templeton 46, Hugh Fleming 46, G. A. Conklin 45, S. A. Martin 44, I. M. Fisher* 44, W. C. Smith 44, Deskin Reid 44, Don R. Baker 43, Hi Follerich 43, George H. Young 42, George Hambright* 42, Dr. A. B. Kidd 41, E. K. Van Vleck 41, Dr. M. A. Winningham 41, George B. Baker 40, J. W. Geltz 40, J. V. Hough 40, C. R. Sydman 39, M. A. Rosenfield 39, H. E. Gleason 38, George O. Colwell 38, Van M. Woodaman 38, E. Chantrell 37, Fred Pries 37, E. W. Eller 35, George D. Horst 24, Mrs. Blakeley 12, Mrs. L. S. Barnes 11, Mrs. G. A. Conklin 10, Mrs. W. C. Smith 9.

At 100 targets—Hugh Fleming 95, Matt Grossman 95, L. H. Reid* 94, I. M. Fisher* 90, Dr. C. L. Templeton 90, Tom Wilkes 93, E. K. Van Vleck 76, V. M. Woodaman 74. (*Professional.)

Twelve pairs of doubles—George Edling 19, G. A. Conklin 18, L. S. Barnes 18, Dr. C. L. Templeton 16, W. C. Smith 15, C. R. Sydman 14, Matt Grossman 14, I. M. Fisher 12, Follerich 10, Dr. King 12, J. W. Geltz 12, Hugh Fleming 9. (Fisher, Grossman and Fleming shot 20-gauge gun in the doubles.)

Stock Breeders' Page

Advice on Starting a Herd.

J. L. Walters, a Canadian breeder of Shorthorns, gives the following advice on starting a breeding herd:

"Were I to offer advice to a man intending to start a pure-bred herd of cattle, or for that matter of any kind of pure-bred herd, I would say first of all he should have a great liking for the kind of stock he intends to breed. Otherwise, he will not attend to the little details which don't appear to amount to much in the care of a herd, but which, if carried out, mean success, or failure if neglected. Then if still wanting to go into the business I would say: In selecting breeding cows it has always appeared to me that the light boned, small, blocky cow which so often is a favorite in the show ring is not the most profitable breeder. It is true that as a rule they take on flesh easily and quickly; while this is a commendable quality it may also be found in the larger, heavier boned type which I am quite sure will give more calves than the smaller, fancier type. The risk and loss at calving time is no small consideration. We find we have a larger percentage of loss in our pre-bred herd than we have in our range cattle, while at the same time the pure-bred herd have the better care and attention. We believe the reason is the range cow is not as a rule so beefy and compact.

"Now we are talking about the foundation for a beef herd, and we must have a beef type, but what I want to point out is, we want a large, roomy cow for a safe breeder and good money-maker. A good deal of attention should be given to pedigree. Still, I don't think one should be so carried away by pedigree that they lose sight of conformation, quality and size. While the beginner is selecting his cows to the best of his ability and according to the amount of money he wants to expend on a herd, he should keep in mind that the bull is half the herd. Consequently, he should be even more particular in his selection than he has been with his cows. He should be sure that the bull's ancestors have been good ones. Otherwise he will not likely be an even breeder. That is to say, he might have some very good calves and some very poor ones. In fact, it is impossible to overestimate the importance of carefully selecting the bull that is to head the herd. My advice would be to buy the best your money will buy, and don't forget that for every $100 you add to the price you are paying for the bull, providing always you get value for your extra expenditure, you get in return at least a thousand dollars in increased value in the bull's progeny, because the useful life of a bull of the right kind, if taken care of, is several years.

Weight of Cattle.

Here is one rule for measuring a beef animal to approximate its weight: Have the animal stand squarely on its feet. Take the girth just back of the shoulder blades. Measure along the back from the tail-bone, where it plumbs the line of the buttock, to the fore part of the shoulder blade. Multiply the length and the girth together, which will give the number of superficial feet. Now if the animal girths less than seven and more than five feet, multiply the number of superficial feet by 23 to find the weight. When an animal girths more than seven and less than nine feet the rule is to allow 31 as the number of pounds for each superficial foot. If the animal girths less than five and more than three the number of pounds allowed is 16 for each foot. When the girth is less than three feet multiply by 11.

Richest Cow in the World.

Now that a majority of the milk markets are buying their supply on the butter-fat basis, it is with more than a passing interest that we note the Register of Merit record of the Jersey cow Merry Maiden of Innesfells 307454, owned by Dr. J. F. Thompson, of Portland, Maine. The milk of Merry Maiden averaged 8.13 per cent fat for 365 days. This is the world's highest butter-fat average for a year record. Her lowest monthly test was 7.13 per cent, made in the sixth month of her test, and the highest was 10.05 per cent, made in the twelfth month. The highest percentage of fat for a single milking was 11.00 per cent. The final results show that she produced 560.4 pounds fat or 659 pounds 85 per cent butter from 6896.5 pounds of milk.—American Jersey Cattle Club.

A Noted Guernsey on Test.

Early in 1913 Langwater Hope, a Guernsey heifer owned at Langwater Farms, North Easton, Mass., qualified as a two and one-half year old with the remarkable record of 15,078.9 pounds of milk and 773.59 pounds of fat, exceeding the previous best performance in her class by 2,445.5 pounds of milk and 67.13 pounds of fat, and surpassing the test of her stablemate Rose of Langwater by 2,112.3 pounds of milk and 103.7 pounds of fat. Langwater Hope was started on her retest as a mature cow on Oct. 1, 1915, and has produced in the 305 days up to Aug. 1st 17,203.6 pounds of milk and 854.16 pounds of fat. She was the tenth daughter of imp, King of the May to qualify for the advanced register. On her dam's side Langwater Hope comes from distinguished ancestry, being a granddaughter of imp. Golden Secret.

Cattle Feeding Lessons.

Steers that are full-fed from birth should not be held beyond 20 or 22 months of age because there is a decided falling off in the rate of gain. After this age the carcasses are overdone, there is an undue waste of excess fat and the gain in weight in proportion to feed consumed is much reduced as well as the gain per day per steer. These are the results secured in a recent test at the Missouri Agricultural Experiment Station in which some steers were full-fed while others received much less feed.

The steers which received feed insufficient for the greatest growth were most affected by such ailments as indigestion and pink eye, and their sickness was more likely to result in death. In fact, among more than a hundred steers in the experiments, all the losses except one were among the low-fed animals.

Steers fed for long periods such as three years and a half on feed insufficient for the greatest growth, did not seem to be able to digest their feed and to make good gains when later put on full feed. Even a steer whose growth was greatly retarded for only one year never equaled in weight a steer of the same age which had been full-fed from birth, although when put back on full feed he made very profitable gains and developed a very choice carcass of beef. These results do not disagree with the common observation that thin steers often make the most profitable gains. Such feeders have usually not been starved so long or so steadily. They have usually had bulky feed which kept up the stomach capacity even though it didn't furnish a great deal of nourishment, and were very likely to have at least occasional large quantities of nutritious feed, while the steers in the test were kept regularly on small quantities of food for long periods so that they seemed to lose the capacity to eat and digest as large quantities as they must handle to make the most profitable gains.

Thrifty yearlings put on feed that is not sufficient, even to keep up the body weight they already have, continue to grow in height and framework even when made to lose half a pound a day. Measurements of the skeletons did not indicate any decrease in the rate of growth for several months. Even when these animals were using the body fat to supplement the lack of feed there was a very noticeable addition of fat in the skeleton. Only when approximately all the fat was taken from the soft parts did the animals begin to draw on the fat in the skeleton to maintain existence.

The most economical choice beef resulted from the use of a feeder weighing about 750 pounds so fed as to make a gain of 500 pounds. Such a steer will probably not quite top the market, but he should make the greatest possible profit to the feeder and furnish an economical carcass for the butcher and housewife, and meat of a quality to please the most exacting. The carcasses show that of this 500-pound gain, 38 per cent is water, 49 per cent fat, and 12 per cent protein. When similar steers were fattened until they had gained another 500 pounds or gone from 1250 pounds to 1750 pounds, the carcasses were much overdone and the second 500 pounds was 76 per cent fat, 18 per cent water, and 5 per cent protein.—[P. F. Trowbridge, Missouri Agricultural Experiment Station.

Jersey Heifers Make Wonderful Records.

Old Man's Darling 2nd 319617 and Vive La France 319616, two Jersey heifers owned by Pickard Bros. of Marion, Oregon, have finished their year's tests.

Old Man's Darling 2nd, with over 800 pounds butter, as far as is known has the record for Jerseys of her age though not in her class. If she had freshened seven days sooner she would have beaten Lucky Farce's world's record for heifers under two years old, by over 70 pounds fat.

Even Vive La France, with nearly 750 pounds butter, having freshened on her second birthday, is only beaten for the championship of Oregon by Pearly Exile of St. Lambert, who was a world champion. Both heifers are daughters of Golden Glow's Chief 61460.

New Exhibitors at Horse Shows.

A greater number of beginners will exhibit at the horse shows this year than ever before. This is progressive. It indicates that American breeders are alive to their opportunity and are determined to meet the competition of experienced exhibitors. It means that all over the nation a demonstration is to be given showing that America can produce as good horses as any other country. It means that a class of horses is going to be bred and a class of horsemen developed that will defy the world in competition. This year bids fair to mark the real beginning of draft horse exhibition and development by American farmers.—Breeder's Gazette.

Seven Carloads of Holsteins from Wisconsin.

Fred Keisel and J. M. Henderson, both Sacramento bankers and owners of large dairy farms, have been large purchasers of Holstein cattle lately. At least $100,000 worth of cows of this breed have been brought to the Sacramento valley in the last month, and seven carloads were recently bought in Wisconsin and shipped to the two gentlemen above mentioned. Their new stock will make their herds among the most productive and highest priced in the Sacramento valley. Holsteins have supplanted Jerseys in this region as the favorite dairy cattle.

Small Breeders Win Prizes.

Editor Breeder and Sportsman: Nearly all of the Percherons in the United States are being bred by men who have small studs ranging from two to ten mares. If these small breeders are successful, it will prove encouraging to others who contemplate replacing their present grade horses with pure bred mares.

The success won by the small breeders at the Ohio and Iowa State Fairs is of particular interest in this connection. At the Iowa State Fair, the first prize two-year-old stallion headed a ring of more than 20 two-year-olds, which were admittedly of as high character as any ring of two-year-olds ever shown at that fair. This horse was bred by a small breeder near Lewiston, Ill., who has but four or five mares and who, in his desire to breed high class Percherons, went to the expense of purchasing a stallion for his own use.

The first prize yearling stallion, also winner of the Futurity Class at the Iowa State Fair, in a ring of 22 stallions, was bred by a small farmer near Amboy, Illinois, who only owns ten or twelve mares.

The first prize yearling filly at the Iowa State Fair, also winner of the Futurity Stake, was bred by a small breeder near Morning Sun, Iowa, who owns but a small band of mares, and who, furthermore, was making his first exhibit at the Iowa State Fair.

At the Ohio State Fair, the first prize two-year-old stallion was bred by a farmer near Homerville, Ohio, who has only 12 or 15 mares, but who was sufficiently determined to have a good stallion to go out and buy a stallion for his own use.

The first prize yearling stallion was bred by another farmer near Polk, Ohio, who has only eight or ten mares.

The first prize yearling filly was also bred by a small breeder near Tappan, Ohio.

The yearling stallion and yearling filly just referred to were winners of the Eastern Percheron Breeders' Futurity, so that six out of a possible eight first prize winners in the two-year-old and yearling classes at these two great state fairs were bred by small breeders who owned only enough mares to do their farm work, and in all instances the Percheron mares which produced these winners were mares who did their full share of work on the farms where they are kept.

The fact that these colts, bred by small breeders who keep Percheron mares for strictly utility purposes, were able to win over the best colts sent forward by the larger breeding establishments, has especial significance. It shows that numbers are not necessary to success, and shows that the small breeder who is a good judge of horses can, by exercising care in the selection of his foundation stock, and by breeding to sires of approved type, achieve marked success in Percheron breeding. It goes without saying that these colts, all of them, received the best of feed and care, for while none of them were fat, they were all well grown in frame and muscle and showed ample evidence of having received plenty of food from birth.

Horsemen gathered at the Ohio and Iowa State Fairs were optimistic over the future of the draft horse business. The feeling expressed by many of the oldest men present, including many who had gone through the years of depression in the 90's, was that there never had been a brighter outlook for Percheron breeding than at the present time. The demand for stallions bids fair to exceed all expectations.

One especially noticeable feature is the fact that there are a very large number of small breeders, who own small but select bands of mares, who are seeking young horses of the best type, conformation, size and quality, to head their studs. These men have grown weary of using horses of indifferent character and they are determined to own their own sires in the future. This augurs well for the demand for the best horses.

The trade from the ranges of the west, which has been gaining strength steadily for the last twelve months, is now better than it has been for many years. Ranchmen who have sold large numbers of horses for army purposes have found that the horses which carried two or three crosses of Percheron blood have sold more readily and for higher prices than any other horses they had available. They have profited by this concrete illustration of the value of good sires, are already heavy buyers of stallions to turn loose on the range with western mares, and will unquestionably buy still more heavily in the near future.

More than three hundred breeders, most of whom have started their Percheron breeding operations within the past two years, applied for membership in the Percheron Society during the month of August alone, and the total number of new members gained by the Society during the year, and the total number of registrations of American bred horses, will probably exceed all previous years.

Very truly yours,

WAYNE DINSMORE, Sec'y.

Misses Alexander & Kellogg, two ladies who are engaged as partners in breeding dairy cattle, won the silver cup at the Solano County Fair for best cow of any age or breed, with a Dairy Shorthorn.

◈ ◈ ◈

Six leading dairymen furnishing milk to San Francisco have furnished Market Director Weinstock figures which show that the net average cost of milk is 14.965 cents per gallon.

CHOOSING THE BEST LAYERS.

When the pullets are growing up ito little hens is the time to mark ie ones that are developing most rap-lly and showing signs of making early yers from which to select the future reeding stock.

Experiments show the early-devel-ping pullets will make the best and ost persistent layers. By banding a core or more of these quickest devel-ping pullets and using the best of iem for the breeding pens a good tart can be made towards a better ying flock. Better yet, if these pul-ts thus selected can be trap-nested ntil February or March, a still fuller nowledge of their egg-producing ac-vities can be learned. Also the type f eggs the pullets lay, and by the aily handling the relative vigor, hab-s of industry and activity will be-ome more evident.

Pullets or hens that noticeably lose esh and weight when laying heavily, hen properly fed, have some consti-itional lack in vigor and are unsafe s a means of perpetuating the best tock.

(To be continued.)

THE BEST LINIMENT

OR PAIN KILLER FOR THE HUMAN BODY

Gombault's Caustic Balsam

IT HAS NO EQUAL

For the Human Body —It is penetrating, soothing and healing, and for all Old Sores, Bruises, or Wounds, Felons, Exterior Cancers, Boils Corns and Bunions, CAUSTIC BALSAM has no equal as a Liniment.

We would say to all who buy it that it does not contain a particle of poisonous substance and therefore no harm can result from its external use. Persistent, thorough use will cure many old or chronic ailments and it can be used on any case that requires an outward application with perfect safety.

A Perfectly Safe and Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Strains, Lumbago, Diphtheria, Sore Lungs, Rheumatism and all Stiff Joints

REMOVES THE SORENESS—STRENGTHENS MUSCLES

Cornhill, Tex.—"One bottle Caustic Balsam did my rheumatism more good than $120.00 paid in doctor's bills." OTTO A. BEYER.

Price $1.50 per bottle. Sold by druggists, or sent by us express prepaid. Write for Booklet R.

Classified Advertising

CHESTNUT TOM 2:17¼ FOR SALE.

Chestnut Tom 43488, standard and registered, eighteen years old, but strong and vigorous, is offered for sale for a ridiculously low price. The late Martin Carter, who was one of California's most successful breeders, considered this horse one of the very best he ever bred for a sire. Chestnut Tom is sire of the dam of the coast champion Wilbur Lou (1) 2:19½, (3) 2:10¼, sire of Natal Day 2:13¼, coast champion two-year-old. The late Martin Carter bred Chestnut Tom for a broodmare sire. He is by Nutwood Wilkes, his dam is by Director and his grandam is the dam of his sire and by Nutwood. $150 takes him. Address GEO. T. ALGEO, 3608 Piedmont Avenue, Oakland.

I WANT TO BUY.—I have sold eleven horses in the last few months ranging from $2,000 to $200. If you have a horse for sale and will write me, I will tell you what my system is. It is a winner. I find there is a buyer for every horse for sale at the right price. It is just a question of getting the buyer and seller together. If you have one for sale let me hear from you. MAGNUS FLAWS,

542 S. Dearborn St., Chicago, Ill.

FARMS FOR SALE
Choice Land in Idaho

Lewiston, Idaho, is situated at the forks of Clearwater and Snake rivers and has transportation to the coast.

960 acres 7½ miles from Lewiston, Idaho, 4½ from Lapwai, Idaho, on main traveled road, all in cultivation except about 15 acres, all level land, just a little rolling, 320 acres of fall wheat in, 225 acres fall plowed for spring crop, about 30 acres in alfalfa. All fenced and cross fenced. Two good springs with big cement water troughs, well, windmill and cement reservoir, water piped to house, 7 room house, hot and cold water and electric lights. Large horse barn with hay mow in the center, electric lights in barn; cow barn with two box stalls; hog pens, shade trees, chicken houses, blacksmith shop, wagon shed, granary, outdoor cellar with bunk house overhead. $85 per acre; will take one-third down, time on balance to suit purchaser, at 7 per cent interest. One-third of crop goes with place if sold any time up close to harvest. Mild climate, can raise all kinds of fruit, grain and vegetables. Wheat in this country goes from 35 to 65 bushels per acre, barley 40 to 80 bushels per acre.

320 acres 4½ miles south of Vollmer, Idaho, 275 acres in cultivation, balance in pasture and timber, farm land lays practically level, one-third of crop goes with place if sold before harvest. Some fall wheat already sown. All fenced and cross fenced. Quarter section of it fenced hog tight; good four-room house, wood shed, and out of door cellar, nice grove around house, well at house, fair stabling and out buildings, spring and spring creek close to barn, three springs on place. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

238 acres 4½ miles from Lewiston, Idaho, 175 acres in cultivation, 25 more can be cultivated, balance good bunch grass pasture, fenced and cross-fenced, good spring creek runs across place, small house, station on place for Johnson R. R., two grain warehouses at station. Price $70 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

160 acres of timber land, good farm land when timber is cleared off, all can be farmed except about 2 or 3 acres. Good timber, yellow pine and fir. Price $4000. 40 miles from Lewiston, Idaho. Well located to log off.

240 acres 6 miles from Asotin, 12 miles from Lewiston, Idaho, about 75 acres in fall wheat, about 75 acres more can be cultivated, balance in bunch grass pasture, two springs, small house, all fenced. Price $40 per acre, one-third cash, balance at 7 per cent. Time to suit purchaser.

BEAUTIFUL BELVEDERE

LOTS FOR SALE

CORINTHIAN ISLAND Subdivision to Belvedere is the most beautiful spot on the shores of San Francisco Bay for a suburban home. It commands an extensive view of the City of San Francisco, Alcatraz and Angel Islands, Raccoon Straits, San Francisco Bay, Richardson's Bay, the Berkeley shore, beautiful Belvedere and Mt. Tamalpais. It is in Marin County, directly opposite San Francisco, and forms the eastern shore of Belvedere cove. It has a naturally terraced, sunny, western slope that is well adapted for many choice residence sites, every one affording most picturesque views of the bay and mountain. It is protected from the prevailing western trade winds in summer by Belvedere Island, and from the southerly storms in winter by Angel Island. The soil is fertile and part of the island is well wooded.

It is less subject to fog than any other place near San Francisco. The summer fog, as it rolls in from the ocean, splits on the western slope of Sausalito, part of it flowing in a line with Angel Island towards the Berkeley shore, and part of it along the southern slope of Mt. Tamalpais, leaving Belvedere, Corinthian Island and Raccoon Straits in the bright sunlight, while the fog banks can be seen as a white wall both to the north and the south.

There is very little available land about the shores of San Francisco Bay that is desirable for homes, especially for those who love boating and kindred sports. The Alameda and Contra Costa shores of the bay are the lee shores and receive the full brunt of the boisterous trade winds which lash the shoal waters near the land into muddy waves, making boating both unpleasant and dangerous. To the north of the city and in Marin County the land from Sausalito to the entrance of the bay is a Government reservation and will never be placed on the market. The shores of Richardson's Bay are not at present convenient to boat service and, aside from Belvedere and Corinthian Island, there is little or no land near any ferry landing that possesses the natural advantages, improvements and possibilities that are offered on Corinthian Island. Concrete roads, pure water, telephone service and electric light wires are already installed. It is only ten minutes' walk from any point on the property to Tiburon boats, and but forty-three minutes' ride to the foot of Market Street.

On the point of Corinthian Island the Corinthian Yacht Club has had its home for many years, and on any summer day the white sails of its numerous fleet add to the charming scene, as the trim yachts glide about the cove. Excellent fishing of all kinds for bay fish, including salmon, the gamey striped bass, rock fish and the toothsome silver smelt, is to be had in the cove. There is probably no spot so accessible and in such close proximity to any large city in the world that offers the attractions of climate, magnificent scenery, fishing and boating as will here be found.

won at Danbury, Conn., July 12-13, by Mr. A. L. Chamberlin by a score of 94 ex 100 and 25 straight in the shoot-off, using **Peters SHELLS**

Mr. Chamberlin and Dr. B. F. Bishop, won the Connecticut 2-man team championship, 187 x 200. Mrs. F. F. Rogers won the ladies' championship, 81 x 100, and Messrs. A. L. Chamberlin and F. B. Stephenson tied for High Amateur Average, 141 x 150, all using the "P" brand.

THE PETERS CARTRIDGE CO., PACIFIC COAST BRANCH . . . **585-587 Howard Street, SAN FRANCISCO, CAL.**

WINCHESTER

Repeating Rifles For Hunting

In choosing a rifle for any purpose, its reliability and accuracy should be carefully considered. Winchester rifles enjoy the highest reputation the world over for reliability, accuracy, strong shooting qualities and finish. They are made in all desirable calibers from .22 to .50, and in eleven different models. From these a Winchester can be selected that will meet any shooting requirement.

WINCHESTER CARTRIDGES shoot straight and hit hard. These two cardinal points of a good cartridge, and also that of reliability, are always found in Winchester ammunition. No matter what caliber cartridges you want or whether they are for use in a rifle, revolver or pistol, you will get the best results by using Winchester make. Accept no substitute but insist upon the **W** brand.

THE GRAND PRIX—the highest possible honor—was awarded to the entire Winchester line of rifles, shotguns, metallic cartridges and loaded shotgun shells, etc., at the Panama-Pacific International Exposition.

Every Good Gun Store is a Headquarters for Winchester Guns and Ammunition

Superior At The Traps Or Afield

IN the hundreds of trap tournaments the world over today, alert shooters are shooting Remington UMC Shotguns and the complete "Perfect Shooting Combination" is in the hands of great numbers of these keen sportsmen.

Afield, thousands of sportsmen are equipped with Remington UMC arms and ammunition—the men who value their shooting records. The perfect combination of the "Speed Shells," with either the Remington UMC pump gun or autoloading model, makes for better scores and fuller game bags. The popularity of Remington UMC rests upon SUPERIORITY proven by years of use in the hands of discriminating sportsmen the world over.

The dealer displaying the Red Ball of Remington UMC on and in his store announces that his place of business is Sportsmen's Headquarters. Ask him about Remington UMC arms and ammunition.

TRAINING THE HOUND

A PRACTICAL TREATISE ON THE TRAINING OF FOX HOUNDS, BEAGLES, AND COON HOUNDS.

The system of training advocated is simple and effective, so that anyone who carries out instructions can easily develop a foxhound, a beagle or a coon dog to the highest state of usefulness or organize a pack in which each hound will work independently and at the same time harmoniously with the others. The subjects are: The Hound's Ancestry, History, Instinctive Tendencies, English and Native Hounds, Developing the Intelligence, Training the Foxhound, Voices and Pace of the Hound, Qualities of Scent, Manners, Training the Coon Dog, Coon Hunting, Training the Beagle, Forming a Pack, Field Trial Handling, Faults and Vices, Conditioning, Selecting and Rearing Puppies, Kennels and Yards, Diseases of Hounds and Their Treatment. The chapters on field trial training and handling are alone worth the price of the book, which is one that every man who loves the voice of a hound should read.

The book contains 224 pages, is clearly printed, nicely bound, and handsomely illustrated with bloodhounds, various types of English and American foxhounds, beagles and cross-bred dogs for 'possum and coon hunting.

Price, In heavy paper cover, $1; $1.50, postpaid.

Terms—One year, $3; six months, $1.75; three months, $1. Foreign postage $1 per year additional; Canadian postage 50c per year additional.

Money should be sent by Postal Order, draft or registered letter addressed to F. W. Kelley, P. O. Drawer 447, San Francisco, California.

Communications must be accompanied by the writer's name and address, not necessarily for publication, but as a private guarantee of good faith.

DATES OF FAIRS.

CALIFORNIA.

Ventura Co. Fair at Ventura	Sept. 13-16
Community Fair at Ripon	Sept. 15-16
Fresno Co. Fair at Fresno	Sept. 26-30
Bishop Harvest Festival at Bishop	Sept.28-30
Kings Co. Fair at Hanford	Oct. 2- 7
Riverside Co. Fair at Riverside	Oct. 10-14
Kern County Fair at Bakersfield	Oct. 24-28

ARIZONA.

Arizona State Fair at Phoenix	Nov. 13-18

NORTH PACIFIC FAIR ASSOCIATION.

Washington State Fair at North Yakima	Sept. 18-23
Oregon State Fair at Salem	Sept. 25-30

INTER-MOUNTAIN FAIR CIRCUIT.

Ontario, Oregon	September 18
Boise, Idaho	September 25
Salt Lake, Utah	October 2

GRAND CIRCUIT.

Columbus, Ohio	Sept. 18-30
Lexington, Ky.	Oct. 2-14
Atlanta, Ga.	Oct. 16-21

WILLIAM RUSSELL ALLEN, President of the American Trotting Register Association, and one of the leading breeders of the American trotting horse, died of apoplexy at his home at Pittsfield, Mass., on Monday last, Sept. 4th. Mr. Allen established the Allen Stock Farm at Pittsfield in 1886 and it is still in existence, the stallion Bingara being the premier at this time. Mr. Allen had a world reputation as a breeder of trotting horses and his death will be a great loss to the horse breeding industry.

THE CALIFORNIA STATE FAIR which ended last Saturday was a complete success, breaking all records for attendance and setting forth the best and most complete show of California products that has ever been on display on its grounds. The burning, on the second night, of the main pavilion, in which were twelve county exhibits that were declared to be the finest ever made in the State, was a great loss and much was destroyed that can never be replaced, but the fair went on and the following day saw the largest crowd that was ever assembled at Agricultural Park. The total attendance during the week was upwards of 125,000, which is a record, and the gate receipts were about $4000 greater than ever before. The exhibits of live stock were the big feature of the State's annual exposition. There was a greater number of the beef and dairy breeds of cattle, of wool and mutton sheep and the different variety of hogs, than was ever seen at a fair on this coast. Very many sales of live stock were made. At an auction of Berkshires James Doty, of Shenandoah, Iowa, paid $500 for the champion sow Monarch's Beauty, and the sale of hogs averaged $100 each. There were also many sales of beef and dairy cattle, and draft horses, while the orders for agricultural implements given by visitors to the fair ran up into thousands of dollars. One track-laying engine company sold nine of their big track-layers. In every department there were hundreds of visitors who had come to inspect the exhibits and learn something about them. The racing, which made the principal amusement during the afternoons, was well contested and clean, and we believe was thoroughly enjoyed. The Directors of the State Agricultural Society and all the officials worked day and night to make the fair a success and succeeded. Secretary Chas. W. Paine was at work with his coat off and seemed to be the first man to appear in the morning and the last to leave at night, while his command of every situation was complete. The California State Fair is growing into one of the State's biggest institutions, and as an educational asset to the State it has no superior.

The American Horse Breeders' Futurity, worth $6000, was decided at Syracuse, New York, last Wednesday and was won by Expressive Lou, the three-year-old daughter of Atlantic Express and Lou Dillon. The heats were in 2:09¼ and 2:09½ and Suldine, the colt by Worthy McKinney that was sold at auction last year for $2000, got second money which was about $1500. Lotta Watts was third and Bingen Silk fourth.

Healthy Hogs Resist Cholera.

Hogs are not as resistant to disease at this season of the year as they are in the spring when getting an abundance of green forage, and having access to a wide range. It is necessary, therefore, to give them more attention and better care to offset seasonal conditions and danger from new corn.

Do not feed in the same lot, or on the same acre of ground, day after day. This contaminates the feeding places, and also attracts crows, pigeons, and sparrows which may have been feeding with a cholera infected herd. Throw the feed out in a different spot each day, thus giving the pigs a clean "plate" from which to eat.

The water supply is of much importance to the health of the hogs at this time of year. Old mud wallows are never good, but are not so bad if the hogs can have pure water to drink, but if forced to bathe and drink in the same "tub" serious trouble can be expected at any time. See that they have an abundance of pure water to drink, situated near the wallow holes or feeding places. Pure water will aid materially in keeping the herd cholera free.—E. R. Spence, University of Missouri, Col. of Agriculture.

Rivalry at Horse Shows.

It is a matter of common knowledge among horsemen that a wealthy Pittsburg exhibitor once telegraphed to the trainer and rider of his entry on the eve of competition at the National Horse Show, at Madison Square Garden, New York, that he would give $1000 and the $100 prize besides if he "brought home the bacon" in just one class, and that not a championship class. And coaching men tell the story that on a memorable occasion $10,000 was the bounty offered by one of the millionaires who were striving to outdo one another in the exhibition of superb four-in-hand teams. It was estimated at the time that one of them had paid out $37,000 for the park four he sent into the ring in this class at the Garden, and that the three principal aspirants for the blue ribbon had expended upword of $150,000 in trying to put together park teams that could win.

No one can even approximate the aggregate expenditures of wealthy amateurs in trying to win the coveted Waldorf-Astoria Challenge Cup for gig horses, a trophy worth $500. The late Alfred G. Vanderbilt, when president of the National Horse Show Association, once expressed the opinion that $1,000,000 would not be enough to cover the cost of all the high stepping hackneys and docked trotters purchased at one time and another with this end in view.

Shorthorns the Farmer's Cattle.

The Shorthorn has rightfully gained the time-honored appellation of "the farmer's cow," and for beef and milk, for the improvement of all classes of cattle and for maximum returns on money invested, be it in the land of the north, south, east or west, no breed can claim superiority.

PACING HALF MILE RECORD LOWERED.

Syracuse (N. Y.), September 14.—Directum I., world's champion pacing stallion, at the New York State Fair Grand Circuit meeting today broke all records for a half mile by going the distance in 55¾ seconds. The former record of 56, held by Dan Patch, was made behind a wind shield in Memphis in 1903. Directum was paced by a running horse and covered the first quarter in 26¾ seconds, the fastest pacing in history. The second quarter was made in 29 seconds. He was driven by Thomas Murphy.

TROTTERS AND PACERS IN AUSTRALIA.

The New Zealand Trotting Club is putting a three-year-old race on its program for its next Easter meeting to be called the New Zealand Metropolitan Derby Stakes. The race will be a dash of one mile and a half, in harness. The stake will be $2500, of which $1500 will go to the winner, $625 to the second horse and $375 to the third.

◈ ◈ ◈

Bonnie Voyage, a black colt by First Voyage, son of Bon Voyage, won the Sire's Produce Stake for two-year-old trotters at Melbourne July 10th, winning in straight heats in 3:12 and 2:56. First money was $2250, second $150, third $75 and fourth $25.

◈ ◈ ◈

The New Zealand Metropolitan Trotting Club paid out a little over $100,000 in stakes during the season of 1914-15 and the Government received about $75,000 for its share of the betting percentage.

◈ ◈ ◈

The Australian Trotting Record of July 27th brings news of the death of the California bred trotting stallion Owyhee 2:11 that occurred on July 10th. Owyhee was foaled in 1894 and was sold to John Robertson of Australia in 1902, by Oakwood Park Stock Farm. He left four standard performers in this country and two of his sons produced standard speed. He sired O. Y. M. in Australia that is the sire of Our Thorpe 2:09, a horse that would have been brought to the United States to compete with the best here, had he not met with an accident last winter.

◈ ◈ ◈

The trotting season of 1915 has ended in New Zealand with the stallion Rothchild heading the list of winning sires and the California stallion Harold Dillon by Sidney Dillon but one point behind, with 41 winners to his credit.

HARTFORD GRAND CIRCUIT RACES.

Monday, September 4.

The Experiment, purse $2000; three heat plan:

Brisac, br s by Bingara	(Murphy)	1	1	1
American Girl, ch m	(Murray)	2	2	2
Jess Y., b m	(Pittman)	3	3	3

Also started—Lu Princeton.

Time—2:12¼, 2:10½, 2:10¾.

2:10 trot, $1000, three in five:

How Constantine, br g by Constantine	(Batchelder)	1	1	1
Humfast, br m	(Carpenter)	2	7	5

Also started—McCloskey, Dick Watts, Sweet Spirit and Peter Boy.

Time—2:10½, 2:09½, 2:09¼.

2:08 pace, purse $3000, three in five:

Miss Harris M., b m by Peter the Great	(McDonald)	1	1	1
Billy Dale, b g	(Cox)	3	2	2
J. L. Mc., br s	(Murphy)	2	3	3

Time—2:15½, 2:06¼, 2:05¼.

Tuesday, September 5.

2:14 trot, $1500:

Galeton, blk g by Barongale	(Prusie)	1	1	1
Leon B., b m	(Murray)	2	3	2
Marion Kirke, b f	(Goode)	3	2	3

Dos Palos and Helen Worthy also started.

Time—2:20¼, 2:17¼, 2:17¼.

2:15 trot, $1000:

Azora Worthy, b m by Bale Axworthy	(Murphy)	1	1	1
Fayre Rosamond, b m	(Cox)	2	2	2
Worthy Bingen, blk s	(Murray)	2	4	3

Karoni, Evito, Caroline and Kitty L. Bellini also started.

Time—2:10½, 2:10¼, 2:10¼.

2:18 trot, $1500:

Empress of Russia, ch m by Peter the Great	(Murray)	1	1	1
Baron Frisco, b g	(Dickinson)	2	2	2
Trusada, b m	(Cox)	4	3	3

Bettina and Tommy O. also started.

Time—2:14¾, 2:13¼, 2:13¼.

2:42 pace, purse $1000:

Wednesday, September 6.

Young Todd, b g by Director Todd	(Cox)	4	1	1	1
Princess Wilkes, ro m	(Crozier)	1	4	6	3
The Problem, blk h	(Murphy)	2	2	2	4
Spring Maid, ch m	(Horan)	6	3	3	2
Major A., b g	(Crossman)	3	6	4	r
Sir Anthony Carter, br s	(Geers)	5	5	5	r

Time—2:09¾, 2:07¼, 2:10¼, 2:12¼.

2:20 trot, three-year-olds, purse $2000:

Brownie Watts, br c by Gen. Watts	(Rodney)	1	1	
Binworth, b c	(Crozier)	2	2	
Oscar Watts, b c	(Hyde)	3	4	
Maple Tree, b g	(Murphy)	4	3	
Libya, b f	(Corwin)	5	6	
Balmacaan, b f	(Tallman)	6	5	

Time—2:14½, 2:12¼.

Two-minute pace (3 heats), $500 a heat:

Napoleon Direct, ch s by Walter Direct	(Geers)	1	1	1
Roan Hal, ro g	(Murphy)	2	2	2
Single G., b h	(Cox)	3	3	3

Time—2:04¼, 2:05¾, 2:05¾.

Thursday, September 7.

Two-year-old trot; two in three; purse $2000:

Emma Magowan, br f by J. Malcolm Forbes	(Murray)	1	1	
Labe Riddel, b c	(Hyde)	2	2	
Bertha McGuire, br f	(Ackerman)	3	3	

Also started—Silver Harvest, Harvest Gale, Worthy Volo, Buck Watt.

Time—2:12¼, 2:12¼.

The Charter Oak 2:08 trot, $5000:

St. Frisco, b s by San Francisco	(Geers)	2	0	2	1	1	1
Mabel Trask, ch m	(Cox)	1	0	1	2	2	2
Laramie Lad, b g	(McDonald)	3	3	3	3	3	r

Also started—Alma Forbes, Vance, Ima Jay.

Time—2:07¾, 2:07¾, 2:07½, 2:06¾, 2:06½, 2:07¾.

2:14 trot, three in five, $1000:

Pittsburg, ch g by General Athol	(Murphy)	1	1	5	1
Tregantle King, blk s	(Tallman)	2	2	1	3
Coastess Mobel, br m	(Cox)	4	3	2	4

Also started—Baby Doll, Zomrect, Host Peter, Lindenhall.

Time—2:10¼, 2:09¼, 2:09½, 2:10¼.

Friday, September 8.

Busy's Lass, b m by Peter the Great	(Cox)	1	1	1
Dolly Dixon, blk m	(Crozier)	2	2	2
Ephenetus, b g	(Goode)	4	3	3

Time—2:16½, 2:17¼, 2:18½.

Narcissa D. and American Girl also started.

Road Drivers' Club special, 2:17 trot, $1000:

Frisco Worthy, b g by San Francisco	(Crozier)	1	1	1
Ned Sterling, b g	(Pilgard)	5	5	2
Jay Boreal, br m	(Griswold)	4	4	3

Stand Pat, Tommy O., Kitty Moore and Florence B. also started.

Time—2:17¼, 2:17½, 2:19¾.

2:12 pace, $1500:

Diumeter, b g by Dunn	(Grady)	1	1	1
Altawood, gr m	(Murphy)	2	2	2
Aconite, b s	(Fleming)	3	4	3

Dick Mason and Wilbur S. also started.

Time—2:08¾, 2:08¼, 2:09¼.

Ella M. R 2:11¾, that won two races at the State Fair, was bred by the late Martin Carter who had he lived would have kept her for a broodmare. She is by Lord Alwin, son of Nutwood Wilkes and the great broodmare Ingar, dam of John A. McKerron 2:04½ and many others by the great Director 2:17. Her dam is Excella by Monbells 2:23½, son of Mendocino and that great broodmare Beautiful Bells. Her second dam is Expressive 2:12½, a wonderful three-year-old race winner, that is now one of the greatest of broodmares, as she is the dam of six trotters in the list including Atlantic Express 2:07¾, sire of this year's good three-year-old Expressive Lou 2:08¾ and many others. Expressive is also the dam of Expressive Mac, sire of Harold Cohen's good pacing mare Vera Hal 2:05. Ella M. R. is now ten years old and is a better mare than she ever has been before. She could easily get a mark of 2:10 or better on a good mile track.

◈ ◈ ◈

With the $5000 Charter Oak and the $10,000 Empire State stake to his credit, Saint Frisco will be the largest money winner of the year when the season ends, in all probability.

◈ ◈ ◈

C. A. Durfee's winnings with the stable of two and three-year-old trotters and pacers that his son W. G. turned over to him when he left for the Grand Circuit, amount to over $4000. And this at only two meetings—Santa Rosa and Sacramento. Pleasanton is yet to hear from.

CALIFORNIA STATE FAIR RACES.

Trotters, Pacers and Runners Draw Crowds That Fill the Grand Stands.

Thursday's program opened with the 2:09 trot with only three starters and it was an easy race for S. S. Bailey's Bon Guy that was making his first start this year. The other starters were Bon Cres and Harold C. and the trio were all by Bon Voyage.

The race the crowd had had come to see was the free-for-all pace with six starters. As Rastus had beaten Jim Logan two heats at Santa Rosa and the two had not met since there was great interest in this event, but Elmo Montgomery's old stallion was the better horse this day and he won in straight heats with Rastus second each time. Vera Hal, O. U. C. and Teddy Bear had considerable hard work trying to beat one another and they finally wound up in the order named. Little Bernice showed no improvement and was behind the flag in the opening round.

The first running event of the day resulted in a nose-and-nose finish between Rice & Clements' Senorita Dana and Nevada Stock Farm's Letitia, the verdict going to the former by an eyelash.

Brynlimah accounted for the Golden Gate Thoroughbred Breeders' Association handicap at a mile and a sixteenth. Charley Clark's distance performer had no trouble overcoming a gap opened by Slippery Elm. Slippery Elm dropped in the second hole, while Cordie F. got the show.

Thursday, September 7.

2:09 class trot, purse $1000:

Bon Guy, b h by Bon Voyage—La Moscovita by Guy Wilkes (H. G. Smith)	1	1	1
Bon Cres, bl h by Bon Voyage (Chadbourne)	2	2	2
Harold C., b g by Bon Voyage (Cohen)	3	3	3

Time—2:12¼, 2:12, 2:12.

Free-for-all pace, purse $1000:

Jim Logan, b h by Chas. Derby—Effie Logan by Durfee (Montgomery)	1	1	1
Rastus, br g by Liberty Boy (Tryon)	2	2	2
Vera Hal, b m by Expressive Mac (Cohen)	3	4	4
O. U. C., b g by C. The Limit (H. G. Smith)	4	5	3
Teddy Bear, b h by Del Coronado (W. Smith)	5	3	5
Little Bernice, b m by Del Coronado (Schwartz)	d		

Time—2:07½, 2:07, 2:07½.

Running, five and a half furlongs, $150—Senorita Dana (J. McIntyre) won by a nose; Letitia (Ormes) second by four lengths; Ed. Luce (McAdams) third by two lengths. Time, 1:08¼. Bellsnicker and Sir Fay also ran.

Running, Golden Gate handicap, one and one-sixteenth miles, $500—Brynlimah (Mathews)) won by three lengths; Slippery Elm (Henry) second by a head; Cordie F. (McAdams) third by a half length. Time, 1:46½. Rash, Zamlock and Adalid also ran.

Running, seven furlongs, $150—Acumen (J. McIntyre) won by one length; Right Smart (Mathews) second by a nose; Delmas (W. McIntyre) third by two lengths. Time, 1:28¼. Quality also ran.

Friday, September 8.

Friday saw another big crowd at the fair grounds, the 2:20 class trot with eight starters, the 2:10 pace with the same number, and the consolation purse in the three-year-old futurity pace making up the harness racing part of the card.

Mr. Geo. Giannini's well bred mare Ella M. R. that has raced so often at the Stadium track in San Francisco won the trot by getting the second and third heats, and she would probably have won the first had she not swerved in front of Zolock Zar and been set back for not keeping her place in the stretch. Third money went to Eloise Dell and fourth to Miss San Francisco.

A. B. C. behaved himself in the first heat of the 2:10 pace, but made costly breaks in the next two and Lock Logan was first both times. Pointer's Daughter won third money, and Della H. fourth.

The consolation purse for three-year-old pacers that had started and won no money in the State Fair Futurity had but two starters, Stanley Quinn and Carolyn. In the first heat Carolyn took the pole too soon in going around the first turn and although she finished in front was set back for interference. In the next two heats she made repeated breaks and Stanley Quinn won.

Prior to the regular events Peter McKlyo 2:06 was sent to beat the track record of 2:08¼. Driven by James Thompson and paced by a runner in the last half of the mile, the stallion made the mile in 2:06½. The timers hung out 2:05½ and there was immediately a lot of conversation among horsemen who had held watches during the performance. Thompson said his watch showed 2:06¾ for the mile and an investigation was ordered. The next day it was officially announced by Mr. Smith, the official starter, to the vast crowd that was in the stand, that the corrected time for Peter McKlyo was 2:06½.

Stanford Stake, three-year-old trotters, $1500:

Lulu B., b m by The Bondsman—Loma B. by Stam B. (Quinn)	2	1	1
Hermes, br c by Carlokin—Miss Quealy by Moko (C. A. Durfee)	1	2	2
Alesandro, Natalday and Manuelito, distanced first heat.			

Time—2:14, 2:14, 2:15¼.

Two-year-old pacing, purse $500:

Oro Fino, b c by Copa de Oro—Lady H. by Del Coronado (C. A. Durfee)	1	1	
The Orphan, b c by Royal McKinney—Lilly Ash by Derby Ash (Tryon)	2	2	
El Paso, b c by True Kinney—Ella J. by Bob Mason (Chadbourne)	3	3	
Tommy Atkins, b g by Tom Smith (Berry)	d		

Time—2:17¾, 2:17½.

To beat 2:08¼ trotting:

Peter McKlyo, b s by Peter the Great—Klyo by Jay McGregor (Thompson)	Won		

Time—2:06½.

To beat 2:30¼ trotting:

Lily of the Valley, b f by Palo King, dam by Iran Alto (Hogoboom)	Won		

Time—2:24¼.

Running, five and one-half furlongs—Bernard (Mathews) won by 2 lengths; Quality (Henry) second by two lengths; Bellsnicker (W. McIntyre) third by one length. Time, 1:04¾. Rapid May also ran.

Running, one mile and a sixteenth—Delmas (Henry) won by two lengths, Rash (Ormes) second by a neck, Senorita Dana third by one length. Time, 1:46¾. Acumen also ran.

Running, six furlongs—Wasatch (J. McIntyre) won by one length, Margie Coghill (W. McIntyre) second by 1½ lengths, Sam Connor (Cavanaugh) third by 2 lengths. Time, 1:15. LaBelle Brocade and Jennie Crawford also ran.

Saturday, September 9.

On Saturday over 20,000 people were at the fair grounds and filled the grand stands to overflowing when the races were called. The first event was the Stanford Stake for three-year-old trotters with a value of $1500. There were five starters and as three were distanced the first heat the race resulted in a duel between Hermes and Lulu B. It will be remembered that the colt and filly were tied for first place in the Occident Stake one week previous when three heats had been trotted and that when the judges ordered a fourth heat, Mr. Woy had protested and refused to start his mare, Durfee walking over with Hermes and being awarded the cup and added money.

They went away in the first heat of the Stanford with Lulu B. leading and Hermes with his nose at her wheel. They raced this way until the stretch was reached when Durfee began driving the colt and he gradually crawled up on the filly and beat her by a neck at the wire in 2:14. Alesandro, Manuelito and Natalday were behind the flag.

In the second heat Quinn pursued the same tactics, and led from the start. There was a great race down the stretch and the Bondsman filly outgamed the son of Carlokin, to the surprise of every one, and the third and final heat was much the same, except that both three-year-olds were very tired at the finish in 2:15¼. By winning the Breeders' Futurity and the Stanford Stake, and trotting the fastest mile of the year for a three-year-old in California, Lulu B. is at the present time the champion three-year-old of the California circuit.

When the Stanford Stake was ended C. A. Durfee had lost his first race of the meeting out of five starts, but he got back into his stride by annexing the two-year-old pace during the same afternoon with the neat little pacer Oro Fino by Copa de Oro. This colt is owned by William Loftus and he won very handily in 2:17¾ and 2:17½, the fastest time made by the California two-year-old pacers this year.

Taken all together, the harness racing at the State Fair this year was not up to its usual standard and no very fast time was made in any of the events. The track was not in good condition, but even though it had been there were no sensational horses in any of the events, although some good contests resulted and the races interested a large crowd. So evenly were the horses matched in a majority of the events that had there been any opportunity of wagering on the results much money would have changed hands. The State Fair officials excluded from the grounds every person who attempted to do even oral betting and the meeting was strictly a betless one.

2:20 class trot, purse $1000:

Ella M. R., b m by Lord Alwin—Excella by Monbells. (Machado)	2	1	1
Zolock Zar, br g by Zolock—by Alcazar. (Chadbourne)	1	2	2
Eloise Dell, b m by Alconda Jay (Smith)	3	3	3
Miss San Francisco, b m by San Francisco. (Schwartz)	4	4	4
Dick W., b g by Carlokin (Walker)	7	5	5
Major's By Guy, b s by Major Dillon (Berry)	5	6	6
Howard's Comet, b g by Teddy Rey (Hoffman)	6	d	
Lindsay Belle, b m by Bon Voyage (McLees)	d		

Time—2:12½, 2:12, 2:13.

2:10 class pace, purse $1000:

Lock Logan, b h by Zolock—Effie Logan. (Montgomery)	2	1	1
A. B. C., blk h by Young Monterey (Chadbourne)	1	5	2
Pointer's Daughter, b m by Star Pointer (Finlay)	6	2	4
Della H., b m by Hal B. (Smith)	3	3	3
Bold Harry Aerolite, b h by Aerolite (Machado)	5	4	5
Alto Barnato, b g by Barney Barnato (Berry)	4	7	6
Dixon Boy, b g by The Patchen Boy (W. Smith)	8	6	7
Best Direct, ch s by Best Policy (Brolliar)	7	8	8

Time—2:09, 2:10, 2:10½.

Consolation Purse Futurity No. 5—three-year-old pacers—$300:

Stanley Quinn, b c by Dan Logan—Lady Arthur by Sir Vaux. (Tryon)	1	1	1
Carolyn, b f by Lock Logan—Trilby Maid by Black Ralph Jr. (Montgomery)	2	2	2

Time—2:19¼, 2:24, 2:25.

Consolation Purse Futurity No. 5—three-year-old trotters—$200:

Natalday, b c by Wilbur Lou—Ella J. by Bob Mason. (Sanders)	1		

Walkover.

Running, five and a half furlongs—Ed. Luce (Mathews) won by nose; Letitia (Ormes) second by three lengths; Right Smart (Cavanaugh) third. Time, 1:08. Only three starters.

Running, fiive and a half furlongs—Slippery Elm (Henry) won by two lengths; El Mahdi (J. McIntyre) second by three lengths; Rash (Ormes) third. Time, 1:09½. Adalid left at post.

Running, six furlongs—Senorita Dana (Henry) won by three lengths; Miss Fielder (Ormes) second by two lengths; Marie Coghill (J. McIntyre) third by neck. Time, 1:15½. Antrim, Zamlock, also ran.

Louis Lee Haggin, who now owns the famous hackney harness champion Hildred, has bred her to the trotting stallion Walnut Hall 2:08¼, sire of The Harvester 2:01. Walnut Hall is regarded as one of the best living stallions in make and shape for heavy leather, and the owner of Hildred hopes the mating will produce a champion harness horse. Hildred has produced one foal by a hackney and one by a thoroughbred race horse, and both are said to be promising candidates for blue ribbons.

DAUGHTER OF WILBUR LOU WIN'S WORLD'S RECORD.

There was a harness race meeting at the half mile track at Hemet on Monday last, Labor Day, and Hemet Queen, yearling daughter of Wilbur Lou, paced to a record of 2:22¼, which is the world's record for a yearling pacer on a half mile track, this record having been previously held by Lady Littleton, a daughter of Moquette, with a mark of 2:23¼. This yearling filly by Wilbur Lou is out of Hemet Girl by Geo. W. McKinney, second dam Lady Woolsey, dam of Harry R. (1) 2:24½, by Woolsey, a full brother to Sunol 2:08¼.

Edith Carter, a yearling filly by Kinney de Lopez, trotted to a record of 2:26¼. Wilbur Direct, a two-year-old by Wilbur Lou, trotted in 2:32, and Zeta Lucille, a two-year-old filly by Wilbur Lou, trotted in 2:19¼. Three races were given and were greatly enjoyed by a large crowd. The summaries:
